"The Times", a daily, except Sunday, newspaper published in San Mateo, California, in its issue of April 22, 1968, published an article entitled "Dick Gregory at College - Chuckles, belly laughs, chills". The article revealed that GREGORY addressed about 1,000 persons at the College of San Mateo gym, San Mateo, California, on April 20, 1968. The article under a subcaption of "The Coming Democratic Convention in Chicago this Summer" quotes Gregory as follows:

"There is a fascist element loose in this country. You had better keep your eyes on it. There is the strong possibility that the International Amphitheater in Chicago will be blown up during the height of the convention. That

is why I called off my scheduled demonstration there. I don't want black folks to be blamed for that."

The "San Matean", a weekly newspaper published by the Associated Students of the College of San Mateo, (CSM) California, in its April 26, 1968 issue, published an article entitled "Dick Gregory Appearance: Comic 'Tells it like it is'". The article told that Gregory appeared at the CSM gym last Saturday night. The article set forth the following paragraph:

"As far as the Democratic convention in Chicago goes, Gregory implored the audience to advise any of their friends going to the convention to please stay home."

## FEDERAL BUREAU OF INVESTIGATION

Date 9/27/68

Mr. STEVE BELL, American Broadcasting Company radio news reporter, New York, New York, who is traveling with the HUBERT H. HUMPHREY campaign party, was interviewed at the Sheraton-Palace Hotel, San Francisco, California.

Mr. BELL said he was at Chicago covering the Democratic National Convention (DNC), August 26-29, 1968, but he spent all of this time at Convention Hall with the exception of Thursday evening, August 29, 1968. On Thursday night he went to Grant Park at about 6:00 or 7:00 PM, where he found a crowd of about 2000 or 3000 people listening to a recording of a speech made earlier that day by EUGENE MC CARTHY. After the recording was finished, there might have been one or two short talks; but he cannot recall what was said and who said it. RICHARD GREGORY then addressed the crowd and appeared to be in complete control of the situation. GREGORY invited all present to go to his residence with him and have a beer.

Mr. BELL said he, as a reporter, asked GREGORY what he intended to do. Mr. GREGORY said he wanted to provide grounds for a legal confrontation with the authorities to prove that any group has the legal right to walk on the sidewalk. GREGORY said his residence, where he had invited the crowd to accompany him, just happened to be on the way to Convention Hall. He added that he had an agreement with the authorities permitting him to take the crowd to 18th Street and Michigan Avenue where he would then negotiate further with the authorities. GREGORY then explained his plan to the crowd present and admonished them that the march would be orderly, on the sidewalk; and he insisted that it be done his way. The crowd then left Grant Park with GREGORY leading them.

Mr. BELL said he went along with the crowd with GREGORY and several delegates from the convention at the head.

He said he can recall the identity of only one of the delegates who were with the crowd, [REDACTED] Mr. BELL said the crowd led by GREGORY walked to about 18th and Michigan Avenue, which GREGORY said was the spot where he agreed to stop and negotiate further with the authorities. At this point, the crowd stopped, and GREGORY left the immediate area, explaining that he was going to talk to the authorities. Mr. BELL stated that there were a considerable number of National Guardsmen standing by at this point. GREGORY returned and announced he was told that the group could go no further toward Convention Hall or they would be arrested. He said the National Guard told him anyone who crossed a white line across the street would be arrested. GREGORY announced that this was the legal confrontation with the authorities that he was looking for, and he would cross the line and be arrested. He invited others to join him; and he and a number of people, including some of the delegates in the group, walked across the line and were arrested by the National Guard without violence or resistance. Three police department paddy wagons arrived and the arrested persons were taken away. Mr. BELL said he could not identify any of the arrested persons other than GREGORY.

b6  
b7C

After the arrested persons were taken away in the paddy wagons, the crowd appeared to become restless; and there were shouts of things like, "let's go" indicating that at least portions of the crowd wanted to move across the line and confront the authorities. There was no haranguing of the crowd by any individuals; and no one appeared to be taking over leadership of the crowd subsequent to GREGORY's arrest.

At about this time, the National Guard troops that were assembled at the spot put on gas masks. Mr. BELL said he walked back about 20 or 30 feet from the front of the crowd; and while he was back there, he heard the command, "push 'em back". He said he does not know who gave the command, but he assumed it was a National Guard officer. He said he does not think the crowd was pushing forward toward the National Guard, and he does not really know why the order to push the crowd back was given. However, about 12 National Guardsmen moved toward the crowd and pushed the crowd back by swinging their rifle butts at the crowd. Mr. BELL said he saw two members of the crowd knocked down by rifle butts with lacerations on their foreheads. He said he cannot identify the

SF 176-45

RNB:mb

persons who were knocked down or the Guardsmen who knocked them down. Mr. BELL said he feels this move against the crowd by the Guardsmen was a little drastic since the front ranks of the crowd could not move back away from the Guardsmen.

Immediately after the Guardsmen began pushing the crowd back, the National Guard used tear gas and routed the crowd. The crowd was driven back on Michigan Avenue by the tear gas; and they reformed on Michigan Avenue about a block or two from the scene of the original confrontation. The crowd of demonstrators re-formed across the avenue facing the Guardsmen. The National Guard advanced toward the crowd in Jeeps, fender to fender, with barbed wire on the front. When the Jeeps were about 20 feet from the crowd, the Guardsmen began spraying tear gas and throwing white balls into the crowd. Mr. BELL said he does not know what the white balls were. Mr. BELL said he was behind the National Guard line at this point and he noted that a few rocks and bottles were thrown by the crowd at the Guardsmen.

Mr. BELL said the Guardsmen completely routed the crowd with tear gas and the use of Jeeps, and the crowd retreated into Grant Park at about 9:00 PM. He said he remained in the area until about midnight and observed that the crowd of demonstrators remained in Grant Park and there was no further confrontation between the demonstrators and the authorities that evening.

Mr. BELL said from what he observed on Thursday evening, August 29, 1968, RICHARD GREGORY did not plan or desire any violence. While GREGORY was with the crowd, he was in control and there was no trouble.

Mr. BELL said at no time did he receive any information from the demonstrators that there would be a violent confrontation with the authorities at a particular place or time, which would indicate that such a confrontation was planned. He said he heard no haranguing of demonstrators by anyone in which violence was advocated or demanded. He said he recalls that the crowd of demonstrators did sing and chant some at times, but there was very little such singing

SF 176-45  
RNB:mb

and chanting, and he cannot recall the substance of it.

Mr. BELL also stated that he has no knowledge of any commands to or from the authorities which, in his opinion, provoked violence by the demonstrators during the DNC.

 ARL; RACIAL MATTER

Re CGairtel to the Bureau and all SACs, 9/17/68,  
 captioned, "DISTURBANCES IN CONNECTION WITH DEMOCRATIC  
 NATIONAL CONVENTION (DNC), ARL."

Reairtel sets forth a lead for recipient offices  
 to review indices relative to RICHARD GREGORY and where  
 he appeared in our territory to develop witnesses relating  
 to possible ARL violation.

Instant SA file reflects GREGORY appeared and  
 spoke at St. Mary's University, San Antonio, Texas, on  
 2/6/68; however, it does not reveal he made any comments  
 in violation of the ARL.

Further, SA desires to point out the following  
 for the consideration of the Bureau:

CG LHM dated 1/11/68, captioned, "RICHARD CLAXTON  
 GREGORY; RM," sets forth a lengthy itinerary of GREGORY  
 from a period covering 1/10/68, to 5/16/68. During this  
 period he was to speak at various colleges and/or universities.

The ARL, which is Public Law 90-284, was passed  
 on 4/11/68. It would appear that any comments or activity  
 of GREGORY made or performed prior to 4/11/68, would not  
 be admissible evidence in any ARL violation since this would  
 be an ex post facto situation.

The above-mentioned CG LHM reveals GREGORY planned appearances at some 18 campuses subsequent to the passage of the law on 4/11/68. It would, therefore, appear that with that large number of appearances there would be more than sufficient opportunity to develop legally admissible evidence concerning any possible ARL violation on GREGORY's part.

Since GREGORY's appearance in San Antonio was prior to the passage of the ARL, San Antonio will conduct no investigation in this matter.

At no time during the occasions when GREGORY has been in the Seattle Field Division has any personal contact with him been reported by any confidential sources or informants.

GREGORY's appearances in the State of Washington, and his incarceration here, were all given extensive coverage by the press. A review of the published material in this regard for leads has revealed no reporting of any statements or activities of GREGORY which would appear pertinent to instant matter.

b6  
b7C

The investigation at Bellingham was not pursued beyond what is reported herein since the statement GREGORY is reported to have made there, while possibly subject to interpretation as at least indirectly indicative of his one time intent to disrupt the Democratic National Convention (DNC), is, at the same time, equally indicative of an abandonment of any plans he had had in this connection.

The remark GREGORY is reported to have made at Ellensburg is shown by investigation to have been vague and lacking in specificity, and loses significance when considered in the light of those made by him the following day at Bellingham, and to [REDACTED]

Available information does not reveal GREGORY was in the State of Washington subsequent to his conviction on illegal fishing charges in late 1966 and early 1967, until his speaking tour brought him to Ellensburg and Bellingham on April 10 - 11, 1968. It would seem likely, in view of the content of Chicago airtel to the Bureau of September 13, 1968, that his militant statements and activities with reference to the DNC at Chicago probably originated and subsided or entered a period of quiescence, at least, in the interim.

As noted in the instant report, GREGORY did, while in jail at Olympia, Washington, issue a threat to "demonstrate" against Governor DAN EVANS of Washington State at the Republican National Convention in Miami if EVANS did not comply with a request to visit him in his jail cell, but he later withdrew this and nothing is reported to have occurred at the Republican Convention to indicate any action by GREGORY or on GREGORY's behalf ever took place there.

Title: RICHARD CLAXTON GREGORY

Character: ANTIRIOT LAWS

## Synopsis:

GREGORY arrested for illegal fishing demonstration with Indians in Washington State in 2/66 and 3/66 and served sentence in County Jail in Olympia in June and July, 1968, as result of this. Made speech at Central Washington State College 4/10/68 and at informal conversation thereafter reportedly made vague reference to Democratic National Convention (DNC) in Chicago but did not specifically enlarge upon this and not interpreted as threatening. Made speech on 4/11/68 at Western Washington State College which did not include any references to DNC. In subsequent press conference was asked about prior reports he intended to disrupt the DNC and answered negatively, referring to "what has happened in Chicago". In conversation later with one [redacted] specifically said wanted to prevent any outbreaks at DNC and did not think it should be held in Chicago because he was fearful violence would erupt there if it was. While incarcerated GREGORY wrote letter asking Washington State Governor DAN EVANS to visit him in his jail cell, threatening to "demonstrate" against EVANS at Republican National Convention in Miami if he refused to do so. Not reported to have made any statements indicative of intent to personally disrupt, or promote the disruption of, the DNC while in Olympia.

Arrest Record

Items in Seattle, Washington, daily newspapers of general circulation between January 31, 1966, and February 5, 1966, reveal subject was appearing between those dates as an entertainer at the Edgewater Inn, Seattle, having come to Seattle from an engagement in Vancouver, B.C., Canada.

Articles in the "Seattle Post-Intelligencer" and the "Seattle Times", issues of February 7, 1966, titled respectively "GREGORY Lends Hand To 'Fish-In'" and "Fish-In By GREGORY Called Publicity Stunt", set out GREGORY had cancelled engagements in Miami, Montreal and New York, "to help a group of Indians carry on their fishing-rights fight with the State". The articles state GREGORY participated in a "fish-in" with the Indians in the Nisqually River, between Tacoma and Olympia, Washington, and had said he would continue to do so "until the battle is won".

An article in the February 15, 1966, issue of the "Seattle Times", titled "DICK GREGORY Goes To Jail For Fishing", reflects GREGORY was arrested that date at Olympia, Washington, charged with two counts of illegal net fishing on the Nisqually River.

AT OLYMPIA, WASHINGTON

On September 26, 1968, [REDACTED] Thurston County Sheriff's Office, advised that RICHARD CLAXTON GREGORY, FBI #769 519E, was first received by this jail on an arrest made on February 15, 1966, when he was charged with unlawful use of a set-net for fishing on the Nisqually River. He was released on February 17, 1966, on \$500.00 bond.

He was received a second time by this jail on March 1, 1966, after having been again arrested for aiding and abetting the setting of gill nets on the Nisqually River. He was released on March 2, 1966, on a \$1,000 bond.

He was most recently received on June 7, 1968, when he appeared to serve sentence resulting from the above arrests. He served 45 days and paid court costs of \$52.40, and was released on July 16, 1968.

Investigation Related to Possible Anti-Riot  
Laws (ARL) Violations

AT ELLENSBURG, WASHINGTON

An article in the "Ellensburg Daily Record", daily newspaper of general circulation published in Ellensburg, issue of April 11, 1968, titled "'We Can't Wait' Says GREGORY", reflected that GREGORY had spoken at Central Washington State College (CWSC) on the evening of April 10, 1968.

On April 11, 1968, Sgt. [ ] Ellensburg Police Department, said he attended the talk made by GREGORY the night before at CWSC, although he did not remain to the end. [ ] said there were no demonstrations or disorder. In the text of his speech GREGORY made a remark to the effect if there were FBI or CIA agents in the audience they should "mark in their book that one policeman's life will be taken for every black person's life lost". He stressed that politicians are responsible for much of the disorder current in the United States, and said "they promise much but do not fulfill their promises".

b6  
b7c

GREGORY referred to the fact his conviction on illegal fishing charges had been affirmed by the Washington State Supreme Court. He said he would "serve his time" quietly, but the period might be something the people of Washington would never forget, adding "Summer is rioting time"; however, he gave no specifics on this and [ ] noted no references to Chicago or any other locale.

[ ] said GREGORY had stayed at a local motel, and had not made or received any telephone calls.

[ ] was reinterviewed on September 27, 1968, with respect to GREGORY's appearance in Ellensburg and was questioned as to any recollection he might have of any remarks made by subject which might be pertinent to the disturbances in Chicago at the time of the Democratic National Convention, and he again said he can recall nothing in this regard.

Mrs. VIRGINIA OLDS, reporter for the "Ellensburg Daily Record" on September 27, 1968, stated she attended the speech given by RICHARD CLAXTON GREGORY at the CWSC on April

SE 176-9

10, 1968, in her capacity as reporter. She said she did not recall that GREGORY made any reference whatsoever in this talk to Chicago or the Democratic National Convention, nor did he mention any plan to travel to any place to engage or participate in or encourage any type of demonstration, or urge others to do so.

THOMAS BEAR, News Director, KXLE Radio, Ellensburg, stated he attended the speech given by RICHARD CLAXTON GREGORY at Central Washington State College, Ellensburg, on April 10, 1968, and also had been present later when GREGORY was conversing informally with a small group of individuals following his regular address.

In the regular address GREGORY did not mention any plan for going to Chicago during the Democratic National Convention in August, 1968. BEAR does not recall he mentioned the Convention in any way whatsoever, or an intended demonstration or "disruption" anywhere.

In the latter informal conversation with the small group, following a question by an unidentified Negro who was present on "What about Chicago", GREGORY replied, in effect, "We are working on the Democratic National Convention in Chicago and they may move it from Chicago when we get through". He made this comment in a rather "just in passing" manner, was not asked to and did not enlarge upon it. BEAR said he has no reason to believe GREGORY meant this as any threat against the Convention, or that he planned any disruptive action with respect to it.

PAUL HART, Reporter, "Yakima Herald Republic", on October 2, 1968, advised that he attended the meeting April 10, 1968, at the Pavilion at the Central Washington State College at Ellensburg where RICHARD CLAXTON GREGORY was the featured speaker. He stated that following the featured speech, GREGORY conversed with a small group of individuals, most all of whom were colored, but he did not know what transpired at this discussion which appeared to be impromptu and informal. He recalled that GREGORY stated sometime during his speech that he would be returning to Chicago although he had no recollection GREGORY made any reference to the Democratic National Convention, or that there was any threatening overtones to this statement.

On October 2, 1968, [redacted] Student Union, Central Washington State College, advised that he recalled the appearance of RICHARD CLAXTON GREGORY at the College on April 10, 1968; however, his only contact with Mr. GREGORY was in the Pavilion where the meeting was held and he did not attend nor did he see any subsequent meeting of GREGORY in that area. He stated [redacted] whom he believed was the [redacted] at the time, could possibly have been with GREGORY later because [redacted] was reported to have gone to Yakima for the purpose of bringing GREGORY to Ellensburg. [redacted] could recall the names of no other individuals who might have been in close contact with GREGORY or any persons who might have heard any remarks he possibly made regarding his return to Chicago or in connection with the Democratic National Convention. He stated he himself recalled no statement by GREGORY regarding these matters in his regular address.

b6  
b7C

On October 2, 1968, [redacted] Student Government Association, in charge of speeches, Central Washington State College, Ellensburg, Washington, advised that when RICHARD CLAXTON GREGORY made his appearance at Ellensburg on April 10, 1968, he, [redacted] had picked up GREGORY at the Yakima Airport, transported him to Ellensburg, and remained with him during and after the speech which he made at the Pavilion at the college. [redacted] stated he was also present following the speech when GREGORY met with a small group of individuals who wanted to speak to him and shake hands with him. He held a press conference at approximately 7:00 p.m. prior to his speech and he insisted throughout his stay in Ellensburg he would not meet with any private groups whatsoever and he rebuffed efforts with

the leader of the Black Student Union to have him meet with them as a group stating he would not meet with anyone unless the press or anyone else interested were present, and this attitude on his part was quite obvious. He made no statements at any time indicating he intended any disruption in Chicago or anywhere else, or desired any such action on the part of others.

AT BELLINGHAM, WASHINGTON

An article in the "Bellingham Herald", daily newspaper of general circulation published in Bellingham, issue of April 12, 1968, titled "GREGORY Tells College Students They Have Job To Do On Rights", reflects that GREGORY spoke in that city at Western Washington State College (WWSC) on April 11, 1968.

With reference to GREGORY's talk at WWSC, [REDACTED] WWSC, who attended the affair, offered the following remarks on April 11, 1968:

GREGORY said nothing in the course of his talk about disrupting the Democratic National Convention as he has in the past threatened to do. He talked a good bit about the Indians in the State of Washington and how they have suffered. He referred derisively to President JOHNSON on several occasions, and described him as the "slickest politician since Caesar"; said he originally had a rather high opinion of ROBERT F. KENNEDY, but this was before he became "a politician". He now holds him in low esteem.

b6  
b7C

At a press conference following his talk, [REDACTED] said GREGORY was specifically asked whether he was still planning on disrupting the Democratic National Convention as he reportedly had on prior occasions said he intended to do, and he replied, "No, I don't have to now; you saw what happened in Chicago". He did not enlarge upon this.

[REDACTED] said there were no disturbances, demonstrations, or disorder of any kind incidental to subject's appearance in Bellingham.

[REDACTED] is no longer with WWSC and sources could not readily provide his present location.

[redacted] Bellingham, Washington, was interviewed on September 30, 1968. He advised he believes in non-violence, peaceful co-existence among all races, and the existence of God.

b6  
b7C

He advised he was in Hawaii in 1963, when he heard DICK GREGORY make some remarks on a TV program concerning violence with which he disagreed. He telephoned GREGORY and expressed his disagreement. He and GREGORY then spent the next three days in discussions, GREGORY canceling all his commitments for those three days.

After that time he had several other discussions with GREGORY, terminating in approximately 1964. During that time he found GREGORY did not have any basis in history; had no knowledge of the origin of slavery in England and the United States; no knowledge of the life and philosophy of ABRAHAM LINCOLN; and had not "found himself".

He advised he had read all the books that GREGORY had written, and when he learned GREGORY was to speak at the Western Washington State College in Bellingham on April 11, 1968, he attempted to hear the speech and to attend the press conference held by GREGORY, to determine whether GREGORY had changed his thinking and if his espoused thoughts were "sincere", or merely to attract publicity as a comedian.

He stated he went to the college to attend the speech and the press conference, but was refused admission because he was not a member of the student body of the college.

After the speech and the press conference, he did have opportunity to talk with GREGORY briefly, and later took GREGORY in his [redacted] automobile to Seattle to a motel where GREGORY was staying. He talked at length with GREGORY there and GREGORY stated at that time, in the motel, he did not feel the upcoming Democratic National Convention should be held in Chicago, Illinois, because he was afraid violence might erupt, and he, GREGORY, did not want any violence to break out in Chicago, or anywhere else, and he was returning to Chicago to try to exert his influence to prevent any outbreaks of violence, both in Chicago in general and at the Democratic National Convention, specifically, should the latter be staged there.

[ ] said at no time did GREGORY ever reveal to him he was influenced or directed, or was working under the direction or instruction of anyone else, or any organization, and at the time GREGORY talked with him in the motel in Seattle, Washington, in April, 1968, GREGORY appeared sincere to him concerning his statement he did not want any violence to break out in Chicago, at any time, and particularly at a Democratic National Convention.

b6

AT OLYMPIA, WASHINGTON

Jailor [ ] supra, said in any conversations he had with GREGORY, or that he heard about between GREGORY or any other person, there was nothing said to indicate subject had any plan or intention of engaging in any disruptive or riotous activities in Chicago during the Democratic National Convention.

On September 26, 1968, DEAN SHACKLETT, Editor, "Daily Olympian", daily newspaper of general circulation, said he followed the "GREGORY story" rather carefully while GREGORY was in Olympia, and he has no recollection of any statement made either to him, or to anyone else, by GREGORY which would signify GREGORY had any plans to personally attempt to disrupt the Democratic National Convention, or incite such disruption or riotous activities by others.

On September 27, 1968, STEVE KENT and BILL MERTENA, both members of the Olympia staff of the Associated Press, Legislative Building, advised they reported on the activities of GREGORY and spent time talking to him when he was confined both in Olympia in June and July, 1968, and in the hospital in Tacoma, Washington, where he was for a few days for a cold contracted during his incarceration. Neither knew of any instance where GREGORY advocated violence at the Chicago Convention of the Democratic Party. They said, if anything, GREGORY feared violence and for this reason implied he would probably skip the convention.

On September 27, 1968, MIKE FLYNN, United Press International, Legislative Building, said he knew of no advocacy of violence by GREGORY at the Chicago Convention. He said he followed GREGORY's case while incarcerated in Olympia from a press standpoint.

On September 26, 1968, Prosecuting Attorney HAROLD KOCH and Deputy Prosecuting Attorney FRED GENTRY, for Thurston County, informed that they spoke with GREGORY on a number of occasions during his incarceration. They could not recall any action or statements made by him indicative of any intent or plan to demonstrate at or disrupt the Democratic National Convention.

On September 27, 1968, [redacted] advised he was [redacted] during [redacted]. He said GREGORY said he was going back to his home in Chicago when released, for several weeks, then hoped to go on a fact finding tour around the world concerning the Civil Rights movement. At one time, GREGORY wanted an audience with Governor DANIEL EVANS, and threatened that if he was refused, he would "demonstrate" at the Republican Convention in Miami. He was never granted the audience. [redacted] said GREGORY contended he did not believe in violence and was concerned about the welfare of his fellow man. GREGORY made no remarks in [redacted] presence about a possible disruption of the Democratic National Convention.

An item in the "Seattle Post-Intelligencer", issue of June 30, 1968, titled "GREGORY Invites EVANS to Jail", is quoted, in part, as follows:

"Comedian DICK GREGORY last night invited Gov. DAN EVANS of Washington to visit him in his Thurston County jail cell 'or I'll have no alternative but to lead demonstrations against you at the Republican National Convention in Miami'.

"The invitation came in a letter which GREGORY, who is serving a 90-day sentence for illegal fishing, gave to his wife [redacted] to give to the governor. Mrs. GREGORY arrived here yesterday to visit her husband.

"'I hope you will find time to come over during your lunch hour one day to discuss with me the problems of Indians and other minority groups', GREGORY said.

"GREGORY, who has gone without food and taken only distilled water since he entered his cell June 7, told

"EVANS he intends to serve his full 90-day sentence and 'continue my fast until I am released to demonstrate to the world the problems confronted by my Indian brothers'.

"GREGORY's conviction stemmed from a fish-in on the Nisqually River near Olympia more than two years ago to dramatize the Indians' dispute with the state over fishing rights."

An article in the "Seattle Times" of July 3, 1968, titled "Reservation Fishing Ban Is Seen as Next", reported on a press contact at Olympia that date with LILLIAN GREGORY, subject's wife, wherein she made the statement the Republican National Convention in Miami would be picketed by friends of GREGORY in opposition to Governor DAN EVANS "the keynote speaker".

The "Seattle Times" of July 17, 1968, in an article titled "GREGORY to Tour World", stated:

"GREGORY said that in light of his world-wide fact-finding tour as a presidential candidate, he has canceled plans for a demonstration against Gov. DAN EVANS at the Republican National Convention in Miami. He said that in return he expects the governor to meet with Indian leaders."

The "Bellingham Herald" in its July 17, 1968, issue carried an article under a Tacoma dateline titled "GREGORY Eyes Visit With Pueblo Crew", and therein comments on the above statement of subject, saying:

"During a news conference at his attorney's home here, GREGORY said he was canceling 'in good faith' a threatened demonstration against Gov. DAN EVANS when EVANS keynotes the Republican National Convention.

"GREGORY said he hoped EVANS would meet with Mrs. JANET MC CLOUD, a Nisqually Indian heading the fishing rights protest, but he would not say what might happen if EVANS refused such a meeting.

"I feel that the cause of the Indian in America is the number one cause confronting the country today. I put it even ahead of the black struggle", he said."

SE 176-9

The "Post-Intelligencer", issue of July 18, 1968, in an article titled "DICK GREGORY Resumes His Drum-Beating for Indians", stated, in part:

"While in jail, GREGORY had TANNER tell the press he hoped to be out in time to lead demonstrations against Gov. DAN EVANS at the GOP national convention. GREGORY said yesterday he would probably be out of the country at the time, and the demonstrations 'probably wouldn't be necessary'.

"GREGORY described racism as nothing but 'hunger feeding on Indians, Negroes, Puerto Ricans and Mexicans'. He admonished:

"'Baby, you'd better change your appetite or have the menu changed on you'."

RICHARD CLAXTON GREGORY

On September 16, 1968, a source, who has furnished reliable information in the past, advised that Dick Gregory is scheduled to make an appearance at Carney Hall, on the campus of Kansas State College, at Pittsburg, Kansas, on the night of September 23, 1968. Gregory's appearance is being sponsored by the Kansas State College Student Union Board, [redacted] the program director, and the main theme of his address is supposed to deal in the area of "Civil Rights". His appearance time is scheduled for 8:00 PM, and it is expected that he will speak in the neighborhood of two hours. The source stated that he will personally cover Gregory's appearance at Kansas State College on the 16th.

b6  
b7C

On September 23, 1968, the same source advised that Gregory arrived at the Joplin Airport, Joplin, Missouri, on this date at 6:27 PM, on Frontier Airlines Flight # 447, arriving from Kansas City, Missouri. Gregory was met at the airport by [redacted] and was transported to the campus of Kansas State College in Pittsburg in the [redacted] personally owned automobile, a 1968 Plymouth.

On September 24, 1968, the same source advised that he personally covered Gregory's address at Kansas State College on the night of September 23, 1968, and the following information is set forth reference Gregory's appearance as furnished by the source:

At 8:00 PM on the night of September 23, 1968, Gregory spoke for approximately two hours before approximately 1,500 people at Carney Hall on the campus of Kansas State College, Pittsburg, Kansas. Gregory's central theme throughout his speech was that of criticizing the "corrupt political system" of the United States of America. He

mentioned the fact that he was a write-in candidate for the persident of the United States and stated that if he had to choose between Nixon, Humphrey and Wallace, as our next president, he would choose "Tricky Dick" as the lesser of evils.

He stated that Richard Daley, mayor of Chicago, Illinois, is literally a "pawn" for organized crime in Chicago and is no better than a syndicate hoodlum himself. He referred to the Chicago police force as "Mayor Daley's Niggers" and was highly critical of the way the entire situation surrounding the Democratic National Convention in Chicago this year was handled by Daley and his "Niggers". Gregory made the statement that he was sitting in his Chicago apartment watching the "police brutality" going on in the streets of Chicago on television during the Democratic National Convention and that he couldn't stand it any longer and that he just had to go into the street and be a part of it. He referred to all policemen as this generation's "Niggers", based on the fact that he believes the policemen of today are receiving the same treatment Negro people received 30 years ago.

He accused the Kansas Bureau of Investigation of being in the audience tapping his speech for the benefit of the govenor to hear what he had to say. He said "tape all you want" because you're not going to get anything. He said the KBI should be trying to obtain tape recordings of the Kansas City mofia and crime syndicate who are lawbreakers rather than himself.

Gregory, speaking of the subject "Racism" made the comment "we're not going to be your nigger anymore". Throughout his entire address he constantly praised the youth of America as the only surviving hope to save our political system and made mention time and time again that "you young people are faced with a big job". He called today's college students "the most morally committed and ethical group of young people the United States has ever produced. He referred to "LBJ" as the "Shrewdest" politician ever and that all politics are crooked. He stated that if the Constitution of this country was upheld civil right laws would be unnecessary.

In reference to demonstrations throughout the country, Gregory said that they will begin in full swing in the near future and continue through Thanksgiving and Christmas, and you might even see "Niggers rioting on skis" before it is over. He made no specific reference to any cities or future "troublespots" but merely warned that they were coming.

Upon the conclusion of his address, Gregory held a short question and answer session, and was thereafter interviewed by one of the local radio stations. Following this Gregory was the guest of the United Christian Fellowship (UCF) on the campus. Gregory's time and means of departure from Kansas State College is unknown, but it is believed through information furnished by this same source that Gregory was driven to Kansas City, Missouri, by two former Negro students of Kansas State College from the Kansas City area, on the night of September 23, 1968, or early morning of September 24, 1968. These two individuals were probably [redacted] and First name unknown [redacted] b6 b7c

Gregory was well received by the persons in attendance and there was no disorders during his visit to Kansas State College. The entire program was conducted in an orderly fashion.

The September 13, 1968, issue of the "Daily Oklahoman" contained an article reflecting that "Civil Rights activist" Dick Gregory had been scheduled as a guest speaker at Langston University, Langston, Oklahoma, at 10:00 AM, on September 18, 1968; Oklahoma State University (OSU), Stillwater, Oklahoma, night of September 18, 1968, and University of Oklahoma (OU), Norman, Oklahoma, on night of September 20, 1968.

On September 18, 1968, Source No. 1 advised that Dick Gregory arrived in Oklahoma City at 4:40 AM, on September 18, 1968, on Braniff Airlines flight 129 from Chicago, Illinois. This source is an individual who has furnished reliable information in the past.

On September 18, 1968, Source No. 2, who has furnished reliable information in the past, advised that Gregory was a guest speaker at the student assembly held at Langston University at 10:00 AM, on September 18, 1968. According to the source, Gregory spoke about civil rights matters and the coming national elections. He was well received by the students and there were no demonstrations or incidents during Gregory's appearance at Langston University.

The September 18, 1968, issue of the "Oklahoma City Times" contains an article reflecting that Gregory spoke before an estimated 1500 students at Langston University on September 18, 1968, and charged that moral pollution is the nation's number one problem. According to the article, Gregory referred to both Hubert Humphrey and Richard Nixon as "scum candidates." He stated the nation is waging a war in the name of democracy, but while doing it, requires the black citizens to be non-violent in obtaining their rights in a democracy. He told the students that they do not have to destroy capitalism but should "beat it down behind the constitution." He stated that black students must demand a full share of American constitutional rights now.

He stated that "as long as capitalists control this country---then property rights will come first and human rights second." The article reflects that during his speech earlier in the day at Langston University, he had called on Negro students to get their educations at all Negro schools and then attend white colleges to "demonstrate and kick in doors."

On September 23, 1968, Source No. 3, who has furnished reliable information in the past, advised he attended the speech of Gregory at OU on the night of September 20, 1968.

RICHARD CLAXTON GREGORY

According to the source, literature of the Students for a Democratic Society (SDS) was distributed by several individuals among the audience. The introductory speaker remarked that to his knowledge, the material being distributed among those in attendance was not a part of the official program and, therefore, not official material sanctioned by the University.

The above source advised that during his speech Gregory was extremely critical of all the Presidential candidates and made several ridiculing remarks concerning President Johnson. Gregory remarked that the Attorney General of the U. S., the FBI and the CIA are attempting to intimidate and accuse him of acts of treason. During his speech he stated he advocates the carrying and using of weapons, and black militants found their justification in the U. S. Constitution where it states that a citizen has the right to bear arms. He stated that present social and political institutions in this nation have compelled Negroes to acts of violence.

A characterization of the SDS appears in the Appendix attached hereto.

## APPENDIX

### STUDENTS FOR A DEMOCRATIC SOCIETY

The Students for a Democratic Society (SDS), as it is known today, came into being at a founding convention held at Port Huron, Michigan, in June, 1962. The SDS is an association of young people on the left and has a current program of protesting the draft, promoting a campaign for youth to develop a conscientious objector status, denouncing United States intervention in the war in Vietnam and to "radically transform" the university community, and provide for its complete control by students. Gus Hall, General Secretary, Communist Party, USA, when interviewed by a representative of United Press International in San Francisco, California, on May 14, 1965, described the SDS as a part of the "responsible left" which the Party has "going for us." At the June, 1965, SDS National Convention, an anticommunist proviso was removed from the SDS constitution. In the October 7, 1966, issue of "New Left Notes," the official publication of SDS, an SDS spokesman stated that there are some communists in SDS and they are welcome. The national headquarters of this organization as of July 24, 1968, was located in Room 206, 1608 West Madison Street, Chicago, Illinois.

Re: Appearance of Richard Claxton Gregory,  
Oakland University, Rochester, Michigan  
October 4, 1968

Source one advised on October 4, 1968, that Richard Claxton Gregory appeared as a guest speaker at Oakland University, Rochester, Michigan, October 4, 1968, before an estimated gathering of students and general public of over 2,000 persons. The speaking engagement which began shortly after 10:00 a.m. was sponsored by "The Oakland Observer", the student publication, Oakland University, as an approved University function.

Gregory spoke for one and one-half hours and thereafter attended a luncheon and departed the University about 1:30 p.m., October 4, 1968.

This source stated that no incidents occurred regarding the appearance of Gregory and no literature was observed being distributed. No signs or placards were in evidence.

Source two on October 7, 1968, advised that Richard Gregory at the time of his October 4, 1968 appearance at Oakland University, made reference to his recently published book, but did not mention any political affiliation by name nor did he appear to be accompanied by any large following.

During the speech Gregory appeared to have one message which was that the young people of the United States have a big job ahead, to change the social and moral establishment created by "old fools". Gregory reportedly advised that the young people should not blindly accept values handed down to them, and recommended that one should "create an America where the black trust the white and free our Indian, farmer, Jew, Mexican, Puerto Rican brothers, and if you're not willing, you'd better buy the biggest

guns you can, - cause you're gonna need them". Gregory reportedly told students to understand their power in an effort to save the soul and conscience of America.

Gregory advised that youth has the power to fight its own wars. Gregory praised the students as, "The most moral, ethical, sane group of kids who ever lived in this country".

Gregory criticized the handling of the demonstrations at the National Democratic Convention in Chicago by advising, "It's groovy about Chicago. The kids were outnumbered six to one by the law and the Army. If they (the authorities) couldn't handle the situation any better, we'd better never say anything to the Russians".

This source stated that remarks about civil rights by Gregory were in tone with his frequently used humor.

Richard Claxton Gregory

On October 3, 1968, [redacted] Student, Earlham College, Richmond, Indiana, advised Gregory was met by two students from Earlham College at the Dayton, Ohio Airport at 6:30 AM and accompanied them to the Earlham College Campus, where he spoke to the student body and interested faculty members at a 9:00 AM convocation. His address was approximately one and one-half hours in duration and was somewhat humorous. Gregory attacked American capitalism and the democratic system which received enthusiastic applause and repeated standing ovation during his talk. Gregory was introduced to the student body by [redacted] Earlham College student from Springfield, Ohio. Gregory was introduced as the political candidate for United States presidency on the Indiana New Politics Party.

b6  
b7C  
b7D

[redacted] stated that Gregory's speech was somewhat humorous; however, he charged college youth to change the American system through protest and demonstrations but within the framework of the Constitution. He directed the college students to fulfill their obligation to study for the purpose of learning the truth and not for the obligation of fulfilling what is expected of them. Gregory directed the students to "learn how to live, not just how to make a living". "You don't have to destroy the capitalistic system, but you have to beat it behind the Constitution, from where it is now, out in front of it".

Gregory cited the tremendous economic power possessed by today's youth, which he said could be used effectively to change American foreign and domestic policy to restore "sanity" in our affairs.

Gregory stated that if elected president, he would "paint the White House black, bring the boys home from Vietnam, and would send LBJ instead".

Re: Richard Claxton Gregory

[ ] stated that he regarded Gregory's speech to be profane through his repeated use of profanity. [ ] stated that in demanding change in American Government, Gregory pointed to the ceiling and called for "an end to the white crackers up there" who are running America for profit and who give more attention to property rights than human rights. Gregory stated "if the system resists too much, destroy it". Gregory demanded that youth should ask themselves why they are not permitted to vote at age 18. He answered the question by stating, "those old fools know how you'd vote". Gregory commented on the danger of impending civil disorders in America if more attention to the rights of the Negro, Puerto Rican, Indian, Jewish, and Mexican population is not received. Gregory commented on foreign policy and drew laughter by commenting upon what he called an end to "insane, filthy" policies which will lead the country to disaster and centering his remarks upon United States involvement in Vietnam and worries about Communism abroad. Gregory advocated making American democracy work at home before forcing it on people of other nations, like Vietnam.

b6  
b7C  
b7D

Gregory denounced Chicago Mayor Richard Daley as a "raving maniac" for his orders to police during the Democratic National Convention and upheld the relative innocence of the hippie and yippie demonstrators. Gregory attacked the CIA and police agencies of the country stating that they had no concern for his welfare but did not want to see him killed in their area of responsibility.

He complained of being photographed, surveilled, and recordings of his speeches made wherever he traveled.

Gregory attacked the morality of those in attendance at the Democratic National Convention by asking "who do you think committed the most adultery in Chicago, the hippies who slept in the parks or the shriners who slept in the hotels? A country that won't take control of the cities from the criminal syndicate can't expect to get respect from the black folks in the inner city".

Following the one and one-half hour address to the student body and faculty members, Gregory appeared at Runyan Center, a student facility, Earlham College, Richmond, Indiana,

Re: Richard Claxton Gregory

and conducted a question and answer session prior to his departure for Muncie, Anderson, and Indianapolis, Indiana. Gregory departed from Richmond about 12:35 PM.

On October 3, 1968, Captain [redacted] Campus Police, Ball State University, Muncie, Indiana, advised that [redacted] a senior at Ball State University and [redacted] of the New Politics Party, had furnished him with the following itinerary of Gregory, while the latter would be in Muncie, Indiana, on October 3, 1968:

Gregory would arrive at Whitely Community Center, Muncie, Indiana, at 1:00 PM and have a walking press conference while proceeding to Longfellow Elementary School, where he would talk to students. Gregory would leave the Whitely area and arrive at Ball State University at 3:00 PM where he would give a talk at the ballroom of the Student Center. At 4:15 PM, Gregory would take a walking tour of the campus. At 4:45 PM, he would leave for Trinity Methodist Church, Willard and Hackly Streets, Muncie, for dinner. At 5:30 PM, he would speak at the church and at 6:45 PM, would leave Muncie for Anderson, Indiana. Gregory was to be accompanied by [redacted] New Politics Party Candidate for the Indiana Senate and [redacted] [redacted] for the New Politics Party.

*IND.*  
On October 3, 1968, Lieutenant [redacted] Campus Police, Ball State University, advised that Gregory gave a talk in the ballroom at the Student Center for about 45 minutes. The crowd ranged from 75 to 200 people and consisted mostly of students and faculty at Ball State University. Gregory's main issue seemed to be for young people to demonstrate and boycott in order to get what they want. Gregory said something about a nude march in Washington, D. C. The reason for the march was to get arrested and thereafter, take the matter from court to court until a ruling was handed down from the Government for people to have to wear clothes and thus make the Government clothe the people. Gregory also had a brief question and answer period.

The October 4, 1968, issue of the "Muncie Star," Muncie, Indiana, carried an article entitled "Gregory Tells BSU Audience to Use Economic Needs to Change America". The article stated Gregory spoke before an audience of about 500 persons, mostly college students, and said actions of youths are looked at

Re: Richard Claxton Gregory

in a different light today than when he was in school and when panty raids and stuffing as many into a phone booth was considered "All in growing up and kids will be kids". Gregory had stated, "If you get five students around a phone booth today for a demonstration against high long distance rates, it's considered Communist inspired, when all the student is looking for is more responsibility and a bigger share of the action." Gregory said if the youth would "go after the economic structure, you can get everything you want". He advocated a boycott of record purchases until the record industry lobbied for 18-year-olds to vote. Gregory, whose speech bordered on a comic dialogue at points, when he referred to President Johnson and when he talked about hippies, said his qualifications to be President are that he is a "35-year-old and an American, like it says in the Constitution". He backed the Constitution but said it had to be whipped into shape to put it in front of capitalism. One of the first actions if he is elected would be to take five hours on television and read the Constitution "real slow so any fool can understand". He said that when the country determines to enforce human rights, like property rights, then we will have a groovy country. Gregory charged the country with being in Vietnam to allow North Vietnamese to walk streets unmolested while white Americans cannot go into Harlem safely and black Americans are not safe in white communities. He said America has no right to act as a policeman and especially to choose what country to police.

On October 4, 1968, Chief of Police Doyle Wright, Anderson, Indiana, advised as follows:

Negro comedian Dick Gregory, write-in presidential candidate of the Indiana New Politics Party, spoke at the Trinity Methodist Church and at Hartung Hall, Anderson College, both places at Anderson, Indiana, on the evening of October 3, 1968. Gregory predicted the end of the two-party system after the November 5 election because of independent political action. Gregory said the United States should get out of Vietnam. Gregory stated the number one problem facing the United States was "moral pollution" and that young people "caused LBJ to step down" and said that the power would be in the hands of young people by the 1970's. Gregory said George Wallace was calling for law and order yet blocked law and order several years ago by standing in front of school doors in his home state. Gregory also

Re: Richard Claxton Gregory

criticized Mayor Richard Daley's use of law enforcement officials during the Democratic Convention in Chicago, Illinois.

After leaving Anderson, Indiana, Gregory went to Indianapolis, Indiana.

A source, which has furnished reliable information in the past, advised Gregory arrived one hour late for his speech at the Broadway Christian Church, Indianapolis.

His speech began at 11:30 PM on October 3, 1968; his statements were essentially those which are set out above.

The crowd was estimated at 150 people of which 25 were caucasians.

FEDERAL BUREAU OF INVESTIGATION

October 23, 1968

RICHARD CLAXTON GREGORY  
RACIAL MATTER

On October 11, 1968, Agents of the Federal Bureau of Investigation were present at Newton High School, Newton, Massachusetts, and heard Richard Claxton Gregory address an audience, the majority of whom appeared to be in the age group of high school students.

Gregory stated that as a presidential candidate he is frequently asked what he would do if he were elected president. He said he would bring back all the boys from Vietnam and send Lyndon B. Johnson over there by himself.

He would get an appropriation of about \$50,000,000 and retire all the white people and give their jobs to Negroes. Six months later all the Negroes would be griping about working to support all the white folks who do nothing but sit around.

He stated he was 33 years old and had been an orphan for 30 years. His father was killed by a German during World War II. His mother received \$10,000 from the government but could not use this to buy a home in any area she wished. Yet the German who killed his father could come over to his father's country and buy a home anywhere.

He asked who said, "Give me liberty or give me death," and then answered "Rap Brown." He said that Brown made a statement urging Negroes to take a gun and go and shoot a policeman. He pointed out that the things the Negroes are doing have precedent in history.

Paul Revere urged citizens to arm themselves against the British, who were the police then. He told the audience that the Constitution gives the right to bear arms. He said, "Read your damn constitution." He suggested that if Negroes are not peaceably given the rights guaranteed them by the Constitution, they would have to get them by the rifle.

Richard Claxton Gregory

On October 18, 1968, a confidential source advised that Richard Claxton Gregory, publicly known as Dick Gregory, Negro comedian and Presidential candidate on the Freedom and Peace ticket, spoke before a group at the Sullivan County Community College, South Fallsburg, New York, on the evening of October 17, 1968. Gregory spoke from approximately 8 to 10:30 p.m. on topics ranging from the Chicago riots at the time of the Democratic National Convention, need to get peace in Vietnam and Negro in society. Regarding the Chicago riots the source stated that Gregory said that the politicians were to blame for the riots because of the way they ran the convention.

As for getting peace in Vietnam, Gregory stated that the students could show their disagreement with the war by boycotting the Dial Chemical Company by not buying Dial soap. Another way of demonstrating disapproval would be to stop smoking for a whole year. This would economically hurt cigarette manufacturers who in turn would put pressure on the White House to stop the war.

Regarding the Negro in society, Gregory stated that the Negro should continually look for ways to better himself.

The source stated Gregory used a great deal of barbed comedy in making his speech and that he was enthusiastically received by the students.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Another source advised that Gregory was invited to speak at the college as part of the college's cultural events program. The source stated that for approximately the past five years the college's cultural events program has had very little response and participation and it was decided to invite Gregory to the campus to "spark up" the program and give it greater publicity. The source stated that Gregory was paid \$1,000 by the college for his appearance.

A third source advised that approximately 600 to 700 people attended the program. Approximately 75 were non-students who paid \$2.00 a piece for admission. This source advised that the audience was completely peaceful and that there were no demonstrations before or after Gregory's appearance.

September 29, 1968

All confidential sources referred to herein have  
furnished reliable information in the past.

DE T-1 advised on September 30, 1968, that a Black  
Power Conference was held on the University of Michigan  
( U of M ) campus at the Hill Auditorium, Ann Arbor, Michigan,  
on September 29, 1968, at 2:00 PM, at which time Adam Clayton  
Powell, Julian Bond, and Dick Gregory each addressed a capacity  
audience of some 4,000 individuals, which appeared to be mostly  
student - faculty personnel.

DE T-2 advised that [redacted]  
[redacted] at the U of M, [redacted]  
and introduced the first speaker, Julian Bond.

b6  
b7C

DE T-2 said that Bond presented an intellectual  
appeal to the young people in the audience, both black and  
white, and that black people are, for the most part,  
generally poor, unemployed, uneducated and powerless.

Bond said that most of the black people are powerless  
and through their blackness they must solve their own problems

and care for each other. He said that being black is a nightmare for black people and that all black people have more respect for Southerners because they are honest, more so than the Northerners, because they are hypocrites.

DE T-2 advised that if the young white people want to help the Negro he should not spend all day, for example a Sunday, listening to the tape recording of the speeches of "Malcolm X", but should leave their rooms to go into the streets to visit the Negro people and make things happen.

DE T-2 advised that Dick Gregory was the next speaker who appealed to all young Americans, black and white, to begin immediately to place the economic structures of this country in proper perspectives; placing it behind the Constitution of the United States, not in front of it.

Gregory made the remark that the "white kids of the old days" have always had their days of demonstration, such as panty raids on college campuses, and the beach parties at Fort Lauderdale, Florida, but the young radicals, both black and white, were denied their day at the Democratic National Convention at Chicago, Illinois, the latter part of August, 1968.

Gregory said that in his opinion, regarding the present political presidential race, there is only one honest man running, George Wallace. He presents no real threat to the black people in this country, it is just "the white folks who are up-tight regarding voting for Wallace".

He further said that our whole system of voting should be changed and that 18 year olds must be given the right to vote because if they are old enough to die for their country, they should be old enough to vote.

He said that our whole system needs a change in that both black and white young people should work together to civilize the old whites.

Gregory told the audience that he was non-violent and that he even includes being non-violent towards animals and he believes that 90 per cent of the people are afraid to fight.

He said, "I want to throw dynamite, but I can't because I'm scared and yellow" so all I do is fast (hunger strike).

He said that "any stupid cat can throw a bomb if he has sense enough to get it out of his hand", but very few can fast in a demonstration for what he feels is right.

He said that economic boycotts are one way to beat the system and these do work.

Gregory ended by saying that "Northern white liberals have outlived their usefulness to the Negro cause and what we need now are white radicals". He continued, "A Wallace victory would make liberals out of moderates, radicals out of liberals, and God only knows what out of radicals".

DE T-2 advised the next speaker was Adam Clayton Powell who began by saying "If all of the FBI or CIA personnel were to leave the building now, over half of those present would leave".

He said the Black Nationalists and young activist whites must walk hand-in-hand and that 52 per cent of the people in the United States today are under 25 years of age. There are leaders willing to die if necessary to turn this establishment around the other way.

Re: Adam Clayton Powell;

Black Power Conference,

September 29, 1968

Powell said he was discriminated against when censured by Congress and other Congressmen who have done more than himself are still seated.

He said that the young people have proven at the University of California, Columbia University, Florida A&M, and Duke University that they can force changes by their demonstrations on each of the college campuses and the young people have already learned that they are and should be through listening to their parents, preachers, priests, who collectively misrepresent facts to them regarding the social ills of our country.

DE T-2 said that Powell wanted people to know that Black Power is not anti-white, but just true black and is a way you think and feel. He said that black people believe in separation, but he thinks this is not what will help the black race.

Powell ended by saying that "the only man with guts on the presidential scene today is George Wallace and that the black people know where they stand with Wallace and will be better off with Wallace as president.

DE T-2 said that Bond and Gregory were enthusiastically accepted by the audience, but Powell was not well received.

Racial Matters - Appearance  
at Plymouth, New Hampshire  
State College 10/21/68

A source, who has furnished reliable information in the past, advised on October 22, 1968, that Dick Gregory appeared in Silver Hall at Plymouth State College, Plymouth, New Hampshire, on the evening of October 21, 1968. The audience was mainly composed of students and there were probably about 800 people in attendance. This would be a capacity crowd. The audience was friendly and source stated that it received Gregory well. There were only about five or six black people in the audience.

Gregory struck the source as colorful, gifted speaker and performed with the air of a professional. He spent a considerable amount of time describing his books and extolling them as good reading. Among the points he stressed on the national scene were the following:

Bring the boys back from Vietnam, blacks are second class citizens; the young are the only ones who are not corrupt; referred repeatedly to the three Presidential candidates as "fools"; two party system is dead; and the black man had as much right to bear arms as the white man.

The source advised that the whole thing was more like a sideshow barker in action at a carnival. He was well-received and there was a short question and answer period afterwards, but no questions of interest were asked.

## Dick Gregory Scores U.S. 'Moral Pollution'

By ROSAMOND ORR

PLYMOUTH — Comedian and presidential candidate Dick Gregory laced wit with pungent satire to alternately charm and stun about 800 persons who jammed Plymouth State College's Silver Hall Auditorium here last night.

Gregory, one of several speakers scheduled for a special lecture series at the college, listed the plight of the American Indian and the "moral pollution . . . in the United States," as the nation's two greatest problems.

On the Indian problem, Gregory likened the role of the Bureau of Indian Affairs to . . .

putting the KKK (Klu Klux Klan) in charge of civil rights." And continuing, maintained that the "Wall Street bust-watchers" and Shriners in conventions are the morally "degenerates of our time."

"A man has the right to burn his Social Security card," Gregory asserted, "why can't he burn his draft card?"

"What would I do, if I were elected President," he asked? "I'd paint the White House black. Then I'd bring all the boys home from Vietnam and send LBJ over in their place and let Lena Horne telephone him every morning."

Speaking on the American system of government, Gregory said: "I do not advocate destroying the capitalistic system, but I do advocate beating it back into its rightful position — behind the U.S. Constitution, not in front of it."

In his remarks, he repeatedly referred to organized crime in the U.S. On this subject, Gregory said two negroes from Gooseneck, La., who had never been out of Gooseneck, could go to New York or Boston and within two hours have a shot of heroin circulating in their veins. But, he charged, police in neither one of those cities would be able to locate the source of the heroin.

In another remark, he described holy communion as a cannibalistic rite.

At a press conference earlier, Gregory, completely devoid of the levity he showed last night, said New York, New Jersey, Virginia, Pennsylvania and Colorado, will allow his name to be written in on the Nov. 5 ballot. He said he was awaiting a court decision of five other states and indicated he would initiate court action to invalidate elections where no arrangements were made for a write-in.

Bernard Sweet, chairman for the lecture series, introduced Gregory.

ENCLOSURE

100-440423-392

October 23, 1968

Secret Service National Headquarters began a highly unusual case by declaring that "reproductions of \$1.00 Federal Reserve Notes bearing an advertisement requesting votes for Dick Gregory" were counterfeit bills despite the fact they were obviously campaign literature. These "Gregory bills" bore a picture of a hatted Dick Gregory, five exhortations to vote, the script "For President... Vote Gregory", a peace symbol and the name of Mr. Gregory's party. Printed on standard play money paper, they were to be used to promote candidate Gregory's write-in campaign.

Approximately thirty thousand "Gregory bills" were delivered to the East Tennessee chairman of presidential hopeful Gregory's campaign, Richard Horner. Mr. Horner was advised Wednesday afternoon to voluntarily surrender the "Gregory bills". Feeling this to be a direct violation of election laws, Mr. Horner informed the Knoxville Secret Service that these bills would not be surrendered voluntarily, due to their campaign value and the obvious falsity of the charge.

When interviewed, Mr. Horner was quoted as saying (what was said in Beacon). On return to his apartment at eight o'clock that evening, he was handed a copy of a search warrant and found his room had been ransacked by the Secret Service, Tennessee Bureau of Investigation and the U.T. campus police. On investigation, he found a box of ten thousand "Gregory bills" had been confiscated and his personal belongings thoroughly searched.

Harassment of personnel connected with the Gregory campaign continued through the night, as the Secret Service-led search continued for the remaining "Gregory bills". The bills had been placed for safety in an automobile, waiting for a decision from the National Gregory Headquarters as to the disposal of the remaining bills.

This car was located by the Secret Service at two a.m. after an intensive search. The owner of the car, David Morris, awoke to find his car being towed away. Present at the scene were three

2

2/2/2/2/2/2/2

Knoxville City patrol cars, an unmarked car and the city tow truck. On asking the nature of the violation, he was told by the person in authority that the car was being towed away, would be inventoried and could be found later in the motor pound. Despite the fact the car was not illegally parked, the head agent made no explanation for the seizure of the car nor the presence of the large amount of law enforcement officers.

Upon retrieval of the car, it was found that the remaining "Gregory bills" and personal belongings, including a tape recorder and campaign literature, had been removed without warrant or receipt. These items were not mentioned in the official inventory compiled by the Knoxville Police Department.

Later that day, the Knoxville Secret Service branch announced that thirty thousand "Gregory bills" had been seized. Official protests at this violation of campaign law, according to the New York Gregory headquarters, include a suit to be filed Monday in Federal Court.

Distressed at this behavior of the Knoxville law enforcement officers, Mr. Horner contacted the New York headquarters, and was told "This is the only area of the country at the present time where actual harassment has taken place". The head of the national campaign, as well as the printers of the bills, were assured that there would be no prosecutions. This makes the actions of the Knoxville law enforcement agencies difficult to understand.

It seems impossible that this police repression can be taken in a free society. To be called down to Secret Service headquarters on a counterfeit charge for possessing campaign material, to have your possessions ransacked, to awake and see police cars surrounding your home; these seem unreal in America. Yet it happened. We were denied all basic rights, treated as criminals and harassed by the might of Knoxville's police force.

Members of a student community, members of SSOC, the Southern Student Organizing Committee, we are concerned with our country. We care; why are we being attacked? Why can't we work for a

3/3/3/3/3/3/3

candidate that voices many of our concerns? Why are we denied our civil rights? We are Americans, and we are being oppressed. we are driven to identify with the blacks, the Wallace whites, the Mexican-Americans; all those who are denied equal rights in this society. We are learning the meaning of John Donne "Ask not for whom the bell tolls -- it tolls for thee".

RICHARD CLAXTON GREGORY

An article appeared on page 1 of the October 24, 1968 issue of the UT Daily Beacon, student publication of UT, Knoxville, Tennessee.

A Xerox copy of this article is as follows:

# Gregory Campaign Head Refuses 'Dollars' Release

By BILL PRESTON Jr.  
News Editor

Richard Horner, a UT senior and East Tennessee chairman for the Dick Gregory presidential campaign, said yesterday he had refused to voluntarily surrender approximately 20,000 "Gregory Dollars" which have been declared counterfeit currency.

A Secret Service spokesman was quoted yesterday as saying that the confiscation of the handbills—which are the same size, shape

\* See Picture on Page 3.

and similar design of U.S. currency—was ordered after complaints from Nashville and New York that the literature was confusing and has shown up in money-changing machines.

HORNER SAID he had received approximately 30,000 of the handbills from Gregory for President national headquarters Monday. He said that approximately 10,000 of the handbills had been distributed on the

UT campus both "to and by UT students."

"It would be advisable that they not be passed out any farther than they are now," he said.

Horner said he had voluntarily visited Secret Service officials here yesterday on advice from Baxton Bryant, Gregory's Tennessee campaign chairman.

HORNER SAID the Secret Service informed him that "the money (handbills) have been considered counterfeit and any student passing it out will be considered making a criminal offense."

"I talked to other members of the (Gregory for President) committee and to local representatives of the American Civil Liberties Union and I decided to await a seizure warrant," Horner said.

"I will do everything legally possible to prevent them from getting the money," he said, adding that he felt the government's action is "illegal confiscation of campaign materials."

HORNER SAID the remaining 20,000 bills

are in "an undisclosed place" and he would surrender them to Secret Service agents if they served him with "a legally correct seizure warrant."

"I will cooperate fully within my legal rights," he said.

Knoxville Secret Service headquarters could not be reached for comment last night.

GREGORY, PRESIDENTIAL candidate of the Peace and Freedom Party, said in a statement issued in Washington yesterday that more than a million of the "pamphlets" were in circulation and "I expect one of them to be negotiated as a vote on election day."

Gregory said there was no question in his mind but that the literature "has been seized because it is definitely dangerous to the major political machines."

The "Gregory Dollars" are the shape and color of a dollar bill and has Gregory's picture in place of George Washington's. It pretends to be one vote which can not be bought, sold or traded, and on one side are the words:

"YOU'RE VOTE is legal, sacred and private."

On the reverse side, it says: "The Independents of America to End We Hope One Man, One vote."

## Gregory Leaflets Seized in Knoxville

About 35,000 "Dick Gregory for President" leaflets, which closely resemble \$1 bills, were found in the trunk of a car early today after the car was towed to the City Pound on a parking violation.

Detective Robert Chadwell found the leaflets, which have the serial number 100-1000000000, printed on the front, have been declared illegal by the Secret Service. He said the leaflets will work in money-changing machines.

The car, which bore Indiana license plates, was parked near Laurel Ave. and Fifteenth St. when it was pulled in about 1:55 a.m. today. The officer said a man, who may own the car was staying in the area, but indicated he was a U-T student.

A number of the bills have been seized in Nashville and Memphis, where Police Chief Henry Lux said he made a purchase at a grocery store with one of them.

And in Nashville, J. Baxter Bryant, executive director of the Tennessee Human Relations Council, charged that the Secret

Service apparently was duped by white "racists" into seizing the leaflets. In Washington, aides of Mr. Gregory said they will go to court to block the presidential election on grounds the Secret Service violated Mr. Gregory's right to distribute campaign literature.

SOUTHERN STUDENT ORGANIZING COMMITTEE (SSOC)

On November 1, 1966, a first source advised that the Southern Student Organizing Committee (SSOC) was formed on the weekend of April 3-5, 1964, to stimulate activity of Southern student groups in areas of civil rights, peace, academic freedom, civil liberties, capital punishment, and unemployment. Originally, it was to be a white counterpart of the Student Nonviolent Coordinating Committee (SNCC). It has agreed to work with similar interested groups such as SNCC and Students for a Democratic Society (SDS) and Southern Conference Educational Fund, Inc. (SCEF), SSOC is a fraternal affiliate of the ~~SDS~~.

Beginning in the Fall of 1966, SSOC became a membership organization and embarked on a campaign to form local chapters on various college campuses throughout the South. SSOC publishes, October through May each year, a publication, "New South Student," which according to the above source has increasingly espoused and defended the pro-Communist and anti-United States position on domestic and foreign policy.

On July 2, 1968, a second source advised that SSOC continues to be headquartered at 1703 Portland Avenue, Nashville, Tennessee, and continues to defend and espouse the pro-Communist and anti-United States position with particular emphasis on attacking United States policy in Vietnam and emphasis on attacking the Selective Service System. Source two noted that SSOC Chairman Thomas N. Gardner in the Summer of 1967 traveled to Prague, Czechoslovakia, where he met with representatives of the National Liberation Front (NLF) and the Democratic Republic of Vietnam (DRV), and that SSOC staff members [redacted] and [redacted] traveled to Cuba in the Summer of 1967 and February, 1968, respectively.

b6  
b7C

By letter dated April 26, 1968, on SSOC letterhead mailed to the general SSOC membership over the signature of Mike Welch, Executive Secretary of SSOC, it was announced that as a step toward close relations with the Students for a Democratic Society (SDS) and better communications with the movement nationally, SSOC and SDS have worked out an exchange of the "New South Student" and the "New Left Notes," and that SDS and SSOC were exchanging contact lists of their respective memberships for this exchange.

SSOC

The May, 1968, issue of "New South Student" indicates that the SSOC mailing address is P. O. Box 6403, Nashville, Tennessee, 37212, telephone number 615-291-3537, and the masthead describes the organization as "An association of young concerned Southerners dedicated to social change," as taken from the preamble of the SSOC constitution.

DETAILS: AT ST. LOUIS, MISSOURI

An article appearing on page 4A of the January 16, 1968 issue of the St. Louis Post-Dispatch related that DICK GREGORY had passed through Lambert Air Field, St. Louis, Missouri, enroute to Southern Illinois University, Carbondale, Illinois, for a speech there during the weekend of January 16, 1968.

The article related that GREGORY indicated he preferred St. Louis, Missouri, or Atlanta, Georgia, as a site for the Democratic National Convention rather than Chicago, Illinois, inasmuch as the former cities were making more meaningful attempts at solving civil rights problems.

VISIT OF RICHARD CLAXTON GREGORY TO  
NORFOLK, VIRGINIA, AND NEWPORT NEWS,  
VIRGINIA, OCTOBER 18, 1968

Reference is made to memorandum dated October 21, 1968, at Norfolk.

NF T-1 advised that following the rally for Dick Gregory at Liberty Park, Norfolk, Virginia, in the afternoon of October 18, 1968, facsimile "money" was distributed to persons in the crowd. The "money" was apparently distributed by [redacted] the Peace and Freedom Party in Norfolk, Virginia, who in turn had given it to several teenagers who then dispersed it among the crowd. NF T-1 was contacted on October 21, 1968.

b6  
b7C

On October 21, 1968, [redacted] Virginia, Police Department, advised that the same "money" was distributed to the crowd following the rally for Dick Gregory in Newport News later in the afternoon on October 18, 1968. The "money" is a loose facsimile of a one dollar bill containing a picture of Gregory. The face of it contains the wording, "For President of the United States of America," and also, "Vote Nov. 5, 1968 Vote for Dick Gregory President; Vote for Mark Lane Vice President." The back of it contains the wording, "The Independents of America." It also contains the wording, "In God We Hope, One Man One Vote. Take this one opportunity to express your free choice, this country is redeemable. Take this to the poll with you and vote for, Dick Gregory President Mark Lane Vice President."

b6  
b7C

On October 23, 1968, [redacted] U. S. Secret Service, Norfolk, Virginia, advised that he was aware of the distribution of this facsimile "money." He stated that he had conferred with Assistant United States Attorney [redacted] Norfolk, Virginia, who advised that there was a violation of Title 18, Sections 473 and 475 of the United States Code, which deals with process and distribution of bills and the manufacturing and printing of bills. [redacted] authorized confiscation of any of the "money," but did not authorize prosecution in this matter. However, [redacted] indicated that he would authorize prosecution if a subsequent determination indicated that someone was passing the "money" with intent to defraud.

VISIT OF RICHARD CLAXTON GREGORY TO  
NORFOLK, VIRGINIA, AND NEWPORT NEWS,  
VIRGINIA, OCTOBER 18, 1968

---

An article appearing in the October 24, 1968, issue of "The Virginian-Pilot," a daily and Sunday newspaper in Norfolk, indicated that the Secret Service in Norfolk had advised the public to turn in the "Peace and Freedom Money" to the Secret Service.

The article further indicated that a spokesman for the Secret Service in Washington, D. C., said that Gregory had not applied for permission to print the bills, nor was he given permission.

On October 23, 1968, NF T-2 advised that to his knowledge there is very little enthusiasm for the Peace and Freedom Party in the Tidewater Area of Virginia, which includes Norfolk and Newport News. He stated that the relatively poor response to Gregory's appearances in the area obviously demonstrated apathy on the part of the Negroes for Gregory's principles.

RICHARD CLAXTON GREGORY

On October 29, 1968, Philadelphia confidential informant T-1 who has furnished reliable information in the past, advised a Special Agent of the FBI as follows:

GREGORY spoke at Grace Hall, Lehigh University, from 8:30 to approximately 10:30 p.m., October 28, 1968. Approximately 1,400 to 1,500 individuals, mostly area college students, gave him several standing ovations. The meeting was peaceful and orderly and he was received more as an entertainer than a presidential candidate. He was introduced by [redacted]

[redacted]  
at Penn State University, University Park, Pa.

T-1 stated that [redacted] at Lehigh University organized for the purpose of improving the Negro social and cultural life at this university.

Most of GREGORY's lecture was concerned with the serious side of equal rights for minority groups and correcting abuses inherent in the social system. His lecture was interspersed with humor and drew sustained applause.

He criticized Vietnam and the compulsory draft system.

GREGORY stated that if he was elected president, he would paint the White House black and bring all the boys back from Vietnam.

He suggested that a solution to end the war in Vietnam would be to boycott the cigarette industry. He blamed the capitalists for creating a society which invariably favors property over human rights, but asserted that he

did not advocate the destruction of the capitalistic system.

He stated that there has been no real democracy in the United States; that the American Indian has been robbed and exploited; that the labor unions must live up to their original purposes or be broken; that the Declaration of Independence asks for a violent reaction when the rights of the individual are abused over a period of time.

GREGORY declared, "You are dealing with a new black man today who is tired of the abuse and the injustices he has suffered. Call us black; that's what we are."

He appealed to the students not to make the mistake "old cats" did in spending four years in college learning to make a living but not learning how to live. He said "Don't let the old folks program you."

He called upon youths to do something to help America become a great country and to create an atmosphere which will make America as afraid of any quality at home as they are of Communism abroad.

8:00 pm to 10:00 pm

A speech before students and faculty at Chatham College.

On October 10, 1968, Commander [redacted] Pittsburgh Police Department, advised that [redacted] had issued an itinerary setting forth the appearances which Dick Gregory plans to make during his campaign tour of Pittsburgh on October 14-16, 1968.

b6  
b7C

Commander [redacted] furnished a copy of the itinerary, which is essentially the same as that set out above.

On October 15, 1968, the "Pittsburgh Post-Gazette," a daily newspaper, reported that on the afternoon of October 14, 1968, Dick Gregory held a press conference at Point Park College, Pittsburgh. Gregory said he believes the November Presidential election will not be completed, and that more candidates for the Presidency will be killed before the balloting. Gregory said "I look for a lot of vicious things to happen. There is a tremendous conspiracy to overthrow this country and it comes from the Central Intelligence Agency."

According to this article, Gregory linked the assassinations of President JOHN F. KENNEDY, ROBERT F. KENNEDY, and DR. MARTIN LUTHER KING, JR., to a conspiracy which he predicted will lead to the death of more candidates prior to November 5th.

Gregory debunked official reports regarding the assassinations of the KENNEDYS and said that the only reason he has not been killed is "because they are learning too much from me."

Gregory claimed his telephone is tapped and said, "If you want to guarantee to get a message to the White House, call Mr. Gregory."

In referring to the recent Democratic National Convention, Gregory said, "Chicago was very good for the people because it made people wake up. Ever since then, the whole power structure has been trying to convince people they didn't see what they saw, and some fools are believing them." He praised the press for telling what really happened in Chicago.

RICHARD CLAXTON GREGORY

Gregory characterized Richard Nixon and Vice-President Hubert Humphrey as "dirty, cheap politicians." He said that he thought George Wallace would be more honest than the other Presidential candidates, however, he accused Wallace of not being for the little man.

On October 15, 1968, the "Pittsburgh Press," a daily newspaper, reported that at a press conference held at Pittsburgh on October 14, 1968, Dick Gregory charged that the Central Intelligence Agency (CIA) is leading a conspiracy to overthrow the nation and that because of this plot, the November election may not take place. Gregory said "if the election comes off, it'll surprise the hell out of me."

Gregory described the "law and order issue" of the other candidates as a joke because none of them has promised to break up the crime syndicate.

According to the article, Gregory described himself as "a statesman, who is the most honest, ethical man running." He said that "politicians can be corrupted, but statesmen cannot be bought."

Gregory declared that the candidacy of George Wallace has done the nation "a great service by embarrassing us all over the world" and that "Wallace has shown black folks how much racism there is."

PG T-3, who has furnished reliable information in the past, advised on October 17, 1968, that on October 14, 1968, from approximately 8:00 pm to 10:00 pm, Dick Gregory spoke before about 400 students and faculty members at Point Park College, Pittsburgh. ~~S~~ (U)

PG T-3 said that Gregory's speech was substantially as follows: ~~S~~ (U)

"Good evening. I'm very glad to be here. But you know some people want to come to Pittsburgh and can't get here because there are only two airlines that come here, Mohawk and Allegheny. I called Mohawk and asked them what time did they have a plane going to Pittsburgh and the person on the other end of the phone said, 'What time can you get here?' So I caught Allegheny Airlines. When I got on

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

RICHARD CLAXTON GREGORY

"the plane, I settled down trying to go to sleep. I was sitting next to this white cat that was too scared to go to sleep. The white cat finally got up nerve enough to say something because he recognized me. I know he recognized me from the way he addressed me. 'Hey boy!; What would be the first thing you would do if you were elected President?' I replied, 'The first thing I would do is to paint the White House black and then I would bring all the boys home from Vietnam and send LBJ over to Vietnam, along with Lady Bird and arm them with a barbeque gun.'

"But silly as that fool is, he's liable to win. I received a letter from a friend in England that asked what type of man LBJ was. Because he could not understand how he could come out of Walter Reed Hospital and stand on the steps and show his operation scar on national television. I wrote back to my friend in England that he should be glad LBJ didn't have a hemorrhoid operation.

"You young people have a hell of a task in front of you. It is us old fools that have created the problems that you are going to have to cope with. I am not going to stand up here and tell you about white racism because you know it exists. All you have to do is think of some of the things you heard your mother and father say.

"You know what happened in Chicago with the hippies, yippies, and the police was very important. It showed what a sick nation American is. The news media was just great during the convention. They were so hungry for news that they gave close-ups of the cops whipping those kids' heads, and after the convention, that silly Mayor Daley spent a whole week trying to convince you that you didn't see what you saw. They did not find one stick of dynamite or a gun. But Mayor Daley did get on television with the weapon the hippies and yippies were using, a jar of black widow spiders. Now thats not funny because I know it took a

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

RICHARD CLAXTON GREGORY

"long time to teach those spiders who to bite. They had 16,000 cops, FBI, Secret Service, and 75,000 troops in Chicago to handle 15,000 kids who were outnumbered by at least six to one. If it took that many to handle 16,000 kids then the United States had better never say anything nasty to the Russians. Tell me who was more moral, the hippies and yippies or the Shriners?. Who did more whore mongering, the hippies and yippies, or the Shriners?.

"The young people are saying that morality is no longer a haircut and a Brooks Brothers suit. They are not conforming because they refuse to identify with the older sick generation. What happened in Chicago was not a police action, it was a political action.

"It is the policeman's turn to be the nigger. You see this country has always had its nigger and you don't have to be black to be the nigger. First the Italian was the nigger, then the Irish was the nigger, and the Jew was the nigger, and we were not ready yet so they switched to religion and by that time we were ready to be the nigger. And we were the best nigger this country ever had. My mother was the same as the cops. She was a white folks nigger. She used to be over worked and under paid too. She would work hard all day for them white folks and be mad when she got home and take it out on us. My mother used to sing them white kids to sleep with spirituals and then go down to the kitchen and steal them blind and bring that food home and cook it. Put it on the table and expect us to say a blessing over it. I refused to say the blessing and one day I told my mother that I would make a deal with her. I said I would pray over what she stole if she came down in the cellar and prayed over what I stole. You see she didn't know that I was a better thief than she was, but I could not justify mine through religion.

"I'm going to tell you how to bring the boys home from Vietnam. Start a nationwide campaign throughout all the young people to stop smoking cigarettes and the cigarette companies will bring the boys home.

"This is a society that puts capitalism before the constitution when capitalism should be behind the constitution. You know years ago when I was in college, they used to have panty raids on girls' dormitories and no one ever said that was communist inspired because you weren't trying to change things. But I never joined in. I was never crazy enough to be stealing no white gals drawers. I would stand outside and yell, 'Get a pair for me baby.' When the goldfish swallowing craze was going on, they didn't say that was communist inspired. When the phone booth jamming craze came they didn't say that was communist inspired. Bell Telephone would gladly replace a broken booth. But if you got a picket sign and picketed one of the booths protesting against the anti-trust and the high cost of toll calls, you would be jailed and called communist inspired. Every year thousands of kids go to Fort Lauderdale, Florida, and tear up the whole town. No one says anything. To show how sick this society is, 50,000 people turned out on Wall Street to look at a broad's breasts. The girl says she wished they would leave her alone. All she has to do is tell the press that she will be coming out of the subway the next day in the tightest sweater she can get in. When she emerges from the subway, have written across her breasts 'Free Huey Newton, Baby,' then she will not have to be bothered with any more crowds.

"You know if a federal man came up and knocked on your door and said he wanted your cat or dog to send to Vietnam there would be a shoot out on the lawn. But these same parents will not say one word when the man comes and gets their son at 18 years of age to go to Vietnam. You know a lot of people were upset when Rap Brown said to get a gun and watch the police. But this is not an original statement, it's right here in this history book which says that in the days when the British were the police, Paul Revere rode through the town shouting, 'Arm yourself, the British are coming.'"

PG T-4, who has furnished reliable information in the past, advised on October 15, 1968, that Dick Gregory's speech at Point Park College was sponsored by Student Organization for Understanding Life (SOUL) and the Student Union Forum Committee and was a paid appearance.

Source said that Gregory condemned United States involvement in Vietnam, attacked racism in the United States, urged support of the California grape boycott, and said that the fact that supporters of the late Senator Robert F. Kennedy would cheer the assassination of George Wallace is indicative of a sick society.

PG T-4 said that during Gregory's speech, which was liberally interlaced with humor and satirical remarks, Gregory said blacks have the right to defend themselves with firearms and stated that "Give me liberty or give me death" is better than no progress at all.

~~(U)~~ (U)

Gregory urged the employment of the CIA to combat "The Syndicate" rather than employing them for overthrowing other countries and he claimed that excessive force had been used against demonstrators at the recent Democratic National Convention.

Gregory, who termed his candidacy as emblematic of honesty, said that police and firemen are the most important people in the country and yet they are the lowest paid.

PG T-5, who has furnished reliable information in the past, advised on October 16, 1968, that at approximately 7:00 AM, on October 15, 1968, Dick Gregory visited the main gate of the Homestead, Pa., Works of United States Steel Corporation where he passed out "Vote Money" to workers. Later, Gregory visited Westinghouse High School and toured the Homewood Section of Pittsburgh. During the afternoon, Gregory toured the Manchester Section of Pittsburgh and on the evening of October 15, 1968, he spoke before a public gathering at the University of Pittsburgh Field House.

PG T-3 advised on October 16, 1968, that on October 15, 1968, between 6:30 PM and 8:30 PM, Dick Gregory addressed about 2,000 persons, mostly students, at the University of Pittsburgh Field House. Source said that Gregory's speech was identical to the one which he gave at Point Park College on October 14, 1968. ~~(U)~~ (U)

PG T-1 advised on October 21, 1968, that Gregory's speech at the University of Pittsburgh Field House was spiced with derogatory remarks and some vulgarity and was not very political in context. ~~(U)~~ (U)

According to PG T-1, Gregory said he does not advocate violence, but if beneficial changes cannot be reached through non-violent acts, then it may be necessary to use violent tactics. ~~(U)~~ (U)

Gregory said a few people that are in control of the wealth of this nation also control the political organizations and he stated that America is facing a serious problem of moral pollution. He cited the injustices imposed by "The System" on other minorities, particularly the American Indian.

PG T-6, who has furnished reliable information in the past, advised on October 15, 1968, that Gregory's speech at the University of Pittsburgh Field House was directed primarily to the students in the audience. He termed the young people of today as "the most morally committed, dedicated group ever to exist in this country," and he said that the young people are the ones that will have to solve the problems, the problems that they had nothing to do with creating. ~~(U)~~ (U)

Gregory cited moral pollution as the number one problem in the United States and characterized the nation as insane. He said that it is up to the young people to restore the nation's sanity.

PG T-6 said that Gregory stated that he does not advocate the destruction of capitalism in the United States, however, capitalism should be put in its

right place behind the constitution and not in front of it. He said that the trouble with today's leaders is that they put the emphasis on property rights rather than human rights. ~~X~~ (U)

Gregory said the only way the black problem in America is going to be resolved is for the Government to create an atmosphere where black people will trust white people. He said that this atmosphere will only be created when the United States helps the Indians, Puerto Ricans, Mexicans and Jews.

Gregory said that if he were elected president, he would bring all the troops home from Vietnam and send LBJ.

PG T-5 advised on October 16, 1968, that on the same date, Dick Gregory visited the main gate of the Jones and Laughlin Steel Corporation, Pittsburgh, spoke at Fifth Avenue High School, and toured the Hill District Section of the city. Source said that on the evening of October 16, 1968, Gregory spoke to students and faculty at Chatham College, a female institution. ~~X~~ (U)

On October 24, 1968, PG T-5 advised that approximately 500 persons were present at Chatham College when Gregory delivered a speech between 8:00 and 10:00 PM. ~~X~~ (U)

Gregory said the hippies and yippies who demonstrated at the Democratic National Convention were voicing their rejection of the existing system. He said that the allegation that some of the demonstrators possessed explosives was a lie created to incense the public against the demonstrators. Gregory said that the young people at Chicago did not have a chance against the Chicago Police because the police, CIA, FBI, and the U. S. Army totaled well over 100,000 men while the yippies and hippies numbered only 15,000.

According to PG T-5, Gregory commented, "The President said that he was sending in 7,000 troops to make sure the convention went off without any disturbances. As one might know, if Johnson said 7,000 you can bet it was 20,000 troops." ~~X~~ (U)

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

RICHARD CLAXTON GREGORY

Regarding the subject of violence, Gregory stated that the whole history of the United States was based on violence and there is nothing wrong with being a black militant and bearing arms, because this right is written in the Constitution. He equated H. Rap Brown and Stokely Carmichael with the Minutemen during the Revolutionary War.

PG T-5 said that Gregory remarked that violence in certain instances is good and that if the Chicago Police want a raise, they should resort to violence by going to the City Council every Monday and beating the heads of the council members. He said that after a couple of weeks of this, the Council would be more than happy to negotiate. (U)

Gregory pointed to the decadence of American society by citing a recent incident in which Wall Street businessmen unabashedly gawked at the bust of a young secretary.

"The Pittsburgh Point," a weekly Pittsburgh newspaper, reported in an article on October 17, 1968, that Dick Gregory received approximately \$750 to \$1,000 for each of the three speeches which he had delivered at Pittsburgh area colleges.

On October 16, 1968, between 6:10 PM and 7:20 PM, Dick Gregory appeared on "Comment," a telephone interview-type program, on Pittsburgh radio station WJAS. Gregory said he is a candidate for the presidency because he is the most morally dedicated, the most honest, and the most brilliant of all the candidates. He described himself as a statesman and said that he is the only one qualified to solve the nation's problems.

Gregory lauded the young people of today as being the most morally committed and honest group that this nation has ever seen.

Gregory demeaned the CIA by charging that it is controlled by former Nazis and that it is involved in

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

RICHARD CLAXTON GREGORY

an insidious plot to destroy the nation.

Again and again, Gregory called for the implementation of the Constitution as a panacea for the nation's problems. He said he is in favor of handgun registration and cited "The Syndicate" as the basis of all crime in the United States.

In regard to capitalism, Gregory said he does not advocate the destruction of capitalism, but is in favor of placing it in its proper prospective so that it will be employed to enhance human rights instead of property rights.

He said that the United States should pull out of Vietnam and that the nation cannot continue to act as the world's policeman.

Gregory urged support of the California grape boycott and complete freedom and equality for the American Indian.

In paraphrasing a section from the Declaration of Independence, Gregory said, "When rights are destroyed over long periods of time it is your duty to destroy or abolish that Government."

He said that George Wallace will be listed on the ledger of history, along with Adolph Hitler and Julius Caesar.

Gregory stated that if he is not elected President on November 5th, he will declare himself "the independent write-in president in exile; establish an office in Washington, D. C.; and thereafter tour the country and get the support of the young people so that together they may implement the Constitution.

Gregory said in any event, he does not plan to return to the entertainment field and he will devote the rest of his life to wiping out hunger, disease and capital punishment.

On October 19, 1968, Trooper [redacted] supra, advised that on the evening of October 18, 1968, Dick Gregory delivered a two and one half hour speech before a group of approximately 650 persons at St. Francis College.

Gregory said that today's students are the most morally dedicated young people in the history of the country and stated that it is up to young people to save America if she can be saved.

He said that the No. 1 problem in America today is not air pollution, but moral pollution and that the young people have the job of giving America back her sanity. Gregory said the problems between young people and old people arise when the young discover that their society isn't what it should be and want a change.

Gregory stated that the young people of today are saying that morality will no longer be a clean-shaven face, a Brooks Brothers suit, and haircut once a week. He said morality comes from within and cannot be bought with a credit card.

Gregory warned that students should not be so busy learning how to make a living, less they forget to learn how to live.

He called for United States withdrawal from Vietnam and said that if he is elected President he would cease trade with Russia since they supply the bullets that kill American fighting men in Vietnam.

On October 28, 1968, Commander [redacted] supra, advised that at approximately 1:45 PM on October 24, 1968, members of the Pittsburgh Police Department and Secret Service Agents raided the Peace and Freedom Center, 5899 Ellsworth Avenue, Pittsburgh, and confiscated a number of bogus \$1 bills bearing the likeness of presidential candidate Dick Gregory.

On October 26, 1968, source advised that Gregory appeared on that date at the Wheeling College Fieldhouse, Wheeling, and spoke approximately two and one-half hours before a crowd of approximately 1500 people, composed primarily of students. Gregory was introduced to the group by [redacted] a Wheeling [redacted] of Wheeling College. [redacted] was preceded on the platform by [redacted] at Wheeling College and [redacted] Wheeling, and by Reverend Joseph Newell, Wheeling College chaplain, who informed the audience that the students had expressed the desire to have several people with varying ideas appear on campus and that [redacted] had volunteered to pay the expenses for the appearance of Gregory. Source advised that Gregory's talk contained no open threats of violence and indicated that he was not disillusioned about his chances of being elected President of the United States. He stressed the need for law and order and higher salaries for law enforcement officers and appealed to the younger generation to break from pattern established by the older generation. He advocated ending the war in Vietnam and lowering the voting age. Source stated there were no incidents during or following Gregory's talk.

Confidential Source 1 furnished the following  
information November 1, 1968: ~~(U)~~

Dick Gregory, candidate for the Presidency of the United States on the Freedom and Peace Party (FPP) ticket, held a rally at Arlington Place and Fulton Street, Brooklyn, New York, from 12:45 PM until 1:00 PM on Friday, November 1, 1968. Gregory attacked George Wallace, Presidential candidate, and cited the high sales tax in the state of Alabama, which he said was hurting little people. He ridiculed Wallace with sarcasm and humor. He also attacked the police of the New York City Police Department (NYCPD) calling them a "bunch of punks" who lacked the heart to strike. He said that if the blacks in New York City rioted and the police were forced into double-shifts, the city would find a way to pay the salaries. He queried that the police might get what they wanted if they called a general strike on January 1, 1969. ~~(U)~~

Gregory said that if George Wallace were elected President of the United States that there would be ten million whites who would commit suicide because the stock market would drop drastically.

Richard Gregory was the featured speaker at a rally of the FPP held in Town Hall, Manhattan, on Saturday evening, November 2, 1968. At this program, Ossie Davis, Negro entertainer, was Master of Ceremonies (MC), and Pete Seeger, folk singer, provided entertainment. Another speaker on the program was Mark Lane, also a candidate on the FPP ticket. Dick Gregory, in his speech, conceded that he would not win the election. Both he and Mark Lane in substance indicated that "The Movement" would not die in the next eight years but they were going to set up a Government-in-exile in Washington, D.C. Source was of the belief that "The Movement" here referred to the FPP. Mark Lane allegedly stated that they would set up headquarters in Washington, D.C. and call it "Black House." ~~(U)~~

RICHARD CLAXTON GREGORY

On November 6, 1968, a confidential source who has furnished reliable information in the past advised as follows:

Independent presidential candidate Dick Gregory spoke at the University of Maine in Portland, Maine on November 3, 1968 before a group of about 500 persons, mostly of college age.

Gregory stated that he would invalidate the entire vote in Maine if the write-in votes cast for him were not counted. He said he was challenging a statement made by the Attorney General of Maine to the effect that write-in votes would be void. Gregory said that the United States Supreme Court had ruled that write-in votes must be counted.

Gregory said that there was a good chance of an independent candidate being elected President of the United States in 1972. He said his principal motive in campaigning was to break up the big trusts, to rid the country of the two party system, to work for human rights for blacks and whites and to clean up the immoral and degenerate system of government now prevalent in the United States. He charged that the Democratic Party had been backing the campaign of former Governor George Wallace to throw the election into the House of Representatives. He said that none of the three major candidates had said anything about the crime syndicates which were putting heroin into our schools. He told the college students that the faith and destiny of America depended on them.

He condemned "America's war in Vietnam" as "immoral" and said "If I were your President, I'd pull those boys out of Vietnam." He said that people who favored the war in Vietnam should be sent over there to fight it. He said he would give the Minutemen special privileges to go first. He said Americans were upset over the assassinations of the two Kennedys and Martin Luther King but were not disturbed over the assassinations of George Lincoln Rockwell, former head of the American Nazi Party or Malcolm X, former head of the Black Muslims.

ENCLOSURE

RICHARD CLAXTON GREGORY

He said his organization would sponsor a "nude march" of 500 people in Washington, D.C. in the Spring of 1969 for the purpose of getting the United States Supreme Court to rule that people must wear clothes. He said that the government would then have to supply clothing for people.

Gregory departed from Portland, Maine after the speech stating that he was going to return to his home in Chicago.

RE: RICHARD CLAXTON GREGORY  
STUDENTS FOR A DEMOCRATIC SOCIETY

A source, with whom insufficient contact has been had to determine reliability, who claims to associate with members of the Students for a Democratic Society (SDS) at the University of Miami, Coral Gables, Florida, furnished the following information on November 7, 1968:

Approximately twenty-five SDS members met at a closed meeting at the University of Miami on the evening of November 6, 1968, at which time they discussed the appearance of DICK GREGORY at the University of Miami on the evening of November 7, 1968. These SDS members noted that the first five to seven rows of the auditorium where GREGORY is to appear are reserved for faculty and administrative personnel. These SDS members decided that they would protest the existence of this area of reserved seating. They would enter this reserved section just prior to GREGORY's appearance and refuse to leave that area.

A characterization of the SDS is contained in the Appendix Section of this memorandum.

The SDS members present at this meeting said that they would be able to inform GREGORY of their planned activity before his appearance and they anticipate his support during this activity.

On November 7, 1968, Detective [redacted] [redacted] Dade County Sheriff's Office, advised that DICK GREGORY is expected to arrive at Miami for his appearance at the University of Miami by air at approximately one PM on November 7, 1968. He said that GREGORY was scheduled to go directly to the University of Miami, where he is expected to meet with a group of "black only" students during the afternoon.

## APPENDIX

1

### STUDENTS FOR A DEMOCRATIC SOCIETY (SDS)

The Students for a Democratic Society (SDS), as it is known today, came into being at a founding convention held at Port Huron, Michigan, in June of 1962. The SDS is an association of young people on the left, and has a current program of protesting the draft, promoting a campaign for youth to develop a conscientious objector status, denouncing United States intervention in the war in Vietnam, and to "radically transform" the university community, and provide for its complete control by students. GUS HALL, General Secretary, Communist Party, United States of America (CPUSA), when interviewed by a representative of United Press International in San Francisco, California on May 14, 1965, described the SDS as a part of the "responsible left" which the Party has "going for us." At the June, 1965 SDS National Convention, an anti-communist proviso was removed from the SDS Constitution. In the October 7, 1966 issue of "New Left Notes," the official publication of SDS, an SDS spokesman stated that there are some communists in SDS and they are welcome. The national headquarters of this organization as of July 24, 1968, was located in Room 206, 1608 West Madison Street, Chicago, Illinois.

RE: RICHARD CLAXTON GREGORY

STUDENTS FOR A DEMOCRATIC SOCIETY (SDS)

The August 7, 1968, edition of the "Miami Hurricane", the University of Miami, Coral Gables, Florida, student newspaper, reported "DICK" GREGORY, who was described as a Negro entertainer who has spent considerable time in jail in connection with his efforts to secure rights for Negroes, would appear at the University of Miami in November, 1968, to participate in the University of Miami's 1968-69 Lecture Series.

The November 4, 1968 edition of "Veritas", the University of Miami bi-weekly newsletter for faculty and staff, reported that DICK GREGORY would speak on civil rights at 8:00 PM, November 7, 1968, at the Ibis Cafeteria, Whitten Memorial Union. This is part of the University Lecture Series.

A source with whom insufficient contact has been had to determine reliability, who claims to associate with members of the Students for a Democratic Society (SDS) at the University of Miami advised on November 7, 1968, that SDS members noted that the first five to seven rows in the auditorium where GREGORY was to speak are reserved for faculty and staff personnel at the University. They decided that they would protest the existence of this area of reserve seating and enter the area during GREGORY's speech and refuse to leave. They anticipated GREGORY's support in this action. ~~(S)~~ (U)

A characterization of SDS is contained in the Appendix section of this memorandum.

A second source advised that University of Miami officials decided that the first few rows in the auditorium where GREGORY was to speak, which are normally reserved for faculty and staff members, would not be reserved at this lecture.

RE: RICHARD CLAXTON GREGORY

STUDENTS FOR A DEMOCRATIC SOCIETY (SDS)

He said their decision was made to avoid any demonstrations or problems that might arise because of the reserved area.

~~CONFIDENTIAL~~

This second source advised on November 8, 1968, that GREGORY spoke at the University of Miami as scheduled to an audience of from 800 to 900 students and faculty members. His speech was late in starting for some unknown reason and he spoke for about two hours during which time he expressed opinions and made statements critical of the U.S. Government, the capitalistic system in the U.S., U.S. participation in the Vietnam war, as well as many situations and conditions in the U.S. society which he felt must be changed. ~~(U)~~ (U)

This source noted no statement which tended to arouse or inflame the students in attendance. He said that GREGORY's speech was concluded without any incidents or problems.

According to this second source, at the conclusion of his speech GREGORY invited those interested to the Student Union for an informal gathering where he would be glad to answer questions. A small group of students, including several black students, accompanied GREGORY to the Student Union. ~~(U)~~ (U)

On November 8, 1968, Captain [redacted] Coral Gables, Florida Police Department, advised that GREGORY's appearance at the University of Miami did not cause any incidents. He said, however, that at the conclusion of his speech GREGORY invited those interested to the Student Union patio where he would answer questions. The University officials did not want the students to gather on the patio and preferred they use one of the rooms in the Student Union. After GREGORY had made his announcement a member of the Coral Gables Police Department attempted to use the microphone to announce his desire that the patio not be used. The police officer was jeered by those in attendance. As soon as GREGORY realized the situation he announced to the students that he would abide by the University's request and meet in a room in the Student Union rather than on the patio.

[ ] said for some unknown reason GREGORY was late on arriving. He said that he arrived at approximately 6:00 PM and came from Newark, New Jersey rather than Chicago. [ ] said because of GREGORY's delayed arrival his itinerary at the University of Miami was changed. He went directly from the airport to the University where he had dinner at the University's Faculty Lounge.

Immediately after dinner he went to the Ibis Cafeteria where he delivered his speech. After delivering the speech, GREGORY met informally with any interested students at the Student Union. [ ] said that to his knowledge GREGORY did not meet with a "black only" student group as had been expected.

The second source advised GREGORY spent the night of November 7-8, 1968, at the University's Faculty Lounge and departed Miami via Delta Airlines flight 832 at 8:00 AM on November 8, 1968. ~~(S)~~ (U)

Delta Airlines flight schedule shows that their flight 832 originates in Miami, Florida and terminates at Chicago, Illinois with one intermediate stop at Atlanta, Georgia.

Following is a copy of an article concerning GREGORY's appearance at the University of Miami which appeared in the November 8, 1968 edition of the "Miami News", a Miami, Florida daily newspaper:

~~CONFIDENTIAL~~

# Gregory's Black Humor

By DICK HOLLAND  
Miami News Reporter

A black master of comedy-for-a-cause walked onto the University of Miami campus, grabbed 1,500 students last night and held them close to his bitter bravery.

Dick Gregory — black male, 36, American husband and father, defeated presidential candidate of the Peace and Freedom Party — held them in the palm of his

hand, showed them his hurt, his hatred, his love.

"Explain what black power is?"

"After that tremendous operation in South Africa, where the black cat gave his heart to a white cat — you know, the only one that's still working right — we thought the whole world knew what black power was.

"We knew nothing was

wrong with white folks that a change of heart wouldn't straighten out."

Joke upon joke: "Of course, the last thing we want is for you to be thinking we're your spare parts . . . I'm for transplants, but I'm against transplants you can hide.

"I'm for transplants on the outside. I'd love to see a

white cat get a colored foot..."

"It was a gentle opening to a civilized man's savage attack upon 'The System.'"

Gregory. — professional comedian, critic, author, iconoclast, activist and pacifist, Indian-lover and jailbird — left no stone of discontent unturned and no target of the black man's wrath unstoned.

A champion miler in his own college days, he ran all the way to a chorus of student applause, crisscrossing the raw lines of language.

"Whole lots of white folks think niggers stink. Well, I'm not here to tell you niggers don't stink. Do your own research.

"We do not know what Africans do in the bushes after dark. But we know what you do in the bushes after dark. We do the same thing you do — we learned it from you. Now get off our damn backs.

"We'll make a deal with you: The day this dirty system gives black boys the good jobs it gives you, so black boys can afford the whores you can afford, we won't have so many babies in the ghettos."

Progress? Oh yes, said Gregory, he can see progress.

He stood on a small stage at one end of a jam-packed auditorium at the U-M's Whitten Memorial Union building. He wore blue coveralls and a blue denim jacket and a beard. His frame looked hard under the coveralls and his head (or was it his headache?) looked too large for his frame.

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

Progress? Yes, said Gregory, he sees progress every time his wife grows large with child.

Back in America's slave pens, he said, the mother and father of a baby would pray that the baby would be deformed, so that they could keep it with them and it wouldn't be taken and sold.

Now, he said, he has seven black children at home, "and I ain't never told them how to react if someone calls 'em nigger. I know how they'll react."

His children baked a cake for him on his last birthday, Gregory said, and they inscribed it with: "Happy Birthday, you 36-year-old Uncle Tom Nigger."

Gregory said he had to admit they were right. He was running around preaching non-violence and Matt Dillon was coming into their living room every week and showing them the virtues of shooting straight.

Gregory tilted his large head back and gazed out at the young audience through heavy-lidded eyes and said:

"I don't have to tell you. You looked at the Democratic convention in Chicago (his hometown). Three days after the convention was over, the Establishment was tryin' to tell you you didn't see what you did see."

Fifteen-thousand hippies and yuppies turned out in Chicago and everybody got upset, Gregory said.

"But six weeks ago you saw something on Wall Street. Twenty-thousand sick degenerates came out on Wall Street one day to look at a chesty broad.

"Did anyone get upset? Did J. Edgar Hoover say that was Communist?"

The only reason the Establishment gets upset when the youngsters turn out, Gregory

said, is that the young people are trying to change things.

About assassination, Gregory said, everyone got upset when Martin Luther King, Robert Kennedy and John F. Kennedy were murdered. No one got upset when Malcolm X and George Lincoln Rockwell were murdered.

"Are we a nation that doesn't like assassination or are we a nation that gets uptight only when somebody we like gets assassinated?"

About the presidency: "I really thought I was goin' to win the presidency (he got 36,861 votes). I was the only one runnin' for president — the rest of them were runnin' for sheriff."

Gregory said he was really the "law and order man."

"Shoot all the looters! I agree. But make it retroactive and put the guns in the Indians' hands.

"Hate niggers all you want," Gregory said, "just stop insulting us."

"It's an insult for white America to tell black folks to be non-violent. . . They look at us and say, 'Be non-violent, boy.' We say they can go to hell.

"Get up on that Indian reservation and cut my brother loose. You can't be no more non-violent than that Indian's been. He's been non-violent for 75 years now and you don't even know he's there.

"If that Indian wants some action in the morning, all he's got to do is get up on a viaduct and start shooting, hollering Red Power."

But soon after that, Gregory said, "On television some old Uncle Tom-Tom would be saying we want to keep our reservation like it is — it's those people like Stokely Red-Heart that are causing all the trouble."

Inflaming words? Gregory's appearance was spon-

sored by the undergraduate student government and the U-M's University Lecture Series, and admission was restricted to U-M students and faculty, and few others.

The audience was well-behaved, patient when the public address system failed. The students followed Gregory with their eyes — tender eyes, hurt eyes, moody eyes, sardonic eyes — and laughed. The timing of his humor was professional and deliberate.

He spoke far beyond his scheduled time, winding up with a question-and-answer session on the patio at midnight.

Plainclothes detectives, trying to look like students or teachers and failing at both, kept an eye on the crowd. There was no need to.

Gregory said he was not out to destroy the capitalistic system, only to bring it back behind the Constitution rather than "in front of it."

He told them to use their

potential power of economic boycott — of the mammoth record business, for example to "create an atmosphere where men don't have to throw bricks or burn buildings to get a redress of grievances."

Gregory described his own generation as "Old Fools," some of whom only appear to be leading youth because the young people are chasing them. And the young people, he said, want purity.

Politicians, Gregory said, are the lowest form of animal walking the earth, and what we need are statesmen. He didn't vote in the 1964 presidential election, Gregory said, but if he had it would have been for Barry Goldwater, because Goldwater was one of the very few honest politicians. George Wallace, he said, was not.

"One thing Wallace did for me," Gregory said, "was get that last little piece of nigger out of the back of my head..."

A source, who has furnished reliable information in the past, at the University of Notre Dame (UND), South Bend, Indiana, advised on November 5, 1968 that at 1:30 PM the same date, members of the UND chapter of the SDS would stage an election demonstration near the UND Fieldhouse, which was also being used as a polling place.

Source advised later on November 5, 1968 that on this same date about 50 individuals, including five individuals and two infants, participated in the demonstration, by lounging on the ground on the UND campus about 300 feet from the UND Fieldhouse. "Psychedelic" type music of Captain Electric and his band was played from amplifiers and signs urging the election of Dick Gregory and Mark Lane for the Presidency and Vice Presidency of the United States respectively were displayed. Demonstrators, according to source, appeared for the most part to be UND students. There is no alternative. Protest this fact by casting your ballot in the SDS poll booth.

On October 29, 1968, a Special Agent of the FBI observed Gregory's arrival at Port Columbus Airport, Columbus, Ohio. He arrived on TWA Flight 539 which originated at Philadelphia, Pennsylvania, and stopped in Pittsburgh, Pennsylvania. It was not known where Gregory boarded the flight.

Gregory was met at the airport by approximately 26 persons, one of whom drove Gregory from the airport in a vehicle bearing Ohio license 2345M. This license was issued to Rio Grande College, Rio Grande, Ohio.

On October 29, 1968, Gregory spoke at Rio Grande College to an estimated 800 persons.

[redacted] Rio Grande College, advised a Special Agent of the FBI on October 31, 1968, the appearance of Gregory was uneventful. He stated there were no demonstrations or other incidents on campus either for or against Gregory. He noted the only sentiment he heard expressed was anti-Gregory and further advised Gregory received only forty votes in a mock election conducted on campus. [redacted]

[redacted] said the student enrollment at Rio Grande College is approximately 800. Gregory's appearance was sponsored by the Convocation Committee, a student-faculty group. The Gallipolis Daily Tribune, Gallipolis, Ohio, issue of October 30, 1968, and "The Signals", student newspaper of Rio Grande College, issue of November 1, 1968, carried accounts of Gregory's appearance, xerox copies of which are attached hereto.

# Gregory Puts Future onto Youth

If elected president of the United States, the first three things Dick Gregory would do is:

- 1 — Paint the White House black.
- 2 — Pull all the U. S. troops out of Vietnam.
- 3 — Send LBJ to Vietnam all alone, armed with his barbecue sauce gun.

Approximately 800 persons, including 600 Rio Grande College students, jammed the college dining hall Tuesday night to give a courteous hearing to the Negro comedian, author, actor, crusader for human rights, and presidential candidate — he's running on an Independent ticket as a write-in with Mark Lane as his running mate.

To get his point across on world and national problems, Gregory was very blunt, yet his

humorous remarks kept the audience's attention from beginning to end.

During his one - hour "campaign speech" the bearded Gregory, attired in blue coveralls and a light tan jacket, called President Johnson "the biggest tyrant in the history of the world," and said "George Wallace is nothing but a big liar." He referred to Richard Nixon as "Tricky Dick."

The 36-year-old Gregory, an Army veteran who lost his father when he was eight years old — he was killed by Nazi soldiers in World War II — said the number one problem in this nation today is moral pollution.

He repeatedly emphasized that it was up to the younger generation — "you kids" — to make necessary changes and return

sanity to this nation. "You can't buy morality. It must come from within," said Gregory.

"Keep your eyes and ears open. Don't let yourself be programmed. You have a tremendous job to do in saving America.

"You must solve the problems created by us oldfools. We couldn't solve our problems. You must, if this nation is to survive," he continued.

Gregory said the big money makers — capitalists — who hide behind the country's constitution are the power makers, or decision makers. "It's time these fools stop playing around," he continued.

He blasted labor unions, stating that, "If they don't straighten up, crush them out."

As for democracy, Gregory said, "If it's as good as we say it is, why then do we run all over the world to jam it down the throats of other countries. The world is no longer fooled by us."

In speaking on the ghetto problems across this nation, Gregory said: "Don't walk in with \$80 billion and say our problems are solved. First, create an atmosphere for blacks to trust whites, then we'll sit down and talk over our problems."

Gregory criticized Chicago Mayor John Daley and his administration for its procedures in handling demonstrators at the Democrat convention last August. "The old folks don't want to change. The young folks want a change. Baby, we're in trouble.

It's up to you to get the job done."

Following his remarks, some 600 remained for a question and answer period. During this period, members of the Rio Grande College Smoke Signals newspaper staff took a quick survey on Gregory's remarks.

"Some 90 per cent of the students attending disagreed with most of his remarks," said Jerry L. Updegraff, chairman of the RGC convocations committee.

"But they were courteous, they did listen, and they formed their own opinions. This we were proud of," said Updegraff.

Remarks ranging from "Who the hell does he think he is, to 'he's got some interesting points,'" were overheard in the audience.

# "Fire" From A Black Dragon's Mouth!

BY MIKE VRANESEVIC  
and

KATHY WALLACE

"I guess the biggest event here at Rio is Halloween," stated Dick Gregory, presidential candidate of the Peace and Freedom Party, Tuesday night on the college campus.

Before a history-breaking Rio college populated gathering, Gregory emphasized that the young people of today "have got a job to do." This being to solve the problem that the "old fools" created. By "old fools" Gregory is referring to the older generation which is failing to recognize the attitudes of this country's youths.

Clad in blue coveralls and a tan jacket, Gregory pointed out one of these "old fools" is Mayor Richard Daley of Chicago. With regard to the demonstrations held by the Hippies and the Yippies at the Democratic National Convention in Chicago, Gregory singled out Mayor Daley as a "syndicate controlled hoodlum." The television screen gave the American public a clear picture of the brutality given to the demonstrators by the police. Gregory suggests these demonstrators "have come to change the system."

Gregory attacked the capitalistic system of this nation saying that the nation is not controlled by the Constitution but is controlled by capitalists. The capitalists must be pushed behind the Constitution.

In regard to U. S. intervention in other countries, Gregory pointed out that this nation does not have to "jam democracy down other countries' throats." If other countries are satisfied with a democracy, force will not have to be used — "they will steal it."

Gregory stated that black people in America are tired of waiting to be recognized as equals to white Americans. Non-violence is not an effective device when no progress is being made to remedy the racial situation. The black man is tired of being insulted and prohibited from living where he wishes to live. Gregory feels that there must be burning, looting, and shooting by Negroes to make the American public aware. This not only concerns Negroes, but other minority groups such as the Mexicans, Puerto Ricans, Indians and Jews. Gregory recited a section of the Declaration of Independence which states: "whenever a government becomes destructive of these ends, it is the right of the people to alter or abolish it, and to institute a new government."

Gregory related that white Americans think of Negroes as ignorant, stupid, and uneducated. He went on to remark that it was a Negro who performed the first heart transplant and that it was a Negro who was first linked with the knowledge of blood plasma. Gregory informed the audience that the "whites need education."

Gregory attacked President Lyndon Johnson as a drunkard and tyrant. Gregory recalled LBJ showing a scar on his hip from a

recent operation on television. Gregory drew applause and laughter from the audience when he said that a friend called him from London and stated he was glad LBJ didn't have a hemorrhoid operation. Gregory also related that if he were to become President, he would bring the U. S. troops back from Vietnam and send LBJ to Vietnam alone with

a barbecue gun.

Gregory indicated that the two party system in American politics will be done away with in the near future. He also asked the audience how George Wallace can be for the middle working man when Alabama has the lowest property tax but the highest sales tax of the 50 states.

To those who came to listen to Gregory, I say congratulations no matter what your opinions are now. To those who did not come, I say — Plug your ears so you can be both deaf and dumb. Those who did come were, at least, willing to listen to both sides of the issue. I can not think of a worse way to stifle education today — than to close our minds and rot in your self-righteous and self-centered "enlightened" world. You know so much of your world only.

I was really proud of the group which attended. I think it can be the beginning of the end of apathy. I think that Rio has finally realized that we're not interested in those insignificant convocations but give us something worthwhile and interesting and you'll see more crowds like Tuesday night.

This reporter attempted to interview a representative part of Rio student body, administration, and some of the local people who attended, by method of face to face interviews and a telephone survey.

Here are some of the comments I received:

Agreed 100 per cent with him until the end, with the Negro

uprising. It's not the way.

...Food for thought.

I bet some people will do some thinking now.

Great...but one mistake — too much Black.

Told it like it was.

Enjoyed him — but it was one-sided...I learned a few things...

Enlightening...it informed the White segment what the Negro's bag is.

Hell, we got to learn to trust everyone black, white, yellow, red.

Sure the blacks have to trust the whites but the whites also have to trust the blacks but the Negro has endangered that trust by the riots.

It is a paradox. I don't believe in violence but I don't see how the Negro can attain his goal without it.

He shouldn't have knocked LBJ because the President has to follow the majority's wishes and the majority is prejudiced.

Out of sight.

Opened all minds — made people think if nothing else.

I do not feel that he reached the majority of Rio students. The truth hurts and we could not digest it. It went right over most of them.

Unless you're black you can never understand how right he was. It would have been impossible for a white man to say the same things that he said.

Rio has never been aware of the Black student — now they will.

The shock will not sink in. No comment. I hate the b—.

QUESTION — Would you like to see Mr. Gregory back at Rio? Hell, no. He's too radical. Gives people ideas. You know he would cut your throat if he had a chance.

He contradicted himself...How can a non-violent man advocate riots and destruction?

I don't think much of him because he spoke in gutter language as if we are as crude as that.

Needs a shave...

Sincere...dedicated.

It was more appropriate for a liberal audience. (My comment: A liberal audience doesn't need him — It is rather pointless to preach to an audience who already agrees with you.)

Wonderful...even if it opened only one person's eyes.

Did not state any solutions...

Hell, I wouldn't go to that black brainwashing party.

I didn't like being called stupid. He can't convince me of anything if he tells me that I'm too stupid to understand.

If I can't call him nigger, he shouldn't call me whitey.

Dirty Red Communist...He's more Red than Black.

He did not effect Rio because his views are on a large scale and Rio is minute.

I didn't like the idea of supremacy — he should work for equality.

When he threatened us with the gun issue: I felt like buying all the guns and shooting all those black — —. If they meant to fight — then it's all over.

I hope he rots in the Ghetto along with Rap Brown and Carmichael. He advocated the overthrow of the U. S., not the reform. He failed to see the other side of the coin... It can't be done overnight like he wants.

He has very good ideas but he is a fool (as a candidate) because he cannot form policies. He failed to see the importance of education and what the 80 million could do for him.

He cut people down to much. He's cynical... Cannot achieve anything constructive with a destructive attitude.

He never mentioned that the Negro segregates himself like here at Rio... they all sit at one table... they are unfriendly... they discourage your friendship because you can't understand them... As long as they consider themselves as a separate entity they can never be accepted as part of the entire student body... or human race. They separate themselves many times.

I attempted to answer some of the questions asked by the students. At this time I offer these explanations. Mr. Gregory stated that he was non-violent, yet he would burn down your house. Mr. Gregory explained to the report-

er that he is non-violent toward living things but not material things. He said that he would never harm a person but he would burn their possessions.

He was asked by a member of the faculty why all the looting and burning took place in their (Negro) communities. Mr. Gregory states that a revolution is a very personal thing. In every revolution you kill your own. When the Cubans had their revolution they didn't kill Germans. The more damage you do to yourself the more scared people become.

A black could go out and shoot three whites — sure people would be mad — but if he went out and shot a dozen blacks, people would be scared.

I do not have the space to relate all the ideas for reforms that Mr. Gregory advocated (reforms — not overthrows) but he is a man with marvelous talent to see how things really are.

He was not trying to incite the black students to rebel, but he was speaking to the entire human race — to become one race called man. Mr. Gregory had to go to extremes to shock the audience into reality. His ideas were not original — we hear them every Sunday in church but they are covered over with euphemisms.

Mr. Gregory "planted some seeds". It is up to Rio to cultivate and harvest those ideals. They can grow and ripen and blossom or they can rot on the vine. It is all up to you, individually.

I think Rio's campus was an excellent place to bring such a man. We are here to learn all the sides. That's what education is all about. You don't have to agree with him but you should at least know and understand why you do oppose. And that can't be learned by refusing to listen to him. Learn to think for yourself. What we need now is to expose the other sides.

I don't care if you agree with me but at least open those white, black or even red eyes and look around you.

If Mr. Gregory accomplished nothing else he made a few people think. That's what we are here for — to learn to think. As I was covering this story I attempted to compile arguments against Mr. Gregory's views but I couldn't contradict one of his statements. I didn't like a lot of things he said but I could not take the defensive position. He was carrying the ball game all the way.

Yes, he may be a little radical and extreme. But he is also being effective — he's getting his message across the barriers of society — not by climbing across them, but by going around them.

Yes, I was offended by his language but I should be more concerned about being offended by my country's hypocrisy. He may be crude and gross but there are worse things.

He should concentrate on the positive but that would distract from the effectiveness of his speech.

I don't think all the responsibility here at Rio Grande College depends on the white student. The black student must make a special effort to promote friendship and equality. Mr. Gregory's appearance can either unite our campus or he can be misinterpreted, and drive a wedge between black-white relationship.

You can't say, "look here, white students. We're black and we're uniting against you." You must stand up and say, "Look here, students, we are people. Let's unite as one."

It won't be easy but it can be done! Right, Mr. Gregory.

MARK LANE;

A confidential source advised in November, 1968, that Mark Lane, during a speech at San Francisco State College, San Francisco, California, on November 1, 1968, stated a house, "The Black House", had been purchased in Washington, D. C., and that he and Dick Gregory would run an "American Government in exile" from this house. Further that plans were being made for a Black Inaugural Ball to be held outside the White House to coincide with the Presidential Inaugural Ball.

Sources of the Chicago area, who might logically be aware of the above, when contacted in early December, 1968, were unable to furnish any information concerning either the establishment of a "Black House", or plans for a Black Inaugural Ball to be held in Washington, D. C.

Richard Gregory is a former entertainer and current civil rights activist who recently ran as the presidential candidate for the Peace and Freedom Party, a coalition of black and white radicals.

We developed information that Gregory was to make contact with the North Vietnamese in Paris during September, 1968. We requested [REDACTED] to provide coverage of Gregory's activities abroad.

RE: RICHARD CLAXTON GREGORY

---

On November 12, 1968, a source of the Federal Bureau of Investigation (FBI), who has furnished reliable information in the past, advised that on November 13, 1968, Montgomery Junior College, Rockville, Maryland, will host its second lecture in its current series, when the subject will speak at 8:00 p.m. at the Campus Fine Arts Center. The appearance, sponsored by the Student Activities Association, a legitimate campus organization, has not been advertised and the 750 tickets available have been distributed to students only.

On November 14, 1968, another source of the FBI, of known reliability, advised that the subject appeared as scheduled and spoke for approximately one hour, after which there was a question and answer period. There were approximately 500 persons present, primarily students from Montgomery Junior College.

The latter source advised that GREGORY's speech was not inflammatory, but he addressed himself to the issues of America's problems, such as poverty, bigotry and violence. His speech was degrading to the white race, calling them "honkies" and apathetic, but he did not preach or advocate violent change, and no incidents or arrests occurred as an aftermath.

RICHARD CLAXTON GREGORY

On November 2, 1968, a source, who has furnished reliable information in the past, advised that Richard Claxton Gregory, also known as Dick Gregory, would participate in a seminar on "Institutionalized White Racism" at Mount Mercy College, Pittsburgh, Pa., on November 6, 1968.

Source said that the seminar, which is open to the public, is being sponsored by the Student Government Association, and will be held in Antonian Hall Theater at a time as yet unspecified.

On November 6, 1968, a second source, who has furnished reliable information in the past, advised that Dick Gregory would arrive at Pittsburgh via air, at approximately 10:15 AM, on November 6, 1968, and was scheduled to speak at Mount Mercy College at about 1:00 PM.

On November 6, 1968, a third source, who has furnished reliable information in the past, advised that Dick Gregory spoke before an audience of approximately 300 persons at Mount Mercy College, an all girls school, between 1:55 PM, and 2:55 PM, on November 6, 1968. Source said that Gregory's speech was essentially the same as that which he has recently delivered at other Pittsburgh area colleges.

RICHARD CLAXTON GREGORY

On November 7, 1968, the third source furnished a tape recording of Gregory's speech at Mount Mercy College on November 6, 1968. The following is an essentially verbatim transcription of the recording:

"I want to tell you what a pleasure it is to be here. I never thought I'd see the day when things would get so groovy in this country that they would pay a black man to come and talk about white racism. Things have changed. I remember a time when you'd get shot for talking about it.

"Let me say that as important as it is being here today, that as important as this is for Afro students, I think the most important thing that happened here today was the reading of the Declaration of Independence, and I just wish we had enough copies to pass out and scratch, 'After long periods of injustices, it is your duty to destroy or abolish that government,' and maybe Americans would understand the riots. I didn't say white folks. I said Americans. A lot of people think I'm talking about white folks when I say Americans because a lot of people think when you say Americans, you're talking about white folks and when you say Negroes, you're talking about black folks.

"You know when the riot season opens up again, which the white folks told us is July through August. We didn't show this past July through August, and the whole system is upset. Police departments are trying to figure out what happened to them. George Wallace just said, 'Why you know Niggers are lazy and shiftless; you know they wasn't going to show.'

RICHARD CLAXTON GREGORY

"I tell you what happened during this last riot season. We got tired of stealing all those cheap no good products so we decided to go underground and study the Consumer Reports.

"Next riot season we won't be stealing Motorolas. When the riot season opens up again, I'm sorry everyone in this room and in this country will not have the Declaration of Independence because if you could look at Niggers tearing up and looting and burning towns down, it would save having to read and write about it. The newsmen would not have to explain it to you because it says in that piece of paper that after long periods of injustices, it is your duty to destroy or abolish that Government. You know black folks didn't write that. That isn't a message that Malcolm X left to Rap Brown. That is a message white folks left to white folks, but forgot to put 'For white only' on it. And so just assume that the Declaration of Independence means all Americans.

"I would really suggest to America to try to change that. Put 'White only' on it so we'll know that white folks are supposed to tear down the country and bomb and napa~~ish~~ people to liberate them and not black folks.

"Then we know that America has the right to send black boys all over the world to kill to free a foreigner, but praise be your mammy! That's a very important piece of paper there. If this country will ever get together to straighten it out so we'll know it means white folks. Because you know what we push this thing in our grade schools, all black grade school in an all black community and you put that white piece of paper in there and tell them little black kids, the system says he's dumb and ignorant, it will make a difference to America and you're doing it now.

RICHARD CLAXTON GREGORY

"So, you youngsters is living in some very important times today. I was very glad my brother introduced me as a presidential candidate. There's just one flaw to that. I was the only major presidential candidate because the rest of those fools was running for sheriff.

"Matt Dillon done moved into the White House.

"I can't complain because they stole that out of my platform. Oh, I'm the law and order man. Yeah, I was hollering law and order and didn't know nobody heard me. When my friend, Medgar Evers got shot in the back of his head and got killed walking into his house, I screamed law and order and not until this campaign did I realize Brother Wallace actually heard me. When four kids got dynamited to death in that church in Birmingham, Alabama, I screamed law and order and I didn't know Brother Nixon heard me. When three kids was killed down in Mississippi, I yelled law and order and didn't know Brother Humphrey heard me. It is a thrill to know they heard me and decided to use this. I was just hoping that he would have used it without racism.

"But when you talk about the Presidency of the United States and talk about electing me President and I will restore law and order, that's just another hip way of saying Nigger. Which is groovy, we're making progress, but they used to just say we'll keep the Nigger down. We can't say that no more, thanks to you young white kids.

"But any kind of man who is sincere about law and order would have to campaign and say, 'If you elect me President of the United States, not only will I wipe out lawlessness in the streets, but I will wipe out the crime syndicate.' Not one of them said it. Humphrey hasn't mentioned the crime syndicate. Nixon never mentioned the crime syndicate and poor Brother Wallace don't even know what it is.

RICHARD CLAXTON GREGORY

"What is the most detrimental to American society today? Some Nigger snatching a pocketbook on a street corner or the stinking, scroungy crime syndicate putting heroin into your high schools? What is most detrimental to America? Nobody wants to talk about the syndicate. You want to get the syndicate wiped out in a week? Let black folks take it over tonight. It will be wiped out by the weekend. Of all the riots we've had in America in the last five years, regardless of what you think about them, not in one riot has the black community ever corrupted a policeman. Haven't one riot ever bought a politician or judge. The crime syndicate corrupts cops and buys politicians and judges every day of the week in America, but nobody's interested in the crime syndicate.

"So I say to you that had I been elected to the Presidency of the United States, you talk about law and order! Man, we would have got that Constitution and we would have upheld the human rights part as vigorously as we uphold the income tax collection.

"When I got through with law and order, the Indians would own half this country back in the first year. When you read them old trick treaties and hold up law and order, you have to give it back to them. Law and order? The Ku Klux Klan would become a social club because the first time they did that other thing, they'd all get busted.

"Bell Telephone, AT&T, DuPont, General Motors, Henry Ford, Rockefeller? Let me tell you something. I've been such a law and order man, that four years from now all the white folks that are running for President will be saying, 'Elect me the President because there will be no more law and order.'

RICHARD CLAXTON GREGORY

"I don't know how many of you stayed up late last night looking at the returns. Raise your hands. How many of you looked at the returns? We got to see democracy working at its best yesterday. Americans came out to vote, but when the polls closed, you looked at those same law and order dogs insulting the whole country when they started tricking them votes. That was the machine at work. They decided what they needed and the machine started bucking. Chicago decided to hold up X amount of votes and downstate Illinois, did you see it on television, did you watch it? Downstate decided to hold up X amount of votes. Law and order? First thing you better do is get law and order in that ballot box. Damn shame a nation as great as this and as powerful as this having to demand that them snakes clean up the polling box. All you got to do is demand they put in electronic polling places in every city, town and village in America so that when the polls close at 6 o'clock that night, electronically that thing is tabulated within a split ten seconds of a million, and you ain't got no more cheating and stealing, it's just that simple.

"Since we want to use electronic devices to catch criminals, let's use them to catch the number one criminals or the ones that betray the public trust. Let's catch those politicians. The ones that make the law.

"I was very proud of the independents last night. All of the radical elements in this country might be the reason that America is not in open revolt at this very hour. When the final tallies come in, independents across this country will have gained more than a half million votes. Nixon won the popular vote by 200,000. You can safely say that if the independents had not been running, 90% of the votes we got would have gone to Humphrey, which would have meant Humphrey would have had the popular vote and Nixon would have had the electoral vote and with the climate in the country the way it is today, that could have meant revolt. So, we might

RICHARD CLAXTON GREGORY

"have saved this country, my friends.

"Let me say to you youngsters today that I spend about 98% of my time on college campuses and there's a reason for it because you young folks today is the most moral, ethical force that's ever lived in the history of this country and if America is going to be saved, it's going to be saved through you. And if America is going to go down, it's going to be because of old fools like us. It's insulting to me to have to sit here and tell you young beautiful kids that not only do you have to solve the problems confronting America today, but you have to solve problems which you had nothing to do about creating.

"These problems were here when you got here, but they will not be here when you leave here. We all have to go together. Thanks to us old fools, because not only did we not solve the problems for you, we used up all the tricks.

"When my mother taught me and my daddy taught me that one day one of them crackers was going to call you 'Nigger,' 'Boy' just laugh at him because God don't like no ugly,' and that cracker did call me a Nigger and I laughed at him because God don't like no ugly, but I have taught my dirty black kids lovin and I don't know what to say the first time one of them crackers calls my kid a Nigger.

"So, we're done with tricks. There's no more tricks whatsoever. Then we wonder why you young kids react the way you react. We've used up all the tricks.

"Kids came to Chicago to change the system. Fifteen thousand hippies and yippies moved into my town to change the system and the whole establishment got upset. You youngsters better keep your eyes open because you have to watch us. Yes, so we can't trick nobody else now so we have to trick you. The whole world digs our game over here.

RICHARD CLAXTON GREGORY

"You started tricking Chicago three days after the convention was over. The whole establishment told you you did not see what you saw on television.

"You know if Kosygin was dealing with a world as insane as America is, he'd have beat that Czechoslovakian rap. All he'd have to do is get on world-wide television and say, 'What you are all mad about in Czechoslovakia, you didn't see. It just happened. That was the press. Yeah, we admit we put little miniature tanks up on the border and the press blew them up to make them look like real ones.' Kosygin is not dealing with a world as crazy as America is, so he can't get by with that.

"Fifteen thousand hippies and yippies came to Chicago to change the system and the whole system went crazy. Whatever you young kids do, do not read no newspaper and let them decide to tell you what you are. Don't let nobody tell you to do nothing. Don't let nobody tell you that because you wear long hair, you don't comb it or if a cat wears a beard with long hair, he is dirty and stinking and all that. They never said anything bad about Abraham Lincoln. Not only did he have a beard, he's ugly too. Christ, when you talk about a hippie, you can't look no more like a hippie than Christ. Nobody said he stunk. Nobody said he was irresponsible, but them fools.

"Fifteen thousand hippies and yippies came to Chicago and I ask you, who was the most immoral in Chicago this year? The fifteen thousand hippies and yippies or the Shriners, when they came for their convention? Who do you think committed the most adultery in Chicago? The hippies and yippies or the Shriners? Who do you think spent the most money on whores and prostitution? The hippies and yippies or the Shriners? But nobody got upset when the Shriners came because the Shriners weren't trying to change the system.

RICHARD CLAXTON GREGORY

"You youngsters got to keep your eyes open. You look at that same old bad television, that same television you looked at on that miserable Wednesday night in Chicago, that same television that six weeks ago showed you Chicago. Everybody was upset over the hippies and yippies. Fifteen thousand of them, but in New York City six weeks ago, nobody got upset when them twenty thousand grown men, twenty thousand sick, bald, freak, degenerates came out one day to look at a broad's titties and nobody got upset. It sounds funny, but that's a sad day in America when twenty thousand grown men have stooped to the degeneracy of tittie-watching. This is a bankrupt country you're dealing with. We're not talking about no little college kids, we're talking about men that run and control a system, that's what we're talking about. J. Edgar Hoover has not claimed tittie-watching is communist inspired.

"So I say to you young folks today, that the number one problem confronting this country today is not the problem of air pollution. The number one problem facing America today is the problem of moral pollution. This is the most morally polluted, degenerate nation on the face of this earth with an insanity equal to none. And you young kids have the job of giving America its sanity back, making this the moral country that the founding fathers intended it to be. That's why the system's upset, because you young kids are saying morality will no longer be a Brooks Brothers suit and a clean-shaven face and a haircut once a week. We can't afford that. You're saying that you can no longer go to Saks Fifth Avenue and get the latest fashions, and have an abortion when you get ready. You're saying you're not going to buy morality in this country no more. It's going to come from within. And that's what this new thing is all about. That's why you young white kids got the civil rights movement moving. And you're doing what Malcolm X was talking about when he told the black folks 'Why do you want to integrate into a house that's on fire.' We wanted total integration. We wanted the right to be as nice as white folks and

RICHARD CLAXTON GREGORY

"We wanted the right to be as dirty as white folks. That's integration, isn't it? What are you talking about? We wanted the right to have some black politicians that was as corrupt as LBJ and still not go to jail. We wanted the right for a black man to rape a white woman and get as little time when he got caught as a white man gets when he rapes a black woman. That's what we were fighting for. We was fighting for all, the good and the bad.

"Now you young kids came through and said, 'Stop the system, baby; we're going to clean it up.' It's a big difference in saying, 'Cut me in or cut it out.' You're saying, 'Hold it! I'm gonna cut this cancer out of this system or this system's not going to move again.' Because you young kids have said black and white is not a color anymore, it's an attitude. It's beautiful.

"Father Groppi proved that very eloquently in Milwaukee, Wisconsin. There hasn't been a man in the history of our movement, white or black, that led as many black folks as Father Groppi did at a time when everybody said, 'What are those black folks talking about? They don't want to be loved, we're their friends.' Father Groppi reared back on his hind legs and talked to this white trappy system the way Jimmy Hoffa talks to it. We never had a black man or white man talk dirty to this system about it. He's always going with his hat in his hand praying and begging. If praying and begging is good to liberate my momma, then it should be good to liberate them South Vietnamese. Just leave your napalm at home and take your pocketbook.

"You young kids tricked the whole system. Let me tell you about us old fools, baby. The only reason we steal in front of you is because you're chasing us.

RICHARD CLAXTON GREGORY

"You can already tell the Kentucky Derby don't end until it's all over. We want to stop it. This meeting here today is evidence of what you're trying to do, what you're talking about.

"The nation where Martin Luther King was assassinated, the whole nation got up tight. Oh, wasn't that awful about Dr. King being assassinated. When Bobby Kennedy got assassinated, we all got upset because Bobby Kennedy got assassinated. When JFK was assassinated, we was horrified because JFK was assassinated. But nobody in this immoral, insane nation got upset when George Lincoln Rockwell and Malcolm X got assassinated. That's a sad indictment on this country. Aren't we a nation that's against assassination or do we just get up tight when you assassinate somebody we like? Ninety-eight percent of everybody in America that got upset when Martin Luther King was assassinated, if George Wallace was assassinated today, they would not get up tight. It's scary. And that lets you know the job you have to do to clean up this system. You have a job.

"I don't advocate destroying the capitalistic system, but I say you better put it in its rightful place and that's behind the United States Constitution and not in front of it.

"This country do not function under the democratic process. This country's not governed by the United States Constitution. This country is governed and controled by capitalism. That's the problem. That's why Nixon can talk about, 'If I'm elected President, I will come in the black community and build buildings and build black economic power.' But he didn't say a damn thing about implementing that Constitution. He's still talking about property rights. He's still talking about me making him a dollar. Nobody wants to talk about human rights.

RICHARD CLAXTON GREGORY

"You young kids got to talk about human rights because when you talk about human rights you're talking about my Indian brother and my Puerto Rican brother and my Mexican brother and my Jewish brother. When you talk about civil rights, you're telling me it's my turn, that you're going to let me slip through like you let the Italians, like you let the Irish, like you let some of the Jews slip through, then when I get with you, we can all put my other brother down. No, we don't want no more civil rights. Don't waste your time on that.

"So you got a job to do. A very, very important job to do. Especially you women because when you all decide that your babies ain't going to get killed in war no more, there won't be no more war.

"Running around talking about we want equal rights! We want to have hope. It takes two to have a baby, male and female, and you let these fool men make birth control and then let you take it. Tell them to make a pill for themselves. And the same way you let us make birth control pills and give it to you, the same way we take your babies from you. Every time you have a boy born in this country, you're not raising a family, you're raising an army. Yeah, that's what you're raising, an army. If your son tells you he's not going to the grocery store, you can't put him in jail, but if he says he ain't going to war, he can be put in jail. You're telling me that the United States Government is my momma. I should have been hugging her when I was a kid. Don't teach me the flag, momma, teach me about human beings. Teach me about people so that when I stand up on that platform and they blow that whistle and wave that flag and sing the Star Spangled Banner, tears roll down my eyes. Momma, teach it to me so I can cry when I see people, momma, not flags.

RICHARD CLAXTON GREGORY

"You've all got a job to do. You've all got a job because we're about to put you all in the biggest trick the world has ever known. We believe you're defenseless. You're always working. You're all going to mess around and end up doing all the work. You ain't never heard of us fighting to do more work than you, have you? Even when women didn't have the right to vote, you had the right to work. You've all got a job to do, baby.

"No more social clubs. Women's Strike for Peace, that was a social club. Now come on off that bag and tell this man he ain't going to kill no more of your babies, that's the job you have to do. If enough women decide that their babies are not going to be killed, then we got to stop war. Go look through the history books and find out what the bad kind it was that started the war.

"So I say to you, you've got a job, baby. You've got a big job. If white babies understand the problem, you'll understand what black babies are talking about. You've got a white Santa Claus in on my little young black kid. I got to pay for the goods and that white boy gets credit for it. Black babies is huggin white dolls but white babies isn't huggin black dolls.

"So I say to you, you ladies have a big job to do. Got to ask a lot of questions. You've got to ask this system that if democracy is as good as we say it is, then why do we run all over the world trying to ram it down peoples' throats with a gun? The day you young folks work to make this democracy work right, that's the day we can bring the guns home and the sooner we bring the guns home, you mothers will have your men.

RICHARD CLAXTON GREGORY

"See, females were put here to reproduce. Dogs have dogs, cats have cats, horses have horses, men have babies. Females are meant to have babies. Men was put here to make the world a better place to live in for men. See, horses can't make it a better place, cats can't make it a better place. If you mothers sit back and let the system kill all of your babies before they become men, you're going to end up in a pickle. So the day we make this democracy work right is the day we bring the guns home. Because you see anything good you don't have to force on people. You know that. They'll steal it.

"You've got to ask a lot of questions. You can't afford to get you kids on the trick your momma got your brothers on. The Federal Government come by your house tonight, knock on your door, and tell your momma or daddy they want the dog or cat to send to Vietnam. You know how much hell your momma and daddy would raise over that dog going to Vietnam. If you ever learn to raise as much hell over your boy going to Vietnam as your momma would raise over that dog going, baby there won't be no more Vietnams.

"All these young kids burning draft cards. The whole system gets upset. You know why it's upsetting those fools don't you? What's the most important card you have in America? The draft card or Social Security card? The Social Security card stays with you all of your life, male and female have Social Security cards. Draft card stays with you part of your life. Just the males have them. Why is it if the Social Security card is more important than the draft card, we can all burn the Social Security card and nobody cares? But you better not burn the draft card because if too many of them young boys burn their draft cards, they're telling us old fools that in the not too distant future, 'Baby, you're going to get into a war you're not coming back from. You're going to have to fight it yourself.' And that scares us. Yeah, that really scares us.

RICHARD CLAXTON GREGORY

"You ladies have a big job to do. Whatever you do, keep yourself from being programmed. Understand that programming. It's cool to be programmed. You've got to know the difference between indoctrination and education. You see, you can never be educated to hate a man because of his race but you can be indoctrinated and these schools is equally guilty of it. Fraternities and sororities that Indians and Puerto Ricans can't get into, only the Establishment that is supposed to be educated, but that's been indoctrinated. Half of these colleges are not as fit as the CIA, corrupt as they are.

"They got a way of getting you. You come in and they give you that book in class and say, 'Here, read that.' Now that's not the way they brainwash you. They don't do it that way. After you take that book and read it, they give you a test. And if you haven't read the book the way we want you to read it, you can't pass the test. It means when you pass it well, they have thoroughly made a fool of you.

"I never will forget they used to always ask me why I brought my holy Bible to school. I said, 'I'm gonna keep this book, it's a good book.' The missionaries went to Africa, the Africans owned all the land, and the missionaries had all the Bibles, and when they left, the Africans had all the Bibles and the missionaries had all the land.

"That's my country over there where the white Christians tell me they are savages because they eat people. They said they is cannibals. I said, 'What's a cannibal?' I asked the white preacher, 'What's a cannibal?' 'That's your ancestors, they eat folks.' I ran to the first church I came to, which happened to be a white Christian church. I got on my knees and prayed to my God and said, 'God, please forgive my cannibal instincts because we're eating folks.' The white Christian minister overheard my prayer. He came out and said, 'Boy, I never knew a black boy had that much faith to pray for them cannibal instincts.' 'Yes sir, I

RICHARD CLAXTON GREGORY

"was really touched when I found out my ancestors was eating folks.' He was touched because a black boy had that much faith and he reached down and touched me on my head and rubbed it for luck. I said, 'Mr. Preacher, I'm fixing to leave now.' He said, 'No, I'd like for you to stay and share communion with us.' I said, 'No, I just like to pray for them cannibal ancestors. What's communion?' He said, 'Get on your knees, boy, and open your mouth. This is his body and this is his blood.' Yeah, I've learned a lot from white Christians. Now I pray for all the cannibals.

"Keep your mind open and understand our problem. Don't let anybody tell you you have to do this and you have to do that to learn how to treat somebody. Don't make the mistakes us old folks made. Don't sit in an institution for four years learning how to make a living and forget how to learn to live. That's our problem, we were so busy learning how to make a living, we forgot to learn how to live.

"If you understand the power of nature, then you understand why we have to indoctrinate because nature takes care of everything by itself. Raise your hands. How many of you in this room today understand Chinese? Any of you? One hand. Only one person in this room understands Chinese, but those in China understand Chinese. Nature is powerful. Those in Germany understand German, those in Russia understand Russian, do you? I say that because you're born with all the wisdom you need to fight your way through the tricks to get human dignity. Nobody has to teach you that, nature has already done it.

RICHARD CLAXTON GREGORY

"So, I say to you that I hope you youngsters can slip through us old fools and get on in here and solve the problems before the country falls in. I hope you understand black folks attitude in America today. And our attitudes is not attitudes because of racism, our attitudes is because we cannot stand no more of this country's insults. That's what it's all about, these insults. That's what it's all about.

"People run around asking black folks to be non-violent. Did you ever hear of a Nigger doing some underground nuclear testing? We don't make no napalm. The only country on the face of the earth that's ever dropped an atom bomb on human beings and that's the same country asking us to be non-violent. She's got the mightiest army, the mightiest navy, the mightiest air force, the FBI, CIA, the State Police, the local police, and she comes to us and asks us to be non-violent. You go to hell!

"If America is non-violent, how come that Indian is still locked up on that reservation because you can't be no more non-violent than that Indian brother has been? So we say to you, if America is non-violent, go up on that hill and lead my brother down.

"No, the only time someone would lead him down is when he developes him Stokely Running Horses and some Rap Light Clouds and when he bugs this system to the extent that they think Indians will come down and rape women and burn and loot your houses and schools, then everybody will start putting them on 'Meet the Press.' Two years from now, you'll have an Indian chief speak.

RICHARD CLAXTON GREGORY

"So I say to you in leaving, don't listen to the old fools in my race that tells you everything is all right. Let them go and talk in your homes to your daddy. They will get you in trouble.

"My oldest daughter is nine years old and they begged me to come home and celebrate my 36th birthday and I was touched by it because I didn't really know my kids was that concerned about daddy. And I flew home on a backup trip where I could stay there an hour and then fly back. I called from the airport and got home and they weren't there, but they had the cake sitting on the kitchen table. The biggest cake I've ever seen in my life and just right across was short and simple, 'Happy Birthday 36 year old Uncle Tom Nigger.'

Yeah, don't let these old fools trick you. I tell you how my kids feel about me, because you know how they feel about you. You insult them. I'm their daddy and they love me, but they ask me a lot of questions that I can't answer. They want to know, 'How come Matt Dillon come to my house, daddy, once a week teaching me it's a virtue to shoot straight and you run around hollering about non-violence all the time.' I can't answer them. They want to know why we're in Vietnam and they hear the newsmen on the radio talking about Dick Gregory being non-violent. They want to know how I can go to Watts and get shot trying to stop a riot but haven't been to Vietnam. So I say to you, stop calling me colored. Just call us black. That's what we say. It's as simple as that. That old Beulah at your house around your momma, call her Niger, Nigger, colored, anything you want. But now for the first time, you better learn how to speak two different ways to black folks. One way to that old fool and another way to that young beautiful cat that thinks the same way as Patrick Henry, Thomas Jefferson and many of you think.

RICHARD CLAXTON GREGORY

"A Jew leaves Israel and comes to America, he's still a Jew when he gets here. An Italian leaves Italy and comes to my country, he was an Italian over there and when he hits these shores, he's still an Italian. An Irishman leaves Ireland and comes to America, he was an Irishman over there, he stayed an Irishman when he got here. Kennedy's daddy didn't change his name when he came here. This is what we're talking about. We was Africans when we left and when we got here, we got to be Nigers, Niggers and coloreds. Don't play no more games with me because you ain't playing with yourself. Just call us black. We got attitudes. We hope America understands we have an attitude. It ain't got nothing to do with poverty because if poverty made a people burn a country down, them poor white crackers, hillbilly cousins of yours, would have burned this country down 75 years ago. So it must not be poverty that does it, it's insults. We're tired of these insults, we're not going to take no more of them.

"Twenty or thirty years ago black folks in America had an empty stomach. Today black folks have a full stomach but a hungry mind. A hungry mind will not tolerate the same things an empty stomach did. Empty stomachs deal on smell and hungry minds deal on sounds and this country don't sound right to us anymore. Three years ago, five white boys burned their draft cards and Congress passed an Anti-Draft-Card-Burning Bill, but we haven't been able to get an anti-lynching bill in 100 years. America just told me she thinks more of a piece of cardboard than she thinks of my black mammy and I'll bring her to her knees for that. This is what we're talking about.

"If I go to Vietnam tonight and get killed by the Viet Cong, this country gives my black wife \$10,000 and she can't take it and buy a house in any neighborhood she wants to. I got killed shooting at the wrong cats. Then this stinking trappy white system tells me to get a fair housing bill. Are you insane? What kind of animals are you? You didn't

RICHARD CLAXTON GREGORY

"make no red neck white Russian cracker broad, Stalin's daughter, get a fair housing bill when she came to my country, a known communist and a known Russian. What are you? We are tired of being insulted. That's what we're talking about.

"People tell us when you get educated you'll get work." Who needs education in this country? Ever stop to think how many people on the face of this earth would be dead today if it were not for blood plasma? Are you aware of the fact that an American black man by the name of Charlie Drew invented blood plasma? Check it out in your library. Are you aware of the fact Charlie Drew bled to death in an Atlanta, Georgia, hospital waiting room after an automobile accident because they didn't accept Niggers! You're telling me education is my problem? The man who had the wisdom, knowledge and intellect to give blood plasma to the world died because of the lack of his own invention because his face was black and now the man is going to tell me education is my problem.

"That same man has one-half million American boys in Vietnam fixing to die right this minute to free that foreigner and you've not heard one white or black American ever question the Vietnamese education standard, but you want to free him.

"We are tired of these insults. Twenty-four hours a day we got to put up with them. White folks think Niggers is the stinkiest, scroungiest, immoral beast that ever walked the face of this earth. I'm not here to tell you Niggers don't stink. I'll let you do your own research. Check the advertising industry and see how many multi-billions of dollars a year white folks spend in this country for deodorants. Multi-billions of dollars. And then look at those deodorant commercials you see on television and see if you ever see a black armpit. Then use your own knowledge you was born with and figure it out. If Niggers was doing all the stinking and white folks buy all the deodorant, who really stinks?

RICHARD CLAXTON GREGORY

"So, we're saying we're tired of these insults that you believe we're so immoral. I'm not saying we're not. Go in the black community and look at us and you'll find out that every dirty, stinking, immoral, trampy way that black folks have is a white European dirty, stinking, trampy, immoral way. So who did we learn from? We do not know what the Africans is going to do in the bushes after dark, but we do know what you do in the bushes after dark. We're doing the same thing in the bushes after dark that you're doing. So get up off my back. That's all we're saying.

"We know black women in America have 20% illegitimacy. We won't fight you on that. We have fun in the ghetto, baby. White women in America have 2% illegitimate babies, but don't take my 20% illegitimate and your 2% illegitimate and put a halo on your head because if we ever get our hands on white folks abortion credit cards in this country, we'll show you how to knock the rate down too.

"We say we are tired of the insults. We're tired of them. We don't intend to take any more of them.

"So, I hope you youngsters will make this country the country it was meant to be.

"People say, 'I wonder why colored folks get married and have all them babies. They can't afford them.' We know it. 'They end up on relief.' That's right. We ain't ashamed of it either. I ain't never met a white man that didn't want some free money. Talk about relief, did you ever check out that stock market? You talk about some gangsters! If words like relief, A.D.C., and welfare upset you, call it foreign aid.

RICHARD CLAXTON GREGORY

"This country pays a farmer what you call a subsidy not to plant, you don't call it relief to the farmers. You're going to pay a farmer not to plant and then you don't want to pay my sister after she plants, that's an insult.

"We're really tired of insults. Racism we can put up with, but not the insults.

"A man's got a right to be a racist. The Constitution gives you freedom of expression. Racism is nothing but expression, but don't burn no more crosses on my front lawn.

"I stop and think that had my daddy been killed during World War II, the same German that would have killed my daddy in 1942, I was ten years old then, I'm 36 years old now, that would mean I've got 26 years without a daddy, which is not an insult because daddies go to war and get killed. The insult is that the same German who would have killed my daddy in 1942, after 26 years without a daddy, that same German could come to my daddy's country in 1968, and live in a neighborhood where my daddy's boy can't live. Do you know how much that insults us?

"This is what we're talking about. Yet nobody seems to understand. Everybody seems to think we're picking on them. Tell us about how we all ain't made enough progress. I got six black kids at home, seven now. The last, a little girl, three weeks old now. This old insulting system, they're going to have it hard insulting her, a system that don't like to call black folks Mr. and Mrs., so we named this last girl MISS GREGORY.

"My old lady got seven kids and every time my old lady gets pregnant, I realize how much progress we've made. Every time my old lady's old black belly starts getting big, I see progress because, you see, I remember that just a little bit over a

RICHARD CLAXTON GREGORY

"hundred years ago down there in a slave tent when that black slave woman went to her black slave man and said, 'Honey, I think I'm pregnant,' them two black slaves fell on their knees and prayed to their almighty God that their unborn baby would be born deformed. You think about that sometime. They didn't pray that anything would happen to that cracker's child. They said, 'God, we're dealing with such an insane beast that if you would just give us this baby, Lord, with a limb twisted or a limb missing, or a hump in his back, oh God, if you really want to be good to us, give us this baby maladjusted; our little black baby that the man can never sell and we can keep here.' And then one day after the baby was born, she rushed up to her black slave man, crying tears of joy. 'Honey, the Lord answered our prayer, his head is funny, I think he's going to be maladjusted.' Them two black slaves fell down on their knees, praying with tears of joy, thanking their God for a maladjusted baby, a baby they would be able to keep. Progress? I have seven little old black kids at home. Me and my old lady have never had to pray for nothing, that's all the progress we're going to give this system.

"So, as I leave you, particularly you young ladies, face the destiny of the world. You can shape it. When you decide there will be no more wars, there will be no more wars. When you decide there will be no more capital punishment, there will be no more capital punishment. When you decide that Indian woman up on that reservation is bringing babies out of her womb just like you are and it's just like your little baby locked up on that reservation, then you'll go up and get your sister.

"The fate and destiny of this country depends on you girls. I'm not worried about racism, I'm worried about you because when you decide it's over, it's over.

RICHARD CLAXTON GREGORY

"You got this whole thing going for you, you outlive us, you end up with all the money. So, if you end up living long enough and end up with all the money, why not make the world a better place for you to get old in and to spend that money that you stole and got in all kinds of devious ways? That is your job. I've no doubt that you'll do well because I know the moral commitment of young folks in this country.

"Thank you and may God bless you."

The Police Department, the United States Attorney's Office, Secret Service and Army Intelligence, all Pittsburgh, Pa., were apprised in advance of Gregory's appearance at Mount Mercy College on November 6, 1968.

RICHARD CLAXTON-GREGORY

On December 4, 1968, a source, who has furnished reliable information in the past, advised that Richard Claxton Gregory, also known as Dick Gregory, would speak at the South Campus of the Allegheny County Community College, West Mifflin, Pa., at 8:00 p.m. on December 4, 1968. Source said Gregory's appearance was being sponsored by the Student-Faculty Cultural Committee of the College.

On December 11, 1968, source advised that between 8:10 p.m. and 10:30 p.m., on December 4, 1968, Dick Gregory spoke before an audience of approximately 400 persons at the South Campus of the Allegheny County Community College. Source said that among Gregory's remarks were the following:

"Thank you for inviting me.

"I always feel welcome in small towns. I came in on Allegheny Airlines and Allegheny flies to all small towns, but they didn't even know where West Mifflin was.

"I am now on the seventh day of a forty day fast. I have had nothing but distilled water for the last seven days so you don't know how good you look to me.

"Flying over here on the plane, I went to sleep. There was a white man sitting next to me and he wanted to talk so he started the conversation in the usual way by nudging me and shouting, 'Hey boy, what do you think of the Negroes progress?' I told him the biggest breakthrough was when they named the first colored hurricane---Beulah. He then asked me to explain Black Power. I told him Black Power is that heart

"that is beating in that white man's chest over in South Africa. It's the only one in the world that's working right. I bet that white cat is somewhere singing the blues right now.

"We knew all along all you white folks needed was a change of heart. But don't get the idea that we are going to be your spare parts.

"I woke up one time in the airport and this white cat had his ear on my chest. Now don't get me wrong. I am not against all transplants, I'm just against the ones who can hide. I would love to see a white cat get a colored foot. Let him take that to the beach with him.

"Since June 6th, I have spoken at over 300 colleges, sometimes four a day. I have found out you young people are the most morally dedicated people today. You are too pure and too clean.

"They try to say that the Hippies and the Yippies are unclean. I won't say that some of them don't stink, but Abe Lincoln had a beard, stunk, and was ugly too. You don't have to read the cracker papers to find out what you are.

"Republicans and Democrats cannot claim credit for winning the election. I spent \$35,000 and they spent hundreds of thousands of dollars, but I was the only one running for President, the others were running for Sheriff.

"It was you young kids that decided that LBJ not run for President. And had not 15,000 Hippies shown up in Chicago, Humphrey would be President. So don't under estimate your power. You, in the near future, must solve problems you did not create. You will have difficulty because us old folks have used up all the tricks.

RICHARD CLAXTON GREGORY

"To show you how the kids are so advanced, when my birthday came, my seven kids bought me a birthday cake and written across the cake was 'Happy Birthday You Uncle Tom Nigger.'

"My four year old daughter and I both went to jail in Chicago during the demonstrations. After the Convention in Chicago, the whole Establishment tried to convince you that you didn't see what you saw. That is so good Kosygin ought to tell it to the Czechs---that they didn't see what they saw.

"I am not here to impress you. I could not give a damn about what you think about me after I am gone, but at least you could say, 'Greg didn't lie to us.'

"When I was a kid my mama and dad lied to me. They lied to me about Santa Claus. I knew damn well no white man was going to come into a black neighborhood after midnight.

"The number one problem in this country today is not air pollution but moral pollution. Don't let the patriotism cry fool you. This is the most morally corrupt country in the world. They spent a half million dollars on the Chicago report of the political riot. Yet there are not five Federal judges in Illinois who are not controlled by the crime syndicate. That Mayor Daley you saw on television after the disturbances was the same Mayor Daley that was stealing votes election night.

"Had the cops acted any other way during the disturbance, they would have blown their jobs. They acted the way Daley told them. Daley claims he has received many letters agreeing with what the police did, but not one saying, 'Give them a raise.' In fact, if the police in Chicago went on strike, crime would decrease by fifty percent. Read this month's issue of 'Life' magazine.

RICHARD CLAXTON GREGORY

"The kids today are realizing that morality is not a Brooks Brothers suit, a clean shave, and a haircut.

"Tell me who was the most immoral, the Hippies and Yippies or the Shriners when they came to Chicago?

"America will tolerate you as long as you don't buck the system. Some weeks ago 20,000 people turned out on Wall Street to look at a broad's kitties and nobody got excited. J. Edgar Hoover didn't say that it was communist inspired. All Miss Francine has to do to get some privacy is to wear the tightest sweater she can find and have written across her breast, 'Free Huey Newton,' and 'Bring the boys home from Vietnam.' Those 20,000 men would have fled back into their offices to participate in their anti-trust violation.

"I'm a stool pigeon. I'm telling on the system. I was on relief for 20 years and in 18 months I was a millionaire.

"When I was in college they used to have panty raids. I didn't participate because I was not going to be taking no white gal's drawers. Nobody got excited. They said, 'Boys will be boys.' Then there was the goldfish swallowing craze. Nobody got excited. Then there was the telephone booth packing and nobody would get excited when they would stuff 500 kids in a booth. But if you want to upset the system, take five kids and picket one booth asking AT&T about its anti-trust violations and the kids will be in jail before nightfall.

"Your job will be to clean up this filthy immoral society.

"Everyone in America was upset about the assassinations of Dr. Martin Luther King and Mr. Robert Kennedy, but no one was upset about the

RICHARD CLAXTON GREGORY

"assassinations of Mr. Rockwell or Malcolm X.

"We must put capitalism behind the Constitution and not in front of it. Capitalism is based on property rights, not human rights.

"If you are old enough to go to the Army and die at 18, you can ask for the vote at 17. If you want to vote at 17, you young people organize and tell the recording industry you are not going to buy anymore records until you are allowed to vote at 17 and the recording industry will lobby and get it for you.

"If you want to stop the war in Vietnam, tell the cigarette industry you are going to boycott cigarettes and they will have them home overnight from the war.

"Mayor Daley gave orders in Chicago to shoot all looters to kill. Not dope addicts, but looters. I say lets make it retroactive all the way back to the Indian and let the Indian shoot his looter to kill.

"You kids should check your mothers and fathers, who are too busy making money, to ask why Dean Rusk's son can't go to Vietnam. If I were you, I would handcuff myself to one of the Rockefellers, Duponts or Mellons and demand that they send one of the rich boys too.

"Your mother and father think more of your dog than they think of you. They will let you be drafted and sent to Vietnam and not say a word. But you just let a Federal man come to your mother's house in the morning and say they want your dog to go to Vietnam and there would be a shoot out on the lawn.

"You don't have to go all over the world to ram democracy down someone's throat. If it was so good people would steal it.

RICHARD CLAXTON GREGORY

"You see us old folks were so busy going to college to learn how to make a living that we didn't learn how to live.

"Education should enhance the senses, but today they indoctrinate, not educate.

"Books and transcripts are unimportant. The white christian missionaries taught me about books. When the missionaries went to Africa they had the Bibles and the Africans had the land. When the missionaries left, the Africans had the Bibles and the missionaries had the land.

"When I was eight years old I had my first encounter with the white christian. I was on my way to the show and a white minister stopped me and asked me where I was going. I told him, 'To see a Tarzan movie.' He said, 'What! Do you want to see those cannibals eating people?' I said, 'Really?' and sure enough, when I got in the movie there they were in the pot being cooked. But I didn't know that they were California niggers. I jumped up and ran all the way to the white church crying. When the white minister saw me he said, 'I told you. Now come on in and have communion with me.' I asked him what communion was and he said, 'Get on your knees and open your mouth. Now this is his body and this is his blood.' Yes the white christians taught me alot about cannibalism.

"In high school in history I was good and a fast reader because in our house it was so cold that after you read the book you burned it for heat.

"You could always tell when your teacher had been out doing something the night before that he should not have done because they would always have a pop quiz. One of these quizzes had for its one and only question: 'Why were George Washington and

RICHARD CLAXTON GREGORY

"Thomas Jefferson such effective leaders and how did they lead their men to victory?" Since I had read the book so fast, I was the first one finished and took my paper to the teacher. After the teacher read my paper, he called me up front and told me I got a zero. I said, 'Why, for telling what I interpreted from the book?' You see I wrote that George Washington's army was an alcoholic, reefer-smoking bunch of fools because in the book it said that this was the greatest British army and navy ever assembled. George Washington took a group of ragged, barefoot fools with pitchforks and sticks, against them. And to show you how good the stuff was that they were smoking, they won.

"The history book is one of the foulest, filthiest books ever written. In it, it says the white man came over from England and stole us on his way over to America. Then the white man discovered a land that was already occupied."

The United States Attorney's Office, Secret Service, and Army Intelligence, all Pittsburgh, Pa., were apprised in advance of Gregory's appearance at the South Campus of the Allegheny County Community College.

SA T-1 (11/19/68)

Source advised that Dick Gregory, civil rights leader and comedian, had been scheduled to speak at The University of Texas at 7:30 p.m. on December 12, 1968, by the Texas Union Speakers Committee, a committee of the Student Union.

Special Agents of the FBI observed that Gregory did not arrive at the Main Ballroom at the Texas Union Building at The University of Texas at Austin until 8:30 p.m. on December 12, 1968.

Gregory was introduced by William H. Goetzman, Professor of History, as a "renaissance man", "a penetrating social satirist", and "a one-man conscience of America".

Gregory opened his remarks by advising that he was in the fifteenth day of a forty-day water fast.

Gregory said the destiny of American depends on the young folks who would have to solve problems which they did not cause and that they young folks had been lied to all their lives, beginning with stories about Santa Claus.

He referred to America as the most degenerate, insane nation in existence, and said that it was up to the youngsters to make America beautiful. He said he could not eulogize America as long as there is so much to be done.

He said morality no longer comes from without, but must come from within and that the young should change the country to fit themselves and not change themselves to fit the country.

Gregory said the young should work to beat the Capitalist system to the right position and this would be behind the Constitution and not in front of the Constitution as the Capitalist system finds itself. He said the emphasis is in property rights rather than on human rights under this system.

Gregory said trouble on school campuses is coming from corrupt boards of directors, of which nine out of ten know nothing about education, but are appointed because they are rich. He said schools did not educate, but rather indoctrinate and that the system would have to be changed to educate rather than indoctrinate.

He said there are 152 Senators and Congressman who have sons who should be in the Army. He said Dean Rusk has a son who has been old enough to go into the Army for five years. He said youth should find out where the sons of the Rockefellers and the Gettys are before they go over to Vietnam to get their brains blown out. He said everyone killed in Vietnam is killed by a weapon and bullets from Moscow, but that America is not mad at Moscow.

Gregory said he hoped that youth would not make the same mistakes that "we old fools made, we were so busy trying to make a living that we forgot how to live".

He told the group that the Walker Report, concerning incidents during the Democratic Convention in Chicago, was written to lead the youth back into the system.

He said there was something wrong with a society that would send eighteen-year-olds off to war, but would not give them the right to vote.

Gregory said there are black attitudes in America and that something the black folks have been doing for the last two years must be right as they have not been lynched during that time. He said the black man did not want anymore civil rights laws, but wanted justice under the Constitution.

Gregory advised that his father was killed by the Germans in 1942 and that this society would permit that German to come to America today and live in a neighborhood where this dead soldier's son would not be accepted.

His remarks were freely interspersed with what was received by the audience as humor and anecdotes.

He said his Indian brothers should be off the reservations rather than letting a capitalist government run their lives for them; that the Mexican and the down-trodden white brothers of Appalachia should receive justice also.

In closing, Gregory requested donations for his "food army" which he said was being collected to buy beans, \$8 per 100 pounds sack, to help feed the one-third of this nation that goes to bed hungry each night.

Richard Claxton Gregory  
Racial Matters

A confidential source, who has furnished reliable information in the past, furnished the following information, December 10, 1968:

Richard Claxton Gregory fulfilled a speaking engagement at State University College, New Paltz, New York on December 9, 1968, at 8:00 PM. He spoke in Elting Gymnasium on the campus and this meeting terminated at 10:15 PM. The meeting was sponsored by the Student Government Association and 1200 people attended, mostly college students.

In his speech Gregory discussed current events and interspersed his own brand of humor including some sharp criticisms of the present Administration. He impressed upon the college youth that they have the power in their hands to change the government and the current situation in this country. For example, he said the cigarette industry is the third largest industry in the country and this would collapse if all students quit smoking.

He also discussed poverty programs and mentioned that he was in favor of collecting food stamps for the poor. He said that he personally helped the poor in Appalachia and was sending them shipments of Navy beans.

He also said the money spent by the government in Vietnam should be channeled to the impoverished areas of the country. He was opposed to the draft system and to United States involvement in Vietnam. He urged the college youth to support the Negro movement for betterment; that thereby they would be helping all the people.

Well I suppose the US election pleased you. It will be interesting to see how Nixon does. Pick Gregory was in Edmonton addressing the useless twerps and trouble makers on our Campus and amongst many other things said "the biggest job Nixon has to do is to keep alive until his inauguration, we have planned that USA has had its last President". There are times that I think the freedom of speech in Democracy has run wild. ←

RICHARD CLAXTON GREGORY  
RACIAL MATTER

On December 9, 1968, [redacted]  
[redacted] New York State Police, Batavia, New York,  
advised that he monitored the speech given by  
RICHARD CLAXTON GREGORY at Batavia, New York High  
School on December 8, 1968, beginning at 8:00 P.M.  
This speech was sponsored by the Genesee Community  
College, Batavia, New York, as part of this  
institution's cultural events series. Approximately  
250 students of this school attended GREGORY's  
speech and admission was limited to holders of  
students activity passes. Seventy per cent of  
those attending were adults and all except six  
persons were of the white race. GREGORY spoke for  
about two hours.

b6  
b7c

[redacted] advised that the  
introductory portion of GREGORY's speech was in a  
humorous vein and followed previous speeches he  
had made in the Western New York area during which  
he poked fun at Allegany Air Lines on which he has  
traveled from time to time. Later, in more serious  
vein, GREGORY pointed out that current history  
books used by college students are not designed for  
Negro students because they do not contain sufficient  
material concerning Negro history. He also criti-  
cized the United State's involvement in Viet Nam,

pointing out that this country is sending vast quantities of military supplies and manpower to a foreign country and at the same time it is doing relatively nothing for American Indians. He challenged college youth to rectify these situations and to familiarize themselves with the United States Constitution. He said it is of primary importance that white people stop referring to the black people as "Niggers," "Boy," and similar insulting names.

At no time, according to [redacted] [redacted] did GREGORY make any inflammatory statements urging Negroes to riot or to take up arms. On several occasions he insisted that he is in favor of nonviolence.

Source Two advised that Gregory is scheduled to speak at 7:30 P.M. at Westcott Auditorium on campus at FSU on January 22, 1969. The topic of the speech or lecture is to be "Human Rights - Civil Rights". It is expected the speech will last from one and one half hours to two hours and it is open to the public. Source Two advised that Gregory is a controversial Civil Rights Leader but stated University officials expected no incidents in connection with his visit.

On January 6, 1969, [redacted] Tallahassee, Florida, advised he knew of no scheduled visit by Gregory at Florida A & M University. Richard Claxton Gregory  
Racial Matters

A confidential source, who has furnished reliable information in the past, advised as follows on November 18, 1968:

On November 2, 1968, a rally was held at Town Hall, New York City, in support of Dick Gregory who was running for President on the Freedom and Peace Party ticket. Mark Lane was running for Vice President on the same ticket. This rally was sponsored by the Freedom and Peace Party and commenced shortly after 8:00 p.m.

The first speaker was Stewart Meacham of the American Friends Service Committee. His speech supported Dick Gregory and Gregory's stand for peace. He did not believe that a vote for Dick Gregory was a wasted vote. The next speaker was Mark Lane. While he conceded defeat, he did not feel that the effort would be fruitless. He said the Party would set up a Government-In-Exile; that a house would be obtained in Washington, D. C. and painted black to be known as the "Black House".

Dick Gregory was the final speaker and since he had another engagement, his speech was fairly short. He was serious throughout his speech and not the comedian. Dick Gregory also conceded that he would not win the election and speculated that Richard Nixon would be the next President; however, he felt that this campaign of the Freedom and Peace Party was a necessary part of the fight for peace and freedom.

RICHARD CLAXTON GREGORY

A source who has furnished reliable information in the past advised on January 13, 1969, that Negro spokesman Dick Gregory was scheduled to speak at the student union lounge, Macalester College, St. Paul, Minnesota, on Monday evening, January 13, 1969. According to the source, Macalester College had scheduled a course in Black Culture and Arts.

The Minneapolis Tribune, a daily newspaper published at Minneapolis, Minnesota, in its issue of January 14, 1969, carried an article captioned, "Dick Gregory Fasts in 'Year of Hungry'" concerning the appearance of Dick Gregory on the previous evening where he spoke before a crowd of approximately 900 persons, most of whom were Macalester College students. According to this article, Gregory's speech marked the opening of a Macalester College month-long course in Black Culture and Arts.

Gregory, following remarks made in a comedy fashion, became "the serious civil-rights activist" according to the article and described the United States as the most morally polluted, insane society in the world. Gregory told his audience they had the job of "giving its sanity back again".

Gregory commented he was tired of eulogies about "America the beautiful" and commented "How in the hell can America be beautiful with that Indian up on that reservation?" Gregory, in his comments, criticized the "establishment press" as well as the Bureau of Indian Affairs, commenting that having such an organization handle Indian problems "makes about as much sense as having the Ku Klux Klan to implement the civil rights movement".

RICHARD CLAXTON GREGORY

The St. Paul Pioneer Press, a daily newspaper published at St. Paul, Minnesota, in its January 14, 1969, edition carried an article captioned, "Gregory Needles White Hypocrisy". This article reported Gregory told a standing room crowd of approximately 1,000 young persons they had a tough job ahead if they intended to straighten out the mess created by "us old fools". Gregory told these students, according to this article, that they are the greatest single hope for eliminating the hypocrisy of the American system.

Gregory stated the effectiveness of youthful opinion was proven without doubt in Chicago, Illinois, at the Democratic National Convention - "and three days later the establishment was trying to tell everyone that what they saw on television didn't happen".

Gregory was reported to have chided white people for insisting that blacks be nonviolent in seeking full citizenship and commented that the Indian has been nonviolent for 75 years and has nothing to show for it.

Gregory reportedly chided women for allowing their "tenderly raised" sons to be taken from them without a whimper to fight the "useless war" of Vietnam.

Re: Speaking Appearances of  
Comedian Dick Gregory,  
Grand Rapids, Michigan  
January 17-18, 1969

Chet Poindexter made introductory remarks prior to Gregory's talk stating that the purpose of "Blacks United for Freedom" was to raise \$300,000.00 during 1969 to establish a scholarship for young black students and indicated such a scholarship would bear the name of James Robinson, a Negro who was shot and killed during an arrest in a burglary situation by a Grand Rapids, Michigan Police Officer.

N.Y.  
D.C.  
MICH.  
On January 12, 1969 Poindexter also urged those present to subscribe to "The Organizer" and said other aims of "Blacks United for Freedom" would be the establishment of businesses owned and operated by blacks in the black community and the sponsoring of appearances by United States Representative Adam Clayton Powell during February, 1969, and Julian Bond, Georgia State Legislator during March, 1969. (U)  
GA. MICH.

It was noted that the second issue of "The Organizer", dated January 17, 1969, devoted substantial print to the shooting of a James Robinson questioning whether or not it was justified or "an execution" of a black man by a white man.

MICH.  
[redacted] who has also been a spokesman for "black-power" activities at Grand Rapids, Michigan, was present and led the applause during Mr. Gregory's appearance during the appearance on January 18, 1969.

Mr. Gregory spoke for approximately two hours on each of his appearances in a comic vein, however, his principal theme was that the United States is a morally decadent society which has abused black people, Indians and other minority groups for 400 years, and that older blacks are "Niggers" and are afraid to change

and of no value to the movement for human rights in the United States. Gregory praised the actions of the people in this country who are trying to make changes by demonstrations on college campuses and other activities. Gregory indicated the United States is the only country which has used an atom bomb, yet leaders of the country call for "non-violence".

Gregory was critical of United States political leaders and the war in Vietnam.

No demonstrations or racial incidents of any kind occurred before, during or after the above appearances.

about a fast is after you get past the tenth day and you lay down in bed and go to sleep, the little things you start seeing. Last night I lay down and went to sleep and had to get up and walk the floor all night because me and hot dogs marched on. Usually, the hard thing about a fast is that it upsets my wife the first ten days of it because my wife's cooking is so bad, the first ten days of my fast I usually gain weight.

"Now let me see if I can find this letter I got. If I can, I'll read it to you. The hardest thing about . . . can you imagine going thirteen days without eating? I got this note today, this hate letter. Now, I'm used to hate letters. They usually start off 'You nigger this,' or 'You nigger that.' Can you believe somebody would be so cold blooded to know I've gone thirteen days without eating and leave this in my box?

"Dear Mr. GREGORY, This is to inform you that yesterday for dinner I had fried chicken with gravy.' That's the first time I realized it is a black cat out there somewhere who hates me. Now, we know you white folks eat a lot of fried chicken, but we do know who eats it with gravy, baby. 'Mashed potatoes smothered in butter.' Well, that could go either way. It's this next one that let me know who it was. 'Black-eyed peas with grilled onion.' Now, dig now, he tries to fake me out and make me think he is white. 'Jello topped with whipped cream and chilled Napoleon brandy.' Can you imagine Napoleon brandy and black-eyed peas on the same night? All I can say, it was a big black cat somewhere.

"You know, I have been flying here ever since this morning at nine o'clock. This is not the easiest place to get to, you know. I don't know about you Baptists. Yes, I tried to be a Catholic, but they're just a little bit too quiet for me. I sat in church for three weeks and didn't know something was going on. I was flying in this morning trying to get here. The best way to get here is don't tell nobody you're coming. Just go as far as you can.

RE: RICHARD CLAXTON GREGORY

"I'm sitting on the plane, hungry and weak, trying to get me some sleep, and this white cat is sitting next to me. He decided he wanted to strike up a conversation with me, so he did it the usual way, 'Wake up, boy.' And when you have gone, you know, thirteen days without eating, you wake up, boy! So, I said 'Yeah, what do you want?' He said, 'Well, I just wanted to talk to you about Negro progress.' I said 'I don't even want to discuss it.' Too few people in this country even know what areas we've made the breakthroughs in. I'm supposed to think we've made tremendous breakthroughs in jobs and housing and education. You know the biggest breakthrough for black folks in the history of this country happened last year in the state of Texas. We got the first colored hurricane, Beulah.

"So, I got ready to dose off and go back to sleep and he nudged me again. I said, 'Yeah, what you want?' He said 'Would you explain to me what black power is?' I said, 'I will not.' He said 'Why?' I said, 'Because for twelve months I went out of my way to explain to white folks what black power was, and even when I couldn't get large crowds of white folks I would call them up on the telephone. Hello, are you white?' I just felt since that heart transplant operation in South Africa where the black cat gave up his heart to the white cat, the only heart that's working right, we just kind of felt that the whole world knew what black power was. You know how happy black folks was all over the world when we found out that the black guy was going to give his heart to the white guy? You see, basically, we have been knowing for years that there is nothing really wrong with white folks that a change of heart wouldn't straighten out.

"But we want to admit to you that we didn't want that heart to work that good. No, that heart is working so good that it just scares us to death. You see, there is nothing frightens black folks no more than the fact that you white folks might start assuming we going to be your spare parts.

RE: RICHARD CLAXTON GREGORY

---

I don't know. I mean ever since that heart has been working so good, white folks have been looking at us a little bit different now. Well, I fell asleep in the airport a couple of weeks ago and I looked up and here a white cat got his ear on my chest.

"Let me say this. There's a lot of pro and con about heart transplants, some people for and some people against them. Let me go on record as saying that I am against all heart transplants, but I'm for transplants. It is just heart transplants. Well, I'm not only against heart transplants; I'm against all the type of transplants you can hide. I would love to see a white cat get a colored foot, and let him take that to the beach with him.

"Let me tell you, it's a pleasure to be here. This is not where the white cat decided to get his operation and marry his colored butler is it? No that was in South Carolina, was it South Carolina? Yes, it was South Carolina. I got a son, and nothing would upset me more than for my boy to grow up and marry an ex-white boy.

"Let me say that it is a pleasure to be with you this evening. I spend about 98 per cent of my time on college campuses today, for a reason. I feel that you young people in this country today are the most morally committed, dedicated group of young people that's ever lived in the history of this country, and the faith and destiny of America depends on young folks.

"Some young folks still read these old right wing, cracker newspapers to decide who you are and what you are. There is a few adults in this country that's morally committed enough to tell you about you. You pick up the newspaper and they are talking about bearded, smelly, stinking hippies and yippies. And I want to know because you have a beard, how come you got to stink? They didn't say nothing about Abraham Lincoln. He didn't only have a beard, he was ugly too. You can't look

RE: RICHARD CLAXTON GREGORY

---

no more like a hippie or a yippie than Christ. Ain't nobody saying nothing about how he smelled.

"The newspapers have failed to tell you young folks that LBJ is probably the number one tyrant that's walked the face of this earth since Julius Caesar. He was not able to run for re-election because you young kiddies got out in the street across this country with a moral dedication, not with a brick, not with a nuclear bomb, but with a moral dedication, saying we do not want this country going this way.

"The President failed to tell you that because of young people, 15,000 that showed up in Chicago, Nixon is the President of the United States instead of Humphrey. And there's a lot of people that's upset. They say, well you mean those young kids did that? And when you are dealing with pure, moral young kids and you're talking about a politician, it don't matter which politician is in, because all of them ain't nothing but a bunch of slimy, degenerate, immoral fools that's unfit and unqualified to run this nation. This country has to be run by statesmen. And if you youngsters change the system, be sure you hold them statesmen instead of politicians and you'll live to see a very beautiful thing happen in this country. So don't let nobody tell you how strong you are or how immoral you are, because you're not at all. I speak to over a million young people a year, and it saddens me as I go from campus to campus, not only to have to tell you that you have to solve the problems confronting America today, but you have to solve problems that you didn't have nothing to do with creating. These problems was here when you got here, but they will not be here when you leave.

"People don't understand what's on the young folks mind today; it's simple. You young people have never been in a situation today like young folks. No young person has ever

RE: RICHARD CLAXTON GREGORY

---

been in a situation in this country like you've been in. Because not only did us old fools ahead of you not solve the problems, we used up all the tricks. We got no more tricks, baby. Ah, when I was a kid my mama and my daddy and my grandma and my grandpa taught me, 'One day you're going to grow up boy, and some white man is going to call you a nigger. Don't be mad now, God don't like no ugly.' Sure enough, one of them crackers called me a nigger. Sure enough, I wasn't mad. I got seven black kids at home, and if a cracker ever calls one of them a nigger, it won't surprise them, and they won't react to it.

"There ain't no more tricks left for the black folks nor for the white folks. So we old fools wonder why you react like you react. We didn't leave you nothing here to react to. It's sort of like I could go to my hotel tonight, get in bed, go to sleep, and the hotel catch on fire and I burn to death. That's possible, but it is not possible for Dick Gregory to walk into a hotel that's on fire with intentions of going to sleep.

"That's where you youngsters are today. Make no mistake about it, baby, we've used up all the tricks. There's a couple of young fools still left, but that's not even worth worrying about, because most young folks see where this thing is going and where it's headed. Most young folks know your faith and destiny wholly depends on you.

"So I say to you tonight, I did not come here this evening to impress you but only to inform you that when I leave here this evening, I could care less about what you think about Dick Gregory. I've always had the consolation of knowing that whenever we wake up, this year, next year, twenty years from now, we'll always be able to say at least Brother Greg didn't lie to us. That's the biggest problem confronting you youngsters today. We keep lying to you.

RE: RICHARD CLAXTON GREGORY

---

"It's nothing new. We've always, we start at the crib telling you about that Santa Claus boy. If my mama is going to lie to me, anybody is qualified to lie to me. They've got me writing a letter to the North Pole. The first letter I ever wrote in my life, man, I'm writing to some character that don't exist. North Pole. Dear Mr. Santa, and the letter didn't even leave the city. And I wait around way up in February waiting on an answer, going to the mailbox every day. Because I must admit to you, that Santa Claus trick goes over better in the white community than it does in the black community. Not that we didn't want it, but we just know damn good and well that ain't no white cat coming in our neighborhood after midnight.

"Twenty-four hours a day we lie to you young folks. What do we tell you now the number one problem confronting America is air pollution. The number one problem confronting America today is moral pollution. This is the most morally polluted, degenerate, insane nation on the face of the earth. You young kids have the job of giving America her sanity back, and I hope you don't make the mistake the old fools have made. I'm so damn sick and tired of these old right wing patriots eulogizing my country. America is not dead yet, thanks to you young people.

"America the Beautiful . . . that ain't nothing but a eulogy. You save that for dead folks. How in the hell can America be beautiful when you've got that Indian trapped up on that reservation? Are you out of your mind? You sat and knelt to pray this Thanksgiving. Do you know the Indian taught Americans Thanksgiving, and you got him locked up? Who in the hell were you praying to, a monster? You couldn't have been praying to no God. And if you can pray to your God in America with that Indian locked on the reservation, y'all can take your God and run somewhere with it, baby, because I don't want no part of him. This is what you've got to do.

RE: RICHARD CLAXTON GREGORY

---

"But the whole world is looking at America. You've got to make some basic changes. And the church don't know it, not just the Baptist Church, but every church on the face of this earth is going to get a test by you young folks, because as you go, so goes the church. Because people all over the world look at America."

"You've got a tremendous responsibility, so let's start talking about the cancer that exists in this country and then we can save it. I'm damn sick and tired of everybody talking about America the Beautiful. Where? Where? Let's make her that. Give her the examination that you young kids are doing today."

"So I say you youngsters got a tremendous responsibility. Thanks to us old fools, you got a job to do. I don't think I have to sit here and tell you young folks what you're bucking. You looked at the Democratic Convention on television. That was the best thing ever happened for young folks because even the young fool that wanted to be a young fool couldn't no more if he watched that."

"Three days after the Democratic Convention was over, the whole establishment went out of their way to tell you you didn't see what you saw on television. You know, if Kosygin was dealing with the world as insane as America, you know he could beat that Czechoslovakian rap. All he'd have to do is get on worldwide television and say 'You all didn't see it. It didn't happen. It was the press that created it. We admit we put little miniature tanks on the Czech border as toys and the press just blew it up.'"

"Yeah, 15,000 hippies and yippies showed up in Chicago and changed business. Now, the Walker Report comes out and says it was a police riot, which I don't agree with. It was not police action you watched on television; it was political action. If Daley said leave them alone, the cops would have had to leave them alone. All of the blame should

RE: RICHARD CLAXTON GREGORY

---

have gone on Daley. During the Democratic Convention, Daley said all of his efforts was to preserve law and order, and that same fool that was trying to preserve law and order during the Democratic Convention, if you stayed up late that night of election night and watched them returns coming in, that was the one that was stealing votes. The whole world got to see it, television. Cook County didn't come through. They kept holding out, kept holding out. That's the same mayor that was talking about law and order. Hmmm. Yep, bad thing about them politicians.

"That's one good thing when I was running for the presidency. I was the only one running. The rest of them fools was running for sheriff. Elect me and I'll support law and order. Ha, Ha, Ha. I hope you young kids wake up and realize any time a politician talks about law and order and never mentions the Crime Syndicate, he ain't doing nothing but lying to you because you ain't going to get law and order in this country until you bust that Crime Syndicate, baby. What's the most detriment to American Society, a nigger snatching a pocketbook on the street corner or them Crime Syndicate putting heroin into the schools across this country? Don't be no damn fool all your life.

"What's the most detriment to this country? Out of all the riots we've had in the black community in the last five years, haven't one riot ever corrupted a policeman, haven't one riot ever bought a judge, haven't one riot ever bought a politician. This damn crime syndicate corrupts judges, politicians, and cops every day of the week. Are you worried about that?

"What are we talking about? Are you talking about this thing or are you talking about some more tricks? I say the Democratic Convention was a good thing. Everybody got to see it for what it was worth. 15,000 hippies and yippies and that Walker Report. I can't believe some people had nerve enough.

RE: RICHARD CLAXTON GREGORY

---

"Well, they couldn't trick that report like they did that old Warren Report. No, because they were dealing with young folks on that report; they aren't dealing with no fools. And they didn't even need to do no report for you. The hell I'm going to stand here tonight and spit on you all, and they're going to do a six-month report and spend a million dollars to say I spit on you. You don't need nobody to tell you that.

"15,000 hippies and yippies came to Chicago to change the system. And I ask you, who do you think was the most immoral in Chicago, the hippies and the yippies, or the Shriners when they was there for their convention? Who do you think committed the most adultery in Chicago, the hippies and the yippies, or the Shriners? Who do you think spent the most money on whores and prostitutes in Chicago, the hippies and yippies, or the Shriners?

"What are we talking about? Nobody got upset over the shriners because the Shriners didn't come to change nothing, just came to buy something.

"Yeah, you young kids got the system shook up. You saying to us old fools that morality will no longer mean a Brooks Brothers suit, clean-shaven face, and a haircut once a week and you can have all the adultery going you want and you are still Mr. so and so. Morality will no longer mean getting your dresses from Paree and bathing in Chanel No. 5 and having your abortion every two years, and still being Mrs. so and so. You young kids are saying morality will no longer be bought. You are saying morality will come from within and not from without. And that business has a whole lot of fools uptight, baby.

RE: RICHARD CLAXTON GREGORY

---

"That's why we get upset. That's why we tell you you've got to shave. That's why we tell you you can't have no beard. Because when you start getting that way, we lose our way we're supposed to test the moral, dignified man. So, you youngsters are really putting us old fools to a trick, baby. The only reason us old fools is out ahead of you today is because you're chasing us. So I say to you youngsters, you know if you watch television, as bad as television is, that old tube, every now and then it will show things.

"That same television set that showed those 15,000 hippies and yippies in Chicago, ten weeks ago it showed another crowd in the streets, not in Chicago and not hippies and yippies. Ten weeks ago the crowd was in New York City. 20,000 sick degenerates from Wall Street came out one morning to look at a broad's titties, and nobody got upset over it. J. Edgar Hoover did not say titty-watching is Communist inspired. Oh, when America stoops to the degeneracy of titty-watching, 20,000 strong.

"It wasn't them irresponsible kids, baby; it was 20,000 people from Wall Street and Madison Avenue that decides what you are going to be studying in these colleges and universities, that decides what the prices of everything is going to be. What do you call 20,000 titty-watchers, extremists left or right?

"And Sister Francine claims she would love to walk out of that subway one morning without being watched. That's simple. All she has to do is understand the secrets of this country. All she would have to do in New York City tonight is hold a press conference and say 'Tomorrow morning I'll emerge out of that subway wearing one of the tightest sweaters ever been worn in the history of the world.' And I guarantee you, tomorrow morning at eight o'clock, 300,000 of these slimy degenerates will be waiting on her. And at 11:33 when she emerged out of that subway with that tight sweater on,

RE: RICHARD CLAXTON GREGORY

---

if she never wanted to be looked at again by them degenerates, right across her bosom have a sign that reads, 'Bring the boys home from Vietnam,' baby. I guarantee you within two minutes time 300,000 sick degenerates will be gone, back into their Madison Street offices to finish participating in their anti-trust problems.

"So, I tell you youngsters, you got a job on your hands. They assassinated MARTIN LUTHER KING and everybody said, 'Oh, they assassinated Dr. King.' They assassinated Bobby Kennedy and everybody said 'Oh, they assassinated Bobby.' They assassinated President Kennedy. And nobody was upset in this country when they assassinated Lincoln Rockwell. Either you're going to be a country that's against all assassinations regardless of who it is, or you are not. Nobody gets upset over assassination in this country until they assassinate somebody we like. 99 per cent of everybody in this country that got upset when Martin Luther King was assassinated, if George Wallace was assassinated in the morning, they wouldn't get upset. You young kids understand how filthy this is, what your job is? You got a mighty big job.

"I do not advocate destroying the capitalistic system. I say to you young folks, you better work like hell to beat the capitalists into their rightful position, and that is behind the United States Constitution and not in front of it.

"This country do not function in the democratic process. This country is not governed by the United States Constitution. This country is controlled and governed by the capitalists. It is a sad thing when the capitalists control the Constitution. That means we put emphasis on property rights instead of emphasis on human rights. That's very sad. Nobody gives a damn about the Constitution. You go out on the Constitution and peacefully protest and peacefully assemble

RE: RICHARD CLAXTON GREGORY

---

all you want all over the country, and say we want strong gun legislation. The capitalists that manufacture the guns say you're not going to get strong gun legislation, and I say in a nation so insane will demand that you get a prescription to get your medicine but you don't need one to get your gun. I can't hit you in the head with my pills and kill you. I can't throw my cough syrup on you and injure you. It's a constitutional right that Americans be able to bear arms, but I say if you are going to have human rights that I can get to my medicine to get well, and if you are going to put me through all them changes to get my cough syrup, then damn it, you ought to put Americans through them changes to get their guns.

"So I say you youngsters, you got to move the capitalists out of your way. Put them behind or you're going to be in trouble. This country will tell you young eighteen-year-old boys that at eighteen years you are old enough to go to war and die, but you are not old enough to vote. There's something bad about a nation that thinks that way.

"You young cats scare me. You young kids walk around and talk about 'If I've got to go to war at eighteen, I want to be able to vote at eighteen.' Don't be no fool. If you've got to go and die at eighteen, you better get the right to vote at seventeen, baby. If you could get to vote when you were seventeen years old, might not be no wars when you get eighteen.

"And all you folks that love wars and want to go fight wars, ain't nothing wrong with that. But I think some kind of way you ought to wake up and before you run down there and join that army and talk about America the Beautiful, you ought to ask DuPont and Rockefeller how many of their kids they ever sent. I can't believe poor fools are going to stay poor fools all their life while you stay busy being patriotic.

RE: RICHARD CLAXTON GREGORY

---

"Is Dean Rusk supposed to be patriotic? Dean Rusk's son has been old enough to go for five years, and he ain't never been drafted yet. Is that something? I wish I was old enough to be drafted. I'd fly right to Washington, D. C. and handcuff myself to Dean Rusk's son, and I'd tell the government and the rest of you fools whatever is wrong with Dean Rusk's son is wrong with me. And all you patriotic fools can run get your brains blowed out, but baby, you can believe before I ever go over there them Rockefellers, them DuPonts, and them Gettys and all them crackers that are making a multi-billion dollars a week on the war, are going to be over there ahead of me, baby.

"I can't believe poor folks in this country are so busy dying, and the rich just keep getting richer. Rocky and them, they just live and their kids get old and fat and just wallow all over the resort places all over the world. No, baby, I sure hope you can fight your way out of this.

"If you want the right to vote, it's up to you to vote. You can get it. Just address it to the capitalists. Yeah. Don't be marching down the street on the consitution talking about we want the right to vote. If you young folks want the right to vote at 17 years old, you organize across this country, and after you get organized you go to the record industry and you tell the record industry that manufactures phonograph records . . . You say, 'baby, if you cats don't go to Washington, D. C. and lobby and in two months time come up with a bill that we 17 year olds can vote, we are going to hold a nationwide boycott against buying records for two years.' Don't you know before the record industry would let you kids wipe out a multi-billion dollar a year industry, they'll let 13 year olds vote if that's what you want.

"Oh, I hope you all understand how strong you are. But it's the capitalists you got to talk to. Young folks want that war ended in Vietnam? This state right here could end the war. You let young folks walk across this country and tell the cigarette industry if the war ain't over in two weeks and the boys ain't back

RE: RICHARD CLAXTON GREGORY

---

home in two months, we going to quit smoking. The cigarette industry is the third largest industry in America, and you know they ain't going to let no Vietnamese, Viet-who, Viet-nothing, put them out of business. No. No.

"That's something, I haven't really been able to understand about young folks as I go from college campus to college campus. And I'm kind of putting my hopes in you young folks and thought you were hip. But every time I look around, you got one of them cigarettes in your mouth. We old fools done told you it's going to cause cancer, and you're supposed to be the hip generation. I can't believe that. And what insults me, is not the fact you got a right to give anything you want to give. I kind of question are you going to be damn fool enough to pay for it? Put 20 cents more in the machine and get a thing that says 'caution.' Well, I'm going to pay 40 cents for some bad news.

"But you know, I resent seeing young folks smoke, not because you don't have the freedom of doing it, it's because nature is so beautiful that I just hate the fact that you young folks will put more priority on one part of the body than you would put on the other part. Because I know damn good and well had that report said cigarette smoking affects you sexually, you all would quit. Just shows you, nobody cares about their chest. If that report had said cigarette smoking affects you sexually, I probably would have started back because it didn't say which way.

"I say you youngsters have a mighty job moving the capitalists behind the United States Constitution and not in front of it. Yep, because as long as the capitalists control this country we will put the emphasis on property rights. That's why Mayor Richard J. Daley in Chicago could say, 'Shoot all looters to kill.' That's why the statement sounded so good in so many years. They never said shoot murderers to kill. They never said shoot dope pushers to kill. And to be honest with you, when Daley made that statement, 'Shoot all looters to kill,' it's the first time I ever agreed with him. I sent him a telegram.

RE: RICHARD CLAXTON GREGORY

---

I said, 'Dear fool, your statement pertaining to shooting all looters to kill, I agree with wholeheartedly, if you make one stipulation. Let's make it retroactive and let's first put the gun in the Indians' hand. Let him shoot his looters to kill.' I didn't hear from him.

"I say to you youngsters, you have a job to do. And whatever you do, keep your eye on us old fools, especially those at home, Mama and Daddy. Ask them a lot of questions and see where they are because you got to sleep with them. See, if you go home and somebody comes and knocks on your door at home, Mama and Daddy says 'Who is it?' And he says 'government inspector,' and you say 'What do you want?' He says, 'We come to get your dog or your cat.' You say, 'What?' He says, 'Yeah, we got a new law now. We're sending dogs and cats to Vietnam.' I don't have to tell you how much hell your Mama and Daddy would raise if somebody tried to send that dog to Vietnam. You know. It would be a shootout on the front lawn. As funny as that seems, baby, it's sad.

"When you youngsters realize that you're living in a society today where your Mama and Daddy would raise more hell over the dog going to Vietnam than they raise over you, that's more scary than funny. You got some changes to make, changes to make.

"I was at the University of Wisconsin not too long ago and a young cat walked up to me and said, 'Mr. Gregory, I've got a problem maybe you can help me with.' I said, 'Yeah, what's the problem son?' He said, 'I'm a draft resistor and I decided I'm not going to kill. It's against my religious background; it's against everything. I'm not going to kill.' I said, 'That's your decision, baby, there's nothing wrong with it.' He says, 'Well, I'm going crazy.' I said, 'Really, why?' He said, 'My Mama and Daddy don't talk to me no more. I haven't heard from them. They don't want me to come home.' I said, 'Well,

RE: RICHARD CLAXTON GREGORY

---

if you're going to worry about the reactions of a fool, you're supposed to go crazy.' He said, 'That's my Mama and Daddy.' I said, 'Wait a minute, don't waste my time, boy. That Mama and Daddy of yours has got uptight because you don't want to go to war, because you don't want to kill nobody. That same Mama and Daddy I know damn good and well, had you taken 40 sticks of dynamite last night and threw it into the girls' dormitory, that Mama and Daddy that don't want to talk to you today would be down here on the campus hugging you and saying that's my boy. What got into you? We'll get you the best lawyer money can buy, son.' Do you understand what you're dealing with? Kill everybody in the dormitory and Mama and Daddy can rally behind that, because this system can cater more to a murder than they can to a man who stands up and asserts his moral man.

"Do you ever wonder why these old fools get upset over these draft card burners? Do you ever ask yourself which is the most important card in America today? Which is the most important card we have, the draft card or the Social Security Card? Social Security card stays with you all your life; women and men have Social Security cards, right? Draft card stays with you part of your life, and men have draft cards. So, beyond a shadow of a doubt, Social Security card is the most important card you have. Why is it we can all sit here tonight and burn the Social Security card and nobody cares? And this is the most important card you'll ever have in your life. Burn your draft card and everybody wants to act like a damn fool. Because when you young kids burn them draft cards you're saying to us old fools, one day old fool, you're going to get this country in a war and we're not going to fight, and you're going to have to fight it yourself. That scares us. We got news for you youngsters. Before we go fight one or two wars, we'll quit having them.

RE: RICHARD CLAXTON GREGORY

---

"No, I tell you youngsters, you've got a lot of questions to ask yourself. One day you've got to ask the question loud and strong if democracy is as good as we tell you it is, then why are we running all over the world trying to ram it down people's throats with a gun? And the day you young folks make this democracy work right for the first time, that's the day we can bring the guns home. Because, you see anything good you don't have to force on people; they will steal it. So, you can be a fool if you want and run around here talking about Communism instead of tightening up your democracy. Baby, the greatest detriment to Communism in the history of this world is for you to make that Constitution work right. There are Communists all over the world. It really upsets me the way you Southerners freak out behind Communists. You're the same way we niggers used to be with ghosts. Anytime some old white man wanted to control the niggers was to say, 'The ghost is going to get you, boy,' and we just sweat it out fast.

"They do you the same way. They tell you about the Communists and you just go crazy, instead of standing up one day asking them to name them. J. Edgar Hoover said there's Communists in the civil rights movement. Ask him to name them. He said Communists came to Chicago against the Democratic Convention. I don't doubt it, but I say, damn it, name them. That don't seem like it's asking too much. They don't ever name them, and all you fools freak out over a threat. Name it.

"My Mama and Daddy used to control us with the ghosts. She was out there working at the white folks' house, couldn't get home, would call us up and say, 'You in bed? If you not, the ghost going to get you.' Man, we got in bed at seven o'clock, waiting on the ghost.

"Let me say to you young people, probably the most important thing I could say to you tonight is what I'm going to say right now. Don't make the mistake in this or any other institution, don't make the same mistake us fools made when we

RE: RICHARD CLAXTON GREGORY

---

sat in these institutions ahead of you. We were so busy trying to learn how to make a living, we forgot to learn how to live. Please, youngsters, learn how to live. You see so many people say 'I'm going to school to learn how to be somebody.' Hell, you was born somebody. If you're going to let somebody teach you how to be somebody else, that makes you two people. Read what Sigmund Freud says happens to you when you become two people. Why you got to go to school for four years and pay top dollars for somebody to teach you how to be crazy? You say well, you got to eat. Well, you know, do you know how powerful nature is? A gorilla has to eat. Have you ever known one to go to college so he can get him a job? Have you ever been shopping with a gorilla in a store? Have you ever read of a gorilla starving to death? You see, one thing you youngsters got to do when you change this system, one thing you must do, and people say why don't you all come inside and change the system? Tell them it's too corrupt, too corrupt.

"How in the hell are you going to change the system with the electoral college sitting there when you don't even vote for the President? Four years ago had these fools in this country picked up a paper and read, 'In Moscow, Russia they are going out to vote today, November 5, for a new Premier, but they don't count because on December 16 the Electoral College is going to meet in Moscow and they decide who the Premier is going to be.' You know what everybody would be saying in America? Hmmm - That's Communism for you.

"Now you youngsters change the system, one of the most corrupt establishments, more so corrupt than the church, is the institutions of higher education, because they are frauds, baby, they are frauds. Colleges and universities across this country do not educate; they indoctrinate, and there is a difference between educating a man and indoctrinating a man. You educate him to control him, you indoctrinate him to control him. You educate

RE: RICHARD CLAXTON GREGORY

him so he can understand nature, and if you ever understand nature, baby, and find out the beauty of what you are, you'll be mighty powerful and mighty strong.

"Let me ask you a question, raise your hands. How many of you in this room tonight understand Chinese? One, two. I saw two people, maybe there's three. Look at this audience. I say that to show you how strong nature is. Two people in this gathering understand Chinese. Are you aware of the fact that dogs in China tonight understand Chinese? Never been to college. Dogs in Russia understand Russian. Do you? Dogs in Germany understand German. I say that to say you're born through nature with all the wisdom you need to find your way out of one of these tricks because you want dignity. Don't let anybody tell you you get that from an institution.

"And so I hope you youngsters open up your eyes. Stop being programmed. Oh, we got a way we program you in institutions. When you come, we give you a book. Here is for the class assignments. Now, that's not the way we program you, no. After you read the book, we give you what we call a test, and if you didn't read the book you can't pass the test. That's programming. Kids are hip to it; they do everything they can. They stoop to some of the lowest depths in their life to steal the test. Because if you can get the test, they put the grade on the transcript. That's all that counts, because the transcript don't make nobody nothing after you get out of here, but you.

"What's a transcript? Do you realize you leave this institution, or any other institution, ten years from now, five years from now, and get ready to get married, do you think your other partner is going to ask to see your transcript? Well, if you graduate from here tonight and this institution burned down to the ground and every record burned with it, do you think that would affect your life one way or the other? Oh, them transcripts help us fools understand how nice we've indoctrinated you.

RE: RICHARD CLAXTON GREGORY

Hmmmm, Davy Jones, A's, A's, yes, bring him in with the company, we need him. And when we talk about some schools are better than the others, that don't mean education wise. It means like Harvard and Yale has tremendous backings to indoctrinate. And them are the wierdest fools you ever seen in your life, one of them Yale or Harvard cats. Little beady eyes, Brook Brothers suits, acting all strange. All of them talk alike now. They have that same indoctrination. Bit cat says, 'Yeah, hire a Harvard man, because you know you can hire him. He ain't going to steal from us for five years, anyway.'

"So, I say to you youngsters, you've got a lot of changes to make, but fight off the indoctrination as much as you can.

"You know, it's almost sickening to look at you young women. I think, sometimes I wonder if nature really put you here to be the fools you have ended up being. I mean, if you could just think for five minutes, it would give me faith in the whole world. You don't think. I know animals protect themselves and their kids better than you protect yourself and your kids. I can't believe you women. 'We want the right to vote, we want the right to work.' We going to have you doing all the work one day. I can't believe nature put you here, down flat on your feet, and some old man done jacked you up and got you up on your heels, and you're just like a damn fool, keep staying up there. We didn't get up on ours, and we made high-heeled shoes.

"I mean, somewhere, when you was born, nature made you a woman, and there is nothing you or nobody else can do to improve on your womanhood. You dumb broads spend billions of dollars a year trying to improve on your face. What's all that for? Nature carved you out at birth, and ain't a damn thing Helena Rubenstein can do for you.

RE: RICHARD CLAXTON GREGORY

"But baby, if you women would ever wake up. Check the history books and find out the last time a woman started a war. The men start the wars and then we come back and get your babies to fight them. When are you ever going to wake up? I know animals wouldn't be so stupid. You carry that baby in your belly for nine months; then you spit it out; then you watch it grow up; you hug it when it's sick, hold it when it's cold, laugh with it when it's happy, and then us fool men get a war going and we say, 'All right, give me that boy.' And you send it. Are you out of your mind? Because one day when you women decide in the crib that you're not raising no killers, that's the day we're going to have to find another way to fight wars.

"All over the world, men's worried about the population explosion. Do you ever turn on the television, ever read an article where women are worried about the population explosion? All the men's worried about population explosion. Now it takes a man and a woman to have a baby. The women ain't worried about it; we're worrying about it, but we make you take the pill. Can you really be that simple? I mean, all you got to do is tell the men, you know, it takes two to tango, baby, 'you all take the pill, since you're worried about it.' Because if you men will stop it at your end, we ain't got nothing to worry about.

"Or if you don't want to be that dirty, just make a law. You women take the pill on the even months, we take it on the uneven months. You know, the Surgeon General of the United States, if he ever releases that secret data, that report on birth control pills, well they know damn good and well fifteen years from now they're going to be fatal to 85 per cent of everybody that's been using them for a long period of time.

"But it ain't the first time they held a report. They held the cigarette report up, thanks to this state, for twenty years. If you girls only knew what the men was doing, baby, if you only knew about those birth control. Well, you think you are tricking nature when you get under your little bush with

RE: RICHARD CLAXTON GREGORY

---

your pill and you think you can really trick and fake out the business of bosses. I don't know if Nixon is morally dedicated enough to release that report. People in London found out about it. That's why they took birth control pills off the market, because of this report, here. So I say one day, after women ever wake up, somewhere, then you don't have to worry about us men, because once you change your attitude, we're going to have to change ours.

"So I say to you youngsters, keep your eyes open wide, stay alert, think. If you don't understand it, keep wrestling with it until you do. That's why when you see Brother Greg I've always got my Bible with me. I don't go nowhere without my Bible. I don't read it, oh, I used to didn't even carry it with me. Yeah. Ever since I found out the missionaries went to Africa, and when they arrived in Africa, the Africans owned all the land and the missionaries owned all the Bibles. And when the missionaries left, the Africans had all the Bibles, and the missionaries had all the land. I say this is a hell of a book, here. I'm going to keep this book, because one day I'm going to go in the Hilton Hotel, baby, with my Bible. And when I walk in Hilton will own the hotel and I'll have the Bible. And when I leave, I'll have the hotel, and you'll see Hilton standing there with the Bible.

"Oh, I can't tell how much I have learned from the white Christian. I'll never forget when I first met my first white Christian. I was a little bitty kid, eight years old, walking down the street. I heard a cat say, 'Come here, boy.' That's how come I knew he was a white Christian. I said, 'Yessir, Mr. white Christian.' He said, 'Boy, what is it you want to do when you grow up?' I said, 'Mr. White Christian, when I grow up I wants to go to Africa so I can visit my ancestors.' He said, 'Boy, why do you want to go to Africa and visit them savages?' I said, 'Mr. White Christian, why do you want to call my ancestors savages?' He said, 'Because they're cannibals.' I said, 'What's

RE: RICHARD CLAXTON GREGORY

---

a cannibal?' He said, 'They eat people.' I said, 'Ooh, ooh, real live human beings? They cook them?' Sounds funny? It's a hell of a thing to find out one day your folks eat folks. And I had to take his word for it because I know white christians ain't going to lie to us, right? Right. Right.

"About two weeks later, I got it confirmed. I went to see my first Tarzan movie. I walked in the middle of the movie and there them black cats was cooking them folks. I was eight years old. I didn't know them wasn't real, live Africans. Them was some old California niggers, but how did I know? Oh, I was upset.

"I rushed out of the movie and ran to the first church I came to." It happened to be a white christian church. I fell on my knees and said, 'Oh, please my God, forgive my savage cannibal ancestors for eating them folks.' The white christian ministor overheard my prayer. He was touched because he just lost three missionaries the week before. He was so touched by my prayer he walked out from behind the back room and walked up to the altar where I was kneeling down and reached down and put his hand on my head and rubbed it for luck. He says, 'Boy, I can't believe a black boy has got that much sense, to pray for them black savage cannibals.' I said, 'Yessir, Mr. White Christian Minister, I'm so sorry my ancestors eat folks. I sure want to thank you for letting me use this white church to pray in.'

"Just as I got ready to split, he grabbed me and said, 'Any black boy got that much sense to pray for them cannibals, I want you to stick around and share communion with us.' I said, 'No sir, Mr. White Christian Minister, I just wanted to pray for the cannibals. Communion, what's that?' He said, 'Get on your knees boy, open your mouth. This is his body, and this is his blood.' Yes, I've learned a lot from the white christians. Now, I pray for all the cannibals, even those who become cannibals by proxy.

RE: RICHARD CLAXTON GREGORY

"So, I say to you youngsters, you have a powerful job. You know, if you really want to have some fun one day, take this American history book and read it without being programmed. Just get under a tree by yourself. You'll find out the American history book is the most vile, corrupt, dirty, stinking piece of literature that's ever been printed. Except the first page, I take that back. The first page of the American history book, every time I read it I just want to cry. The American History Book, page one, here was a white European who decided that he wanted to break the shackles that bound him to the king and queen. He decided that he wanted to strike out and find a new land where he could worship his own god, where he could seek out freedom of religion, freedom of expression, freedom of speech. Can't nobody go against that, that's page one. But don't turn the page. Page two says on the way over here to find his god, he stole us. That's a hell of a prayer meeting, ain't it? He's going to find God with some slaves. The more you read it, the worse it gets.

"Page 163, not only did he steal us, but he came to these shores and discovered a country that was already occupied. Ask yourself one day, how do you do that? How do you discover something that's not only occupied but being used at the time? And then print that in your history book and send it out all over the world. How do you discover occupied country? And wonder why the whole world don't trust us. How do you discover something somebody else owns? Now, you put that filth in your history books for your own kids to read, and wonder what's wrong with them.

"That's like me and my old lady walking out of here tonight and you and your lady sitting in your brand-new automobile. And my lady look at me and saying, 'My, that's a mighty nice looking car, sure wish I had it.' And I say, 'Let's discover it.' Yeah, this history book is a hell of a book here. I'll

RE: RICHARD CLAXTON GREGORY

---

give you a little test on it. 'Give me liberty or give me death,' who said that? Rap Brown, didn't he? Who said this, 'Don't shoot till you see the whites, I mean of their eyes?' I don't know?

You know, I wish you youngsters would do me a favor sometime this week, if you would stop by the library and take a pen and a piece of paper with you, and check out a book that has the Declaration of Independence in it, and copy it down for me. Put it in your hip pocket and keep it 24 hours a day. Don't read it, just copy it down. Your girls put it in your pocketbook. And here's the favor I want you to do for me, when the riot season opens up again.

"Yeah, we even been programmed. White folks has told us we supposed to riot in seasons. July through August, that's the season. And we didn't show this year and just scared the hell out of them. After King got killed, we came out and tore the country up, but that didn't count because that wasn't the season. Oh, they got cats in the Pentagon who said, 'Wonder what happened to them? What happened.' They're nervous, they're scared. They asked George Wallace how come you think they didn't riot? Wallace said, 'You know them niggers is lazy and shiftless. They wasn't coming out three years in a row. They're tired.' I tell you where we was the last riot season. We decided we got tired of stealing all them old bad, no good products. And we decided to go underground and study the Consumer Reports. When the riot season opens up again, we ain't stealing no more Motorolas, baby.

"Would you believe I got a cousin in Chicago, the night the riot broke, his luck was so bad, now dig, my cousin wouldn't steal anything that isn't worth stealing. His luck was so bad that out of all the nights to pick to go get your television set out of the repair shop, yeah, he picked the night the riot broke. If you could have seen him trying to explain to that white cop this was his set. Yeah, my cousin would be dead now if that cop had

RE: RICHARD CLAXTON GREGORY

---

not been hip. No, he just looked up at that cop and said, 'Do you know anybody in their right mind that would steal a Motorola?'

"Here's what I want you to do for me, the favor. When the riot season opens up again, I want you to go home and get around your parents. That goes for you black folks, too. You got some old black folks at home that thinks, some of them, more corrupt than the Ku Klux Klan. Put your television in the middle of the room and turn on the evening news, because they're going to show those black cats looting and burning and socking it to them towns. Now, turn on Huntley and Brinkley because they get close-ups. ABC and CBS, they're scared of the black neighborhood. They come by and try to get it over a helicopter. NBC gets such close-ups of the riots you can recognize your kinfolks. 'Looky there, there's Uncle Dudlow. I didn't know he was in Detroit. Look at him.'

"After you get NBC on, get your television adjusted, run upstairs and get your folks. Say, 'Come on down, I want to show you something.' And when they sit there and look at them niggers rioting and looting and socking it to them towns, just listen to them. 'Wonder what's wrong with them. Sometimes our folks just don't know how to act. Niggers, all of them act like that, need to be . . .' Just let them talk. Let them talk and get it out of their system.

"Then, I want you to go up to the television and cut the sound off. Reach in your pocket or your pocketbook and pull out your Declaration of Independence, and while they are looking at them niggers burn and sock it to them towns, I want you to read the Declaration of Independence as loud as you can, and maybe them fools will understand what they are looking at for the first time. 'We hold these truths to be self-evident, that all men are created equal and endowed by the creator with certain unalienable rights, that when these rights are destroyed over a

RE: RICHARD CLAXTON GREGORY

---

long period of time, it is your duty to destroy or abolish that government.' Now, I know them old fools are going to assume that's some message Malcolm X left for Rap Brown, but I'm sure with a minimum amount of persuasion, that is their beloved Declaration of Independence, the one with the mistake on it, that one where they forgot to write in, 'for white only.' Black folks read it, and you know we're so stupid when we read it, if you don't put it on there, it's for you, we didn't know it. We thought it was for all Americans. Yeah, we thought George Washington and Patrick Henry and Thomas Jefferson, them white heroes you pushed on me, we thought they were speaking for all Americans after long periods of time. We didn't know they were just speaking for white folks.

"And one thing you better do is get that white-boy history book out of my ghetto, because, baby, there ain't no way in the hell you can teach me about Washington and Payne and Jefferson, and do you think 'Give me liberty or give me death' meant 'We shall overcome'?

"Do you think you can tell me about the white folks getting me out of school, every holiday I'm out of school. Some vicious white cat that wanted to beat up somebody for freedom, and now when I want to be like him, since you told me I was inferior to you and I had started acting like you. I had to start throwing dynamite like you and get my rights like you did. That's what you said in here. Now, were you lying? Funny thing's happening to Niggers today, is that we're acting white. Right out of this history book, baby. Patrick Henry, George Washington, and Tom Payne, and Thomas Jefferson. And if you don't like the way we're acting, we say get the damn book out of our community, or you're going to be in trouble.

"So I tell you youngsters today that you've got a lot of changes to make. You can make them. The system has to be completely, thoroughly overhauled, because it's not fair for

RE: RICHARD CLAXTON GREGORY

---

you to say you see, we are so corrupt today, that when you finish high school you're too pure to join us. But after you get through college, you qualify. Yeah, you're ready to move on into the system then. I say you got a big job to do, a mighty powerful job to do.

"In closing, let me briefly discuss with you, we are going to run over a little bit tonight, so those of you that got another job to get to, a baby-sitter, and want to split, I hope that you will be honest enough with yourself that whenever you have to leave or want to leave, you can feel free to get up and leave without sitting there worrying about if you walk out on me, some fool's going to think you're a racist. If at any part you get ready to leave, I hope you just move out quietly. I hope you will not be one of the foul-minded people that will sit and worry about what some fool thinks your intentions were for leaving. I hope you can be that free.

"I want to tell you that black folks have got an attitude, and rightfully so. We're tired of these insults. We're tired of white America telling us to be non-violent. I wonder if you understand how bad that insults us. America telling us to be non-violent. The only country in the history of the world that's dropped the nuclear bomb on another human being, and they're asking us to be non-violent. Nobody knows any better than me. I'm a slave to non-violence. I believe in non-violence to the extent that I had to become a vegetarian five years ago, because I believed 'Thou shalt not kill' means just that, and so animals are covered under that. With me, I'm not pushing it on nobody else. My non-violentism, I don't go around preaching non-violentism. In the nation, the Constitution says you have a right to bear arms, and I'm not against that, but my belief I do not want to bear arms. If a man breaks in my house and kills my wife and kills my family, and the only way I can stop him is to kill him, I have a right to choose not to be violent, but I do not have a right

RE: RICHARD CLAXTON GREGORY

---

to tell you you've got to stand by and watch anybody misuse your loved ones. Non-violence is my hang-up and mine alone. Vegetarianism, that's all me, baby, but I would never knock a steak off your plate, and never want you to put a pork chop on mine. I would never take no dynamite out of your hand and I will never let you take my picket sign out of mine. Non-violence is my hang-up baby. Don't teach it, don't preach it, in a nation where Matt Dillon comes into your house once a week to teach you it is a virtue to shoot straight. Non-violence, are you serious?

"Everybody wants us to be . . . ever heard of a nigger doing some underground nuclear testing? All the white boys got the nuclear bombs, yet them same cats want us to be non-violent. Are you serious? America owns the mightiest army, the mightiest navy, the mightiest air force, owns the state police, the local police, the federal police. And all them cats got guns, and then you look at us that don't have a damn thing and say, 'Be non-violent, boy.' We say, 'You go to Hell, baby, we tired of it.' Now, I say to you and to all America and to all the fools, if you really believe America freaks out for non-violence, I say prove it. And don't prove it to black folks because we proved to the world we'll burn a town down.

"If you really want the world and black folks to believe you are non-violent, prove it. Get up on that Indian Reservation and cut my Indian brother loose. You can't be no more non-violent than he has been in the last 75 years. I thought you liked non-violence. How come he's still up there? You ain't done nothing but trick him, baby. Non-violence ain't nothing but a cheap, whitey cop-out.

"We in Vietnam tonight with a half a million American boys to guarantee a foreigner a better way of life than you want to guarantee you own red brother, who you stole this country from, so we say to America, if you're non-violent, free my Indian

RE: RICHARD CLAXTON GREGORY

---

brother. If you don't free him, quit talking like that. If that Indian wants to be free in the morning, it is said what he would have to do. That Indian would have to realize he is dealing with a system that's so insane that until you make them people through the muzzle of a gun, she is going to keep us a nigger. You youngsters got to change the system so a man do not have to become violent to get redress of grievances.

"Oh, if that Indian wanted a better way of life in the morning, all he got to do is get up on the \_\_\_\_\_, right here in the State of North Carolina, and catch white folks driving down the expressway in the morning and start shooting at you. POW, and yelling 'red power, whitey go home.' And when the Indian says whitey go home, he is talking about the big trip, baby, he is talking about all the way off the continent.

"And sure enough, that Indian gets to raising hell tomorrow, the whole country would be upset. I can just hear them now. 'Them stinking reds.' And you turn on the television and look at 'Meet the Press' Sunday, they'll be interviewing some old Uncle Tom-Tom Indian that'll be saying everything all the fools want to hear. I can just hear him now, 'Me like a-heap-a reservation. Problem come from them young bucks, them Stokely Running Horses, and Rap White Clouds.' Well, all the fools will go back to sleep believing them Indians was happy.

"They said the niggers was happy, them niggers was happy. But there's a new set coming through that ain't America's nigger no more. Just as sure as that Indian raises enough hell, baby, just as sure as he comes off that reservation and gets to socking it to you, burning down some of these colleges that's on his land and getting some of those blond scalps and raping some of your white ladies, oh, I'll bet you listen to them then. Oh, you'll be saying a bunch of foul, dirty things about him, but you'll listen to him.

"Oh, you turn on television next summer, if he gets to raising hell, and they'll be doing him on television like

RE: RICHARD CLAXTON GREGORY

---

like they did us this summer. 'Tune in every Tuesday night to meet your Indian brother, seven-part series, no commercials, sponsored by Xerox.' Oh, if the Indians get to raising enough hell, y'all have an Indian speaking to you next year. Not now, because he's too peaceful. You don't give a damn about him now.

"Well, you know the Indian would have to create violence before making this nation understand what he is talking about. They're so peaceful, we don't care. The highest form of suicide rate among young people on this earth happens to be on our Indian reservations, and we don't even know about it. The highest form of tuberculosis among any minority group on the face of this earth happens to be upon the Indian reservations.

"In 1968, a sheriff can still walk up on the Indian reservation and he decides if the Indian Mama and Daddy can take care of their kids, and if he decides they can't take care of their kids, he has all the jurisdiction he needs to take that Indian baby away from them and put it in a home of white folks. And so they take their orders from out West. How many of these Indians you all need for maids? This is 1968, baby, why are you worrying about the Communists? You are worried about the Communists in Vietnam and you ain't worried about this Indian up here. Why, you're out of your minds.

"And then the Bureau of Indian Affairs is supposed to take care of Indian business. That's the government agency that handles Indian business. It makes about as much sense as the government hiring the Bureau of Indian Affairs to take care of Indian business as it would be to hire the Ku Klux Klan to implement the civil rights act. And the sad thing is if we did away with the Bureau of Indian Affairs in the morning, the money it cost this government to run the Bureau of Indian Affairs, if we wiped them out overnight, every Indian in America could get \$4,300 a year apiece.

RE: RICHARD CLAXTON GREGORY

---

"So, I say you youngsters have a job. The Mexican brothers in California are saying, 'Please, brothers, don't buy grapes.' Are you listening to them, baby? Because if you buy grapes this year, and they don't win their battle, next year they're going to win. They might have to blow up the grape vineyards, but they're going to win. And then everybody will say, 'Why are them Mexicans so evil?' Because you didn't help them by non-violence when they asked.

"And so, brothers and sisters, I say to you tonight, black folks have an attitude, rightfully so, that we don't care about white folks reaction to us. We don't care what you think about our attitude because all we know in the last two years is much, is that white folks been saying we been bugging them. It must be doing something because we ain't been lynched in two years in this country. So, if bugging white America means it makes me safe, we ain't began to bug you.

"We're saying we're tired of these insults. Have you got a right to make me a nigger, you got a right to make me a nigger? You do anything you want to do inside your head, but you better keep it there. You got a right to burn all the crosses you want, but you better not never burn another cross on my front lawn. We're tired of these insults. Burn it on your lawn, but let everybody know you want to burn it on mine. We're tired of these insults.

"Now everybody is getting upset, saying how come y'all don't want to be called colored, how come y'all don't want to be called Negro? Just call us black, baby, that's all we want. And them old niggers that are running around, you call them anything you want. But don't listen to them old niggers and get your head busted. You don't play games with yourself.

"(clapping, and unintelligible for few seconds) If he's an Irishman over there, he's an Irishman here. You don't play no games with yourself. We left Africa Africans, and when we got here we got to be your Nigra, Nugru, colored folks. We say

RE: RICHARD CLAXTON GREGORY

---

now don't play no games with yourself, damn it, and you better stop playing them with us. Just call us black. That's all. And if you want to play games with somebody, play them with your own self. You didn't change when you came across that water. How come I got to change?

"And so we don't feel like we putting you in imposition with our attitude. We feel like these insults have kept you in the imposition for 400 years, and we're tired of it. And just started getting tired. Twenty and thirty years ago, black people in this country had an empty stomach. Today black people in America have a full stomach but a hungry mind, and a hungry mind will not tolerate the same thing an empty stomach did. Empty stomachs deal on smell, and hungry minds deal on sound, and all at once this country don't sound right to us any more. Three years ago five white boys burned up their draft cards, and in two weeks time the Senate and Congress pushed through an Anti-Draft Card Burning law. We haven't been able to get a bill in 100 years. This country just told me America thinks more of a piece of cardboard than she thinks of my black Mammy.

"If I go to Vietnam tonight and get killed by the Viet Cong, this government gives my black wife \$10,000. Now, she can't take that \$10,000 and buy her a house anywhere in this country she wants to buy her one. Hell, are you out of your minds. I got to get a Fair Housing Bill passed to live next to you. Who in the hell do you think you are?

"That old white cracker broad who you are supposed to not like, came to my country, Stalin's daughter, a known Communist and a known Russian. How come you didn't make her get a Fair Housing Bill to live anywhere she wants to live in my country? Are you out of your minds? Do you really think we're going to put up with this nonsense another day?

RE: RICHARD CLAXTON GREGORY

---

"All these Russian exchange students you bring over here." They don't want to be no American citizen. They want to lap up four years of this old bad education and then they are going back to Moscow and eight years from now might drop a bomb on you. You don't make these Russian exchange students get no Fair Housing Bill to live where they want to live. How come I need one?

"This is what we're talking about. This is what the issue is. And we don't give a damn who we make mad. We're tired of these insults. And so we're saying, we have an attitude and we're going to keep an attitude.

"Oh, you got a lot of white folks in this country think a nigger is the dirtiest, stinking, smelling, immoral beast that ever walked the face of this earth. You see, that's your hang-up, baby. I'm not here to convince you niggers don't stink. I say to you, go out and do your own research. Yes, check the records at the cosmetic industry and see how many more billion dollars a year in this country white folks spend on deoderant and look at them deoderant commercials on television and see if you ever see a black armpit. And then I say figure it out with your own intelligence if niggers is doing all the stinking, and white folks buying all the deoderant, who really stinks.

"There's a lot of white folks believes that we are the most immoral creatures . . . I don't have to tell you. You listen to your parents. I say I'm not here to tell you we're not immoral. I say go to the black community and watch. Every dirty, stinking, scroungy, immoral way black folks have, it is a white European scroungy, dirty, stinking, immoral way. You're right. We do not know what the Africans do in the bushes after dark, but we know what you do in the bushes after dark, and we're doing the same thing in the bushes after dark you're doing. Right, baby?

RE: RICHARD CLAXTON GREGORY

---

"Oh, lots of white folks believe black folks are inferior to you. Well, that's your own hang-up. Hell, I'm not inferior to you. The whole world knows I go to bed with a Chinese woman and give her a baby, the baby is going to be colored. If I go to bed with an Irish woman, a Jewish woman, any woman I take to bed on the face of this earth and give her a baby, the baby is me. Any man my sister goes to bed with on the face of this earth and gets a baby, the baby is her. Is that inferior stock to you?

"Now, we say we're tired of these hangups. And we're reacting to them. And people say education is a problem. You in Vietnam tonight with a half a million American boys to liberate the Vietnamese in the morning. Have you ever heard one white or black American questioning that Vietnamese educational staff? But you are going to free him. You're not going to question his, and you better not question mine. And then you do question mine.

"Do you realize how many millions of people would be dead on the face of this earth today if it were not for blood plasma? Are you aware of the fact that an American black man by the name of Charlie Drew invented blood plasma? Don't take my word for it. Go to the library and check it out. Are you aware of the fact that Charlie Drew bled to death in an Atlanta, Georgia hospital waiting room after an automobile accident because they did not accept niggers? Are you going to tell us education is our problem when the man who gave blood plasma to the world died from the lack of his own invention? That didn't have a damn thing to do with education.

"We're tired of these insults. They say go down to the ghetto and pull your brother up by his boot straps. Why don't you give them some boots with some zippers on them? I would bet black women in America have had 20 per cent more

RE: RICHARD CLAXTON GREGORY

---

illegitimate babies. We have had fun in the ghetto, baby. White women in America have 2 per cent illegitimate babies, but don't get no damn attitude, because your white lady got 2 per cent and my black lady got 20 per cent. That don't make you no better than me because if we ever get our hands on your white folks' abortion credit card, we'll show you how to knock a rate down too, baby.

"We're tired of these insults. You say, 'Why do you black folks have all them kids? You can't take care of them. You'll end up on relief.' We know that. I ain't never met a white man that would turn down some free money. And if words like relief and \_\_\_\_\_ and welfare upset you, change it and call it foreign aid. Or call it what you call that free money you give them white farmers, subsidies. Do you really think you're going to pay a farmer not to plant and then ain't going to pay my sister after she plants?

"And we say we are tired of all them babies white folks accuse us of having that we can't take care of. I've got news for you, baby. We're going to keep on having those babies in the ghetto, and I'll make a deal with you. The day this stinking system learns how to hire a black boy and give us good jobs like it gives you white boys, so we can afford all them whores and prostitutes you can afford, we'll quit having all them babies at home too. You say we don't have to ask you about that whore, because it's my sister, because she does talk when she comes home. So we know what you're doing, baby. So get that out of your head now. We're tired of these insults.

"So we are saying we wish this country would stop insulting us. I went to a play a couple of weeks ago. Here a white cat moved all the way out of his seat and come all the way over to me and said, 'Mr. Gregory, boy.' I said, 'Yeah, man, what you want?' 'I think you all should teach colored folks some responsibility. You're talking about jobs. Teach them how to get to work on time. Teach them how not to take too many

RE: RICHARD CLAXTON GREGORY

days off. I know you're going to get mad, but I got the records to prove it. 'You don't need no records for me because I used to be one of them niggers you are talking about. How long you had your company?' 'Forty years.' 'All your records, if you go back and check them right, you'll find out. The records of the first day you gave a black man a job he got there two hours early. The first day I got my job I sat two hours waiting to punch in and then I punched in, and for the next eight hours I had to listen to all of that talk, niggers, coons, boy, push me on the butt, rub me on the head for luck. You know anybody in their right mind that's going to get to work on time with them insults, baby? You're not a fool. We come to work as late as we can and leave as early as we can and we take as many days off as we can, because a day away from that plant is a day of insults I don't have to take. So we say we're tired of it, insults, insults, insults.

"You know when I stop and think how the Germans killed my daddy during World War II, how the Germans killed my daddy in 1942. I was ten years old then. I'm 36 years old now. That means I would have gone 26 years without a daddy. That's not the insult, because when daddies go to war they go to kill or be killed. The insult is the same German who killed my daddy, that same German tonight can come to my daddy's country and live where my daddy's boy can't live.

"And so as I leave you tonight, I say, please no more insults. No more civil rights legislation, we don't want civil rights legislation. We want the United States Constitution. Fair Housing Bills, even when we tried to be good niggers and give us Fair Housing Bills, you played games with us. We get a Fair Housing Bill that covers 80 per cent of the housing. What am I supposed to do with the other 20 per cent of me? Join the Communist party?

"There is one more bill we would like for you to pass. We'd like for you to pass what we call an 'Honest White Folks Bill.' Now don't get uptight cause it ain't got nothing to do

RE: RICHARD CLAXTON GREGORY

---

with you. We'll just name it, as a matter of fact, we'll just name it the 'Concerned Honky Law.' It's a simple bill and will just read 'All five year old male black baby boys (it don't pertain to no white folks.) . . . all five year old male black baby boys will have to go to a government camp for one year and stay at that camp from the age of five to the age of six.' And you'll stipulate those black kids to sleep eight hours a day and the other sixteen hours a day, now this is where the 'Concerned Honky Law,' the 'Honest White Folks Bill,' comes in, will take all the five year olds from this year on, keep just the boys for one year, and sleep eight hours a day for a solid year every day, and sixteen hours a day for a solid year, the government teach them, 'Nigger, when you grow up don't date no white woman, don't make love to no . . .' Let me tell you something, we can believe that nothing bugs you no more than a nigger with a white woman, and you ain't got enough backbone to even talk about it. Who in the hell do you think you are?

"Have your white sister passing a nigger half-naked with a living bra on, who in the hell do you think you are? And so I say to you as loud and as clear, why don't you talk about your damn hang-ups and maybe you can get that broad back. Because you see, I went to see my first movie when I was four years old, baby. My mind was pure, honest, didn't know nothing about no white lady or no black lady. Never seen nobody make love in my life. Four years old, looking at the movie. Who's making love on the screen? Them white ladies, Ava Gardner. Humphrey Bogart was doing it.

"Four years old--I didn't know what they was doing. I just knew that one day I wanted to grow up and do it, baby. Yes, I nudged my friend. I said, 'Ooh, ooh, looky there.' Yeah, I went to the movie every night. Not to see that white woman. I was going to the movie because in my home town it was warmer in the movie than it was at home in the winter time, and in the summer time it was cooler in the movie. We could go free till you was twelve.

RE: RICHARD CLAXTON GREGORY

---

"The next thing I knew, I'm eight years old. For four years you been brainwashing me, showing me the epitome of womanhood is that white broad, the epitome of decency is that white broad. You programmed me, just like if you program one of your electric machines that two and two is ten, when it gives it back to you, you should be mad at yourself because you programmed it that way, baby. You programmed me. Yeah, eight years old I sat there at the movie and watched Ava Gardner and Alan Ladd get into the hang of it. I nudged my friend and I said, 'Man, when I grow up, I'm sure going to get me one of them.' He said, 'Which one?' And I said, 'I don't know. I think I'll try them both.'

"I got news for you. I'm grown now, and I'm going to get me a white lady, and the madder it makes you, the more of them broads I'm going to get me and I hope it makes you so mad you'll quit programming my little black kids that's coming up. I hope you get so mad you'll show them some black women making love in the movie. You'll show them some black women holding some Pepsi-cola bottles. You'll show them some black women walking across that screen half naked with them living bras on, and once you do that you can have that broad. Take her to the moon. You can do any damn thing you want to do with her, but we're saying quit programming these black folks since you got such a tremendous hang-up.

"So, as I leave you tonight, I say you youngsters got to think the faith and destiny of the world depends on you.

"Briefly let me discuss two quick things with you. The package that I had mailed here, did anyone check to see if it got here? Did it get here? It didn't get here? Okay, I'll tell you what to do with that in just a minute.

"In the Turner Report on Civil Disorders it says it will take the government 80 billion dollars to solve the problem in the black ghetto, and I say to you young folks, don't be no fool.

RE: RICHARD CLAXTON GREGORY

---

Don't send no 80 billion dollars to the black ghetto. You can't buy it. To solve the problem in the black ghetto, America is going to have to do one thing that will not cost you one nickel as far as black folks are concerned. You are going to have to create an atmosphere where for the first time in the history of this country, black folks trust white folks. And how do you do that?

"It won't cost you a nickel as far as we're concerned. You're going to have to get up on that Indian reservation and cut my Indian brother loose. You're going to have to free my Puerto Rican brother. You're going to have to give my Mexican brother his constitutional rights. And last, but not least, because my Jewish brother keeps playing games with himself, but he should paint his face as black as mine and see what you Gentiles got to say about him every day in the week, and then he'll understand he's in the same bag as the rest of us. So we say when you free my Jewish brother, my Puerto Rican brother, my Mexican brother, my Indian brother, at that point we will trust you. We will say 'My white brother, I trust you. Together would you hold my hand and let us solve our problems.' If you think you're going to solve our problems without freeing these other people, then we say to you take that 80 billion dollars and buy yourself some of the biggest guns money can buy, because you're damn sure going to need them. That's out of the history book, it's called Patrick Henry.

"The final issue I want to talk to you about tonight, which will take two seconds and then we're going to let everybody split that's got to split and those of you that have time for some questions, we'll take about three or four minutes, and then we'll get with the questions.

"On election night I sat up late watching television because I was kind of hoping that North Carolina might come through late for me and put me over the top. I was waiting, but you didn't

RE: RICHARD CLAXTON GREGORY

---

do it. About three o'clock in the morning Nixon's office started lying and said, 'did any of you stay up late and watch the returns? Nixon's office says, 'Uh, uh, Nixon has retired and gone to bed and gone to sleep.' Well you knew that was a lie. Then the Humphrey people said, 'Yes, Humphrey has gone to bed two hours ago.' I said you know that's a lie. But being that all of them was in bed but me, I held a press conference and I declared myself the independent write-in President of the United States in exile, and wasn't nobody there to stop me. And we recieved a million and a half votes, and that's pretty good when you think how many got stolen, which is not the issue, but that probably counted 10 per cent. And so we received more write-in votes than anybody in the history of the country so we declared ourselves the exile write-in President of the United States.

"We're opening up an office in Washington, D. C. in a few weeks, going to paint it black, call it the 'Black House.' And we're going to set up a worldwide food program to see if we can solve the problems of hunger in America and on the face of this earth. This is going to be my project for the next three years. This is what this fast was all about. I get ashamed of the fact that when I read the Field Foundation Report of how the people in Appalachian and Mississippi, and Alabama, and North Carolina, and South Carolina, goes to bed hungry, I get ashamed of how much food I have locked away. I get ashamed of the fact that my wife can go to the store and spend \$2,000 a day for food if she cared to, in a country where my brother goes to bed hungry.

"And so I decided I would go forty days if I could without eating to kind of dramatize that it is our responsibility to feed our brother and so I'm starting up a food army. That's the good thing about being the President of the United States in exile-- it gives you the right to have an army. And so I mailed some application blanks here that's already self-explanatory. If you want to join the Food Army and work with me to help solve the problem of feeding folks all over the world and in America.

RE: RICHARD CLAXTON GREGORY

---

Can we put those in the Union tomorrow, when they get here, or whenever they get here, they'll put them in the Union. We also have some envelopes here that says 'Dollars for the Hungry.' You know it's getting so much publicity now, did you see where the FBI has started to investigate hungry folks? Did you see that in the paper the other day? Raise your hand if you did? Did you see it? None of your saw it, none of you? I don't believe that.

"It is in the New York Times, the morning paper. That great big investigation is going on. I hope you'll feel the way about the New York Times that I do. I read that just to get my government's position every morning. That paper is something else, and it is the most over-read scratch sheet ever been invented.

"No, I hope, when they come in I have a thousand of them, that if you care to participate in feeding people, now let me say this. When we talk about feeding, I want to tell you how simple it is to feed everybody on the face of this earth. Do you realize if our organization gets big enough, we can feed everybody on the face of this earth, and it won't cost nobody a nickel? That's right. You're familiar with Green Stamps, right? You go to a store, you shop, you get Green Stamps. Do you have Plaid Stamps here? You get gasoline, you get Plaid Stamps? Can you imagine if this army gets so big that we decide where we shop, we don't want Green Stamps, we want Food Stamps? Can you imagine if a company put out a food stamp, and if you shop at Sears and Roebuck or bought a new car, and they give you a food stamp, and you didn't send it in and get a lamp like a Green Stamp? After you get it filled up, you send it in to one central location and that food stamp buys food for people all over the world. Do you realize America spends enough money in six months to get food stamps to buy enough food to feed the world for the next twenty years? It don't cost nobody a nickel. This is the type of program we're trying to get together.

RE: RICHARD CLAXTON GREGORY

"Please, youngsters, don't forget about the one man who everybody is not looking at today, and that's the poor white man in America. Riots, said to believe that poverty causes riots. If poverty caused riots, this white hillbilly would have burned this country down 75 years ago. It is insults that cause riots, and I say to you youngsters that's interested in the black cause and the Mexican cause, and the Indian cause, you want to join VISTA and the Peace Corps. That's good, but please do not forget about the poor white man who has missed his day.

"Now, we treat him bad. Black folks give him the credit for being the world's biggest racist when he's the victim of the system. Young, hip white kids don't want to be around him because that represents something that you detest. Somebody got to organize this poor white man and see to it that he gets him a job too. To see to it that if he can't eat, he can get his check that he can feed his kids, that he can get his kids in school. And as black folks is telling these institutions we want you to relax your standards so we can get in since you kept us out so long, you got to get these young white poor kids and get these schools to relax their standards so he can get in too. I beg you, my brothers and sisters, don't forget about this poor white man. If you forget about him, we're going to do the same thing all over again five years from now, and you, as you move into your comfortable house, will wonder why he's burning and why he's looting.

"And so I say we have a chance to get all the brothers and go in the same direction. I hope you youngsters will take this fight into the arena of human rights, and not into the arena of civil rights. Because if you go for human rights, then my white brother in that ghetto, in his ghetto, that don't know where he's going to get his turnip from in the morning. I've got the pressure, pressure, pressure, to get projects going in Appalachian. He counts too.

RE: RICHARD CLAXTON GREGORY

---

"And because he's white don't mean he's rich. So, somewhere I hope you youngsters solve the problem and bring America to the level where America should have been since the founding day.

"Again I say that I'm sorry that the slips and the envelopes didn't show up. They are self-explanatory. If you want to feed the hungry and you got a dollar, most of you got a dollar, put it in, mail it in. If you want to join the army for the poor, fill out the application and we'll get you information. For those of you who want, I'll have some time in a few minutes for the question and answer period. I'll gladly entertain that for you.

"Again, my brothers and sisters, I thank you. May God bless you, and may nature have fun with you."

On December 6, 1968, first source advised that the Symposium Group of Northwestern University (NU), a legitimate University-sponsored function, has planned their "Symposium '69" to be entitled, "Confronting Change," for January 3-9, 1969. The purported purpose of this event is to consider the issues of the New Left and social change. Source advised that the program is to be as follows: ~~(S)~~ (U)

RICHARD CLAXTON GREGORY

Gregory is a Negro entertainer and civil rights activist.

CARL PRESTON OGLESBY, JR.

Second source described Carl Oglesby as a "modern day Saul," completely and personally committed to the Students for a Democratic Society (SDS) program, enthusiastic in his work and the promotion of same. ~~(S)~~ (U)

The December 4, 1968, edition of the "Daily Northwestern," the student newspaper of NU, Evanston, Illinois, in an article entitled, "Hayden Panel to Wind Up Symposium," stated that Carl Oglesby is the consulting editor of "Ramparts" magazine.

Characterizations of "Ramparts" magazine and SDS are attached hereto.

Reverend JESSE JACKSON

Jesse Jackson is the National Director of Operation: Breadbasket which is the economic arm of the Southern Christian Leadership Conference (SCLC).

THOMAS HAYDEN

The "New York Daily News," in its issue of January 10, 1968, carried an article entitled, "Word From The Left," in which it identified Hayden as one of a party of three who had traveled to North Vietnam in defiance of the United States Department of State ban on such travel. This article also identified Hayden as a founder of SDS.

MIKE JAMES

Third source advised that on March 25, 1967, a peace march and rally was held in Chicago, Illinois, which was sponsored by various peace and civil rights organizations. During demonstrations, Mike James, who was introduced as an SDS leader, spoke and urged that draft eligible youths defy the draft and called for continued protests and sit-in demonstrations on every campus protesting the Vietnam war. ~~(U)~~

On December 31, 1968, a fourth source made available the "official" printed program for the NU "Symposium, 1969." Source advised that Carl Oglesby's name did not appear in the program and source stated that he did not believe Oglesby would appear. Source noted that the place where Oglesby was originally scheduled to appear now reflected the name of Jerry Rubin. ~~(U)~~

JERRY RUBIN

In a biographical note on Jerry Rubin, the printed program of NU's "Symposium, 1969" notes that Rubin is currently a leader of the Youth International Party which was a prime mover in the demonstrations against the war in Vietnam in New York City two years ago, and the demonstrations at the Democratic National Convention in Chicago in August, 1968.

Source further advised that the films to be shown on January 3-4, 1969, were "The Magnificent Ambersons," "The Married Woman," "The Rules of the Game," "The Roaring Twenties," and "L'Avventura." All are "feature" films which supposedly have to do with some social attitude or condition.

On January 6, 1969, fourth source advised that the play "Futz" held on January 5, 1969, dealt with the "clash of values within society" by using the example of a man deeply in love with his pig. Source advised that the main element of the play's script appeared to be obscenity which was both strong and frequent. ~~(U)~~

On January 7, 1969, first source advised that Dick Gregory's keynote address on January 6, 1969, was attended by approximately 1,100 persons, of whom only 85 to 95 were Negro. Source advised that Gregory's attempts at humor were generally well received; however, his serious points were only applauded by the Negro students and/or identifiable SDS members. These remarks were received by the majority of the audience with apathy. Gregory's main topics were: 1) President John F. Kennedy and Senator Robert F. Kennedy were killed as a result of a Central Intelligence Agency conspiracy; 2) civil rights of women and American Indians; 3) FBI Director J. Edgar Hoover constantly "covers up dissent and unrest by claiming it is communist-inspired or subversive"; 4) suggested a youth (anyone younger than 27) boycott of the recording and cigarette industries as a means of ending the Vietnam war and obtaining the right to vote at age 18; and 5) America's racist attitudes make it "the rottenest country in the world." ~~(U)~~

On January 7, 1969, fourth source furnished essentially the same information and advised that there had been no incidents or arrests to the source's knowledge. Source advised that Gregory continued until 11:25 p.m. and that approximately 300 to 400 people had left the auditorium prior to 11:00 p.m. ~~(U)~~

On January 8, 1969, first source advised that the panel discussion on January 7, 1969, lasted from 8:00 p.m. to 10:00 p.m. with more than 1,100 persons attending although only 10 to 15 Negro students were observed. Source advised that the panel consisted of Jerry Rubin, who wore a Viet Cong flag as a cape, Michael Harrington, who has been publicly ~~(U)~~

described as a prominent author and spokesman for the political left, Anthony Downs, Senior Vice President of the Real Estate Research Corporation of Chicago and a member of the President's National Commission on Urban Problems. Source advised the panel moderator was Robert H. Wiebe. ~~(U)~~

ROBERT H. WIEBE

On December 31, 1968, fourth source advised that Robert Wiebe is a History Professor at Northwestern University, Evanston, Illinois, and was the faculty advisor for the SDS-sponsored "Week of Dis-Orientation," at NU, September 11-17, 1968. ~~(U)~~

First source also advised that Rubin dominated the entire "discussion." He stated that he advocated a "total assault on society" because "Change could be brought about only by burning down enough cities and enough of the 'establishment' concerns to bring them down a notch and hurt them." Rubin also suggested that student groups had the power to close at least ten universities (not identified) and should proceed to do so. ~~(U)~~

On January 8, 1969, fourth source advised that Rubin had arrived at O'Hare Airport, Chicago, at 11:00 a.m. via United Air Lines, from New York City. He checked in at the North Shore Hotel, 1611 Chicago Avenue, Evanston, Illinois, and source believes he will return to New York on January 10, 1969. Source also advised that Rubin stated that "the police are looking for me in four states and it's time to be moving on." ~~(U)~~

On January 9, 1969, fourth source advised that the panel discussion on January 8, 1969, lasted from 8:00 p.m. to 9:35 p.m. with approximately 650 to 700 persons attending, including approximately 200 Negroes. Source advised that the panel consisted of Thomas Ayers, President of Commonwealth Edison Company, Chicago; James Herndon, a California junior high school teacher, author and critic of public education systems; Richard Goodwin, a speech writer for the late Senator Robert F. Kennedy and former Assistant Secretary of State for Inter-American Affairs under President John F. Kennedy. Source ~~(U)~~

advised that the Reverend Jesse Jackson sent word at the last minute that he would be unable to attend due to "an important commitment in Washington, D.C." As a substitute for Jackson, the Symposium committee obtained one Claude Brown, a Negro law school student from California. Source advised that Brown spoke first, primarily in regard to changes needed in the attitudes and policies of the "white government." When Thomas Ayers attempted to speak, the audience began laughing, clapping and talking among themselves. Due to their rudeness, Ayers cut his speech short. Source further noted that at 9:00 p.m. Brown announced he had to leave for the airport and abruptly did so at which time all the Negroes in the audience got up and followed Brown from the auditorium. ~~(S)~~ (U)

On January 10, 1969, first source advised that the panel discussion on January 9, 1969, lasted from 8:00 p.m. to 10:00 p.m. with approximately 1,300 persons present, including only about 20 to 25 Negro students. The panel consisted of Raymond Mack, Director of NU's Center for Urban Studies; Seymour M. Miller, Professor of Sociology at New York University; Thomas Hayden; and Mike James. Moderator was Lawrence Lavengood, NU Assistant Professor of Business History. Source advised that Hayden dominated the program and presented several "programs" that must be accomplished such as: 1) wider, less restricted demands to institutions; 2) "The Movement" must operate on frontier of the law, not open confrontation; 3) organize beyond the campus; 4) form a radical, political party; and, 5) practice self-defense. Hayden further stated that the non-violent, civil disobedience teaching of the late Martin Luther King, Jr., was a failure. ~~(S)~~ (U)

Source advised that Mike James, although he took only a small part in the program, was the "most dynamic" speaker of the evening. He stated that "we" must fight but the choice of where to fight was all-important. He suggested efforts to recruit the "motorcycle greasers" who, he stated, would respond to a radicalism if it was taken to them. James ended with the comment, "America--Change or Die."

Source further advised that at about 9:50 p.m., an unidentified white male, approximately 50 years old, stood at his seat in the audience and called Hayden and James "Red." He then stated that in spite of a few faults, America was the freest, most just country in the world.

On January 10, 1969, fourth source advised that Hayden and James arrived at NU together at 7:27 p.m., January 9, 1969, via Checkered Cab, from Chicago and that they left together at 11:15 p.m. via Checkered Cab. Source advised that Hayden had come to NU via plane direct from San Francisco State College, and source believed that Hayden would return to Oakland, California, on January 10, 1969. ~~(U)~~ (U)

"RAMPARTS"

"Ramparts" is a monthly magazine with editorial offices in San Francisco, California. The January, 1968, issue listed WARREN HINCKLE, III, as Editor, and ROBERT SCHEER as Managing Editor. It stated that the press run for that issue was 279,000.

The September 10, 1967, issue of the "Denver Post" contained an article on "Ramparts," based upon an interview of its staff by EARL SHORIS, author of the article. This article captioned, "Ramparts: An expression of the 'New Left,'" read in part as follows:

"HINCKLE calls Ramparts 'radical in style and politics.' It belongs to the left, if not the new left....

"The editors of Ramparts are confident of their own virtue, so confident they are able to dispense with objectivity.... Editor HINCKLE said, 'I don't believe in this "on the other hand" stuff. People write in and ask us to print the other side. We tell them no we are not a debating society....'

"Ramparts has been crass and commercial. It has often been more exhortative than informative, but it has also produced some exciting reporting on Vietnam, the city of Oakland, and conservation or the lack of it in America. The magazine joined every other publication in America in belaboring the Warren Report, but SOL STERN's uncloaking of the CIA was brilliant, effective reporting. If Ramparts may have overstated the number of children who have been casualties in Vietnam, it is small criticism; children have been burned and killed.

"The financial problems that have plagued Ramparts for most of its five years may be coming to an end. With 120,000 subscribers and as many newsstand sales, the cost of printing has dropped...."

STUDENTS FOR A DEMOCRATIC SOCIETY

The Students for a Democratic Society (SDS), as it is known today, came into being at a founding convention held at Port Huron, Michigan, in June, 1962. The SDS is an association of young people on the left and has a current program of protesting the draft, promoting a campaign for youth to develop a conscientious objector status, denouncing United States intervention in the war in Vietnam and to "radically transform" the university community, and provide for its complete control by students. GUS HALL, General Secretary, Communist Party, USA, when interviewed by a representative of United Press International in San Francisco, California, on May 14, 1965, described the SDS as a part of the "responsible left" which the Party has "going for us." At the June, 1965, SDS National Convention, an anti-communist proviso was removed from the SDS constitution. In the October 7, 1966, issue of "New Left Notes," the official publication of SDS, an SDS spokesman stated that there are some communists in SDS and they are welcome. The national headquarters of this organization as of July 24, 1968, was located in Room 206, 1608 West Madison Street, Chicago, Illinois.

[REDACTED]  
Western Illinois University (WIU), Macomb, Illinois, furnished  
the following information concerning this matter.

On January 23, 1969, a conference sponsored by  
[REDACTED] WIU, and black  
students of the student organization Omega Chi began at  
1:00 PM.

Approximately 150 persons attended the afternoon  
session consisting of a welcoming address by the president  
of WIU and introduction of the officials of the conference.

After this a panel discussion by black veterans was  
held. At this panel, the black veterans discussed problems  
found by Negroes in the various branches of the service,  
including housing problems in towns located close to military  
bases and problems concerning promotions in the military.  
They also discussed problems black veterans encountered at WIU.

There were no inflammatory statements made during  
this session.

The night session on January 23, 1969, began with a  
panel discussion led by track coach Stan Wright, WIU, and by  
black athletes Lew Jackson and Ike Richardson of the WIU  
basketball team and Mike Cason and Joe Silva of the WIU track  
team. Wright led a discussion concerning the overall problems

of Negro athletes. Silva then spoke on the problems of a black athlete at a black college. Silva had attended an all-Negro college before transferring to WIU. Cason then spoke on the problems of the black athlete in society, and Richardson on the problems encountered by black athletes at WIU. There were no inflammatory statements and this ~~statement~~ *session* was attended by approximately 225 persons.

At 8:00 PM on the night of January 23, 1969, Roy Innis, Executive Director of the Congress of Racial Equality (CORE) was scheduled to be the speaker. However, Innis cancelled his speech due to bad weather and the Columbia Broadcasting System (CBS) film "Of Black America" was shown at the time Innis was scheduled. Approximately 500 persons attended the showing of the film of which 50 were black students.

On January 24, 1969, the afternoon session of the conference began with another showing of the CBS film "Of Black America". After the film, speeches were given by black women students and poetry was read by black students. The afternoon session was attended by approximately 150 persons. This meeting was very peaceful and no inflammatory statements were made.

The night session of January 24, 1969, began with another showing of the CBS film "Of Black America" after which black students of WIU read poetry and made speeches concerning campus problems. A dance performance was then presented by black women students.

At this session Claude Brown, author of "Manchild in the Promised Land", was scheduled to begin speaking at 8:00 PM; however, Brown arrived at 9:30 PM and then spoke for over two hours.

There were approximately 550 persons present at Brown's speech, of which 20 were Negroes.

Brown began his speech with a sarcastic prayer directed to George Wallace. In his speech Brown used abusive

and vulgar language. Brown stated he was a Black Panther Party (BPP)\* supporter and advocater of BPP tactics. He advised that in June, 1969, he intends to move from New York City to the West Coast where he then will go to work for a BPP newspaper. Brown praised Eldridge Cleaver and stated he considers Cleaver to be an outstanding person because Cleaver outwitted the police and "escaped from the police in California".

Brown stated he personally has made trips to San Francisco State College and has seen police brutally beat students. He stated these students were only seeking what is rightful and legitimate. Brown was very critical of "the establishment" and stated that Panther power must overthrow the establishment. He also stated that the police in the United States must go. Brown spoke highly of Malcolm X and that the goal of every black person should be to be like Malcolm X. He urged persons in the audience to buy all of Malcolm X's books, to read the books and recommend the books to others. There was much enthusiasm generated in the audience over the speech of Brown.

After the speech, there were no incidents and no demonstrations.

On January 25, 1969, the afternoon session began with a speech by Peter Simmons, Professor of Law of Ohio State University (OSU). Simmons spoke concerning the racial problems at OSU and was very critical of the administration and the campus police at OSU. He stated that all of the problems of a racial nature at OSU have been caused by the administration and campus police "overreacting" to the problems on the campus involving Negro students.

The remainder of the afternoon session consisted of a coffee hour, another showing of the CBS film "Of Black America" and a dance performance by black women students. Approximately 150 persons attended this session and there were no demonstrations and no inflammatory remarks made.

The night session on January 25, 1969, began with a speech by Lee F. Palmer, Jr., a Negro reporter for the "Chicago Daily News". Approximately 300 persons attended this session. Palmer was enthusiastically received by the audience. Palmer spoke concerning the need for black students to be very diligent in college and to study in order to develop brain power in place of black power. In his speech Palmer made favorable statements concerning some actions of Malcolm X and BPP to raise the standards of living of Negroes. However, the dominant theme of his speech was one of moderation. There were no inflammatory statements made by Palmer.

After Palmer's speech, black students presented a performance of plays and skits and dances by black women students. After this a dance was held for persons attending the conference.

On January 26, 1969, the afternoon session was attended by 14 Negroes and 23 whites. This session began with a round-table discussion of ideas concerning race relations and was followed by another showing of the film "Of Black America", repeat performances of the plays and skits and speeches by black students.

One of the skits performed by the black students was entitled "To Hell with My Country 'Tis of Thee". The skit included a skit showing an American President and his cabinet members holding a conference on new ways to harass and mistreat Negroes.

The only item on the agenda at the night session of January 23, 1969, was the speech of Dick Gregory, Negro comedian. Gregory spoke on the plight of the American Negro. He was sarcastic concerning whites' attempts to aid the Negro. Gregory claimed persons elected in the November, 1968, election were not interested in the Negro and will do nothing to aid the Negro. He also stated that the people who were defeated in November, 1968, also would have done nothing to aid the Negro.

Gentlemen:

I am enclosing an article from the Colorado Springs Gazette Telegraph of a speech given at The Colorado College of this city by Mr. Dick Gregory.

This evening I listened in on a radio tape recording of the entire speech of this individual and I was absolutely shocked not only by his speech, but by his suggestions of the violent and radical changes in the government. It seems to me that his remarks throughout the speech border on treason and traitor tendencies. His one remark "America the beautiful? The American flag moves me about as much as a pair of dirty drawers" is a treasonous remark.

I presume that the FBI has already made full investigation of this individual. If not, it seems to me as a thoroughly 100% American, and Honorably Discharged veteran of World War II that a man of this character should be completely checked.

I could go on and on in this letter, but I believe that your Office is well aware of my feelings, and the feelings of millions of Americans who are disgusted with the general trend of our country. CORP

Let's get America the Beautiful back

Respectfully

showstopper.

He didn't have them in the aisles because the Fire Marshall wouldn't allow that. But he had them in the "cheap seats," jerrybuilt seats get up in the auditorium's hall entrance; he had them on the stage behind him; in the wings; the balcony and in rooms scattered throughout the building where his voice was piped to them.

And for all his trouble, "The Man" got it right in the face, for Gregory ("call me black, call me nigger, but watch what you call them young blacks 'cause they might fight back") recited a litany of white evils perpetrated on blacks.

In his best, black-oriented, finger-snapping, comedic style, Gregory ripped off these gems, for — oddly enough, judging by the applause not so-sensitive white ears:

"We're tired of 400 years of insults from you white people and we don't give a damn about your attitude to our reaction. I tell you young people in the audience (hundreds of CC students) the only way that you're going to be able, baby, to change things is to beat the capitalists — the white capitalists are in charge of the country.

"Capitalists control everything and they put all the values on property rights, not human rights. Capitalists are the guys who make the guns, sell them to you and then preach against gun legislation. But they are the same cats who uphold the law requiring prescriptions for medicine.

"Man, like I'm going to shoot you with the gun, baby, but what am I gonna do with the medicine — am I going to beat you over the head with my cough medicine.

"Capitalism is bad news, baby, but like it's groovy for the spongy, stinking politicians and it's groovy for your parents who aren't interested in making anything but the fast buck.

"The problem is, us old fools refuse to tell you the truth. Moral pollution? That's what it is, but us old fools tell you it's air pollution. Hey, baby, like my parents used to tell me about Santa Claus coming down the chimney. I believed that crap until I realized that no white man was going to come down to our section of town after midnight. Groovy.

"If hippies and yuppies hadn't shown up in Chicago, them damn, rotten, stinking politicians would have had it all their way. And that groovy Mayor (Richard) Daley (of Chicago), he's talking 'bout them poor black cats looting teevee sets while he's looting and stealing votes in the back room of the convention hall.

"You young cats are the most morally dedicated young folks ever to come along. But this capitalist society — and them cats ain't qualified — are trying to tell you groovy people what to do with your lives.

"They control the papers, don't believe what you read in them papers, just read them for entertainment. Reporters should wise up to the world and hitch on to a little honesty and dignity. Man, like if you have a beard (he has one) do you have to stink? And all that involvement in Vietnam, man like (John) Kennedy got us there. If LBJ had looked like Kennedy he'd still be in office — and thank God he don't man.

"I didn't come here to impress you, I came here to inform you. This is the most insane, immoral country on the face of the earth. You got to re-examine America, baby, don't eulogize it.

"America the beautiful? The American flag moves me about as much as a pair of dirty drawers. You whites talk about freedom, man you're the biggest bunch of freedom-loving cats anywhere, yet you keep those poor Indians locked up on their reservations.

"You stupid bastards fight for the flag, the almighty flag, but what about the people under the flag? It's up to you young kids to solve problems you had nothing to do with, it was the old fools that thought it all up. But the old fools used up all the tricks and left you with none.

"Someday we gotta have a special day for blacks. Dr. Martin Luther King's birthday today, we gotta have a special day for him. You white cats have closed down the country for everybody else, why not him?

"King didn't die for non-violence, he died for constitutional rights. I get upset at all this crap, he wasn't fighting for non-violence, he was fighting for the

type of dignity us blacks want.

"But King stopped after he got a victory, he didn't want revenge. The whole establishment is uptight. But nobody got uptight about the Shriners in Chicago during the convention.

"The hippies and the yuppies wanted to change things, but the Shriners just wanted to buy things, like booze, and prostitutes.

"You people just don't know do you, about this establishment they call this country. I bet you really believe the Jets (New York Jets pro football team) really beat the Baltimore Colts in last Sunday's football game. The crooked syndicate controlled that game and outcome cause they were paying off on the bets.

"But I hear New Yorkers say their faith in the stinking city was restored by that game. When a football game can decide the faith of a town, we in trouble, baby.

"Muhammed Ali goes to jail cause he's against a war, but the capitalists on Wall Street are a bunch of titty-watching degenerates who cop out for the buck and adultery. (He was referring to the celebrated secretary who set Wall Street agog with her tight sweater, mini-skirts and noon-time walks last year).

"It's the capitalists you're bucking. If you groovy kids want to go to war in Vietnam, if you're dumb enough to go, then maybe killing is good for you. You're inconsistent, you smoke the capitalist cigarettes even though you know it will cause cancer. I bet if they told you it would affect you sexually you'd throw away them coffin sticks.

"There'd be a shoot-out on the front lawn if they told your parents they were sending the family dog to Vietnam, but they let you go cheerfully. Man, like we can rally around a murderer easier in this country than we can around a draft resistor.

"Baby, you can learn, it's not too late for you. When we cats were in school, panty raids — feature, that, swiping some broad's drawers — was the thing. We were too busy learning how to make a living and didn't learn how to live.

"Colleges don't know how to educate, they indoctrinate. The corrupt bastards who run the school's administration — why they oughta have a Federal law banning them from coming within a hundred miles of a school.

"The only cat who ever dropped an atom bomb on a city wants us blacks not to be violent. Who the hell do you think you are, anyhow. You had us blacks programmed to how there's nothing but white breads in the world. The white breads are in the movies, on the television reaching out a Pepsi Cola to us. You think we gonna take the Pepsi and let you have the white bread back.

"I grew up thinking the only black chicks were Beulah and Aunt Jemima. If you think I want to make love to Beulah, man, you is a sick cat.

"We are tired of your insults. I'm just telling you to know us, to give us some reason to trust you whites. I'm not here to tell you niggers don't stink. Do your own research, baby."

# 'You Can Go Straight to Hell,' Gregory Says

By RAY BROUSSARD  
Gazette Telegraph Staff Writer

Activist Dick Gregory, a bundle of black power in a blue jump suit, told The Man where to go Wednesday night.

"You can go straight to hell, you bunch of titty-watching degenerates, you capitalist cats, you corrupt bastards — unless you can convince blacks, Mexi-

cans, Indians, Puerto Ricans that you deserve to be trusted."

Hip, harranguing and hard, that was Gregory. His two-hour hymn was a chant of resistance — to parents, the military draft and the establishment. And the country. "The American flag moves me about as much as a pair of dirty drawers."

"Capitalism is bad news, baby."

Roundhouse applause, repeated over and over, said he was good news. And the sight of reportedly 1,500 people shoe-horned into 800-capacity Arm-

strong Auditorium seemed to convert him into "black is beautiful" before the long evening was done.

Gregory's "Violence and the Civil Right Movement" was the Abbott Memorial Lecture for Colorado College's "Violence" symposium.

Gregory — ranting against 400 years of black slavery, white capitalistic society brutalizing human beings, politicians, "white broads," — Gregory fortissimo, Gregory profundo — he was the whole hip, supercool, uptight show.

'The Man' — black jargon for white society — on hand loved him.

They gave him the black power salute (arm, fist outstretched).

In short, the onetime quarter mile track star at Southern Illinois State College, author of "Nigger," mainstay of San Francisco's "hungry i" bistro, recent "Peace and Freedom" party candidate for president — he had them everywhere but in the aisles as a symposium (Turn to Page 6A, Column 7)

Dear [redacted]

I have received your letter of January 23rd, with enclosures, and understand the concern which prompted you to write.

Regarding your inquiry concerning Dick Gregory, the FBI is strictly an investigative agency of the Federal Government and, as such, does not determine whether prosecutive action will be undertaken in any situation. Such decisions concerning violations of Federal law are within the province of the Department of Justice which has been furnished voluminous data regarding Gregory.

I want to assure you that this Bureau is aware of its responsibilities with respect to the internal security of our country. We will continue to make every effort to carry out our duties with the highest degree of thoroughness and dispatch.

Sincerely yours,  
J. Edgar Hoover

NOTE: Bufiles contain no record for correspondent. Gregory has made numerous vicious attacks against the Director and the Bureau, and there are indications he is demented and mentally unbalanced. He has supported the Black Muslims and injected himself into the Negro movements as well as associating with individuals and espoused causes that are closely associated with the communist movement. Correspondent's enclosure is a newspaper clipping from the Colorado Springs, Colorado, "Gazette Telegraph" concerning Gregory's speech there on 1-15-69. Gregory is on the Agitators Index.

RE: RICHARD CLAXTON GREGORY

On February 5, 1969, Detective [redacted]  
[redacted] Jasper, Indiana, advised that Dick Gregory ap-  
peared before approximately 1,000 to 1,200 people of which a-  
bout 50 were Negroes at the Ferdinand High School gymnasium,  
on February 4, 1969. His appearance was sponsored by the  
Cultural Appearance Committee of the St. Benedict College,  
Ferdinand, Indiana. u

Gregory talked basically to the young people and  
told them that there is no generation gap in America but a  
morality gap. He said that air pollution is not the number one  
problem but rather the main problem is moral pollution. He  
stated that the basic illness in the country is that property  
rights are considered more important than human rights and that  
capitalism must be behind the constitution instead of in front  
of it. He accused the United States of being the most morally  
polluted country on the globe and stated that South Africa,  
Cuba, and Red China don't pretend to be what they aren't. u

Gregory advocated lowering the voting age stating  
that if a man is old enough to fight for his country, he is  
old enough to vote. u

Gregory said the blacks in the United States are  
tired of insults and now they are reacting to them. He said  
they did not want civil rights but wanted human rights. u

Gregory spent the night at Jasper, Indiana, and left  
the following morning from Dress Memorial Airport, Evansville,  
Indiana. u

RICHARD CLAXTON GREGORY's arrival at Duke University on  
February 10, 1969, was delayed because of inclement weather;

Instead, approximately 75 black students paid a visit to

- (9) A say in everything involving black students u

After a brief discussion of the demands, the group departed peacefully. u

Thereafter, at 8:15 p.m., GREGORY addressed approximately 3,500 to 4,000 persons in the Duke indoor stadium. GREGORY said the country suffered from "A moral gap" rather than "A generation gap". He described the country as the most morally polluted in the world, and he said it would be up to the younger generation, which he described as the most moral, to cure "The old broad of her cancer". He likened LYNDON B. JOHNSON to the number one tyrant since JULIUS CAESAR and suggested it made no difference which of the two major candidates had won the election saying "one stinking, slimy politician is just like another". u

GREGORY said that the sad thing about America was that of all the countries she was the only one that lied about what she was and that preached one thing and practiced another. u

RICHARD CLAXTON GREGORY

He advised the audience to beat the capitalists back, because they put property rights over human rights. "When we march we got nothing but when the Niggers started burning down capitalists' property, we started getting someplace". He told the audience the number one point of order was to change all colleges and universities to educate rather than to indoctrinate. He closed with a plea for "trust" between all groups that make up America. U

GREGORY spent the night at the Statler-Hilton Hotel in Durham, North Carolina, and then during the morning of February 11, 1969, he had coffee and then lunch with members of the Afro-American Society before departing from Durham, North Carolina, approximately 1:15 p.m., by United Flight Number 853, en route to Washington, D. Reference is made to memorandum dated February 10, 1969, at Richmond, Virginia, in this matter. *u*

On February 12, 1969, a confidential source of the Federal Bureau of Investigation, who has furnished reliable information in the past, advised that Dick Gregory spoke as scheduled at Mary Washington College, George Washington Auditorium, Fredericksburg, Virginia, on the evening of February 11, 1969, from 8 to 9:30 P. M. *u*

Gregory spoke of current, general racial problems and appeared to the confidential source as making excuses for the minority groups. The speech was given in a humorous vein. *u*

On 2/5/69, GREGORY addressed about 700 students at Southwest Missouri State College (SMS), Springfield, Mo. The talk, sponsored by the Student Union Board, lasted about two hours and a 45 minute question and answer period followed. An established source [redacted] SMS, made available the original tape which is being transcribed as the stenographic situation permits. The talk was one in a series entitled, "Kaleidoscope-Patterns In A Changing World". Other speakers to be heard in the series include Senator STROM THURMOND, March 31; WILLIAM RUSHER, April 16, and JULIAN BOND, May 7. u

The source gave the following resume of the talk: u

One of the biggest jobs ahead of you young people is not to destroy the capitalistic system - you've got work like hell to beat the capitalists into their rightful place behind the Constitution, not in front of it. As long as capitalists stand in front of the Constitution, it is property rights that are being emphasized-not human rights. If democracy is as good as we tell you it is, why in the hell are we running all over the world trying to ram it down other people's throats. If anything is good, you don't have to force it on people-they'll steal it from you. u

He said he spends 90 percent of his time on college campuses and will be speaking at some 300 educational institutions within the next ten months. He believes the young people of today are the most moral, dedicated, committed people in the history of our country. He called "LBJ" the No. 1 tyrant since Julius Ceasar. He hoped the young people would bring on the scene some statesmen, not politicians, and then we will see a tremendous change in this country. It is a sad situation because you young people must solve the problems that you had nothing to do with creating. u

He called moral pollution America's No. 1 problem. He called the students to change the so-called educational systems and make them live up to their name. He said they were too damn busy to educate, they're so busy indoctrinating. The problem many times lies with the board of directors of the school not the administration. The board doesn't know anything about education and nothing about the kids. u

He urged the students to carry a copy of the Declaration of Independence with them and the next time there is a riot and it is shown on television, invite your parents in and watch it. Turn the sound off and read the Declaration of Independence, the part saying that when their rights have been denied for long periods of time, it is their duty to destroy and abolish that government. He called himself a slave to non-violence. He doesn't preach it, he lives it. u

He and his wife have pledged to eat only three days a week during 1969, and to spend the next four years trying to solve the hunger problems in America. He invited the students to do likewise. u

The talk was fairly well received and his remarks were often interspersed with applause. u

A report suitable for dissemination is being prepared. u

During the period January 13-18, 1969, a  
"Symposium on Violence" was sponsored by and held  
at Colorado College, Colorado Springs, Colorado. *u*

DN T-1, another Government agency which  
conducts intelligence investigations, advised that  
on Wednesday, January 15, 1969, from 8:15 to 10:30 P.M.,  
Dick Gregory, Peace and Freedom Party candidate for  
President in 1968, delivered a speech concerning in-  
justices endured by minority Americans. His basic  
theme concerned the injustices the American Indian,  
the Mexican-American, the Puerto-Rican and the Black  
American have all suffered throughout American history.  
The time has come for these injustices to be eradicated  
for the benefit and survival of this country. With-  
out their eradication, this country will suffer more  
burning and social upheaval. What is needed is trust  
between the white and black communities. The blacks  
will not accept handouts because they do not need  
handouts. They demand trust and constitutional  
rights. In discussing these points, Gregory made use  
of many different examples and personal experiences.  
He was particularly bitter about the fact that  
foreigners are treated better than blacks and Indians. *u*

He believed the present American youth  
was the most morally committed in this country's  
history. "American youth is now doing the job that  
past generations had failed or refused to do. The  
moral dedication of youth stopped President Johnson.  
The actions of the youth at the Chicago Convention  
prevented Humphrey from being elected." He expressed  
the view that, "This country is now the most inane,  
degenerate nation on the face of the earth; it must  
now be made the moral country it should be. The  
major problem facing this country is 'moral pollution.'  
This cancer must be stopped so America will survive." *u*

RICHARD CLAXTON GREGORY

Throughout his speech, he rejected hatred or revenge as a motive or goal. What he demanded was what he felt to be legitimate rights guaranteed under the Constitution. He deplored Lincoln Rockwell's, Martin Luther King's and all other political assassinations. He claimed to follow the doctrine of non-violence although he could not in good conscience advocate it for others. He attacked the American hypocrisy of demanding the Negro to be non-violent, while the Government was engaged in wars in other countries. He demanded new morality not based on superficial conformity or race. "It is not necessary to destroy the capitalist system, but the capitalists who now control the country must act under the Constitution. The emphasis must be changed from property rights to human rights. Racism in society is based on the structure of the society, and the structure of our society must be changed if it is to survive. u

"The black men in his militant activities is only following the revolutionary traditions of American history. The Declaration of Independence, the work of Patrick Henry and Thomas Jefferson, and the Boston Tea Party all justify the actions of the black man in fighting for rights. u

"The capitalists blocked strict gun legislation because it might have cost them money. There is something wrong when it is easier to get a gun than it is to get medicine. At 18 years of age, a person is old enough to fight and die, but he is not old enough to vote for the policies or the people who make the policies that send him to war. We find it easier in this country to rally behind the murderer than to sympathize with the draft protester. If democracy is as good as we say it is, why do we have to run all over the world shoving it down everybody's throat. Schools in this country do not educate, they indoctrinate. With all the violence and power of the establishment, they have the nerve to say to the black man, 'Be non-violent.' Progress will be made as soon as this country is as concerned with domestic injustices as it is with communism abroad." u

RE: RICHARD CLAXTON GREGORY,

A Confidential Source, who has furnished reliable information in the past, advised a Special Agent of the FBI on February 10, 1969 that Gregory was scheduled to be in Cincinnati on February 14, 1969 and February 15, 1969 performing at the Living Room Supper Club, Metropole Hotel, 609 Walnut Street. ~~X~~ (U)

This source stated   of an organization called Cincinnati Action for Peace (CAP) told him that a group of CAP members planned to attend the February 14, 1969 performance of Gregory to support him. ~~X~~ (U)

This source described CAP as an organization dedicated to protesting the U. S. involvement in Vietnam and the U. S. Selective Service System. ~~X~~ (U)

This source advised on February 15, 1969 that he attended the performance of Gregory on February 14, 1969, talked with him, and determined that Gregory was residing at the Stouffer Inn, Fifth and Elm Streets, Cincinnati. Gregory indicated he was scheduled to go to Washington, D.C. after he left Cincinnati on February 16, 1969. ~~X~~ (U)

This source noted that Gregory had apparently toned down his jokes and commentary so as not to offend the white patrons. His jokes favored draft resisters and persons taking over control of schools but he did not talk violently concerning Black Power. u

THE NEW PARTY

On February 10, 1969, confidential sources who have furnished reliable information in the past, advised that on this date, Dick Gregory, Negro comedian and co-chairman of The New Party, spoke to approximately 1,000 individuals at Leonard Gymnasium, American University (AU), Washington, D.C. (WDC), at the invitation of the Secretary Political Union, a legislative organization of the student association at AU. The speech commenced at two p.m. and ended at approximately 5:45 p.m. u

The New Party has been publicly described as a group building an "Asian government" in Asia to further "the politics of participation." u

According to the sources, Gregory's speech appeared to focus on two separate areas. At first, he appeared to appeal for support for The New Party and distributed literature, the program booklet, and members for The New Party. He was concerned about the tremendous power in youth and emphasized the duties of youth to change the "system" and was very subtle in seeking to advocate violent approaches in changing the system. He remarked that everyone was upset with the late President John F. Kennedy, the late Senator Robert Kennedy, and Reverend Martin Luther King, Jr. were murdered but added that they seem to place little value on the lives of individuals of lesser stature. He said that all Americans should be upset to anyone who is assassinated. Throughout his speech, he would occasionally comment to his audience that "you have a lot to be ahead of you." u

Gregory remarked that the politicians of America should be replaced by statesmen and that the youth of America should find the cancer in society and cut it out. He said that if an individual can be killed fighting for his country at the age of 16, then he should be able to vote at the age of 17 and advised that the youth of America should tell the record companies that they will be boycotted for two years unless they utilize their lobbying power in Congress to lower the voting age to 17. He said in America more importance is placed on a draft card than on a Social Security card. Gregory continued that America is controlled by capitalists and is a country where the use of napalm on people is okay while at the same time people in California are rescuing ducks covered with oil which reflects the standard of human values in America. Gregory commented that he was glad that the situation in Chicago occurred because it kept Hubert Humphrey from becoming President of the United States. u

According to the sources, the latter part of Gregory's speech seemed to emphasize his theme of racism in this country and Gregory stated that "we're tired of all these insults." At this point, Gregory consistently spoke of violence throughout the remainder of his speech. He mentioned the plight of the Indians and remarked if they would commit more acts of violence, perhaps they would receive more public attention. He remarked that his father was killed by the Germans during World War II but that some years later the same German immigrants can enjoy privileges which he can not enjoy and said that we live in a country that treats its enemies better than its citizens. He remarked that a country like this should be burned to the ground. Gregory justified looting by comparing it to the Boston Tea Party and seemed to justify people arming themselves against the police by reminding the audience of Paul Revere's ride when he told the people to arm themselves against the British, whom he described as the "cops." He told the audience that u

the next time they are observing looting and rioting on television, they should read the Declaration of Independence aloud. Gregory went on to remark that the black power of America are merely reacting to American insults and that home rule for WDC is the only solution for local problems. U

According to the sources, no incidents occurred during Gregory's speech. U

RE: RICHARD CLAXTON GREGORY

[REDACTED] Middletown High  
School, Middletown, Maryland, furnished the following  
information: u

b6  
b7C

He attended a scheduled debate between RICHARD CLAXTON GREGORY, Negro comedian and ANDREW HATCHER, a moderate Negro leader, sponsored by the Western Maryland College Student Government, held at Wilson Hall, Western Maryland College, Westminster, Maryland, on February 12, 1969 in the morning. However, because of inclement weather, HATCHER did not arrive on time and instead of a debate, each speaker gave individual presentations. u

GREGORY said that the young people of America, working together during the past spring and summer, convinced the most powerful man in the world today, the president of the U.S., that he could not be re-elected and showed in Chicago, during the Democratic Convention that they could also influence the outcome of a national election. He said that it was not merely the fact that "hippies and Yippies" demonstrated in Chicago, but the "reason" that they did it that influenced the outcome of the national election. He added that it did not matter, though, what "slimey, stinking politician" won the election, and it is necessary to replace the politicians with "statesmen". He exhorted the young people to work to end discrimination of any type and not to talk about "non-violence" until the American Indians are freed from the reservations. u

GREGORY compared the reaction of the parents of a draft resistor who had talked to him, to the reaction they would have had if he had used dynamite to blow up a dormitory and kill many people. Their reaction to his draft resistance is to have nothing further to do with him whereas if he had committed some crime like dynamiting a dormitory, they would come to his aid with all of their resources. He stated that he wished that he was young enough to have been drafted. If he was, he would have gone to Washington, D.C. and handcuffed himself to DEAN RUSK's son and said "Whatever is wrong with RUSK's son is what's wrong with me". u

According to GREGORY, the white people landed at Plymouth Rock and shot and murdered their way across the country and a "white boy" by the name of PAUL REVERE rode through the white communities and told the people to get their guns because the police were coming. u

He commented on the fair housing bills which are necessary to allow blacks to live in any community they want to, stating that STALIN's daughter, an admitted communist, and Russian exchange students who don't want to be citizens of the U.S. have no trouble living wherever they want to while U.S. citizens who are black cannot do so. u

Approximately 1,200 people attended the presentation and two to three hundred were refused entrance because the hall was filled to capacity. Some news media appeared to be taping the proceedings and there were some few "hippie" types and about eight to ten black persons who were wearing their hair in the "Afro" style. The vast majority, however, were college students and faculty and there were no incidents or arrests. u

GREGORY made no inflammatory statements, in  opinion. u

THE NEW PARTY

Washington, D.C. 20005

Mr. Gregory campaigned for approximately a year as an independent write-in candidate for the Presidency of the United States. He was also on the ballot in several states as a candidate of the Peace & Freedom Party and the New Party.

During his campaign he had a book published by Bantam Books titled Write Me In, which clearly spells out his personal and political philosophy and details his reasons for calling for a president-in-exile, a new political party, and the opening of the Black House, which will serve as a focal point for political dissent, and the advancement of creative political alternatives.

"The two-party system in America has made a mockery of democracy by denying people any real choice in determining the candidates who will represent them. Candidates are selected through the power plays of the party machine and such political activities produce candidates who will best represent the interests of the political party rather than the common good of all the people...The essence of true democracy is not only the right to vote, but also the right to select your own candidate. To be forced to select between party dominated choices is to have no REAL choice at all.

"The creation of a third party, a party based on the magnificent dream of peace and freedom, exposes the shallow aspirations of the two party system. Such a party offers a public forum for the expression of moral concern and provides a means of organizing those whose dream of democracy will not submit to or be stifled by current political realities.

"Whatever the outcome of the vote in November, the waging of the battle is victory in itself. If I should happen to fail to receive the majority of that vote, I will still be the commander-in-chief of an independent voting army and will declare myself their President-in-Exile. That army will continue to wage war for justice and dignity among men for years to come.

"Whenever the occupant of the White House fails to respond to the just demands of human need, the independent army will bring their concerns to the Black House to their President-in-Exile...Ours will be an active exile, a functioning government and a marching army."

Dick Gregory is a man with a message . . . a message of freedom and equality not only for the Negro but for the entire human race. He has spent more time in Southern jails, marched in more demonstrations prevented more racial violence and worked harder for the rights of the Negro than any other entertainer in America. His autobiography, "Nigger", has become a best seller and his new book, "Sermons", for Doubleday, looks to be an even bigger success.

Dick Gregory, in addition to being the great leader in the Negro's fight for equality, is a top star of television, stage and motion pictures. He has toured the continent, become an international leader, starred on Broadway, and on the major television shows, and made a spectacular motion picture debut in "Sweet Love, Bitter".

RICHARD CLAXTON GREGORY

On February 25, 1969 Detective [redacted] St. Petersburg, Florida Police Department, advised that on the evening of February 24, 1969 Richard Claxton Gregory, delivered a speech at the Coliseum in St. Petersburg. He said that there was an interracial audience consisting of 1,000 to 1,200 persons in attendance. [redacted] pointed out that the speech was delivered and that there were no unruly incidents occurring as a result. He said at the conclusion of Gregory's speech it became apparent to the St. Petersburg police that no problems were going to arise and so officers of the police discontinued their coverage of Gregory and the audience at the Coliseum. He did say that Gregory had indicated prior to the conclusion of his speech that later on in the evening he would meet with members of the audience on an informal basis for a period of questions and answers. U

b6  
b7C

[redacted] commented that Gregory made derogatory remarks concerning many individuals in the United States including former President Lyndon B. Johnson. [redacted] remarked that Gregory cleverly interspersed humor with his derogatory remarks, and this technique made the audience responsive in their applause. U

[redacted] continued by stating that during Gregory's speech the latter indicated that a current judicial appeal had been rejected by a high court necessitating his. Gregory's, arranging a conference with his attorneys. [redacted] said that Gregory indicated that he planned to consult with his legal advisors imminently. According to [redacted] Gregory also indicated that due to the rejection of his appeal he would probably be imprisoned on February 25, 1969. U

b6  
b7C

[redacted] said that he understood that Gregory was to have been the overnight guest of Florida Presbyterian College [redacted] but emphasized that the police did not observe Gregory after he departed from the Coliseum and so he could not be certain that Gregory did in fact remain with the [redacted] family. U

[redacted] said that there were a number of members of the Junta of Militant Organization (JOMO) present during Gregory's speech. U

RICHARD CLAXTON GREGORY

The JOMO is a St. Petersburg based militant black nationalist organization. U

[redacted] recalled having seen [redacted] during the Gregory speech. He pointed out that [redacted] is a writer for the "Burning Spear," a periodical published by JOMO. U

[redacted] also recalled having seen [redacted] at the speech delivered by Gregory. [redacted] pointed out that [redacted] is the [redacted] of JOMO and recalled that [redacted] has been arrested in St. Petersburg during racial disorders for assaulting a police officer, and prior to that was arrested by Gainesville, Florida authorities for inciting a riot. U

b6  
b7C

On February 25, 1969 a representative of the FBI in Tampa, Florida determined from [redacted] National Airlines, Tampa International Airport, that Mr. and Mrs. Richard Claxton Gregory departed Tampa, Florida at 8:15 a.m. on February 25, 1969 via National Airlines Flight 418. [redacted] pointed out that Mr. and Mrs. Gregory were destined to fly to Newark, New Jersey arriving there at 10:30 a.m., February 25, 1969. U

A representative of the FBI in Tampa, Fla. on February 25, 1969 solicited from [redacted] Tampa Airport Motel, 2222 North Westshore Blvd., Tampa, that Gregory and the latter's wife spent the night of February 24-25, 1969 at the Tampa Airport Motel. U

On Page 1B of the February 25, 1969 edition of the "St. Petersburg Times," a daily St. Petersburg, Florida newspaper there was an article entitled, "Gregory Threatens a Fast." The article indicated that Gregory told an "inraptured" crowd of about 1,500 in St. Petersburg, Florida on February 24, 1969 that he would "go on nothing but distilled water" when he began serving a 6-month sentence imposed on him in 1966. The article pointed out that the U. S. Supreme Court on February 24, 1969 refused to review Gregory's conviction. Gregory was quoted as having said, "I'll drink only my water." U

RICHARD CLAXTON GREGORY

The article indicated that Gregory had referred to the Declaration of Independence and won a standing ovation as he related to riots the section proclaiming it the "duty" of free men to "alter or abolish" tyrannical government. The article pointed out that he "mixed humor with stinging rebuke" and held his audience spellbound. U

He indicated the one point according to the article that "We even got a black cowboy on television now - 'The Outcast' - You can tell by the name that it's us. Next year we gonna have another black cowboy... so that the first one will have someone to kill." The article also quoted Gregory as having said "President Nixon will listen to the young because he knows he's not as slick as LBJ and he knows if you kids can run LBJ back to the ranch it is a short distance to that law office in New York City." U

"Which is more degenerate, to go to the girls' dormitory and take all the drawers - or to take over the administration building?", Gregory was quoted as having said. U

Gregory commented about the Chicago Convention by asking, "Who do you think committed the most adultery in Chicago... the hippies and yippies, or the Shriners that were in town?" U

According to the article, Gregory made the following comment concerning open housing: "Suppose the Viet Cong kills me and my wife gets \$10,000 and can't buy a house where she wants to - I'd say I died shooting at the wrong guy." U

He indicated, according to the article, that America is the only nation "which lies about itself. Russia, China, and South Africa don't hide what they stand for and neither did Hitler," Gregory said. U

Representatives of local law enforcement agencies in Hillsborough and Pinellas County, as well as representatives of Military Intelligence and Secret Service in Tampa were notified of the information contained in this communication. U

BY THE NEW PARTY

In a statement by Marcus G. Raskin, dated August 1, 1968, titled "Why The New Party," Raskin, a former White House aide, who is co-Director of the Institute for Policy Studies and a member of the Executive Committee of The New Party, stated in part; "It is clear that the people are calling upon, and will fashion a political party that will recapture their own political system without revolution, without violence, without repression; but, rather, in that community of interest which can make real those fleeting dreams of freedom, equality, peace and justice which all of us want to believe are rooted in the land of America." U

The Institute for Policy Studies (IPS) is a non-profit organization formed to study foreign and domestic policy of the United States. U

It has been publicly described as a "think tank" for the New Left. U

During 1968, Dick Gregory campaigned as an independent write-in candidate for the Presidency of the United States and was also on the ballot in several states as a candidate of the Peace and Freedom Party and The New Party. In a book published during his campaign by Bantam Books titled "Write Me In," Gregory stated in part; "The creation of a new party, a party based on the magnificent dream of peace and freedom, exposes the shallow aspirations of the two party system. Such a party offers a public forum for the expression of moral concern and provides a means of organizing those whose dream of democracy will not submit to or be stifled by current political realities." PLANNED FOR MARCH 4, 1969  
BY THE NEW PARTY

~~CONFIDENTIAL~~

On February 16, 1969, a confidential source who has furnished reliable information in the past, advised that on that date, Dick Gregory, Negro comedian and co-chairman of The New Party, spoke to approximately one thousand persons at Leonard Gymnasium, American University (AU), WDC, at the invitation of the Kennedy Political Union, a legitimate organization of the student association at AU. The speech commenced at two p.m., and ended at approximately three forty-five p.m. u

During his speech, Gregory announced his position as President-In-Exile of The New Party. Gregory spoke at length for support of the Party and why it would be good for the United States. He condemned the two party system and stated that he would be the "Commander-in-Chief" of The New Party. Source stated that during the speech, Gregory brought out his usual subtle remarks of hatred for white society and its ills, and remarked how the formation of a new Party would be so designed to cure those ills. u

The above source continued that while Gregory spoke, circulars were distributed indicating that Gregory would hold his inaugural as President-In-Exile of the United States, on March 4, 1969. u

A copy of the above mentioned circular is attached, and is in the form of an invitation to Gregory's inauguration, which is to be held at The Morgan Community School Auditorium, 1733 California Street, N. W., WDC. The circular further reflects that an inaugural ball will be held "site to be announced," and in conjunction with both, The New Party will hold a Town Meeting patterned after the town meetings of early American history, at The A.M.E. Church, 15th and M Streets, N. W., WDC. The town meeting is to consist of workshops and discussions on the problems of WDC and the nation. u

On February 24, 1969, a second confidential source who has furnished reliable information in the past, advised that the Black Student Group and the Student Association at AU, had requested use of facilities at AU for an Inaugural Ball on March 4, 1969, for Dick Gregory. According to the source, this request was denied. ~~(U)~~ (U)

On February 25, 1969, a third confidential source who has furnished reliable information in the past, advised that a campus group, The Organization of Afro and Afro-American Students at AU (OASATAU), held a rally at noon on that date in front of the Mary Graydon Center (MGC), AU, protesting the rejection by the School Administration of the request to hold an Inaugural Ball on campus for Gregory. ~~(U)~~ (U)

On February 26, 1969, the third source advised that the leader of OASATAU had stated that the protest at AU was no longer a question of facilities for an Inaugural Ball for Gregory, but "who is going to make decisions on the campus." ~~(U)~~ (U)

On February 27, 1969, the third source advised that George H. Williams, President of AU, issued a statement on that date that he would permit students to use Leonard Hall and/or the Collier Room in the MGC, AU campus, in celebration of Gregory's Inaugural Ball. ~~(U)~~ (U)

On February 27, 1969, general inquiry at The New Party Headquarters, 1029 Vermont Avenue, N. W., WDC, by a representative of the Federal Bureau of Investigation (FBI), disclosed that the Gregory Inaugural Ball would be held at the Hotel America, Massachusetts Avenue and Thomas Circle, N. W., WDC, the evening of March 4, 1969. u

On the same date, general inquiry at the Hotel America by a representative of the FBI disclosed that space

Racial Matter-  
Black Nationalist

On March 7, 1969, NY T-1, who is in a position to furnish reliable information, furnished the following information:

Under the auspices of the Speakers Bureau of the University of the State of New York, at Farmingdale, New York, captioned individual spoke to approximately 200 students of the University on March 6, 1969. Gregory attacked the establishment and whites and warned of the coming riot season. He called for the students to put pressure on their legislature for a voting age of 17, since youths of that age are old enough to go to war and get killed. He stated that college professors have not learned the difference between indoctrination and education. He said authority indoctrinates students to accept the racist institution, the establishment. When heckled by shouts to Gregory that he should leave the country if he is not satisfied, he said he would when the racist institution frees his brothers. There were no incidents.

The following is the transcript of a speech  
made by subject at Duke University, Durham, North

"I would like to say thank you very much.  
And how do you say with a straight face that  
it is a pleasure to be in Durham? But I made  
it, and you know if you youngsters really want  
to have some fun, you should go to Chicago to

saw all that snow and thought it was cotton. So I took a train and went to Washington, D. C. after riding all night. So I got on the plane in the evening and I don't have to tell you how tired I was. So I decided I would get me a little sleep. So when I sat down on the plane there was this white cat sitting next to me. So I checked him out, and he was a pretty groovy fellow. U

"So I dozed off and went to sleep. Wouldn't you know about fifteen minutes after I get to sleep he decides he wants to strike up a conversation with me. So he did it the usual way, 'Wake up boy.' So I woke up. Only to find out he didn't have nothing to talk about. He wanted to discuss Negro progress in America. So I explained to him that I did not want to discuss black progress in America because there are too few people in America that really know what areas we've made a tremendous amount of breakthroughs in. A lot of people think we've made so many progress in jobs and housing and education and the biggest breakthrough in the history of America for black folks happened two years ago in the state of Texas. We got our first colored hurricane, Beulah. U

"So when you stop and think about it, things are looking up. Yeah, have you been digging television lately? Yeah, they got a lot of us on television. They used to slip us on them commercials after midnight, but now we got the evening news now. Yeah, my little sister was one of them Bufferin hands the other day. I sure was glad they finally U

~~CONFIDENTIAL~~

RE: RICHARD CLAXTON GREGORY

~~CONFIDENTIAL~~

cut us loose on television because I don't know about you white folks, but it sure was hard as hell for us black folks to keep looking at that white dove fly through that white lady's kitchen. 'Oh look, there's a white dove in your kitchen.' If I could see my sister come out and say 'Beulah, baby, there's a black crow on the biscuit.' So television is giving us the business. u

"Things really is looking up. We even got a black cowboy this year. You know that? What's the name of that, the Outcasts? Well, you could tell by the name it was us. Yeah, we got a black cowboy. I sure was happy, too. And next season we going to get another black cowboy so this one can have somebody to kill. u

"No, no, I don't mean that. They let him kill a white cowboy now and then. But you see whenever it comes his turn to kill a white cowboy the script writer has really got to go through some changes. Because you see, they got to dirty up this white cat so bad that when the black cat guns him down, everybody will accept it. He killed a white cat three weeks ago, did you see it? This white cat had just finished raping a blind paraplegic Salvation Army worker. And the black cat didn't know he had just finished doing that. No, he gunned him down because he stole \$2,000 worth of Christmas seals. u

"So I guess little by little we're doing pretty good in television. Next season they might replace the flying nun with the skipping black Muslim. u

RE: RICHARD CLAXTON GREGORY

~~CONFIDENTIAL~~

"So I dozed off to go back to sleep and sure enough, this white cat nudged me again. He said, 'Will you explain to me what black power is?' I said, 'I will not.' And I went on and tried to explain to him that for twelve months I went out of my way to explain to white folks what black power was. And even when I couldn't find white folks I would call them up on the telephone, 'Hello, are you white?' But after last year we just kind of felt that everybody in the world knew what black power was. u

"After the tremendous heart transplant in South Africa where the black cat gave up his heart to the white cat, the only heart that is working right. Now that's black power, baby. Yeah, that heart is pumping, too. And that white cat is probably somewhere in Johannesburg right now, singing the blues. I don't know if you white folks are aware of the fact that black folks found out the black cat was going to give up his heart to the white cat. That just made black people happy all over the world. You see, we've been knowing for years that basically there's nothing wrong with white folks that a change of heart wouldn't straighten out. u

"But to be honest with you, we must admit we didn't want that heart to work that good. No, I mean that heart is working so good it has really scared the hell out of black folks. You see, that heart is working so good that nothing scares us no more than the thought that one day you white folks might start assuming that we going to be your spare parts. Ever since that u

~~CONFIDENTIAL~~

RE: RICHARD CLAXTON GREGORY

heart has been working so good, white folks have been looking at us a little bit different now. u

"I fell asleep in the airport about three weeks ago and woke up and here a white cat got his ear on my chest. And next thing you all will be claiming nappy hair will cure cancer. u

"You know there is a lot of pros and cons about heart transplants. Some people are for them and some people against them. Let me go on record as saying I am against all heart transplants, but I'm for transplants. Not only am I against heart transplants, I'm against all the type of transplants you can hide. I would love to see a white cat get a colored foot. And next summer let him take that to the beach with him. Come on Joseph, let's pull off your other shoe. Let's get in the water. u

"Let me say to you youngsters this evening it is a pleasure to be with you. I guess I can truthfully say that I spend about 98 per cent of my time today on college campuses, and for a reason, and the reason is because you young folks in America today are probably the most morally dedicated, committed group of young people that's ever lived in the history of this country. u

You can't read these old right wing cracker newspapers to find out what you are, who you are, and what you're all about. Because your average establishment newspaper morally is not even morally sound enough to even discuss you young kids with you. What do the newspapers in America say today, you're hippies, yippies, bearded, smelly, irresponsible kids. u

~~CONFIDENTIAL~~

RE: RICHARD CLAXTON GREGORY

---

~~CONFIDENTIAL~~

"The first question they got to come to my mind is that because you have a beard why does that mean you have to stink? They don't say nothing about Abraham Lincoln. He didn't only have a beard, he was ugly too. u

"Your newspapers has yet in this country to say to you youngsters that because of your moral dedication LBJ was not able to run for re-election. No, the newspapers did not tell you that you youngsters were the cause of LBJ not being able to run for re-election. That was very important. LBJ is probably the number one tyrant that's walked the face of this earth since Julius Caesar. And because of you youngsters he wasn't able to succeed himself. And you didn't use no hand grenades and no missiles and no army. Moral dedication. Do you really know how strong you are? u

"These newspapers in America have not told you youngsters that 15,000 hippies and yippies showed up in Chicago for the Democratic Convention and made the difference in who was going to be the President. Because had those hippies and yippies not showed up in Chicago and that vicious street scene had not taken place, those two or three million people they got so upset rather than vote for crooked Dick they didn't vote at all. They would have gone out and voted for Hubert. And when 15,000 of you just by being present can decide the fate and destiny of the number one most mighty nation on the face of this earth, that's power. u

"Oh a lot of people get upset because they say if you youngsters had not showed up in Chicago Nixon wouldn't have been the President today. Most u

RE: RICHARD CLAXTON GREGORY

---

~~CONFIDENTIAL~~

youngsters that I run across are hip enough to know that when you're dealing with one of them stinking, slimy politicians it makes no difference which one of them wins. They all act the same way anyway. u

"And as far as crooked Dick, you don't have to worry about him. Nixon knows damn good and well he's not as slick as LBJ was. He knows he's not as powerful as LBJ was, and he got enough sense to know you youngsters ran LBJ back down to the farm and they going to run him back out to California. u

"And so I say I travel to about 300 colleges in a ten-month period each school year and the hardest thing that I find in talking to you youngsters, not only do I have to tell you that the problem confronting America today, you have to solve. The embarrassing thing that I have to tell you youngsters in America is that you have to solve problems today that you had nothing to do with creating. These problems were here when you got here but they will not be here when you leave, thanks to us old fools. And I say thanks to us old fools because we put you young kids in a situation today that young folks in America have never been in in the history of this country. You see, us old fools that passed ahead of you, not only did we not solve the problems confronting America today which nobody has solved, but we did something nobody has ever did in the history of the country. We didn't solve the problems, but we used up all the tricks. And we wonder why you youngsters act the way you act. You got to act the way you act because you have no tricks. u

~~CONFIDENTIAL~~

RE: RICHARD CLAXTON GREGORY

---

~~CONFIDENTIAL~~

"Yeah, when I was a kid my mother, my daddy, and my whole community taught me before I got out of the crib that one day you're going to grow up boy, and a white man is going to call you a nigger. Now don't be mad when he calls you that because God don't like no ugly. Sure enough I grew up one day and a cracker called me a nigger and sure enough I didn't get made because God don't like no ugly. I got seven of those black kids at home, and me and my old lady ain't teaching them nothing. And if a cracker ever makes the mistake of calling one of them a nigger, I know it's going to surprise them and I know they are going to act accordingly. So there's no tricks, thanks to us old fools. You youngsters have to deal with solving the problems today. U

"Let me tell you I did not come here this evening to impress you but only to inform you. When I leave here tonight I couldn't care less about what you think about DICK GREGORY. Because you see I always have the consolation of knowing that whenever we wake up, this year, next year, twenty years from now, you will always be able to say at least Brother Greg didn't lie to us. I think that's a big problem today. Us old fools are so busy lying to you youngsters, and after we finish lying to you we run around and say the problem why we can't relate with you is because there is a generation gap. I stand here and tell you 2 and 2 is 5 and when you react to it, I say well it is just the generation gap. The generation gap is a moral gap. If I quit lying to you you would find out we could relate. U

"We want to make believe that age, hell Burgess Russell (phonetic) could leave England tonight. He U

~~CONFIDENTIAL~~

RE: RICHARD CLAXTON GREGORY

is 98 years old and come to America and walk from one end of the country to the other and be the youngest among us because he's going to reach them from a moral, dignified standpoint. That's what you young people are all about. Because we didn't just start lying to you. u

"We started lying to you way back down in the crib with that Santa Claus boy. The first letter I ever wrote in my life was to a cat that didn't even exist. That sounds funny, but when your mama lies to you anybody ought to be able to lie to you. Of course, that Santa Claus boy, he went over better in the white community than he goes over in the black community. Not that we don't dig him. We just know damn good and well that ain't no white cat coming in our neighborhood after midnight. u

"Twenty-four hours a day though, we lie to you youth. The number one lie we tell you in America today is we say the number one problem confronting America today is the problem of air pollution. And the number one problem confronting America today is the problem of moral pollution. u

"This is the most morally polluted, degenerate, insane nation on the face of this earth, bar none. And you young people today have the job of giving America her sanity back. You young folks have the job today of making America the morally dedicated nation the founding fathers meant for her to be. Now I hope you don't make the mistake of the right wing crackers who are so damn busy eulogizing the country. You know, save the eulogies for when she dies. Thanks to you youngsters, America is not dead u

RE: RICHARD CLAXTON GREGORY

---

~~CONFIDENTIAL~~

yet. So if you quit eulogizing her and examine this old broad and find out where the cancer is and run her on into the hospital and cut it out, you might save her. u

"And the day you youngsters work to make this country the beautiful country she should be, that's the day she wouldn't have to walk all around the world trying to convince ourselves that America is beautiful. u

"Let me tell you something, as long as you got that Indian locked up on that reservation, if you can believe this country is beautiful with him up there, you are sick, bad, and out of your mind. You know the interesting thing is that once you youngsters make her beautiful, she wouldn't have to go around bragging. Other people will do it for us. Any time a cat has to tell you about how pretty his wife is, you can damn sure bet he's married to Lena the hyena. Because that's one thing that don't have to be discussed, true beauty. u

"So you youngsters got a job. You see, the sad thing about America is that of all the countries on the face of this earth, America is the only country that lies about what she is all about. Irregardless of what you feel about Mao Tse-Tung in Red China, the Chinese do not pretend that Mao Tse-Tung is not a Communist and a revolutionist. Irregardless of what you feel about Cuba, they don't pretend to be nothing else but some Communists and some revolutionaries. As sick as Hitler was he didn't pretend that he thought Germans was superior u

RE: RICHARD CLAXTON GREGORY

---

to everybody else. You know regardless of how no good countries are on the face of this earth, at least they own up to what they are. South Africa makes no bones about the fact they don't like them niggers. America is the only country on the face of this earth that run around preaching one thing and practice something else. u

"So, you youngsters got a big job ahead of you because you're getting a lot of help from us old fools. That's why I was tickled to death that the young folks showed up at the Democratic Convention in Chicago. Because after looking at that on television it sure woke up a lot of you young fools. And ain't nothing no worse than being a young fool because you got so long to be one. u

"Those 15,000 hippies and yippies showed up in Chicago and changed the system. And three days after the Democratic Convention was over, the whole establishment tried to convince you that you did not see what you saw on television. Yeah, they said it didn't happen. They said the press created it. u

"You know something? If Kosygin and the rest of them old damn fool Russians in Moscow was dealing with the world as insane as America, you know they could beat that Czechoslovakian rap? All they would have to do is get on worldwide television and say it didn't happen. We admit we sent little miniature tanks to the Czech border, and the press with their cameras blew them up to make them look like real live tanks. But you know what, Kosygin is not dealing with the world as crazy as America. The Czechoslovakian situation got the whole Communist world up-tight. And u

RE: RICHARD CLAXTON GREGORY

---

it didn't have a damn thing to do with these Communist-hating Americans, didn't have a damn thing to do with your army. The whole Communist world is up-tight because them damn fools in Russia made the same mistake them damn fools in Chicago made. They plotted their move just knowing how the old fools was going to react, and they forgot to take into consideration you young folks. I'm sure them Russians never realized they'd move into a country with their mighty army and the young folks would run up and draw swastikas on the tanks. u

"I'm sure them Russians thought when they moved into Czechoslovakia with their tanks them folks would act the same way your mama and daddy would act if they moved into your hometown with some tanks. They never realized they would run across some young kids that was so dedicated to what they believed in that they would lay down in the middle of the street and put gasoline on them and light the match. And all the world, the Communist world, is upset because of what they did in Czechoslovakia. u

"America was upset because of what happened in Chicago. 15,000 hippies and yippies showed up to change the system. And the whole country got up-tight because of what they was doing. They got up-tight because of the reason they was doing it. I mean anybody in their right mind in America knows it wasn't because those kids was in the streets, because for the last ten years you white kids ever spring break go to Fort Lauderdale, Florida, and tear up the whole damn town and nobody has got upset u

RE: RICHARD CLAXTON GREGORY

---

~~CONFIDENTIAL~~

over it. Because when you go to Fort Lauderdale you're just going to get drunk. You ain't going to change no system. And there is a difference. u

"15,000 hippies and yippies came to Chicago to change the system and the whole establishment got upset. And I ask you point blank, who do you think was the most immoral in Chicago last year, the hippies and the yippies or the Shriners when they was there for their convention? Who do you think committed the most adultery and spent the most money on whores and prostitutes, the hippies and yippies or the shriners when they was in Chicago for their convention? And nobody got upset over the shriners because the shriners didn't come to change nothing, just to buy something. u

"And so all at once they're trying to make you youngsters think that oh, you're doing things youngsters. Oh, young people has always had their thing. It's just that young folks have never used their energy to change the system. I remember when I was in college, we had panty raids. Well we didn't, I went to one of them white schools. I wasn't about to go in that white dormitory and steal no drawers, but they had panty raids. u

"Well let me just ask you tonight, which do you think is the most sick and the most degenerate and the most scummy for a group of kids to go into a girls living quarters and steal all the drawers or to go and take over the administrative building and not let no phone calls through? Which is the u

mark of degeneracy, stealing drawers or taking over the administration building? U

"But for ten years in America young people had panty raids and nobody got upset. The whole establishment said, 'Well, boys will be boys. It's all in growing up.' Ha, ha, ha, ha, ha. U

"And then young folks got tired of stealing bloomers. Young folks started deciding to see how many goldfish they could swallow. Nobody didn't give a damn. They let you swallow a whale if you want to. U

"Then young people got tired of swallowing goldfish. And then they decided to see how many they could stuff into a telephone booth. And you pick up the front page of the paper and on the front page is 'University of Arizona Sets New Record, 500 Kids Stuffed in one Telephone Booth.' And they have some little freakish little cat on the front page from AT and T bringing another telephone booth, saying, 'Ha, ha, boys will be boys, ha, ha. U

"If you think boys will be boys, don't take 500 kids and try to get into a phone booth. Take 5 to downtown Durham one day with some picket signs and march around an empty telephone booth asking AT and T about its anti-trust violations and about its high long distance phone call rates, and see how quick it would take the cops to get there and bust you, and see if anybody will say 'boys will be boys.' U

"I say you youngsters got a big job today, a mighty big job you have to do. I guess you understand

you're aggravating us old fools. Now all at once you young kids is trying to tell us that morality will no longer be a Brooks Brothers suit and a clean shaven face and a haircut once a week, and you can commit all the adultery you want and you're still Mr. So and So. You youngsters are saying morality will no longer be buying the latest fashions from Paree and bathing in Chanel Number 5, and having as many abortions as you want and you're still Mrs. So and So. Yeah, you youngsters are really upsetting us old fools. u

"You're trying to tell us morality will no longer come from without. It will come from within. That means you can't buy it. And you wonder why we're upset. u

"Yeah, y'all got a mighty job, but you're getting a lot of help. You see, the beautiful thing about that old television, as bad as television is, if you just keep looking at it long enough, that thing will slip through. That same television set that brought you the Democratic Convention and them hippies and yuppies in the middle of the street, that same set nine weeks after the Democratic Convention was over, brought you another crowd. Only that crowd wasn't in Chicago. It was in New York. Only that crowd wasn't hippies and yuppies. u

"You remember that big crowd in the street in New York City that nobody got upset over, 20,000 sick degenerates from Wall Street came out one morning to look at a broad's titties. Nobody got u

upset over the titty-watchers. J. Edgar Hoover has yet to get on television and say titty-watching is Communist inspired. What do you call a bunch of sick, degenerate titty-watchers? Extremists, left to right? u

"And folks, Sister Francine said she would like to be able to get off that subway without being watched by them degenerates. All she would have to do is understand the system. She could get off that subway tomorrow if she understood the system. All she would have to do is hold a press conference tonight in New York City and say, 'Tomorrow morning at 11:33 I'm going to get off that subway wearing one of the tightest sweaters ever worn in the history of the world.' u

"I don't have to tell you what would happen, do I? Tomorrow morning at 8:00 there would be 300,000 of them sick, slimy degenerates waiting on her, and at 11:33 when Francine rises up out of that subway wearing one of the tightest sweaters that's ever been worn in the history of the world, if she sincerely don't want them fools ever looking at her again, when she emerges out of the subway, just have two signs across her bosom, one reading 'Free Huey Newton, baby,' and the other one 'Bring the Boys Home From Vietnam.' And I guarantee you within two minutes time them 300,000 degenerates would be gone. Yeah, back into their Madison Avenue Offices to finish participating in the anti-trust violations. u

"So I tell you youngsters got a big job. You got the job of saving this country. Of course,

you're getting a lot of help. You got some great young folks. Mohammed Ali, here's a man that gave up ten million dollars a year hustle to do what he believed in and what his conscience told him was right. And the sad thing the only way the old fools can relate with Ali ain't got a damn thing to do with what his convictions is. Now they're saying, 'Well he must have been sincere to have given up all that money.' The only thing that they can relate with was the money. U

"Well, we left you a mess. I hope you understand the situation this country is in and the job you got to do. Yeah, they assassinated Dr. Martin Luther King, 'Oh, they assassinated Dr. King.' They assassinated Bobby Kennedy, and 'Oh, they assassinated Bobby.' They gunned down JFK and we say, 'Oh, they assassinated the President.' But nobody in this country got upset when they assassinated Lincoln Rockwell and Malcolm X. You say America is not against assassination. She just gets up-tight when you kill somebody she likes. U

"98 per cent of everybody in America that got upset over Dr. Martin Luther King being assassinated if George Wallace was assassinated in the morning, they would not be upset. Sad commentary on America. Because you see you youngsters are going to have to create the atmosphere that either this country is going to get upset with all assassinations or she is not supposed to get upset over none. It's just that open and shut. U

"You got a job. The biggest job you have, I do not advocate destroying the capitalistic system, but I say to you young folks you better work

like hell to beat the capitalists into their rightful position, and that is behind the United States Constitution and not in front of it. Because you see as long as the capitalists are in front of the United States Constitution, that means we'll put our emphasis on property rights instead of on human rights. There is a difference. u

"You see, this country is not governed by the United States Constitution. This country do not function under the democratic process. This country is controlled and governed by the capitalists. Oh, Americans came out last year under the constitution and peacefully picketed and peacefully protested for strong gun legislation, and the capitalists who manufacture the guns saw to it that you didn't get strong gun legislation. u

"In a nation so insane we demand you get a prescription to get your medicine, but you don't need one to get your gun. I cannot hit you in the head with my pills and kill you, nor can I injure you by throwing my cough syrup on you. I'm not against Americans having guns. The United States Constitution says all Americans got a right to bear arms. But damn it, I got a right to get well, and if you're going to make me go through them changes to get my medicine, then why don't you make me go through some changes to get my gun? u

"You youngsters got to deal with these capitalists. And the same country that will say to our young kids at 18 years old you're old enough to die, but at 18 years old you're not old enough to vote. And what

RE: RICHARD CLAXTON GREGORY

---

~~SECRET~~

scares me, I meet so many young folks running around saying, 'If I've got to go to war and die at 18, I want the right to vote at 18.' Don't be no damn fool. If you got to die at 18, you better get the right to vote at 17. Because you see, if you can vote at 17 there might not be no war when you get 18. U

"You youngsters got a job, but your job can be so easy if you aim your grievances to the capitalists. Don't get out here and demonstrate under the constitution. Don't nobody give a damn about that. When you get to the point where you upset the capitalists where he's going to lose some money, all these people running around here talking about we're sure doing a lot for the colored. Ain't nobody doing nothing for us. We was out here marching under the Constitution, and we didn't get nothing but kicked in our butt, and shot in our head. When them niggers started burning property down, the capitalists are going to give them what they want. U

"And so I say to you young kids today, don't waste your time out there demonstrating. You want the right to vote at 17 years old? You can get that. Don't be coming down here with no flags, singing no songs. No. If you want the right to vote at 17 years old, you organize all across this country and after you get young folks organized, you go into the record industry, talk to the top men in the record companies. Just tell them point blank, if you do not go to Washington, D. C. and lobby within two months time and get a bill pushed through saying 17-year-olds can vote, we're going to call for a nationwide boycott of buying phonograph records for two years. U

RE: RICHARD CLAXTON GREGORY

---

~~CONFIDENTIAL~~

"What do you think would happen? Would the record companies sit by and let you wipe out a multi-billion dollar a year industry? They would let 16-year-olds vote. You see all them old right wingers, they don't buy no records, and you control the records. And if they buy one, it's one of them old Dirksen albums. U

"Somewhere you youngsters got to get the capitalists behind the United States. Well, don't nobody know that no better than you folks in this state here. All that hell they're raising in Washington, D. C. now because they want to make these fools in the cigarette industry quit advertising cigarettes, do you see anything wrong with telling a man don't show the young kids, don't show the babies these glamorous commercials and by the time they are old enough to find out it causes cancer they're hooked. Is there anything wrong with asking these capitalists to protect the young folks in America? They insist that they are going to have a hell of a fight. U

"And all you cigarette smokers, the one thing you can do is tell these capitalistic cats that don't give a damn about nobody but making a dollar, that if they get that bill stopped it would bar them from advertising cigarettes on television and radio where them little kids can see it, tell them you're going to boycott smoking cigarettes. Now, that will affect them. And so I say when you beat the capitalists in their rightful position which is behind the Constitution, that's when this country will respect human rights in the place of property rights. U

~~CONFIDENTIAL~~

RE: RICHARD CLAXTON GREGORY

"I think it is very evident how the capitalists feel about property rights from the statement Mayor Richard J. Daley made in Chicago when he said, 'Shoot all looters to kill.' You never heard him say shoot all murderers to kill. That deals with a human right. He never said shoot dope pushers to kill. That deals with a human right. He said shoot all looters to kill. And to be honest with you, that's the first time I ever agreed with that fool on anything. Yeah, I hurried up and sent him a telegram. I said, 'Dear Fool, your statement pertaining to shooting all looters to kill, I agree with 100 per cent, if you make one stipulation. Let's first make it retroactive and let's first put the gun in the Indians' hands.' u

"So I say to you tonight, you youngsters got a big job. Keep your eyes on us old fools. Watch us 24 hours a day. And please watch your mama and daddy and ask them a lot of questions because you got to sleep with them. u

"Now, can you imagine somebody knocking on your door at home today and your mother and father saying, 'Who is it?' He says, 'Government inspector.' They say, 'What do you want?' He says, 'We want your dog or your cat.' Say, 'What?' He says, 'Yeah, we just got a bill pushed through. We're sending pets to Vietnam.' I don't have to tell you how much hell your mama and daddy would raise if somebody tried to send your dog to Vietnam, do I? It would be a shoot-out on the front lawn. u

"As funny as that sounds, it is mighty sad when you youngsters got to admit you're living in a

RE: RICHARD CLAXTON GREGORY

day and age when your mama and daddy would raise more hell over the dog going to Vietnam than they would raise over you going to Vietnam. U

"Now maybe if your mama and daddy wasn't so busy trying to make some money, maybe if they stopped for a few minutes and listened to you youngsters, maybe they would understand what you're talking about. Maybe if your mama and daddy would realize there's 152 Senators and Congressmen's sons that have been old enough to get drafted that haven't been drafted yet, maybe they would act a little bit different. U

"You say what you talking about? Maybe if your mama and daddy was aware of the fact that Dean Rusk's son five years ago became old enough to get drafted and should have been to Vietnam 12 times, he ain't never left Washington, D. C. You know how many young kids Dean Rusk has got killed? But not his son. Boy, I wish I was young enough to get an induction notice. Yeah, the day my notice hit the house, I'd fly to Washington, D. C. and handcuff myself to Dean Rusk's boy. And I would get on television and tell all the fools, whatever is wrong with Dean's boy is wrong with me. U

"And all us old fools get upset when you young kids burn them draft cards. I guess you know why. You ever ask yourself which is the most important card in America today, the draft card or the Social Security card? Sure it is, the Social Security card. The Social Security card stays with you all of your life, women and men have Social Security cards. The draft card stays with you a part of your life, only men have draft cards. So beyond the shadow of a doubt

RE: RICHARD CLAXTON GREGORY

the Social Security card is the most important card in America today. Why is it we can all take that Social Security card, which is the most important card in America today, all of us could burn our Social Security cards tonight and wouldn't nobody give a damn. But take a draft card, which is not as important, and burn that tonight, and they would run the army in here on you. You know why. When you young kids burn them draft cards you're saying to us old fools, one day old fool, you're going to get this country in a war we're not going to fight for you, and you're going to have to fight it yourself. And that scares us. But we got news for you youngsters, before we ever have to go fight one of our wars, we'll quit having them. U

"About six months ago I was at the University of Wisconsin, and as I was leaving a young kid rushed to me and said, 'Mr. Gregory, can I talk to you?' I said, 'Yeah, what's the problem?' He said, 'I think I'm having anervous breakdown.' I said, 'Why?' He said, 'Well, I'm a draft resistor,' and I said, 'Did you do what your conscience told you to do?' He said, 'Yessir.' He couldn't have. Any time you make a moral, honest, ethical decision, there is a lot of things that might happen to you like getting killed or going to jail, but you can be damn sure you're not going crazy. He said, 'No it didn't have nothing to do with me being a draft resistor. My mother and father, they don't talk to me no more. They send my mail back. I can't go home.' I said, 'Oh, that's your problem. Well, maybe a nervous breakdown is what you need. Because if you're going to have a reaction to some parents who think with the wisdom of fools, then that's your problem.' He said, 'But it's my

mother and father.' I said, 'Son, let me tell you something because you're really wasting my time now.' I said, 'Then you are aware of the fact that say for instance you didn't have nothing to do with being a draft resistor. Say right here at the University of Wisconsin at 3 o'clock in the morning you took 40 sticks of dynamite and threw it into the girls' dormitory and leveled it to the ground and killed every girl in it, the minute your mama and daddy found out you did it, they would be flying down here, seeing you in jail, hugging you, saying we don't know what got into our boy. And they'd get you the best lawyer money could buy and they'd raise the bond money.' u

"You know, it is sad when you're living in a day and age that when your mama and daddy could rally behind you faster if you committed murder than if you decided you wasn't going to be a murderer. Hmmm. u

"Yeah, you youngsters got a job. You got a lot of questions to ask. You got to ask these questions loud and ask them clear. And one of the big questions you youngsters got to ask today is simple, that if democracy is as good as we tell you it is, then why in the hell are we running all over the world trying to ram it down people's throat with a gun? And the day you young folks work to make this democracy work right, for the first time that's the day we can bring the guns home. Because, you see, anything good you don't have to force on people, they will steal it. u

"Let me say to you right now, which will probably be the most important thing I say to you all evening, and I hope you young folks at this or any other institution do not make the same mistake that us old fools made when it was our turn to go through these institutions. You see, we were so busy trying to learn how to make a living when we was in college, we forgot to learn how to live. And I hope you don't make that mistake, because if you do, you're in trouble. If you waste your four years at this or any other institution, just learning how to make a living, you haven't got a guarantee you can get a job and keep one when you get out. But if you spend these four beautiful years at this or any other institution learning how to live, I guarantee you making a living will be the easiest thing for you to do on the face of this earth, bar none. u

"Yes, I meet so many people who say well, I'd like to go away to school to learn how to be somebody. Hell, you was born somebody. And if you go to let somebody teach you how to be somebody else, that makes you two people. Check out what Sigmund Freud says happens to you when you become two folks. And why you got to go away to college for four years and spend top dollars for somebody to teach you how to be crazy? u

"Oh, I meet people that say oh, you got to go to school so you can get a job. You got to eat. Eating ain't no big thing if you know how to live. The gorilla proved that. The gorilla eats more in one meal than you eat in six weeks. Have you ever known one of them to go to college? Have you ever bumped into a gorilla in a supermarket with you? And when u

~~CONFIDENTIAL~~

RE: RICHARD CLAXTON GREGORY

was the last time you ever read where a gorilla starved to death? You would be surprised how strong nature is. You would be surprised how strong you'll be if you learn how to live. U

"Let me give you an example. Raise your hand in here. How many of you in this room tonight understand Chinese? One, two, three, four. Four. All right. That's what I wanted to prove. Four people in this huge gathering understand Chinese. What I'm trying to get at, you are aware of the fact that right at this moment dogs in China do understand Chinese, don't you? Never been to college. Dogs in Russia understand Russian. Dogs in Germany understand German. Do you? I say that's the way true nature, you are born with all the wisdom you need to get to your guts and find your way out of one of these tricks and find human dignity. Don't nobody have to teach you that. U

"So I say to you youngsters, as you work to change the system, please let your number one point of order be these colleges and universities across this country. Please change them immediately. You see that they will go out 100 per cent to educate instead of indoctrinate because there is a difference. U

"98 per cent of all the colleges in America do not know how to educate but they do know how to indoctrinate. Oh, we're so busy programming you youngsters when you come to class. We give you the book. Here is the class assignment. Now, that's not where we programmed you. No, we are hipper than that. After you read the book, we give you the test, U

RE: RICHARD CLAXTON GREGORY

and if you didn't read the book the way we want you to read the book, you cannot pass the test. That's programming. And the system do not want you to be educated. They want you to be indoctrinated. That's why we got to keep records, to know how the indoctrination is coming along. u

"Oh, you can go through your whole semester and five hours before you go in and take a test, you can cram and make an A, but if there was no test you would have to cram for four years. u

"That's why young folks in America will stoop to some of the lowest depths in their life to steal the test because you know if you get the test you don't need the book. We don't grade the book, we grade the test. With that old funny looking thing we call the transcript. When are you going to get hip to the transcript, baby. The transcript ain't nothing but a pistol we hold over your head. Transcript ain't nothing but a threat to see to it you take your indoctrination well. That transcript don't mean a thing to nobody else but to the system and to you. u

"And if you think this transcript is important, you leave this or any other institution and ten years from now meet somebody you want to marry and see if they ever want to see your transcript. You think this transcript is important. u

"Anything you ever get ready to do in life that counts, see if you need it. Get ready to raise a family and see if you have to take that transcript to u

bed with you. If you really want to have some fun, what do you think would happen if you finished with this institution and five years from now the administration building burned down with all the transcripts in it. Do you think you would have to go back to school? That transcript ain't no good to nobody but these fools. U

"So you got a big, big job ahead of you, and that's what black folks is talking about on these college campuses and universities today. Ain't none of them got nothing to do with you white folks. Yeah, we're past worrying about white folks in this country five years ago. We learned about this institutionalized racism that ain't got a damn thing to do with you because if all the white folks in America tonight disappeared and left nobody down here but Indians, Mexicans, Puerto Ricans, and us, and if we still have to take these same old rides that you take today, we still couldn't get in these universities. U

"So, it's got nothing to do with you. It is this racist system. A system that tells us they cannot find qualified black kids, but they can go out and find all the niggers, all the Americans they want. Something is wrong with a system like that. U

"So we say we're tired of this racist structure. That's what we're interested in today. Oh, two years ago if I had went around the country speaking saying to solve our problem we need black capitalism, all the liberal minded thinking people would have said I was a racist. That old white boy, Tricky Dick, talked about black capitalism, and nobody associates racism with that. They think it is a good thing because he is

a white boy. If the black folks got together and said we want to organize all the pullman porters in America and we want you to know that black folks don't want to drive your trains, black folks don't want to collect your tickets. We just want to wait on you. White folks would say that's racism. So we can't drive your trains today, and we can't pick up your tickets today, but that's okay because the institution said that. But the minute we say it you want to get up-tight. U

"I want to run around talking about reverse racism. You ever look at that television show, 'The Dating Game'? Every time they got a black cat on it, they got three black women and nobody says that's racism because that's your establishment doing it. But if I went on the show and said the only way I'll work the show is you don't have, you can't have no white women and just three black women, you would want to say I'm a racist. U

"We're saying we're tired of this institutionalized racism. Oh, everybody in America is upset over the crime in Washington, D. C. because that's niggers. You say we need more law. You don't need nothing in Washington, D. C. but some home rule. That's all you need in Washington, D. C. But everybody is upset about those niggers in Washington, D. C., but in the 'New York Times' last week it said the estimate follows a report Monday that thefts of the garment industry alone runs as high as \$50,300,000.00 a day, but you ain't upset over that because that's them white boys taking that. U

~~CONFIDENTIAL~~

RE: RICHARD CLAXTON GREGORY

---

"And then you want to run around and make yourself believe that black folks at birth have a criminal tendency, we're born with that. Now let me tell you something, all the money niggers steal in America in one year wouldn't supply the recreation money for that syndicate-controlled Italian Mafia. U

"So we say we're tired of this institutionalized racism. And this is why black folks today are saying teach black history at these white institutions because if you knew my history instead of what your mama and daddy told you about me, you would realize that I'm far from being your nigger and your mama comes closer to being your nigger than me. We're saying we want black studies because we all at once want to find out who we are. Since we decided we ain't no nigger, we want to know who we are. U

"And so I say to you youngsters you got a big job. Keep your eyes open, watch. You would be surprised how much you can learn just from watching. I know I learned a lot. That's why any time you see me I always got my Bible with me. I don't never go nowhere without my Bible. I don't read it. Well, there was a time when I didn't even take it with me. U

"Tell you I got hip. I realized one day the missionaries went to Africa, and when the missionaries arrived in Africa, the Africans had all the land and the missionaries had all the Bibles. And when the missionaries left, the Africans had all the Bibles and the missionaries had all the land. So any time you see me I got my Bible with me. Yeah, one day I'm going in

the Hilton Hotel. That's right, when I leave old Hilton's going to have the Bible and I'm going to have the big ring with the keys on it. u

"Oh, I can't tell you how much I've learned from white Christians. I never will forget when I met my first white Christian. I was a little bitty kid, eight years old, walking down the street, minding my own business, and I heard a voice say, 'Come here boy.' That's how come I knew he was a white Christian. I said, 'Yessir, Mr. White Christian.' He said, 'Boy what is it you wants to do when you grow up?' I said, 'Mr. White Christian, when I grow up I want to go to Africa and visit my ancestors.' He said, 'Boy, why do you want to go to Africa and visit them savages?' I said, 'Mr. White Christian, why do you call my ancestors savages?' He said, 'Because they are. They're cannibals.' I said, 'What's a cannibal?' He said, 'They eat people.' I said, 'Ooh, ooh, real live human beings? They cook them?' u

"That's not funny. It's a horrible thing to find out your folks eat folks. And I had to take the white Christian's word for it because white Christians ain't going to lie to us. Ha, ha, ha. u

"We got through and I took his word for it because two weeks later I got it confirmed. I went to see my first Tarzan movie and I walked in the middle of the movie, and they was cooking them, baby. I didn't know them wasn't real live Africans and were some old California niggers. How did I know? u

"Well, it upset me. I never will forget that Sunday. I rushed out of the movie and ran to the first

church I came to, which happened to be a white Christian church, and I fell on my knees and prayed to that white Christian God, 'Oh, God, please forgive my ancestors, those savage cannibals. Please oh white Christian God, forgive them.' And the white Christian minister heard my prayer. He walked up from the back row and he was deeply touched because he had just lost three missionaries. The white Christian, I knew he was touched because he walked to where I was kneeling at the altar, and he reached down and he took his hand, and he put it on my head and he rubbed it. u

"He spoke those great words of wisdom, I'll never forget. He said, 'Boy, I didn't know a black boy had that much sense to pray for them savage cannibals.' I said, 'Yessir, Mr. White Christian Minister. I pray for them every chance I gets.' And I got ready to leave, and the minister was so touched he grabbed me and he said, 'Any black boy got this much sense to pray for them cannibals, I want you to stay here and share Communion with us.' I said, 'Oh, no, I just wanted to pray for them cannibals, them ancestors of mine.' I said, 'What's Communion?' He said, 'Get on your knees boy, open your mouth. This is his body and this is his blood.' u

"Yeah, I can't tell you how much I've learned from the white Christians. Now I pray for all the cannibals, even those who become cannibals by proxy. u

"Let me ask you youngsters to do me a favor, one day this week if you don't mind. One day this week stop by the library and copy down the Declaration of Independence. Now don't read it, just copy it. u

You know how to copy without reading, right? Right. Sure you do. Now here's the favor I want you to do for me. I want you to carry your Declaration of Independence with you 24 hours a day. Never be caught without it. Now the favor I want you to do for me, when the riot season opens up again. This is the only country that even programmed us. We got a riot season. We supposed to riot July through August. And last year we didn't show and the whole country got up-tight. Yeah, everybody was up here wondering where were they, where were they. They asked George Wallace how come you think they didn't riot. He said, 'Ah, you know them niggers is lazy and shiftless. They was just tired.' U

"Well, I tell you where we were last riot season, we got tired of stealing all them bad no-good products. So last July through August we decided to go underground and study the Consumer Reports. So when the riot season opens up this year, we ain't stealing no more Motorolas baby. U

"Let me tell you the favor I'd like for you to do for me with your Declaration of Independence when the riot season opens up. I want you to go home and get with your parents. And you black kids too, because you know you got some black folks in them homes that think more corrupt and more degenerate than the Ku Klux Klan could ever think. You know what I'm talking about, don't you? U

"I want all y'all to go home and get your television and put it in the middle of the room. And turn on the evening news because they going to show them riots. Oh, they show them niggers burning

and looting and socking it to the towns. But turn on Huntley and Brinkley because they get close-ups. Yeah, no ABC and CBS, they film the riots, but they do it from a helicopter, see. But NBC gets such close-ups you can recognize your kinfolks. 'Looky there, there's Uncle Dudlow. I didn't know he was in Detroit.' And after you get NBC on, here's the favor I want you to do for me. I want you to go upstairs and get your parents and bring them down and put them in front of the television set and let them look at them niggers burn the town. U

"And just listen to them. I don't have to tell you, you've heard them before. All the niggers need is . . . I don't know what's wrong with them folks. Just listen to them. And after you have heard enough of it, then do me my favor. I want you to go and turn the sound off the television so they can't hear nothing. Just look at them black folks burning. And at that point I want you to take out your Declaration of Independence and I want you to get way back behind them fools while they're watching them niggers burn the towns, and I want you to read your Declaration of Independence as loud as you can read it, and maybe for the first time they'll understand what they're looking at. 'We hold these truths to be self-evident that all men are created equal and endowed by the Creator with certain unalienable rights. That when these rights are destroyed over long periods of time, it is your duty to destroy or abolish that government.' Hmmm. U

"Now I know them old fools is going to assume that was some message Malcolm X left for Rap Brown, but I'm sure with a minimum amount of persuasion you will be able to teach them that that was the beloved Declaration

of Independence, that one with the mistake on it.  
That one where they forgot to write 'for white only.' U

"Let me say something to you. There is something about this Declaration of Independence that if you white folks don't put 'for white only' on it, when we read it in the black ghetto it kind of reads like PAINE and JEFFERSON and WASHINGTON and them cats meant this to be for all Americans. We didn't know that it's just for you. For when it says after long periods of injustice it is your duty, we think that just one cat should be ahead of us after long periods. That's the Indian first and us second. And we can't understand how you would write the Declaration of Independence and then send it to my black ghetto and then when I start doing what you told me, I'm supposed to do, you wants to call me a looter and a hoodlum. So we suggest to you to please change this and put 'for white only' on it. U

"And then the second thing you should do immediately is go and get this old white boy American history book out of my black ghetto. Because if you're sick enough to believe you're going to send me this old filthy book down there telling me you white folks landed at the Plymouth Rock and shot and murdered your way all the way across to California, and then think I'm going to behave myself, are you serious? U

"Are you really sick enough to believe you can still draft niggers into the army and send them to Fort Benning, Georgia and teach them how to be guerillas and then they go over the world killing folks to liberate foreigners, then they're going to come back home and kill you to liberate their mammy. You're out of your minds. U

RE: RICHARD CLAXTON GREGORY

"You see you ain't got niggers like you used to have. You could turn them on and turn off. No, I say maybe you all should read this dangerous book you put in my ghetto. Now, that white boy GEORGE WASHINGTON, he didn't make this history book because he was a good preacher. He led a good army and he whooped some British. Yeah, have you ever read this thing or are we the only ones that read it? 'Give me liberty or give me death.' You all believe Rap Brown said that, don't you? What did Stokely say? Here it is, 'Don't shoot until you see the whites . . . of their eyes.' U

"Do you really believe you could put this book in my ghetto and then tell me to respect the police? I see in the book here you didn't respect them. It says right here in the early days when the British was the police, a white boy by the name of Paul Revere rode through the white community and said, 'Get a gun white folks, the police is coming.' No, you should really get this out of my ghetto immediately because you know you just ain't dealing with this type of man no more. I'm going to turn to this history book with pride and read about where you white folks got on a foreigner's ship and took all their tea that didn't belong to you and threw it in the bay. Yeah, and then go to get upset with a nigger when a nigger steals a television. Well, if you're going to steal some tea and call that a Boston Tea Party, then when I get the television set, just call that a Saturday night fish fry and we're even. U

~~CONFIDENTIAL~~

RE: RICHARD CLAXTON GREGORY

~~CONFIDENTIAL~~

"But I say to you youngsters you got a big job. Briefly, before I leave you tonight, let me discuss with you black attitudes in America today. Lord knows we got some attitudes. Thank God, it's about time. U

"Now, I'm going to be honest with you. We don't know what it is we're doing and been doing for the last two years that's alienating white folks like it is. But we got news for you, whatever it is we're doing that is alienating white America like we've alienated, we're going to keep on doing it. Because we know the more upset white folks get and the more aggravated they get, they ain't mentioning niggers no more. So whatever it is we're doing, baby, it sure is making it safe. There was the \_\_\_\_\_ and singing them old songs and cruelty where they was shooting niggers, and beating up niggers, and all at once it is just so safe to fly through America all at once. We don't know what it is. Maybe we finally learned the nature of the beast. You see a cat take a double-barreled shotgun and go hunting for a rabbit, he calls that sport. But you couldn't pay him to go gorilla hunting. Anything that might hurt him ain't sport no more. U

"And so we say that black folks have got an attitude today because we're tired of these insults. Now we're not saying white America got to stop insulting us. We can't ever stop you from doing that. We just saying that from here on in when white America insults us, expect us to react to the insults. That's all, without getting all upset. U

"Do you know what an insult it is for white Americans to tell a black American to be non-violent? The only

RE: RICHARD CLAXTON GREGORY

country in the history of the world that's dropped an atom bomb on another living human being is asking us to be non-violent? The only country that every morning goes out and drops napalm on women and kids is asking us to be non-violent? u

"Nobody knows any better than me because I'm so committed to non-violence that I had to become a vegetarian because I believed 'Thou Shalt Not Kill' covers animals too. That's my hang-up. I do not go around preaching non-violence. I live it. I would never knock a steak off your plate. I'd never let you put a pork chop on mine. I'd never take no dynamite out of your hand. I'd never let you take my picket sign out of mine. But as non-violent as I am, it sure kind of insults me to have white America ask black folks to be non-violent. She owns the mightiest Army, the mightiest Navy, the mightiest Air Force, owns all the police, state police, federal police, local police, sheriff's police, CIA, FBI, and she comes up with all the guns and she ain't got a damn thing and she says, 'Be non-violent boys.' And we say go to Hell. u

"And we say to white America if you freak out for non-violence and say you believe you freak out for non-violence, prove it to us. And by that we don't mean don't do nothing for us because we proved we would burn towns down to the ground. But since you love non-violence, the way you think you love non-violence, prove it. Go up there on that reservation and get my Indian brother off because you can't be no more non-violent than he has been for the last 75 years. u

RE: RICHARD CLAXTON GREGORY

~~CONFIDENTIAL~~

"You see we're in Vietnam tonight with a half a million violent American boys to guarantee that foreigner a better way of life than you want to guarantee your own Indian brother who you stole this country from. You got to be out of your minds. We're hip to you, baby. And we're saying that there's not another man on the face of this earth that's been as non-violent as your Indian brother and before you ever utter the word non-violent again go get him off that reservation. Before you ever act like you're scared of separatism. We're always talking about separatism. As long as you got that Indian on that reservation and you act like you don't want separatism. U

"Do you know what that Indian would have to do to get his thing going tomorrow? He can get it. He's got to realize he is dealing with such an insane nation that until you make her peep up through the muzzle of that gun, she's going to keep you a nigger. If that Indian gets on the \_\_\_\_\_ of Arizona tomorrow morning and chase white folks driving down the expressway and start shooting at them and yelling Red Power, Whitey go home. And when that Indian says go home, he's talking about the big trip, baby. U

"Ah, just as soon as that Indian gets to raising hell tomorrow, the whole country would be upset. I can hear it now, 'them stinking reds.' And Sunday you turn on television, 'Meet The Press,' and they'll be interviewing some old Uncle Tom-Tom Indian that'll be saying everything all the fools want to hear. I can just hear him now. Yeah, 'Me like a-heap-a U

reservation. Problem come from them young bucks. Them Stokely Running Horses and Rap Whiteclouds.' And all the fools will go to bed happy, believing the Indian don't want nothing but all he's got to do is just keep coming off that reservation and socking it to you, baby. And get him some of these blonde scalps and start raping some of these white women. Oh, you'd get upset then. u

"Yeah, that Indian get to raising hell and this summer you turn on television, you'll see as many Indians on television this year as you saw black folks last summer. Yes, tune in every Thursday night, one-hour special, seven-part series, 'Meet Your Indian Brother,' sponsored by Xerox. No commercials. Oh, that Indian raise enough hell this year, next year you'll have an Indian here talking to you.' u

"You youngsters as you move to straighten up the system, you got to create an atmosphere that a man do not have to get violent to get a redress of grievances, that a man do not have to get sassy and nasty. u

"It is sad I have to sit here and admit to you young folks that if the Indian raised hell you would know all about him. You would know that the highest form of suicide rate among young people on the face of this earth does not happen in Moscow, Russia like you would like to believe, but it happens in you Indian Reservation. You would find out that the highest form of tuberculosis among any minority group on the face of this earth does not happen in Red China, but upon your Indian Reservation. Why are you trying to stop

RE: RICHARD CLAXTON GREGORY

---

Communism from spreading in Southeast Asia? Why don't you keep yourself from spreading on that Indian Reservation? Or do Communists have to be misusing Indians before you get concerned? u

"Yeah, and the Bureau of Indian Affairs, they take care of Indian business. Is that a joke? That's like paying the Ku Klux Klan to implement the civil rights bill. The Bureau of Indian Affairs, you know the money it takes to run the Bureau of Indian Affairs? If we wiped the Bureau of Indian Affairs out overnight, the money it takes to run the Bureau, each Indian in America could get \$4,300 a year apiece. But you don't know that now because the Indian has been so peaceful. u

"I hope you youngsters will create an atmosphere in this country that somewhere down the line America will become as ashamed of injustices at home as she is afraid of Communism abroad. This would be a mighty groovy country then. u

"Your Mexican brothers asked you don't eat no California table grapes. Did you listen to them? Have you stopped? Because if you don't eat them California table grapes, he's going to get that human dignity. If you keep eating them, he's still going to get them, only next year he is going to have to blow up the grape vineyards. Then everybody will be saying, 'Why are those Mexicans so violent?' Because you didn't help them be non-violent when they asked you to. u

RE: RICHARD CLAXTON GREGORY

"So, in leaving you tonight I say that black folks are tired of these insults. Our people ask you now, how come y'all don't want to be called colored? How come you don't want to be called Negro? Yeah, we're saying just call us black. We hope that don't put you in an imposition. But we notice you don't play games with nobody else. We're saying you can't play games with us any more. That's what we're saying. u

"Yeah, a Jew leaves Israel tonight to come to my country. He was a Jew in Israel and he's still a Jew when he gets here. An Italian leaves Italy to come to my country. He was an Italian over there and after he comes all the way across the Atlantic he still stays an Italian. He is an Italian over here. The Irish left Ireland to come to America. Yeah, they was Irishmen over there and they stayed Irishmen over here. I mean you notice you don't play no games with yourself. Why is it we left Africa Africans and when we got here we had to be niggers, and coons, and colored. Don't play no more games with us. That's what we're saying. Just call us plain old black. If you want to play some games, start changing your thing. u

"We're tired of these insults. Twenty and thirty years ago, oh, you had a good thing going then. Because twenty and thirty years ago black folks in America had an empty stomach. Today black folks in America have a full stomach but a hungry mind, and a hungry mind will not tolerate the same thing an empty stomach did. Empty stomachs deal on smell and hungry minds deal on sound. And all at once this country don't sound right to us any more. u

"Four years ago three white boys burned up their draft cards and within two weeks the Senate and Congress had passed an anti-draft card burning bill. We haven't been able to get the Senate and Congress to pass an anti-lynching bill in 100 years. My country just told me she thinks more of a piece of cardboard than she thinks of my black mammy. I'll bring her to her knees for that. u

"If I was in Vietnam tonight and got killed by Viet Cong, this country would give my black wife \$10,000 and she couldn't take that money and buy a house in any neighborhood she wanted to buy one in. Well, I got killed shooting at the wrong folks. u

"And we're saying we are tired of these insults. Who in the hell are you to tell me I got to get a fair housing bill to live anywhere in my own country? That old red cracker Russian broad, Stalin's daughter, a known Communist and a known Russian, you didn't make her get no fair housing bill to live anywhere she wanted to live in my country. Why do I have to get one? u

"All these Russian exchange students that come over here, they don't want to be your citizens. Four years from now they'll go back to Moscow, Russia. And in the next eight years, they might be dropping a bomb on your mama's house. You don't make them Russians get no fair housing bill to live anywhere they want to live in these old racist college towns. Why do I need one? u

"So we're saying we're tired of these insults. We cannot stop America from insulting us. But we just want her to know we're reacting to them. There's a whole lot of white folks in America that believe a nigger is the stinkiest, smelliest thing that ever walked the face of this earth. And that's your hang-up. I'm not here to convince you niggers don't stink, but I say to you, you do your own research. Yes, check the records at the cosmetics industry and see how many multi-millions of dollars a year you white folks spend for deoderant. And check them deoderant commercials on television and see if you ever see a black armpit. And then figure it out for yourself. If niggers is doing all the stinking and white folks is buying all the deoderant, who really stinks in my country? u

"Oh, it's a whole lot of white folks that believes that a black man is inferior to them, and there is a lot of people that would tell you because I'm black, I'm inferior to him because he's white. You know the interesting thing about that is the same cat that believes because I'm black I'm inferior to him, he would be the first one to tell you that if I went to bed with a Japanese woman tonight and gave her a baby, the baby is going to be colored. If I go to bed with a Chinese woman, a Jewish woman, an Italian woman, I can take any woman on the face of this earth to bed and get her a baby, and the baby is going to be me. My sister can go to bed with any man on the face of this earth and get a baby, and the baby is going to be her. Is that inferior stock to you? u

~~CONFIDENTIAL~~

"So we're saying we're tired of these insults. And now people tell us education is our problem. That ain't nothing but a cheap whitey cop-out. Why you got a half a million American soldiers in Vietnam tonight? Have you ever heard one white or black American ever question that Vietnamese educational standard? But you want to free him. And when you do question my education standard, question it right. That's why we beg you to teach my history so you'll know what bag I came out of. Education is my problem. U

"Are you aware how many millions of people would be dead today on the face of this earth if it were not for blood plasma? Are you aware of the fact that a black man in America invented blood plasma by the name of Charlie Drew? Don't take my word for it. Check it out in your library. Are you also aware of the fact that Charlie Drew bled to death in an Atlanta, Georgia hospital waiting room after an automobile accident because they didn't accept niggers. Education is my problem. The man with the wisdom and the knowledge and the educational genius to give blood plasma to the world died from the lack of his own invention because his face was black. U

"So we're saying we're tired of these insults. Now people tell us why don't you quit that marching and go back to your ghetto and bring your brother up by his boot straps. Why don't you give them some boots with some zippers on them? U

"And I'll be the first to admit to you that black women in America have 20 per cent illegitimate babies. We ain't going to deny that because we've

~~CONFIDENTIAL~~

RE: RICHARD CLAXTON GREGORY

had fun in the ghetto, baby. And white women in America have 2 per cent illegitimacy. And we're just so damn sick and tired of your attitude because your white sister has 2 per cent illegitimacy and my black sister has 20 per cent illegitimacy. You want to kind of make people think that makes you better than me. And it don't baby, because if we ever get our hands on you white folks abortion credit card, we would show you how to bring a rate down, too. U

"We're tired of people asking us why are you colored folks having all them black babies in the ghetto. You can't take care of them. You're going to end up on relief. We know it. The only thing we say is wrong with your relief, there ain't enough of it. And when words like relief and welfare, when those kind of words upset you, change it and call it foreign aid. Or call it what you call that money you give them farmers in North Carolina. You don't call it free money. You call it subsidy. Now you think you're going to pay a farmer billions of dollars a year not to plant and then don't want to pay my sister after she plants? U

"And as far as all them babies we're having in the black ghetto, we can't take care of, we'll make a deal with you. The day this system learns how to hire black boys and give us good jobs like it gives you white boys so we can afford all the whores and prostitutes that you can afford, we'll quit having all them babies at home too, but not until then. And I don't have to ask you about that whore because it is my sister, and she do talk to me when she comes home, so we know what you're doing. U

-RE: RICHARD CLAXTON GREGORY

"So we say we're tired of these insults. And when I stop and think that a German killed my daddy during World War II. A German killed my daddy in 1942. I was ten years old. I'm 37 years old now, and that means I would have gone 27 years without a daddy. That's not no insult because when daddys go to war, they go to kill or be killed. The insult is the same German that could have killed my daddy in 1942 and made me go 27 years without a daddy, that same German tonight can come to my daddy's country and live in a neighborhood my daddy's boy can't live in. Do you really understand what we're talking about? u

"And we're saying before we ever sit by again and let you treat your enemy better than you treat your citizens, we'll burn this country down to the ground. u

"And so we say tonight, we're tired of these insults. We're tired of civil rights legislation. We don't want no rights, no civil rights. We want our rights the same way you get yours, the United States Constitution. We would like for you to give us one more bill before we quit playing with us though, an honest white folks bill. Now don't none of you get up-tight because that ain't got nothing to do with white folks. As a matter of fact, we'll give it a good name. We'll call it the 'Concerned Honky Law.' u

"I'll bet that would go over big in the ghetto. And it is going to be a simple bill that will just read all five-year-olds, black male baby boys, that don't have nothing to do with white folks, don't even cover my sisters. All five-year-old black, male, baby boys will have to go to a government camp for one year from the age of five to six. And we will let this law stipulate

RE: RICHARD CLAXTON GREGORY

that they will be able to sleep for eight hours a day and for the other sixteen hours a day, the government will teach them. And that's where the honest white folks come in. After those little black boys sleep for eight hours every day for a year, you will teach them for sixteen hours a day from the age of five to six, nigger, when you grow up, don't ever fool with a white lady. Don't ever date one. u

"You know, let me say something to you before I split. We can't believe that nothing upsets you no more than to see a nigger with a white woman and you don't want to talk about your number one hang-up. Who in the hell do you think you are? One day if you ever get up enough manhood and courage to talk about your number one hang-up, you might find out there's something you're doing to make me want her. u

"Hell, niggers wasn't born wanting your white woman. Hell, your new automobiles come out and you can't advertise them without using that white woman, and you know I'm going to get one of them new cars, don't you? So I feel I need her to make my gears shift right. u

"I'd be minding my own business, reading my magazine, and there's that white woman with that bottle of Pepsi-cola, saying, 'Thirsty, have a Pepsi.' Yeah, I'll have a pepsi and you too, you old white broad. u

"I go home into my black ghetto and walk into my black house and go into my black living room and get with my black wife and my black kids and turn on

my black television, and there's your white sister running across there half naked in that old Playtex living bra, screaming, 'Buy a Playtex.' Yes, I'll take the Playtex living bra for my old lady and I'll take you for me. Are you out of your mind? u

"I went to my first movie when I was four years old. My mind was pure, honest, you hadn't programmed it. I hadn't ever seen nobody make love in my life. Four years old. Who did I see making love? Ava Gardner and Alan Ladd. I didn't know what they was doing, but at four years old I knew I was going to do it one day. u

"And I went to the movie every night, not to see the white lady. I went to the movie because in my hometown you could get in the movie free until you was twelve years old. I never will forget, I was eight years old and had been going to a movie every night for four years, looking at nothing make love but that white lady. I never will forget that night I was eight years old and Ava Gardner and Alan Ladd was doing their thing, baby. I nudged my friend and said, 'Ooh, ooh, looky there. I'm sure going to get me one of them when I grow up.' He said, 'Which one, him or her?' I said, 'I don't know, I think I'll try them both.' u

"Well, I got news for you tonight. I'm grown and I'm going to get me a white lady. The madder it makes you, the more of them broads I'm going to get me. And I hope it makes you so damn mad that you'll quit programming my black kids and show them some black ladies making love in the movie. u

~~CONFIDENTIAL~~

RE: RICHARD CLAXTON GREGORY

Show them some black ladies advertising on television. Show them some black ladies holding that bottle of pepsi-cola. But do you really think any time you get ready to sell me your old no-good piece of product you're going to put it in your sister's hand and all I'm going to do is take that and send it back to you? No, I'm grabbing her at the wrists. u

"So quit programming my black kids and you might not never worry about problems with your old lady. But the mistake you made with me, the only black woman you ever showed me in the movie was Aunt Jemima and Beulah. And you should have known damn good and well I ain't never ever, ever, ever wanted to make love to Beulah. u

"So as we leave you tonight, I say to you youngsters you got a big job. Keep your eyes open wide. Read a lot, think a lot, and just remember that Kerner Report that says the problem in the black ghettos can be solved with 80 billion dollars. And as I leave you tonight, I hope you don't bring no 80 billion dollars down to my ghetto. That ain't going to do it. If you want to solve the problems in the black ghetto, you're going to have to do something first that ain't going to cost you one nickel as far as black folks are concerned. And that is you're going to have to create an atmosphere in America where for the first time in America black folks will trust white folks. u

"And how will you do that? Simple. You get up on that Indian Reservation and cut my red brother loose. You free my Mexican brother. You give my Puerto Rican brother his constitutional rights,

~~CONFIDENTIAL~~

and last but not least, because my Jewish brother plays a lot of games with himself, but he should paint his face as black as mine and see what you Gentiles say about him every day in the week, and he'll realize he is in the same bag with the rest of us. So what we're saying short, simple, and sweet, you're going to free my Jewish brother, my Mexican brother, my Puerto Rican brother, my Indian brother. And when we see this we will look around and say to my white brother for the first time, I trust you. Come into my ghetto and together we'll solve our problems. u

"If you think you're going to solve our problems without freeing those other folks, we say to you take your 80 billion dollars and buy yourself some of the biggest guns money can buy, because you're damn sure going to need them. u

"And so let me say thanks to those of you that worked on my presidential campaign and those of you that voted for me. I stayed up late election night waiting on Durham and Raleigh to come through and put me over, but y'all blew it. But I don't know how many of you looked at the election returns that night. About 3 o'clock in the morning the Nixon people said he's gone to bed. You know that was a lie. The Humphrey people said he had been asleep for two hours. That was a lie. But then I was the only one that was left up. So, at 3:30 that morning I held a press conference and declared myself the independent write-in President of the United States in exile and wasn't nobody up to tell me I couldn't do it. u

RE: RICHARD CLAXTON GREGORY

"So March 4 in Washington, D. C. is going to be the inauguration and everybody is invited. We're opening up an office, going to paint it black and call at the 'Black House.' u

"And for the next four years we're going to work with the worldwide food program and see if we can wipe out hunger in America and then around the world. You see the groovy thing about declaring yourself the President, be it legal or illegal, that gives you the right to muster an army. And so on your way out you will find my brothers over there with some plain post cards with already stamped on it. If you want to join the food army to help wipe hunger out in America, I urge you to fill out one of these cards and drop it in the mailbox. You'll see some envelopes if you want to get with the people who sending money to feed people. Now, we ain't feeding them nothing but navy beans. Navy beans is 100 per cent protein. Navy beans sell for \$8 for 100 pounds. And we take a 100-pound sack of navy beans to somebody's house they will have enough protein for six months. So if you will look in that bag, there will be some envelopes outside the door. I urge you if you want to get involved or your friends, take enough for your friends and everybody. u

"Again let me say to you youngsters thank you so very much this evening and may God bless you and may nature have a lot of fun with you. Thank you." u

On February 14, 1969, CE T-1 advised that on the evening of February 13, 1969 subject spoke at Moore Gymnasium, A and T State University, Greensboro, North Carolina. According to T-1, GREGORY's comments were as follows: ~~(S)~~ (U)

There was a musical prelude and then an invocation by Reverend CLEO M. MC COY, Director of the Chapel. The speaker was introduced by Mr. RAY JOHNSON, who is the Chairman of the Cultural Affairs Committee. The address was given by Mr. DICK GREGORY, who is an author, commentator, and comedian. U

Mr. GREGORY started his lecture off by telling a few jokes. Then he was discussing the 18 billion dollars that was needed to get the Americans out of the ghettos and what the blacks should do was take that money and buy all of the guns they could. He said, "Niggers, get your guns." Also, he said that one goes to school to get an education but he wants to know what good is an education when one can't get the same jobs as his white peers can with that same education. An education is not a necessity these days. He says that nature takes care of itself. An example he used was that a gorilla does not have an education. However, he eats. He said that a gorilla consumes in one meal about as much as the average person eats in six months. However, the gorilla does not have an education. U

Then he asked the audience how many there understood Chinese. One person raised his hand. He said the dogs in China could understand Chinese, dogs in Germany could understand German, so nature takes care of itself. He also instructed all students to go to the library and copy down the Declaration of Independence. He said, "Don't read it, just copy it." Then he said that when rioting starts again this summer and the damn fools are sitting around looking at T.V. and talking about those damn niggers and stuff, what they are doing now, he said

~~CONFIDENTIAL~~

RE: RICHARD CLAXTON GREGORY

---

they were damn fools, old parents who don't understand what's going on. When they are sitting around the television watching the niggers riot and loot, he said turn the volume down, leave the picture on the television, and then get in the back of the room and read as loud and clear as you can the Declaration of Independence. Maybe then they will understand why they are rioting. He also said that his parents taught him when he came of a certain age that he would be called a nigger. They told him to accept it and go on. He and his wife have seven black babies and he said, "Do you think we're teaching them that? No!" He just hoped when their kids came of age, that the people started calling them niggers, they would do their own thing. u

He said that the crackers on T.V., the movies, made him sick. He said that when he was four years old, he went to a movie for the first time with his parents and he saw Humphrey Bogart and somebody making love. He said that he did not understand, but however, from the day he was four years old until he got around twelve, he would go to the movies because in the winter time it was warmer than his own home. He would go to the movies in the summer time because it was cooler than his own home. He said he would go to the movies and see all these white people making love. So when he was about eight years old, he and a friend went to a movie and he told his friend, "Man, when I get big, I'm going to get me one of these things." And the friend said, "What the lady or the man?" And he said, "Man, I think I'll try both of them." All through his speech, he was cracking jokes like that. u

Another thing he was talking about was how white people on television are advertising different things and that they thought because a blue-eyed blonde lady was advertising that a black man would instantly buy it simply because she was advertising it. He thought this was wrong and you should buy

RE: RICHARD CLAXTON GREGORY

only the products you believed in not just because some blue-eyed lady was advertising a car. He said that people think that the black man thinks just because a blue-eyed, blonde lady was advertising it, it will maybe make the gears change better or something of that nature. He said also that because of all the people in the world starving, he and his wife have decided to eat three days of the week and the other four days just drink water. So perhaps when he and his wife put themselves in that position, that they could come up with some kind of solution to the problem of people starving. u

He also discussed about how white people hate to address a black person as "Mr." or "Mrs." and he said to eliminate this problem, he had seven black babies and the last baby of his, which happened to be five months old, he named MISS GREGORY, that is her name. He said there would never be any doubt about anybody calling her Miss Gregory because that was her name and he would not have to worry about that. u

He also said that in schools, the blacks are being denied being taught their black heritage and that this was wrong, and that CHARLIE DREW was a black man and no one had taught him about CHARLIE DREW in school, and that he died for lack of his own invention or discovery. He said that if anyone had something to kick about it was the Indians because they had been put on reservations and have been separated from everybody else, and if anybody has a right, they had one to kick about not having the liberties and rights. u

Investigator   NYSP, BCI, Fredonia, N.Y., advised SA   on 3/14/69, that GREGORY spoke to several hundred students in Gregory Hall, on the State University College at Fredonia Campus, Fredonia, N.Y., during the evening of 3/10/69. Investigator   advised that the speech was repetitious of prior GREGORY speeches, and was not inciting in any way. He advised that the audience was mixed, both racially and age-wise, and was well behaved and orderly. He advised that following his formal lecture, he had an informal discussion with a smaller group of individuals in a dormitory on the State University College Campus, which was also orderly, and not inciting. *U*

An article appearing in the "Leader" the campus newspaper at the State University College at Fredonia, summed up the feeling of the student body by stating that many of the students both agree and disagree with the comments of GREGORY, but admitted that he puts on a "great show" and was clearly one of the high spots of the academic year. The article concludes by stating that GREGORY not only entertains his audience, but stimulates deep thoughts about one's self and one's country. # IS THE U.S. DEGENERATE?

## DICK GREGORY SPEAKS

"But more than a commentator, more than an author, more than a comedian, he is a soldier in a war against hate and bigotry. His weapons include a complete personal dedication of his talent and a razor-sharp sense of humor". Most program introductions try to build up their attraction to all proportions but the above comment in the program introducing Dick Gregory lived up to its name. For those of you who missed a hilarious and enlightening evening, Dick Gregory was on our campus last Monday speaking at Old Main and then at a smaller talk in Kirkland A.

Gregory gave a strong indictment of the United States, calling it the most morally degenerate country on earth. While right-wingers eulogize America, he says all others must examine it closely. Blacks, he continued, do not hate whites but hate their "stinking white racist institutions", a phrase he used often throughout the

night. Blacks hold whites responsible for these institutions. The solution to the racial crisis in the United States, according to Gregory, is not pouring money into the ghettos. The solution is to first gain the trust of the blacks before the government does anything else. This trust can be gained by the white man giving to all minorities, red, brown or black, all the rights they should have had in the first place. Only then will there be progress in this country.

Another basic theme, and probably his most controversial, was the guilt of the CIA in the murders of John Kennedy, Robert Kennedy, Martin Luther King, Malcolm X and George Lincoln Rockwell, and others. The CIA, he claims, is trying to take over the country by dividing it. President Kennedy didn't trust the CIA, the argument goes, and it killed him. Robert Kennedy knew this and would have revealed it if he had been elected

President. The CIA saw that when Robert Kennedy won the California primary, he was getting too close to his goal and had to be eliminated.

In the session after the lecture, Gregory was closely questioned about this and, after adding that Oswald, Sirhan and Ray were innocent, said he had secret evidence to prove it and James Garrison tried to prove it at the Clay Shaw case. It was impossible to challenge his argument because of the "secret evidence" idea. On this point, one would have to accept Dick Gregory on sheer faith.

# PROPERTY RIGHTS MORE IMPORTANT THAN

## HUMAN RIGHTS

(Continued from page 1)

He thanked the young people for getting rid of Lyndon Johnson, whom he described as the number one tyrant since Julius Caesar. The fact that Richard Nixon defeated Hubert Humphrey did not bother him much because he said that the "stinking, slimy, nasty politicians are all the same." At this point he got to the Democratic Convention and the demonstrations

of which he played a part in. He declared that three days after the conventions the establishment tried to tell us it didn't happen. Russia might have tried this after the Czechoslovak invasion by saying it sent in miniature tanks and the cameras enlarged them out of proportions.

Many of the hippies and other young people are described today as moral degenerates. Gregory believes that the Shriners in Chicago, because they are involved in more prostitution and adultery, are more

(Continued on page 6)

degenerate. Furthermore the 20,000 Wall Streeters who watched a grandly endowed girl (Gregory used other, naughtier words, as I'm sure the audience remembers) walk out of a subway station, are even worse degenerates. He was surprised that J. Edgar Hoover didn't declare this girl-watching to be Communist-inspired.

Gregory does not want to destroy the capitalist system, but rather put the capitalists behind rather than in front of the U.S. Constitution. In this country, property rights are more important than human rights. Gregory amply described this by relating that Mayor Daley told the police to shoot all looters, not to shoot all murders or dope-fiends. Looting of course, has more to do with property.

Another important theme Gregory used was boycotting of various goods. If people don't get school reforms, he suggested that they stop eating meat and watch the right-wind Texas cowboys break down the Dean's door. On the draft, he said that the sons of 150 Congressmen were eligible for the draft and not drafted and that Dean Rusk's son was eligible for the draft five years ago and still is not inducted. Moving to Vietnam, he claimed that democracy is so good we should not be trying to ram it down other people's throat. If it was that good, they would steal it.

In my opinion, the best part of the speech was the portion of the Declaration of Independence. He advised the younger set to get their parents to sit down in front of a TV during "riot season" and watch the battle. Then turn the sound down and, as they watch the riot, read the portion of the Declaration that states that when people lose their rights over a long period of time that it is their duty to destroy or abolish that govern-

ment that is oppressing them.

Gregory's final plea came to the youth of America to clean up the mess that the old fools made. Here the generation gap in the audience became clear. I sat behind four older types and while, the younger set was laughing and clapping and otherwise enjoying itself, they sat stone-faced through the entire lecture. From my glances around the audience, this was not atypical for the older set.

The above report is of course of Gregory's opinions, not mine. I agree with some, disagree with others. But whether one is for or against Gregory, one must admit he puts on a great show. He was clearly one of the high spots of this academic year.

A final thanks must be made to the Convocations and SGA for bringing this top-notch speaker to the Fredonia campus. In Gregory, they found a man who not only entertains, but stimulates deep thoughts about oneself and one's country.

RICHARD CLAXTON GREGORY

On March 17, 1969, Dick Gregory appeared at the Ellsworth Junior College located in Iowa Falls, Iowa, to speak to approximately 500 students. Gregory's speech was sponsored as part of a "Justice for All" speaker series funded through student activity fees. Gregory spoke for approximately two hours, with his text primarily concerning the injustices of all people. u

The "Waterloo Courier" newspaper of Waterloo, Iowa, on March 19, 1969, carried the following article concerning Gregory's speech. u

"Speaks in Iowa Falls" u

"GREGORY URGES, 'LEARN HOW TO LIVE'" u

"If your education teaches you how to live, then earning a living will be the easiest thing for you to do," Dick Gregory told Ellsworth College students here Monday night. u

"Learning how to live, according to Gregory, means becoming concerned with injustices to all people. He pointed to hunger as the number one problem in America and to the Indians as the second problem. u

"Problems in colleges and high schools are arising, he said, because education is not relevant to living. 'Education should be to bring out what nature put in you,' he said, noting that much of the present system is designed to 'program' students. u

"I hope you youngsters in these institutions don't make the same mistakes as us old folks. We were too busy trying to learn how to make a living instead of how to live," Gregory said. u

RICHARD CLAXTON GREGORY

"Deplore Assassinations U

"Emphasizing the need for 'passionate desires for human rights,' Gregory told the student audience that they must be concerned about all assassinations, pointing to George Lincoln Rockwell as an example. He also hit the great concern for urban America, saying 'rural America is America's new nigger.' He said that when large cities became concerned over missile bases, the bases were moved to rural areas. U

"Hunger, too, is a great problem in rural areas. He cited hunger in Appalachia which goes on while programs are launched in urban areas. In an interview prior to the speech, he said implementation of present food programs must involve research on cheap protein foods, such as soybeans, and studies of the available means of distribution. U

"He suggested that it would be valuable for police to be in a position to help with temporary hunger problems because the police are on duty at all hours, unlike many social work offices. This would also build an image of police as being more than punishers. U

"Raps White Society U

Gregory hit hard at what he terms the 'white racist society,' saying, 'We do not hate whites, we hate your white, racist society, and we hold all whites responsible. U

"If you come to my house and my dog bites your daughter, who would you sue? My dog?' Thus the blacks hold whites responsible, he said. U

"Treatment of the Indians was repeated as a main example of inhumanity, Gregory said. U

"While declaring non-violent principles as his own 'hangup,' Gregory asked what non-violence had done for the Indians. He declared that more has been accomplished for human rights in the past two years than in the previous 100 years now that whites are 'up tight. U

RICHARD CLAXTON GREGORY

"Awareness' Stressed U

"Not only is awareness important in correcting a system that does not grant human rights, but it may soon become an economic necessity as large corporations, educational institutions and government agencies more and more seek people who have been associated with minorities and thus have an awareness of the problems facing the country, Gregory noted. U

"Showing a finely blended combination of his career as a comedian and his present human rights advocacy, Gregory joked bitingly about racial insults. He cited the naming of a Texas tornado 'Beulah' as the biggest breakthrough. U

"Gregory spoke as part of a 'Justice for All' speaker series funded through student activity fees. Following his talk, he answered various student questions about black studies, George Wallace and Muhammad Ali U

"The Ellsworth program was one of 310 Gregory has scheduled for the present college year. U

Other speakers are listed as PETER JENNINGS of the American Broadcasting Company, MALCOLM BOYD, ROBERT C. WEAVER, former Secretary of Housing and Urban Development, ALLARD K. LOWENSTEIN, a New York Congressman who played a major role in persuading U. S. Senator EUGENE MC CARTHY to run in the 1968 Presidential primaries. u

He said that as part of this program, the Student Government Association invited DICK GREGORY to appear on Monday, April 7, 1969. GREGORY's appearance is scheduled for 8:00 PM on the above date at the Jacksonville Divic Auditorium and his topic is "civil rights."

[redacted] noted that he was somewhat concerned over the invitation and appearance of GREGORY in connection with this symposium and in this regard, corresponded with three Southern universities at which GREGORY appeared in the recent past. Answers from all three of these universities indicated that GREGORY's appearance was completely void of any demonstrations or violence of any type and was humorous in nature and obviously designed to entertain. In this light, [redacted] authorized payment from the Student Activity Fund to GREGORY for his appearance on the above date.

RICHARD CLAXTON GREGORY,  
ALSO KNOWN AS  
DICK GREGORY

The March 28, 1969, edition of the "Washington Daily News," a Washington, D.C. (WDC) daily newspaper, contained the following article:

"Dick Gregory told a packed audience at Catholic University's Caldwell Hall Auditorium last night that the nine persons who broke into Dow Chemical Company's offices here Saturday and spread blood over records are 'beautiful people.'

"It's about time the clergy got involved,' he said. 'I can't tell you how beautiful I think the Catholic Church is.'

"During his two and a half hour address which was sponsored by the CU's Graduate Student Council, Mr. Gregory urged students to speak out in support of the jailed group.

"The D.C. Nine' as they are now known, were charged with entering the building, illegally, and destroying property. They have elected to stay in D.C. jail and are reportedly fasting.

"If you don't like the idea of napalm,' Mr. Gregory said, 'organize and find out what home products Dow Chemical Company makes. Don't buy them, don't let your friends buy them. Pretty soon they will stop making napalm.'

"Mr. Gregory, a comedian who turned serious but remains funny, ran for president on a protest ticket last year. He said he now spends 98 per cent of his time on college campuses talking to youth he calls 'the most dedicated morally of any group in the United States.'

"He said the youth of this country wield a tremendous amount of power. 'Your rotten newspapers never have told you this,' he said, 'but if it had not been for you, LBJ would still be in the White House. He was the worst tyrant to walk the earth since Caesar, and you ran him all the way back to Texas. Well, if this new cat isn't cool, baby, New York is a lot shorter trip.'

"If you kids don't think you have power,' Mr. Gregory said, 'think about the fact that 15,000 hippies and Yippies came to Chicago to change the system and the whole establishment shook.'

"The old fools are scared,' he said, 'because you're trying to tell them morality comes from within. That's really got them uptight.'

"Gregory said that campus protests are mostly useless. Don't sit in at administration buildings, he said, organize and address yourselves to the capitalists. Boycott their products, he advised.

"Organize and tell the record companies you aren't buying any records for two years unless they got some lobbyists going to get you the vote.' 'And, as long as you've got to go to war and die for your country at 18, you'd better get the vote when you're 17.'

"Referring to President Nixon's recent statement that student demonstrators should lose any federal aid they are receiving, Mr. Gregory said, 'If you're on a scholarship you can still think the same. You just won't be able to demonstrate. You can still dynamite buildings at midnight and wake up the next day and act surprised that it happened.'"

RICHARD CLAXTON GREGORY

A confidential source who has furnished reliable information in the past advised on March 28, 1969, that he attended the Gregory speech at Caldwell Hall Auditorium, Catholic University, on the preceding evening. The source furnished substantially the same information as set out above, but stated that in addition, Gregory made the following comments:

"The CIA and FBI use the American people's money to do their 'sly business' like toppling governments and assassinating people." Gregory continued that James Garrison, the New Orleans, Louisiana, District Attorney, is a great man because he is trying to check the Central Intelligence Agency (CIA) and Federal Bureau of Investigation (FBI). Gregory also mentioned James Earl Ray and stated that he did not kill Reverend Martin Luther King. *ll*

The source advised that Gregory began his speech at approximately 8:15 p.m. and concluded at approximately 10:00 p.m. The source added that Gregory was not extremely well received by the 1,500 to 2,000 persons present.

RICHARD CLAXTON GREGORY  
RACIAL MATTER

The March 9, 1969 edition of the "Democrat and Chronicle," a daily newspaper published in Rochester, New York, contained an article entitled "Be Honest with 'Young Kids'-Gregory," by BILL O'BRIEN, regarding a speech given by RICHARD CLAXTON GREGORY before the City Club at the Chamber of Commerce, Rochester, New York, on March 8, 1969. Approximately 250 adults attended GREGORY's speech, which lasted about two hours. u

According to the article, GREGORY advised his audience to "be honest with these young kids." GREGORY stated that he gets "tired of all these crackers running around, eulogizing America." He continued that America would never be beautiful "as long as there is still one Indian on a reservation." u

One phrase that GREGORY used eleven times in his talk was "We hate your stinking white racist institution." u

During his speech, GREGORY advocated lowering the voting age to 17 and stated that America does not care about assassinations unless they involve someone liked by adults. He advised that seizing college administration buildings was not the way to insure changes, but rather a nation-wide boycott in the colleges would be the most effective method to bring about university policy changes. u

According to the article, GREGORY suggested to his audience that the "next time there's a riot on television, turn down the sound and read aloud the Declaration of Independence and see how the words fit." u

ENCLOSURE 100-440423-468

RICHARD CLAXTON GREGORY  
RACIAL MATTER

GREGORY also spoke in favor of non-violence saying that he would "feel more satisfied being killed than killing somebody." u

The March 13, 1969 edition of "The Leader," a campus publication at the State University College at Fredonia, Fredonia, New York, contained an article entitled "Is The U. S. Degenerate? Dick Gregory Speaks," by ALAN FAYE, regarding a speech given by RICHARD CLAXTON GREGORY at the State University College at Fredonia, Fredonia, New York, during the evening of March 10, 1969. u

According to this article, GREGORY described the United States as "the most morally degenerate country on earth." He continued that "blacks do not hate whites but hate their 'stinking white racist institutions,'" a phrase he used often during his speech. He stated that "blacks hold whites responsible for these institutions." u

The article continues that GREGORY claimed in his speech that the CIA was responsible for "the murders of John Kennedy, Robert Kennedy, Martin Luther King, Malcolm X and George Lincoln Rockwell, and others." He claimed the CIA "is trying to take over the country by dividing it." When questioned concerning this claim, GREGORY said he had "secret evidence" to prove it. u

GREGORY described LYNDON JOHNSON as "the number one tyrant since Julius Caesar." The article states that "the fact that Richard Nixon defeated Hubert Humphrey did not bother him much because he said that the 'stinking, slimy, nasty politicians are all the same.'" u

GREGORY stated that many hippies and other young people are considered to be "moral degenerates." He continued that "the Shriners in Chicago, because they are involved in more prostitution and adultery, are more degenerate." GREGORY claimed that property rights are more important than human rights in this country, as illustrated by the fact that "Mayor Daley told the police to shoot all looters, not to shoot all murders or dope-fiends." u

RICHARD GRANTON GREGORY  
RACIAL MATTER

During the evening, GREGORY commented that "the sons of 150 Congressmen were eligible for the draft and not drafted and that Dean Rusk's son was eligible for the draft five years ago and still is not inducted." u

As in previous speeches, GREGORY advised the young people to persuade their parents to "sit down in front of a TV during 'riot season' and watch the battle." He suggested that they then turn down the sound and read the portion of the Declaration of Independence that states that "when people lose their rights over a long period of time that it is their duty to destroy or abolish that government that is oppressing them." u

The article stated "Gregory's final plea came to the youth of America to clean up the mess that the old fools made." u

According to the article, at no time did GREGORY make any inflammatory statements urging Negroes to fight or to take up arms. Investigator [redacted] New York State Police, FBI, Fredonia, New York, advised on March 14, 1969, that GREGORY's speech to several hundred students in Gregory Hall on the State University College at Fredonia campus, Fredonia, New York, during the evening of March 10, 1969, was repetitious of prior GREGORY speeches and was not inciting in any way. He advised that the audience was mixed, both racially and age-wise and also well-behaved and orderly. He advised that following his formal lecture he had an informal discussion with a smaller group of individuals in a dormitory on the State University College at Fredonia campus which was also orderly and not inciting. u

RICHARD CLAXTON GREGORY

Richard Claxton Gregory was originally sentenced to five-months imprisonment in the Cook County Jail, Chicago, Illinois, and fined \$1,400.00 in May, 1966, following a June, 1965, sit-in arrest in Chicago, Illinois. Gregory appealed to the United States Supreme Court, but his conviction was upheld in a decision dated February 24, 1969. *u*

On April 1, 1969, Gregory voluntarily appeared before Magistrate Maurice W. Lee, Municipal Court, Chicago, Illinois, who originally sentenced Gregory, and through his attorneys requested a stay of sentence until May 25, 1969, so that Gregory could fulfill contractual speaking obligations throughout the United States. Magistrate Lee denied the stay of sentence and Gregory was incarcerated in the Cook County Jail as of that date with his sentence to be served until August 3, 1969. *u*

On April 3, 1969 Deputy United States Marshal [redacted] Chicago, Illinois, advised a representative of the Federal Bureau of Investigation that attorneys for Richard Gregory had filed motions in United States District Court, Chicago, Illinois, on April 2, 1969, seeking Gregory's release from Cook County Jail on bond until Gregory's appeal of his five-month conviction in Cook County could be held by County Court. [redacted] stated that on April 3, 1969, *u*

RICHARD CLAXTON GREGORY

On February 5, 1969, Richard Claxton Gregory addressed about 700 students at Southwest Missouri State College (SMS), Springfield, Missouri. The talk, sponsored by the Student Union Board, lasted about two hours and a 45 minute question and answer period followed. The talk was one in a series entitled, "Kaleidoscope-Patterns In A Changing World." Other speakers to be heard in the series include Senator Strom Thurmond, March 31; William Rusher, April 16 and Julian Bond, May 7.

A source who has furnished reliable information in the past furnished the following resume of the talk:

One of the biggest jobs ahead of you young people is not to destroy the capitalistic system - you've got to work like hell to beat the capitalists into their rightful place behind the Consitution, not in front of it. As long as capitalists stand in front of the Constitution, it is property rights that are being emphasized-not human rights. If democracy is as good as we tell you it is, why in the hell are we running all over the world trying to ram it down other people's throats. If anything is good, you don't have to force it on people-they'll steal it from you.

He said he spends 90 percent of his time on college campuses and will be speaking at some 300 educational institutions within the next ten months. He believes the young people of today are the most moral, dedicated, committed people in the history of

our country. He called "LBJ" the No. 1 tyrant since Julius Ceasar. He hoped the young people would bring on the scene some statesmen, not politicians, and then we will see a tremendous change in this country. It is a sad situation because you young people must solve the problems that you had nothing to do with creating.

He called moral pollution America's No. 1 problem. He called the students to change the so-called educational systems and make them live up to their name. He said they were too damn busy to educate, they're so busy indoctrinating. The problem many times lies with the board of directors of the school, not the administration. The board doesn't know anything about education and nothing about the kids.

He urged the students to carry a copy of the Declaration of Independence with them and the next time there is a riot and it is shown on television, invite your parents in and watch it. Turn the sound off and read the Declaration of Independence, the part saying that when their rights have been denied for long periods of time, it is their duty to destroy and abolish that government. He called himself a slave to non-violence. He doesn't preach it, he lives it.

He and his wife have pledged to eat only three days a week during 1969, and to spend the next four years trying to solve the hunger problems in America. He invited the students to do likewise.

The talk was fairly well received and his remarks were often interspersed with applause.

The source made available a tape recording of Gregory's speech, which was transcribed as follows:

RICHARD CLAXTON GREGORY

(Inaudible) (woman's voice) We could only put this facility which is the next largest. We'd like to tell you a little bit about what our series is, it's called Kaleidoscope, Views in a changing world. We wish, the objective is to let you see other people's opinions of things that are happening around our world. We hope that through this as college students and faculty of SMS that we will be better educated and can learn more by listening to more points of view than just our own. Our next lecturer will be O.K.

ARMSTRONG on February 26, also Wednesday night at 8:00 O'clock in the ball room and he will be talking in response to DICK GREGORY's lecture. (APPLAUSE) Now I'd like to tell you a little about Mr. GREGORY, he is a well-noted author, lecturer, and has acted in several movies. He's written 5 previous novels, 2 humorous, an autobiography called "Nigger" of him, obviously, (APPLAUSE), no, no, excuse me, it was the autobiography, is what I was inferring. Also his latest book is called "Write Me In", he's now working on 3 novels to be due in June and we'd now like to present Mr. GREGORY. (APPLAUSE)

Hey, we'd like to say thank you very much, how do you sincerely, honest to goodness, with a straight face, say it's a pleasure to be in Springfield. (APPLAUSE) I must admit to you I was having a hell of a lot of fun getting here

really know what areas we made the progress in. A lot of people think we made progress in jobs, housing, and education, you know the biggest break through for black folks in the history of this country happened two years ago in the state of Texas. We got our first colored hurricane, BEULAH. (APPLAUSE)

I guess when you really stop and think about it we're doing pretty good. Especially television, you watch television lately? Oh, we're taking care of business on television. They almost got too many of us on television, I mean there was a time when they first broke through, they let us do them ads after midnight. We're getting on to some prime time. I didn't know colored folks had headaches till the other day. (APPLAUSE) Did you dig ole sis on the front page show, yeh, 'anytime I get a headache, I take me some Excedrin. Oh really. But its about time, I'm so damn sick and tired of seeing that white dove fly through that white woman's kitchen. "Oh MARGE, there's a white dove in your kitchen". I'd take just one time to see my sister run through there and say, "BEULAH, baby, there's a black crow on the biscuits. (APPLAUSE) Some of them about little, you know, things that's getting groovy, we got some pretty swinging television shows and we got more to come. They are planning on replacing the Flying Nun with the Skipping Black Muslems,

RICHARD CLAXTON GREGORY

and I guess I don't have to tell you cause you probably get to see television more than I do. We got us a black cowboy this season, what's the name of that show? The Outcasts, you could tell by the name it was us, couldn't you? A black cowboy and next season we're going to get another black cowboy so he can have somebody to kill. (APPLAUSE) I don't mean to sit here and try to tell you that they don't allow him to kill no white cowboy, no, he gets to kill a white cowboy but when it comes his turn to kill a white cowboy the scriptwriters just got to go through so many changes. You see, because they let him kill a white cowboy, but they got to dirty up this white cat so bad so then it will be accepted. You see, he can't just gun down no ordinary cat no, three weeks ago he killed a white cowboy, he gunned this white cat down, this white cat had just finished raping a blind, paraplegic, Salvation Worker, (APPLAUSE) but dig that's not what he, the black cat didn't know he just finished doing that, no, he gunned him down cause he'd stole \$1,000. worth of Christmas Seals. So I guess everything, you know, is looking up. So I dozed off back to sleep and the white cat nudged me again and said, would you explain to me Black Power? I said, no, I will not explain to you what Black Power is, and he really got up tight. His attitude was like (inaudible) you know the whole bit. So I said well look, let me tell you

RICHARD CLAXTON GREGORY

something fellow, for 12 months I went out of my way to explain to white folks what Black Power was, even when I couldn't find white folks, I'd call them up on the telephone, Hello, are you white?

You know last year after that tremendous heart transplant operation in South Africa, you know, where the black cat gave his heart to the white cat, the only heart that's working right? We just kinda felt like the whole world knew what Black Power was. Oh, you have to admit one thing, that black heart is still pumping. That white cat is somewhere in Johannesburg right now singing the blues. (LAUGHTER) You know, black folks all over the world was extremely happy over the fact that the black cat gave up his heart to the white cat because you see, we been knowing for years that there's really nothing wrong with white folks that a change of heart wouldn't straighten out. (APPLAUSE) But in all honesty we must admit to you we didn't want that heart to work that good, that heart is working so good it has really scared black folks, because there is nothing that frightens us no more than the fact that that heart is working so good and the thought that one day you white folks might start assuming that we are going to be your spare parts. (LAUGHTER) Ever since that heart worked that good white folks kinda look at us

RICHARD CLAXTON GREGORY

a little bit different now. My God, if they ever find out that nappy hair cures cancer. (APPLAUSE) We'd be dirty then, wouldn't we? Running down the street with locks on our caps. I don't know there is a lot of controversy about heart transplants, some people is for them and some people is against them. Let me go on record as saying as I am against all heart transplants, but I'm for transplants you can't hide. I would love to see a white cat get a colored foot. (LAUGHTER) Next summer let him take that to the beach with him. I can just see it now, JOSEPH take off your other shoe, let's get in the water. (LAUGHTER) So let me say that it is a pleasure to be with you young folks this evening and I guess I can truthfully say that I spend about 98% of my time on college campuses and I got about 300 colleges I have to make in a 10 month period. I spend this much time with you young folks for a reason. The simple reason is because you young folks in America today is the morally dedicated committed, young people that's ever lived in the history of this country. Now, you cannot read these old right wing packer newspapers to decide who you, or what you are. Cause everytime you look in there they are talking about irresponsible bearded smelly kids. The question is that because you have a beard why does that mean you have a stink. They don't say nothing about ABRAHAM LINCOLN. He didn't only have a beard he was ugly too.

RICHARD CLAXTON GREGORY

To be honest with you about 95% of all the establishment newspapers haven't got the moral fiber decent enough to even discuss you young folks. I don't know what day the reporters will have the revolution to knock out them old foggy-thinking editors who have created more problems than they have solved, so I hope you youngsters, you know, will be hip enough. You should read the establishment newspapers only for a form of entertainment. That's about all they're fit for. So they never been honest with you, the establishment newspapers did not tell you youngsters while they're busy putting you down that because of you young morally dedicated kids that LBJ, who is probably the No. 1 tyrant who has ever walked the face of this earth since JULIUS CAESAR, was unable to run for re-election because of you young kids. You didn't use a brick, a bomb or hand grenades or missiles, you came out here with a moral dedication and he couldn't run for re-election. The newspapers haven't told you how strong you are. They have not told you that had 15,000 hippies and yippies not showed up in Chicago for the Democratic Convention HUMPHREY would have been the president today. Because it was enough people turned their stomach watching at the Democratic Convention that before they would vote for HUMPHREY they just wouldn't vote. There is a lot of people that are upset because you youngsters showed up and knowing had you not showed up

RICHARD CLAXTON GREGORY

NIXON wouldn't have been the President but the beautiful thing about young folks that's hip, it really don't make any difference which one of them got in because when you're dealing with one of them stinking slimy politicians all of them act the same. (APPLAUSE) The man said he was going to drop the Surtax. and the minute he got in now he's hedging, it really didn't make no difference if you drop it or keep it, but at least you know he should have had enough sense to say we'll consider it. So, I hope you youngsters as you move in and change the system, you will bring into the realm of the political arena, statesmen instead of politicians. You will see a tremendous change in this country. Let me say to you that I'm very sad as I go around the country and talk with you young folks, I'm sad over the fact that not only do I have to stand before you and tell you that the fate and destiny of America depends on you. Not only do I have to stand here and tell you that you have to solve the problems confronting America today, the sad thing is that I have to stand here and tell you you have to solve the problems that you had nothing to do with creating. These problems was here when you got here but thanks to us old fools they will not be here when you leave, and by that I mean you see us old fools have left you young kids in a bag that no youngsters has ever been in before, in the history of this country. Young folks have

RICHARD CLAXTON GREGORY

always had problems because we never solved the problems but the group of us that just came through ahead of you, not only did we not solve the problems, but for the first time in the history of America we used up all the tricks. So, everybody wonders why you react the way you react, you ain't got no tricks. Oh, I remember when I was a kid, my mother, my daddy, my whole community taught me when I was a little bitty boy, Boy, one day you going to grow up and some white man going to call you nigger, and now don't get mad cause God don't like ugly. Sure enough I grew up and one day a cracker called me a nigger and sure enough I didn't get mad cause God don't like no ugly. I got 7 of them little old black kids at home with me and my old lady ain't teaching them nothing. If somebody ever calls them a nigger, I'm sure it's going to surprise them. (LAUGHTER) I'm mighty sure they are going to act accordingly. So there are no tricks left for you youngsters so you all got to deal with the issues now whether you like it or not. That's why I can't understand why us old fools don't understand your reactions. What do we say, it's the generation gap? Is that the cute word? Generation gap, that's not really the issue at all, we come to you from such an unethical position that hasn't got anything to do with the generation gap, it's got to do that we're feeding you a bunch of insang lies.

RICHARD CLAXTON GREGORY

You know, if I tell you 2 and 2 is 5 and you react to it, and I say there's nothing wrong just the generation gap. There ain't no generation gap, cause if I say 2 and 2 is 4, regardless of how much older I am than you, you would still understand what I am talking about. And to prove to you that it's not the generation gap, BERTRAND RUSSELL who is 98 years old could leave London tonight and come to America and be one of the youngest among us. Because he would meet you and greet you from a moral statesman's standpoint. He would not lie to you, so if SOCRATES were alive today as old as he would be today he would still be young. So it hadn't got nothing to do with the generation gap, it got something to do with, you know, what point will we decide to be honest with you young folks. Let me say to you tonight I did not come here to impress you but only to inform you that when I leave here this evening I couldn't care less about what you think about DICK GREGORY but I'll always have the one consolation of knowing that whenever we wake up this year, next year, 20 years from now, you'll always be able to say at least Brother GREG didn't lie to us. And I think one of the, you know, tremendous problems confronting young folks is that the establishment we keep lying to you, and it's not new, we started lying to you in that crib with that Santa Claus boy. First letter I ever wrote in my life was to a cat that

RICHARD CLAXTON GREGORY

didn't even exist. I mean, when your mama lies to you, damn near anybody qualifies. And cause that old Santa Claus boy he went over better in the white community than he ever goes over in the black community, not that we don't dig him, but we just know damn good and well ain't no white cat coming in our neighborhood after midnight. (APPLAUSE AND LAUGHTER)

Now the No. 1 lie we tell you youngsters today is the No. 1 problem confronting America today and that is the problem of air pollution. The No. 1 problem confronting America today is the problem of moral pollution, this is the most morally polluted degenerate insane nation on the face of this earth, bar none. You young kids got the job of giving America her sanity back, making America the morally decent nation that the United States Constitution and the Declaration of Independence provided for her to be. To be honest with you, I'm damn sick and tired of all these old right wingers running around eulogizing my country. Save eulogies for after she dies. She's not dead. Thanks to you youngsters. If you youngsters will not have an attitude of eulogizing America but will examine America and find out where the cancer is and cut it out, America will live. For many, many, many, thousands of years, we always running around talking about America the beautiful, how in the hell can this country ever be beautiful

with that Indian pinned upon that reservation, are you out of your mind? You run all over the world scared of Communism when you got an Indian pinned upon that reservation that if the Communists had something to do with it maybe he could get free. (APPLAUSE) So anybody you ever run across as long as that Indian is locked on that reservation that believes America is beautiful that individual is insane and sick. I hope that you youngsters will work to make this a truly beautiful country. You can tell when America becomes beautiful because once she becomes beautiful we don't have to discuss her beauty. Anytime you run across a cat who is always talking about how pretty his wife is you can believe he married the mean of the hyenia. (APPLAUSE) Because true beauty do not have to be discussed. So you youngsters got a big job to do, you see, the sad thing is, you know, America is the only country on the face of this earth that lies about what she is. MAO TSE TUNG do not pretend that he's not a communist and a revolutionist. CASTRO do not deny that he is not a communist and a revolutionist. The cats in Russia don't deny that they are not communists, them white cats over in South Africa don't deny that they don't never want to see them niggers make it. Every country on the face of this earth regardless of how scroungy they are can live up to what they believe in. HITLER didn't pull no punches.

RICHARD CLAXTON GREGORY

about he believed the German people was superior to everybody else. America is the only country that talks one thing and do something else. (APPLAUSE) We run around telling about home of the brave and the land of the free and everybody (inaudible) know that's a damn lie. And the bad part about it you see what's worse than being wrong is programming yourself that you're right because then you are really insane. Like I'm standing up here buck naked and I really believe I've got clothes on. That's when I really got problems. You know what they call that? Crazy. Yeh, different, you know, you run up here and pull your clothes off and they bust you and put you in jail if you know you've got them off, but if you stand up here and don't know you got them off, they got a big hospital they send people all over the world right here to this city here, that's where they going to put you. So one day I hope if we don't change America to get back to what the founding fathers wanted her to be then I hope we can be honest about what she really is. So you youngsters got a big job cause again let me say you getting a lot of help from us old fools not that we mean to but we just keep on doing these things like the Democratic Convention. I wouldn't have gave nothing in the world for what you all got to look at cause lot of you got to wake up, -- woke up a lot of you young folks, yeh, and you need to be wake up cause they ain't nothing no worse than a young fool, cause you got

RICHARD CLAXTON GREGORY

so long to be a fool. The establishment, oh, they really, I mean, well I don't have to tell you three days after the Democratic Convention was over the whole establishment tried to convince you that you did not see what you saw on television. (APPLAUSE) They said it didn't happen. The press created it. You know, If KOSYGIN and the rest of them Russians was dealing with the world as insane as America you know they could beat the Czechoslovakian rap. Just get on world wide television and say you didn't see it, it didn't happen. We admit we sent some little miniature tanks to the Czech border for the kids to play with and the damn press blew it up to make it look like real live tanks. (LAUGHTER) You know what KOSYGIN is not dealing with the world that is insane today, because of you young folks around the world and you know something? Them Russians is in trouble and the Communist world is in trouble for the first time and it didn't have nothing to do with America's missile and it didn't have nothing to do with these old right wing communist feeders, KOSYGIN underestimated the young folks in Czechoslovakia and around the world. (APPLAUSE) KOSYGIN made the same mistake them fools made in Chicago, they realized in Chicago that they could tell these fools that the kids was going to burn Chicago down and assassinate everybody and wouldn't have to produce one bomb or one bullet and these damn fools would believe it.

RICHARD CLAXTON GREGORY

They came up with one gun. KOSYGIN knew he could run them tanks in there and them fools would run just like your mama and daddy would run if they brought some tanks in America, and they never thought they'd see the day that them young kids would run to the tanks and put swastikas on them. The whole Communist world was upside down now, because of that move they made because one beautiful young kid dare lay down in (inaudible) and put some gasoline on himself and say, before I'd put up with you monsters, I'd do this and you can believe that some Russian shot at some astronaut in Moscow if you want to, but you got enough sense to know nobody hates an astronaut. They shot at them leaders, baby, now we don't know because they ain't no news coming out but if you read that news that was coming out first they say they caught the cat, he was insane, now they tell us he committed suicide on the start. Now they tell us he was a young cat that had enough sense to go get a uniform and put on and stand there like he was a cop. I say that to say that as long as us old fools keep underestimating you young kids, we are going to keep on making these drastic mistakes. Again, I say thank God for Chicago. 15,000 hippies and yippies showed up in Chicago to change this system and the whole country got upset. It didn't have a damn thing to do with what they were coming to disrupt, it had something to do with the purpose of being there. I ask you point blank, who do you think was the most

immoral in Chicago last year, the hippies and yippies or the Shriners when they came for their convention? (LAUGHTER) Who do you think committed the most adultery or spent the most money on whores and prostitutes in Chicago last year, the Shriners or the hippies and the yippies? Nobody got upset over the Shriners, cause the Shriners didn't come to change nothing just to buy something. (LAUGHTER AND APPLAUSE) Everybody is trying to make you youngsters come off like you are a new thing. Well, you are new, cause you talking about changing, but young people have always done those things. They just wasn't trying to change the system and as long as you not trying to change the system it's okay. Hell, when I was in college we didn't go in and take over the administration building and take over the switch board, we had panty raids. (LAUGHTER) Now I ask you which is the most immoral, to go take over over a damn switchboard or go in the girls' dormitory and steal every pair of drawers in there? (LAUGHTER AND APPLAUSE) Which is the most degenerate, to steal bloomers or take over a switchboard? Yeh, we kicked the girls' dormitory open and run, I didn't, I went to a white school, I wasn't about to go in that white girls' room. (APPLAUSE AND LAUGHTER) Yeh, them white boys went in there, and I (inaudible) get a pair of drawers for me, baby. (LAUGHTER AND APPLAUSE) Nobody

RICHARD CLAXTON GREGORY

got up tight over panty raids and all the old fools said, "well, boys will be boys, ha, ha," (LAUGHTER) that's because we were not trying to change the system. Damn white kids for the last ten years been going to Fort Lauderdale, Florida, every Spring, break, tearing up the whole town and they have yet to bring the soldiers out cause you not trying to change it, just letting off a little steam. We got tired of panty raids, we decided we going to see how many gold fish we could swallow. Remember that? Nobody got upset, they'd let you swallow a whale if you want to. When we got tired of swallowing gold fish the young kids decided to see how many they could stuff in a telephone booth. You pick up the paper and on the front page, "The University of Arizona sets new record, 500 kids stuff in phone booth," and the front page got a picture of some little old weird freaky-looking cat from the telephone company bringing another booth, saying, "ha, boys will be boys." (LAUGHTER) You want to find out how boys will be boys don't put 500 boys in a phone booth, you go to downtown Springfield one day with five kids and take a picket sign and picket and walk around one of them empty telephone booths and on your signs ask AT&T about them anti-trust violations and about them high absorbing long distance phone

RICHARD CLAXTON GREGORY

call rates and see how many cops will be there and see how quick you'll get busted and see if they'll be saying, "boys will be boys." (LAUGHTER AND APPLAUSE)

So you young folks got a mighty big job ahead of you. You know the interesting thing about television as bad as it is, if you just keep looking at it that thing will slip through ever now and then. That same television set that brought you the Democratic Convention it showed you them hippies and yippies, that same set nine weeks after the Democratic Convention was over, brought you another crowd that also got world wide coverage. Only that crowd wasn't a bunch of hippies and yippies, bearded and irresponsible kids, and it didn't happen in Chicago, it was nine weeks after the Democratic Convention. It was 20,000 grown men from New York City; 20,000 sick degenerates from Madison Avenue came out one morning to look at a broad's titties. (LAUGHTER) Nobody in America got upset. J. EDGAR HOOVER has yet to get on television and say titty watching is communist inspired. (LAUGHTER AND APPLAUSE) It sounds funny to you but America is in sad shape when 20,000 sick grown men come out one morning to look at a woman's breasts, and nobody gets upset. Do you understand the job you got to do? What do you call 20,000 sick degenerate titty watchers, extremists left to right, huh? (LAUGHTER) If sister FRANCINE really wants to

RICHARD CLAXTON GREGORY

get out that subway one morning without being looked at ever again, all she have to do is understand the way these fools think. Oh, if she held a press conference tonight in New York City and said tomorrow morning at 11:33 I will emerge out of that subway wearing one of the tightest sweaters ever been worn in the history of the world, I guarantee you tomorrow morning at 8:00 O'clock there would be 300,000 of them sick degenerates waiting on her. If she is sincere about never ever again wanting to be watched when she emerged out of that subway at 11:33, have two signs across her bosom on top of that tight sweater, one reading "Free HUEY NEWTON, baby," and "Bring the Boys home from Viet Nam." I guarantee you within three minutes time them 300,000 degenerates would be gone, back into their office to finish participating in the anti-trust violations. (LAUGHTER) So you youngsters got a big job, but like I say, thanks to us old fools, you morally dedicated young folks, that your job is going to be very easy. Fact, you got young morally committed men like MOHAMMAD ALI that before he would do something against his principles he'd give up a \$10,000,000. a year hustle. The only reason the old fools is finding a

little bit of respect for him now, it didn't have a damn thing to do about his principles. Did you hear them say, "Well, the fact that he gave up all that money he must be sincere," that's the only thing they can relate with, is the money. The people that never liked him, dig him now cause he gave up the money. So you youngsters that coming through a beautiful period. You need all the young morally dedicated, leaders you can find, cause you got a job on your hands. Dr. MARTIN LUTHER KING was assassinated we, oh, we got up tight, "Oh they assassinated Dr. KING"; they assassinated BOBBY KENNEDY, and "oh, they assassinated BOBBY"; they gunned down JFK and we went crazy, "oh, they got the president". But nobody got too upset when they assassinated LINCOLN ROCKWELL and MALCOLM X. You see, America not a nation that gives a damn about assassinations until you kill somebody she likes. Then we get up tight. 98% of everybody in this country that got upset over MARTIN LUTHER KING's assassination, if GEORGE WALLACE got assassinated in the morning we would not be up tight. Yeh, you got to change this system so either America will be upset over all the assassinations regardless to who it is or she will not. That's the job you have to do, it's just that open and shut. So you got a big job ahead of you and one of the biggest jobs you have ahead of you is not the job that some people

RICHARD CLAXTON GREGORY

believe and then maybe it is, but I don't believe that we have to destroy the capitalistic system . I say to you you got to work like hell to beat the capitalists into their rightful position and that is behind the United States Constitution and not in front of it. That's the job you have to do. (APPLAUSE) You see as long as the capitalists are in front of the United States Constitution, that means we put emphasis on property rights instead of on human rights. (APPLAUSE) You see, this country is not governed by the United States Constitution, it's not controlled by the Democratic process, this country is controlled and governed by the capitalists. That's why you can get out and peacefully picket and nobody give a damn about that. Them capitalists don't care about that, you got to address your grievances to the capitalists. Oh, America went out under the Constitution and peacefully protested in unison and got signatures and signatures for strong gun legislation. A country so damn insane we demand you to get a prescription to get your medicine but you don't need one to get your gun. There's something wrong. I can't hit you in the head with my pills and kill you (LAUGHTER) nor can I injure you by throwing my cough syrup on you. (LAUGHTER) I'm not saying that America shouldn't have guns, United States Constitution say all Americans have a right to bear arms, I got a right to get well too,

RICHARD CLAXTON GREGORY

and if America is going to make me go through some changes to get my medicine, then damn it, she should make me go through some changes to get my gun. So you youngsters got to understand that you got to deal with the capitalists, you got to put them in their rightful positions.

The cigarette industry, they don't give a damn about your kids that's going to be born they still going to fight to get them to advertise cigarettes on television where your young kids can see it before you can get to them and tell them what's wrong. I think everybody got a right to do what they want to do but you still have a right to protect them youngsters when their minds are being molded and the cigarette industry don't give a damn about a young kid. I think you youngsters that smoke got to start writing them and telling them if they don't get them commercials off television that you are going to boycott smoking cigarettes and then they will wake up and start giving protection to these young kids who is going to be watching television and all they going to see is that cowboy sitting that damn fence in front of that cemetery talking about, "this is Marlboro Country". Sure is. So you got a job to do and I say if you want to do that job effectively, address your grievances to the capitalists and you can really do it. We living in a country now, we are so out of it we say that at 18 years old you are old enough to go to war and die

but you not old enough to vote. (APPLAUSE) So, you got to change that and it scares me that I meet so many of you young kids that talking about, "I got to go to war and die and 18, I want the right to vote at 18," Don't be no damn fool, if you got to die at 18, you better get the right to vote at 17. (LAUGHTER) You believe one thing, if you can vote at 17, probably won't be no wars when you get 18. You got a job. I hope you understand how powerful you are. I hope you understand that if you address your grievances to the capitalists, you take care of (inaudible). You want to vote at 17 years old, that's simple, all you got to do is organize cross the country. Get your bag up tight. After you get organized, go to the record industry and tell them if they don't get together and to to Washington, D.C. and lobby and get a bill pushed through the Senate and Congress within two months time saying 17 year olders can vote that you all going call for a nation wide boycott of buying phonograph records for two years. Huh. What do you think would happen? (LAUGHTER) Before they stand by and let you wipe out a multi-million dollar industry they'll let 13 year olders vote. (LAUGHTER) You see these old right wingers, they don't buy no records and if it is it's one of them old DIRKSEN albums. (LAUGHTER AND APPLAUSE) So you have a big job. A job to change the order of the capitalists and put them behind the Constitution so

RICHARD CLAXTON GREGORY

for the first time you can put emphasis on human rights. You know, the evidence of how we put emphasis on property rights was Mayor RICHARD J. DALEY of Chicago and that statement he made, "shoot all looters to kill". A lot of people didn't see nothing wrong with it, but you know, he never said shoot murderers to kill. He never said shoot dope pushers to kill because murderers and dope pushers is dealing with human rights. Looters is dealing with property rights and to be honest with you when DALEY said shoot all looters to kill that's the first time I ever agreed with that fool. Yeh, I hurried up and sent him a telegram, I said, "Dear Fool, Your statement pertaining to shooting all looters to kill, I agree with whole heartedly if you make one stipulation, let's first make it retroactive and let's first put the gun in the Indian's hand. (APPLAUSE) So I say you youngsters got a big job, keep your eyes open and watch everything especially us old fools. And by all means watch your mama and daddy and ask them a lot of questions cause you got to sleep around them. (LAUGHTER) You know, someone could knock on your mama's door at daddy's house (knocking sound) and they say, "who is it?" say, "Government agency," say, "what do you want?" say, "uh, here's my identification, we want your dog or your cat," say, "yeh, we just got a bill pushed through, we send pets to Viet Nam." I don't have to tell you how much hell your mama and daddy would raise if somebody

RICHARD CLAXTON GREGORY

tried to send that dog to Viet Nam, do we? It'd be a shoot-out on the front lawn. (LAUGHTER) AS funny as that sounds, it's very sad that you live in a climate today where your mama and daddy would raise more hell over the dog going to Viet Nam than they'd raise over you, going to Viet Nam. (APPLAUSE) Maybe your mama and daddy wouldn't be so up tight over you resisting if they got their mind off making money for a little while and start investigating and start listening to what you youngsters are talking about. But us old fools we so busy trying to make that buck we don't understand. I'm sure your mama and daddy would have a reaction if they knew there was 152 senators and congressmens' sons that been old enough to get drafted and haven't been drafted yet. I'm sure if your mother and daddy realized that DEAN RUSK's son five years ago became old enough to get drafted and he ain't never left Washington, D.C., as many boys as DEAN RUSK done got killed. I wish I got an induction notice, I'd hurry up and fly to Washington, D.C. and handcuff myself to DEAN RUSK's boy. (LAUGHTER AND APPLAUSE) Then I'd get on television and say to all the fools whatever's wrong with DEAN's boy is wrong with me. (APPLAUSE) Yeh, you all please watch them folks. Notice how us fools get up tight over you youngsters burning draft cards? I guess you know why we get upset. You ever ask yourself which is the most important card in America, the draft card or the Social Security Card?

Sure it is, Social Security Card. Social Security stays with you all of your life, women and men have Social Security cards; draft card stays with you part of your life, just men have draft cards, so without a shadow of a doubt the Social Security is the most important card in America. Why is it all of us in this room tonight could stand up and burn our Social Security Card and nobody cares? Although, it's the most important card. But if you burn your draft card, oh! they'd run the Army in here. Because, see, when you young kids burn them draft cards you saying to us old fools, "one day old fool you going to get this country in a war that we not going to fight for you and you have to fight it yourself." (LAUGHTER AND APPLAUSE) That kinda scares us but I got news for you, for we have to go fight one of our own wars, we'll quit having them.

I was at the University of Wisconsin about six months ago and I was leaving and a young kid walked up to me and said, "Mr. GREGORY, can I talk to you?" I say, yeh, what's happening? He say, "I got a problem," I say, "what is it," he say, "I think I'm having a nervous breakdown," I say, "why?", he say, "I'm a draft resister", I say, "did you do what your convictions told you to do," he says, "yes", I say, "something wrong because if you have a moral dedicated conviction they might throw you in jail and kill you but nobody has ever had a nervous breakdown from believing and doing what was morally right." He say, "it didn't have

nothing to do with me, it's my mother and father, they don't have nothing to do with me anymore cause of my draft resistance they don't want me to come home, they don't write me, I don't hear from them," I says, "I really haven't got time to waste discussing your problem cause the only problem you got is you got weak enough to react to parents who think that the wisdom of fools", he says, "but it my mother and father", I say, "well look, let me put it this way, I know that had you not been a draft resister, had you taken 40 sticks of dynamite one night at 3:00 O'clock in the morning and tossed it into the girls' dormitory and leveled that building to the ground and killed every girl in it, I know damn good and well your mama and daddy would have flew in town on the first plane and came by the jail and hugged and kissed you and said, 'we wonder what's wrong with our boy', but they'd got you the best lawyer money could buy, and they'd go out and raise the bond money." So it's very sad that we live in a society today where your mama and daddy and the community that they deal with can rally behind them better if your have been a murderer than they could if you were a draft resister. You youngsters have got a problem. You got a problem. You going to have to ask a lot of questions and one of the main questions you youngsters going to have to ask is you going to have to ask it loud and mighty clear

and that's the simple question that if democracy is as good as we tell you it is, then why in the hell are we running all over the world trying to ram it down people's throat with a gun? (APPLAUSE) The day you young kids make this democracy work right that's the day we can bring the guns home. Because you see, anything good you don't have to force on people. They steal it. (LAUGHTER) So you have got a job, to make democracy beautiful that everybody will be trying to steal the idea, steal this form of Government. Let me say what I'm going to say to you now is probably the most important thing I say to you all night, that is, simply I hope you youngsters don't make the mistake at this or any other institution that us old fools made when it was our turn to occupy your position at these colleges and universities. You see, when we went to school, we was so busy learning how to make a living we forgot to learn how to live. I say to you youngsters today that if you waste your time at this institution or any other institution just learning how to make a living, you have failed, baby. But if you spend your four beautiful years at this or any other institution learning how to live, I guarantee you making a living will be the easiest thing for you to do on the face

of this earth bar nothing. Oh, I meet a lot of people who say, "well, I'm going to school to learn how to be somebody", hell, you was born somebody and if you going to let somebody teach you how to be somebody else that makes you two people. Read what SIGMUND FREUD says what happens to you when you become two folks. (LAUGHTER) Why you go to college for four years and pay top dollar for somebody to teach you how to be crazy? (LAUGHTER) Then you meet people who say, "well you got to go to school so you can get a job cause we got to eat." Well, if you learn how to live, eating is an easy thing for you to do. A gorilla eats more food in one meal than you eat in six weeks, you ever known one to go to college? (LAUGHTER) You ever bumped into a gorilla in the supermarket? When is the last time you ever read where a gorilla starved to death? (LAUGHTER) So see, once you learn how to live like the animals, eating ain't no problem. Matter of fact, if you ever learn how to live you find half this old stuff you eating now is what's causing most of the problem. (LAUGHTER) Ain't no way in the world you can ever learn how to live and smoke. So what are they teaching at these colleges? Ain't no way in hell you could ever learn to live and use dope, so what are they teaching

of them. (APPLAUSE) The only reason they qualify to be on the board of directors is because they made some money. (APPLAUSE) They don't know a damn thing about education and Lord knows they don't know nothing about you kids. (APPLAUSE) They ought to pass a bill that if them monsters was caught within a 500 mile radius of a college they should go to jail for life. (APPLAUSE) Can you imagine ROCKEFELLER how many boards of directors of college institutions the ROCKEFELLER families are on? If it wasn't for that damn Chase Manhattan Bank of theirs them brothers in South Africa could breathe a little better. If it wasn't for that damn Standard Oil, all of South America could get free and that monster is on college boards of directors all across this country deciding what you young kids is going to be your trend of thought. He don't qualify to even deal with you youngsters. See, you got a big job ahead of you, mighty big job, ahead of you. You got to see to it that these institutions stop indoctrinating and programming, oh, they great at programming. You come to class and we give you a book, "this is your assignment, read the book." Oh, we don't program you with the book, no, after you read the book we give you the test and if you didn't read the book the way we want you to read the book you can't pass the test (APPLAUSE) that's where we get you. See I've got to give you a test every so often to find out if you been

programmed right and that's what you get kicked out of college for cause you can't take the program, man. Hell, you can be the dumbest kid in America long as you steal the test they won't put you out of school long as, that's why kids will stoop to the lowest depths to steal the tests because once you get the tests you don't need the book. (LAUGHTER) We don't grade the book, we grade the test. And so you can stay out of school and cheat and cram the last day before the test and pass, if it wasn't no test you'd have to cram for four years. (LAUGHTER) There's a difference. We might not be graduating as many but you can believe everybody that we did would be thoroughly educated individuals. We just running these indoctrination through left and right. Every time you look around, huh, yeh, you got a big job.

That transcript, is that a fraud. That transcript ain't nothing but a threat us old fools hang over you kids, that transcript ain't worth the paper it's written on. If you think that transcript is important, then you leave here after you graduate and meet somebody four years from now you want to marry and see if they want to see your transcript. (LAUGHTER) Anything in life that you ever do that's important, see if they want to see your transcript. Get married and decide you want to have some kids and see if you have to take your transcript to bed with you. (LAUGHTER)

You think that transcript's any good? You let a college burn down to the ground and destroy all the records and see if you have to come back and go to school over again. That transcript ain't nothing but a threat we hold over your heads so we can show industry and all the fools, say, "yes, SUSAN made straight A's, yes, we need that child, she's well programmed". (LAUGHTER) That's why a lot of black students not (inaudible) cause there's rumbling on the college campuses today and the interesting thing the young kids across the country is not aggravating society asking for less responsibility, they're asking for more. The unions are asking for less. They was talking about a four day work week, four hour day and we say, yeh, baby. So we can cheer money. And if that statement sounds anti-union, I meant for it to be. I'm so damn sick and tired of the unions that came through and hustled and scuffled and tried to change system and they the first ones should be reaching out getting you young kids a hand forcing this change but they've joined the ranks of the syndicate hoodlums and the filthy politicians. So as you youngsters change this if the syndicate don't get back, I mean if the hoodlums, oh well, forget it. (LAUGHTER) Change the unions if you can and if you can't destroy them. (APPLAUSE)

So you got a job to do, a big job ahead of you, huh, mighty big job. So I say to you keep your eyes open,

RICHARD CLAXTON GREGORY.

It's very interesting what's going on on the college campuses today, us old fools don't understand what it is. You black kids and white kids, we not talking about white folks anymore, we've past that stage, that was a groovy stage. We past it, we're not worrying about nothing but the racism in the institution which ain't got a damn thing to do with you white folks. All white folks in America would leave this country tonight and leave nobody here but Indians, Mexicans, Puerto Ricans, and us, and if we had to use that same set of laws you was using we still couldn't get in Harvard and Yale and the rest of these institutions. This is what we going after now is to change the structure once and for all. We talk about teaching black classes to black kids and that sounds kinda strange, it sounds like race, but it's not but all at once we want to know who we are. I want to know is I the E-bu or the um-bu. (phonetic) (LAUGHTER) I know I ain't no nigger and I want to find out what I am. I been a good nigger but now I decided I'm not going to be that and I want to search and find out what I am. (APPLAUSE) It's just America kept me from knowing (inaudible) teach it to me. That's what we talking about. But it this races structure.

Oh, two years ago had I galavanted across the country and say the problem with black folks is we need black cap-

italism, everybody would have said I was a racist. But that white boy, Tricky DICK, can talk about it and because he's white nobody think that's racism. (LAUGHTER) Yeh, oh, NIXON run all over the world talking about black capitalism but nobody in America ever accused him of being a racist because he white boy.

You ever look at that television show the Dating Game? Everytime they got a black man on it, they got three black women, and nobody ever says (inaudible) that was racism, but if I went on the show and say I'm not going to work the show if you have a white woman, I want three black sisters, everybody accuse me of being a racist. Yes, we tired of this racist institution. This what we talking about, this what we trying to change. So I say you youngsters got a big job ahead of you. You girls, man, let me tell you it's hard to believe that anything that got life is as dumb as you broads. (LAUGHTER) I mean you don't have to take my word for it, your action speak for itself. The day you was born you was born a female and how you fools let us men sell you billions of dollars of trinkets and you waste millions of hours trying to improve on your womanhood. You can't improve on your womanhood no more than it was the day you was born. We got you around here up on your toes with high heel shoes,

if being up on your toes was good for you, don't you think we would be up there? (LAUGHTER AND APPLAUSE) Everytime you look around a bunch of old fool men sitting around discussing population explosion. You don't ever see no women worrying about population, all the men worry about it, and how you women can be so dumb to let us worry about it but make you take the pills. (LAUGHTER) Yeh, you got to run (inaudible) you take the pill, but you stop it at your end and what happens? (LAUGHTER) Since we the ones that's worried about her. If you don't want to be that dirty, go 50-50 with us. You women take the pills on the odd months and let us men take it on the even months. (LAUGHTER) Them damn fools in Washington, D.C. and the Surgeon General's Office ever released that report they got on birth control pills, they know damn good and well anybody using those pills cautiously for 15 years from now, may 98% of everybody going to have fatal causes with them. They got it, just like they had the cigarette report. I cannot believe that this country is so monstrous that they let us, England took them off the market, not because of their research but because of that report that they got hold to that we squashing. So, I don't know how in the world you women, you see, if you ever change your thought you sure would tighten up the world and half the problems confronting us fools would be over. Have you ever read where a woman has caused a war? All the

RICHARD CLAXTON GREGORY

wars are caused by us men but after we cause them then we run back and get your babies to fight them. Something's wrong somewhere. How do you carry a baby in your belly for nine months, then spit it out and watch it go through the changed, hug it when it's sick and play with it when it's happy and just when it gets to the fruits of life the fool says send him to me and you let him go. Are you out of your mind? Somewhere when you women start teaching in that crib that you not raising no killers then us old fool men is going to have to either stop having wars or find another way of fighting them. They ain't got no respect for you women. How the hell you going to let us kill off your kids and then when Christmas rolls around we have a truce in Viet Nam? Are you insane? We can stop fighting a war to celebrate some old dumb stupid holiday that ain't got no mother, no father, no kids, no loved ones, but we can't stop the war to celebrate your mother. Something's wrong. (APPLAUSE) Well you ladies got a big job to do, so I say to you young folks keep your eyes open 24 hours a day. You'll be surprised how hip you get. That's one good thing I can say, I do keep my eyes open. I learn a lot, too. That's why everytime you see me I got my Bible with me. I never go nowhere without my Bible. I don't read it but, (LAUGHTER) one time I didn't even have one. But just watching and picking up things, I found out. You know, the missionaries went to Africa and

RICHARD CLAXTON GREGORY

when the missionaries arrived in Africa the missionaries had all the Bibles and the Africans had all the land. (LAUGHTER) When all the missionaries left Africa the Africans had all the Bibles and the missionaries had all the land. (APPLAUSE) So anytime you see me I'm going to have my Bible. One day I'm going to walk into Hilton's Hotel and when I leave, you going to see HILTON with the Bible. (LAUGHTER) I'll have that big ring of keys. (LAUGHTER) Oh, I can't tell you, I ain't got enough time to tell you how much I've learned from the white Christians. (LAUGHTER) I never will forget when I met my first white Christian. (LAUGHTER) I was a little bitty boy, eight years old, walking down the street, heard a voice say, "come here boy" that's how come I knew he was a white Christian. (LAUGHTER) I walked up to him and say, "yes sir, Mr. white Christian," (LAUGHTER) he say, "boy, what is it you want to do when you grow up," I say, "oh, Mr. white Christian, when I grow up I wants to go to Africa and visit my ancestors. He said, "boy, why do you want to go to Africa and visit them savages?" I say, "Mr. white Christian, why do you call my ancestors savages?" He said, "cause they are, they're a bunch a damn cannibals." I said, "what a cannibal?" He said, "they eat people." I said, "oooh, (LAUGHTER) real live human beings, they cook them?" And I had to take the white Christian's word for it cause white Christians ain't going to lie to us, right? Right. (LAUGHTER AND APPLAUSE)

And it was a good thing because two weeks later I got it confirmed. I went to see my first TARZAN movie. I walked in on the middle of the picture in that scene where they was cooking them folks. (LAUGHTER) It's not funny, that's a hell of a thing to find out your folks eat folks. (LAUGHTER) I didn't know them wasn't real live Africans, them was some old California niggers but how'd I know. (Inaudible) I was upset, I never will forget that Sunday I rushed out of that movie and ran into the first church I came to which happened to be a white Christian Church and I fell on my knees and prayed, "please white Christian God, forgive my black cannibal ancestors, savages," just about that time the white Christian minister overheard my prayer. He was deeply touched because he just lost three missionaries. (LAUGHTER) He was touched, and he walked up to me kneeling on the altar and he was so touched he took his hand and put it on my head and rubbed it for luck. (LAUGHTER) Then he spoke such brilliant words of wisdom. "Boy, I didn't know a black boy had that much sense to pray for them cannibals". I say, "yes sir, Mr. white Christian minister, I been so embarrassed ever since I found out my ancestors was cannibals, I pray every time I get a chance that the white Christian God will forgive them." So I got up and got ready to leave, he says, "no son, any black boy that got that much sense to pray for them cannibals savages, I want you to stay here and share communion with us."

So I said, "no sir, Mr. white Christian man, I just wanted to pray for the cannibals. Communion, what's that?" He say, "get on your knees and open you mouth, this is his body and this is his blood". (LAUGHTER AND APPLAUSE) Yes, I can't tell you how much I learned from the white Christians. Now, I pray for all the cannibals. (LAUGHTER) Even those who become cannibals by proxy. (LAUGHTER) Say, let me ask you youngsters to do me a favor. One day this week you stop by the library and copy down the Declaration of Independence. Don't read it just copy it. You know how to copy without reading, right? Sure you do. (LAUGHTER) I want you to carry the Declaration of Independence with you 24 hours a day never be caught without it. The favor I'd like for you to do for me when the riot season open up again. (LAUGHTER) Yeh, this system even program black folks that we got a season to riot, July through August. (LAUGHTER) Last year we didn't show and upset the whole country. Everybody still running around, "where were they, what happened?" (LAUGHTER) They asked GEORGE WALLACE, "how come you think they didn't riot?" He say, "oh, you know them niggers is lazy and shiftless, they was tired." (LAUGHTER) I tell you where we were last July through August, no we got tired of stealing all them old no good products, so last July through August, we decided to go underground and study the consumer reports. (LAUGHTER) So when

the riot season open up this year we ain't stealing no more Motorolas. (LAUGHTER) Yeh, now here's the favor I'd like for you to do for me. When the riot season open up, I'd like for you youngsters to go home and get around your parents and you black kids get around your parents, cause you got some black folks in them houses that think more degenerate, corrupt than the Klu-Klux-Klan could ever think and you do know what I'm talking about. Get your television set and put it in the middle of the room and turn on the evening news cause they sure enough going to show them riots but turn on HUNTLEY and BRINKLEY cause they get close ups. (LAUGHTER) ABC and CBS they cover the riots but they get it from a helicopter, you know, no, no, NBC gets such close ups that you can recognize your kin folks. (LAUGHTER) "Say look, there's Uncle DUDLOW, I didn't know he was in Detroit. (LAUGHTER) He got him five televisions, too." (LAUGHTER) After you turn the riot on then go upstairs and get them parents and bring them down and put them in front of the television set. Listen to them, listen to them react, you've heard them before. "I don't know what's wrong with our folk. What's wrong with them niggers," just listen to them fools talk. Then the favor I want you to do for me is after you've heard enough of it go up and turn the sound off, so they don't see nothing but them niggers burning and looting and socking it to that town. Then take

out your Declaration of Independence while they just looking at the picture and get way behind them and read the Declaration of Independence to them as loud as you can and maybe for the first time they will understand what they looking at. We hold these truths to be self-evident that all men are created equal and endowed by the Creator with such inalienable rights that when these rights are destroyed over long periods of time, it is your duty to destroy, abolish that Government.

(APPLAUSE) I know at first them old fools is going to assume that that was some message that MALCOLM X left for RA'P BROWN.

(LAUGHTER) But I'm sure with a minimum amount of persuasion you can teach them that that was their beloved Declaration of Independence, that one with the mistake on it. That one that they forgot to put, for white only. (LAUGHTER) Let me tell you something, as dumb as white folks think niggers are, if you don't put for white only on the Declaration of Independence, I swear it really read like this, for everybody.

(LAUGHTER) That's right. And so I guess we making an honest mistake cause when we read it we thought PATRICK HENRY and THOMAS JEFFERSON and the founding fathers, we thought they really meant that after long periods of injustice it was your duty to destroy, abolish. Now, what you should do is run get this out the black community, since you going clown after I (inaudible). They made me take a test on it when I was in school. I didn't want to read it in the first place. (LAUGHTER)

You ain't going to graduate unless you learn the Declaration of Independence. Now I read it and find out America can't survive with me knowing what it says. So we would appreciate it if you would get this out of our neighborhood and put white only on it, then send it back to us. And while you getting that out get this old trampy American History Book out that tells me about all these white heroes. It tell me white folks landed on the Plymouth Rock and shot and murdered they damn way all the way to California and then askiagnigger to behave? (LAUGHTER) You got to be putting us on. Have you ever read this history book or are black folks the only ones reading it? GEORGE WASHINGTON didn't make this history book cause he was a good preacher, he was a good soldier and he whooped the British good. "Give me liberty or give me death," who said that, RAT BROWN? (LAUGHTER) Oh, I know STOKLEY CARMICHAEL there, he's in there. "Don't shoot till you see the whites of their eyes." (LAUGHTER AND APPLAUSE) Are you serious? You think you going to make me learn this book and nothing's in it but murdering from one end to the other in the name of freedom? No, so please get that out. Tell me to have respect for law and order? And in this damn book here you tell me when the British was the police and a white boy by the name of PAUL REVERE rode through the white communities and say, "get a gun white folks, the police is coming." (LAUGHTER)

Are you really telling us that as long as you white you can do all the filthy things you want to do to get free? You really believe you can send niggers to Viet Nam, niggers down in your Army camps and you teaching them how to be gorillas. (LAUGHTER) Send them all the way across that pond they been murdering people for five years trying to free some foreigner, you really think that nigger not going to come back here and do the same? Do you really think you can turn niggers on and off like that? Huh, something wrong, somewhere, yep. You know, briefly in leaving you tonight, let me discuss with you, black attitudes in America. Make no mistake about it we got some attitudes, thank God, at last. We don't know what it is we been doing that's alienating white folks in America, the way they been alienated for the last two years but we got news for you. Whatever we been doing, we going to keep on doing. (APPLAUSE) Cause you see, we found out the more alienated the white folks get, the safer we are. You don't lynch niggers no more. Man, we was running around behaving and praying and singing them old songs, it was just open season on us. (LAUGHTER) Cat would yell, "come here nigger", now you might use it in America, but you damn sure make sure I don't hear it. So I want to know what it is about the nature or the beast that he'll go get him a double-barrel shotgun and go hunting for a little bitty rabbit. But you couldn't pay him to go bear hunting. (LAUGHTER)

You go out in the damn forestt and kill up all the animals out there and two years ago when them bears ate them two white ladies, they sent the Army out looking for the bears. (LAUGHTER) Well, we got an attitude today cause we tired of these insults.

You know how much it alienates black folks when white America tells us to be non-violent? You know whose telling us to be non-violent? The only nation in the history of the world that's dropped an atom bomb on another human being asks us, huh, to behave. Nobody knows the alienation better than I because I'm a slave to non-violence. I don't preach it, I live non-violently. I believe Thou Shalt Not Kill even covers animals so consequently I'm a vegetarian. That's my hang-up. I don't go around preaching non-violence and vegetarianism in a country where it says you have a right to carry a gun, beautiful, I just don't like that right. I got a right as an individual if a man is going to kill my wife and seven kids and the only way I can stop him, I got to kill him or injure him, I got a right to say that I will never committ a violent act if it means death to my whole family. I don't have a right to tell you you got to stand by and let some chump wipe out your family. So I don't preach non-violence. I'd be silly to, in a country where MATT DILLON comes into your home to teach you it's a virtue to shoot straight. But he a white boy. (LAUGHTER) So my non-violence

is strictly my hang-up. My vegetarianism is strictly my hang-up. I would never knock a steak off your plate. (LAUGHTER) I'd never let you put a pork chop on mine. (LAUGHTER) I'd never take a stick of dynamite out your hand and I'd never let you take my picket sign out of mine. But as non-violent as I am, it alienates me to the enth (phonetic) degree when white America tell black folks to be non-violent. She owns the mightiest Army, mightiest Navy, the mightiest Air Force, she owns all the police, state police, sheriff's police, local police, CIA, FBI. She owns all those guns and we don't own a damn thing and she looks at us and says be non-violent, boys. We say, you go to hell. (APPLAUSE) We say to America if you really believe in non-violence as you think you do, if you really believe in non-violence, which you don't, we say prove it. Don't do nothing for us cause we prove we burn a town down. But if you really believe you believe in non-violence then we say get upon that Indian reservation and cut my red brother loose cause you can't be no more non-violent than your Indian borther's been for the last 75 years, what happened? What happened? So as long as that Indian's on that reservation, you should never even utter the word non-violence cause looking at him you prove you have a hell of a contempt for non-violent people. We in Viet Nam tonight

RICHARD CLAXTON GREGORY

with half a million violent American boys with their life to free and give a foreigner a better way of life than you want to guarantee your own red brother who you stole (APPLAUSE) this country from. (APPLAUSE) So we say get that Indian off that reservation and we might believe you respect non-violence but as of now there's no way that we'd ever believe you'd give a damn about non-violence. If that Indian wants a better way of life in the morning he's going to have to understand that he's dealing with a system so insane and so degenerate that until you make a peep up through a muzzle of a gun she will keep you a nigger. Oh, if that Indian got on a viaduct in the morning in Arizona and caught white folks driving down the expressway and started shooting at them, pow, pow, yelling "red power, woo, woo, whitey go home", and when that Indian say whitey go home, he talking about the big trip, baby. (LAUGHTER AND APPLAUSE) Oh, yes, that Indian raise hell in the morning the whole country would be crazy tomorrow, I can just hear it now, "them filthy reds". (LAUGHTER) Sunday you turn on television and look at Meet the Press, they'll be interviewing some old Uncle Tom Tom Indian, (LAUGHTER) that would be saying everything the fools want to hear. I can just hear him now, "yes sir, me like a heap of reservation, (LAUGHTER) problem come from them young bucks, (LAUGHTER) them stalky red horses (inaudible) (LAUGHTER) (APPLAUSE) All the fools would go to bed believing the Indians don't want nothing.

RICHARD CLAXTON GREGORY

That Indian keep coming off that reservation and burning and looting and socking it to the town and getting him some of them blond scalps. (LAUGHTER) Raping a few of them white ladies (LAUGHTER) you might not dig him but you start listening to him. Some way you youngsters got to create an atmosphere in this system that a man can get a redress of grievances without throwing a brick and without bad mouthing, right now it's not an atmosphere. Oh, if that Indian raise enough hell, baby, this summer you turn on television you be seeing Indians this summer like you saw us last summer. Yes, tune in every Tuesday night, one hour special, seven part series, Meet Your Indian Brother, sponsored by Xerox with no commercials. (LAUGHTER) Oh, that Indian raise enough hell next year this time, you have an Indian here talking to you. (LAUGHTER AND APPLAUSE) It's sad that I have to stand here and admit to you that as long as that Indian is non-violent and peaceful you know nothing about him. But the minute he starts getting violent and raising hell you would know about him. You'd find out some things that would make you ashamed not only being an American but being a human being. The highest form of tuberculosis amongst any minority group on the face of this earth don't happen behind the Iron Curtain, it happens upon your Indian reservation. Huh, why you all over

the world trying to stop Communism, huh, you don't give a damn about your injustices. The highest form of suicide rate among any young group of people on the face of this earth don't happen in Moscow, Russia, it happens on your Indian reservation. An Indian mother marched down the street today to protest a Government action and if she have any kids she lives in the state of Washington, her kids will be sent to Oklahoma to school. That's how they break up the demonstrations because the Federal Government still has the right to send an Indian kid to the school they see fit and not the school the parent sees fit and you wonder who invented bussing, huh? (LAUGHTER) Not only do you keep them pinned on that reservation, you still sending this old filthy book up there to read. When the calvary won, it was a great victory but when the Indians won, it was a great massacre. They wasn't doing nothing but beating off an invader. You don't even spare them the insults. You still send them all that literature up there because you not only pin them up there you control their education, too. You got them same books up there about KID CARSON was a great hero to us. KID CARSON got his name KID cause he killed more Indian babies than any white man in the history of America, and you still send that filth up to the Indian reservation. Yeh, you don't know that man's name because he's been too quiet and that's sad.

RICHARD CLAXTON GREGORY

Somewhere behavior and non-violence have to pay off and you got a job to do. Of course, we leave the Indian business to the Bureau of Indian Affairs. (LAUGHTER) That makes about as much sense as hiring the Klu-Klux-Klan to implement the Civil Rights Law. (LAUGHTER) The Bureau of Indian Affairs, ain't that a joke? You know the money it takes to run the Bureau of Indian Affairs if they was wiped out in the morning the money it costs to run the Bureau, every Indian in America could get \$4,300. a year a piece. We don't care about him, we don't know about him. So somewhere you youngsters in changing this system will have to see to it that America will become as annoyed with injustices at home as she is afraid of Communism abroad. Then maybe we'll wipe these injustices out.

Our Mexican brother in California said, "brothers, please don't eat no California grapes." Have you listened to him? He's going to win his battle for human dignity and if you deep eating them grapes he going to win it next year, he's just going to have to blow up the grape vineyards. Then everybody say, "I wonder why them Mexicans is so violent." Cause you didn't help them be non-violent when they asked you to. So, I say to you in leaving tonight that black folks have got an attitude. We tired of these insults.

People ask us well, "how come y'all don't want to be called Negro?" That's what we saying, we just want to be

called black. We tired of these games. You don't play no games with yourself and we hate to put you in an im- position but a Jew leaves Israel tonight to come to my country, he was a Jew in Israel and he stays a Jew when he get here. An Italian leaves Italy to come to America, he was an Italian over there and he stayed an Italian when he got here. An Irishman left Ireland to come to America, he was an Irishman over there and he's still an Irishman here. So we look around and we see you don't play no games with yourself, why play them with us? We left Africa, Africans and when we got here we had to be Nigrus and Newgrus, (PHONETIC) and colored folks and we don't want no games played with, that's what we saying (APPLAUSE) and if you want to play games, go back and change your thing, call yourself some Bugudoos or Boolaboos (phonetic). (LAUGHTER) So we saying we got an attitude and the attitude is a simple attitude, we are re- acting to insults. We cannot make white America quit insulting us but we saying one thing, from here on in, when you insult us get ready for a reaction. That's something new because you didn't have to worry bout that your mama and daddy didn't. We was so busy being niggers. America has always needed niggers but doesn't have to be black; the Jew, the Irish, the Italian. We just happen to be the best nigger America ever had. But we ain't America's nigger no more. And for some reason she trying to hold on to us. You'd better go on and get you something else. (LAUGHTER) Twenty or thirty

years ago, black folks had an empty stomach. Today in America black folks got a full stomach but a hungry mind and a hungry mind will not tolerate the same thing that a hungry stomach did. Empty stomachs deal on smell and hungry minds deal on sound and all at once this country don't sound right to us anymore. Five years ago three white boys burn up their draft card and within two weeks time the Senate and Congress had passed an anti-draft card burning bill. We haven't been able to get them to pass an anti-lynching bill in 100 years. My country just told me she thinks more of a piece of cardboard than she does think of my black mammy. I'll bring her to her knees for that. If I was in Viet Nam tonight and got killed by a Viet Cong, this country would give my black wife \$10,000 and she couldn't take it and buy a house in any neighborhood she want one in. Hell, I got killed shooting at the wrong force. (APPLAUSE) Now America tells me I got to get a fair housing bill to live anywhere I want to live in my own country, we say what in the hell do you think you are. That old white Russian cracker broad STALIN's daughter, a known Russian and a known Communist, you ain't supposed to like neither one of them, you didn't make that broad get no fair housing bill to come to my country and live anywhere she wants to live, why do I have to get one. This is what we trying to say. We reacting, to these insults. All

these old Russian exchange students that come over here to my country to go to these colleges, they don't want to be your citizen. You don't make them get no fair housing bill to live anywhere they want to live in these old racist college towns. Why do I need one? We not telling you to stop but we can't understand how come you can't understand our attitudes. This is all we saying. So we tired of these insults. People tell us education is our problem, huh, that ain't nothing but a cheap whitey cop out. (LAUGHTER) You prove that everyday you got a half a million in Viet Nam ready to free that Vietnamese in the morning. You ain't never questioned that Vietnamese' educational standard. Why question mine? And when you do question my educational standard, question it right. That's why we hollering about teach black history in these white institutions because if you ever read my history instead of listening to what you mama told you about me you find out your mama come closer to being your nigger than me. (LAUGHTER) Education's my problem? You ever stopped to ask yourself how many millions of people would be dead on the face of this earth if it were not for blood plasma? Are you aware of the fact that CHARLIE DREW, a black American, invented blood plasma? Don't take my word for it, check it out in your library. Are you also aware of the fact that CHARLIE DREW bled to death in an Atlanta, Georgia, hospital waiting room, after an automobile accident because they didn't accept niggers? Education didn't have a damn thing to do with it. The man had the

educational knowledge and genius to give Hood plasma to the world and died from the lack of his own invention cause his face was black and now you want to run in and tell us education's our problem. Come on baby, get up off of (inaudible). So we saying we tired of these insults. Oh, there's a lot of people, a lot of white folks in this country who believe a nigger is the stinkiest smelliest thing, well, I don't have to tell you, you heard her. I'm not here tonight to convince you that niggers don't stink. (LAUGHTER) I say do your own research. (LAUGHTER) Check the records of the cosmetic industry and see how many billions of dollars per year you white folks spend on deodorant. (LAUGHTER) Then check the deodorant commercials on television and see if you ever see a black armpit. (LAUGHTER AND APPLAUSE) Then use your own intelligence you was born with and figure it out for yourself. If niggers is doing all the stinking and white folks is buying all the deodorant, who really stinks in my country? (LAUGHTER) So we saying we tired of these insults. There's a whole lots of white folks that believe a black man is inferior to them because we are black. That's your hand-up, you groove out with it good, but don't insult me with it no more. You know the interesting thing is the same white man that believes I'm inferior to him because I'm black, he'd be the first one

to tell you if I went to bed tonight with a Japanese woman and gave her a baby, the baby would be colored. If I go to bed with a Chinese woman, Italian Woman, a Jewish woman, I can go to bed with any woman on the face of this earth and give her a baby and the baby going to be me. My sister can go to bed with any man on the face of this earth and get a baby and the baby going to be her. Is that inferior stock to you? (LAUGHTER) We saying we tired of these insults. We are tired of them. Our people tell us we should quit marching, go down to the ghettos and pull your brother up by his boot straps, and we say why don't you give him some boots with some zippers in them? Black women in America have 20% illegitimate babies. Y'all ain't lying on us on that one. We can't deny it cause we've had fun in the ghetto, baby. (LAUGHTER) White women in America has 2% illegitimacies but we tired of you white folks thinking you better than black folk cause your white ladies illegit is 2% and my black ladies is 20%. Please quit thinking you better than me, cause baby, if we could ever get our hands on your white folks abortion credit cards we, (APPLAUSE) could show you (APPLAUSE) (inaudible). Now white folks running around and they want to know why you colored folks get married and have all them babies in the ghettos, you know you can't take care of them. We know it. You going to end up on relief, we know that, too. The only thing we see wrong with relief, it ain't enough of it.

RICHARD CLAXTON GREGORY

(LAUGHTER) If words like relief and ADC and Welfare alienates you, change it. Call it foreign aid. That free money don't seem to bug too many people. Or call it what you call that money you give these Missouri farmers, what do you call it? Subsidies. (LAUGHTER) Yeh, just change the name, look like you hung-up on a name. Call it subsidies. You going to pay farmers in America billions of dollars every year not to plant and then don't want to pay my sister after she plants. (LAUGHTER) As far as all them black babies we have in the ghettos that we can't take care of, we'll make a deal with you, the day this system learn how to hire black boys and give us good jobs like you gives your white boys so we can afford all the whores and prostitutes that you can afford, we'll quit having all them babies at home too. (APPLAUSE) We don't have to ask you about that whore, because it is my sister and she talks to us, so we know what you doing. We ain't guessing nothing, we know what's going on baby. We saying we tired of these insults. I had a white cat on the plane the other day comes all the way out to the tour section to the first class section to ask me, "you know I really understand you colored boys." (LAUGHTER) I say, "man, I don't come back in here in the cheap seats to alienate you, why you want to come up here in the first class section and bug me?" "Well, I just wanted to say that you boys oughta teach your black folks some responsibility" and I say that because I got records, I'm in industry. I've had a factory for 40 years and ain't hired nothing but colored boys,

they can't get to work on time, always take off early and I got records to prove it." I said, "well, have you looked at your records good? You look at all of your records, or just the part you want to see? Maybe I should check your records out for you because at one time I was one of them niggers you used to hire. Do your records show you when you first hired us we stand in line two hours the first day we get the job waiting for time to come around to punch in, that's how happy we was. Then for the next eight hours I got to walk around being called coon and nigger and head rubbed for luck and goosed in the butt. (LAUGHTER) You know anybody in their right mind going to hurry up and get to work early for them insults, baby? The later I got to work everyday the longer I kept my manhood and the earlier I could get off the sooner I got it back." (APPLAUSE)

When I stop and think black folks in America die six years younger than white folks. I got seven black kids at home and everytime my seven kids sit around the dinner table with me at the same time I got to look 42 death years in the face that no white father with seven kids have to look at. Huh, for some reason people don't seem to know what's on our mind. I'm trying to get them seven black kids them same six years of life you going to have for your kids. To be honest with you I couldn't give a damn who I alienate to get them. I wish I could stand here and say if white folks ever lost six years of their kids life that I would work equally

as hard. I hope I would but I couldn't say. So we tired of these insults. Then I stop and think had a German killed my daddy during World War II, had a German killed my daddy in 1942, I was 10 years old and I'll be 37 years old this year, huh. That's no insult cause when daddys go to war they go to kill or be killed. The insult is the same German that could've killed my daddy in 1942, and made me go 27 years without a daddy, that same German tonight can come to my daddy's country and live in a neighborhood my daddy's boy can't live in, do you really understand what we talking about? Before we'd sit by ever again and let you treat your enemy better than you treat your citizens, we'll burn this damn country down to the ground. (APPLAUSE) That's the white attitudes. Yeh, that's thinking white. Because we know if we took this country away from you tonight and put you in the same trick for ten hours, this country's had us in for a 100 years, you would burn it down to the ground. We don't have to ask you, we look at your record in Viet Nam. You burning Viet Nam down to the ground today to free a foreigner, we know what you'd do to free your mama. (LAUGHTER) So we say we tired of these insults and all we doing is reacting to them. People tell us, "well, yo'all got to make progress, huh, I got seven black kids at home and every time my old lady get pregnant, I realize how much progress we made. (LAUGHTER) My last little baby daughter, we really got hip on her being that we living in a system that

hate to refer to black folks as Mr. and Mrs. So my daughter was born four months ago and we really got it up tight cause we named her, her first name is MISS, and her last name is GREGORY. Anybody ever want to talk to her going to have to call her MISS GREGORY, whether they like it or not. (LAUGHTER) So we saying we tired of these insults. Progress, everytime my old lady's belly get big, I see progress cause I remember just a little bit over 100 years ago when my black slave sister went to her black slave man and say, "honey, I think I'm pregnant." Them two black slaves fell down on their knees and prayed to their almighty God that their unborn baby would be born deformed. Think about that prayer. They didn't pray that anything would happen to the white folks' kids. They say, "God, we dealing with such a racist inhumane beast that Lord if you could give us this baby born with a limb missing, God, if you give us a baby like that, they'll never be able to sell it from us, we'll get to keep it all our lives." You think about that prayer. Then one day after the child was born, that black slave sister went back to her black slave man crying tears of joy, "honey, the Lord's answered our prayers. His head looks funny, I think he's going to be maladjusted." Them two black slaves fell back down on their knees thanking their almighty God for a maladjusted baby. Huh, a baby that couldn't be sold. A baby that they would get to keep.

all of their lives. Progress - huh, me and my old lady got seven of them little old black kids at home and we ain't never had to pray for nothing, let alone a maladjusted baby. That's all the progress we going to give this system. So we saying we tired of these games and these insults. No more civil rights, we want our rights to say where you get yours, under that Constitution, don't do me no favors.

I want my right under the same piece of paper I pay my income tax by. (LAUGHTER) And even when we try to behave and be good niggers, you misuse us you put a fair housing bill through last year that covers 80% of the houses. What the hell am I supposed to do with the other 20% of me, join the Communist Party? (LAUGHTER) I tell you before you quit playing games we'd like for you to give us just one more bill called the Honest White Folks Bill. (LAUGHTER) None of you get up tight cause it ain't got nothing to do with white folks. Matter of fact, we'll name it something good, we'll call it The Concerned Honky Law. (LAUGHTER) That'll go over big in the ghetto now. It would be a simple law, it will read, "All five year old black male baby boys," it don't have nothing to do with white folks, don't even cover my black sister, "all five year old black male baby boys will have to go to a Government camp for one year from the age of five to six. In this camp, we'll stipulate in the law that these little black

kids will be able to sleep eight hours a day and for the other 16 hours for a solid year," this is where the honest white folks come in, "the Government will teach these little black boys, for one year for 16 hours a day, Nigger when you grow up don't fool with no white woman, don't date no white ladies, you know, before I run, let me say this to you. We can't believe that nothing upsets you more than a nigger with a white woman and you don't want to talk about it. Who do you think you are? One day if you ever get up enough courtesy to yourself and enough courage and enough manhood to talk about your No. 1 hang-up, you might find out it's something you doing to make me want that broad. One day if you ever stop doing it you can have that white broad back till she bugs you to death.(LAUGHTER) Everytime you get ready to sell your new automobiles in September, you can't advertise your new car without a white lady, knowing I'm going to get one of them cars.(LAUGHTER) So I get that white lady, I feel I got to get her to make my gears shift right.(LAUGHTER) I be minding my own business looking through a magazine, there's that old white lady holding that bottle of Pepsi Cola, saying, "thirsty, have a Pepsi." Yeh, I'll have a Pepsi and you too, you old white broad.(LAUGHTER AND APPLAUSE) .Are you serious? I go to my black ghetto, walk into my black house, get in my black living room with my black wife and my black kids and there's your white sister come strolling across my black television set half naked talking about "buy a Platex living bra".(LAUGHTER)

Yes, I'll buy the bra for my old lady and I'll get you for me. (LAUGHTER) Are you really serious? You think niggers was born wanting that white woman? Do you think you had anything to do with it? I went to my first movie I was four years old, I didn't know nothing about no white woman. Didn't never see nobody make love, till I went to the movies, four years old is when you program folks, or did you know that? See that movie four years old looking at them white ladies make love. AVA GARDNER and HUMPHREY BOGART. I didn't know what they was doing but I had enough sense to know one day I was going to do it. (LAUGHTER) I went to the movie every night cause in my home town you could go to the movie for free till you was 12 years old. Long as you had an adult with you. Every night I went to the movie, next thing I know I was eight years old been going to the movies for four years every night looking at white ladies make love. I never will forget that night I was eight years old. I sitting with my friend and AVA GARDNER and ALAN LADD was doing they thing. I nudged my (inaudible) and said, "ooh, I'm sure going to get me one of them when I grow up." He say, "which one him or her?" I say, "I don't know I guess I try them both." Well, I got news for you, I'm grown now and I'm going to get me a white lady and the madder it makes you the more them white.

ladies I going to get me. I hope it makes you so damn mad that you'll quit programming my black kids and show them some black ladies advertising them new cars. Show them some black ladies advertising that Pepsi Cola. Show them some black ladies in the movie making love and once you do that you might find that one day after you de-program us you can have your old lady back for ever, take her to the moon if you want to. (LAUGHTER) You see, the mistake you made with me, the only black woman you ever showed me in the movies was BEULAH. The only one you ever showed me advertising was Aunt GEMIMA. I thought you had enough sense to know I ain't never, ever, ever, wanted to make love to BEULAH. (LAUGHTER) So as I leave you tonight I say you youngsters got a big job to do. Keep your eyes open, think, very important that you think. I was reading that "Colonel" report on Civil disorders in America. It said the problems can be solved in the black ghettos, it will take 80 billion dollars, and as I leave you tonight let me say to you don't bring no 80 billion dollars down to our ghetto. That ain't going to solve the problem. In order to solve the problems first in the black community you going to have to do something first that won't cost you one nickel as far as black folks are concerned.

That is simply you going to have to create an atmosphere where for the first time in American black folks will trust white folks and the way you will do that and won't cost you ;no money on us, you will go upon that Indian reservation and free my red brother, you give my Puerto Rican brother his constitutional rights, you'll get out in the field and free my Mexican brother and last but not least because my Jewish brother plays games with himself that he should paint his face as black as mine and see what you G@ntiles got to say about him everyday. Maybe he'll find out he's in the same trick bag with the rest of us. So what we saying short, simple and sweet, when you free my Jewish brother, My Indian brother, my Puerto Rican brother, my Mexican brother, we will look to you and say, "my brother for the first time, we trust you, come into my ghetto and together we will solve our problems." We say to America if she thinks she's going to solve these problems without freeing these other folks first then we say to you take that 80 billion dollars and buy yourself some of the biggest guns money can buy.

RICHARD CLAXTON GREGORY

On February 5, 1969, Richard Claxton Gregory addressed about 700 students at Southwest Missouri State College (SMC), Springfield, Missouri. The talk, sponsored by the Student Union Board, lasted about two hours and a 45 minute question and answer period followed. An

SMC made available the original tape which is being transcribed as the stenographic situation permits. The talk was one in a series entitled, "Kaleidoscope-Patterns In A Changing World". Other speakers to be heard in the series include Senator Strom Thurmond, March 31; William Rusher, April 16 and Julian Bond, May 7.

A source of the FBI gave the following resume of the talk:

One of the biggest jobs ahead of you young people is not to destroy the capitalistic system - you've got to work like hell to beat the capitalists into their rightful place behind the Constitution, not in front of it. As long as capitalists stand in front of the Constitution, it is property rights that are being emphasized-not human rights. If democracy is as good as we tell you it is, why in the hell are we running all over the world trying to ram it down other people's throats. If anything is good, you don't have to force it on people-they'll steal it from you.

He said he spends 90 percent of his time on college campuses and will be speaking at some 300 educational institutions within the next ten months. He believes the young people of today are the most moral, dedicated, committed people in the history of

March 31, 1969

Ky. Colonel L. E. Booth, Director of Security, Murray State University, Murray, Kentucky, advised on April 1, 1969, Dick Gregory spoke on the Murray State University campus during the night of March 31, 1969, at a symposium sponsored by the Student Government. The theme of the symposium is "Rights and Responsibilities of Man" and in addition to Gregory, Al Capp and Stanley Kubek are scheduled to speak on April 1, 1969, and Julian Bond and Sander Vanocur on April 2, 1969. Colonel Booth stated that there were approximately 1500 in attendance for Gregory's talk, which was followed by a question and answer session and in his opinion the majority of the audience did not approve of the sarcastic and vulgar manner in which Gregory presented his speech. Colonel Booth estimated there were only approximately 300 remaining for the question and answer session and many in the audience got up and left during Gregory's speech. Colonel Booth learned that Gregory received a fee of \$1,000.00 from the Student Government Association for the speech and he made available the following record of Gregory's appearance and talk: U

"This is Insight, 1969. Insight direct from the Murray State University Auditorium in Murray, Kentucky. Good evening. I am Gary Guthrie along with Stephanie Christian from the radio center of Murray State College. u

Ky  
Tonight on this March 31, 1969, is the first day in a series of lectures. Looking over a crowd here in Murray State University Auditorium. We are waiting for the beginning of the series in which we will have five noted speakers. Tonight's speaker will be Dick Gregory, who was previously named for his night club entertaining and his television performances, and who has since then taken to height for his civil rights. u

In the words of Harry M. Sparts, President of Murray State University, in our quest for intelligence, (inaudible), and political problems, it is our hope those who attend will use the art of deliberate consideration in order to make wiser decisions and work more efficiently in strengthening the great Nation in which we are a part. As Stephanie said, the crowd is near capacity tonight. It is a fairly warm night here in Murray, Kentucky, on this last day of March, 1969. Dick Gregory will soon be stepping to the podium to give his lecture, the first in a series in Insight, 1969. u

You might be interested to know just how the Insight series got it's name. A little bit earlier Gary read a heretic quote from Oliver Wendell Holmes, who was once the Chief Justice of the Supreme Court in the United States and in that time when he did say that the Insight was taken from that. The lights are blinking on and off so I guess they are ready to start the program. Back to that, the Insight Committee was called Insight with the name Insight from the quote and that is how Insight got its name. u

Ladies and Gentlemen. Insight, 1969. Will you please stand for the National Anthem and These Are The Times That Try Men's Souls. (They sing songs). In accordance with the President's declaration of this as a national day of mourning I would invite you to stand now for a fitting moment to follow tribute to the late President Dwight Eisenhower. Please be seated. u

Dr. Sparts, delegates from colleges and universities, women of the press, ladies and gentlemen - on behalf of the Student Government and the Executive Committee of Insight, I welcome you to Insight, 1969. This evening we pioneer a new frontier in the academic maturity of Murray State University. The University is a place where the exchange of ideas is continually taking place. The value of this system can be measured by the frequencies and content of the exchange. Any catalyst which expands the system (inaudible) this exchange is of benefit to the University. With today's mass communication media, radio, television, and the press, we sometimes feel trapped by trustless actions and cliché riddle conversation expressing the ideas, the beliefs, the philosophies of others and not those of our own making. There comes a time when we are to confront the issues of our lives individually and collectively. To accomplish this we need an intelligent atmosphere (inaudible). The men invited to speak this week have involved themselves with the complexities of society. Subsequently, they will bring us to a confrontation with the prevalent ideas. Their opinions and ideas are presented for you to hear and ponder. Each is here to motivate your awareness in our society. Just as Oliver Wendell Holmes has stated that 'a moment's insight is sometimes worth a life's experience.' This has become the trademark of this symposium. Tonight the atmosphere has been set. Our speaker is ready. You are ready. If we fail to take this moment our life's experience may prove to be more than we can bear. Insight is honored to have this evening as its introductory speaker, the President of Murray State University, Dr. Henry M. ~~Sparts~~. Ky u

President Russell, ladies and gentlemen of the press, students of Murray State University, and faculty of our University, we are deeply grateful to our Student Council for their inviting to their campus some outstanding personalities, that we might hear from them their viewpoints and their ideas. This is a world of change. We want to understand change. We want to understand the ideas of those who think differently from the way that we do and those who are conservative-minded and those who are liberal-minded. For this reason the Board of Regents of Murray State University has supported the Student Council in its operation of Insight. I want to thank the Student Council again. I want to thank the u

students and faculty who are supporting this very, very important event upon our campus. We have much of entertainment. We have great athletes, but it is a challenge to our minds that will lead us to greatness. Tonight you are in for a wonderful experience. I wish you had been with us at dinner. Not with our guest speaker because you wouldn't have enjoyed what he had at dinner. He drank water. He is on a 40-day diet and is on the 20th day. I am amazed at the stamina of this man. I am thrilled at his magnitism and you will be too. He was born in St. Louis. He was president of his senior class in high school. He was an outstanding athlete. Many universities bid for his talent and he went to Southern Illinois University when it was about the size of Murray back in 1951 and 1952 and there he became an outstanding athlete in that University in his sophomore year as a half-miler. This young man left the University and about five years later he entered the field of entertainment and did an outstanding job there. His rise was amazing. His talent led him to great wealth, but he was not satisfied with this type of thing. He preferred to use his strong mind and his great talent in other ways. I know that you will respect his intellect. You will also reverence his ideas because he is strong in his ideas. He is strong in his convictions. You hear him speak of his family and his eyes light up when he speaks of his elder daughter, eight years of age, on down to his youngest daughter, just a few months, and one son. Six daughters. He is a wealthy man and maybe I should say, Dick, you need to be if you are going to marry off those girls and furnish them weddings. But I am deeply honored and I honor him and you in presenting to you tonight, Dick Gregory. U

I would like to say thank you very much and I don't know how I can stand here in all honesty and say it is a pleasure to be in Murray. Murray, Kentucky. Hey, could I get you house folks to turn the spot out and turn on the house lights, please. Thank you. If you really want to have some fun you should really go to Chicago one day to the airport and try to book yourself into Murray, Kentucky. The first three days is not too bad because they really think you're putting them on. But it's after that they really realize you're sincere. That's when the FBI shows up. It's like the pilot told me, we don't mind being hijacked but we do like to know where we're going. And I made it just above the FBI. U

It do exist. I called them back and say drop the charge, it do exist. I flew in. It's a weird way of getting here. But I made it and I was tired. I had to get up early in the morning. They play games with you. After you work for a week, Paducah is as close as you can get. But you say, I don't want to go to Paducah. If you get there you'll go to Paducah. Then you call up Ozark. Ozark is such a weird airline cause if they don't know what you're talking about they fake it. What time is your next plane going to Paducah? They say, what time can you get here. So I got there Saturday night and the flight don't run this way Saturday or Sunday until Monday morning. I got off of the plane and I'm tired. So I say I don't have to worry about it cause I'll get a little bit of sleep on the plane. You know about that, huh? You actually know what happened to me this morning. I got on the plane and sat down and a white cat sitting next to me. I'm planning on going to sleep, right. Well you know I naturally check him out. He was pretty boozie. So I dozed on off and went to sleep. About 15 minutes after I went to sleep the white cat decides he wants to strike up a conversation with me. So he do it the usual way -- wake up boy. Naturally I wake up. Only to find out he really don't have anything to talk about. He wanted to discuss Negro progress in America, but I tried to inform him I didn't want to discuss black progress in America because there is too few people in America who really know what areas we made tremendous amount of progress in. A lot of people think we made tremendous progress in jobs and housing and education. No. The biggest breakthrough for black folks in the history of America was two years ago in the State of Texas. We got our first colored hurricane, Buelah. And I guess when you stop and think about it, little by little, we's doing all right. If you look in the right places, you know. We got to admit we doing good in television. Every time you change channels you see black. It's pretty groovy. Well this year we got our first black cowboy. What's the name of that show? The Outcasts. You can tell by the name of it it's us. And next year I understand they are going to give us another black cowboy so this black cowboy has someone to kill. No, they let him kill white boys every now and then, but you see whenever it becomes his turn to kill a white boy the script writers really has to go through some changes. Because you see, they have to dirty up this white cat so bad that when the black cat guns him down everybody will accept it. u

The black cowboy kill the white cowboy three weeks ago, did any of you all dig the show? This white cat just finished raping a blond paraplegic, Salvation Army worker, right? u

Let me say that it is a pleasure to be with you young folks this evening. And whoever selected that number in the choir it was a masterful selection. I think that song should be played every time you turn on TV, a channel change or show change, they should play that song, because out of all Tom Payne's works - one day, one day we will recognize our true hero. Tom Payne was probably one of the greatest human beings that lived. He has not received credit for it, but Tom Payne's Winter Time Soldier tells it all. And one day we will recognize Winter Time Soldier. It will have to be a way of life. So those of you who were responsible for selecting that, I appreciate it. Thank you. u

I guess I spend 98 percent of my time on college campuses and for a simple reason, is that you young folks in America today is probably the most morally committed and dedicated group of young people that has ever lived in the history of the country, bar none. I hope you youngsters don't have to continue to depend on these old right wing, cracker-control newspapers to find out who you are, because the average established newspaper in America is not morally sound enough to even discuss you kids with yourself. What is the newspapers say about you today? You hippy, yippy, irresponsible, bearded, smelly kids, whatever that means. The question that always comes to my mind is because you have a beard why does it mean you have to stink? They don't say anything about Abraham Lincoln. He don't only have a beard, he was ugly too. The newspapers today have yet to be honest with you youngsters. They have yet to tell you that had it not been for you, LBJ would still be the President today. That's a lot of power. LBJ was probably the number one tyrant that has walked the face of this earth since Julius Ceasar. You young kids retired LBJ on the way to his Texas ranch and you know what was so beautiful, you didn't use no missiles, you didn't use no napalm, you didn't use no machine guns. You got out in this country with a moral dedication that the likes have never been seen any more. And all of us fools in this establishment realize that four more years of LBJ, you would have took this country, part by part, piece by piece. That is why you really don't have to u

worry too much about Tricky Dick. Cause with all of Nixon's bad faults, he still has got enough sense to know that he is not as slick as LBJ, he is not as masterful a politician as LBJ, and you know damn good and well if you youngsters ran LBJ all the way back to Texas, it's a short run from Washington to New York City. All these old fools keep wondering, well, how come he has not messed up because of you. He going to be very careful. You don't have to worry about Nixon letting you go crazy. I would say the first mistake he made was with ABM and I guess maybe it wasn't a mistake to some folks but I felt it was a mistake for them to put it in the rural areas because the reason the people in the northern suburbs was complaining about it was because it was dangerous and if enough political pressure built up, well, if it's dangerous to be nextdoor to those people in the suburbs then damn it, it should be dangerous to be next to the people in the rural areas. So, I feel he made his first blunder here. I'm also hoping as peaceful as I am and as much as I hate the military and industrial complex, I was really hoping he kept the ABM out there in the suburbs of Chicago. That really knocked me out. Because white folks ran like hell out of the cities away from the niggers and ended up next to that missile. Yes, how you all like your new neighbors? U

I think what saddens me, as I go around from city to city and speak to so many of you young folks, what saddens me is how not only do I have to say to you young folks that all the problems confronting America today, you have to solve, the embarrassing thing is that I have to tell you, you have to solve problems that you have had nothing to do with creating. These problems was here before you got here but thanks to us old fools they will not be here when you leave. I say thanks to us old fools because you see, today we put you youngsters in a situation that no young Americans ever been in in the history of this country. You see, not only did we not solve the problems, but for the first time in the history of America we have used up all the tricks. So now you youngsters is dealing with all the problems and no tricks and all the fools wonder why you react the way you react. Hell, you got to react that way, you got no tricks. U

I remember when I was a kid, my momma, my daddy, the whole community taught me one day you're gonna grow up boy and the white man gonna call you a nigger and when he calls you a nigger, don't get mad, cause God don't like no ugly. That trick worked. Yeah, I grew up one day and sure enough a cracker called me a nigger and sure enough, I didn't get mad cause God don't like no ugly. I got seven little black kids home tonight. Me and my old lady ain't teaching them nothin'. And if a cracker ever makes a mistake to slip and call one of my kids a nigger, I can damn sure bet you it's gonna surprise them. I can tell you they gonna act accordingly. And so I say to you youngsters today, no more bricks and you know I feel sorry for you young white kids who live out in remote rural areas and areas where these old fools is trying to block this thing that is trying to happen. Because you is the one who is gonna suffer, and I don't say that as a threat for you to try to change this system, I say that in all sincerity as a passionate respect for young folks. 4

See, your mom and dad, and all these fools, they talking about one thing, but baby, they gonna make you write a check today that you will have to cash fifteen years from now and you not gonna be ready. At one time they protected you white kids in a racist segregated society. At one time you went to a white Army and I went to a black Army. So it wasn't bad to call me a nigger. They protected you. Come up in a society and call me a nigger and then, when they draft you into the Army, we go into the same Army. You slip. And the first thing you slip and call me a nigger. One of them big, black sergeants with two guns. You know you gonna die. See, your momma and daddy talk all this stuff but you got to pay the price baby. You got to pay the price. You let these fools run these things and I don't say it as a belligerence, but as a failing. Fifteen years from now in order to get a good job in America, if you don't go to grade school and high school with black folks you can't get the job, because DuPont, Ford and General Motors is not gonna trust either black fools for their attitudes. They not gonna trust a white man who slips and calls nigger and get his plant burned down. 4

There come a day to go to a better school, to graduate school. You will have to have guns and come to the integrated society or they not gonna want you. You see, they run this game in on you baby when they get ready to change. Just look at TV today. One out of every five people doing commercials is black and nobody got a damn thing to say about it cause when the boys upstairs decide its a new day, its a new day. And so I tell you youngsters through no fault of yours, you running across this resistance and the same old fools is blocking this thing. They be dead, gone out of the way, and you be left here. And so I say to you, you got a big job. U

Let me say to you tonight that I did not come here this evening to impress you, but only to inform you and pray you young folks out there understand that I did not come here to reform. I couldn't care less what you had on your mind when you walked in here and I give less than a damn what you have on your mind when you walk out. That is not my intentions tonight. And as you listen to me tonight, please listen to me and note I'm not here to reform you. I have more respect for you than to think I could come here and reform you in a few hours. But I do intend to inform you. And when I leave here tonight, I couldn't care less about what any of you think about Dick Gregory, cause I'll always have one consolation of knowing that whenever we wake up this year, 20 years from now, you will always be able to say at least Brother Greg didn't lie to us. And that is the big problem confronting you youngsters today. We lie to you twenty-four hours a day. And then when you catch us we say, Oh, well, its a generation gap. Ain't got a damn thing to do with age. Burgent Russell, 98 years old, could leave London, England, tonight and come to America and be the youngest among us. But he is going to reach you from a high, moral epical statement standpoint. We didn't just start lying to you. We started lying to you in the baby crib with that Santa Claus boy. First letter I wrote in my life went to a cat didn't even exist. Dear Santa. That sounds funny to you, but when your Momma lied to you, really - anybody is qualified to lie to you. Cause that Santa Claus boy goes over better in the white community than in the black community. Not that we don't dig him, we know damn good and well ain't no white cat coming to our neighborhood after midnight. U

And the number one lie we tell you youngsters today, the number one problem confronting America today, is the problem of air pollution. Now don't (inaudible) that cause we expect you to believe that. The number one problem confronting America today is the problem of moral pollution. This is the most morally-polluted, degenerate, insane nation on the face of the earth, bar none. And you youngsters have the jobs of giving America her sanity back. You youngsters have the job of seeing to it that America becomes the morally sound nation that the founding fathers meant for it to be and don't make the mistake of these old right wing crackers running around with stupid old signs on their cars, 'Love it or Leave it.' No, if you love it stay here and straighten it out. I am so damn sick and tired of these right wing crackers running around eulogizing my country. America the beautiful. Any old fool knows eulogies are for the dead things and thank God for you youngsters that America is not dead yet. You youngsters do not eulogize America. You youngsters examine America and find out where the cancer is and cut it out. You'd be surprised how long this nation will live. You got a job. America the beautiful. Ain't that a joke. Tell you something, if you run across anybody in this country that believes America is a beautiful country with your Indian brother locked upon that reservation, tell them I said they're sick, sad, insane and out of their damn mind. America will never be a beautiful nation til that Indian comes off that reservation. u

So, if you youngsters are interested in making it a beautiful country, you got to see to it that his problem gets solved. Then one day this can become a beautiful country. The insane thing about it is if the communist had a group of people locked up on a reservation, Oh, we'd be taking you young kids getting you killed trying to get 'em off. Hell, we march past these Indian reservations to go somewhere in Southeast Asia to protect the world from communism. Who gonna protect the Indians from you? u

So, you youngsters have a big job. I guess the biggest insult to me is the fact that America is the only country on the face of this earth that lies about what she is all about. Very sad. Mao Tse-Tung do not pretend that he is anything other than a communist and a revolutionist. Kossygin and the rest of them damn fools over there in Moscow u

don't pretend they are anything else but communist. You know as dirty as Hitler was he was honest with all of his filth to let the whole world know he felt them Nazis was superior to anyone else that walked on the face of this earth. That wasn't no hidden secret. In South Africa right this moment, they don't pretend that they love them niggers. Out of all the filthy, corrupt countries on the earth, regardless of how corrupt and how filthy, they are honest about what they are. America is the only country that lies about what she is. She says one thing but she's all together about something else. So I say to you youngsters tonight that if you don't work to change the country at least be honest enough to admit what she is. U

So you have a job to do. And thanks to the other fools who've given you a lot of help. I was so grateful you youngsters showed up in Chicago at the Democratic Convention because after the establishment got through with you it sure woke up a lot of young fools in this country and ain't nothing worse than a young fool cause you got so long to be one. Oh yeah, but we woke you up. Three days after the Democratic Convention was over the old establishment tried to convince you that you didn't see what you saw on TV. That it didn't happen. They said the press created it. You know if Kosygin and the rest of them fools in Moscow was dealing with the world as insane as America -you know they beat that Czech rap - got on world wide TV and said 'Y'all don't see it, y'all,' that it didn't happen. We admit we sent little miniature tanks to the Czech border for the little kids to play with and the press blew 'em up to make 'em look like real live tanks. But them fools in Moscow made the same mistake these old fools is making here. U

Harris poll. Gallop poll. They don't ask nobody nothing, except them old fools. They come out here and said this is what the report says. Eighty percent of Americans are against the United States in Vietnam so you better listen to these young kids, boy, and leave these old fools alone cause you be out of work. Same thing happened if they brought tanks out in America Sunday morning and put in front of every church and had loud speakers going and everybody caught going to church Easter Sunday going to be machine gunned to death, U

you would be surprised how many of your mamas and daddies would get a tremendous case of being sick Sunday morning. I can just hear them now. Well, you can pray at home just as well as you can at church. You know what would upset them Sunday morning, because they wouldn't have known it, because they didn't take youngsters into consideration come Sunday and young people in America that ain't never been to church in their life, Easter would decide to go. U

Look at old Nixon and all them old clowns, got together last week and decided they didn't come up morally and straight; let's investigate, let's set up committees and see what these young folks are complaining about on these college campuses. Naw! That was too much sense. Well, we know what to do. Let's take the scholarships away from them if they get caught. They really are dumb enough to believe that's going to effect us. But the reason is they know how your mamas and daddies would act if they threatened to take their money away. We got some people in this country who would be communists if you paid them enough. All these old right wing, patriotic crackers -- if they could get a million dollar deal with a communist nation, they'd take it. Where do you think all the ammunition that--they get it from, all the ammunition that goes all over the world. Ninetyeight percent of the ammunition on the face of this earth is manufactured in America. And every now and then you read in Vietnam we (don't you ever get suspicious when you read) we over-ran a Vietcong stronghold and found all our ammunition and you keep thinking Vietcong steal it--no, they bought it. You youngsters got a big job. U

Old Tricky Dicky really believes they got the lid on everything. They gonna take that money. That don't mean a damn thing. All them old folks don't have enough sense to realize that when they talk about taking your scholarship money away if you get caught in one of them demonstrations, all that means is that if you are on scholarship you can't lay down in the library no more. Now anybody can demonstrate except the rich kids. Back to that bag again. U

Where you goin'? U

I'm goin' down to take over the Administration Building. My Daddy is paying my way. U

And the bill ain't no good, they know the bill is unconstitutional. Because all they is really sayin' to you kids- I don't know why them fools don't understand what they sayin' - they sayin' that if you want a scholarship, state or federal, you can't go down and take over the Administration Building no more, and they really think that's going to stop you from being mad. No, just make you slicker. U

All that means is that you been down to lay down in the dormitory or cafeteria to protest, lay down, you just wait til midnight when everybody's asleep and throw some dynamite in the building and blow it up and go home, and wake up the next morning surprised like everybody else. What happened? What happened? And you keep your scholarship. You youngsters got a big job ahead of you. U

Thanks to you old fools who get a lot of help. Fifteen thousand hippies and yippies showed up in Chicago to change the system. And the whole establishment went stone crazy. You know why? Hippies and yippies came to Chicago to change the system. That's very important. That's what the hell was raised over. Didn't have a damn thing to do with them kids coming in to tear up Chicago. Well, you white kids know better than that. For the last ten years you white kids every spring break been goin' to Ft. Lauderdale, Florida, getting drunk, tearing up the whole town. And they ain't never called the Army out so got nothing to do with tearing up a town. Just change in system. So long as you get drunk and do it, they say 'boys will be boys.' Ha! Ha! Ha! U

Who do you think was the most immoral in Chicago last year --the hippies and the yippies or the Shriners when they came to town for their convention. Who do you think committed the most adultery in Chicago last year, the hippies or the yippies or the Shriners when they came to town. Who do you think spent the most money in Chicago on whores and prostitution, the hippies and the yippies or the Shriners when they come to town? Nobody got upset over the Shriners when they came to Chicago cause the Shriners didn't come to change something, Baby, just to buy something. U

That's the beautiful thing about watching television. As bad as those programs are if you watch television long enough that thing gonna slip through--every time. Two weeks ago they slipped it through accidentally. Even ran it in the newspapers. Any of you see the television news last week? Or the newspapers? Had a beautiful picture of this South Vietnamese mother and her kids behind that barbed wire. Did you see that picture? We don't call them concentration camps. That's too much like Nazis--we call them refugee centers with barbed wire fences. You kind of wonder why Hitler got by with that stuff he was doing, but after you look here and see how we can look at these pictures and nobody get upset, it's easy to see when you are doing it, it's hard for anybody to tell you it's wrong. You see that beautiful picture last week and the caption was South Vietnamese Mother who is a sympathizer to the Communists was put behind the barbed wire fence with her kids. Is there any one of you in this room that my wife could kill and my kids would have to go to jail? Or is there any of you in here with kids that would kill me and your kids would have to go to jail? How in the hell could you look at a picture like that last week that ran all over this country because the white crime that mother committed ain't no way in the world that her kids supposed to be behind that barbed wire with her. Let me tell you something. The whole world is hip to you. They made one mistake with them stinking Nazis, Baby, and when they woke up the fools had damn near wiped out the whole world. They ain't gonna make no mistakes with you. No, they gonna foreclose on you before you get a little bit more crazy than you are. One day if you youngsters don't hurry up and change this system you gonna find out you don't have a system because nobody gonna take a chance of another monster getting loose like that fool did back in the 30s. Big job you have to do. u

That's the beautiful thing about television. Just watch it long enough and it slips through. Nine weeks after the Democratic Convention was over it slipped through. Nobody got upset though. That same television set that brought you the crowd of the hippies and yippies in the streets of Chicago brought you another crowd nine weeks later. I guess nobody got upset cause they aren't hippies or yippies. Nobody got upset cause it wasn't in Chicago, it was in New York City. u

Remember that morning? 20,000 sick, slimey degenerates from Madison Avenue came out one morning to look at a broad's titties and nobody got upset over the titty watchers. U

J. Edgar Hoover has yet to get on nationwide television and proclaim that titty watching is definitely communist inspired. And what do you call a bunch of sick, slimey, degenerate titty watchers? Extremists--left or right? And you youngsters got a big job. U

Now all the old fools is trying to convince you that never in the history of the world have there been a more irresponsible youth than you young folks of America today. I guess you are irresponsible; all at once you don't give a damn about money. You're talking about changing the system. You got to understand why you youngsters associate with us old fools. You must understand why we react the way we react. You youngsters got nerve enough to tell us morality will no longer be a Brooks Brothers suit, a clean-shaven face and a haircut once a week and have all the abortions you want to have--you still Mr. and Mrs. so-and-so. You youngsters tell us no longer will you wear the latest fashions from Paree and bathe in Chanel No. 5. Do your thing and still be Mrs. so-and-so. You youngsters got nerve enough to tell us that morality will come from within and not from without. It really puts me up tight because we got a silly little thing going like you do--anything you want to as long as you go home and wash up. Put your suit and tie on. Tie it right. And you, Mr. so-and-so, now you fixin' to break through that. For some reason you young kids don't understand us old fools. We understand alcohol but we don't understand LSD. Is that a joke? We understand abortions but we don't understand having babies out of wedlock. We understand getting married. Coppin' your best friend's old lady while he's out of town but we don't understand shackin' up. We understand putting your wife's key in the slipper and swappin' wives but we don't understand free love. You youngsters is dealing with one of the most slimey group of degenerates that's ever walked the face of this earth. You got a big job ahead of you. You got a mighty big job with your irresponsible self. That's right. U

We did little things when we were in college. We never took over no Administration Building. We had panty raids. You can't get no more responsible than that. And go in the girls' dormitory and steal all the drawers. U

Go around the world today and ask one question of all moral, ethical, decent normal people. One question. Which is the mark of a sick, degenerate, diseased mind? A group that will go into the girls' dormitory and steal all the drawers or a group that will take over the Administration Building? But for ten years we stole your drawers and nobody got up tight. They say, well, 'boys will be boys,' Ha! Ha! Ha! and then we got tired of stealing your bloomers and young folks decided to see how many goldfish they could swallow. Nobody cared. They let you swallow a whale if you wanted to. The young folks got tired of swallowin' goldfish. Young folks decided they would see how many they could get into a telephone booth. Remember that? You pick up a newspaper and right on the front page--University of Arizona sets new record. 500 kids stuffed into one phone booth. And turn to the picture page and they got some old freakish-looking captain of Bell Telephone Company bringing a new booth saying, 'boys will be boys,' Ha! Ha! Ha! U

If you believe boys will be boys, don't take 500 kids and get in a phone booth. Take five kids downtown one day, don't get in the phone booth, take picket signs and walk around the phone booth, and ask AT & T about those anti-trust violations and them high absorbing long-distance phone call rates and see how long it takes the police to get there and bust you and throw you in jail. And see if anybody from AT & T will say, 'boys will be boys.' You got a big job. U

You youngsters 'keep your eyes on all us old fools. Ask a lot of questions, particularly watch your mama and daddy and ask them a lot of questions cause you got to sleep with them. If somebody came by your house today and knocked on the door. Mother and Father say, who is it? Say, Government inspector. U

What you say? u

We want your dog or your cat. We just got a new bill pushed through sending pets to Vietnam. u

It would be a shoot-out on the front lawn. That might sound funny to you but it would sure scare you when you got to realize you live in a country today where your mama and daddy raise more hell over that dog going to Vietnam than you going to Vietnam. u

The one great thing about running for the President, had I been elected, I wouldn't end the war in Vietnam. No, I would have changed the law so you could volunteer up to 75 years old and let these old fools go on and go over there. You got a big job ahead of you. u

Maybe if your mama and daddy stop making money for a few minutes and listen to you youngsters, maybe they'd understand. You know if your mama and daddy really knew that there are 152 Senators and Congressmen's sons that have been old enough to get drafted and never been drafted yet, you think they might act a little bit different? If your mama and daddy knew Dean Rusk's son five years ago became old enough to get drafted and knew he had never left Washington, I bet they would think twice over letting you go, wouldn't they? You know how many young folks Dean Rusk done got killed? Since war is such a good business, how come he hasn't invested his boy? I wish I was young enough to get drafted. As soon as I got my induction notice the first thing I would do would be to fly to Washington, D. C. and handcuff myself to Dean Rusk's boy. Then I would get on nationwide television and say to all the fools, whatever is wrong with Dean's boy is wrong with me. You youngsters got a big job. u

You got a lot of questions you got to ask. One of the main questions you got to ask is a simple question. If democracy is as good as we tell you it is, then why in the hell are we running all over the world trying to ram it down people's throats with a gun? And the day you youngsters work to make this democracy work right for the first time, that's the day we can bring the guns home, because anything good you don't have to force on people--they'll steal it. You got a job. u

I do not advocate destroying the capitalist system but I say to you youngsters you got to work like hell to beat the capitalists in their rightful position, which is behind the U. S. Constitution and not in front of it. This country is not controlled by the democratic process, this country do not function under the U. S. Constitution, this country is controlled and governed by the capitalists. The bad thing is that the capitalists control the money. We put the emphasis on property rights instead of putting emphasis on human rights. That's why black folks is doing so good in America today. It has not got anything to do with the goodness of the American's heart. When them niggers started burning down them towns, it became a threat to property and them fools say, let's talk to 'em, baby. What can we do? I don't have to tell you. You read the paper. Henry Ford. Them niggers damn near burn down Detroit. He hired 6,000 niggers in two days. You thought slavery was coming back. Gave them two weeks pay in advance so they could have lunch money and didn't make us take that old trick test we been complaining about. Why he hire them black folks in two days? You know why? Had nothing to do with the goodness of his heart. That Detroit fire got too close to the Mustang plant. You got a job to beat the capitalists behind the U. S. Constitution, and for the first time we are putting emphasis on human rights and the way to do that--address all your grievances to the Capitol. Don't come out here marching under the U. S. Constitution. They just throw more tear gas. Capitalists don't give a damn about their Constitution. The only reason they like the flag is because they make it. If you didn't believe that you let them get a bill passed in the morning that say all American flags from here on in will be made by the blind, Jewish Welfare Mother's Association, and see how many of them fools quit flying the flag. They have passionate disrespect for the Constitution. We proved that last year. Americans came out and peacefully protested and peacefully assembled and peacefully gathered signatures for strong gun legislation and the capitalists that manufactured the guns saw to it you don't get a strong gun legislation, didn't they? Our country is so insane that we demand that you get a prescription to get medicine but you don't need one to get your gun. I can't hit you in the head with my pills and kill you. Nor can I injure you by shooting you with my cough syrup. u

I am not against Americans bearing arms but the U. S. Constitution say all Americans can bear arms. I feel all Americans have a right to get well too and if this country is going to make me go through some changes to get my medicine, then damn it, they ought to make me go through some changes to get my gun. You youngsters got a big job to do and you haven't got too much time to do it. u

This system would choke you youngsters to death. The 18-year-olds who are old enough to go to war and die for your country are not old enough to vote. I meet so many young folks running around talking about if I got to go to war and die at 18, I want the right to vote at 18. Don't be no damn fool. You got to die at 18, you better get the right to vote at 17. If you youngsters ever get the right to vote at 17, as groovy as you are, there won't be no war when you get 18. You want that right to vote? You can get that right but you got to organize and after you organize, address all your grievances to the capitalists. You would be surprised how quick they straighten up. u

You want these colleges and universities across this country to make these drastic changes, you can get that, not by going and laying down in no Administration Building, that ain't gonna do nothin'. You want to see all these universities make these drastic changes that they need to make in universities that haven't changed their theories on these college campuses in the last 75 years. You want to make them change, you youngsters organize young people across this country and come next September announce that if they don't make all these changes you want made on these college campuses so an education will be relevant to you and today's need, that you goin' to call for high school and college kids to boycott eating meat five days a week. The packing house will get them changes for you. Them old right wing, multi-millionaire, Texas cattle growers will be on campus, kick the dean, say give them children what they want. u

You want these drastic changes, take your grievances to the capitalists. You have to organize. Oh, it's OK to let your hair grow long, wear your T-shirts for a month, that

bugs your mama, and they need to be bugged, but if you're talking about changing your structure baby, you got to do some work. Take the war in Vietnam, you youngsters organize in this country and then let them know you're not going to get a haircut until this war is over in Vietnam. You don't have to demonstrate no more, the barbers will demonstrate. They will recognize you young folks are not going to get a shave until the war is over in Vietnam. Take some old broad 75 years old, she don't give a damn about Vietnam, but she owns 60,000 shares of Gillette blue blades. You know you're going to put her right up on the White House lawn with a picket sign 'bring the boys home.' U

You youngsters want the right to vote at 17 years old. You can get that. You organize young folks across this country and after you get organized you go to the record industry and you inform the record companies if they do not get to Washington, D. C. and get a bill pushed through in two months time so that 17-year-olds can vote, you will call for a nationwide boycott for buying phonograph records for two years. What do you think the record industry would do? You know don't you? Before they stand by and let you wipe out a multi-billion dollar year industry, just to be safe, they'll let you register at 16, because you see, these right wing crackers, they don't buy no records, and if it is, it's one of those old Dirksen albums. So if you youngsters destroy this system, if you burn it down, if you blow it up, it is only because you don't have what you need in you, that pride, that dignity to challenge the capitalists, because you can reform this whole government without any violence if you use that might you got. U

You youngsters have a lot of money power. Lot of money powers. But you got to work to change the capitalists to put them behind the Constitution, because constantly the capitalists show you every day the passionate disrespect they have for human beings. The Surgeon General of the United States has known for five years that them damn birth control pills are detrimental. They are fatal to ninetyeight percent of everybody that uses them after they have been using them over a fifteen-year period. They know it causes cancer, but they make so much money, they're not about to.....England, Britain took them off the market after they slipped and looked at our U

secret report, but in America, the capitalists have such a passionate disrespect. Look at the cigarette industry. They show you every day. The Federal communications tell them 'get those cigarettes off television where your little brothers and sisters gonna be lookin'. Where your unborn babies are gonna be lookin' at them ads.' These cats know how to program people. There's nothing wrong with your smoking. Hell, you're old enough to know cigarettes cause cancer. You got a right to catch anything you want to catch. I just don't understand how you're silly enough to let them sell it to you. I can see if you was getting it free. I'm going out here and get my dose of cancer for the day. Well, at least one thing, they get a lot of tax on that. You build a lot of highways while you mess up your chest. Look at them cigarette ads on television. What do those cigarette ads do to your brothers and sisters, your babies? You know what a cigarette ad is, a big cowboy riding a big horse, 'Whoa boy, every day I has me a Marlboro.' Now how do you think that commercial is going to affect them little kids. They know damn good and well they ain't never gonna get a horse. I don't see nothing wrong with that cigarette commercial if they keep it honest. Yes, show that cowboy riding through a cemetery, 'whoa boy,' and the horse rides up and he falls off on tombstone and his Marlboros jump up in the air and as the Marlboros are coming down, he say, 'this is Marlboro country.'

You youngsters got a big job. Beatin' the capitalists into their rightful positions. Then for the first time we will put emphasis on human rights, instead of property rights.

Mayor Richard J. Daly is a good example, how he emphasizes property rights when he made that statement, 'Shoot all looters to kill,' and never said shoot murderers to kill, never said shoot dope pushers to kill, because murderers and dope pushers deal with the human rights, looters deal with the property rights, and the order which Mayor Daly gave to shooting all looters to kill is the first time I've ever agreed with him. I hurried up and sent him a telegram. I said, 'Dear Fool, Your statement pertaining to shooting all looters to kill I agree with wholeheartedly if

you make one stipulation. Let's first make it retroactive, and let's first put the gun in the Indians hands.' So I say, you youngsters have a big job, because we've left you a mess to clean up. u

Last year they assassinated Dr. Martin Luther King and we all got up 'We assassinated Martin Luther King,' and they gun down Bobby Kennedy and everybody says, 'Oh, they killed Bobby.' They assassinated JFK and everybody said, 'Oh, they killed the President.' but nobody got upset when they assassinated Lincoln Rockwell and Malcolm X. America is a nation and she don't give a damn about assassination until you kill somebody we like. Ninetyeight percent of everybody in America that got upset over Martin Luther King's assassination, if George Wallace got assassinated in the morning they would not be upset. It's a sad commentary on this country. You youngsters have a big job. You got to make this a nation that gets upset over all assassinations regardless of who it is or we're not going to give a damn about none of them, it is just that open and shut. You got a big job, because every now and then you're getting some help from beautiful Cadillacs. u

Brother Jim Garrison down in New Orleans, it might sound funny to you, but he's trying to wake up you fools and tell you there's more to them people being killed than just some nut, that just some racists. James Earl Ray stood right up in front of worldwide television and say, 'I didn't do it by myself.' Now who else would know but him. Them guys are trying to tell you what's going on. There ain't nobody making these hits but them or stinking fowl up CIA that you're supporting 24 hours a day, and good, I'd rather see them killing Americans than killing foreigners, anytime. A free society gonna find it's a bunch of slimey degenerates who go all over the world assassinating people, overthrowing governments. It's about time they come home and start assassinating you and overthrowing your government. Malcolm X was the first one to peep at it, and he died. That is what he meant when he said when Kennedy got killed, 'The chickens are gonna come home to roost.' While you sit there, they all over the world assassinating governments, now they gonna come home and knock you off. They will be the hero one day, but it will be too late though, because the fools kept looking u

the other way. It couldn't happen here. Ray gonna talk though. He got the message. He hurried up and got the message too. U

What did they do, they sent him to the Tennessee State Penitentiary which is about seventyone percent us, and of all the places to put him, they put him in a cell next to a black cat that just finished killing a white police. He hurried up and got the message, didn't he? Did you read in the paper the warden said the next day after he takes his test, he will run through the jail just like any other ordinary prisoner. That is right - like any other ordinary prisoner, they want to die. Hell, you gonna be a white man accused of assassinating Martin Luther King, go to a jail seventyone percent or seventytwo percent like the ordinary prisoner. You be ordinary like Jack Ruby was when he went to jail and ended up with cancer. Well, I'll tell you, Ray got the message. I think he might talk and he might save the whole country if you really found out who was behind all that nonsense. U

Well, you youngsters got a big job. This is probably the most important thing I'll say to you all night, that is I hope you youngsters do not make the same mistake in these colleges and institutions that us older fools made when it was our turn to sit in these institutions ahead of you. You see, when we went to college we were so busy trying to learn how to make a living, we forgot to learn how to live. Please don't make them mistakes. If you waste your four years in these institutions just to learn how to make a living, you haven't got a guarantee you can get a job and keep one when you get it, but if you spend these four beautiful years learning how to live, I guarantee your making a living will be the easiest thing for you to do on the face of this earth, bar nothing. U

I hear so many young folks say, 'I'm going away to college to learn how to be somebody.' Hell, you was born somebody, and if you're dumb enough to let somebody teach you how to be somebody else, that makes you two people. Check out what Sigmund Freud says happens to you when you become two folks. U

Why you have to go away to college and spend top dollars for somebody to teach you how to be crazy. I met

so many young folks that say, 'Well, you know you got to eat to live. I'm gonna go out and get me a job so I can eat.' You know if you ever learn how to live, eating is the simplest thing in the world to do. A guerilla eats more food in one meal than you eat in six weeks. You ever know one to go to college. You ever bumped into a guerilla in a supermarket shopping. And when was the last time you read where a guerilla starved to death, and the day we can teach guerillas how to make a living and if they learn how to live, we will have colleges for them fools too. You got a big job. U

Understand how strong nature is. Let me give you an example how strong nature is. Those of you in this audience that understand Chinese, raise your hand. Nobody's ever. I just want to show you how strong nature is in this huge gathering this evening. None of us know Chinese. You all are aware right this moment dogs in China do understand Chinese, right. They never been to college. Dogs in Russia understand Russian. Dogs in Germany understand German, do you? I say that through nature you were born with all the wisdom that you need to get human dignity. Fight your way through one of these tricks and get to your dinner. Nobody needs to teach you how to do that. You got a big job. U

One day you'll change the system and change these institutions so that they understand all the educational institution have to do is bring out of you what nature put in you, and not try to put anything else in you. That is the day we will solve all the problems of human mankind. Hell, anybody gonna teach you something. You know who you are. You are nature. You are the universe. There are nine planets of the universe. You think it is an accident that you have nine holes in your body. You think that is an accident? U

One day, you know you youngsters will have to work to change the system. Your number one priority will be to make the educational institutions for the first time live up to their name. Make them educate instead of indoctrinate because there's a difference between an education and indoctrination. Colleges and universities in America do not educate. They don't know how. They U

been too damn busy indoctrinating. U

You go to California and a man give you ten dimes, you got a dollar. You go to New York, a man gives you ten dimes, you got a dollar. You go to Mississippi, you get ten dimes, you got a dollar. Go anywhere in the country, you get ten dimes, you got a dollar. Why is it we talk about Harvard and Yale are good schools. Columbia. There ain't nothing good about them. They just get bigger endowment so they able to brainwash better and to indoctrinate better, and all the schools says, 'Yes, I want a Yale man, I want a Harvard man. They good schools.' You can recognize those beady eyes of those cats. U

The day you see to it that this country learns how to educate, there will be no such thing as one school is a good school. You'll have a good educational system and for the first time it will make no difference where you go to school. You are going to get educated. U

So, you youngsters got a big job changing these institutions. And the biggest problem do not come from the administration, the biggest problems of these institutions in America comes from the Board of Directors. Bunch of old fools. The only qualification they had to get on the Board of Directors, they made some money. They didn't know a damn thing about education, and Lord knows they didn't no nothing about kids. If anybody ever asks them how they made their money, they wouldn't be able to say. Don't take my word for it. Check like a list of the 2,000 colleges and universities in America and then do your homework and do the research of the Board of Directors of those colleges and you will find out ninetyeight percent of them old fools are the cause of the problems on the face of this earth today. The hell they gonna run one of these universities. There ought to be a law passed that if they get caught within a 500 mile radius of an educational student they ought to get life in a penitentiary. You youngsters can deal with the Board of Directors. They ain't no big thing. Just do your homework. Find out what businesses they in. What company they represent. What companies they represented before they ~~retired~~ retired, and call for a nationwide boycott of those companies. U

You would be surprised how groovy those cats get. They would be on campus with a football helmet, 'Hi kids, can we help you, what did you want?' u

You got a big job. Because one thing we know how to do is programming. You come to class and we give you your class assignment. Here's your book, read it. No, that is not the way we program you with your book. No, we're different than that. After you finish reading the book, we give you what we call the test. If you don't read the book the way we want you to read the book, you can't pass the test. That's why young folks in this country will stoop to the lowest depths they ever stooped in their life on any other test. You know once you get a test, you don't need the book cause we don't grade the book, we grade the test. After we finish grading the test we put on that old (inaudible) transcript. You think that transcript's important? That transcript ain't nothing but the system's way of making you get your brainwashing. If you think the transcript's important you graduate from college and ten years from now you meet somebody you want to marry and see if they ever ask for your transcript. You think that transcript's important? You decide you want to raise a family some day and see if you have to take that transcript to bed with you. You think that transcript's important? You graduate from college and let the Administration Building burn down one day and burn up all the transcripts and see if you have to go back to college for four more years. u

You youngsters got a big job, changing the institutions. And this is what black folks is talking about today in these white colleges across the country that so few people seem to understand what we are talking about. This is what radical white kids are talking about. We talking about changing the system. And let me say to you white folk in the house tonight, black folks in America don't hate white folks. All you got, some niggers hate turnips. But basically black folks do not hate you white folks. We hate your stinking white racist system, and your stinking white racists institutions and we holding you responsible. You do understand what we talking about, don't you? You know like if you came by my house tonight u

as my friend and brought your daughter with you, and my dog would attack your daughter, who you gonna sue, the dog or me? I'm responsible for that dog. You responsible for this dog stinking white racist system, and we holding you responsible. You came by my house tonight and brought your daughter and my dog lunged for your daughter, if I got in the way and my dog attacked me, we could be the best of friends, because anytime a man's dog gonna attack somebody, he'll attack his owner, and that is all we said. U

That is why we love you white kids that went to Chicago and them white police beat you under the ground. That was your dog attacking you and we love you baby. And it sure helped us out because for years we have been trying to explain to you fools about police brutality, and nobody believed us, and one day the dog jumped on you and nobody even discussed police brutality. It is an accepted fact after Chicago. When you white kids get to rambling on these college campuses, they got to bring the National Guard in. We love you. That is when they opened up the zoo on you then baby. That's all we saying. Maybe if your dog bites you enough then you will understand what we're hollering about. No more, no less. So many white folks they think they are our problem. These white folks are so insignificant when it comes to our problems. I guess it's just your ego that makes you think you're my problem. But you're not, it's your white racist institutions. All white folks in America could disappear tonight and leave nothing here but black folks, Puerto Ricans, Mexicans and Indians, and with all white folks gone we would still have to take those trick tests you make us take now to get into these institutions. We still couldn't get in. You wouldn't be here. So it ain't got nothing to do with you. That is what these black kids are talking about on these college campuses when they say if they'd get rid of that (inaudible). Everybody say that is unfair. No it's not unfair baby. Where in the hell you gonna keep me locked up in a black ghetto all my life and then when I get ready to come to your school you ask me the same questions you ask your son, no baby. It's unfair. The minute I go away to go to school, first thing the cat asked me is what's two and two? I say four. He says Oh, what's four. I say, one, two, three, four, fool, four, four, four, four. Well, now Mr. Gregory, we don't understand that kind. Well, now I imagine you don't understand that kind of talk but if you had enough decency to come down there where we're locked in and listen to us talk, you'd understand what four is. U

He finally understands something. You know, I was a good athlete so of course I'm a little bit like four to him because they wanted me. They waived the tests when they want a nigger bad enough. They don't give you no tests at all. Them running about talking about what can we do to get more black students on the college campus. Do the same thing you do to get them nigger athletes. Just hide the tests. That's all you have to do. U

"I'm sure it is much easier to get a black cat that can go through one of these old simple universities for four years and read and get that work, than it is to get one of them niggers that can run miles every football game. So they let me in. Oh, I went on through. Then them white cats flunked me in English. So my girl was up. I say, 'wait a minute, baby, let's go up to the English Department, I'm going to show you how much english this white cat knows.' So, I go and I say, 'come on boy! How in the hell you gonna flunk me in english when that's all I know? Be different if I could talk, you know, Russian, Greek, Spanish. I don't speak nothin' but english, baby. Now you gonna flunk me in the only thing I know. Now I can understand you not giving me an A. I can understand you not giving me a B, but I can't understand your flunking me because you're saying to everybody in the world I can't talk. I know I can talk. You might not be able to understand what I'm saying, but I can talk. I know I can talk, can't I? I tell my mama all the time, I want something to eat. Mama, I tell my mama, I want something to eat, I'm hungry. She understands what I'm saying. I take my girl to the drive-in like you take your girl and you say, 'Gee, Suzanne, I love you.' So we talk about that test. That test where they asked me two and two is four and then right after that he asked what's the Eiffel Tower and I say, 'how the hell I know' and then he wants to talk about I'm culturally deprived. Damn right. Let me box you in a ghetto for 200 years and see what you know about. But I dare you to ask me about a rat, I'll show you how much culture I got. U

Isn't this what we're talking about? That Indian, we got him locked up on that reservation against his will. He's not there because he wants to be there and the Indians come to go to the universities. We asked him that same old stupid test we ask each other. How the hell he gonna pass it? Oh, Kemosabi, you want to enter white university. We're glad to have you--very proud, yes, yes. Well, one thing we do need here is more Indians. Yes sir, there is a test here, little short test. What was Abraham Lincoln's mother's name, Nancy Hanks or Beulah Mae Smith? How the hell that Indian know what Abraham Lincoln's mammy's name is. He don't care nothing about that broad. U

Maybe you'd understand if the thing changed one day and before you can get in school and get a job, the Indian get to give you a test. Wow! So, the Indian drugged you up on the reservation and asks you what was Sitting Bull's great-grandma's name. So, this what we're talking about in America today - the racist institution. U

We say we want white institutions to teach black studies because we're telling America we're not your nigger no more. Now teach us who we are. You know. You know we go back further than slavery and you know damn good and well a man without a knowledge of himself is like a tree with no roots. You know that (inaudible). And we're also demanding that these white institutions teach black history to you white kids because if you ever knew my true history instead of what your mama and daddy told you about me, you find out your mama and daddy come closer to being that nigger than me. U

A nigger ain't got no color. A nigger is anybody who is low down, ornery, and stupid and you can't get no more low down, ornery and stupid than have a parent to teach hate to their kids in the crib. That is the nigger, baby. U

All these folks leave their house to come to the ghetto to see a nigger. You left the best nigger you ever see. So, I say to you today, the black folks don't hate white folks. I think Eldridge Cleaver stated it better than any man's ever put it in the history of the world. He said, 'The price white folks have paid for hating me is that you cannot love yourselves.' Ain't no more price in that baby. Price. And so, we're saying we want this system to change. We're talking about teaching these things because see, we know what's going on, baby. We know that it was a man by the name of Medgar Evers that died trying to change Mississippi to the Constitution--it wasn't the Governor. It was Malcolm X in New York City trying to give folks a better way of life - it wasn't Rockefeller. It was Martin Luther King that was trying to bring peace on earth - not LBJ. u

So, we say we tired of this racist system. We talk about Black Power and white folks get scared. That's the racism in your head. Yeh, now things don't scare you. The Roman Catholic Church, that don't scare you - it's right down the corner. The Romans don't scare you. Romans, they might (inaudible). The Black Muslims scare hell out you, don't they? That's your racism catching up with you, baby. We're tired of it - we're so damn sick and tired of this white stinking racist system, we don't know what to do, and this is what we're relating to today. No more, no less. u

Two years ago I had gone around the country preaching the problems that we need to save the black ghettos, we need black capitalism, everybody would say that's racism. That old white boy, Nixon, talking about black capitalism but because he is part of the structure, that is okay - that ain't racism. u

Every time newsmen want to interview us now, they want to know, 'Mr. Gregory, what do you think about black separatism?' Oh, come on, baby, you ain't against separatism. That Indian up on the reservation, no better example in the world of separatism as long as you're doing it, but the minute five niggers get together and say, 'I'm tired of these insults, leave me alone, let me do it by myself,' you say that is separatism. The Indian can't get up off that reservation but if they have a press conference in the morning and say, 'We love reservations. Don't want no more white folks on u

reservations, ' you send your Army up there tomorrow night and run them off. As long as you're doing it, it's okay, it's fair game, baby. u

The Jews in America today is outraged over black anti-Semitism because this is a racist structure because each Jew in America over 15 years old, know another Jew who hates niggers. Now you find out some niggers hates some Jews. You're so sneaking racist country. What's you so upset about? But in a sneaking racist country like this we defy the little man to be as dirty and corrupt as the big man. Yet, the little man go and steal something from the department store, he is a rogue and a hoodlum. Rich cat steal something, he kleptomaniac. One of them go to jail with the criminals; one of them go to hospital with the sick. Yeah, we tired of this racism. u

You ever see that TV show called The Dating Game? You ever see that? Whenever they bring a black person on the three other guests are black. But that ain't racism is it? That is your stinking system doing it. Oh, but if you heard I was going next week and refuse to work the show cause they had a white lady on there and no three black sisters, you'd say I was a racist. But as long as that system makes all black people be on with all black folks, that is groovy cause that is your thing. That's what we're talking about. What we're sick and tired of today. u

People all over America is upset over the crime rate in Washington, D. C. You know why don't you, cause niggers doing it. And you know some people are sick enough to believe that born black in America you inherit certain criminal tendencies. Let me set the record straight. All the stealing and purse snatching and gangsters during a solid year, we brought all that money together and put it in one big heap it wouldn't be enough to pay one month's rent or a recreation fee for them white Italian Mafia Syndicate hoodlums who run all the crime in America. But you ain't upset over them are you? And this is all games. We ain't playing no more games, no more. Oh, you know how you can do away with the crime syndicate in a week. I tell you how you can wipe out the crime syndicate in a week. Let us take it over tonight. u

Run your Army in and break up the crime syndicate. What's the most detrimental in American society? Niggers standing on street corners snatching a pocketbook or them white syndicate tramps putting heroin into your schools? You know what we talking about. We tired of this racist system. U

You see that draft bill Teddy Kennedy drew up three weeks ago? Any of you read that? One where the lottery system draft 19-year-olds first. The horror about this racist system, a cat like Teddy Kennedy drew up a racist bill and he not even aware that the bill was a racist bill. He says draft 19-year-olds first and then right under that he tacked a study portion on the bill, if they pass it it will become law, will grant amnesty to all the kids that left the country to avoid the draft. Any of you read that bill? You know what a racist bill that is. He's telling Muhammed Ali, 'Nigger, until you leave the country like the white boys is leaving, you can't have amnesty.' You know if black folks would have been leaving the country and white boys would have been here to stand trial, that old bill would have a part tacked on it that all the good little old citizens that stayed in the country will be given amnesty but the ones that left wouldn't. That's what we're talking about. Tired of this racist institution. U

So, I say to you youngsters tonight, you youngsters have a big job. U

Let me ask you to do me a favor one day this week, if you would. Stop by the library one day this week and copy down the Declaration of Independence and don't read it, just copy it without reading it. You know how. Sure you do. Now what I want, I want you to do for me is never be caught without your Declaration of Independence. Twentyfour hours a day, carry your Declaration of Independence with you. Now the favor I'd like for you to do is when riot season open up again and this old system even convinced us we got a riot season July through August. Last year we didn't show up. Upset the whole establishment. Where are you. We got our tanks waiting for you. Ask George Wallace how come you think they ain't rioting last season. He said, 'Oh, you know them niggers is lazy and shiftless.' They just tired. I tell you where we was last riot season. We got tired of U

stealing them old bad, no good, products. We decided to go underground and study the consumer reports. So when the riot season open up again this year, we ain't stealing no more Motorolas, baby. u

Now here's the favor I'd like you to do for me. When the riot season open up again, I'd like you to rush home with your parents and get the TV and put it in your room, and you black kids too, cause you got some niggers living in them houses which think more degenerate and corrupt than the KKK could ever think, and you do know what I'm talking about. Put that TV set in the middle of the room and then turn on the evening news cause they gonna show them niggers looting and burning and sockin' it to the town. Now turn on Huntley and Brinkley cause they get close-ups. And the other two networks, they come by and they ride in helicopters cause they scared of us. But Huntley and Brinkley get such close-ups you could recognize your kin folks. Look at that, Elder Dudlow. I didn't know he was in Detroit. Get it baby, get it, get it? u

Here's the favor I'd like you to do for me. After you get your TV in the middle of the house, get Huntley and Brinkley on, then run upstairs with them old fool parents, bring them down, put them right in front of the TV set so they can't see nothing but them niggers looting and burning and sockin' it to the town. And after you listen to their comments, you hear 'em before, just listen to them fools make them comments. My favor is this. I'd like you to walk in front of the TV, turn the sound off so all they can look at is them black fools burn the town down and at that point, go and take out your Declaration of Independence - and you'd promised me you'd keep it twentyfour hours a day. At that point I want you to move way back behind them parents and while them fools is watching them niggers burn the town down, read the Declaration of Independence as loud as you can read it and maybe for the first time them fools will understand what they looking at. We know these truths to be evident, that all men are created equal and endowed by the creator with certain inalienable rights, that when these rights are destroyed over long periods of time, it is your duty to destroy or abolish that Government. That's a hard thing to do, to realize one day you wrote a check you got to cash, isn't it. I know when them old fools hear that, they u

gonna assume that was some message from Malcolm X, Rap Brown. But I'm sure with a minimum amount of persuasion you teach them old fools that that there was their beloved Declaration. Yeah, that one. Either that's a mistake on which that one they forgot to put white only. And you know if you don't put for white only on this thing when black folks read it - you know we dumb enough if you don't have for white only, we dumb enough to believe that it means any American, after long periods of unjustices. It's you today. Now as dumb and stupid as niggers is we don't know nothing too much about this thing, but if this thing is true, then it's just one person supposed to be out here ahead of us and that's the Indians. But we know its for white folks only. You didn't have to put it on there. We know it. For the minute we got out here and started doing the things you supposed to do. We were acting like damn fools. We would appreciate it if you would put it on here for white only. Sure would help us a lot. You see, somewhere we gave you white folks, either you all are slicker than we think you are or you're dumber than we give you credit for being. And we don't think you're dumb, we think you're slick. We just know, but we ain't been able to figure you out. See, we know you ain't dumb enough after 1969 to still draft niggers into your Army to Ft. Benning, Georgia, teaching them how to be guerillas and then send them to Vietnam to kill foreigners and think that niggers ain't gonna come back here and kill your liberated mama. We know you smarter than that. But you sure come off looking mighty dumb, baby. What you gonna tell all them niggers that been over and kill so good cause they got so many metals he can't straighten up right. What you gonna tell that nigger when he come back home and start dropping napalm on Chicago? What you gonna tell him about the Dr. King that one who taught, ain't never killed nothing until you brought him into your Army and taught him how to be a murderer. What you gonna tell him? Yeah, you got a big job. u

So, we would appreciate it if you would hurry up and put white only on this thing here and get it out of our neighborhood and then right after that, please come and get that lily white history book. That American history book. Please get that history book out of our community. Baby, let me tell you something. Ain't no way in the world that u

nigger gonna read your history book and behave. You ever read your history? Says you landed at the Plymouth Rock and from the Plymouth Rock to California you shout murder ya way all way cross the country. You give me that to read and then tell me to behave. You got to be insane. You ever read this history and then have nerve enough to talk about how niggers steal, and with pride in your history book, you say how you came to these shores and discovered a country that was already occupied. Now how do you do that? How do you discover something that is not only occupied, but being used at the time. That like me and my old lady walk out of here tonight and you and your old lady sitting in your brand new car and my old lady say, gee, that's a beautiful car, I sure wish it was mine and I say, well, let's discover it. American discovered old America. I'm sure an automobile wouldn't be bad. u

Have you ever read your white history? We didn't think you read it cause if you read it, you would understand me. Give me liberty or give me death. That's in your history book. Who said that? Rap Brown, didn't he. What did Stokley Carmichael say? It's in your history book too. Don't shoot til you see the whites of their eyes. Then got nerve enough after you gave up this old white American history book you tell niggers you all got to have respect for the police. You know its in your history book. You don't have no respect for the police. Then bragged about it u

In the early days when the British was the police, a white boy by the name of Paul Revere rode through the white community and said get a gun white folks the police is coming. Yeah, you understand them white fancies don't you. Yeah, you got a history book. We sure wish you'd take it out of our community. Ain't got nerve enough to get upset when the riots start and the niggers steal the TV and take it home with them. What the hell you get upset about? Cause right in your history you brag with how you got on the stranger ship and dumped all that tea in the water. So what's you mad about? A nigger got enough sense to take it home. Well, yeah, you youngsters got a big job. u

Briefly in closing tonight, let me discuss black attitudes. Lord knows we got some attitudes and God, it's about time. In all honesty, we don't know what we been doing in the last two year to alienate white folks the way we alienated you, but we know whatever it is we been doing we gonna keep on doing it. Cause we noticed there has been more integration in America the last six months ever in the history of this country. We noticed for two years ain't no niggers been lynched, so whatever it is about, what we make more uncomfortable, the more gentlemen you are so we gonna try to uncomfortable you some more. And all we trying to say is we tired of these insults. That's all. Now we got enough sense to know we never gonna be strong enough to make white folks quit insulting us. We know that. And we know white folks got enough sense to know they ain't never gonna be strong enough to make us quit reacting after they insult us. We gave you a right to be a racist. That's your hang up. You do anything you want to. Racism not supposed to effect me. Now you got a right to call me a nigger. Now that is freedom of speech but don't put nothing around my neck, though. You got a right to dislike me cause I'm black and your white and that's freedom of expression, but don't start blackening me cause them little things in your head. Let's face it baby, because I'm an alcoholic you don't have to stagger down the street. This what we talking about. So we say you got a right to have all the petty hang ups you want to have - keep 'em inside your head. Keep 'em inside your house. Don't have 'em overhead and alienate me or misuse me with them no more. That is all we say. And any black man tell you, you ain't got no right to have your hang ups I tell him to his face he is a damn fool. Just keep your hang ups to yourself baby. We tired of these insults. u

You know what an insult it is when a white American tells us to be non-violent. Do you know how that insults us? The only country on the face of the earth that has dropped the atom bomb on another human being and you ask niggers to behave. Any morning you go out and drop your stinking napalm on women and babies and you tell me about throwing a brick. Nobody knows how insulting it is to me cause I'm so dedicated to non-violence that five years ago I had to become a vegetarian because thou shalt not kill means exactly what it says. It u

says nothing about human beings. It says thou shalt not kill. That covers animals too, baby. That's my hang up though. Baby, I never knock a steak off your plate. Never want to put a pork chop on mine. I never go around teaching vegetarianism. That's my hang up. I have a right as an individual to have my hang ups. It ain't got a damn thing to do with affecting you. Non-violence, I don't preach it, I live it. I'd rather be killed than to kill. If a man walked into my house and was going to kill my wife and seven kids and the only way I could stop him was to kill him or injure him, he would have to kill 'em cause I would never kill or injure another creature or nature man. But that's my hang up, Baby. I got a right to have individual hang ups, but I don't have the right to tell you you have to let a chuck come in your house and wipe your whole family out and I don't intend to. I'll never take no dynamite out of your hand - don't you never fool with my picket sign in mine. U

As an individualist you be as violent as you want and I'll never say a damn thing about it and as an individualist I'll be as non-violent as I want and I don't expect you to be commentin' on it. But as non-violent as I am, it alienates me along with the rest of my black brothers when white Americans tell black folks to be non-violent. We say to white America if you dig non-violence, prove it to us and don't do nothin' for us because we prove we burn a town down. U

Prove you like non-violence by gettin' up on that Indian reservation and cuttin' my red brothers, because you can't be no more non-violent than them Indians been for the last 75 years. What happen to your appetite for non-violence? You ain't nothin' but shuckin' and jivin' man. You in Vietnam tonight with a half million violent, American soldiers trying to guarantee that foreigner a better way of life in the morning, than you want to guarantee your own Indian brother you stole this country from. The whole world is hip to you. So we say, don't play no more games with us until that Indian is off that reservation. U

The most non-violent man on the face of this earth should not even be permitted to utter the word non-violence because that Indian bein' up there shows the whole world what a passionate disrespect you have for non-violence. So U

we say we tired of these insults. Now people come to us and say how come you all don't want to be called colored no more. How come you all don't want to be called Negroes. Well, look, you can call us anything you want to call us but it's safer to call us black. U

Again we say we don't be meanin' to put you white folks to no imposition, but we looked around at you and we notice you don't play no games with yourself, why play 'em with us? A Jew leaves Israel tonight and come to my country. He a Jew in Israel, he stays a Jew when he gets here. An Italian leaves Italy to come to my country. He's an Italian over there, he is an Italian when he gets here. You jolly old Irish left Ireland who was Irish over there, you stayed Irish when you got over here. So you see, you don't play no games with yourself, why do you insist on playing games with us? We left Africa Africans, and when we got here we got to be 'nograss' and 'nugrass' and colored folks. Don't play no more games with us. Call us colored, nothin'. You want to play some games? Call yourself clear folks. We all made the same trip - came across that Atlantic Ocean and changed us, but not you. We tired of these insults. U

This is something new because 20 to 30 years ago in America black folks had empty stomachs. Today in America black folks have full stomachs but hungry minds and a hungry mind will not tolerate the same thing that an empty stomach would. Empty stomachs deal on smell and hungry minds deal on sound, and all at once this country don't sound right to us any more. U

Four years ago three white boys burn up their draft card and within two weeks time the Senate and Congress had passed an anti-draft card burning bill, but we haven't been able to get them to pass an anti-lynching bill in a hundred years. My country just told me she thinks more of a piece of cardboard than she thinks of my black mammy - I'll bring her to her knees for that. U

If I was in Vietnam tonight and got killed by a Vietcong, this country would give my black wife \$10,000 and she couldn't take that \$10,000 and buy her a house in any

neighborhood she wanted to buy one in. Hell, I got killed shooting at the wrong folks. When you tell me I got to get a fair housing bill to live anywhere I want to live in my country, who in the hell you think you are. What kind of animals are you? That old white Russian broad, Stalin's daughter, a known Communist and a known Russian, you ain't supposed to like neither one of them. You don't make that broad get no fair housing bill to live anywhere in my country she want to live. Why do I need one? All them Russian exchange students you bring over her to my country. They don't want to be your citizen. Four years from now they going back to Moscow. Ten years from now they might drop a bomb on your mama's house. When you bring them Russian kids over here and put them in your schools as exchange students, you got to put the FBI on them to watch them for four years, so they don't steal no secrets. You don't make them Russian exchange students get no fair housing bill to live anywhere they want to live in these old racist-ass college towns. Why do we need 'em? What we talking about? We sayin' we are tired, tired, tired of these insults. u

You know, there is a lot of people in America who believe a nigger is the stinkingist, smelliest who walk the face of this earth. That's groovy. That's your hang up. Keep it in your head. I'm not here tonight to convince you niggers don't stink. I say, do your own research. Check the records at the cosmetics industry and see how many multi-billions of dollars a year you white folks in America spend on deodorants and check them deodorant commercials on television and see if you ever see a black armpit. Figure it out for yourself. Niggers in America doing all the stinkin' and white folks in America buying all the deodorant. Who really stinks in my country? So, we say we tired of these insults. u

There's a lot of white folks that believe that because I was born black and they was born white, I'm inferior to them. That's a groovy hang up as long as you keep it in your head. Don't insult me with it no more. The interesting-thing is the same white man that will tell you that I'm inferior to him because I'm black and he's white, he be the first one to tell you that if I went to bed with a Japanese woman tonight and gave her a baby, the baby will be colored. He would be the first to tell you that. u

If I go to bed with an Irish woman, Jewish woman, Italian woman - I can go to bed with any woman on the face of this earth and give you a baby - the baby going to be me. My sister can go to bed with any man on the face of this earth and get a baby - the baby gonna be her. Is that inferior stock to you? We sayin' we tired of these insults. U

We tired of people coming to us and sayin' now, education is youall's problem. If education was the problem, the Jews would own America today. Education youall's problem. That ain't nothin' but a whitey cop-out. If education was the problem, how come we haven't got our school teachers in Vietnam instead of our Army. Education is the problem. U

You ever stop to think how many millions of people would be dead today on the face of this earth if it wasn't for blood plasma. Are you aware of the fact that a black American by the name of Charlie Drew invented blood plasma. Don't take my word for it - check it out at your library. Are you also aware of the fact that Charlie Drew bled to death at an Atlanta, Georgia, hospital waiting for a room after an automobile accident because they didn't accept niggers. Now you gonna tell us education is our problem. The man that had the education and wisdom and genius to give blood plasma to the entire world died in America from the lack of his own invention because his face was black and education don't have a damn thing to do with it. We tired of your insults U

We tired of people comin' up and tellin' us why don't you all quit all that demonstration and go down to the ghetto and pull your brother up by his bootstraps. Why don't you give him some boots with some zippers on 'em? U

We be the first to admit to you that black women in America have twenty percent illegitimacy. We don't deny that - we have had fun in the ghetto, baby. And white women in America have two percent illegitimacy, but what insult us is that your white sisters got two percent illegitimacy and my black sister got twenty percent illegitimacy and you want to put a halo on your head and believe that morally you more morally dedicated and committed than I am because

your white sister have two percent illegitimacy and my black sister had twenty percent illegitimacy. But that ain't true baby. That ain't the way it is. Because if we ever got our hands on you white folks abortion credit cards we'd show you how to knock a rate down, too. So, your low illegitimate rate hasn't got a damn thing to do with your morals. It's your money is longer than mine. We sayin' we tired of these insults. We tired of these white folks comin' to us and sayin' how come you colored folks havin' all them babies you can't take care of. You just going to end up on relief. We knot it. And really, the only thing we see wrong, just ain't enough of it. u

I ain't never met a white man who didn't want some free money and if worries like relief, welfare and ADC worries you, change it and call it foreign aid. All that free money you give them white Eurpoeans - it don't bother you. Call it what you call that free money that you give these Kentucky farmers. You don't call it relief - subsidies, I believe it is. America, you paid billions of dollars to farmers not to plant and then don't want to pay my sister after she plants. u

As far as all them babies we have in the ghetto we can't take care of, we make a deal with you. The day this rotten racist system learns how to hire black boys, and give us good jobs like the white boys, so we can afford all them whores and prostitutes, we'll quit havin' all them babies at home. We don't have to ask you about the prostitutes cause the whore is my sister and she usually discusses you with me when she countin' your money. So we know what you doin', baby. u

So we say we tired, tired of being insulted. You know what an insult it is to me at night when I sit down and get to thinking how the Germans killed my daddy during World War II. You know what an insult it is that when Germans killed my daddy in 1942 I was ten years old and I'll be 37 years old this year. u

Progress, every time my old lady gets pregnant and I see that black belly getting big, I realize how we've progressed. Because every time I remember just a little bit over 100 years ago when my black slave sister got pregnant in the slave tent, she rushed up and told her u

black slave man, 'Man, I think I'm pregnant' and them two black slaves fell down on their knees and prayed to their Almighty God that their unborn baby would be born deformed. You think about that prayer, one day. They didn't pray that anything would happen to the white folks kids. They said, 'God, we're dealing with such a racist inhumane peace. Lord, if you will just give us this baby born with a limb missing or Lord if you would give us this baby with his body twisted and a hump in his back, or God, if you really want to be good to us, give us this baby born maladjusted, because you see Lord, if you give us this baby born like that, the white folks will never be able to sell that baby, Lord, and we'd get to keep it all of our lives.' You think about that prayer one day. Then one day after that baby was born the black slave sister rushed up to her black slave man crying tears of joy, 'Honey, the Lord's answered our prayers. His head looks funny. I think he is going to be maladjusted.' And them two black slaves fell down on their knees crying tears of joy, thanking their Almighty God for a maladjusted baby, a baby that the white folks couldn't sell, a baby they would get to keep all their lives. U

Progress, me and my wife have got seven little black babies at home and we ain't had to pray for nothing, let along a maladjusted baby, that's all the progress we're going to get (inaudible). U

So as we leave tonight I say to you, we're tired of these insults, no more games, don't play no more games, don't give us no more fair housing deals, no civil rights. We don't want our rights on the (inaudible), we want our rights on the same piece of paper you get yours on, it's called the United States Constitution. Don't give us no more rights on no installment plan, cause you don't do anything but make us mad. U

No, I'll tell you what. We would like for you to play one more game with us. We'd like for you to give us what we call our honest white folks deal. Now don't none of you get up tight cause it ain't got anything to do with white folks. As a matter of fact, we'll give it a good name, we'll call it the concerned honkie law. I'll bet

that would go over big, wouldn't it? It would just be a simple law. It would read, all five-year-old black male baby boys, see it ain't got nothing to do with white folks, all five-year-old black male baby boys- don't even cover my black sisters- will have to go to a Government camp for one year from the age of five to six, and we'll stipulate in the law these little black boys will be able to sleep eight hours a day and the other sixteen hours a day the Government will teach them, and that's where the honest white folks will come in. Sixteen hours a day for a solid year the Government will teach them niggers, when you grow up don't ever fool with a white lady, don't ever date a white lady, don't ever have an affair with a white lady. U

You know, in leaving you tonight, let me say to you, you know we cannot believe that anything upsets you no more than to see a nigger with a white woman and you ain't got guts enough to talk about your number one hang up. Who in the hell do you think you are? And one day if you ever get up enough manhood to talk about your number one hang up, you might find out that its something you're doing that make me want that broad and you'd have enough sense to quit doing it; you'd find out that nobody want that broad but you. U

Hell, every year now automobiles come out and you can't advertise your new cars without that white lady, so I feel I need a white lady to make my gears shift right, O. K.? U

I'm sitting on an airplane, minding my own business, reading a magazine, turn to page 35, and there's that white lady holding a bottle of Pepsi Cola in her hand. Thirsty, honey? Have a Pepsi. Yes, I'll have a Pepsi and you too, you old white broad. U

You know how you program them little babies with them cigarette ads? Come on, I know you had to know what you were doing to us, didn't you? I go to my black neighborhood, walk into my black house, go into my black living room, get with my black wife and my black kids, and turn on my black television and there's your white sister running halfway across the screen, half naked, saying 'Buy a Playtex Living Bra.' Yes, I will buy a Playtex for my old lady and buy you for me. U

You know this might come as a tremendous shock to many of you, but niggers wasn't born wanting no white woman and the day you ever quit programming us. I went to see my first movie, I was four years old. I didn't know anything about no white lady, ain't never seen nobody make love in my life. Get there to the movie, who'd I see make love, the white lady, Ava Gardner and Humphrey Bogart were doing their thing, baby. I was four years old. I didn't know what they were doing, but I had enough sense to know I was going to grow up one day and do it. Yeah, you did a good job. All your Miss Americas were that white lady. You taught me through your stinking programming that the most gorgeous, sexy thing walking this earth was a blue-eyed blond. I said, okay, that's all right. I'm getting one of them, too. And after you run that old game in on me then you get upset when I reach for her. Come on, baby, you got to have better sense than that. You told me Heaven was good, I want to go to Heaven. You told me that whiskey was good, so I used to get drunk. Everything you ever programmed me to I accepted it and I reached for it and the only thing you wants to get mad about is that lady. What's wrong with you? *U*

Yeah, I went to the movie every night, not to see that white lady, I went to see cowboys. I couldn't even see that without seeing her out there on the prairie making love. So I said, okay, I'll get away from her, I'll go see Tarzan, and there she is out there messing with the elephants. *U*

Next thing I know I'm eight years old, been going to the movie every night for four years. Do you know how you brainwash people, or was it an accident? Four years of every night going to the movie, looking at that white lady making love. I never will forget I was eight years old sitting in the movie looking at Ava Gardner and Alan Ladd, that showed enough (inaudible), and I nudged my friend and I said 'I sure gonna get me one of them when I grow up.' He said, 'Which one, him or her?' I said, 'I don't know, I think I'll try them both.' I got news for you. Today, I'm grown and I'm going to get me a white lady and the madder it make you the more them broads I'm gonna get me and I hope it makes you so damn mad that you get enough sense to quit programming my little black kids and show them some black

ladies in the movies making love. Show them some black ladies holding that Pepsi Cola bottle. Show them some black ladies running across that screen advertising that living bra, and if you got enough sense to stop programming me, you'll find out you can have your white lady til she bores you to death. But the big mistake you made with me, the only black woman you ever showed me in the movies was Beulah. The only black lady you ever let me see advertise anything was Aunt Jemima, and for some reason I just thought you had enough sense to know that I ain't never, ever, ever, in life wanted to ever grow up and make love to Beulah. U

And so tonight, I say to you youngsters, you have a big job. Briefly, let me say to you young white kids, this fighting to struggle for human rights is more important than the black movement, because we fought for civil rights. Young white kids' struggle that have made white folks all over the world for the first time last year respect white folks in America. If you don't believe that, go outside the country. Because the image you're projecting all around the world as you talk about human rights. I've been all over this country. There are white kids that have never seen a Mexican in their lives other than on television, but you're standing out in front of the supermarket every day saying don't buy California table grapes. U

Let me ask you white kids to do me a favor. Extend your movement for human rights, not just to cover the black man, Mexican, Puerto Rican, and the Indian, but extend it and Lord knows nobody knows any better than you folks in Kentucky, extend it to include your poor white hillbilly brother, would you? U

There's a poor white boy in this country, that although its groovy to move into the Indian's problems, to come back into the black community, and to the black kids so we can get into these institutions where these old racist tests... There's white hillbillies that can't pass these tests neither, that needs your help come summer. It's a poor hillbilly that wants to know about Medicare, that wants to know what his rights are when the police knock him down. Extend an arm out to make that a fight for human rights. Understand the struggle in America today is not a struggle

of black against white, it's a struggle of right against wrong. U

As I sat three weeks ago and looked at television, as I watched the Federal government go into South Carolina and pass out food stamps to black folks, I was saddened because I knew the only reason they were not in Appalachia passing out food stamps to white folks that's as hungry as my black brother, is because you young white kids don't give a damn about that poor white hillbilly. So I hope you will include him into your struggle. U

We're running late tonight. I know a lot of you have work to get to, baby sitters to relieve. So for a few minutes we're going to let those of you who have to run, we're going to let you split now. I hate to go so long cause a lot of people got things they got to do, but you hate to walk out on me because some old fool out there might think you're racist. So let me say that those of you who have to split, we appreciate your being here. We going to give you a few minutes for those of you to leave and then we're going to come right back and we're going to have some questions and answers. First we'll have some from the panel. You don't have to write them because I think sometime a lot of hanky-panky goes on when you write them questions. Sometimes the people don't ask questions that they might think might be insulting. Sometime you will ask insulting questions you wouldn't ask if you didn't have that pencil to hide behind, and so in a few minutes we'll be back and if you have some questions we'll let you stand up and raise your hand and scream them out, and I'll deal with them. Until then, thank you, may God bless you, may nature have fun. Thank you. U

Today there are many black militants ready to fight, but Dick Gregory was also willing to talk and so he did. He received a standing ovation tonight at the first of an Insight series to be followed tomorrow night by Al Capp and Wednesday night by Julian Bond and Sander Vanocur. U

We're having a brief intermission right now between the lecture, which lasted some three hours, and between the question and answer period soon to follow. U

Gregory: O. K. Thank you again. I thought we was going to get rid of all the girls. When do you all have to be in? If you all blow your thing, don't be calling my house asking me for no notes to get back in now. We will have the question and answer period and we will let you out of here as soon as we can and those of you who get back a little late, just tell them you was over here with insight. But now don't stay out no four days now and blame it on insight. U

On the questions raise your hands. If you have a question and we can get around to you, stand up, yell your question out as loud as you can. In turn I will repeat the question and at that point proceed to answer the question. Those of you that's outside coming in, we're going to start with the questions now. If you'll just come in as quietly as possible. Those of you that will be leaving while the questions are being asked, if you will just leave as quietly as possible, it won't interfere with the questions at all. O. K. on with the questions. U

Question: What do the leaders of the black movement mean when they say that the black movement has now gone beyond integration and that integration is irrelevant in the contemporary society? U

Gregory: The question is, What do the leaders of the black movement mean when they say that the black movement has gone beyond the movement of integration? U

What is meant by that? We are fighting now for our constitutional rights under the United States Constitution. If you read the United States Constitution there is no such word in it as integration and so consequently the only reason we talk of integration is because there is such things as segregation. And so, we're saying that integration is very irrelevant to us today. That we're talking about racist society where black folks is forced into a ghetto. We're saying that at least we will get the dignity to control that

black ghetto. We don't want no more white men bringing the Pepsi Cola truck into our ghetto no more. You give niggers all the credit for eating all the watermelon. O. K. then let a nigger bring us the watermelon. There ain't gonna be no more white boys going to be hauling any more watermelons to us and all we're saying is we want to control our faith and destiny. If we controlled and decentralized our educational systems we wouldn't have to put up with the insults we put up with. For instance, let me give you an example. If the Indians controlled his educational system what do you think he would do with all them books up there that now he's forced to read. When the cavalry won it was a mass victory, but when the Indians won it was a great massacre. u

You see these insults that we're not able to control because the racist structure still controls what's going on in the black community. We're talking about controlling that black community. We're talking about that white cop you got in there. You take him, you keep him down at your house because when we talk about police brutality we know the black cop is just as brutal if not brutaler than the white boy. But when we talk about police brutality, we're not talking about physically. u

That black cop don't call me no nigger when he's making the arrest. That black cop don't call my wife gal when he pulls my car over, and when that black cop arrests my seven-year-old kid he don't pull his gun out because he ain't scared of niggers, and at least when the black cop gets off from work, he got to live in the community with me so I can kinda chastise him if he came down too wrong. But hell, that white cop rides herd on us eight hours a day and then when he takes his gun off he's in that lily white neighborhood. We say, No man, we're gonna control our community; we're gonna bring that black cop in; we're gonna bring that cop that lives there, that when he gets off he's got to walk his dog through that same neighborhood. He's got to talk his kids. He's got to come in my barber shop and get his throat shaved, and we feel he would behave just a little bit better if we got him locked in and this is what we're talking about when we talk about, you know, integration is irrelevant to us today. We're talking about controlling u

that black community. That black community that we didn't create. That black community that we're forced to be in. So we say, we gonna make it relate to us. U

Question: Mr. Gregory, What do you think the black student's role is on a predominately white campus in a southern conservative town such as Murray? U

Gregory: What do I think a black student's role is on a predominately white campus in a southern conservative town such as Murray? U

Well, one, I've been all over the country and all towns is like this. There's no such thing and I think this is one of the big mistakes we made down through the years. We blamed this on the South. This is an American problem and the same things the black kids is doing in San Francisco and New York and California and Boston, is the same thing you should be doing here - to work and see to it that this white institution can become relevant to the needs of the black man, to the needs of the black ghetto and the one thing you youngsters have to do, you black kids especially, is don't let this institution teach you how to do nithin' more but to go back and liberate. That's the number one job right now, is to liberate - not to get no job, not to join the system. Your job is, you see, the white kid, he can go back if he wants to cause his mama is already free but so many of you black kids, man, follow the path that us old black fools pass, we got out them institutions, never went back to see mama, left mama and daddy back there and we went on in to do the other thing in another segregated neighborhood, bucking this racist society and the sooner you young black kids go back to where you came from and let them fools realize they got to deal with you, right there and on the movement for liberation, that today will solve a lot of problems. U

Anyone here like to take over? Yes brother? U

Question: Well, there has been some discussion tonight referring to indoctrination on the college level but of the students who are now challenging the system, the students that went to Chicago, the students who feel it is an injustice, they are the more highly educated people. Basically,

I can see perhaps some indoctrination, but I think the higher education that you receive in college also offers you a challenge. Do you think that there really is that much indoctrination to force students to believe something or force students to accept a certain view, or is there really an opening for a student to look at different angles? u

Gregory: The question is, if I heard it right, is that can a system that produced a kid to go to Chicago to change the system which were predominately college kids, could it be that wrong or it could be doing that much indoctrination. This is the same college your mama went to and the same college your daddy went to and your grandma and grandpa. They haven't changed. How come they did not go to Chicago? It ain't these schools that's breaking you up, it's that damn television set that they did not wake you up, baby. That's all it is. The only difference between you and your mama and your daddy and your grandma and grandpa is you been exposed. How where are you gettin' it? You're not gettin' it here cause you studied the same chemistry they studied. You studied the same history they studied, haven't even changed since they was here. The difference is the wakening comes from television. Television is educating you. Then commercials indoctrinate you. But basically, when you sit and look at that Vietnam war and look at the ghettos you move and what is happening how with you young kids, you decided you not going to college and be in prison for four years, that you want to go and you want a part of everything around you and your fighting up for yourselves. This talk about all of these high prices, and I don't know about the dominate college here, but the colleges all over the country are overcrowded, and the people in them now charging huge rents, and the college kids are banding together and saying, 'You know we'll boycott the whole town if you don't get, you know, some rent control,' and I remember hell when I went to college, we didn't - we was too simple to have that producing. Hell, each time I got out there is this old broad tipping up to my room charging me \$40.00 a month, tipping up to my room seeing if I got any alcohol in there. That's my room. Hell, she wasn't giving me that room free; but when she catch me down tipping in her room, seeing if she got some alcohol in there, u

she say I'm stealing, and I try to explain to her that room I'm paying for is mine, baby, that's private property, and that room you paying for down there is yours. Now if I catch you tipping in mine, I'm gonna tip in yours. Now when she wants to clown, I go out, and the school didn't back me up. But now today the kids are beginning to deal with these same problems because of this new awareness, and it goes directly back to television. Thank you. Yes brother? u

Question: You make this spill on this war policy in Vietnam. How can you make out LBJ is so bad when his administration was responsible for more legislation that ought to apply to the American negro than any other man in the history of this world. Don't you think that Johnson is in some degree a credit? u

Gregory: I have the right to feel the way about LBJ I want to feel. The question is how can I mark out LBJ the way I did when his administration hand stamped more civil rights legislation than anybody in the history of America? The biggest contributor to the Catholic churches is the Italian syndicates' hooldums that put nothing but dope into the grade schools because they give to the Catholic church. Do that make them decent people? That what you trying to tell me? Now I know LBJ. I was invited to the White House - I know him, I know his staff, I know a whole lot of the personal things about him, and I say, and it makes me sad, that he is the number one tyrant that walked the face of this earth since Julius Ceasar and don't say this here, if you followed the news during his administration. I was the first black cat that refused to come to the White House and have dinner with him because he was a tyrant, because of the things he has done all over the world. The white community hopes that these bills will eventually establish a reproaching between whites and blacks. Now you stand there and tell us that ain't nothing. Now what are we supposed to think? Let me tell you this, the Chinese said all black folks is number one on the face of the earth and started gunning white folks down. Do that make them good because they love me, or do you take the sum-tótal of a man's effort. There's more to solving the problems in America u

than giving a nigger some civil rights legislation. Look at all the white boys he got killed. For every damn bill he might have got pushed through for me, how many white boys he get killed in that old stinking ass war over there in Vietnam. That don't even make sense, and the same country that's talking about holding the Communists down over there, gave all the airplanes to that Tito who ain't nothing but another stinking Communist. So you balance it out. The same country who we friends with, which is Moscow, Russia, sends all the bullets and missiles that knock down all your American boys over there in Vietnam. How can we justify that war in any way, shape, or fashion? So all I'm trying to say, it's more to it. I tried to say it when I was speaking. The problem ain't black and white, it's right against wrong and LBJ is one of the wrongest presidents we ever had in the history of this country, barring none. What policies should we have undertaken to try to bring back some moral sanity to America? LBJ was one of the strongest presidents we ever had in the history of this country, and LBJ could have solved ninetyeight percent of all the problems. U

You talking about, when you sit, and you talk about the poverty program, you know what they did with that damn poverty program? They gave it to the politicians instead of giving it to the colleges, universities, and the businesses. I got friends I know personally, one in New York City, that through LBJ's stinking poverty program they paying that nigger \$25,000 a year just to behave himself. See I know what went on with that stinking, filthy administration. Baby, you could have went out and paid half that money and got some moral, ethical decent people that could have sit down and basically came up with some ideas of solving the problem, but he took that poverty program and made a political plum out of it. U

In Chicago we got Democrats running Operation Head Start that don't know a damn thing about education, and Lord knows they don't know nothin' about kids. They just loyal to the Democratic Party, and LBJ was strong enough to solve the problems. That money they taking away from them schools down there in Mississippi and Alabama, they shouldn't take

another nickel away from one of them schools until they take that money away from them schools in Chicago, when Chicago has the most racist housing pattern and school pattern of any city in America, including Mississippi. U

Question: What if we did pass laws? U

Gregory: You don't need to pass no damn laws. You got them in the Constitution. You just implement the laws you have in the Constitution. Don't pass no laws for they already there. Give me the same law you got. Don't pass nothin' for me. Don't pass a damn thing for me. The same law that guarantee you your rights, let it apply to me. Don't pass no damn laws for me. All they mean is 100 years a man's changed my dollar for 32 cents, and them laws they got passed through now they means not he's giving me 64 cents, 64 cents change for a dollar is still cheating, baby. I don't want 64 cents change for a dollar. I want a whole dollar's change for a dollar or your cash register will never ring again. Let me ask you if my brother had been changing your dollar with 70 cents for the dollar and then I came through and changed your dollar with 80 cents for the dollar, then somebody asked you why. Do you call me a thief? I'm giving you more than my brother gave you because I'm still cheating you and until stop, I'm a thief. The theft is not measured by the quantity, but by the act that he committed. That is the same thing we sayin'. LBJ, as far as LBJ's strength, there was never a president as strong as LBJ and had LBJ been right morally and all them other old kind of things, he could have solved a whole lots of problems, and he didn't and so far as I'm concerned, he wasn't no good president. I don't care if he was blacker than my shoes, he still wasn't no good and good will never be judged to me by what a man do for me. That will never decide what makes him good. The good will be the sum total quality of the man, and I've said time and time again, black folks have said time and time again, what good does it do us to have a president that give us all the high rights and end up nothing, us in World War III and we just have them for a day. It's bigger than that. Thank you. Any more? We got time for one more. Yes brother? U

Question: Would you take a stand on the platform that blacks and whites should have the same identical same rights but neither one over the other? Whites not over blacks and blacks not over whites? True? *u*

Gregory: The question is should black and white have the same. The blacks shouldn't be over the whites, and the whites shouldn't be over the blacks. Yeah, that's true. *u*

Question: No meaning? *u*

Gregory: But we don't have to play games with it. I already said yes. Now what the hell. We go on with it. Shit. *u*

Question: Do you believe the nation's defect is the American institution or the American people? *u*

Gregory: The question is, Do I believe the American defect is the American institutions or the American people? The institution. I've said for years that if we can solve the problem today we will be able to do it now because of television, because if the people are exposed to the problems. This basis change, you see, we are not making as much progress in feeding the hungry but have you been seeing the reaction of the hunger problem in American since it's been getting exposed. I'm sure if the establishment, which is NBC, CBS, ABC, would go up on the Indian reservation and do some documentaries on problems the Indians are going through, this country would be outraged and so you got to take the blame right back to the establishment. But I have tremendous faith and respect in American people, but it is the establishment. It is the establishment that lies to you twentyfour hours a day. It's this same establishment that hasn't told us that we have been fighting a war in North Korea for six months and half of that casualty rate is coming from North Korea but we blaming it on Vietnam and I guess some of you young kids that have friends over there that you been hearing from will tell you that we been fighting a war over there. But it's the establishment, and I think once you work to change the establishment then the problem is gonna be solved. Yes, definitely not the American people but the establishment. Yes. This is the last question here. You go first and then the gentleman here. *u*

Question: Mr. Gregory, in your lectures you seem to make a distinction between human rights and property rights. Am I to take it that you do not consider property rights as a human right? U

Gregory: Right, yes. The question is that I do not take human rights on the same light as property rights. I put human rights ahead of property rights. U

Question: You would include property rights as human rights, though? U

Gregory: Property rights as human rights? Is that what you said? No, I do not. Property, if your house burn down tomorrow I can build you another house, but if you hit and killed by a car we can't give your mama or your wife another you. That we cannot do. If you was killed in Vietnam your kids is out of a daddy. If your house blew up we can get you a mansion, a castle, we can make you a better house than you ever had before in your life, but we can't get your kids a better daddy. Now I put human rights way far, far ahead of property rights. Yes brother? U

Question: Mr. Gregory, What do you think the future of black power is? What I'm trying to find out is a black student in a predominately white college feels more competitive than in an all black school, he has more secure group feeling and more extracurricular motivation? U

Gregory: The question is what do I feel the role of the all black college will be. That the black kid in the white school feels more competitive. The black kid in the black school feel more secure. If I had it to go over again, I wouldn't go to a white school. I got seven kids I would never send to a white school when it comes to going to college. But you got to also understand that because I'm Dick Gregory there will be room in them black schools for them but it's not enough room in the black schools for all black kids today. But you see, I remember when I was in college a white girl fell in love with me because I was a hell of an athlete and the teacher threatened to flunk me. You damn right it's a whole lot of competition there. That's the competition I can do without for the rest of my life. I went to a white school U

where they asked white boys did they mind having a Negro for a roommate but didn't ask black boys if we minded having white boys for a roommate. So everyone they send me I put him out and explained it to the school that until you will ask black folks the same thing you ask white folks, then don't never send me no white boy over here. And so all of them things I went through, you know, I could just, you know, completely do without because what we was doing in these white institutions they was teaching us how to be chocolate covered white folks. And when we got through, we wasn't fit for the white community and Lord knows your ghetto brothers don't want you. If you can't stay for in the ghetto, don't go back down there. And so consequently, I think, you know, that the one production that - - now there is a lot of work have to be done in the black schools too, because it's the white racist institution they running the black schools. The Board of Directors of the black schools are white, you know, and so consequently there are drastic changes that's being made today. But I think, you know, with the movement of the black kids and the young white kids I really think if anything good is to be saved it will be the universities. I think within two years there is a possibility that all universities might be closed down because they will be resisting to change. I think little by little, because of the awareness not to kids here but seventytwo percent of every high school in America had a disruption this year. So that's that revolution that's coming through baby, and when he comes through he gonna be knocking them down and writing names. They got some young white kids that will be coming through that will run half of your black kids out of this university here cause you just walk too slow for it. You ain't really together. This thing, you know. So consequently, you know, this is the beginning, and I think you know what is happening in the institutions now. Well, there it is right there. See this never happened in institutions before but we are in an era today where, you know, that you young kids are ready to block them out. You sayin', 'Well, look, damnit, let me hear about it.' There was a time people didn't even want to hear about it and so this is a tremendous thing, and I hope that you youngsters here tonight will make this a tremendous success and will come and hear everybody - I hope you black kids just don't come and hear - the black folks that come - I hope you come here and listen to the white folks that are be here. I U

hope you listen to everybody and see how they relate to the sum total picture. U

Question: Mr. Gregory, one last question. U

Gregory: Well wait til I get through brother. And so I hope that within the process of - process of this type of progress like this, you will get some insight that will go far beyond here tonight or tomorrow night of this week. But I would hope that the fact that the student body go out of their way to bring these types of programs that somewhere down the line, five, ten, fifteen years from now something in this type of program might make a difference in you making the right decision against the wrong decision. It might make the difference in you sayin' the right thing against sayin' the wrong thing cause I'm sure that if one of you white kids left here tomorrow or graduation and was going to DuPont to get a job and when you get there the head of the personnel is a black cat, and he decided that you get the job, I'm sure if you use the word black you get far more points than you would if you use the word colored or Negro, you know, although he might use those words himself, it is, well anyway I hope that you all have a very good week. Yes brother? U

Question: What would be the solution to this problem? Say given a white campus in which the campus was ninety percent white and in the dormitory, say the rules were written but were not rigidly enforced on the black. What would be the solution? U

Gregory: If you was in a dormitory, I mean if you was in a college ninety percent white? U

Question: Well predominately white. U

Gregory: Predominately white, and the rules was not rigidly enforced against the black, then they are against the whites. I would say you in America because that's the same picture. That don't sound like no dormitory to me. That sounds like America. We are ten percent black and ninety percent white, and the rules is more rigidly enforced against us than them. I think which, and I'm a firm believer in keeping

channels of communication open, I think that what is the reaction if ninety percent of the students here who happen to be white knew rules was more rigidly enforced. It goes back to the fellow back there that questioned, it's the people or the establishment. It's the people enforcing the rules or the institution. Then the first thing you do is get your propaganda thing going with your leaflets and get out and let the people know that they enforced and then come up with some concrete evidence like sometimes,, you know, being in this black bag, you see some things that you can't document, you know, and you see some things that you can't prove, but you know that they do exist. But I think you know in a - in today's situation, I think that the first thing you got to do is organize. That is why kids get the Black Student Union together and then go by first and see the Dean and then go by and see the president and then say here's specific areas where we can document this, this, and this, and then say, 'You know, we'd like for you to, you know, do something about this,' and then if they don't work, then take it to the kids, and if they don't work, well.. u

Thank you. I didn't say nothing. O. I. We gonna run. Hey again, thank you. God bless you and nature have fun with you. Thank you. u

ENCLOSURE

"Tonight the council is presenting a man who has reached deep and found the truth and fears not to present it whether pretty or ugly. His inspiration to us is that the fight for racial justice has to be fought on all fronts; On the social and on the political fronts; That it has to be through consultation as well as through persuasion; Through the public sector as well as through the private sector. His name is well renown. He is well known as a night club comedian. He has toured the continent as an international leader, has stared on Broadway. He has had major television appearances and has recently become a spectacular success in motion pictures. He has also become a best selling author, especially in the field of racial justice and the civil rights movement. So at this time the Council of Human Relations is happy to present to you Mr. DICK GREGORY:

I would like to say thank you very much. I was flying in this morning from St. Thomas; I had stayed up quite late last night so I decided I would doze off and get a little sleep so I got on the plane and my wife sit on one side of the isle and I sit on the other side of the isle, there was a white cat sitting next to me, naturally before I go to sleep I checked him out. Then I dozed off. About fifteen minutes after I get to sleep this white cat decides he wants to strike up a conversation with me so he did it the usual way, wake up boy, I woke up, only to find out that he didn't have nothing to talk about. Now he wanted to discuss Negro progress in America, I told him I didn't want to discuss black progress in America because there were too few people in America that really know what areas we made the tremendous amount of progress in and a lot of people think we made tremendous progress in jobs and housing and education, nah, you know the biggest breakthrough for black folks in the history of this country about two years ago in the State of Texas we got our first colored hurricane Boulah. That's progress they say. Yeh well you can intergrate their big brains. Hey you stop and think we're doing all right. You been watching television lately, they got so many black folks on television it scares me. Yeh you remember when they first started using black folks on commercials it was always after midnight. Now all through the day--we even got a black cowboy this season, you been watching what's that show, the Outcasts, you can tell by the name it's us. Can't you. Now next year we going to have another black cowboy so this black cowboy can have someone to kill. Oh I don't mean it like, naw they let him kill white cowboys but you see when he kills a white cowboy the script writer really got to go through some changes cause see they got to dirty up this white cat so bad that when this black cat gun him down, everybody

will accept it. Yeh, a black cowboy killed a white cowboy three weeks ago did you dig it. Yeh. This white cat had just finished raping a blind paraplegic, Salvation Army worker. But that's not why he killed him, the black cat didn't know he just finished doing that, no, the black cat gunned him down because he had stole \$2,000 worth of Christmas Seals. But let me say it's a pleasure seeing so many of you young folks with us this evening. I don't mind ya'll taking my picture just don't make me too dark. You think how many centuries of out breeding I had to go to get this light don't ya, goofing on one place. It is a pleasure cause from the news I got today I have to check with my lawyer but they'll probably know more about it tonight because I've been up in the air all day, I just found out the Supreme Court turned my appeal down which means I got six months to start doing something whenever them fools decide they want to do, I got to do it. I don't know if they decide to pick me up tomorrow or what I'll talk to my lawyers tonight. But ah, we in the civil rights movement have been accused of the government trying to put us in jail and trying to kill everybody that speaks honest to them, that's what the government's intention is of killing us, they'll get their chance on me because when I start serving six months I swear to you I will not eat none of them fools food. I mean it in protest I will go the whole six months or until I die of nothing but distilled water and hope those of you that's fighting for freedom and human dignity can get a little bit of strength from whatever I have to do when I go to that penitentiary in Illinois but tonight I say to you that I will do those six months for the system under protest, that protest will be I will not eat none of their food, I will drink my own water cause I know they don't supply distilled water and I'm just damsick and tired of every time you get something going out here the system wants to crush it, so if that's what their shout is, I'm going to give them every opportunity, so I say I don't know what the status of it is, I just heard about it when I got off the plane today. I'll talk to my lawyers after I finish. Let me say to you youngsters what an extreme pleasure it is seeing so many of you out this evening, I spent about nine weeks of my time on college campuses today and for a reason and it's a simple reason. The simple reason is that you young folks is the most morally, dedicated, committed group of young people that's ever lived in the history of this country born none. I say to you youngsters I hope in all of the prices you stay honest. That's vory important. I can't believe in America--everybody running around wondering about black hate type symbolism. Every Jew in America, every 30 years old know another Jew that don't like niggers. Now when you meet some niggers that don't like Jews, don't act like you wonder what's happening

in this damn country, and what upsets me more than anything is all these dishonest niggers that's running around asking, boy, wonder why black folks so anti. . . Any black person that ever was brought up in a large urban city heard your ma-ma make some anti-Semitism remarks, so what's all this nonsense about, and had you raised as much hell then as you raising now, you might not have to be confronted with it but it didn't bother you as long as the Jews didn't know it existed. Now that it's coming out in the public everybody is getting uptight. Now let me say to you as bad as I hate to see man hating man, the one thing I am glad to see is this anti-Semitism in the black communities coming up, and I don't give a damn how bad it upsets you Jews and all of you that want it to stay hidden, I'm glad that it's on the surface now and I got news for you, it's been there, it just didn't start, it's been there and now for the first time we might be able to solve the problems confronting America today which is man's inhumanity to mans, one man hating another man and I say to you young kids that I hope you keep all your rights above board like you been doing. I hope you never go underground with your little things that annoy you, as long as you keep it above board we might throw you in jail, we might ridicule you, we might call you a bunch of dirty names but at least we'll know what you got on your mind, and I say to you youngsters tonight that's here that we got a hell of a burden left on you young folks and I hope that you young people do not read those old rightwing cracker-controlled newspapers in America that try to find out who you are or what you're all about because they not going to tell you and the average newspaper in America morally is not sound enough to even discuss you young kids with yourselves, so I hope you don't make the mistake of believing all this mess you read in the news where they call you hippie-yippie, irresponsible bearded, smelly kids whatever that means.

And I have to ask the question that because you have a beard why does that mean you have to stink. They don't say nothing about Abraham Lincoln. He didn't only have a beard, he was ugly too. The newspapers have yet to be honest with you. They have yet to tell you young folks in America that because of your loyal dedication LBJ was unable to run for re-election. LBJ is probably the number one tyrant that's walked the face of this earth since Julius Ceasar. Now you young kids made this mighty man go on back to the ranch and you know what was interesting, you didn't use one fireball, you didn't use one missile, and you didn't use one violent army, you took a moral dedication and made the number one man

TP 157-3163

in the world go into retirement and because you are so strong, and so pure and so honest, you don't ever have to worry about tricky Dick making a mistake unless he goes crazy. Because with all of Nixon's faults he still got enough sense to know he's not as slick as LBJ, he's not as popular a politician as LBJ and he got enough sense to know that if you young kids ran LBJ back to the ranch, it's a short distance back to that law office in New York City.

I tell you youngsters got a big job. You got a strong job and I hope you understand your strength. I hope you understand the responsibility us fools is leaving on you. Fifteen-thousand of you youngsters showed up in Chicago during the Democratic Convention and that made the difference of Hubert Humphrey being the President and Richard Nixon because had you not showed up and that scene not taken place in the street I'm sure those three to five million people that didn't come out to vote because of what happened would have come out and vote and I'm sure they would have voted for Humphrey and I say that today to you, that's a lot of power when 15,000 of you can decide the fate and destiny of this country. Now all of us old fools is upset, not that you came to Chicago, but your presence there put NIXON instead of HUMPHREY in the White House. One thing about you youngsters you got enough sense to know that when you dealing with one of those nasty, slimy politicians there ain't no difference between them, one is just as bad as the other.

So I hope you young kids understand that you changing this system that you got to move statesmen into the political arena because there is a difference between a statesman and a politician. So you youngsters have a big job. A tremendous job. You got the job of solving the problems confronting America today all we have human relations but we come after we finish doing our thing, after we finish 90 percent of everybody showed at human relations meeting live in the neighborhoods that some other folk couldn't get in. So I say this is the system but you got to do it and you can't do it with money and you can't do it running around with this ole bullshit attitude of asking people to do this, you got to do it because the Constitution says it's right, for no other reason so you youngsters got a big job; a profound job we left on your back. Now let me say something to you, a lot of people don't understand why you youngsters act the way you act, but thanks to old fools you going to solve this problem or the country going to bust up

TP 157-3163

because you see you are in a situation that no group of kids are in and as I go around I make about 300 universities in a 10 month period. I speak to over a million young folks in a year, and it saddens me to have to tell you youngsters that not only do you have to solve the problems but you have the problem that you had nothing to do with creating. These problems were here when you got here but thanks to us old fools they will not be here when you leave. You see one thing that we've done to you youngsters that no group of young Americans have ever had to be confronted with not only did us old fools that just walked ahead of you not only did we not solve the problems but the first time in the history of America we used up all the tricks. So you young kids are confronted with the problems but with no tricks. My mother, my father, my whole community taught me when I was a little bitty boy, one day you going to grow up boy and a white man going to call you a nigger and when he calls you a nigger don't get mad cause God don't like no ugly and sure enough one day I did grow up and a cracker called me a nigger and I didn't get mad cause God don't like no ugly. I got seven of them little black kids at home and me and my lady ain't teaching them nothing, and if a cracker ever makes a mistake to call one of them a nigger I can damn sure betcha it's going to surprise them. And I can tell you something else I know three of them that's going to act accordingly, I don't know about them other four yet. So I tell you youngsters you got a big job, we left a mess in your hands.

Let me say to you tonight I did not come here this evening to impress you but only to inform you when I leave here tonight I couldn't care less about what any of you in this audience thinks about DICK GREGORY but I will always have the one consolation of knowing that whenever we wake up, this year, next year, 30 years from now, you will always be able to say least Brother GREG didn't lie to us, and that the big problem confronting you youngsters today we old fools we lie to you everychance we got. It's nothing now we start off lying to you in the crib with that Santa Claus boy and the first letter I ever wrote in my life was to a guy that didn't even exist, Dear Santa. It sounds funny but when your ma-ma lies to you anybody qualifies to lie to you. Cause that Santa Claus boy he goes over better in the white community then he do in the black community. Yeh, that's right. You see black folks know damn good and well ain't no white cat coming in our neighborhood after midnight so we-- But I don't know when we going to stop lying to you youngsters. The number one lie we tell you young folks in American today, you know what it is, the number one problem confronting America today is the problem of air pollution. And the number one problem

confronting America today is the problem of moral pollution. This is the most morally polluted, degenerate nation on the face of this earth born none, and you young kids have the job of giving America her sanity back. You young kids have the job of making America the morally sound nation that the founded fathers meant for her to be. You know the sad thing about America is that America is the only country that lies about what she is. And I hope you youngsters don't make the mistake all these right wingers, they so busy running around eulogizing my country, eulogies are for dead things. But thanks to you young folks America is not dead yet, so I hope you don't make the mistake of eulogizing America and I hope you examine America and find out where the cancer is and cut it out. It a big job for you because there's a lot of cancer. But that's the job and the responsibility we've left for you young kids.

Today we're so busy running around telling about America the beautiful. Let me tell you something if anybody in America tonight believes America is beautiful with that Indian trapped up on that reservation then you're sick, sad and out of your damn mind. America will never be beautiful until you cut your Indian brother loose that we got penned up on that reservation. I hope you young kids never forget him, and so you got a big job to do. America is the only country that lies about what she is and that shames me to know end. MAO TSE TUNG do not pretend that he is a Communist and a revolutionist. Them Communists in Russia don't pretend that they're not Communist. As dirty and as stinking as HITLER was he didn't lie to the world that he felt them Nazis was superior to everybody else. In South Africa tonight they do not lie, they don't pretend that they love them niggers over there. America is the only country on the face of this earth that says one thing but do something else. If you youngsters don't do anything else let's let America be known for what she is. Everyother country is known for what they are. You youngsters got a big job and a big mess to clean up. Thanks to us. I say thank goodness you youngsters showed up at the Democratic Convention because it sure woke up a lot of young folks and I don't think there's anything worse then a young fool because you got so long to be a fool. But we woke you up, 15,000 young folks came to Chicago to change the system and the whole establishment got upset and it woke you up because three days after the Democratic Convention was over the whole establishment tried to convince you that you did not see what you saw on television. They say it didn't happen. They said the press created it. Let me tell you something you know if KOSYGIN was dealing with a

TP 157-3163

world as insane as America you know he could beat that Czechoslovakian war. All he would have to do is get on world-wide television and say you didn't see it, it didn't happen. We admit we sent little miniature tanks to the Czech border but the press blew them up to make them look like real live tanks. Let me tell you something about them damn fools in Moscow they made the same mistake these old fools made in America, they plotted their strategy and they never took into consideration what the young folks' reaction was going to be. They had no idea when they rode their tanks into Czechoslovakia the young kids would come out and put the swastikas on them. They knew the old folks in Czechoslovakia, they know how they would act, would act the same way these old fools would act in America if they brought tanks out Sunday morning and say anybody caught trying to go to church going to get machine-gunned down, you would be surprised what your ma-ma and daddy would do. They would nail the damn door closed and young kids next Sunday that ain't never been in a church before would go.

So I say you youngsters have got a big job on your hands. Fifteen-thousand hippies and yippies came to Chicago to change a system and the whole establishment got upset, not because they tore the town up, the reason they tore it up. They were talking about changing the system. You know damn good and well they don't give a damn about you tearing up a town in this country. For the last ten years in America nobody knows it any better than you folks that live here, for the last ten years in America these white kids been coming to Fort Lauderdale, Florida every spring break tearing up the whole town and nobody gets upset. They know that you're just getting drunk but nobody gives a damn but when you talk about changing this system, they will blow your brains out. That's what you talking about that's what you up against. Young kids came to Chicago talking about changing a system. These kids on these college campuses talking about changing a system. Let me ask you something when we were in college we had panty raids, remember that. Let me ask you something to show you how us old, sick degenerate fools think, which is the most of pure degeneracy, and pure filth to go into the girls' dormitory and take all the drawers or take over the administration building. But when we were still in panties we weren't trying to change the system, and they didn't give a damn what you did they just said boys will be boys. So I say to you young folks you got a big job to do and don't pay any attention to us old folks, do your thing and look and understand what's happening. Fifteen-thousand hippies and yippies came to

TP 157-3163

Chicago to change a system and the whole establishment went crazy, and I ask you who do you think was the most immoral last year in Chicago, the hippies and the yippies or the Shriners when they came to town for their convention. Who do you think spent the most money on whores and prostitution. Who do you think committed the most adultery in Chicago last year, the hippies and the yippies or the Shriners when they was in town. Nobody got upset over the Shriners when they came to Chicago because they didn't come to change nothing just to buy something. So I say you youngsters got a big job. Quito a big job, we left you a mess to clean up. We left you a big mess.

MARTIN LUTHER KING was assassinated, we all got up and said Oh! they've assassinated Doctor KING. They assassinated BOBBY KENNEDY, Oh! they killed BOBBY. They gunned down JFK, and we Oh! they killed the President. But nobody in America got upset when they assassinated LINCOLN ROCKWELL and MALCOLM X. Do you understand that America is not a nation that gives a damn about an assassination, she just gets upset when she kills somebody she likes. Ninty-eight percent of everybody in America that got upset over MARTIN LUTHER KING's assassination, if GEORGE WALLACE was assassinated in the morning they would not be upset. It's a sad commentary on this country, you youngsters got to change this country to the extent that America is going to get upset over assassinations regardless to who it is or she's not, just that open and shut so you youngsters got a big job to do and then we keep looking around telling you that it's the generation gap, that's not nothing but a lot of malarky. When the day we quit lying to you youngsters will be the day you understand what we're talking about. Suppose I stood up here tonight and I said 2 and 2 is 7, and when you start reacting, I say well it's just the generation gap. BERTRAM RUSSELL who's 98 years old could leave London, England tonight and come to America and be the youngest among you because he going to try and reach you from the highest statesmanship, morally pure standpoint and that's the problem with America and that's why us old fools is listed here. And nine times out of ten that same ma-ma and daddy that's going to tell you next month how you suppose to act, going to cheat on their income tax. Going to pad their damn expense accounts so I say to you youngsters you got a big job, you got a mighty, mighty, big job ahead of you.

Let me tell you the biggest job you youngsters are confronted with today, the biggest job you youngsters are confronted with today, I do not advocate destroying the capitalistic system but I say to you youngsters you had better

work like hell to beat the capitalists into their rightful position and that is behind the U.S. Constitution not in front of it. As long as the capitalists are in front of the U.S. Constitution that means we'll put our emphasis on property rights instead of on human rights so you youngsters got a big job to do today because we emphasize nothing in this country but property and if want to know why black folks is doing better today then they have ever done in the history of America is cause them niggers started burning up property and the capitalists understood that and they started doing some things, no other reason. And all those silly Americans running around now, oh! isn't it nice how much progress you're making and we didn't make it out of the goodness of America's heart. When HENRY FORD stood up and looked at them niggers damn near burn down Detroit including the Ford plant, HENRY FORD went crazy. And those of you that read the paper know HENRY FORD went out and hired 6,000 black folks in two days and wouldn't let a white man get in the line. Not only did he hire 6,000 in two days, he paid them two weeks pay in advance, gave them their car fare and their lunch money. And that's the sad thing about America is she appreciates nothing but property and when you become a threat to her property she will react in a manner that's real groovy. So you youngsters got a big job. This country is not controlled by the democratic process, this country do not function under the U.S. Constitution, this country is controlled and governed by the capitalists. That's why Americans all over this country last year went out under the Constitution and peaceably assembled for strong gun legislation and the capitalists that manufactured those guns saw to it that you did not get strong gun legislation. In a nation so insane we demand that you got a prescription to fill to get your medicine but you don't need one to get your gun. Weird isn't it. Do not need one to get your gun. Let me tell you I can't hit you in the head with my pills and kill you, nor can I throw my cough syrup on you and injure you. I'm not saying Americans shouldn't have guns, the U.S. Constitution says all Americans have rights to bear arms, but I also got a right to get well and if you going to make me go through some changes to get my medicine then make me go through some changes to get my gun. So I say you youngsters got a big job, in this nation where us old fools sit back and let them tell you 18 year old boys at 18 you old enough to die but you not old enough to vote, if you silly enough to do that that's exactly what you need. And I get upset when I hear you young folks running around crying if I got to go to war and die

CP 157-3163

at 18, I want the right to vote at 18, don't be no damn fool. You got to die at 18 you better get the right to vote at 17. If you can vote at 17 might not be no war when you get 18.

So I say to you youngsters you got a big job and let me tell you if you want to make quick changes you young white kids you don't have to burn the country down cause you in the same shape the poor black man is in. That poor black man can burn the whole town down without them listening to him, with the money you young white kids control you can close this country down, you don't have to use the brick or Bible unless you just want to. But I tell you one thing if you youngsters want the right to vote at 13 years old you can get that, but you going to have to do more then grow your hair long and I dig your hair being long and I dig your not shaving because you're doing something to America. You're telling America that morality will no longer be a Brooks Brothers suit and a clean shaven face and a hair cut once a week and that's groovy baby.

You're saying that morality will no longer be going to Sax - 5th Avenue, getting the latest fashions from Paris, bathing in Chanel #5, having an abortion whenever you get ready and you still Mrs. So and So. The young kids are saying morality will no longer come from without but it will come from within and it's not too many of us old folks in America can be highly, morally substandard citizens when we can't look the part. We can't go put our shirt in town we're in trouble. But I say to you youngsters it's more then letting your hair grow long, it's more then wearing your tennis and doing your thing, you got to get out here the idea that you want the right to vote at 17, you got out here and address your grievances to the capitalists and you'll be surprised how quick you get that right. You youngsters organize across this country and after you get the young people organized, you go to the record industry and you tell them that if they don't got a deal pushed through in two months time through their lobbying that say 15 year olds can vote, you going to call for a nationwide boycott or find photograph records for two years. What do you think would happen, you better know it. Before these record companies sit back and let you wipe out a multi-billion year industry, they'll let 13 year olds vote. You see all of us old fools we don't buy them records and if it is one of them old DIRKSEN albums. So I say to you youngsters you have to work to beat the capitalists behind the Constitution and then for the first time we'll put emphasis on human rights, instead of property rights and to show you how we emphasize property rights this is why Mayor DALEY in Chicago could say shoot

all looters to kill. He never said shoot murderers to kill, he never said shoot dope pushers to kill, he said shoot all looters to kill because murderers and dope pushers is dealing with the human right, looters is dealing with the property right, and to be honest with you when Mayor DALY made that statement shoot all looters to kill, it's the first time I ever agreed with anything he said, I hurried up and sent him a telegram. I said Dear Fool your statement pertaining to shooting all looters to kill I agree with wholeheartedly if you make one stipulation, let's first make it retroactive and let's first put the gun in the Indian hand. So I say to you youngsters you got a big job tonight. Watch everything, keep your eye on all us old folks and whatever you do watch your ma-ma and daddy, ask them a lot of questions because you've got to sleep with them.

Oh! yeh, somebody come around and knock on your door today, your mother and father say who is it, say government inspector, say what do you want, say we come by to get your dog or your cat, say what, say yeh, we just got a law pushed through that says we sending pets to Vietnam. It's funny but it's sad cause you know how much hell your ma-ma and daddy will raise if somebody tried to send that dog to Vietnam. There would be a shoot-out on the front lawn. It's funny, but it's sad when you youngsters got to admit you're living in a nation today where your ma-ma and daddy would raise more hell over the dog going to Vietnam then they would raise over you going to Vietnam. The only hell those folks raised up there in Santa Barbara when they all came up and got on the ducks; now I'll sympathize with AL's baby but a nation that drops napalm on women and kids every morning and get upset if you'll up a duck. You youngsters got a big job, yeh, you got a mighty, mighty, big job ahead of you.

Oh! do we get uptight when you youngsters burn them draft cards, you know why. Have you ever asked yourself what's the most important card in America today, the draft card or the Social Security card. Sure it is the Social Security card stays with you all of your life, women and men have Social Security cards. Draft cards stay with you part of your life, only men have draft cards. So beyond a shadow of a doubt the Social Security card is the most important card in America today. Why is it that we all in this room tonight can burn our Social Security card and nobody give a damn and it's the most important. When you burn your draft card everybody wants to go crazy. Cause when you young kids burn them draft cards you saying to us old fools one day old fool you going to get this country in a war

we not going and fight it for you, you have to fight it yourself. I tell you youngsters you got a big job, mighty big job. You see if your ma-ma and daddy would quit making money so much and tried to understand what you was talking about we might could solve these problems immediately. I'm sure your ma-ma and daddy realize there's 152 senators and congressmen sons that ain't never been drafted that's old enough they might listen to you about that wrong. Sure if your ma-ma and daddy understood DEAN RUSK's son became of draft age five years ago and he ain't never left Washington, D.C. You know how many kids DEAN RUSK done got killed. I wish I was young enough to get drafted, soon as I got my induction notice I would hurry up and fly to Washington, D.C. and handcuff myself to DEAN RUSK's boy. Then I got on television and say to all the fools whatever is wrong with DEAN's boy is wrong with me. And I say you youngsters got a big job and you not getting too much help from us old folks. You got to come on out here and take care of business and try to save this system if we haven't gone beyond the point of no return. I say keep your eyes open, ask a lot of questions, and the one question you youngsters need to ask loud and clear, that question is, if democracy is as good as we tell you it is why in the hell are we running all over the world trying to ram it down peoples throat with a gun.

The day you young folks work to make this democracy work right for the first time that's the day we can bring the guns home, cause you see anything good you don't have to force on people they will steal it. To you youngsters tonight let me say probably the most important thing I'll be saying to you all evening you youngsters that's in colleges and universities, you youngsters that's planning on going to colleges and universities in this country, don't make the mistake in these colleges and universities that us old fools made. You see when we went to college we was so busy trying to learn how to make a living we forgot to learn how to live. Oh! me, so many people say I'm going away to school to learn how to be somebody, hell you was born somebody. And if you dumb enough to let somebody teach you to be somebody else that makes you two people. Check out what SIGMUND FREUD says happens to you when you become two folks. Why you got to go away to college for four years and pay top dollar to somebody to teach you how to be crazy. Oh! me, these people that say well you know you got to eat, I got to get me a job. Well, what do you mean you got to eat, if you ever learn how to live eating is the simplest thing in the world. A gorilla eats more food in one meal then you eat in six weeks, you ever known one to go to college. You ever passed a gorilla in the super market. When was the last time that you read that a gorilla starved to death. And the day that gorillas learn how to

make a living and fail to learn how to live that's when you see them doing all these stupid things you do. You would be surprised how strong nature is, you would be surprised how powerful you youngsters are, one day when educators realize that all they have to do is bring out what nature put in you and no more that's the day we'll solve all the problems confronting the face of this earth today. You are the universe, check your body out one day. Nine planets to the universe, you got nine holes in your body, do you understand what you are. You might powerful, nature is mighty powerful. Let me ask you in the audience tonight, raise your hand those of you in the audience that understands Chinese, one, there's over a thousand people and one gentleman over here understands Chinese, not just, two, two people. I just said that to show you how strong nature is. You are aware of the fact that right this moment dogs in China understand Chinese. Never been to college. Dogs in Russia understand Russian, dogs in Germany understand German. Do you? I say that to say that through nature you're born with all the wisdom you need to get to your grips, fight your way out of one of those tricks and get human dignity. Don't let nobody tell you you have to be taught that. So I say to you youngsters you got a big job. You work to change the system, I hope you really work to overhaul the educational institutions and make them live up to their names. Ninety-eight percent of all the educational institutions in America do not know how to educate because for the last 100 years all they have ever done was indoctrinated and there's a difference between indoctrination and education.

That's right you got a big job to do, you got to change the course of this country, see to it that we educate you and not indoctrinate you because there is a difference. This is what black folks, young white folks is talking about on these college campuses that all of us old fools don't understand. They talking about changing a racist institution and for one brief minute let me say to you white folks and silly niggers in the house, that the problem ain't white folks any more it used to be but white people you so damn insignificant now the problem in America is this racist institution and if all the white folks in America disappeared out of this country tonight and didn't leave nothing here but black folks, Mexicans, Puerto Ricans, and Indians if we still had to take that old trick test ya'll make us take now, we still couldn't get into Harvard University. It the system we trying to change. This racist structure. Don't you know that if I decided tomorrow to go on television, and say I'm-have you ever been on a railroad any of you, you ever been on a train, you ever see a black man doing anything but being a Pullman Porter. Nobody

says that racism but if I got a press conference going tomorrow and said that I'm going to organize all the black Pullman Porters we don't want no white folks telling us we going to drive a train, we don't want to take up your tickets, we just want to be Pullman Porters, all you liberal-minded white folks say I'm a racist. But a nigger ain't never been able to do nothing on your railroads but be a Pullman Porter and nobody complains about it. It's this racist structure we tired of. We are so sick of it. Oh! two years ago had I gone around the country and said you can solve the black man's problem with black capitalism, all white folks would have went crazy, listen at that racist, but that old white boy NIXON talk about black capitalism and nobody says he racist. We tired of this system. We tired of this racist structure in this institution. Did you ever looking at that television show called The Dating Game, anytime they got a black person on it, they got three black people on it. That don't bother you do it. That don't bother you because that's your system doing it but if I went on that show next week and say yeh, I'll go on it providing you don't have no white women on it, and have three black sisters, everybody in America would want to talk about I'm a racist. Man we so damn sick and tired of your attitude we don't know what to do and we trying to change this racist structure and you can get with all these old niggers that think the way you think and talk to them they can agree with you, it's going to get this old country in trouble, that's what we're talking about.

So we moving now to change the institution, no more, no less. This institution is racist institution that gets upset in Washington, D.C. because the Niggers is doing all the crying. But nobody gets upset in Miami, Florida when them damn silly gangsters run the town today, belittle it and the town couldn't function without them. And a lot of people want to believe that to be born black you have a built-in criminal tendency. That you inherit criminal ways, let me tell you something. all the money niggers steal in one year wouldn't supply one months' recreation fee for them Italian silly mopsters. Dig this, in the New York Times a couple of weeks ago they talking about New York City, the estimate followed a report Monday that theft from the garment industry alone runs as high as 50 million dollars a year, 300 thousand dollars a day they steal from the garments but those are white folks, nobody up tight. Man don't you know if that was niggers stealing that they would close the town down. You want to do away with the crime syndicate in America let black folks take it over in the morning and you would see to it, it would be wiped out by this weekend. So we saying we tired of this racist structure, we tired of this racist institution. That's what black

folks is talking about. Let me tell you something tonight that all you Americans that's worrying about separatism before you ever get upset over separatism, you go get that Indian off that reservation because you can't get no more separatism than that. But you know you're not worried about separatism as long as you doing it. And the minute that Indian say, me like a heap of reservation, me don't want white man up here then you would be running around saying, I don't know why he wants to separate hisself. And the minute the black man says I don't want to put up with these insults no more, let me alone, he wants to holler separatism. This country has always been separatism, you just defy a black man say he want to be over here by himself. I go through the country and all these niggers come up to me and say to me why do these, why do these colored folks want separate dormitories because when you were in college you were sick enough to let them crackers write coon on the toilet wall and yell nigger down the hall, these young black kids say before they listen to all that and got to read all that filth in the toilet they rather be by their self. Maybe if you were on campus today you might understand what they talking about, but since you not if you don't understand it don't even comment on it. And every black man don't understand you young black kids, he'll let a cracker walk up to him at work and say ah, come here boy, and he'll be the vice president of a company. He'll be 95 years old and still let some white man call him boy and he just grinning. He call again and he says Yeh, mister. Man we sick and tired of this nonsense, and this what we talking about and for some reason a lot of people don't understand what we got on our minds today. We talking about this racist system.

Let me say to you youngsters I wish you would do me a favor one day this week, go to the library and copy down the Declaration of Independence and you know how to copy without reading it, don't read it, just copy it, you know how to do that, Yeh, sure you do, and I want you to carry that Declaration of Independence with you 24 hours a day, never be caught without your Declaration of Independence. Now the favor I want you to do for me when the riot season opens up again. Yeh this country so busy programming folks they got black folks believing they got a riot season July through August. Last riot season we didn't show up and the whole country got upset. Where were ya'll we had the tanks waiting for you. GEORGE WALLACE how come you think they didn't show, ah, you know them niggers is lazy and shiftless, they just tired. I tell you where we were last riot season, we got tired of stealing all those bad, no good products, so last July through August we decided to go underground and study the

consumer reports. So when the riot season opens up again this year we ain't stealing no more Motorolas baby. Now let me tell you the favor I want you to do for me, when the riot season opens up I want you to run home and get around your ma-ma and daddy and you young black kids especially, because you got some niggers in those houses which think more degenerate and more corrupt then the Ku Klux Klan could ever think and you do know what I'm talking about. Now what I want you to do I want you to get the television and put it in the middle of the room and turn on the evening news cause they going to show them riots. They show them niggers looting and riot and socking it to the town. Now I want you to turn on HUNTLEY and BRINKLEY cause they get close-ups. Yeh, them other two networks they want to cover it in a helicopter you know, but HUNTLEY and BRINKLEY gets such close-ups you can recognize your kin folks. Look there there Uncle BRADLEY, I didn't know he was in Detroit, look at him. Now after you get it on NBC at that point run upstairs and get them parents and bring them down and put them right in front of the set so they can see and listen to them niggers burn and tear the town up and just listen to their reaction, you heard it before. After you tired of listening to them fools, the favor I want you to do me, I want you to go up and turn the sound off the television so they can't see nothing but them black folks burning the town. At that point I want you to move back behind them old fools and while they looking at them niggers sack the town I want you to read the Declaration of Independence as loud as you can read it and maybe for the first time they'll understand what they looking at. We hold these truths to be self-evident, that all men are created equal and endowed by the Creator with certain inalienable rights that when these rights are destroyed over long periods of times it is your duty to destroy, abolish that government, so what the hell you say.

I know at first them old fools are going to assume that this was a message MALCOLM X left for RAP BROWN. But I sure with a minimum amount of persuasion you will teach them old fools that that was their beloved Declaration of Independence, that one with the mistake on it; that one they forgot to put for white only. Let me say something to you tonight the fact that you didn't put for white only on this when black folks read it we silly enough to believe that the founded fathers moant for this to be for any American but we know it wasn't because when we do what the Declaration of Indopendence tells us to do you want to call us looters, you want to call us hoodlums, so I say to you that gets upset the first thing you better do is change your Declaration of Indopendence so it will read for white folks only and then right after you finish doing that hurry up down in my ghetto and get this white boy American history book out because there's no way

black folks can continue to read your history and behave the way you want a nigger to behave because from the front page of your history book from the time you landed at the Plymouth Rock you tell me you shot and murdered your way all the way across to California, it's in the book, it's in your book. Have you ever read this stinking history of yours, and then you going to draft niggers into the Army send them to Fort Benning, Georgia teach them how to be guerrillas, send them all over the world killing folks to liberate for them and think they not going to kill you when they come back to liberate their mammy. You out of your mind.

Yeh, you ain't dealing with no World War II niggers anymore, you don't turn these niggers on and off no more. Have you ever read your own history, have you. You came to these shores and discovered a country that was already occupied, it's in your book. How do you discover something somebody else owns. It's like me and my ole lady walking out of here tonight and you and your lady sitting in your brand new automobile and my lady say, gee! that's a beautiful automobilo I sure wish it was mine and I say let's discover it. So evidently you white folks haven't read your history. Give me liberty or give me death, RAP BROWN didn't he? What did STOKELY CARMICHAEL say, here it is, don't shoot til you see the whites of their eyes. You got to be out of your mind to give me this thing here and then wonder why I behave the way I behave. Tell me you got to have respect for the police, I notice in your history book you didn't have no respect for the police. Yeh, it says this right here, in the early days when the British was the police. You dig it. A white boy by the name of PAUL REVERE road through the white community and say get a gun white folks the police is coming. Yeh, evidently you haven't read your history have you. Then you get upset when a nigger steal a television set but right in your history book you talk about how you got on that cat's ship and dumped all that tea into the water. You just mad cause I got enough sense to take it home. Well if you think you can take somebody else's tea and throw it into that bay out there and then call it a Boston Tea Party then everytime a nigger take a television set call that a Saturday night fishfry. So I say to you youngsters you got a big job working, stealing, changing the system, as I leave you tonight let me briefly discuss with you, black attitudes in America. Lord know we got some attitudes, thank God it is about time. Now I hope you white folks understand that black folks we don't know what we been doing the last two years to alienate you the way we've alienated you but whatever it is we going to keep doing it. Because the more you got alienated

there's more integration, more black folks on television, and you know what, white folks don't lynch niggers no more in America. Something about what we're doing to you that's made it so safe for us. Oh, when we was running around hoping and praying and filling up the Baptist church and praying, it was lynching you a nigger when you got ready, but I walk all through this country today, and don't have no problems. I don't know what it is about the way we've alienated you that made you respect not to put that rope around our neck but baby irregardless to what you want to believe, black folks is doing better today with you being mad then we was when you was glad. Now what we trying to say, we're tired of these insults, and all we doing today for the first time is reacting to white America's insults now we cannot make white America stop insulting us and from this day on you cannot make us stop reacting to your insults so that's the way it's going to go down from here on in. White America insults us we going to react to it. That's the new game, that's the new thing now.

So I say to you do you know what an insult it is when white Americans ask black Americans to be non-violent. You know what that means the only country that's ever dropped a atom bomb on another living human being is trying to ask black folks to behave. Every morning you go out dropping napalm on women and kids then ask me to behave. Nobody knows anymore then me because I'm so totally dedicated and committed to non-violence. To the extent that I believe Thou Shall Not Kill covers anything with life and blood in it, so consequently I'm a vegetarian. That's my hangup though, I wouldn't never go around preaching vegetarianism like I don't preach non-violence, I live it. If a man was going to wipe out my wife and my seven kids the only way I could stop him would injure him or kill him, he would have to wipe them out. I got a right to have that hangup, I'll have a right to tell you you got to sit by and let some chumb wipe out your whole family. I would never knock a steak off your plate and I never want you to put a pork chop on mine. I'll never take a stick of dynamite out of your hand, I'll never let you take my picket sign out of mine. But as non-violent as I am it insults me and alienates me along with other black folks to hear white America to tell us to be non-violent. You own all the Army, the Navy, the Air Force, the Marines; all the police you own, State police, Federal police, local police, CIA and then come to us with all them guns and we ain't done a damn thing and say, be non-violent boy, we say you go to hell.

We say to you Americans that really believe that you and this country freak out over non-violence, we say to you prove it to us. Don't do nothing for us cause we can prove we can burn a town down. But since you like non-violence so much how come my Indian brother still up on that reservation. You can't be no more non-violent then this Indian has been in the last 75 years, what happened, I thought you liked non-violence, damn it, as long as that Indian is on that reservation, you should never utter the word non-violence cause you have a passionate disrespect for it until somebody gets violent. You in Vietnam tonight with your violent Army trying to free that foreigner and give him a better way of life than you want to give your own Indian brother who you stole this damn country from, you ain't pulling no game on nobody no more.

The whole world got hip to you that why Peru just ran stand and all out of Peru, and they going to run you capitalists out of that whole North America, that whole South America cause if it wasn't for standing R which ain't nothing but ROCKEFELLER and that Catholic church the whole continent could get free over there, and the whole world getting hip to your game now including your boys and your girls, your own kids have got hip to you, so I say to you youngsters we act like we don't know what you doing but we know damn good and well what you've got to do, so we say to you if you believe in non-violence, don't talk it no more, prove it, go liberate the Indian. You know what that Indian got to do to get a better way of life in the State of Florida in the morning, he got to get up on the dry dock and catch you white folks driving down the expressway and getting to shooting at you, Pow! Whitey go home, and when that Indian say whitey go home he talking about the big trip baby. And you know what just as sure as that Indian gets to raising hell in the morning oh! the whole country go crazy. I can just hear them now, them stinking reds, and the next Sunday you turn on television and look at Meet The Press and they will be interviewing some old Uncle TOM TOM Indian that will be saying everything you old fools want to hear. I can just see them now, yeh, me like a heap of reservation, the problem come from them young bucks, them STOKLEY RUNNING HORSES and RAP LIGHT CLOUDS, and all the old fools will go to bed believing the Indian don't want nothing but just as sure as he keeps coming down and burning and looting and getting him some blond scalps and raping some of them white ladies, oh, you'll listen to him then. Yeh, you know if that Indian raises enough hell, next summer you turn on television you'll see as many Indians on television as you saw black folks last year. I can just see it down, tune in every

TP 157-3163

Tuesday night, one hour special, seven part series, Meet Your Indian Brother, sponsored by Xerox, no commercials. Ah, if that Indian raise enough hell this year, next year you'll have a Indian here talking to you.

Yeh, but that Indian has been so peaceful like you say you like a man, and he's bout to get wiped out, about to get wiped out. He's been so peaceful you don't know that the highest form of Tuberculosis among any minority group on the face of this earth happens upon your Indian reservation, not Moscow, Russia. The highest form of suicide rate among young folks on the face of this earth happens upon your Indian reservation, not in Peking, China, but you don't care cause that Indian ain't alienating you, he ain't bugging you, he ain't aggravating you, he is as non-violent as you claim you like a man to be and the Bureau of Indian Affairs is that a joke. They handle Indian business. Yeh, that's like letting the Ku Klux Klan implement the civil rights laws. You know something, you know the money it cost to run the Bureau of Indian Affairs, if we wipe the Bureau of Indian Affairs out in the morning, the money it costs to run the Bureau, every Indian in America could get \$4,300 a year a piece. But you don't know that now because the Indian haven't bugged you. So I say to you youngsters you got to create an atmosphere in America, where America will become as ashamed of injustices at home as she is of afraid of Communism abroad. That's a job for you youngsters, so I say as I leave you tonight black folks have an attitude, we're tired of these white racist insults. Lot of white folks come up to us now and say, how come you'all don't want to be called colored no more, how come you'all don't want to be called Negro. We notice you don't play games with yourself, why play them with us. All you got a bunch old silly niggers that work for you, you work with them let you call them anything that you want but that nigger going to get you in trouble. No you're not playing no games with us, just call us black until you find out who we really are. That's what we talking about. That's why we want you teach black history in your white schools because if you young kids knew white history and not just what your daddy and ma-ma told you about me, you would understand that your mammy came closer to becoming that nigger than me. That's what we talking about.

That's why across this country we demanding you teach black studies and we don't give a damn what all these old niggers running around talking about they going to sue that segregationist. We know damn good and well our history goes back

further than slavery and we know you know it so we telling you to teach it to us, so we can find out who we are cause a man without a knowledge of himself is like a tree with no roots. This is what these young black kids is talking about today, no more and no less, so we say just call us black, don't call us Negro, don't call us colored, no more and we say that and we don't mean to put you white folks in no imposition but you don't play no games with yourself, a Jew leaves Israel tonight and comes to my country he's a Jew in Israel, he stays a Jew when he gets here. When an Italian leaves Italy to come to my country he was an Italian over there, he stays an Italian when he gets here. The Irishman left Ireland to come to America he was an Irishman over there, he's still an Irishman over here. You dig it, you didn't play no games with yourself why play them with me, I made the same trip you did came across the Atlantic, I left Africa, Africans and I come here and I got to be colored folks and Negroes, and niggers, no don't play no games with us baby. And if you want to play some games, since we all came across that Atlantic change your own damn self, call yourself such old funny names for a change. That's all we say, so I say to you tonight we're tired of these insults.

Twenty and thirty year ago black folks in America had an empty stomach. Today black folks in America got a full stomach but a hungry mind and a hungry mind will not tolerate the same thing an empty stomach did. Empty stomachs deal on smell and hungry minds deal on sound and all at once this country don't sound right to us anymore. That's what we saying. Four years ago three white boys burnt up their draft cards and within two weeks time the Senate in Congress had passed an anti-draft card burning bill. But we haven't been able to get them to pass an anti-lynching bill in a 100 years. This country just told me she thinks more of a piece of cardboard then she thinks of my black mammy. I'll bring her to her knees for that and I couldn't give a damn what your thoughts was about it. We're tired of these insults. If I was in Vietnam tonight and got killed by a Viet Cong, this government tonight would give my black wife \$10,000 and she couldn't take that \$10,000 and buy her a house in any neighborhood she wanted to buy one in, hell, I've got kids shooting at the wrong folks.

Then you going to come up and tell me I need a fair housing bill to live next door to you, who in the hell do you think you are. What kind of animals are you. That old white Russian broad, STALIN's daughter, a known Communist and a known Russian you ain't suppose to like neither one of them,

you didn't make that broad get no fair housing bill to come to my country and live anywhere she wants to live. Why do I have to get one? All them Russian exchange students you bring over here to my country, they don't want to be your citizen. Matter of fact when you put them in these colleges you got to put the FBI around them four years watching them so they don't steal no secrets. You don't make them old Russians that come over here to go to school get a fair housing bill and live anywhere they want to live in these old racist college towns. Why do I need one. And all we're saying, we're tired of these insults.

Oh, there's a lot of white folks in America that believes a nigger is the stinkingness, smelliest thing that ever walked the face of this earth. That's groovy. I'm not here tonight to convince you niggers don't stink. I say do your own research. Check the records at the cosmetics industry, and see how many multi-billion dollars a year you white folks in America spends on deodorant. Then check them deodorant commercials on television and see when was the last time you seen a black armpit. Then figure it out for yourself. If niggers is doing all the stinking and the white folks is buying all the deodorant, who really stinks in my country. Oh we say we're tired of these insults. Oh, there's a lot of white folks that believes that because I'm black, I'm inferior to them. That's groovy, that's your hangup. Don't insult me with it no more. And you know the interesting thing the same white man that believes because I'm black I'm inferior to him he will be the first one to tell you that if I go to bed tonight with a Chinese woman tonight and give her a baby, the baby going to be colored. If I go to bed with an Italian woman, a Jewish woman, I can go to bed with any woman on the face of this earth and give her a baby and the baby going to be me. My sister can go to bed with any man on the face of this earth, and get a baby the baby going to be her. Is that inferior stock to you. We saying we're tired of these insults. We tired of people telling us education is our problem. You in Vietnam tonight with a half million Americans, have you ever heard one white or black American ever question that Vietnamese educational standards. Well if you don't question his you had better not question mine and when you question mine question it right. You know how many millions of people would be dead on the face of this earth if it was not for blood plasma. Are you aware of the fact that a black man in America by the name of CHARLIE DREW invented blood plasma. Don't take my word for it check it out in your library. Are you also aware of the fact that

CHARLIE DREW bled to death in an Atlanta, Georgia waiting room after an automobile accident because they didn't accept niggers. Education didn't have a damn thing to do with it, the man had the wisdom and the knowledge and the educational genius to give blood plasma to the world, and died from the lack of his own invention because his face was black. So we saying we're tired of these insults. We tired of people telling us, why don't you'all go down into the ghetto and pull your brother up by his boot straps, why don't you give him some boots with some zippers in them. We got to admit to you that 20 percent of the black women in America have illegitimate babies, we can't deny that, we've had fun in the ghetto baby, and 2 percent of you white women in America got illegitimate babies but what makes us upset is when you white folks know that your white sister got 2 percent illegite and my black sister got 20 percent illegite and you wants to believe that you morally better then me. No, baby your white sister got 2 percent and my black sister got 20 percent but if we ever get our hands on you white folks abortion credit cards we will show you how to knock a rape down to. We're saying we're tired of these insults. If all these white folks that run around wondering why, why you colored folks have all them babies you can't take care up, you going to end up on relief. We know that. You might run across a bunch of old silly Niggers that's ashamed of relief but the only thing I seen wrong with your relief is that you don't give enough of it. I ain't never met a white man that didn't want something free. And I ain't never met one that didn't want some money and if he words like welfare and ADC and relief, if those words upset you change it and call it foreign aide, or call it what you call that money you give to the farmers. What you call it, you don't call it relief you call it subsidy, And as far as all them black babies we have in the ghetto that we can't take care of, We make a deal with you, the day this system learns how to hire black boys and give us a good job like it gives you white boys so we can afford all them whores and prostitutes like you, we'll quit having all them babies at home too. We don't have to ask you about the whore cause she hears my sistor and she do talk to me when she comes home so we know what you doing. We say we're tired of these insults, and we don't intend to take them any longer. You know what an insult it is when I stop and think had my daddy been killed in World War II by a Gorman, had my daddy been killed in 1942 I was ten years then, I'm 37 years old now that means I would have gone 27 years without a daddy. Now that's not an insult because when daddys go to war they go to kill or be killed, the insult is the same Gorman that could have killed my daddy in 1942 and made me go 27 years without a daddy.

TP 157-3163

that same German tonight can come to my daddy's country and live in a neighborhood my daddy's boy can't live in. Do you really understand what we're talking about. We're saying to America, before we ever sit back and let you treat your enemies better than you treat your citizens, we'll burn this damn country down to the ground, that's what we saying.

So in saying goodnight to you tonight, we're saying we're tired of these insults. We tired of you playing games so don't give me my rights on no damn installment plan. You passed a damn civil rights bill last year that covers 80 percent of the housing, what in hell am I suppose to do with the other 20 percent of me, join the Communist Party. So no more games, Yeh, I take it back we would like for you to pass one more law before you quit playing with us. We call it a honest white folks law and don't none of you white folks get up tight because it ain't got nothing to do with white folks, matter of fact we'll give it a good name, we'll call it The Concerned Honky Law and it will be a simple law and just read, All five year old black male baby boys, hadn't got nothing to do with white ones, it don't even cover the black woman, just all five year old black male baby boys will have to go to a government camp for one year from the age to five to six and we'll stipulate in the law that these five year old black baby boys will be able to sleep eight hours and for the other 16 hours a day for a solid year, now that's where the honest white folks come in, for 16 hours a day for a solid year you will teach these little five year old black boys, nigger when you grow up don't never date a white woman, don't never marry a white woman, don't never have an affair with a white woman; and before I leave here tonight let me set the record straight, we cannot believe that nothing upsets you no more in this country then to see a nigger with a white woman and you don't want to talk about your number one hangup, who in the hell do you think you are. And one day if you ever get up enough manhood to talk about your number one hangup, you might find out its something you're doing that makes me want to. Hell, niggers would bother no white woman. Every time your brand new automobiles come out, you can't advertise your new cars without that white woman so I feel I need her to make my gears shift right.

I'm sitting on an airplane reading a magazine and here the white woman got this big bottle of Pepsi Cola sticking in my face, thirsty honest, have a Pepsi. Yeh, I'll have a Pepsi and you too you old white broad. I go to my black neighborhood, walk into my black house, walk into my black living room, with my black

wife and my black kids, turn on my black television and there's your white sister running across half naked, hollering buy a Playtex living bra. Yeh, I got a Playtex for my old lady and I'll get you for me. Hell, you think every time you get ready to sell that old no good piece of product you want to put it in your white woman's hands and think I'm going to take it out and send her back, no we grabbing at the wrist, and if you think so much of that broad why don't you just keep her the hell out of my face. One day if you ever get enough sense to understand that if you stopped programming me you could have that woman back of yours so long til she bore you into insanity. Oh, I went to the movies when I was five years old. You know how fresh a five year old mind is, you know how pure and honest it is, when I was five years old I didn't know nothing about no white woman, I didn't know nothing about no love, I'd never seen nobody make love in my life until I go to the movie and who making love, EVA GARDNER and HUMPHREY BOGART. I'm five years old, I didn't know what they was doing but I knew one day I was going to grow up and do it. And I went to the movie every night cause in my home town you could get in the movie for free until you were 12 years old. Every night I went. Do you understand how you can program a person or are you completely unaware of how you program black folks. The next thing I know I'm 8 years old, been going to the movie every night for four years ain't seen nobody make love but that white lady. Everytime I look at Miss America, it's that white lady. You made me believe a white woman was the most gorgeous, precious, lovable thing God ever created. Okay, I'm going to get me one. I never will forget I was sittin in the movie, eight years old, and EVA GARDNER and JOHN LADD was doing their thing. I judged my friend, I say I'm sure going to get me one of them when I grow up. He said which one, him or her. I say I think I'll try them both.

Let me say something to you tonight I've got news for you tonight, I'm grown and I'm going to get me a white lady and the madder it makes you the more them ole white broads I'm going to get me and I hope it makes you so damn mad you'll quit programming them little black kids, and show them some black women in the movie making love, show them some black women advertising them new cars every year, show them some black ladies holding that Pepsi-Cola bottle, show them some black ladies running across that television screen, half naked and advertising that living bra and once you quit programming me you'll find out you can have your woman for the rest of your life. But the mistake you made with me is the only woman you ever showed me in the movies that was black was BEULAH, and the only black woman you ever showed me advertising was AUNT JEMIMA and I just thought you had enough sense to know I

ain't never, ever, ever wanted to make love to BEULAH or AUNT JEMIMA. So tonight I say to you, as I leave you those of you that have questions to answers, for just a few minutes those of you that have some time, we'd like for you to stick around but a lot of you have to go to work and relieve the baby sitters and so before I say goodnight to you, I say those of you that worked on the presidential campaign, I want to say thank you, and those of you that voted for me, I want to say a double thanks and I sit up late on election night waiting on St. Petersburg to put me over but you blow it, didn't you, you blow it, and you see what I did to those folks out in Santa Barbara that didn't vote for me, don't you, I brought that oil up on them so I take care of you during hurricane season, I'll lay it on you. So those of you that voted on me I say thanks, and I felt good be a presidential candidate because I was the only candidate running for the presidency, the rest of them fools was running for sheriff. And for those of you that voted for me, you didn't vote in vain, I have declared myself the independent write-in president of the U.S., we got a million and a half write-in votes across the country and March 4, next Tuesday, we going to Washington, D.C. and hold our inauguration and we going to open up our house and paint it black and call it the Black House, and for the next four years we going to try set up a food program and see if we can solve the problems of hungry people in America.

Again I say to all of you that it was a pleasure, particularly to you young folks who have the burden of solving the problem. If you have any questions, we'll be back shortly for questions and answers. Those of you that must run, may I say to you goodnight and God bless you and may nature have a lot of fun with you. Peace and freedom.

Q- That she enjoyed my speech very much and that she agreed with 99 percent of it, but please why did I try to talk the kids out of going to school?

A- I didn't try to talk the kids out of going to school. I didn't want to tell them to do nothing, you might find out that it's you causing them not to go, not me, don't put that damn rap on me. I mean that if you can believe I come to this town for the first time in my life and your 15 year old daughter listens to me and don't want to go to school, there's more to it than that. And if you check around that house you might find out it's something there, that's causing her not to go to school. I think everybody,

huh, bad schools, it might be a whole lot of other things, but you know I don't tell nobody what to do one way or the other. I try to explain to them that they got a job that they have to do and that some way or another, if they going to go to these schools they had better straighten them out and make them fit to go to, if they got to close all of them down, they should make them fit to go to because had we taken care of the school business when we came through it, our young kids wouldn't have no problems today, but we living in a country today where America will spend more money to built a damn highway, for more automobiles than in those schools. There's something wrong with this. We go all over the world building new schools, all over the world but we ain't going to build no new ones here. Something wrong somewhere. We sick enough in this country to say that if you born close to Miami or close to New York City or close to Chicago you can send your kids to good private schools, but if you born out round Memphis or out round Gatlinburg, Tennessee; if you born in America, America's to see to it that you got a good school to go to. Now I go all over, there's not one place in America I do not go in a 10 month period. You know something very interesting, the smallest town in America, I've been in there's a Holiday Inn. All over America in the rural areas there's Holiday Inns. If a private concern can bring some of the best living facilities to the smallest section of America, then damn it! America ought to be able to bring some of the best schools, best hospitals and best houses to the smallest sections of America. That's what we fighting for.

So what these young kids is saying to us today, they do not want to destroy America, they want to reform America but if they have to destroy her to reform her, they will. That's what they saying.

Q- Since there weren't many black folks that supported NIXON what do I think the temperature is going to be in the ghetto this year?

A- For one, I think as far as that ghetto brother it didn't make him no difference one way or the other, who was in there, you know, one way or the other. Most black folks that was democrats tried to use that cat in the ghetto as a threat and the only black folks that's really put NIXON down ain't been nothing but a bunch of old black democrats because if you want to be honest about, the cat

ain't made no mistakes in a month. He ain't made one mistake and believe me I've been looking, he made me mad because he ain't made none and the closest mistake I think he made was he didn't pull that sixth fleet out of Turkey, and that's a big scene, you see you don't know what's going on over there in Turkey, that's over dope that we sell that's gets sold in Turkey because all the dope you use in America comes from Turkey and that's what then young folks is tired of, the government there and here permits it. But the man ain't made no mistakes and as far as black folks didn't support him, well he didn't put none in the cabinet which I don't think we deserved any favors from him because you know any time black folks vote 91 percent the wrong way, hell that's like you're going to pass by and everyone in the room got a hundred bricks and you going to pass by for six hours and we can throw all the bricks at you but at 6 o'clock we can't throw no more bricks, and as 6 o'clock rolled around they threw 91 bricks and missed, and we don't get another chance for four more years. And I think, you know, I think it was an insult the fact that he didn't pick no black folks because we fighting for a man who will battle, we fighting a dignity battle. I think it was an instant insult but I think in the long run he don't have to be an insult because if the men NIXON picks happens to be statemen instead of politicians, it makes no difference what color a statemen is, he going to take care of the business but we have yet to see which way they're going on that.

Q- Since the majority of people that's going to colleges today happens to be white, and since the majority of the teachers that will be going out to teach will be white, what do I suggest for the young white kids to do to prepare themselves to go into the ghettos?

A- Let me say this, you see America is not as dumb as it lets on to be. Are you aware, do you know anybody in the Peace Corps? Do you know that if you decided to join the Peace Corps today and they was going to send you to Africa that they would send you to the University of Chicago for 26 weeks do you know that, and you study all the African's culture, you study his language, you study his history so you want get over there and alienate him. So you want get over there and do the wrong thing. Now I don't understand how America can send you to the University of Chicago for 26 weeks so you won't alienate that African

but they don't want to prepare you to come down into the ghetto. And if you went to Africa as ill prepared as they send you to the ghetto you get a spear run all the way through your jaws. All the way, all the way through. You know the laugh at that cat, look at that old savage with them bones through his nose and here a white cat puffing on a cigar laughing at that savage. He'll live longer with that bone through his nose than that white cat will live with that dust on his chest, but we wonder who the savage is, and so it's just the matter that the government is not going to create programs for you young folks so you going to have to dig, if you don't dig, you got to stay out of there. Are you going to go up on the Indian reservation and talking about helping him without being prepared. So you see if you go to the hospital and I don't know anything about medicine, the best I can do is go by your house and clean it up and take care of the kids. That's what we saying that we moved to the point where if you don't know going on, you can't do nothing but alienate us. I came to town today and some cat, beautiful cat over there at the dinner, walked up to me and said how you doing boy. Now he should have known better than that, if I'd had slapped him and knocked him down I bet he would have known then, but he was a beautiful cat, the cat's in civil rights baby and probably would work just as hard as anybody else but he don't know he ain't suppose to call a 37 year old man a boy. But this is the problem we're talking about. So I say there's books, there's plenty of books out now on black history, on black inventors, yeh, this is what we saying there's going to come a day ycut going to have to know a black man that's been at a stop sign, black man that's been in the cotton gin, black man that's been at the sugar machine, oh, there's so many, I work hard, go over to the patent office and lick it off because they made them put Negro on it, and as bad as we hated it, we glad because now we got proof what we invented, you know. During slavery nigger doing all the work and people want to believe white folks came up with all the inventions. Hell if I've got 5,000 white folks out cutting my grass who's more likely to invent a lawn mower, you or me? If you look back at all them inventors, they had to be us. And then all at once the cats want to run around and act like we're the dumbest race of people that's ever been invented. That old broad look at that nigger in the field

with that box and invited ELI WHITNEY down from Yale to show, look at this lazy nigger he went back and put a patent on it, and we tired of it. We say we got to know our history and it's there, it's in books people know it but will they make this a basic part of your curricular. We don't know but if you want to do it on your own, say go to the library, go to the black book stores and start asking for it. Start off with a very simple book, say give me a book of Negro inventors. You would be surprised what you would find out. There's a very brilliant book out, a white brother in Chicago put it out called, A Layman's Guide to Negro History, and that turns you on everything you would ever want brother. Everything you would ever want, starting at page 64 all the way to page 82 ain't nothing but black inventors. All the way down and it will upset you when you see them patents in there where it was a black cat there that invented that telephone, they got a patent on it, baby, got a patent on it. It was a black cat that invented that telegraph machine, Brother WOODS, you surprised at that, get the book it called, A Layman's Guide to Negro History, and don't even take the books away, go over to the Library of Congress one day and look up them patents and check them out, and then understand what we're talking about. We're tired of nobody talking about our accomplishments. Everytime somebody want to talk about some nigger they snatched a pocketbook, and we do that too and do it well. Yeh, that's right.

Q- What role will I be playing as co-chairman of the new party?

A- Now let me explain to those of you that's not familiar, I have become the co-chairman of the new party which happens to be an independent political party. The question is what role will I be playing. I can have a tremendous amount of influence at the top level to set up the new party to do the number one thing which I think is needed is to do a base of research to get out across the country. The role I will play is go around the country and influence young people that regardless to which way you vote register independent because the Democrat-Republican Party have proved that there's too immoral and too sick and too degenerate to solve the problems confronting America today, but even if you vote Democrat or Republican register on the independent ticket because it will make a lot of them want to win you over to them and they'll have to come and start

talking your language. You see in America today we have 200 million people and the average age in America is 27 years old, you see, 56 percent of America's population is 26 years old and down and in the next 8 years, 72 percent of Americans will be 26 years old and down and I personally believe that 8 years from now the President of the U.S. will come from the independent ranks and this is the role that I intend to play, is to go around and speak with young folks about independent political action. I just happen to be co-chairman of the new party, but it really makes no difference what party you in, as long as it's independent, political action and as long as you young people reach back and get statemens instead of politicians.

Q- I mention a book that I published last year, I think it was, A Parity on History?

A- Let me say, I, I published two books last year, one was called, The Shadow That Scares Me, and the other one was called, Write Me In. If you care to read it go to the library and check it out because they selling so good, it's kinda messing up my tax thing, you know. So go to the library and read it then take it back, you know. I just finished one, matter of fact I just came back from St. Thomas where I just finished a book for Harper and Row. Its a kid's book. It's pertaining to black inventors, and the way I did the book was; let me thank those of you that bought "Nigger," thanks a million, it sold 4½ million copies so that's pretty good. Harper and Row had me to do a book for them that's going to come out in September and they guaranteed me that they'll drop 4 million for the new school year in September. The way I did the book was I got a white kid waking out of bed in the morning and as he tries to make it through a 24 hour day, I show how inconvenient it would be for him if it weren't for black inventors and he hurts his foot and he bleeds and how he couldn't get the blood plasma had it not been for CHARLIE DREW, how the ambulance would be able to get through the traffic had the black brother not invented the stop sign, how he couldn't put sugar on his cereal had his black brother not invented the sugar processing machine, how he wouldn't be able to put shoes on had his black brother not invented the machine that makes the shoes and this all the way through a 24 hour period. This is the first book. The other one I've got

to finish up by June is, American History Book as Seen Through the Eyes of a Black Man, and this will not only be the black man left out but just how I read the history book that when the Indians won it was a massacre but when the calvary won it was a great victory and the Indians wasn't doing nothing but beating an invader off their land, and I have a third book which I haven't even decided which way I want to go on it yet but it's very groovy you know, the publishers are buying black anything you sell them black they're buy it and give you \$20,000 for it. It's disgraceful the way they're going crazy, you know. I sure am glad I'm up there with them. Let me get that gun. And you know I didn't know I just came back from St. Thomas, my wife and I and I, and we just found out how you have to do the publishers, did you read Nigger, I finished that in about six days and The Shadow That Scares Me, I done in about eight days so I've found out that, see I'm not an author, I'm a talker so I've found out that if you want to get a lot of money you have to be like the author so I told him I said yes, I could do the history book for you. It took us I think, we did the history book in about 4 hours, but I told him I said I did them like HEMMINGWAY used to do, I said yeh, I think if you give me round trip transportation to St. Thomas with the phone not be ringing and enough money to last for about three months I'll have it ready for you for June, and so we went to St. Thomas, I didn't have but 3 days, we went to St. Thomas, my wife, my friend over there and couple of other people from the staff. We didn't do nothing man, we just partied all day long. Last night we came to the hotel and finished up the whole manuscript and I got it in a bag and took it, and they'll pay you \$50,000 for that as long as you make them think you have really got to go through some changes. I wouldn't make big money at first because I was turning it in too quick, you know I thought that was the big thing, yes, I'm smart enough to do it in a week, it depresses me it takes me 6 months to get my thoughts together. Oh you should have see me do my thing when I was talking to Harper and Row, you think you can do a book for kids Mr. DAVIS, yes I think I can it's going to be mighty taxing but, yes, I think I'll have to wash my whole mind down and you know and see. You don't have to do nothing but go out and get a bunch of kids' book and read and find out how you're suppose to slant it, you know. Yeh, I read a couple of kids' books, people looked at me stupid when I pulled out Ed's third reader on the plane. Can you imagine sitting in first class reading one of them beginning readers. Trying to find out how I've got to

structure my sentences and everything. The woman sitting next to me, she says are you DICK GREGORY I said yes, she said I understand you read a lot of newspapers, I say yes, she says is that your kids' book, I said no, I just bought it myself.

Q- Is it a fact that the 'integration push is asking black people to blend into a white society?

A- You know there's a pride thing that gets involved, that's part of it but you see if you can just close your eyes and imagine you was born black, you in a black ghetto, that 99 percent of everybody you see are black, that you do not know that white folks is 90 percent of this country cause they've got you pushed over into your little section. Now it gets pretty disappointing, at 5 years old, see you don't know what's happening, that everybody you see in the course of the day is black folks til it comes to authority. The mayor is white, the police chief is white, the farmer white, the president is white, you got to think black folks is stupid, because after being forced into a situation where you don't see nothing but black folks all day long until it comes to something important, and this is what we're talking about, that when we move into the system we going to refuse to be chocolate covered white folks. We want to like do our thing because America claims to be the melting top of the world but she's not. Everybody got their little thing so we wants our little thing. We liable to be opening up some African churches here. Yeh, we liable running around, and next year we might decide that we going to get rid of the nappy hair and basheekes and we gonna wear just a little thing around us like our brothers do. You're liable to see black women coming out with their titties hanging out brother, like they was in the bushes or something. We don't know what we gonna do from one day to the other. We fighting for their fame, but whatever it is, it's gonna be ours. After we do that and get tired of that, then we might come on over and start whoop whooping it up brother. You ever see these black women with these blond wigs on, man's wigs on, and all that other costume. We changed everything we could. We ain't got around to the blue eyes yet, but we got blue sunglasses. We run around with bleaching cream, puttin' bleaching cream on, come down to Miami and lay in the moon and all that ole kind of stuff. As long as we was trying to be white, it was O.K., didn't nobody care. These

niggers finish school and tuck their lips in and talk, yes, I, I, I yeh, that was all right man as long as every move we trying to be like white folks. Oh, if you want to get just sick up to your stomach go to cocktail parties where there ain't nothing but black folks and see the way we act. Because we be acting it will make you sick you was white because we act the way we see white folks act, and baby you got to see us when we in our game playing games by ourself. Yes sir, Mr. JONES, a nigger ain't never been called Mr. in his life until he gets drunk, yes sir Mr. JONES, what do you and your old lady want. Ah, we would have a, we would like a martini or mar--, oh, you ain't seen nothing til you see them gloves at a cocktail party. Say, martini, yes, martini, then the waiter go and get him a martini and gives it to him and he sipping it, huh, tastes like gin. And man I'd go crazy but they trying to be white. They be sitting there talking, trying to talk like big business men, yeh, they ain't never owned no stock in their life, yes, I bought three chickens last week, I think I'm going into the poultry business. I've got them in the kitchen watching for them to lay some eggs. This cat been waiting three years for a egg to fall.

Oh, man we go through a siege, yeh, we go through woh, we go through a thing, and so now we saying all the hang-ups we coming out with them; we ain't ashamed of nothing, we got to lay in the mirror. You see the white man he so busy worrying about his hang-ups he forgets about mine. I got a lot of hang-ups, hell, I been married to that woman of mine 10 years but just twelve years ago I was trying to get me a light complected colored woman, I got to go through all these changes, and all these changes, my first daughter was too black for me, now they say black is beautiful, now I'm convinced, now she's too light for me. You been going through some changes too, its just one of these times, everybody going through these things, you understand? Oh, gee, you don't know how long me and my ole lady stood in the mirror trying to convince ourselves that black was beautiful. All right let's do it again on three, one, two, black is, oh, shit, let's try it again. Now we convince yeh, we convinced black is beautiful. Now my little boy gets up, he's 18 months old, the first thing he do is stick his hand out and say lay some skin on me daddy, black is beautiful, yeh, black is beautiful, yeh, we got to play these games though, yeh this is what its all about.

We just saying we want to do our thing, we tried to do it the other way, we tried to behave, we tried to be niggers, and the system would let us be niggers, they just want to misuse us and keep inciting us, we tried everything, we tried integration and got the hell beat out of us. All I say is let's do our thing, we just going to get over here and mind them, can't we do our thing no more no less. Everybody got their bag. You would invite an East Indian to your house and lay one of them big cow steaks on him, saying everybody got their bag, that's what these kids talking about in college. Keep me forced in my black ghetto, now you tell me I can go to the white universities and when I go I don't see no chitlings. Yeh, that's right, the first day I get to college, that cat got some mushrooms he gonm lay on me. Yeh, JIM you getting one of the damnest rides you ever had in your life, talking about these mushrooms. Yeh, they got mushrooms and gravy, yeh, man have you heard of red beans and rice, baby. You know, this is this scene, it's these changes. It's this whole scene, you know. And so this cat say anything you want there, you know different strokes for different strokes, you know everybody got their thing they want to do. If I had it all over again I wouldn't go to nothing but a black university and will send my kids to nothing but a black university because I went to a white school and at least if I had it over again, I know at a black university I can love any girl on campus without it affecting my grades. If a cat called me a nigger and he ain't calling it to me because he thinks I'm inferior to him, he calling it to me because that's just the slang among black folks. And we got up tight when we hear a white man say nigger not because we don't like to be called nigger, hell, you ever been around a lot of black folks and notice how much we use the word nigger. We use the word nigger more in a day than all the white folks put together could use in a lifetime. We ain't mad at you using the word nigger we just mad cause you ain't learn how to say it pretty. Like we do. That's what we mad about. Just say igger with poise. My old lady wakes me up in the morning she says, ah, hello pretty nigger got up, I say yeh, baby.

- Q- A young black lady has decided to run for beauty queen, Miss St. Petersburg, when is the festivities, March 7th, who votes for her, you don't know, well who decides who's going to be the beauty queen, the Jaycees, yeh. Let me ask you this here, do they have a big parade and all of
- A-

that? Huh, well look let me tell you what happened to me when I was in college, we got tired of always looking at that white beauty queen but at night we couldn't find none of our customers, cause the white boy was trying to make it with her, so we figured you know somebody must be beautiful over here the way, but when it comes to a vote can't no black broad get no vote so we decided that that homecoming we were going to have a black queen too. So we went in town and found the ugliest black broad we could find, an old wineo, and the black folks got together and we voted her in and we couldn't put her in their parade but we took our float and put it at the tail end of their parade and after their parade was over we had our queen, the crowd was still there we blew horns, we carried that old ugliest looking broad, she was so ugly man she upset me, and we carried her out to the football game and during halftime we celebrated this old ugly broad around so whitey could see her, she was so ugly the next year he gave us one of them. Yeh, cause we threaten to get one uglier than her the next time. So what ya'll do ya'll get together and vote ya'll a queen in. You understand. You go through them changes and have your a celebration and get you a parade permit and take her all through the streets and just go on and have your thing, you don't have to wait on him to approval to decide if you're beautiful or not or if you should be the queen or not, you know any queen. Got the garbage queen and let the garbage collectors vote on one of ya'll. You understand, St. Petersburg Garbage Queen. Now so go on and do your thing, get you a garbage can and go all through town.

That will be the biggest thing that ever happened, ya'll have a garbage queen and get garbage cans and get a parade permit, they will cover it and send it all over the world, St. Petersburg Garbage Queen, and if they ask you why did you name it a garbage queen, say I think that if we don't get a black queen next year the whole town is garbage. You know they'll get up tight. You go on and do your thing, ya'll be cool. They've got to do PR game here because a lot of people want to retire here, so ya'll if you decide its getting about time you had one, how old is this town? I say how old is the town, don't anybody know? How long they been picking queens then? Ya'll go ahead and do your thing, have her crowned the same day they crown theres. Just go ahead and do your thing.

Q- That the young people have to make changes but the biggest problem that she finds is the white liberal and the apathetic attitude they find on the white college campuses today and what can you do to change that into a workable force?

A- Well one, the way you young kids is taking care of business you don't have to worry about that liberal at all. You see the only times black folks worried about Uncle TOMS was when we wasn't doing nothing and after we started taking care of the business, we didn't worry about no TOMS because a TOM couldn't offset what we did anyway. Anytime cats running around talking about MARTIN LUTHER KING was non-violent and all that cause he wasn't doing nothing. They used to come to me, man I don't dig you being non-violent, nigger you ain't, you must not be too violent I ain't read where you blew up nothing. You understand, ain't nobody got no patent on you. You want to violent get you a march and go on downtown and tear up something, and then, this is this thing but you don't have to worry about that. You don't have to worry about this apathy on college campuses. You just do your thing and just be sure your thing is pure, honest, ethical and descent and the whole world baby, them Russians are shook up all over the world cause one kid didn't wait in Czechoslovakia and laid down in the middle of the street and burned himself to death and the first time they ever had a shooting at meators over there in modern times, they made you think they were shooting at astronauts in Russians; you know ain't no earth people going to be shooting at no astronauts, they might get shot at, them moon folks, they shooting at them leaders, them young kids in Russia got upset about them young kids being upset in Czechoslovakia, so you got people all over the world and see you got to understand the liberal. The liberal, the word liberal, the word liberal is a very groovy word, what do it mean, if I told you I'm liberal with my money what does that mean, I'd give up a whole lot right, if I say I'm a liberal drinker that means I don't drink much, so what the hell is liberal. You know it can be anything at any time and black folks cannot say liberals didn't bring us up to where we are, but see liberals can only go so far and then you got to turn me over to the radicals and thank God for the liberals they carried me to the stage where I need a radical today. But if the liberals want to continue to be a liberal then they got to get up on the Indian reservation. They got to

got out there and help my Mexican brothers, they got to help my Puerto Rican brothers, so that's the problem you see the pony express was good in its time but don't put my airmail letter on a mule's back today. Put it on that Boeing 707. So we feel the same way about the liberals, the liberal served its usefulness as far as we're concerned but if he go up on the Indian reservation and help the Puerto Rican and the Mexican and if he do as good a job for the Indian as he did for us he'll become obsolete with them so I got to leave you, let me say to you youngsters, I hope you think, and I hope you really get into your thing and challenge everything, you know the Kerner Report on civil disorders in this country. The Kerner Report said that to solve the problems in the black community today is going to cost America \$80 billion dollars and I say to you I hope you don't bring no \$80 billion dollars down to my ghetto cause all you going to get is the damnest four day crap game you ever seen in your life. Say if you want to solve the problems in the black community today there's something that you've got to do first that won't cost you one nickel, as far as black folks are concerned, that's simple, your going to have to create an atmosphere in America for the first time where black folks trust white folks. How do you do that you going to have to get my Indian brother off that reservation, you going to have to free my Puerto Rican brother, you going to have to free my Mexican brother, and last but not least cause my Jewish brother plays a lot of games with himself but he should paint his face as black as mine and see what that Gentile say to you about you, say to us about you everyday in the week and then you realize you in that same bag we is, so what we saying to you is short and sweet, free my Jewish brother, my Indian brother, Puerto Rican brother, my Mexican brother and then for the first time we'll look around and say to America for the first time I trust you, come into my black ghetto and together we will solve our problems. But if America thinks she is going to solve her problems and keep all those other folks hung-up, we say to America today take that \$80 billion dollars and buy yourself some of the biggest guns money can buy cause you damn sure going to need them. That comes out of your history book too, it's called, we gonna PATRICK HENRY you something pertaining to give me liberty or give me death. So again thank you, God bless you, may nature have fun with you."

Dear Mr. Hoover:

We, like a lot of other dedicated Americans, have been concerned with the circumstances in our country, especially our schools and colleges.

We are attaching some correspondence pertaining to Purdue University, one of our state colleges, in regard to a speech made by Dick Gregory on March 25, 1969 at 8:00 p.m.. With the attached correspondence with the college is a letter we have been sending to some officials.

We thought this information might be of benefit to you as we feel that you ~~as we feel that you~~ are trying very hard to combat this sort of thing.

CORRESPONDENCE

While [redacted] and I were in the Lafayette, Indiana area recently we attended a public meeting in the Music Hall at Purdue University at 8:00 p.m. on March 25, 1969 at which Dick Gregory was the speaker. Our purpose in attending the meeting was not to condone or condemn but to see and hear in person just what he was saying to those over six thousand students plus a few other non-students and adults at our State University of which we and many other Hoosiers are very proud. We are personally interested because our daughter graduated there in 1965 and was homecoming queen in 1963.

It was difficult for us to believe what we were hearing from Gregory that evening. It was for this reason that we wrote a letter to President Hovde asking for a copy of this speech. We are attaching a copy of this letter together with the reply which stated that there are no copies of the speech but there was a tape of it taken by the local radio station but it could not be used by them or released to anyone without Gregory's permission which he would not give, which I understand is in accordance with the law. We would appreciate knowing how to obtain a copy of this law.

Since we do not have a copy of the speech we cannot quote from it but substance of it was in part as follows: The constitution is a piece of paper that is a disgrace to the country and should be resisted by the young people whose duty it is to change things; the American flag is nothing but a rag, if the capitalists weren't making money out of selling it they would quit having one; the students should not listen to their damned old fool parents; they have a big job ahead of them to rise up against them, the Universities' teachings, the laws and constitution; the text books should be disregarded as they only brain wash them and they should go to college only to learn how to live and pay no attention to the text books; it is their duty to change all this and run America in their own way.

The speech was littered with slang, swearing, Unamerican, disrespectful and disgraceful remarks about our country, our officials and the adult and older people in our nation. He mentioned "when the riot season comes in July", etc. in a manner which projected it to be a perfectly legitimate and normal event. Also he was listed as a speaker, not a comedian, in the newspaper publication on the coming meeting, but he used his reputation as a comedian to get the applause of the students on very inflammatory remarks regarding our Presidents and other high officials in government and Universities who are very dedicated officials.

Dear [Redacted Name]

President Hovde asked me to answer yours of April 8 regarding a copy of Dick Gregory's speech.

I'm sorry to say that no printed text exists. This is not to say I believe that his talk was extemporaneous, but only that it is unlikely that the speech ever has been committed to print in its entirety, even though it has been given in one form or another a good many times.

A tape of the speech exists, but we have been unable to get a release from Mr. Gregory for its use - in class, on the University radio station, or for any other purpose. The need for a release is a legal one and we must comply with the law in this matter.

If the situation changes, I will be glad to so inform you.

THE NEW PARTY

On April 30, 1969, a confidential source, who has  
furnished reliable information in the past, advised that The

b7D

The New Party has been publicly described as  
building an "Exile Government" in WDC to  
"further the politics of participation."

During 1968, Dick Gregory, Negro comedian,  
campaigns as an independent write-in candidate  
for the "Presidency of the United States" and  
was also on the ballot in several states as a  
candidate for the Peace and Freedom Party and The  
New Party. In a book published during the  
campaign by Bantam Books, entitled "Write Me In",  
Gregory stated in part; "the creation of a new  
party, a party based on the magnificent dream  
of peace and freedom, exposes the shallow aspirations  
of the two party system. Such a party offers a  
public forum for the expression of moral concern

At approximately one p.m. on May 3, 1969, a representative of the FBI observed [REDACTED] accompanied by two unknown white males, appear in the 1600 block of Pennsylvania Avenue, N.W. They were subsequently joined by another unknown white male and two unknown white females.

They proceeded to distribute hand-outs to passers-by which depicted Gregory on the front and set forth the problems that The New Party had been founded to deal with, for example, starvation, housing, education, wages, war, injustice, and discrimination. In addition, the hand-out urged people to take a role in changing these conditions by lending their support to The New Party and set forth an application for membership in The New Party.

The above activity continued in an orderly manner until approximately two p.m. at which time they dispersed. There were no incidents noted during this activity.

Sir,

RE: Dick Gregory (comedian)

We are attempting to locate the above  
named individual in connection with a  
number of unpaid bills. Our last  
report was that he was in the Washington  
D.C. area. *pd*

A letter to the Chief of the Washington  
Police has been unanswered for the last  
3 months.

Since Mr. Gregory is quite often in the news  
and is very active in Civil Rights we feel  
that you would possibly know where we can  
reach him. Would you be so kind as to supply  
us with an address where he can be reached?

Thank you.

RICHARD CLAXTON GREGORY

On July 17, 1969, [redacted]  
[redacted] City of Chicago, Chicago, Illinois, advised a representative of the Federal Bureau of Investigation (FBI), that on the afternoon of July 17, 1969, Richard Claxton Gregory appeared before Magistrate Samuel Shamberg on three charges arising out of arrests by the Chicago Police Department during demonstrations prior to the Democratic National Convention in August, 1968. These charges against Gregory were two counts of disorderly conduct and one of resisting arrest.

b6  
b7C

[redacted] advised that Gregory, through his attorney, [redacted] presented a "Draft Order" wherein by mutual agreement the Judge granted that the three charges against Gregory would be continued until 30 days following the final disposition of a case entitled "The City of Chicago vs. Peter Weiss". [redacted] explained that the Peter Weiss case was recently adjudicated in Municipal Court in Chicago and is presently on appeal to an Illinois Appellate Court. [redacted] stated that it is anticipated that the Weiss case will be a landmark case concerning a factual situation surrounding arrests during demonstrations and this case is expected to be appealed to the U. S. Supreme Court, so in effect, the ruling by Judge Shamberg postponed any further court action in the three charges against Gregory for a period of between two to three years. [redacted] advised that no restrictions had been placed by Shamberg on the travel of Richard Gregory.

MEMORANDUM FOR MR. TOLSON  
MR. DE LOACH  
MR. SULLIVAN  
MR. BISHOP

While talking to the Attorney General on another matter, he mentioned that he had responded to my memorandum on the Black Panthers and he wanted me, if I would, to look it over closely as I know what the problems are and see if their recommendations are going to be too onerous because we always have the ultimate action of dropping prosecutions if the situations get too bad and, of course, as far as Bobby Seal is concerned in that Chicago rioting business, he would like to hang it on him but if it too materially affects internal security, it is something that could be done and to keep that in mind. I told him I would personally look into it. He asked that I do and to keep in mind we have this ultimate judgment after we present the illustrations in court.

I commented that they are trying to select a member of the Black Panthers to go over and receive these prisoners of war; that they have not decided upon a Black Panther member, but they have decided upon a member of the Students for a Democratic Society; a teacher at Sarah Lawrence who is active in the anti-draft; and the third person may be the comedian, Dick Gregory, or a member of the Panther organization, but it is going to be decided today by Dellinger in New York. I said it is unfortunate such a group would receive these prisoners of war and try to brainwash them before they are in the hands of the American authorities. The Attorney General agreed, plus the adverse publicity coming out of this against the country all over the world and it is a little ridiculous.

Very truly yours,

J. E. H.

On July 30, 1969, "The Record", Hackensack, New Jersey daily newspaper, page B-15, carried an article indicating that both Dick Gregory and Donald Cox, a national field marshal in the BPP, would appear in Englewood's Depot Square Friday, August 1, 1969, from 8:00 to 10:00 p.m. The article indicated that their appearance will be the first of a projected series of "Speak Outs" sponsored by the Community Togetherness Committee.

Chief of Police Thomas Ryan, Englewood, New Jersey, Police Department, advised on August 1, 1969, that he with the City of Englewood's Information Officer held conversations with members of the Community Togetherness Committee on that date concerning the advisability of Donald Cox being invited to speak in Englewood. An agreement was reached to cancel the invitation to him. Donald Cox was reportedly advised and agreeable to cancelling his appearance.

APPENDIX

BLACK PANTHER PARTY, Also Known As  
Black Panther Party for Self-Defense

According to its official newspaper, the Black Panther Party (BPP) was started during December, 1966, in Oakland, California, to organize black people so they can take control of the life, politics, and the destiny of the black community. It was organized by Bobby George Seale, BPP Chairman, and Huey P. Newton, BPP Minister of Defense. Newton is presently serving a sentence of 2 to 15 years on a conviction of manslaughter in connection with the killing of an Oakland police officer.

The official newspaper, "The Black Panther," which further describes itself as the "Black Community News Service," states that the BPP advocates the use of guns and guerrilla tactics in its revolutionary program to end oppression of the black people. Residents of the black community are urged to arm themselves against the police who are consistently referred to in the publication as "pigs" who should be killed.

"The Black Panther" issue of September 7, 1968, contains an editorial by BPP Minister of Education, George Mason Murray, which ends with the following:

"Black men. Black people, colored persons of America, revolt everywhere! Arm yourselves. The only culture worth keeping is a revolutionary culture. Change. Freedom everywhere. Dynamite! Black Power. Use the gun. Kill the pigs everywhere."

Included in the introduction to an article appearing in the October 5, 1968, edition of "The Black Panther" is the statement, "...we will not dissent from American Government. We will overthrow it."

Issues of "The Black Panther" regularly contain quotations from the writings of Chairman MAO Tse-tung of the People's Republic of China and feature MAO's statement that "political power grows out of the barrel of a gun."

The national headquarters of the BPP is located at 3106 Shattuck Avenue, Berkeley, California. Branches have been established at various locations throughout the United States.

[redacted] Massachusetts, furnished the following information:

On September 3, 1969, Dick Gregory, whom he described as being a noted civil rights activist and social satirist, appeared at the college on September 8, 1969 by invitation in connection with the college's freshmen orientation program. Approximately 850 persons listened to Gregory who told the audience that he was not there to impress them but to inform them. He gave his age as 37 and he told the freshmen that they would have to deal with the problems his generation has left. He suggested that they examine America rather than eulogize it. He urged the students to organize nationally and use the purchasing power of their group to lobby for what they want. He also talked about unrest in Northern Ireland, last year's Democratic National Convention in Chicago and made satirical comments about the American Democracy that forces Indians to stay on reservations and housing people who are poor in Appalachia. He said the most important thing for them to do was to make democracy work right for the first time.

After his talk there was a discussion period in which questions were raised about the War in Vietnam and the black and white racial issues.

NATIONAL SOCIALIST WHITE PEOPLES PARTY

RICHARD CLAXTON GREGORY

James Hill, Chief of Police, Glen Ellyn, Illinois, advised on August 19, 1969, that Richard Greogry, Negro comedian and militant civil rights activist, was scheduled to speak to the Glen Bard West High School, Glen Ellyn, Illinois, at 8:00 PM on August 19, 1969. This speech was sponsored by a group of young college and high school students known in the Glen Ellyn area as "Change Through Understanding." Hill advised that on August 19, 1969, he received a telephone call from [redacted] identifying himself to Hill as a member of the National Socialist White Peoples Party (NSWPP). [redacted] questioned Hill concerning any local ordinances which would prohibit picketing by the NSWPP of the speech to be given by Gregory. Hill stated that he informed [redacted] that picketing was not illegal but if any disturbances resulted, there would be immediate arrests.

A characterization of the NSWPP is attached to the appendix section of this communication.

On August 20, 1969, James Hill advised a representative of the Federal Bureau of Investigation that on the evening of August 19, 1969, five white males, all in their late teens or early 20's and associated with the NSWPP, picketed outside the auditorium of Glen Bard West High School as individuals attending the speech arrived at the auditorium. The only individual identified by Hill was [redacted] and all pickets carried various signs calling

for "white power," "black Africa for Africans," and

Hill advised that the pickets were peaceful and after all of the individuals attending the speech were inside the auditorium, the picketing stopped. Hill also advised there were no arrests or incidents accompanying the picketing or following the speech by Gregory which was attended by approximately 1,000 people. The speech was described by Hill as a long speech calling for black unity, black power, and defining the roll of the Negro in America as well as the world. Hill advised that Gregory did not make any militant statements and the speech did not appear to create any great enthusiasm on the part of persons attending.

A source advised on November 14, 1960, that on that date a meeting was held in Chicago, Illinois, for the purpose of organizing a Chicago Unit of the American Nazi Party (ANP) which maintains headquarters in Arlington, Virginia. GEORGE LINCOLN ROCKWELL, National Commander, ANP, took charge of this meeting.

On May 22, 1966, [redacted] self-identified as [redacted] advised that the ANP in Chicago is to a degree autonomous although it remains subject to the final authority of GEORGE LINCOLN ROCKWELL and ANP national headquarters.

b6  
b7C

A second and third source advised in December, 1966, that a directive was received from the national headquarters in Arlington during December, 1966, advising that the official name of the organization beginning January, 1967, would be National Socialist White People's Party (NSWPP).

During November and December, 1968, the second and third source advised that the Chicago unit of the NSWPP has no headquarters in Chicago. RICHARD CLAXTON GREGORY,  
also known as  
Dick Gregory

On October 10, 1969, at 3 p.m., GREGORY delivered a speech from the steps of Hendricks Chapel, Syracuse University (SU), Syracuse, New York. He was one of several speakers in connection with the "Timebrook-On-Campus," a university-wide conference on SU problems sponsored by the Student Government from October 8 through 11, 1969.

The following are the highlights of his presentation, which lasted about an hour:

In discussing the death of his father in World War II by a German soldier, he said that these Germans are permitted to come to the United States to live and that "before we ever stand by and let you treat your enemy better than you treat your citizens, we'll burn this country down to the ground."

He observed that the "October 15 Vietnam War Moratorium is one of the most important days in the history of America." In fact he said that "it might be the largest demonstration in the history of the world." President NIXON's statement that the October 15 moratorium would not have any affect on him was "a damn lie."

He stated that the "system keeps lying to you 24 hours a day." For example, it is said that the number one problem in the United States is air pollution. This is not true. The number one problem is moral pollution. He stated that the United States is the "most morally polluted, degenerate, insane nation on the face of this earth, bar none."

GREGORY noted that the Chicago demonstration during the Democratic National Convention was the greatest thing that ever happened to young people. He cited the importance

ENCLOSURE

RE: RICHARD CLAXTON GREGORY,

of 15,000 hippies and yippies coming to Chicago "to change the system."

Youngsters must organize across the country. They do not have to take over Administration buildings. More effective results can be obtained through the use of the boycott and he illustrated this by stating that there would be quick results if youngsters boycotted the meat and record industries.

He stated that "I do not advocate destroying the capitalist system, but I do advocate beating it back into its rightful position--behind the U.S. Constitution, not in front of it."

He stated that "if democracy is as good as we tell to others, why are we roaming all over the world ramming it down people's throats with guns."

Academic institutions are too busy indoctrinating students. Academic institutions must be changed. All they do is "program your youngsters." If the presidents of institutions lived up to commitments, they would make the necessary changes. They are "too damn busy traveling all over the country. The educational system in the United States is corrupt and the Board of Directors are the cause.

He stated that black folks do not hate white folks-- "we hate your stinking white racist system." He said that we are "sick and tired of the white racist system."

In discussing the educational system he stated that Negroes are forced to live in the ghetto and Indians are forced to live on reservations. Therefore, they cannot

RE: RICHARD CLAXTON GREGORY,

pass the white man's tests. If white folks were required to take Indian tests they would not be able to pass. It is not a fair system. He said that you must "teach us black studies." He noted that "man without knowledge of himself is like a tree without roots." He stated that it was amazing that the President of the United States in going to pick a Supreme Court Justice out of 200 people decides to select "that slimy degenerate HAYNSWORTH." He said that "that damn NIXON says he is going to back him all the way. I'll bet that if he was a Jew he would have dropped him a long time ago."

RICHARD CLAXTON GREGORY

On October 5, 1969, an article appeared in the "Times Union", a daily newspaper published at Albany, N. Y., stating that captioned individual would speak on "The Civil Rights Crisis in America Today" on October 14, 1969, at Siena College's Gibbons Hall, Loudonville, N. Y. The Student Senate was sponsoring this lecture which was to be open to the public.

On October 15, 1969, this newspaper contained another article captioned "Siena Students Hear Gregory". The article stated that GREGORY said he admired the honesty and moral commitment of youth today, that is, their commitment to end war, hunger and capital punishment. The highlight of this talk, according to this article, was when GREGORY told the audience to copy the Declaration of Independence on a sheet of paper and during the next riot have their parents watch television so that they could see all the looting and killing. While the parents were viewing the television, the young people should turn off the sound and start reading the Declaration of Independence to them. GREGORY received a standing ovation at the end of his speech.

On October 15, 1969, a confidential source, with whom contact has been insufficient to determine reliability, advised that in his speech, GREGORY described former President LYNDON B. JOHNSON as the worst tyrant since JULIUS CEASAR. He said that this country is not a democracy but is controlled by the capitalists who do not care about the Constitution.

RE: RICHARD CLAXTON GREGORY

The capitalists only like the American flag because they made it.

He agreed with Mayor DALEY of Chicago, Illinois, about shooting all the looters but said that the guns should be given to the Indians and let them shoot the looters. The Indians have been repressed and left on reservations, which is typical of America, which is the only country that lies about conditions in its own country. He described America as a morally polluted degenerate nation. On the other hand he encouraged youth all over the world to fight the Communist rulers and to end war, hunger and capital punishment.

Throughout his speech, GREGORY also emphasized the white racist system prevalent throughout the country. President NIXON is out of his mind if he thinks the Viet Nam Moratorium would not affect him.

This confidential source estimated that there were 1500 people in attendance. There were no disorderly incidents before, during or after the speech.

On October 15, 1969, an article appeared in the "Knickerbocker News", a daily newspaper published at Albany, N. Y. This article indicated that after the above speech, RICHARD CLAXTON GREGORY opened an all-night vigil protesting the War in Viet Nam. He told the gathering, estimated to have been 200 people, that he was pleased to be among the first to help to give a moral commitment not only against the War in Viet Nam but against man's insanity against man. He repeatedly called for an end to racism, bigotry, the draft and the War in Viet Nam. He said that the Viet Nam Moratorium could be a turning point for the entire world. It would show American young people they have a moral obligation to bring

about change. He was also sharply critical of President NIXON's denial that anti-war protests would have any effect on his policies.

A confidential source who has furnished reliable information in the past advised on October 30, 1969, that Dick Gregory, the noted comedian and author, would speak at the Capstone House, University of South Carolina, Columbia, South Carolina, on the evening of October 30, 1969. Gregory was sponsored by the University of South Carolina Student Union Lectures Bureau, and his contract called for the payment of \$900 to Gregory for his appearance at University of South Carolina. The contract also specified that his appearance would be strictly along the lines of comedy although he would be allowed to make statements regarding his civil rights activities.

This same source advised that Gregory attempted to break his contract claiming that he had legal problems elsewhere in this country and it would be a hardship for him to appear at University of South Carolina; however, the Student Union Lectures Bureau held Gregory to his contract although he was docked \$200 because he appeared in Columbia, South Carolina, several hours late. His total payment for

the appearance at University of South Carolina was \$700. Gregory arrived in Columbia on October 30, 1969, via private airplane and his destination after leaving Columbia following his speech was unknown.

Gregory spoke to an overflow crowd at Capstone House and whereas he made several comments regarding the civil rights movement, his talk was sprinkled heavily with a comedy routine.

An article appearing in the Columbia Record, a daily newspaper in Columbia, South Carolina, on October 31, 1969, stated that Gregory made the following points:

"The racists and rednecks have been hollering about law and order so the Supreme Court gave it to them." This referred to the recent Supreme Court decision, ordering an immediate end to segregated schools in Mississippi. He also stated that, "You may free all minority groups, blacks, Puerto Ricans, Indians," but a horrible mistake will be made "if you don't include your poor white brother." Gregory emphasized the importance of human rights over other rights saying, "Ninety percent of those upset about the assassination of Martin Luther King would not be if George Wallace was assassinated...all assassinations are bad." Gregory stated, "I'm not against the capitalist system...you have to put capitalism behind the constitution instead of in front of it ...We are not governed by the constitution but by the capitalists. The greatest defense against communism is not the bomb but making democracy work."

The confidential source referred to above also advised on October 31, 1969, that there were no incidents during Gregory's speech at University of South Carolina.

RICHARD CLAXTON GREGORY

The Mankato State Reporter, student newspaper for Mankato State College, Mankato, Minnesota, issue for October 8, 1969, carried an account of a meeting of the Student Senate held October 7, 1969. At this meeting a motion was approved to ask the Allocations Committee of the college to approve spending student activity funds for the purpose of bringing Dick Gregory, comedian and civil rights leader, to the Mankato State College for an appearance on the evening of October 15, 1969. Subsequent issues of this publication indicated that Gregory's appearance had been arranged.

The October 16, 1969 issue of the Mankato Free Press, daily newspaper, Mankato, Minnesota, contained an article concerning the appearance of Gregory at the Highland Arena, Mankato State College, at 8:00 PM, October 15, 1969 to top off the anti-war moratorium activities here for that day. In his talk, Gregory vented his fury at the injustices he claims to have seen perpetrated against racial minorities, Indian as well as black, in the United States. He commended the students on their moratorium and said the young people do have the power to bring about change if they organize.

The article stated Gregory went on to say that "black folks don't hate white folks. We hate your white racist institutions and stinking white racist system. We hate it and we're holding all white folks responsible for it." He likened that concept to the owner of a dog being held responsible should his dog bite anyone.

Gregory said shortly after the start of draft card burning, the government passed an anti-draft card

RICHARD CLAXTON GREGORY

burning law, but "in a hundred years we haven't been able to pass an anti-lynch law." He related that the white system had forced him to grow up among cockroaches in a ghetto.

Gregory criticized the hypocrisy of white attitudes in housing and started off by telling he had lost his father in World War II. "The German who killed my daddy 27 years ago can come to this country and live in a neighborhood that the boy of the man he killed can't live in", he said.

The article states that on another aspect of white inhumanity to blacks, he told how the man who developed the use of blood plasma, a black, bled to death at an Atlanta, Georgia hospital following an accident because the hospital did not accept blacks. The trouble with the United States, according to Gregory, is that it is controlled not by the constitution but by capitalism. "As long as it is", he said, "Americans will always put emphasis on property rights rather than on human rights." "The only reason capitalists wave the flag is because they made it", he stated.

Youngsters have to start asking questions about their system, Gregory emphasized. "If democracy is as good as they say it is why are we running all over the world trying to ram it down people's throats with the butt of a gun?", he asked. "Anything good you don't have to force on people. They will steal it."

Gregory told his young listeners, estimated at 3,000, that they are faced with problems not of their making but left to them by "us old fools." America's number one problem is not air pollution but moral pollution, he said. "This is the most morally degenerated, polluted nation there ever was and you folks have the job of getting its sanity back", said Gregory. He said he hoped young persons realized how powerful they are and predicted that what was happening in America on the moratorium day would have an effect on the whole world.

On the matter of young men having to enter the service before they are old enough to vote, he said, "If

RICHARD CLAXTON GREGORY

you got to go to war and die at 18, you better fight to vote at 17. If you get to vote at 17 then there won't be no wars when you get to be 18." Through their power, young people can stop not only the war in Vietnam but also capital punishment and poverty, according to the speaker. But, he added, they have to organize. Localizing that point, he proposed a solution for the community where students spend a lot of money caring little for them. "Boycott the town!", he said. "An then see how good they treat you. Address all your grievances to capitalism." In the same vein, he suggested the most effective way of propelling businessmen into ending the Vietnam war would be a buying boycott during the Christmas season.

On the business of going to college, he advised, "We are so busy learning to make a living we forget to learn how to live. Don't make that mistake." "Kids talk about going away to college to be somebody", he said. "Hell, you were born somebody. I hope someday these institutions bring out what nature put into you and not what they want to put into you." "If you want to change this system, make the colleges live up to the name of education", he continued. "They have been too busy indoctrinating. And there's a difference." Students have a big job to make education serve their needs of today, not of yesterday. "If college presidents were doing their jobs they would be making these changes", he said. Instead, they're too busy making speeches and raising funds, Gregory charged. "Ninety-eight percent of board of directors are the cause of the problems in the world", he continued. "They are on college boards because they have made a lot of money and nobody asked how they made it."

The heavy impact of the talk was lightened frequently as Gregory relied on his entertaining skill of comic timing and situation to draw laughs from his audience as he drove home a point. "Whites come up to me and ask why we didn't riot last summer", he said. "We got tired stealing all them no good products", he continued in mock seriousness. "This summer we went underground with Consumer Report. Next time we riot we ain't taking no Motorolas, baby."

RICHARD CLAXTON GREGORY

Gregory, however, described himself as nonviolent and challenged white Americans who claim they are nonviolent to prove it. Dragging skeletons out of white history closets, he indicated how blacks could have little respect for the people that "shot and murdered" their way across the continent to California.

On the discovery of America, he said, "You have nerve enough to call blacks hoodlums and you came to these shores and found this country already occupied." He related that to finding an attractive car occupied and "discovering" it for one's own use.

Gregory also challenged whites to admit that their number one "hangup" concerning race is seeing a black man with a white woman. That situation is the white man's own fault through his use of white women in commercials and movies which kindled that desire, he contended. "Niggers were not born wanting a white woman", he said. "You have done a good job of programming.", The only black women he ever saw in a commercial were Beulah and Aunt Jemima, Gregory continued, and he didn't especially want them. "I hope it makes you so mad you'll quit programming us."

Concluding, Gregory promised that if young people see to it no one in America goes to bed hungry, the children of "your hillbilly brothers" get an education, and blacks are treated justly, the National Guard won't have to be called out again.

James Zwickey, assistant director, Student Union, Mankato State College, Mankato, Minnesota, on October 24, 1969, stated Gregory was paid \$1,000 for his appearance here on the evening of October 15, 1969. He said the funds came from student activity fees entirely. Zwickey said Gregory had spoken at Mankato State College a year or more previously and much of what he said during his most recent appearance had been heard the first time. He said the college has a policy of tape recording the talks

of all speakers such as Gregory and these are maintained in the college tape library.

RICHARD CLAXTON GREGORY

Gregory spoke to an audience of approximately 1500 individuals, the majority college age, at Forest Park Community College, St. Louis, Missouri. His speech was open to the public and was an official campus event sponsored by the Speakers Bureau, paid for by the Student Activities Fund. His speech was arranged and scheduled by the college's Cultural Committee, and given November 4, 1969.

Gregory addressed his racially mixed audience on numerous subjects and attacked the United States as a "sick, degenerate country run by a bunch of insane, fool maniacs". According to a confidential and reliable source who attended this speech, Gregory devoted the majority of his speech to attacking the "white racist establishment". He stated that while Negroes do not necessarily hate whites, they do hate the system and Negroes are going to hold the "honkies" responsible for what's happened in this country. Gregory also attacked the United States military system and American involvement in the Vietnam War. His remarks appeared to be fairly well received by the college age audience.

An article appearing in the November 5, 1969, issue of the St. Louis Globe-Democrat, a daily newspaper published in St. Louis, Missouri, contained an article on page 12A relating to the above speech. In this article it was reported that Gregory was paid \$1250 for his talk.

RE: RICHARD CLAXTON GREGORY

The article further related that GREGORY urged his audience to buy copies of The Black Panther which some students were selling for 25 cents. Gregory was quoted as saying, "It's the only paper around here that tells the truth."

The Black Panther is a newspaper which is usually published on a weekly basis by the Black Panther Party (BPP) in California. A characterization of the BPP is attached.

There were no racial incidents or arrests in connection with Gregory's speech.

BLACK PANTHER PARTY,  
Also Known As  
Black Panther Party for Self-Defense

According to its official newspaper, the Black Panther Party (BPP) was started during December, 1966, in Oakland, California, to organize black people so they can take control of the life, politics and the destiny of the black community. It was organized by Bobby Seale, BPP Chairman, and Huey P. Newton, BPP Minister of Defense. Newton was sentenced in 1968 to serve 2 to 15 years after being convicted of manslaughter in connection with the killing of an Oakland police officer.

The official newspaper, "The Black Panther," which further describes itself as the "Black Community News Service," states that the BPP advocates the use of guns and guerrilla tactics in its revolutionary program to end oppression of the black people. Residents of the black community are urged to arm themselves against the police who are consistently referred to in the publication as "pigs" who should be killed.

"The Black Panther" issue of September 7, 1968, contains an editorial by BPP Minister of Education, George Mason Murray, which ends with the following:

"Black men. Black people, colored persons of America, revolt everywhere! Arm yourselves. The only culture worth keeping is a revolutionary culture. Change. Freedom everywhere. Dynamite! Black Power. Use the gun. Kill the pigs everywhere."

Included in the introduction to an article appearing in the October 5, 1968, edition of "The Black Panther" is the statement "...we will not dissent from American Government. We will overthrow it."

Issues of "The Black Panther" regularly contain quotations from the writings of Chairman Mao Tse-tung of the People's Republic of China and feature Mao's statement that "political power grows out of the barrel of a gun."

The national headquarters of the BPP is located at 3106 Shattuck Avenue, Berkeley, California. Branches have been established at various locations throughout the United States.

RICHARD CLAXTON GREGORY

The following article concerning the scheduled appearance of RICHARD CLAXTON GREGORY, more commonly known as DICK GREGORY, on the campus of John Carroll University (JCU), University Heights, Ohio, on October 29, 1969, appeared in the October 10, 1969 issue of the "Carroll News", a weekly student publication published and circulated on the campus of JCU.

# Dick Gregory, Black Leader To Address Carroll Campus

By TONY-ISABELLA

Dick Gregory will speak in the Kulas Auditorium on October 29, 1969, at 8:00 p.m. Tickets will be \$1 for fee card holders, \$1.50 for all other students, and \$2.00 for other attendees.

About thirty years ago, you could have seen Dick Gregory on

almost every street corner in the United States. You could tell he had rhythm by the way he snapped his cloth as he shined your shoes. Happy little black boy as he grinned and snatched your quarter out of mid-air. Then he would run off to buy a Twinkie cupcake, a bottle of Pepsi-Cola, and a small pocketful of caramels. You didn't know that was the

little black boy's dinner. And you never even thought of following him home.

Richard Claxton Gregory was born on Columbus Day, 1932. He came from a family that "wasn't poor—just broke!" At Southern Illinois University, Dick was a member of the marching band and the track team. In 1953, he was S.I.U. Outstanding Athlete of the Year.

In the late fifties and early sixties, Gregory was a fast rising comedian. As the sixties progressed, he became more involved in the civil rights movement. "I began taking more and more time off from being a funny man to help our people." This would become a full time job.

In 1964, he published his autobiography, *Nigger*. The dedication to Dear Mama reads: "Wherever you are, if you ever hear the word 'nigger' again, remember they are advertising my book." *The Shadow That Was Me* and last year's *Write Me In* followed. (In 1968, Dick Gregory was a write-in candidate for President.)

RE: RICHARD CLAXTON GREGORY

The following article appeared in the October 30, 1969 edition of the "Cleveland Press", a daily afternoon newspaper of general circulation published at Cleveland, Ohio.

## Gregory Says Boycotts Will Stop Vietnam War

By IVOR WALKER

"Don't eat on Thanksgiving Day . . . Boycott Christmas . . . Quit getting haircuts . . . Quit shaving. . ."

This regimen to end the Vietnam War was prescribed to American youth by Dick Gregory, comedian, and Civil Rights militant, as he addressed 900 persons at John Carroll University last night.

Such concerted action by youth would send the nation's grocers, merchants, barbers, industrialists — up-tight and screaming — to the White House, Gregory said. "President Nixon will have to listen to the people."

The plea made by bearded Gregory at JCU called not only for swift troop withdrawal from South Vietnam but an abrupt halt to "American police tactics abroad."

"THE VIETNAMESE people are capable of handling their own affairs," he said, "and should be allowed to. If America really wants to police other countries, why don't they go to South Africa?"

Gregory used the occasion

Dick Gregory  
"Don't eat . . . quit shaving."

to predict that Mayor Stokes will be re-elected, saying, "The Stokes administration has an outstanding record."

And he spoke of Fred (Ahmed) Evans, under death sentence for the Glenville police slayings of July, 1968.

"The world knows that Fred (Ahmed) Evans was not involved in the riot in Glenville," Gregory said. "The insanity of this nation was shown at the Evans trial."

RE: RICHARD CLAXTON GREGORY

The October 30, 1969 edition of the "Cleveland Plain Dealer, a daily morning newspaper of general circulation published at Cleveland, Ohio, contained an article which is set forth below:

# Quit Playing, Students Chided

Comedian - turned - civil-rights-activist Dick Gregory last night called on John Carroll University students to organize with youth across the country and solve the problems he said were "eating away at American society."

"Quit playing games,"

Gregory said in a tour which has reached 310 campuses across the nation. "You say you want to end the war. You can. You have the power."

"Quit getting haircuts until the war is over. Watch the barbers become pacifists. Quit shaving. Watch

the industries affected push for peace.

"DON'T EAT Thanksgiving Day. See the turkey farmers and grocers get uptight."

"If you really want to challenge the system, call for a boycott of Christmas."

"If Nixon says student protest will have no effect on him, just have him call the LBJ ranch to see what affect it can have on a President."

Gregory lashed out at everything from industry to Agnew in a speech laced with humor and invective.

"Your mama and papa have written a check which is going to bounce in 20 years," he told the students.

"And you're going to have to live up to the debt."

"YOU HAVE A big job ahead of you, to make this democracy work right for the very first time."

He suggested students might begin on their own campus.

"Take 98% of the board of trustees of colleges and universities and you'll find that they're the cause of most of the problems around the world. Their qualifications to be on the boards is that they have money—and no one is asking them how or where they got it."

GREGORY SAID that the establishment calls youth irresponsible because they fear that youth wants to change the system.

"For 10 years they were staging panty raids, swallowing goldfish and stuffing phone booths," he said. "People simply said boys will be boys. But today it is different, because youth wants to change this sick, racist, morally-polluted society."

Gregory also endorsed the candidacy of Mayor Carl B. Stokes.

RE: RICHARD CLAXTON GREGORY

On November 3, 1969, a source who has furnished reliable information in the past, advised DICK GREGORY appeared on the campus of JCU on October 29, 1969 and addressed the group primarily composed of students, approximated at about 900. He stated there were no incidents, violence, or any demonstrative action as a result of GREGORY's appearance on the campus of JCU.

RICHARD CLAXTON GREGORY

Richard Claxton Gregory is a nationally known  
Negro entertainer and civil rights activist.

The October 24, 1969 issue of the "Mountaineer",  
Mount San Antonio College, Walnut, California, newspaper, page  
3, carried an article entitled "Comic Dick Gregory Addresses  
Convocation". The article reflected that Gregory spoke on  
October 16, 1969, at a convocation at Mount San Antonio College  
on topics ranging from the status of the black man in society to  
the responsibility of the generation he was addressing.

On the Afro-American struggle in society, Gregory  
commented "The biggest breakthrough for Black people happened  
in Texas a few years ago when they named a hurricane Beulah.  
He then related that when a newspaper reporter accosts him in-  
quiring as to why the Black people did not riot last summer, he  
replies, "Well, that's because all the Black leaders were in  
Ireland acting as technical advisors."

Referring to the conception that instigators cause  
the Black people to riot, Gregory stated, "The system don't  
even want to give credit to the niggers for getting mad on  
their own".

"Adults lie to you every day, and when you catch  
them, they call it a generation gap," commented Gregory when  
speaking of the role of the young adult in society. He  
stressed the point that this generation is faced with a situation  
unique in the history of the American nation.

RICHARD CLAXTON GREGORY

On foreign involvement, Gregory commented, "If democracy is as grand as they tell us, why in the hell are they (U.S. Government) trying to ram it down foreigners throats with guns?"

[redacted] California State Polytechnic College, San Luis Obispo, California, advised that Richard Gregory spoke before an assembly of the student body at California State Polytechnic College on the evening of October 16, 1969. [redacted] made available a taped recording of the speech, a transcription of which is as follows:

b6  
b7C

Interested in giving them a ride, you might meet them at the back door there.

We have a wooden floor here so no smoking, I mean no smoking and so without further adue on behalf of a college program speakers form, I would like to introduce to you, Mr. DICK GREGORY.

A lot of clapping.

I would like to say thank-you very much. I don't know how I can really stand here with a straight face and honestly say its a pleasure to be in San Luis Obispo. (A lot of laughing and clapping).

If you really want to have some fun you should go to Chicago one day and try to book yourself here. After about three or four hours after they really decide to really not trying to put them on, you know.

Well I am here, I ah, I stayed up late last night deciding, you know that I would get some sleep on the plane, because actually I don't need to much sleep to survive and I got on the plane this morning and I rushed to my seat to sit down and there was a white cat sitting next to me so naturally I check him out. In all fairness let me say this, it was a time I did not have to check out

white folks, as of about 11 months ago. Well let me tell you why. In Chicago I was walking downtown, in the loop of Chicago, about ten o'clock in the evening and I'm walking and a white cat is walking towards me and he sees me and he jumps off the sidewalk and gets in the gutter, you know. I kind of checked the situation out a little bit, you know, he is very nervous, he says listen your not going to hurt me are you? No my man, I'm just GREGORY, I'm dedicated to committee to non-violence. (A lot of clapping). At that point he recognized me and he quit shaking and he said you mean you are thee DICK GREGORY. Thats right my man. He said you don't carry no gun or no knife. I say thats right. You don't do no cutting or shooting. I said thats me, he said well then stick them up nigger. So ever since that day I've been checking out white folk. So like I said I checked this white cat out on the plane this morning and he was pretty groovy so I doze on off and go to sleep. Well about 15 minutes after I get to sleep the white cat decides he wants to strike up a conversation with me, right. So he did it the usual way, wake up boy and I woke up, only to find out he really didn't have anything

to talk about. No he wanted to talk about Negro progress in America and I tried to inform him that I did not want to discuss black progress in America because there is to few people in America that really understand what areas we really made a tremendous amount of break through in. A lot of people think we made tremendous progress in jobs, in housing and education, no, you know the biggest break through for black foks in the history of America happened a few years ago in the State of Texas, we got our first colored hurricane, BULAH (a lot of laughing). So I guess little by little if you looking in the right places, I guess we are doing pretty good, but you have to look in the right places like television, no we are doing alright on television. Every time you turn that channel you get something black and its abouttime and its those damn \_\_\_\_\_ of that white \_\_\_\_\_ of that white womans kitchen. Everytime I turn on the television there she goes, Oh MARGE there is a white dove in your kitchen. If there is just one time I can see my black sister run through yelling, BULAH baby there is a black crow on the biscuit. So like I said little by little we are doing alright.

Last year television gave us our first black cowboy. Didn't any of you ever see that series, the ah, what did they call it, the ah, The Outcasts, dam right. You can tell by the name of it it was us. I understand this year we are going to get another black cowboy so the first black cowboy have somebody to kill. I don't mean it like that. No, they let him kill, they let him kill white cowboys, but you see the problem is whenever it becomes the black cats turn to kill a white cowboy, the stunt riders really has to go through some changes because you see they have to dirty up that white cat so bad that when the black cat gun him down every body will except it. I remember the last time I watched it they showed a black cat kill a white cowboy. This white cat had just finished raping a blond \_\_\_\_\_ (laughing) salvation army worker right.

You know traveling back \_\_\_\_\_ across country we have many press conferences and its amazing how you know the press seems to ask the same questions all over the country. All the press asks me now, Mr. GREGORY how come you all didn't riot this summer? How in the hell

I know, you know, but if you say that they think you are being militant, right? But you got to give them an answer and now I reached a happy medium with them. Now they ask me why do you think your folks didn't riot this summer and I go its simple. All the black leaders was in Ireland this summer serving as technical advisors. Ya they doing their thing over there, them cats feel proud of themselves, they did shooting at one another and carrying on and you know. I'll tell you something interesting about riots. It don't make no difference who it is, or where it is, all cops react to riots the same way. Catholics and Protestant are raising hell and the Irish Police have been blaming it on outside agitators, BILLY GRAHAM and the Pope. (A lot of clapping). I don't know, when you top and think how many religious conflicts there are going on in the world today, Catholics and the Protestants, Jews, and the Arabs and it kind of makes you wonder what great secret the atheists have that makes them act so God like. Of course I understand the right whingers in Ireland is blaming the problem on the Arab extremists \_\_\_\_\_ O'BRIEN, ELDRIDGE CLEAVER. I don't know how many Irish Catholics we have

in the house, but if we have any in the house and you have loved ones in jolly ole Ireland, then you are going to be getting in touch with them any time soon, tell them that Brother GREG says they want to overcome their problem with the protestants, they are going to have to start acting more like black folks. They are going to have to quit all that damn looting and burning and pull themselves up by their boot straps, go out and get themselves some jobs, learn how to be patient. They are moving to damn fast, damn right Holland wasn't built in a day baby.

~~Then let me say its a pleasure to be with~~  
you youngsters this evening. I guess I can thruthfully say I spent about 98 per cent of my time on college campuses and for a reason. The simple reason is that you young folks in America today is probably the most \_\_\_\_\_ dedicated, honest committed group of young people thats ever lived in the history of this country bar none. I hope you young folks don't have to continue to read these old right wing cracker controlled newspapers to find out who you are, or what your all about. (A lot of clapping.) The average established newspaper in America

is to immoral to even discuss with you young kids, but yourselves. What do they call you? Hippie-yippie irresponsible bearded smelly kids, whatever that means. My reaction to that is always because you have a beard why does that mean you have to stink. They don't say nothing about ABRAHAM LINCOLN, he didn't only have a beard, he was ugly to. You know as I travel around the country and speak with young folks, I think the thing that kind of embarrasses me the most is not only do I have to say to you young kids, that all of the problems confronting America today, you youngsters are going to have to solve. The embarrassing thing is that I have to say to you that not only do you have to solve the problem confronting America today but you have to solve the problems that you had nothing to do with creating. All the problems confronting this country tonight were here before you got here, thanks to us old fools, they will not be here when you leave. I say thanks to us old fools because you see we put you young kids in a situation today that no youngster in the history of America has ever been in. The generation of us fools had passed just ahead of you, not

only did we not solve the problems confronting America today, but for the first time in the history of America we used up all the tricks. So you youngsters have all the problems and no tricks and us old fools wonder why you react the way you react, hell you got to react that way because you haven't got no tricks. I remember when I was a kid, my mother, my father, the whole community to teach me, boy your going to grow up one day and a white man is going to call you a nigger and don't get mad when he calls you a nigger because God don't like no ugly and thats the way it works. Sure enough I grew up one day and a honky did call me a nigger and I didn't get mad because God don't like no ugly. I got seven little black kids at home right now and me and my ole lady ain't teaching them nothing, ( a lot of laughing and clapping). One of \_\_\_\_\_ they ever make a mistake to slip and call one of them a nigger, I'll be damned sure bet you its going to surprise them. So I say to you youngsters today, you have all the problems and no tricks, you got a big job. Let me say to you at this point I did not come here tonight to impress you, but only to inform you. When I leave here this evening I couldn't care less

of about what you think about DICK GREGORY, because I will always have the one constellation of knowing that whenever we wake up, this year, next year or 20 years from now, you will always be able to say atleast Brother GREG didn't lie to us. Now I think thats one of the biggest problems confronting you young folks tonight. Twenty-four hours aday the establishment lies to you and then when you catch it we say generation gap. (A lot of clapping). Now the generation gap is a moral gap, we just didn't start lying to you, we started lying to you way back in that baby crib with that Santa Clause boy. First letter I ever wrote in my life went to a cat that didn't exist, Dear Santa. Thats not funny because when your mommy lied to you damn then anybody is qualified to lie. So that Santa Clause boy, he goes over better in the white community then he goes over in the black community, not that we don't need him, we just know damn good and well that no white cat coming in our neighborhood after midnight. (clapping).

The number one lie we tell you youngsters today; well I don't have to tell you, you know what that is.

Twenty-four hours a day we try to convince you the number one problem confronting America today is the problem of air pollution. The number one problem confronting America today is the problem of moral pollution, this is the most \_\_\_\_\_, polluted, degenerate, insane nation on the face of this earth baring none. Whether you like it or not you young people have the all important job of giving America her sanity back, I hope you don't make the mistake that these old right wing crackers keep making, they are so damn busy \_\_\_\_\_ this country, America the Beautiful, when any old fool know \_\_\_\_\_ are for dead things. Thanks to you youngsters America is not dead yet. I hope you do not make the mistake of \_\_\_\_\_ this country. I hope you young people will examine this sick nation and find out where the cancer is and cut it out. You got a big job, America the Beautiful.

Let me tell you something. If you ever run across any body in this country anytime soon that beleives America is a beautiful country with your Indian brother still locked up on that reservation, tell them I said they are sick, sad and insane and out of their damn minds. This

will never be a beautiful country as long as one Indian is kept up on that reservation and if it can be beautiful to you then you are not out of your mind. We march our funky filthy Army 10,000 miles away from home to guarantee some danm foreigner protection against the communist, who is going to guarantee this Indian protection against you. (A lot of clapping).

So I tell you youngsters tonight you have a big job. I think the most embarrassing thing to me about this country is America. It is the only country on the face of this earth that lies about what she is all about. \_\_\_\_\_ don't pretend to be anything else other than a communist and a revolutionists. Of course \_\_\_\_\_ and therest of them damn fools would knock over Russia \_\_\_\_\_ anything else other than a bunch of communists. HITLER, as big as he was, atleast he was honest enough to let the whole world know that they felt them Nazis was superior to everybody else on the face of this earth. Right tonight in South Africa, they don't pretend that they love them niggers. America is the only country on the face of this earth that lies about what she is all about. She says one thing but she is all together about something else.

So I say to you youngsters tonight you have a big job and I hope you understand how strong you are of course you proved that last year at the democratic convention. 15,000 hippies and yippies showed up in Chicago to change the system in the whole establishment went stone crazy. (clapping). Do you understand that it is very important words showed up to Chicago to change the system that \_\_\_\_\_ about. They would have you believe that everybody got up tight because those kids were coming to Chicago to tear up the town but that don't upset white folks, you know better than that for the last ten years you young white kids every spring break going to Fort Lauderdale, Florida, getting drunk tearing up the whole town and it ain't upsetting anybody. Everybody say well boys will be boys (speaker laughs). 15,000 hippies and yippies showed up in Chicago to upset the whole system. I was tickled to death over the democratic convention because it woke up a lot of you young folks. To me there is nothing any worse than a young fool becuae you got so long to be one. The whole establishment woke you up three days after the democratic convention was over. The whole establishment tried to convenice you that you did not see what you saw on television.

And if they say it didn't happen, the press created it, you know \_\_\_\_\_ and the rest of them damn fools in Moscow was dealing with the world as insane as America, you know that they defeated Czechoslovakia rap. Just get on world wide television and say, ah, you didn't see it, you all. It didn't happen that we admit we sent little minature tanks to the Czech border for the kids to play with and the damn cameras blew them up to make them look like real live tanks. You know what happened in Czechoslovakia, know what happened? Them old Russians made the same mistake in Moscow, these old damn fools are making in America. They plot their little stinking strategy and when they plot their strategy they only take into consideration the reaction of the old fools and they never consider what you young folks reaction is going to be. I'm sure those Russians knew when they hit that Czech border what them Russian tanks, them old Czech were going to take off and run like hell bent, you all be cool we can live under any kind of government, but it never dawned on them Russians that them young Zxechs were going to run alright, but not from the tanks but to the tanks and

met them at the border and had a world wide confrontation you looked at them putting swap stickers on them tanks and it gave people courage all over the world. The same mistakes these fools would make here in this country Sunday morning if you woke up and they put tanks in front of every church with loud speakers saying anybody get caught going to church Sunday morning will be machine gunned to death, they would know the reaction of your mommy and daddy, you can just hear them now. Well JESUS is everywhere we can stay home and pray. (clapping). What these old fools don't know is they put tanks in front of churches Sunday mornig. in America, young folks that have never been to church in their lives on Sunday morning would decide to go.

Take NIXON, he under-estimated you about seven days ago in his press conference when he said the October 15th Vietnam Day wouldn't have no effect on you. He is a damn liar, if he really believes that he is a damn fool to. (clapping). I suggest to \_\_\_\_\_ NIXON that if he want to know how much if effects you young kids can have on a President, that he just makes one call

to the LBJ Ranch and ask that boy how much effect you can have on a President. Because it was you young kids in America that ran LBJ back to the ranch you can run any body back. LBJ is probably the number one power to walk the face of this earth since JULIUS CEASER. If NIXON lived to get 10 million years old he could never get as slick as LBJ. I think that NIXON had better hurry up and realize that you already ran the boss home. You got a big job.

The 15th was a beautiful day, the biggest demonstration in the history of America. They didn't use no fire bombs, they didn't use no bricks, they didn't use no napalm, they came out across this country with the strongest weapon ever been known in the history of man, pure \_\_\_\_\_ ethical, honest, dedication, thats all you need. (A lot of clapping).

So you have a big job, you haven't got to much time to do it in. I hope you understand that the situation this country is in today. I think NIXON expresses it better than anybody, a nation with two hundred million people in it and he would have to look around to pick

them all ethical american to put on the supreme court and he can't find nobody else but HAYNESWORTH, and then say that the most \_\_\_\_\_ ethical guy I know and he ain't lying, it is. That lets you know what shape NIXON is in and lets you know what the state of this nation is in. The President of this country can't find nobody else any morally dedicated, ethical and honest than HAYNESWORTH. You young kids really got a problem. I understand how sick and vicious this country is, you see right now you young kids still playing games with this \_\_\_\_\_, can't play no more games with this country. Sure you have been reading about that government project where they are putting all the whole \_\_\_\_\_ the federal government got this thing called operation intercept. If you just think about, I bet if you really knew what was going on you wouldn't laugh, most of you wouldn't want to believe that this stinking government can be that dirty. You know what they are doing with operation intercept? They are stopping all the marijuana from coming into America, but they are not stopping the heroine from coming in. Now you figure it out for yourself.

Anytime a country would stop the marijuána and not stop the heroine cause they want you young white kids to start main lining so you will leave this damn system alone and as dirty as HITLER was he never tried to put them young Nazis on dope. (clapping). And your mommy and daddy are to damn busy trying to make money and save them notes and to damn degenerate to even see what this damn country is fixing to do, then when you end up on narcotics they are going to be the first ones raising hell. I'd like to raise hell now, always so damn busy putting narcotics down and then bring me another drink honey. They are to stupid to even realize that narcotics and alcohol to the, deperment to your body. May be if you young kids freak out for narcotics and want to get that heat off of you, maybe you got to do like the old folks did. We justified drinking out the bible, you all got to read the bible to find some way you can justify your rights. (laughing). If they go through the bible again, they would be there \_\_\_\_\_ and they tell you guit. The bible says right here, A little wine is good for the stomach man \_\_\_\_\_ drinking vodka and scotch and burbon and cognac and so maybe they will put you youngsters \_\_\_\_\_ you got to look through that

bible and see if you can find out what \_\_\_\_\_ Jesus boy was doing \_\_\_\_\_ thing, you know. You don't have to actually pin point it because most people just use the bible and do what they want to do with it. Just one of them trips when he went off into the wilderness you can use that you know. (clapping). Come back healing folks and all of that, you know. Take a loaf of bread and feed 4,000 people with it, you know something was going on (audience and speaker laughing). He was in good shape wasn't he \_\_\_\_\_ he see one cate and thought he saw 4,000.

Ya you youngsters got a big job. I hope you understand how strong you are. I hope you understand what you did October 15th. You not only proved to the world that you are going to end that war in Vietnam, with that strength you showed you can also do away with capital punishment in America. You can do away with poverty in America and you can bust the back of the military industrial complex, thats how strong you are. (clapping). Of course all of us old fools try to make young kids think that never in the history of America has there been more ill-responsible youngsters in America then you and thats right, but we are trying to say is no youngsters has ever tried to change the system. Oh we did little things when we was in college. We didn't take

over the administration building, we had panty raids.. Nobody got up tight, they said boys will be boys. We went in the girls dormitory and wiped out all the drawers kicked the door in, jumped through the window, man for ten years in America we had panty raids. Not once did J. EDGAR HOOVER get on television and say panty raids is communistic and is barred. But I tell you what, tonight you leave here and go up on the Indian Reservation and try to liberate your Indian brothers and see if that slick, slimy, degenerate that heads the FBI won't be on television and say the Indian movement is communistic and barred. Something is so sick about this white racists country that it really wants itself to believe that it takes some ole white communists to go up on the Indian Reservation and inform the Indians that America has had him on a reservation.

Then there was the civil rights movement. People dumb enough to want to believe that some ole white communist had to come over here from Moscow to let me know that this \_\_\_\_\_ has had his foot on my back for 300 years. I didn't know it till the communist told me. (Clapping).

For some reason this old sick nation don't even want to give a nigger credit for getting made on his own. So for ten years in this country we had vandalism.

Let me ask you which is the mark of a sick insane degenerate mind of a group that goes into the girls dormitory & steal all the drawers open or the group that takes over the administration building. Which is the sick mind? For ten years nobody put us down for it, go back, all you youngsters go back and get them old papers and read see if you see any editorials, then you will say well its all in growing up, ha ha ha ha. Then one day we got tired of stealing bloomers so we decided to see how many goldfish we could swallow remember that? They didn't raise no hell, they let you swallow a whale if you want to. Young kids got tired of swallowing goldfish and they tried to see how many they could get into a telephone booth. Oh ya you picked up the front of the newspaper and turn over on the back side and there it was. University of Arizona set new record - 500 kids stuffed in one phonebooth, then turn to the center page where they got the pictures of some old freakish looking cat from Bell Telephone bringing a brand new phone booth saying well boys will be boys, ha ha ha ha.

If you want to know if boys will be boys, don't take 500 kids downtown and get in a phone-booth, just take five kids downtown one day, don't get in the phone booth, picket outside the phone-booth with picket signs and AT&T, about those anti-trust violations and how absorbent long distance phone call rates and see how long it takes the cops to come there and bush you and throw you in jail. (Clapping). Then see if anybody from AT&T will show up saying boys will be boys.

You youngsters got a big job and I hope you understand why us old fools are reacting to you youngsters the way we react. You youngsters are doing some things to us thats truly upsetting us. All at once you kids are going to say to us old sick degenerates that morality will no longer be a brooks brother suit, and a clean shaven face and a hair cut once a week and commit all the abortions and adultrey you want, you still Mr. so and so. You youngsters stand us old fools the morality will no longer be the latest fashions from Paris and bathing in Chanel No. 5 and doing anything you want to do and you still Mr. so. and so. Do you understad how much that up set us old fools. You youngsters got nerve enough to tell us morality will no longer come from without, but will come from within. You got nerve enough to

tell us we can't buy our morals no more in America. Damn right we upset. We got a little saying in this country here that you youngsters talk about you aren't going to shave and not going to get no hair cut, how in the hell can we look at you and tell if you are a upstanding morally dedicated citizen. (Clapping).

15,000 hippies and yippies showed up in Chicago. Let me ask you, who do you think was the most immoralist in Chicago last year? The hippies and the yippies or the shriners when they come to town for their convention? Who do you think committed the most adultery in Chicago last year? The hippies and the yippies or the shriners? Who do you think spent the most money on whores and prostitution in Chicago last summer? The hippies and yippies or the shriners when they came to town? Nobody got uptight over the shriners. The shriners didn't come to change nothing, just to buy something. (Clapping).

You youngsters got a big job and whether you like it or not us old fools have left you youngsters a mess to clean up.

Last year after the assassination of Dr. MARTIN LUTHER KING everybody got, oh they killed Dr. KING and then they gunned down BOBBY KENNEDY, oh they assassinated BOBBY. A couple of years ago they assassinated the President and everybody got up tight but you know, nobody got upset in this country when they assassinated LINCOLN ROCKWELL and MALCOLM X. This is not a nation that gives a damn about assassinations until you kill somebody we like. Ninety-eight per cent of everybody in America that got up tight over MARTIN LUTHER KING's assassination is GEORGE WALLACE was assassinated in the morning, they would not be upset. There is a sad comentary on in this country. You youngsters got the all important job of making this country that gives a damn about all assassinations regardless as to who it is or we not going to give a damn about none of them. You got a big job & the biggest job that you youngsters have, I do not advocate destorying the capitalistic system but I tell you you young folks tonight, you better work like hell to beat the capitalist into their rightful position which is behind the United States Constitution and not in front of it. (clapping). This country is not governed under the democratic process, this country is not controlled by the United

States Constitution. This country is controlled and governed by the capitalists and the sad thing with the capitalists are here to \_\_\_\_\_ means in America. We put emphases on property rights instead of putting emphases on human rights. So you got a big job of moving the capitalists behind the constitution. And the way you do that is you got to address all your grievances to the capitalist, don't be marching down the street on the constitution because the capitalist don't give a damn about no constitution, matter of fact the only reason they care for the flag is because they make it. If you want to see how much the capitalist like the flag, you get a bill pushed through in the morning that the all American flag will be made from here on in by the Blind Jewish Welfare Mothers Association, see how many of them fools quit flying that flag. (clapping).

Well they proved to you last year what they think about you and your rights. Millions of Americans last year came out and peacefully protested and peacefully assembled for strong gun legislation, remember that? The capitalists that manufacture the guns saw to it that you didn't get a strong gun legislation. And a nation so insane we demand that you get a prescription to get your medicine, but you don't need one to get your gun. I can't hit you in the head with my

appeals and kill you, nor can I injure you by shooting you with my cough syrup (laughing). I'm not trying to stand here tonight and say Americans should not have guns. The United States Constitution says all Americans have a right to bear arms. All Americans have a right to get well and if this country is going to make me go through some changes to get my medicine then damn it, it ought to make me go through changes to get my gun. (clapping). So I say to you youngsters tonight if you want to change the system, ah don't take over the administration building. You got to organize and address your grievances to the capitalists.

Unions didn't get an eight hour work day in this country by throwing fire bombs in the boss's office, although they threw some fire bombs now and beat up some folks, but they organize, the said thing about the unions the, the unions organized to help the \_\_\_\_\_ land to overcome capitalistic tyrant after they got organized and over came the guy, the unions is America now is more degenerate and more corrupt then the guys they organized for it to begin with. So you got to deal with the unions to (clapping).

Ya you have a big job. I tell you youngsters

that once you get organized and address your grievances to the capitalists and we're living in a country today that says to you 18 year old boys, at 18 years old you old enough to go to war and die for your country but you not old enough to vote is that sick? (clapping). If it was happening in Russia, if they say the Russians have to go to war before they can vote we would say thats communism for you. Nothing upsets me no more than to see thise young kids running around \_\_\_\_\_. I got to go to war and die at 18, I want the right to vote at 18. Don't be no damn fool if you got to go to war and die at 18, you better fight to get the right to vote at 17. (clapping). As groovy as you young kids are today if you got the right to vote to be at 17, there wouldn't be no wars when you got 18. (clapping). Since 1900 man has killed 90 million people in wars, 1900, and then wonder what you youngsters go on your mind. Thats why I went out with the Presidential candidate last year. I let the whole world know had I been elected to the presidency I wouldn't want to end the war in Vietnan. I just would have passed a bill that say we could draft these old fools up to 75 years old and send them over there and let them fight. (clapping). If I had been the

President would no more yelling, you kids got to kill and then you would have all of them old folks over there. Sure would have saved us a lot of money on medicare. So I say to you youngsters today if you want to solve these problems, address your grievances to the capitalists.

Next month we are going out for two days against Vietnam. They don't give a damn about you marching. Oh its a beautiful thing because it gives courage to the whole world but next month you young folks got to develope your program and let these fools know if we still in Vietnam in November we going to boycott thanksgiving. We not. We not going to eat a thanks giving meal and you get that turkey form up tight for the first time in this country. (clapping). You youngsters have to organize across this country and let these capitalists understand that if we don't get it out of Vietnam by November you young folks are going to stop getting hair cuts till the wars over. Them damn barbers will go to the white house with their razors and they will get us out of Vietnam. (clapping). When the American barbers got to understand that us being in Vietnam is going to affect his house note, going to affect his kids going to school,

you would be surprised. We don't have to come out in the street no more. Them barbers will take care of it for you. (laughing), but are you willing to make a supreme sacrifice, thats what we are talking about now, thats what it gets down to. You strong enough, you proved you was strong enough to do that thing but are you willing to do that other thing now. Young men in this country if you decide till the war is over that you not going to shave gillette blue blades, got to get out in the street with a picket sign. Some ole woman 95 years old that don't give a damn about Vietnam, but she owns 83 thousand shares of gillette blue blades, ya, she got to come out with you on the 14th and the 15th, Bring the boys home. You young people get organized across this country, let the capitalists know that you are not going to affect NIXON. Let the capitalists know that if we are not out of Vietnam by thanksgiving, you are going to call for a nation-wide boycott of Christmas this year. Then you going to some \_\_\_\_\_. Thats what you got to do to this country. (clapping). Then when the capitalists understand that you are going to paralyze this country on Christmas, you would be surprised how quick ole \_\_\_\_\_ got to come out of Vietnam. Ya Christmas is a big day, you youngsters got to

let your mommy and daddy know and your friends know that if they give you a Christmas gift or cook a Christmas meal or expect a gift they can't do nothing but insult you. You bring that pressure down. I'd like to get out here and go to jail, you don't have to get out there throwing no fire bombs. You youngsters organize & put that pressure on these capitalists and you would be surprised. Capitalism, you'll never make him a moral man, but what you do, you put that pressure on him because he thinks about property baby, or human rights and when you become a threat to his property, you would be surprised how nice he can react. You youngsters want a right to vote, 17 years old, you can get that right. All you got to do is organize and after you get organized go to the record industry in America and tell the record company that they do not go to the Washington D.C. and lobby to get a bill pushed through to say that 17 year olds can vote. You are going to call for a nation-wide boycott of buying phonograph records in America for two years. (clapping). What do you think the record industry would do? Boy they would sit back and watch you wipe out a multi-billion dollar year industry, when they got through, 16 year olders could vote.

So I say to you youngsters today that you got a big job to beat the capitalists behind the constitution so

for the first time we can put emphases on human rights instead of the property rights. Mayor DALY of Chicago was a good example of how we emphasized property rights when he made that statement pertaining to shooting all looters to kill never said to shoot a murderer to kill, never said shoot a dope pusher to kill because murderers and dope pushers deal with human rights and looters deal with property rights. Matter of fact when DALY made that statement pertaining to shooting all looters to kill is the first time I ever agreed with him on anything. I hurried up and sent him a telegram. I said; Dear fool, your statement pertaining to shooting all looters to kill, I agree with whole heartedly if you just make one stipulation, lets first make it rectoactive and lets first put the guns in the Indian hands. (clapping).

So I say to you youngsters this evening you got a big job. Keep your eye on all of us old fools in particular watch your mommy and daddy because you got to sleep with them. You ask them a lot of questions, oh you know somebody come by your house today and knock on your door, my father, Who is it? Ah say government inspector. Say, ya what do you want? We want your dog or your cat. What do you say \_\_\_\_\_ ya we just got a bill pushed through we are sending pets to Vietnam.

I don't have to tell you tonight how much hell your mommy and daddy would raise if somebody tried to drag that dog off to Vietnam. (clapping). There would be a shoot out on the front lawn, it sounds funny but its very frightening when you youngsters got to realize you are living in a nation tonight where your mommy and daddby would raise more hell over the dog going to Vietnam than you going to Vietnam. So you got a lot of questions to ask? One of the most important questions you have to ask and you have to ask it loud and clear, its a simple question, but an important question and that question is. If democracy is as good as we tell you it is and why in the hell do we run it all over the world trying to ram it down peoples throat with a gun? (clapping).

Today you youngsters work to make this democracy work right, thats the day we can bring the guns home because you see anything good you don't have to force on people, they will steal it. (clapping).

Probably the most important thing I will say to you young folks all night is what I am about to say to you now. I hope you young folks at this institution or any other institution do not make the mistake us old fools made when it was our turn to go to these colleges or universities.

You see when it was our turn to go to college and universities in America we were so damn busy trying to learn how to make a living we forgot to learn how to live. Don't make that mistake, please. (clapping), You spend your four beautiful years at this or any other institution, you will find out that if you learn how to live making a living and this is the simplest thing for you to do on the face of this earth. I meet so many young folks that say I am going away to college now to learn how to be somebody, hell you were born somebody. If you dumb enough to let somebody teach you how to be somebody else, then that makes you two people. How to live and eat is very simple. The damn gorilla proved that every day. The damn gorilla eat more food in one meal than you eat in six weeks have you ever know a gorilla to go away to college so he can get him a job so he can get him some food. (clapping). When was the last time you ever heard of a gorilla starving to death? The first time we can teach a gorilla how to make a living thats the day we are going to have to have colleges for gorillas to. I hope you youngsters understand how strong you are and I hope you youngsters understand who you are? One day I hope these educational institutions will only bring out of you youngsters what nature put in you

it would solve all of the problems then. Do you know who you are? There is nine planets to the Universe you just happen to have nine holes in your body do you think thats an accident? Thats because you are the Universe, you are nature. You got twenty-six thousand billion cells in your body, sixty-two thousand miles of blood vessels in your body that blood makes a complete cycle every thirty seconds which means your blood travels 104,000 miles a minute. You know how strong you are? Do you know who you are? I hope you youngsters understand nature. Let me show you how strong nature is. Those of you in here this evening that understand Chinese raise your hands would you please. one-two-three- four- five-six-seven-eight. In this huge audience only eight folks understand Chinese. I said that to prove to you how strong nature is, you all aware that right this moment in China dogs in China do understand Chinese and never been to college. Dogs in Russia understand Russian. Dogs in Germany understand German. Do you? I say that to say that to nature you born with all the wisdom you need to get human dignity to fight your way out of one of these tricks and get to your dinner. Don't nobody have to teach you that. (clapping).

So you youngsters got a big job. I hope you know how strong you are. As you youngsters work to change this system I hope you dedicate a lot of your energy and a lot of your efforts to those educational institutions. I hope you make them for the first time in the history of America live up to their name. I hope you make them educate because the average school in America do not know how to educate. They've been too damn busy in doctrinating and there is a difference between indoctrination and education. (clapping). Why are we so busy programing you youngsters. You come to school and we give you books and here is your class assignment. Read the book. Oh we don't get you with the book we \_\_\_\_\_ after you finish reading the book we give you what we call the test and if you didn't read the book the way we want you to read the book, you can not pass the test. That's programing. (Clapping). That's why young folks in America will stoop to the lowest depth they ever stooped in their life to steal the test, because you know once you get the test you don't need the book. (laughing). We do not grade the book we grade the test and after we get through grading the test we put it on that ole fragile thing called a transcript and I don't know when you

youngsters are going to get hip to that transcript. That transcript is not for you \_\_\_\_\_ don't mean you know thats the way the system checks on you, thats all a transcript is for. If you think that transcripts important to you - you graduate from college one day and ten years from now meet somebody you want to marry and see if they ever ask to see your transcript. (laughing). You graduate from college and you get a dipolma and to to apply for a job and they say well we got to check your transcript don't check my transcript I didn't ask to check your damn books did I? (clapping).

You youngsters got a big job. Changes in these educational institution so for the first time they can be relevant to your needs in the year of 1969 not that old \_\_\_\_\_ stuff we've been teaching in these colleges and universities. You all got a big job, hell somebody going to stand in front of you in class and flunk you, who has the power to flunk you? Nature, its like flunking a hurricane. (laughing and clapping). The most they can do is give you incomplete and give you the rest of your life to complete it, that makes sense. (laughing and clapping). That ole nonsense grading system, you made

a 100, you made now, who gives a hell what you got a pass or incomplete its just that simple, just that simple. What does a 100 mean? Because you made a 100 on every test that going to make you a better daddy? Because you made a 100 on that that makes you a better citizen? Nine time out of ten with that old system we don't do nothing but make a damn fool out of you. Check the records \_\_\_\_\_, they own their own business, they ain't working for somebody. You youngsters really got to overhaul this system and I hope you do it before my kids get here. (clapping). Because I know my kid is not going to be as patient as you all was. They aren't going to take over the administration building, they would be standing out there marching where the building was. (laughing and clapping). Sad thing about what is going on on college campuses today, that everybody is upset over young folks get the president of these institutions would live up to their jobs and their committments they would raise enough hell to make all these changes you need. Hell if the president really thought anything of you youngsters, (clapping), he would be so busy making these changes if you wasn't with him he

would to take over the student union so you couldn't get in it. Come to your dormitory and steal your records. The average president of these institutions so damn busy out making fund raising pitches and keeping his finger in somebody's eye and so damn scared of that board of directors now thats where the problem comes from on the colleges is that board of directors. (clapping). You want to have some fun, you write down the names of every college in America and then do some research and look up all the board of directors in America and you will find out that 98. per cent of them is the cause of the problems all over the world and the only thing that qualified them to be on the board of directors is the fact they made some money and nobody even asked them how they made it. (clapping). Look at the ROCKEFELLER family. How many college boards and university boards of directors they are? Can you imagine ROCKEFELLER is going to tell you young kids how you suppose to mold your life when it wasn't for his damn Chase Manhattan Banks them black brothers in South Africa could breathe a breath of fresh air and if it wasn't for that damn standard oil the whole continent in South America could get free and that slick, slimy, degenerate ROCKEFELLER family going to tell

you youngsters how you suppose to pattern your life, is that a disgrace? You got a big job and thats what black folks is talking about in this country today. Let me say to you tonight that black folks in America do not hate white folks, course you got some niggers hate turnips. (laughing). Basically in America black folks do not hate you white folks, we hate your stinking white racists system and your stinking white racists institutions, thats what we hate in the free society. We got to give a man the right to be an individual racists. Individual racism do not hurt me its just the damn institutional lies racism that we are going to bust, thats what is choking us to death. (clapping). As an individualist you got a right to believe our \_\_\_\_\_ your hang-up, but you haven't got a right to keep people moving, anyway I won't move in my country. (clapping).

The white folks you not our problem. I guess its just your ego that wants to make yourself believe you our problem. (clapping). When you really stop and think about it you really insignificant in as far as my problem is concerned and to prove that, all you white folks could disappear from America tonight and leave nothing here but

Indians, Mexicans, Puerto Ricans, Black folks and Asians and if we had to take these same old trick tests you made us take now, we still couldn't get into college and you wouldn't even be here. (laughing and clapping). So I say to you tonight Black folks in America, do not hate you white folks, we hate your stinking white racist system and your stinking white racist institutions but we want you to know we are going to hold all white folks responsible for it. You do know what I mean don't you? (clapping).

Like if you came to my house this evening as my friend and brought your daughter with you and my dog attacked your daughter, who you going to sue? My dog or me? I'm responsible for my dog. We saying to you white folks in America you responsible for this dog ass racists system that keeps attacking us. (clapping). Both of you came by my house this evening as my friend and brought your daughter with you and my dog lunged for your daughter and I got in the way and that dog damn near killed me, you ain't got no law suit right? Matter of fact our friendship can get a little tight alright? Same thing we say in the white folks of America, either you get

in a position to stop your racist dog from attacking me or get in a position where everytime he attacks me he will grab you and if you ever do that you'd find out we ain't got no problems, (clapping). We tired of this racist system that keeps black folks locked in the black ghetto all their life. I was forced to live in a black ghetto, over crowded, rats and roaches and I had to develop a new \_\_\_\_\_ to survive and then I break out of it and go to a white school and you didn't ask me the ghetto test, you didn't ask me a damn thing about the rats and roaches, you asked me about the \_\_\_\_\_ tower, no baby you've given us the wrong test, we're black kids and we said get rid of these tests. Thats your test, don't give me your test baby, not after you forced me to live in a black ghetto all my life. You \_\_\_\_\_ enough decency after you forced me to live there to give me a test that I know about, then get rid of all the tests. (Clapping). That Indian brother, he is not on that reservation because he wants to be there, he is there because we forced him up there and if he got away tonight and wanted to come to this institution you not going to ask him a damn thing thats relevant to the reservation. First thing

you want to do is we got to give you a test \_\_\_\_\_.  
(laughing). Oh what was ABRAHAM LINCOLN's mother's name?  
What the hell that Indian give a damn about ABRAHAM LINCOLN's  
mama? May be we would understand it a little bit better if  
all Americans had to take an Indian test before we could go  
to college. May be that Indian throw you up on that  
reservation and ask you what was sitting Bull's great  
grandma's name? We are insane enough to not only put him  
up on the reservation but to control his educational  
system and we got nerve enough out of all of the people  
on the face of this earth we got nerve enough to teach  
that Indian that COLUMBUS discovered America. (laughing  
and clapping). So we say we tired of this white racist  
system. I never will forget I lived in that black ghetto and  
developed me a ghetto culture and I got ready to go to one of  
them white schools, see I didn't have to take the test  
because I was a good athlete. Come here boy, ya I got passed  
that. I'm sitting and I was doing my thing, you understand?

I never will forget one day I'm sitting in the  
math class and this white instructor walks over and says  
how you doing boy? I say well I think I got it mastered  
if I just figure out this one formula and he says, What  
is it on your mind? I say, well let me break it all the

way down. I say two and two is four. He say what? I said two and two is four. He said what did you say? I said four white boy four, one-two-three-four. He said my God you colored folks do talk different. Ya, five-six-seven-eight-nine we do talk different don't we? You white folks better check your thing out \_\_\_\_\_. You run around here thinking that you talk english language and black folks can't speak the english language. I say to you, you better get on a plane and take one trip to London, England and listen to that englishman talking.. You would find out you white folks in America can't speak english neither. (clapping). Ya you ain't doing nothing but \_\_\_\_\_ and \_\_\_\_\_. Thats why a trip every now and then, a good trip is good for your \_\_\_\_\_. Ya thats right, you learn a lot you know, you white folks got us pinned in the black ghetto, you give us that little piece of land, little small piece, to small over crowded, rats and roaches and we dirtied it up because we dirtied it up white folks in America want to say we was niggers for dirting it up. Them black folks was so silly want you to make yourself believe we didn't even get nothing dirty. \_\_\_\_\_ we ain't dirty. You know white folks knows what dirt looks like. You know there is a lot of

black folks in this country silly enough to believe that if you don't see us eating watermelon you assum we ain't eating them. You know damn good and well if you see us

\_\_\_\_\_ truck loads of watermelon to haul \_\_\_\_\_ and the truck come back empty. You know what we doing with them melons don't you? (laughing). So I guess we just have to start getting honest with you and admit that we did get in that little ole piece of ghetto you gave us that was over crowded, rats and roaches and we did dirty it up. Now because we dirty it up that makes us the nigger and tonight I am willing to admit we the nigger for dirting up that little piece of land. We got to be the nigger for dirting up that little ghetto you gave us. \_\_\_\_\_ admit you who dirtied up all your rivers and your oceans, polluted your air and left all that junk on the moon. (clapping). So if we got to be niggers for dirting up that little piece of land after looking at your dirt record you got to be the super nigger baby. (clapping).

So I say to you tonight you black folks we tired of this white racist system and these white racist institution. Thats why black kids on these college campuses

today say teach us black studies. Damn right we not your nigger no more, we want to know who we are, we know our history goes back further than slavery and you know damn good and well that a man without a knowledge of himself is like a tree with no roots. We also demand that these institutions teach you white kids my black history because if you white kids ever learn my black history instead of what your mommy and daddy taught you about me, you find out your mommy come close to being that nigger than me. (clapping). We tired of this white racist system \_\_\_\_\_

\_\_\_\_\_ newspaper reporter asked me, Mr. GREGORY, what do you think about black separatism? You white folks shouldn't be permitted to utter the word separatism as long as that Indian is on that reservation. Thats a pure example of separatism, but its OK as long as you doing it. Oh that Indian hold a press conference in the morning say me like reservation, don't want no more white folks on reservation. You would send your army up there tomorrow night and run him off.

Three years ago had I gone around the country speaking that the way we can solve the problem in the black ghetto we need black capitalism every body was sayin that was

racism but that old white board thinks NIXON talks about black capitalism, thats not racism because he a white boy. We tired of this white racist system, its a white racist system that permits my jewish brother to get upset when he found out Black \_\_\_\_\_ existed in the black ghetto. In fact every jew in America over 15 years old know another jew that hates niggers, now you find out some niggers hate jews. What the hell you so upset about? I tell you what you upset about in the white racist system the aggressor will never permit the oppress to be as sick and degenerate as he is. Thats what is upsetting you in this country. (clapping). I'm so damn glad that the black \_\_\_\_\_ is out. \_\_\_\_\_ an ugly \_\_\_\_\_ because as long as it was here, could nobody deal with it. We tired of this white racist system. You ever see that television show called the Dating Game? You see that ole racists show because if ain't racists because the system is doing it. Anytime a black contestant shows up, the three other guests just happen to be black. (laughing and clapping). But if I had to go to work that show next week and If you found out I said I wasn't going to work that show if you got a white lady on I want three black soul sisters, you would say I was a racists, wouldn't you?

So we saying we tired, tired, tired, of this white Racist system. Everytime I look at my American passport I look at this racist piece of thing they gave me to travel all over. You never got a passport? Check it out one time. Look at those four countries the Americans can't visit, Cuba, Mainland China, North Korea and North Vietnam. You think its an accident they just happen to be non-white communist countries? You aint afraid of communism as long as its white communism and you sick enough to believe that them little non-white commies in North Vietnam is a bigger damn threat to your security then them white honky communists in Moscow, Russia. You got to be sick and out of your mind. (clapping). But all know Moscow, Russia is not off limits everytime an American boy gets killed in North Vietnam, he was killed with a Russian bullet. Everytime an American plane gets shot down over Hanoi it was with a Russian missile, but you ain't mad at them white Russians whose firing after your slaughter, you still bring that damn Russian Ballet over here, you still bring Russian exchange students over here, man the whole world got hip to your game and you run around talking about you trying to protect the world from communism. You trying to protect the world

from non-white communism. We tired of this white racist system. Oh there is a lot of white folks in America that is sick enough to believe to be born black in America you inherit certain criminal tendencies. Say well look at all the, look at the crime rate in Washington, D.C. with the colored folk. Let me tell you something if you took them niggers crime rate in Washington, D.C. and multiply it by ten million you wouldn't equal the crime rate them white folks got up on the hill in Washington, D.C. and you know it. (clapping). Take all the nigger criminals that ever lived in the history of this country, take the pimps, the whores, and the hustlers and put them in one big pot and melt them down to come up with one nigger hoodlum and you still wouldn't end up with one ALFONSO CAPONE, you still wouldn't come up with one FRANK JAMES or JESSIE JAMES and you still wouldn't come up with one BABY FACE NELSON or PRETTY BOY FLOYD or what you call them little ole freaks that freaks out over in the \_\_\_\_\_. Little ole BONNIE and CLYDE they your folk heroes, a bunch of damn bank robbers and a bunch of cop killers and you go to movies, freak out over them cause they white folks. (clapping).

But I would like to ask you youngsters to do me a favor one day next week. One day next week go by the library and copy down the Declaration of Independence, don't read it, just copy it. You know how to copy without reading don't you? (laughing and clapping). Sure you do. Here is the favor I would like for you to do for me. When you copy down the Declaration of Independence keep it with you 24 hours a day, never be caught without, your Declaration of Independence. Here is the favor I want you to do for me, when the riot season opens up again (laughing). Ya this system even gave us a riot season, July through August. This July through August we didn't show up and the whole country got upset, where were you? We had the tanks waiting for you. (clapping). There was GEORGE WALLACE, how come you didn't \_\_\_\_\_ riot this year? Say ah you know them niggers is lazy and shiftless and they just got tired. (laughing and clapping). I tell you where we was this riot season, we got tired of stealing all of them old bad no good products so this July through August we decided to go underground and study the consumer report. (laughing and clapping). So when the riot season opened up again we aint stealing no more motorolas baby (clapping).

Here is the favor I would like for you to do for me. When the riot season opens up I would like for you to get home, go home with your parents. I'm talking to you black kids to because you got some black folks living in them houses which \_\_\_\_\_ more degenerate and more corrupt then the Ku Klux Klan could ever think and you do know what I am talking about. (clapping). When you get home I want you to take your television and put it in the middle of the room and then turn on the evening news because they going to show them niggers looting and riding and socking it to the times. Turn on HUNTLEY and BRINKLEY because they get close ups (clapping). HUNTLEY and BRINKLEY get such close ups you can recognize your kin folk. Look at that \_\_\_\_\_ I didn't know he was in Detroit, get it baby, get it. (laughing and clapping). After you get the evening news on showing them black folks rioting and looting and at that point I want you to run upstairs and get your parents and bring them fools down and put them right in front of the television set so they can see them niggers looting, burning, socking it to the town. While they looking at it I want you to listen to them, listen to their comments, you heard them before, just listen to them and the favor I would like you to do for me after you heard enough of their comments, go up to the television

set and turn the sound off so they can't here nothing  
just look at them black folks burning the town and at that  
point I want you to get way back behind them fools and  
take out your Declaration of Independence and while they  
looking at them niggers burning the town I want you to  
read your Declaration of Independence as loud as you can  
read it and may be for the first time them old fools will  
understand what they are looking at. (clapping). We  
hold these \_\_\_\_\_

and all Negroes created equal \_\_\_\_\_  
with certain eligble rights that we \_\_\_\_\_  
rights are destoryed over long periods of time \_\_\_\_\_

\_\_\_\_\_ it is our duty to  
destory or abolish that government. (clapping). I know  
at first them old fools will assume that was some message  
MALCOLM X left for RAP BROWN, but I'm sure with a  
minimum amout of pursuaian you will be able to teach  
them old fools that that was there beloved Declaration  
of Independence, that one with the mistake on it, ya that  
one where they forgot to write for whites only. (laughing)  
Don't you know black folks is dumb enough that if we read  
that Declaration without you putting white only we dumb  
enough to believe that that met all Americans. We know

its not for us because when we deal with the Declaration they do want to run get their Army like a damn fool. So we would appreciate it if you would get this white board Declaration of Independence out of my black ghetto and then right after you get that out we would appreciate it you get your trampy lily white American history book out of my community because ain't no way in the world you can expect a nigger to behave after reading your history. So you get me your history book that tells me you landed at Plymouth Rock and shot and murdered your way all the way across to California. Now you want to (clapping), now you want to, a nigger behave. You really that sick? Are you really sick enough to believe in still drafting niggers into your Army to say send them to Fort Benning, Georgia and teach them how to be \_\_\_\_\_ send them to Vietnam to kill foreigners to liberate another foreigner and think that nigger ain't going to come home one day to kill you to liberate his mama. You out of your mind. (clapping). Ya we would really appreciate it if you would get that white board history book out of my community and when you get it out, read it because may be if you read your history you would understand me. Nerve enough to talk about niggers being a criminal in your history

book tells me how you came to those shores and discovered a country that was already occupied. Now who is the criminal? Are you going to discover a country thats not only occupied but being used at the time (laughing and clapping). Thats like me and my old lady walking out of here tonight and you and your lady sitting in your brand new automobile and my lady saying, gee baby I really love that beautiful car, sure wish it was ours. I say well baby lets discover it. (laughing and clapping). Can't commit no crime because thats the way white folks got America. Ya your history book is something else. Give me liberty or give me justice, who said that? RAP BROWN didn't he? \_\_\_\_\_

\_\_\_\_\_. Don't shoot till you see the whites of their eyes. Ya your history is something else. You got nerve enough to tell black folks we should have respect for the police. Hell when I read your history book I see that you didn't have no respect for the police. Its in there. In the early days when the British was the police (clapping), a white boy by the name of PAUL REVERE rode through the white community and said get a gun white folks the police is coming. (clapping). Ya you sure understand them white panthers don't you? (clapping). You got nerve enough to get upset when the

riots start and the niggers steal a television set and take it home, you want to call him a hoodlum, you still outrageous white boy \_\_\_\_\_. Tell me how you white folks got on that strange ship and dumped all of his tea in the water. What the hell you mad at us for because we got enough sense to take it home with us. (clapping).

So as I leave here tonight I say to you black folks in America, have an attitude. Briefly let me discuss Black attitudes. Oh we have an attitude and thang God its about time we finally got one. Let me say to you I don't know what it is that us black folks have been doing in America for the last two years to alienate you white folks the way we alienate you, but we got news for you, whatever it is we've been doing we going to keep on doing it. We look around and we see more intergration in the last six months in America than ever in the history of this country. We don't know what it is about your nature and your chemical physical make up that as long as niggers was marching and singing we shall over come the \_\_\_\_\_ Jesus boy you couldn't get enough dynimite to blow our churches you couldn't assassinate our leaders fast enough, but all it was \_\_\_\_\_ talking that way no more for,

some reason you behaved it, they gave me a list in America in two years we don't know what it is that makes you behave when we start typing you up, but we got news, we won't type you all the way up baby. (clapping).

We tired of these white racist insults. I hope you white folks understand we got enough sense to know we will never get strong enough to keep white folks in America from insulting us and we hope white Americans understand you never get strong enough to keep black folks from reacting to your insults. White folks got nerve enough to tell us to be non-violent. You know how insulting that is coming from you? The only country in the history of the world that had dropped an atom bomb on another human being. Go out and drop your napalm every morning on women and kids and then walk around telling us to be non-violent youth, you got to be joking. White folks in America shouldn't never be permitted to use the word non-violent as long as your indian brother is on that Indian Reservation because you can't be no more non-violent than the Indians have been in America for the last 75 years. What happened to your appetite for non-violence. See non-violent is nonthing but a cheap whitey \_\_\_\_\_

Oh if that Indian wants a better way of life in the morning he got to realize he is dealing with such a racist insane nation that till you make this country \_\_\_\_\_ muzzle of a gun she is going to keep your nigger. Oh that Indian wants a better way of life all you got to do is get out on the \_\_\_\_\_ tomorrow or Monday morning in Arizona and catch white folks driving down the expressway and start shooting at them, Pow, and yelling red \_\_\_\_\_ whitey go home when that Indian tells you to go home he talking about the big trip baby. (laughing and clapping). Just as sure as that Indian is going to raise hell Monday morning I'm just \_\_\_\_\_ Monday night those stinking reds. As long as that Indian is kept running up that reservation and looting and burning, getting him some blonde sclaps and raping some of you white ladies, Oh you listen to him then, oh it would upset you but you would listen, Oh you know that the Indian raise enough hell this year next year you would have a Indian here talking to you. (clapping).

I say to you youngsters there is a sad comentary on America. You youngsters got to create an atmosphere in this country where America will become as ashamed of injustices at home as she is afraid of communism abroad.

You got a big job, you got to say a man can march and demonstrate and re-address his grievances and don't need a fire bomb.

So I say to you tonight we tired of these insults. We tired of non-violence nobody knows how insulting that word is to me because I'm one dedicated to non-violence. I had to become a vegetarian because \_\_\_\_\_ shall not kill as far as I'm concerned means animals to, but that's my hang up. Non violence is my thing now. I don't go around teaching non-violence vegetarianism my thing. I would never knock a steak off your plate. I will never let you put one on mine. I will never tell you about how you suppose to behave or react. All I can say to you about my life I would find more pleasure in being killed by a man than killing a man myself and I hope somewhere down the line (clapping).. I hope somewhere down the line you youngsters in America create an atmosphere where man will have to solve all of his problems sitting at a table and not with a pistol in his hand. The word non-violence I don't even like it anymore. I would like to see you young folks develop a new philosophy. Damn non-violence, develop a different philosophy. I will not violate you, that's the new philosophy. I will not violate you and you will not violate me. You can hate me and I can hate you. We

dedicated to not violating one another and my hate will only affect me and your hate will only affect you.

You youngsters got a big job. All we saying is we tired of these insults.. A lot of people come to us now and say, How come we can't call you all colored no more? How come you all don't want to be called Negro? Let me be honest with you. You can call us anything you want to call us. I'm just saying its safer to use the word black. (clapping). We don't mean to put you white folks in no imposition but we looked around and we noticed you don't play no games with yourself, why play them with us? But you leave Isreal today to come to my country. Here is a Jew in Isreal, he stays a Jew when he gets here. I'm going to tell you to leave Italy to come to America, he is an Italian over there, he stays an Italian when he gets here. The jolly ole Irish leave Irishman, they was Irishmen in Holland and when they got to America they stayed Irishmen. We looked around to see you haven't played no games but yourself, why do you insist on playing them with us when we both made the same trip across that Atlantic. We left Africa and when we got here we got to be Nigras and \_\_\_\_\_

and colored folks don't play no more games with us.  
Call me colored nothing you want to play some games,  
call yourself clear folks. (laughing and clapping).

So as I leave here tonight I say there is a  
new day in America with Black folks. Twenty to  
thirty years ago black folks in America had an empty  
stomach, today black folks have a full stomach but  
a hungry mind. A hungry mind will not tolerate the  
same thing a empty stomach did, empty stomach deals on  
\_\_\_\_\_ and hungry minds deal on sound and all at  
once this country don't sound right to us anymore.

Five years ago four white boys burned up  
their draft cards and in two weeks time the Senate  
and Congress had passed an anti-draft card burning bill.  
We haven't been able to get them to pass an anti-  
lynching bill in a 100 years. (clapping). When America  
passes anti draft card burning Bill but will not pass an  
anti lynching bill my country just said it to me that she  
thinks more of a piece of cardboard then she thinks of  
my black mama and I well bring her to her knees for that.  
(clapping).

If I was in Vietnam right this minute and got killed by a Viet Cong this country would give my black wife \$10,000 and she couldn't take that \$10,000 and buy herself a house in any neighborhood in America she would want to buy here, hell I got killed shooting at the wrong folks. (clapping). The only insulting thing if I got killed in Vietnam tonight and a red

\_\_\_\_\_ Mississippi racist white boy got killed with me, the Vietcong would push both of us in the same grave and bury us together, but if our dead bodies were shipped home we would not be permitted to be buried in the same cemetery in America. Its a sad day in hell when I got to stand up and admit that my enemy can treat me better dead than my country can treat me alive. (clapping).

So we say we tired of these insults. Stop and think America say well you all get a fair house \_\_\_\_\_ get a fair house and live only where in my country I want to live. What kind of animals are you? That old \_\_\_\_\_ Russian \_\_\_\_\_ STALIN's daughter, known communist and a known Russian, you ain't suppose to like neither one of us. You didn't

make her get no better housing bill to come to, come to my country and live anywhere she wants to live. Why in the hell do I \_\_\_\_\_? \_\_\_\_\_ Russian exchange students that comes over here, they don't want to be your citizen. Matter of fact you got to watch them for four years so they don't steal no secrets. You don't make these Russians \_\_\_\_\_ exchange students get no fair \_\_\_\_\_ bill to come to my country and live anywhere they want to live. These ole \_\_\_\_\_ why do we need them? We saying we tired of these insults. Oh there is a lot of white folks that believe a nigger is the stinkingest, smelliest thing that walks the face of this earth. Thats a \_\_\_\_\_ hang up as long as you keep it in your head. I'm not here this evening to convenice you that niggers don't stink. I say do your own research, (laughing and clapping). You better check the records at the college industry and see how many \_\_\_\_\_ billions of dollars a year you white folks in America spend on deoderants. (clapping). \_\_\_\_\_ them deoderant commercials on television, see if you ever see a \_\_\_\_\_.

Just figure it out for yourself, black folks is doing all

the drinking and white folks is buying all the deoderants,  
who really stinks in my country?

So we saying we tired of these insults, oh  
there is a lot of white folks believe because I was  
born black I'm inferior to them again I say \_\_\_\_\_  
hang up as long as you keep it your \_\_\_\_\_ the  
\_\_\_\_\_ thing to say \_\_\_\_\_ is  
to tell you I'm inferior to them because I'm black. I would  
be the first one to tell you that if I was \_\_\_\_\_  
leave tonight with a Japanese girl \_\_\_\_\_ Jewish women  
tell you \_\_\_\_\_. I could go to bed with  
any one on the face of this earth and give \_\_\_\_\_  
be the first one \_\_\_\_\_ baby going to be a  
nigger. My sister can go to bed with anyone on the face  
of this earth and \_\_\_\_\_ the baby going to be  
her \_\_\_\_\_ inferior stop \_\_\_\_\_.

We saying we tired of these insults and all we  
doing is reacting \_\_\_\_\_ while white folks  
tell us that education is our problem, that ain't nothing  
but \_\_\_\_\_ white \_\_\_\_\_. Hell if education  
is our problem, the jews would \_\_\_\_\_ this  
country. (clapping). \_\_\_\_\_ the problem how come

you got \_\_\_\_\_ in Vietnam cities \_\_\_\_\_  
\_\_\_\_\_ school teachers. (Clapping). Education is  
the problem, then how many of you has wondered who was  
\_\_\_\_\_ millions of people would be dead \_\_\_\_\_  
\_\_\_\_\_ on the face of this earth \_\_\_\_\_  
blood plasma. Are you aware of the fact that a black  
American by the name of \_\_\_\_\_ invented blood  
plasma? Don't take my word for it, check it out in your  
library. Are you also aware that \_\_\_\_\_  
\_\_\_\_\_ waiting room after \_\_\_\_\_  
accident cause they \_\_\_\_\_ except niggers.  
Education \_\_\_\_\_ my problem, the man with \_\_\_\_\_  
knowledge to give blood plasma to the entire world, died  
from the lack of his own blood plasma in America \_\_\_\_\_  
\_\_\_\_\_. Damn thing \_\_\_\_\_  
with it. (clapping).

So we saying we tired of these unsults. All we  
have to \_\_\_\_\_ black women in America have 20 per  
cent illegitimate babies we not going to \_\_\_\_\_  
ghetto baby. (clapping). White women in America have  
two per cent illegit. We tired of these insults you  
little white boys want to run around because your white

sister got two per cent illegit and my black sister got 20 per cent you want to put halo around your head and make yourself believe that morally and spiritually you better than I am. No baby if we ever get our hands on you white folks abortion credit cards we will show you how to knock a rate down. (clapping).

We saying we tired of these insults. White folks come to us and insult us, How come you colored folks have all them babies in the ghetto, you can't take care of them? We know that. We make a deal with you today this white racist system learn how to harm black boys and give us good jobs like it gives you white boys so we could afford all them whores and prostitutes like you, we'd quite having all them babies \_\_\_\_\_. Now we don't have to ask you about that whore because it is my sister remembering she do talk when she comes home, so we do know what you doing.

So we saying we tired of these insults. When I stope and think that that German kill my daddy during World War II, had a German killed my daddy in 1942 I was 10 years old, I'm now 37 years old, now that means I would have gone 27 years without a daddy which is no insult because when daddy's go to war, they go to kill or be killed. The insult is the same

German that could have killed my daddy during World War II in 1942 and made me go 27 years without a daddy, that German tonight can come to my Daddy's country, and live in the neighborhood that my Daddy's boy can't live in and you all make like you all don't know what we're talking about. We're saying \_\_\_\_\_ before we ever sit back again and watch you treat your enemies better than you treat your citizens, we will burn this country down to the ground. That's what we're talking about.

So tonight as I leave you I say no more games, no more civil right legislation, we don't want our rights on no civil rights. We want our rights on the same piece of paper you get yours one. No, No, I take it back. We'd like for you to play one more game with us before you quit. We'd like for you to get together and give us what we call a honest white folks deal. Don't none of you get up tight cause it ain't got nothing to do with white folks. Matter of fact we'll give it a good name, we'll call it the Concerned Honky Law. (laughing). Oh I'll bet that will go over big in the ghetto and it will just be a simple bill that reads all five year olds, black male baby boys, haven't got nothing to do with white folks, matter

of fact it don't even cover my black sister. All five year old Black male baby boys will be forced to go to a government camp for one year from the age of five to six. Will also stipulate in this law that those black boys will be able to sleep for eight hours a day and for 16 hours a day for a soild year the government will teach them and thats where the honest white folks come in. Sixteen hours a day the government will teach them little black boys, nigger when you grow up don't never fool with a white lady, don't never date a white woman, don't never go to bed, and let me tell you something before we leave here tonight we can not believe that nothing upsets you no more than to see a nigger with a white woman and you ain't got guts enough to talk about your number one hang up. Just who in the hell do you think you are? One day if you ever get up enough man hood to talk about your number one hang up you might find out its something you doing to make us want that broad if you ever have enough sense to quit doing it you find out no body wants that white woman but you (clapping). But the mistake you made with me everytime your new cars come out you can't help but drive a new car without that white woman so I feel I need me a white lady to make my gears shift right, O.K.? (clapping).

I am sitting on that airplane the other day reading and minding my own business looking at a Life magazine getting to page 35, there big ole picture of a white woman with a big bottle of pepsi-cola in her fist talking about thirsty honey, have a pepsi. Ya I'll have a pepsi, you to you ole white broad (laughing). I go home to my black ghetto, walk into my black house and get in my black living room with my black wife and my black kids and turn on my black television and there your white sister running across half naked talking about my playtex living bra. Ya you damn right I'll buy a living bra for my old lady and I'll buy you some meat. You know this might come as a surprise to many of you but you know niggers wasn't born wanting a white woman. All my life I've been told the most gorgeous thing God ever put here on the face of this earth is a gorgeous blue eyes blond white woman and when I get ready to check you out cause you know I ain't going to take your word for it, he wants to get upset.. I went to see my first movie I was four years old. I didn't know nothing about no white lady. Never see no body making love in my life, four years old and my mind was pure and ready to be programed. I couldn't

even go to Downtown fo the white movie I had to go to the black movie and you sent that white woman out to my black movie just what in the hell did you have on your mind? Four years old, who I see making love, AVA GARDNER and ALAN LADD. I didn't know what they was doing at four years old, but I had enough sense to know one day I was going to grow up and do it, I went to movie every day. Next thing I knew I'm eight years old and been going to movie everyday for four years looking at that white lady make love. I never will forget one night, I was eight years old, AVA GARDNER and ALAN LADD (nothing on tape). (clapping).

The mistake you made with me was \_\_\_\_\_ only black woman who even showed me in the movie when I was being programed was BULAH. The only black woman you let me see advertised \_\_\_\_\_ your mama and for some reason I just thought you white folks were hip enough to know that I ain't never ever in my life wanted to make love to BULAH nor Aunt JEMIMA (clapping).

So as we leave you tonight I tell you you youngsters got a big job, you got an important job changing the system. Let me say to you young white kids tonight thanks for changing the civil rigths movement into a human rights movement before you made it a human rights

we never talked about the Puerto Rican brother, the Mexican brother, the Indian brother across this country there are white kids that has never seen a Mexican in their life other than on television and in the movie. For two years now they have been standing in front of their supermarkets holding a picket sign saying don't buy California Grapes. Its a hell of a movement, its hell of a tribute to you young kids and you won that Mexican boycott up until 9 weeks ago when tricky DICK NIXON bought 89 million dollars worth of California grapes and shipped them to Vietnam, most of the people in America don't even know he did that, but he did. Next year when the Mexicans start blowing up the grape vineyards let him sell the dirt to Vietnam. (laughing and clapping). Le me say white kids got a movement and you young folks got a movement going on thats going to solve all the problems, but to you young white kids let me tell you you making one mistake for the first time you talking about the black problem, the Mexicans problems, the Puerto Ricans problems, the one mistak you making and I hope you'll quit is a boy, white hill billy brother of yours in this country that up till now nobody gives a damn about. I hope you include your

movement to cover that poor white boy to. (clapping).  
I hope you talking about a movement that is going to  
wipe out hunger in America regardless as to what color  
it is. I hope somewhere down the line you find some  
concern for that white hill billy brother of yours when  
you get down in his ghetto and get the \_\_\_\_\_  
to his kids so they can come to these colleges and  
universities to. You got a big job. You know a lot  
of people write me for tapes of my speeches and ask me  
do I have it printed, well I am very happy to inform you  
that not only is my lecture record which is called Hit  
GREGORY's Light Side and Dark Side, has been on the national  
chart for the last six weeks, but that aint no big threat  
to the Supremes or nothing like that but (laughing) but  
TINY TIM had better watch out so those of you that are  
interested in lecture record its two albums record in one  
package about an hour and fifty minutes so if you interested  
you can pick it up at record shops. Let me say that those  
of you that have to get to work and those of you that got  
babysitters to relieve we going to take about a three minute  
break so those of you that have to run can run and then we  
will come back and deal with some questions and answers, but

right now let me say to you youngsters that thank you very much for October the 15th because I got seven little kids at home in Chicago that I'm sure after October 15th that you is going to make this a better world for young folks to grow up in so let me personally as a father say thanks to you and hope you keep on doing what you are doing and God Bless Nature, have fun. Good night. (clapping).

On behalf of the associate students I want to thank Mr. GREGORY and we found a red purse here we would appreciate who ever lost it to come and collect it, thank you all for coming here. (clapping).

If you think its stupid or you think its silly so I would really take it as an insult that if somebody asked the question regardless of what you might think the question who hiss them or gible, if its funny and it deserves to be laughed at, I'll start to laughing off first, O.K.? hahahaha, o.k. At this point we ready to entertain your questions. Yess maam, would you stand up.

What I think of your Governor REAGAN? (laughing) Well I don't know if it ever dawned on you lady but are you aware of the fact that REAGAN spelt backwards is nigger (naggar). You slow readers figure it out sometime tomorrow. (laughing). I was kind of hoping he would behave himself so

he could get elected to the presidency of the United States so we can boast we got a backward nigger in the white house (laughing and clapping). Now let me say this about your Governor. I think that California is probably moving further ahead today in dealing with your problems then ever in the history of this country because you have a REAGAN in office today but this \_\_\_\_\_ didn't happen with REAGAN. It was here during the whole PAT BROWN administration and them cats never dealt with it. They never touched it, REAGAN didn't say we was going to have segregated schools in California, they was segregated before PAT BROWN got in and as liberal as he was he never did anything to intragate them so at least REAGAN is in and everybody seemed to rally behind so I say give me more REAGAN maybe we can get it over with in the morning. The same thing about BARRY GOLDWATER, only problem I found wrong with BARRY GOLDWATER was LBJ and he was honest. (laughing and clapping).

Yes brother?

What would I do about the draft. Well lets assume that I was the President of the United States.

Oh you mean if I was 19 years old what I would do about the draft? Well its very difficult for me to suggest that because you know they got laws now that say I can't stand up here and suggest that, you know? hahaha (laughing and clapping). It might get me in jail but it damn sure won't be in a crowd of people thats infiltrated by the FBI and CIA. He is telling you what he is going to do with the draft, let me say this personally I think number 1. You got to live up to your own convictions and I think somewhere down the line ah if you decide that you not going to kill, that you shouldn't kill, now personally I believe every country needs an Army to clean up after earthquakes, after a tornado, after a flood (clapping). So in all sincerity with this principle in mind if I was 19 and got drafted and thought the way I think now I would go into the Army on one condition that they would send me to the front line immediately without a gun because you know whats going on in America now. I can truthfully say America is worth dying for but I ain't never in my life worth nothing worth killing for and if it is I'm sure going to be that Mississippi Sheriff that kicked my old lady in the belly when she was nine

months pregnant before it ever be some Viet Cong so I feel, thats my hang up. I don't believe in killing and I would be willing to go to the front because I think a country should have an Army to do things with you know I don't mean to be killing but I think America is in that kill bag the rest of that world is in that kill bag, we are not going to wipe out the army overnight. I think what we got to start doing is working on a long range program to do away with not just Armys here but all over the world I think that before We can every consider of talking about living in a world with no hostility and where man is not going in for some cheap phoney manhood we got to first start talking about feeding people all over the world and we strong enough to do that. We rich enough to do that, to see to it that no man has to go to bed hungry. Now you know if people all over the world go to bed hungry tonight because there is no food they have one attitude, but if they knew it was food, but them government officals wouldn't let them get the food, man them government officals would be in trouble because this is different thought a mans mind knowing there is food but the folks just won't let him get to it. So I think, Number one, we got to talk about feed people. Number two, we got to talk about sitting up a whole

world wide medical program, and its a damn shame we got a cure of vaccine for polio in America and we haven't distributed it all over the world. I mean what difference do it make what the kid is, there is no such thing as a communist kid \_\_\_\_\_ do admit you know we got a cure and we haven't spreaded it out all over the world. I'll tell you whats funny, I was in Moscow, Russian this summer, my wife and I and we was just horrified over the fact that we will not share our medical advances with everybody and the communist won't share theirs, but you know there is whiskey all over the world. There is dope all over the world, prostitution all over the world, there is cigarettes all over the world, ain't nobody \_\_\_\_\_ you not going to drink my \_\_\_\_\_ because thats communistic inspired and the Russians say alcohol is capitalistic habit. \_\_\_\_\_ man alcohol and all the bad habits is all over the world, anything that would hurt your health it has no hassle getting around the world. But when he talk about up lifted and keeping a man healthy, then we get into these political hassles, so I again I say three things, food program, medical program and the third one is an important one, see to it that we work to ban capital punishment all over because when man knows his

State will not kill him, he takes on a different behavior pattern. So In think those are the three most important things, fourth is controlling this thing at home and you young kids \_\_\_\_\_ going to have to build you an independen t political force you can talk about that democrat and that republic, the democrat and republican party is to immoral, to insane to rule you youngsters. Now you talk about that stuff you going to join it, change it, thats like you going to go into a lions den and put a diaper on him. Believe that if you want but you are going to go into that old lion and that lion is to slick baby to have you run in there, he will eat you up alive, so if you youngsters can move into an independent political rank even if you going to vote democrat or republican, register him and get your independent movement going and put up a black form where statesman can run. Now we keep telling you that you ought to come in the system, well you young kids thats to young to vote, you ain't got nothing to do but stand out side because you the one thats dying. \_\_\_\_\_ RUSSELL's son been out of college five years and ain't never left Washington, D.C. DUPONT's boy and \_\_\_\_\_ boy ain't none of them fools goint to no war getting killed and if any-

body should die they got a whole lots to die for

\_\_\_\_\_ because they own it all, so some kind of way you know that when we keep telling you youngsters to move into the political arena, we trying to trick you in there. If you looked at the elections in November and looked at the returns coming in man, its a damn shame man, here we put astronauts up in the air or on the moon so they say, I don't know where they sent them, but I have my doubts about America, she can't feel a safe \_\_\_\_\_ or want me to believe she went to the moon, you know. I don't know, you know, may be she has, may be she just thinks that about people down here, but when you sit and look at astronauts out in space we know what his pulse rate is, we know what his conversation is, we know what his temperature is, we know if he feels bad, we know if he sneezes, but yet still in America it takes sometimes two days to count the votes. Now you know that these sick degenerates you give them two days of counting votes and it ain't going to do you no good to vote. You youngsters got to talk about a political system where America immediately goes out and electronic all the polling places so when that polling place closes at 6:00 o'clock, one-tenth billion of a second that electronic polling booth will count that data

and you don't get \_\_\_\_\_ fools time juggled them votes and put in who they want to put in regardless as to who won. Now its very interesting, we did a little re-search in Chicago and we found out that in Chicago to have an election in Chicago it costs the citizens of Chicago a \$1.87 per citizen of Chicago thats what it got for them to hold a election. If we had electronic polling places in Chicago it would be 22 cents per citizen to hold elections, not only is this cheaper its more convenient and millions of dollars we spend storing them being bulky voting machines, electronic voting machines wouldn't take that much space, so there is all types of reasons why we should have electronic polling places, but this system can not afford to get a fair count because then they don't have ways of jumping it their thing. Now once you youngsters can get into their political game from independent standpoint then you got to start working on some hip \_\_\_\_\_. You got to talk about war, you know damn good and well this country ain't about to get out of that war game in the next 30 to 50 years. So now you got to paralyze as much as you can, you got to start pushing bills through that says anytime America goes to war the industry that makes war material by law can not receive more than two percent profit more during war time then they receive during

peace time, then you take that profit out of that war game and there would be a whole lot of them folks not won't be interested in wars then. You got to pass laws that say any time in America that an American soldier gets killed in hostile action now if an american gets killed we get \$10,000 this is the same thing we gave them in World War II which means the only thing that they haven't increased in value is a dead American soldier since 1942 and so what you got to do is pass a law saying every American that gets killed in war in hostile action this government will not only give their familys \$50,000 cash immediately, but that family becomes the ward of the federal government for the rest of their life and then when you start talking about putting a price on that war game baby, then you had \_\_\_\_\_ you would be surprised how good peace tables will look to them over there on one of them battle fields. (clapping).

The question is, she is interested in the hippies that reject the system and drop out and the question is am I asking for staying in the system and not drop out? No I am not. I think you know the most beautiful thing about hippies I wish more black folks could be as beautiful as the hippies, they don't get involved with the civil rights movement, but

they always making comments against what is happening  
there is one beautiful thing about the hippie, he drops  
over there and he leaves it alone , he don't play no games  
with it, so he is no problem, he is no hang up, you know  
you can't run and put a camera in front of his mouth and get  
him to put down \_\_\_\_\_ DAVIS or nothing like that,  
so I think you know a man got a right to say you know I want  
no part of it, you know he got a right to believe than no-  
thing can save this system you know he got a right to believe  
I mean thats human nature you know they say a rat needs a  
ship three days before it sinks, but where did he go out  
there in that water and die three days earlier. (laughing),  
but ah I think you know for some reason we might can save it,  
but If I had to bet, be honest, if I had to bet tonight  
could we save the system I would bet that we couldn't, thats  
from where I stand from the research I've done I don't believe  
we favor system, but I think, I got enough faith in young kids  
that may be you might slip through, but you see you got to many  
bad fractures facing this country today. You got the one frac-  
ture that the system might swing these young kids into that  
far left bank, we \_\_\_\_\_ into the far left bank this  
country is coming down to the ground or we might get a \_\_\_\_\_  
with the CIA over-throw the government because they would see  
which way it was going, I think the likelihood if we going to

get over-throwing the government within the next two years. I think the last election that we had in this country as far as I can see it I think it would be the last election on this, you know unless something very drastic happened cause when you look at the CIA we've let this monster get out of control. I don't know have you been following this case of General TURNER, about these guns \_\_\_\_\_ does it strike you funny that nobody in Congress asked him are you all familiar with \_\_\_\_\_ strike you funny that they've been holding that investigation for two weeks and nobody asked him who he sold the guns to? He sold the guns to the CIA \_\_\_\_\_ whole big stink. I don't know if \_\_\_\_\_ hip enough to know what he is doing and kind of scared and want to slip it out easy or I don't know if they just trying to cover it up, but you know damn good and well man that as many guns as that man has been selling somebody got to ask the question. Thats whats wrong with this sick degenerate newspaper in this country, not one newspaper reporter has asked who did he sell the guns to? Ya whose bought them? Somebody had to be buying them, the CIA is buying them. Hell did you see what happened with the Green Berets trial? They had to cancel that murder trial because the CIA is not going to testify if the President of the

of the United States involved in the murder trial he got to testify so if the CIA don't have to testify that means they are the president, ya its just a matter of time, thats what MALCOLM X meant when he made that statement that upset everybody, when KENNEDY was assassinated. He said, the chickens is coming home to roost, you know he was hip along time ago because what he was saying is we paid that stinking stupid CIA big money to go all over the world assassinating leaders and toppling down governments now they coming home to get ready to do the samething with yours, and thats the way I see which way its headed myself or they might push these kids into the far left. Now let me explain something to you about the far left. America do not now anything about the far left, only thing she knows about is the new left, the right wingers try to make the new left believe you the far left, the right wingers going as far as they can go to the far far left is much more vicious than the far far right could ever be and if this country ever gets pushed into a far left bag you might as well pack your bag and get out of this town, get out of this country cause see any time the far right gets ready to kill me they hold a meeting in some ole smoked filled room \_\_\_\_\_ the money. (laughing). Then one day I could be standing

here talking to a thousand of you, I could be with my wife, I could be with my kids, I could be on a balcony like KING was, I could be in a bubble top car ain't nobody going to die but me, thats when you the right put the \_\_\_\_\_ down. The left decided I got to die, they hold a meeting, how we going to get him? He goes to the football in

\_\_\_\_\_ lets blow the stadium up (laughing).

So I think thats why I say to you youngsters you really got to work fast its not to late if we haven't gone beyond the point of no return but to finalize your question, I have no \_\_\_\_\_ one way or the other about \_\_\_\_\_

\_\_\_\_\_ they got out of there they stayed over its really, but let me say this I hope, especially you young fellows, you know that everytime we have a peace rally there is sometimes more women out there than men, you know the one thing the women don't have to worry about is going to war being killed and somewhere baby we can say thanks to them for the first time by seeing to it after we get this smoked cleared and start cleaning up this system see to it for the first time women will start getting their rights in this country which they've never had and which we keep putting things ahead of them, we keep talking about everybody's thing except their

thing and some kind of way I hope you young women you know get off this ole silly womens attitude thing and start asking a whole lot of questions you see because there is no woman in America thats going to \_\_\_\_\_ make a position to put America in war but when these old fools put us in war we come back and get your babies, when you young women start teaching your baby at the crib that you did not bring him in here for somebody to stick a gun in his hand and for him to go around shooting at people then thats the day us old fool men we ain't going to quit fighting wars but we going to find another way to fight them cause you see when you can't get people we can fight a war with a chess game, you know, winner take all which is \_\_\_\_\_.we \_\_\_\_\_ . I'm not dead, least all I got to do there is learn how to speak Russian. (laughing). But somewhere you girls got to ask a lot of questions somewhere you young fellows cause I think us old folks is to committed and to sick in our heads to look at a woman as keeping her in a place, but I figure you youngsters got to shake that thought off of your head, you got to see to it that she is a human being first and a woman second and qualified to get all the rights and benefits of any human being regardless that she wears a skirt, not, I can't stress to you young ladys that a lot of

questions you got to answer a lot of questions you got to challenge you know, I don't know how you women let us put you up on them high heel shoes, hell if high heels were good for you, we would be wearing them (laughing). We never had anything out here that we didn't wear that wasn't good for you because how silly it looked, you know well that cause we \_\_\_\_\_ pocket books is pretty hip but now you cats getting them ole big purses now, hanging on them, you understand? Keeping pockets free so can understand how these world wide conferences all these old men get together and talk about the worlds to over populated you know, and after they get to talking about it they run out and buy some whore in the corner, they talking about how over populated the world is, but they ain't doing a damn thing to stop it. Then after all the men get upset about how over populated the world is I have never met a woman that is upset over population explosion is noting but men and after we get upset over it we make you take the pill, now you got to be stupid. I mean it takes two to tango baby. If that pill was any good we would be taking it and that birth control pill is one of the dangerous and most dangerous thing that man has ever invented. Its more danerous than the atom bomb believe me because least every-

body is hip to the atom bomb. Any of you know how, raise your hands if any of you know how \_\_\_\_\_ birth controls are made out of, anybody? You know they made from male horse sperms, thats right, horse sperms under the theory of nature is so beautiful you can't trick nature, you can not put all in water in a glass and mix it, it will not mix this sick fool decided that a horse sperm and a male sperm in a woman's body would not mix it, thats the principle the way them damn birth control pills work. I don't how many of you, let me ask you to raise your hand, any of you familiar with any of you ever been around a man that has been taking cancer treatment where they give him female hormones, have any of you? You know the way his breast develops just like a woman, well thats the same thing that is happening to women with them horse sperms after about three or four years of you using it \_\_\_\_\_ start getting big like a horse. They, and its not really funny, its dangerous man, their belly starts dropping like a ole horse and the government already knows that in (laughing). I guess about 15 years of using them things a broad won't be able to sleep unless you put some horse manure under the pillow. (clapping). Hay man where your lady? She outside racing around the block, you know

above and beyond the human point'. I sincerely hope that you women, you know, do something about what we doing, in my book and I don't say this for you to buy, check it out of the library, write me and did any of you ever read 'Write Me In'? You see the point I dealt with birth control pills now I wrote that book two years ago, long before anybody in this country ever started talking about the harm of birth control pills, cause we was able to get hold of a government research paper from the surgeon generals office where the government, the federal government been know for ten years that birth control pills are going to be fatal to 98 per cent of all the women that use them after \_\_\_\_\_ didn't know it \_\_\_\_\_ but they still refuse. England, London, England is taking them off the market and you know what they used to take them off the market this government report here \_\_\_\_\_ they made them take birth control pills off the markets so I hope you women would start checking on these a little bit more and you see if you women ever wake up you see the burden is on you to do a whole lot of thinking, you know if I had been elected president of the United States the first three things I would have bombed would have been Kelloggs, General Mills, and the baby food companies. I don't

think there is anything \_\_\_\_\_ killing people in this country no more than this ole \_\_\_\_\_ food and for some reason you women don't care. Baby food is the most disgraceful thing in the world and this is the way baby food industry works. They know that it is human nature for a mother to taste food before she gives it to her baby so they mess up that food making it to your taste, they put all that salt, all the \_\_\_\_\_ they put all that seasoning in it and a baby don't need all that stuff, hell baby system not used to that, but they know damn good and well if they don't put it in there you get to \_\_\_\_\_ this don't taste good and so to keep you happy you know these baby \_\_\_\_\_ is coming up beginning from the you know right from the crib with bad food because you know these food companies you know we got to have some laws against food, they talking about the automobile industry no 99 percent of every sickness in this country is caused from the dye and if we in this country especially you young kids ever learn to dye, go to the health food stores. I don't know if you have any in a small town, but get to a big city and go to the health foods and books don't cost nothing but a \$1.00 and read and learn that was the success of the early Romans and the Greeks that still have pyramids, still have books, a theory that

we still marvel over and there success was one baby learn the human body. That was the first thing they did, and after that they learned how to eat, now these old fools got you talking about you got to have protein, you have to \_\_\_\_\_ hell we didn't know nothing about calories 50 years ago and what in the hell was them people using many way back then in the Roman Empire, the Greeks that mustered them mighty Armys and that didn't have no machines, what was they using? So some kind of way if you youngsters really learn about food and learn about the body and challenge all of these theories right? Everytime you go to the store pick up something that says \_\_\_\_\_. How in the hell are you going to improve on nature? Hell you going to \_\_\_\_\_ and anything you read that saying enriched on it you know that food tampered with it baby, and the government got some old \_\_\_\_\_ law that can say after you tamper with it over here you can put enriched on it. Do you know that if you take pasteurized milk, Any Farmers in here? \_\_\_\_\_ do you know if you give pasteurized milk to a cow it will kill it. Ya damn right you know \_\_\_\_\_ all the reason they make the farmer pasteurize the cow because they know the farm in America is to unethical to get rid of a

cow that has T.B., and if you take milk from a T.B. cow you going to get it so they make them boil the milk to kill the germs when they kill the germs they kill everything else in it and thats what they got on the market so somewhere down the line you youngsters really got to learn about that body and really got your \_\_\_\_\_ out you need protein, hell cow don't need to drink milk to produce milk you can get the right amoung of minerals in your body, your body is going to produce all the protein it needs, but somewhere you younsters got to learn about buying nothing \_\_\_\_\_ this old way we teach you in school and they ain't teaching you nothing in school. As rich as this country is man, can you imagine we the richest nation in the world in health wise and the men in America rate 16th in the world and the women in America rate seventh in the world health wise so evidently we doing something wrong and its very funny you know the only sad people in America is poor folks and \_\_\_\_\_ and ole fat KENNEDY cat gets the money he learns how to eat right. I guess the poorer you are the more you want to eat, the more you eat the richer you feel, but all you doing is killing yourself.

O.K. we got time for another.

Yes brother?

The question is ah talking about the bills I talked about am I asking to elect more young legislatures like JULIAN BOND, JULIAN hate me for saying this cause we very good friends, I do alot of engagements for him and he do alot for me, but I love JULIAN BOND and I would die for him in the morning. I don't trust no democrate or no republican and JULIAN BOND is a democrat right? Thats the same party WALLACE belongs to right? Thats the same party \_\_\_\_\_ belongs to right? And so I don't trust \_\_\_\_\_ and I think if they are as pure as I believe JULIAN is then they should have the convictions and the courage to get out of that filthy slimy party and come out and get an independent political movement going where you would rally behind him with out rallying behind that democratic party but there is no way in the world you can put JULIAN BOND in the Presidential office as a democrat without him helping the democrats and he couldn't go in there and sweep it clean because everybody say well you know we gave you the money you got so be careful, you see, look at SCOTT. SCOTT from Pennsylvania that just got DIRKSON's job \_\_\_\_\_ he is one of the most militants going until he got that job, now look at home, he made a complete

turn around so the democrat and the republican party  
is you see my feeling is that the lowest animal that is walking  
the face of this earth is the American politician and we  
need statesman. (clapping). And the democrat and republican  
party will eat up statesman, I mean they proved that with  
FULBRIGHT. FULBRIGHT is one of the most brilliant minds  
in this country that this country has produced in our time,  
he is morally dedicated and ethical \_\_\_\_\_ most  
beautiful dialogue he brought out on Vietnam, nobody has  
ever brought that dialogue out, but when it comes time to  
vote on the civil rights bill he had to vote against because  
he had to go back to Arkansas and run for re-election. We  
in trouble, man, we got a system that just chews up good men  
and makes them dogs, somewhere you know, what I'm saying is  
you youngsters got to get up a new independent political party,  
you got to refuse to participate with that old thing \_\_\_\_\_  
\_\_\_\_\_.

Yes lady?

Am I planning on running for President in 72? Well  
let me say this ah, in running in 68 I sit at home and I knew  
what the odds was of me getting elected by a trillion to one,

but I still \_\_\_\_\_, I still could have made it you know, to me the rich boy is running this country might have said DICK, if we put him in office we can save it you know cause black folks are brace, right? So they could have tricked it and I could have been the President, you know, but I then got to wondering as I was looking at the returns you see the first percent that reported was a black percent in Chicago and I was ahead for a few minutes (laughing) scared me to death, I told my wife, I said baby you know if I win this election that wouldn't be hard to do, the hard thing would be to get from Chicago to Washington, D.C. alive. (laughing) and \_\_\_\_\_ everybody in the world would have called me a racist because I would have stayed alive, you see the way I would have to do it people would have swore I was a racist, see I would have hired nothing but all black folks in the capital and all black employees, not only black but they would look just like me, beard and all, then bring on your assassin baby I can just see him now, that minuteman getting to draw that \_\_\_\_\_ and then report \_\_\_\_\_ boss I just assassinated President \_\_\_\_\_ man I am looking at television \_\_\_\_\_ made you kill (laughing). I don't know, I would hope I wouldn't have to run because just,

let me finish, I'll get to you. I hope I would not have to run in 72, I would hope that we can develop some statesman that would come forward and be able to run.

Yes maam?

Peace and Freedom Party was EUGENE MCCARTHY, no, well can I be honest with you lady? There is a couple of questions EUGENE would have to ask for me before I would run with him on even participating or even voting for him, he would have to explain to me how he voted against TEDDY KENNEDY, to come to \_\_\_\_\_ that's one thing he would have to explain. The other thing he would have to explain is, now he might could explain it he would also have to explain why he gave up his senate seat to a honk \_\_\_\_\_ the commissioner to a honk and then the third and important thing he would have to explain to me you know why his name is in Who's Who in the CIA. \_\_\_\_\_ that book that came out of East Germany that's a factual book that we will not let in this country that's one of the best sellers on the face of this earth and if he could explain those three things to me especially why his name shows up on the CIA book and then we might could get together, but those three things and the CIA thing he definitely will have to explain to me whole lot.

I've talked to some people close to him and I mentioned it and I was surprised they was honest enough to say he used to belong to the CIA, but as far as I'm concerned the CIA is not something you used to belong to, you know.

Thank-you. One more question and then we going to \_\_\_\_\_.

Yes maam?

\_\_\_\_\_ question is I ran for President with MARK LANE as my Vice-President, never heard a thing, didn't you see his picture in the paper the other day, ya his picture is in the paper, he is in Denmark. What was it \_\_\_\_\_? I don't remeber the story now. I don't know if he was going to defend some draft resistors in Denmark or just what it was but \_\_\_\_\_ he called me before he left the country, he was going to talk to North Vietnam in Paris but then HO CHI MING died and I never did get back to him because I figured \_\_\_\_\_ all be at the funeral, but he is in Denmark. He should be back in this country oh, about sometime before Christmas, but he is fine, there is one cat I don't, know why they haven't killed, I know why they haven't killed me, but I don't know why they haven't killed him, cause he is the first one that kind of let the whole world that \_\_\_\_\_

the Presidents assassination didn't go down the way it went down, you know he was the first one that came out openly, a lot of people thought the CIA killed the President \_\_\_\_\_ and to this day I don't \_\_\_\_\_ still that other thing you know, they might feel they do more harm by killing \_\_\_\_\_.

Yes Brother?

Why did the CIA kill the President? I don't know I don't work for them \_\_\_\_\_ (laughing). No let me say this, ah it goes all the way back to the yale professors that was busted for spying in Moscow, Russia, do you remember and that and KENNEDY was ready to go to war and KRUSCHEV said that little boy don't even know who is running this country, so they let the yale professor go and KENNEDY had strick orders to pick him up in the plane and bring him right to the White House and KENNEDY sit down \_\_\_\_\_ asked him are you with the CIA? Well the professor though he \_\_\_\_\_ he say, yes sir, he said it just bugged KENNEDY so bad because the CIA denied it. KENNEDY was really going to go to war over that deal \_\_\_\_\_ because he really thought that KRUSCHEV was really just picking on a intellectual and when he started getting bugged with this

and \_\_\_\_\_ says well you know I got some traveling I  
got to do I deal with you all when I get back, he said O.K.  
Sure will. He said the interesting thing about America we  
so silly that we dumb enough to believe anytime a cat \_\_\_\_\_  
\_\_\_\_\_ let me tell you something \_\_\_\_\_ our  
security is so tight ain't no \_\_\_\_\_ kill the  
President, but if my \_\_\_\_\_ assassinated  
tonight with no \_\_\_\_\_ believe you \_\_\_\_\_  
the cat didn't like the system, we can never look at these  
\_\_\_\_\_ political years, you know, I can \_\_\_\_\_ why  
they assassinated \_\_\_\_\_. Dr. MARTIN LUTHER KING  
was assassinated \_\_\_\_\_ pulled off by the CIA.  
The best one when you \_\_\_\_\_ that one then you under-  
stand we \_\_\_\_\_ assassinate MARTIN LUTHER KING for  
no reason and to get black folks up in arms \_\_\_\_\_  
\_\_\_\_\_ no body, you know.  
I used to feel safe with the CIA but you making it look  
\_\_\_\_\_ research you find out how many mistakes  
they make, you know \_\_\_\_\_  
he stood up \_\_\_\_\_ world wide press \_\_\_\_\_ he didn't  
do it by himself and then the judge \_\_\_\_\_ down in Tennessee  
so you \_\_\_\_\_ believe that, you know \_\_\_\_\_  
is dead now and the only broad \_\_\_\_\_ in Tennessee that seen

the cat running out of the house say JAMES EARL RAY \_\_\_\_\_  
now they wouldn't even let her come in and testify and when  
you sit and look at JAMES EARL RAY who is from Illinois. You  
aware of that he escaped from the penitentiary in Missouri,  
Missouri State Penitentiary \_\_\_\_\_ after he  
escaped from \_\_\_\_\_ the Missouri State Penitentiary \_\_\_\_\_  
\_\_\_\_\_. For the  
first time in the history of America the FBI said the wrong  
thing \_\_\_\_\_ which \_\_\_\_\_ had  
you caught it \_\_\_\_\_  
\_\_\_\_\_ well he got busted \_\_\_\_\_. London  
England he had a 130,000 in small bills on him \_\_\_\_\_  
\_\_\_\_\_ guns you know  
damn good and well that a cat with a \_\_\_\_\_  
I had to take him to the hospital and operate on him like  
they did \_\_\_\_\_ to take the bullet out because  
the bullet will be \_\_\_\_\_ behind so we did some  
research and we didn't have much time to do it as throughly  
as we did on some of the other but we traced that he bought  
the gun in Birmingham, Alabama, you \_\_\_\_\_ when he bought  
the gun, three doors down from the CIA front shop that train  
the pilots for the \_\_\_\_\_. Its just so blankly  
open with their stuff and you know the warden you was the warden

of the Missouri State Penitentiary, you know who he was, he was the warden that was the head of the Atlanta Federal Penitentiary you remember when \_\_\_\_\_ was swapped for the Russian spy and that was the warden from the Atlanta Penitentiary State that made the swap that carried them over on the bridge and all at once we leave the Atlanta State Penitentiary and become warden of the Missouri State Penitentiary \_\_\_\_\_ JAMES EARL RAY escaped, there is some vicious things go \_\_\_\_\_

Briefly before I leave let me discuss with you the CIA in America and its no problem to do what you can do you know I can't understand that you have to leave the country you know I can't understand that as much \_\_\_\_\_ involved as we was with the Germans, that people in America just don't even know that HITLER's mother's mother \_\_\_\_\_ Grandmother was a Jew and it looked like this was common knowledge all over the world and just, get back to America and \_\_\_\_\_ simple things. Everybody seems to know about, you know, that HITLER lost the war because of Egypt \_\_\_\_\_ you youngsters \_\_\_\_\_ are young, but if you do any checking you will find out that he had plenty of B-1 rockets, B-2 rockets he had tanks, but he didn't have no war thats because the

Egyptians cut his arm off when he really found out he was going to come \_\_\_\_\_ racists bag \_\_\_\_\_ cleaver they found out he was talking about fighting somebody other than white folks, \_\_\_\_\_. Wait a minute boy, here is the history of the CIA in America. After World War II we didn't have a CIA, we had what we called the OSS, created by the late ALLAN DALLAS. We decided that we needed an intelligence unit as hip as the Germans, I don't know how the Germans could lose the war and we thought they had \_\_\_\_\_ something, so we went back and we made a deal with all the Nazi's that headed up the German Intelligence Unit that if they would come to America set us up internal security unit like they has, we will leave them free from prosecution, they came to America they set it up, its called the CIA, it was run in the beginning by them Nazi's and nobody know who it is it is run today by the Nazi's and nobody know who it is and anytime you bring some of them HITLER trained Nazi's into your Country and let them set up a secret organization and have total run of it, man we lucky we all aren't dead.

Yes brother?

How do I get all the information if its such top secret? Well hell information is the easiest thing in the world

\_\_\_\_\_ if you apply yourself, you know, \_\_\_\_\_  
man set down and figured out how to bring nuclear things in  
here and light up that field and I am sure finding out how the  
CIA got involved with the Nazi's is the simplest thing to do  
with the cats that figure they Army that ain't no big thing,  
I mean all you do is just apply yourself and spend some time.  
Let me give you a better example, in Chicago any of you from  
Chicago? Are you familiar with SHERMAN \_\_\_\_\_  
the Judiciary Department there. A friend of mine about five  
years ago, \_\_\_\_\_ talking about how corrupt the courts  
were so we \_\_\_\_\_ if he spend time and do your  
homework, you know he just kept coming by crime, he used to  
go down with his petition and they would lock him in the  
elevator and take his crutches and beat him and tear up his  
wheel chair. SHERMAN \_\_\_\_\_ home work and if you  
go to Chicago now, SHERMAN \_\_\_\_\_ is probably the Number  
one citizen in Chicago, here is what he did? He took his  
wheel chair, kept doing his research and he went down and he  
started looking up the stock bills and see all these bills got  
to be registered and he found out out of the seven supreme  
court justices State Supreme Court Justices of Illinois, six  
of them owned banks, then when he looked up he found out that

AT&T has a minimum of 50 million dollars deposits and all six of them banks so you automatically know now when AT&T is getting ready to ask for a telephone increase in Illinois, you can't take it to court and win because they got the \_\_\_\_\_ of AT&T taken out of the 50 million dollars off their back. He also found out that the Burlington Railroad \_\_\_\_\_ and went up to the State Supreme court beal Illinois, the State of Illinois, out of paying 500 million dollars taxws over their property in 40 counties the supreme court ruled they didn't have to pay taxes on it after he checked it out, he found out that the Burlington Railroad didn't only deal with the supreme court justice, the head man of Illinois but a week before that case was to be heard this justice ended up getting the insurance company that insured all the Burlington Railroad workers so its right there if you take the time and this is what I said earlier tonight. I said if you would take the time to write down every college in America and check out the board of directors in America you would find out the daily cause of 90 per cent of the problems from \_\_\_\_\_ if you willing to spend a few minutes to do your homework and investigated \_\_\_\_\_ this system couldn't stand up under their own investigation at all.

Yes brother?

If I stated the CIA is taking over the country in the background why am I for gun control? Because I just think you know that irregardless of the CIA taking over the country that is really no big threat to me \_\_\_\_\_ once they take it over they going to lose it in about five years, but if they took over the country right now the white, poor white man and the poor black man would be better off because least he would be getting fed they ain't going to do nothing but close the colleges down and \_\_\_\_\_ and all them going to have to lose their \_\_\_\_\_ and they going to re-distribute the wealth around the country and then once we got to go underground baby and them slick cats from Wall Street \_\_\_\_\_ son got to go underground with us but all that brain power \_\_\_\_\_ CIA won't be able to hold it long because there are some dumb cats in the CIA I mean they got to take a dumb cat thats graduated from college and decide he want to be a spy in 1969 thats like wanting to fraduate and be the lone ranger's son or somebody else. (clapping). But you know ah I am for gun control because you know the guns you got now you ain't killing the CIA with them and I just believe you know that we need a constitution interpretation

of the guns, all men have a right to bear arms in America, but when that was inked there wasn't no such thing as automatic hand guns and I think if that constitution say you got a right to defend your proerty you got a right to have a gun in your house thats a shotgun and I think you can defend your house better with a shotgun than you can with an automatic. I think if we want to have country where men have a right to have guns which I say is a right then lets make it a shotgun so you can't stick it in your pocket and walk across town and kill some innocent person, see you no threat to me if you walk around town with a shot gun and if I come through a green light and you come through a red light and hit my car and I see that shotgun, I'm going to say I'm sorry Mr. White Brother, I'm sorry I came through that light there, I thought it was green, but I guess it was red and I'm sorry. You see you no threat to me but some kind of way you know we got to do something because any body that wants to get hold to a gun can get hold of one and so I think you know that we can tighten it up to the extent you see, are you aware that 97 percent of everybody that gets killed or shot in America do not get shot by strangers only three per cent of the people in America in the course of a year that get shot or killed are killed by strangers, 97 percent of everybody that gets killed

in a homicide it happened by someone he knew, or someone  
or his family thats the disgrace \_\_\_\_\_ you know we  
sit around and we play with them unloaded guns, we leave them  
around the house, a kid pickes them up and its a different  
ball game \_\_\_\_\_ cat sticking a pistol in his pocket going  
across town sticking up grocery store then it is coming out with  
that double barrel shotgun. I think that you know I would love  
to see a case go up to the United States Supreme Court and  
get a ruling and see if that in interpreted as a shotgun in  
the house because you can damn sure protect your home better  
with a rifle or shot gun and then its really no threat to me.

Thank you. We going to run \_\_\_\_\_  
say to you thank you again. God Bless you, nature have fun.

The November 25, 1969 edition of the "Star Gazette" newspaper, a daily publication in Elmira, New York, reported that "Dick Gregory, the controversial Civil Rights activist" would speak at Elmira College, Elmira, New York on December 2, 1969. His appearance would not be open to the public.

On November 26, 1969, a source who has furnished reliable information in the past, advised that GREGORY had been invited by the student body government for no particular reason other than that the student body felt they were tired of the "run of the mill" speaker and desired someone "controversial."

GREGORY's appearance before the Elmira College student body and a prior press conference were reported in the Elmira "Star Gazette," the only daily newspaper at Elmira, New York, in its edition of December 3, 1969, as follows:

# Not Generation Gap; It's Moral Gap--Gregory

By KEN DARLING

Maybe Dick Gregory isn't reaching the majority of people in this country.

But, if his appearance at Elmira College Tuesday night was any indication, he's reaching the young people. And any hope this nation may have of surviving as a democracy, he believes, is firmly in their hands.

"You must solve the problems of this nation, problems you didn't create," he said. "It will be a tremendous job. But you have a great weapon on your side . . . moral, honest, ethical dedication."

The crowd of nearly 1,500, mostly Elmira College students, responded enthusiastically to Gregory as he encouraged their generation's activities, and used his humor and oratorical ability to chastise the Nixon administration, the military-industrial complex and other

symbols of the "establishment."

He received three standing ovations—one when he entered the Campus Center dining hall where the speech was held, one during his talk and one when he finished. And his speech was interrupted many times by applause and shouts of approval.

Gregory, a comedian, author, lecturer and actor, also was a Presidential candidate in the 1968 election on the Peace and Freedom party ticket with writer Norman Mailer.

Gregory said "There's no generation gap, there's a moral gap . . . you young folks have the all-important job of giving America its sanity back. Don't eulogize America—you eulogize dead things—but examine America."

Gregory told the students "Don't destroy capitalism.

Work to put the capitalist Constitution, not in front of it. where he should be, behind the "The emphasis should be on

DICK GREGORY

human rights, not property rights."

Gregory devoted part of his talk to racial problems, saying "we blacks don't hate you white folks. But we do hate your sinking, white racist system."

He said, "I recognize an individual's right to be a racist—what I am opposed to is institutionalized racism."

Since he believes that business interests are a major reason for the continuance of the Vietnam war, Gregory had this suggestion for ending the war: "Boycott Christmas. Tell your friends and relatives that since there's a war going on you don't want to celebrate Christmas and you're not buying any presents."

He believes a total boycott of Christmas shopping would force the business world to pressure

Washington for a quick end to the war. "Maybe this year you wouldn't get any presents," he said. "But you'd be helping a lot of other people get presents next year . . . a mother would have her son home again from Vietnam . . . a kid would have his father back."

Gregory said that older people—"we old fools"—have always underestimated youth. "Nixon said the demonstrations would have no affect on him—but you kids forced him to go on television and talk about a Vietnam policy he doesn't even have."

He added, "If Nixon thinks young people aren't effective, he should place a call to LBJ in Texas and ask that boy. You dealt with LBJ—and if you can deal with him, you can deal with anybody. LBJ was slicker at 8 than Nixon will be if he lives to be 10,000."

# U.S. Interest in Money Blamed for Not Ending War

"Everything has increased in value in this country but a dead soldier," Dick Gregory charged at a press conference before his speech at Elmira College Tuesday night.

Contending that this country's interest in money is a major obstacle in ending the war, the noted civil rights and anti-war leader suggested:

"If this nation said it would give \$30,000 to the family of every U. S. soldier killed in Vietnam, and if the kids of that soldier became wards of the government for life, suddenly you'd see a lot of influential people turn against the war."

Gregory was in Paris last weekend, talking with representatives of the National Liberation Front about the release of U.S. war prisoners for Christmas. He asked the NLF to pass along his request to the Hanoi delegation, which was not in Paris during the weekend.

He said "the NLF contends that the men being held by

North Vietnam are not war prisoners... war has not been declared on their country, so how can they have prisoners of war?"

He said that he has no idea if his efforts to free some prisoners for Christmas will be successful.

Gregory said that two years ago, the North Vietnamese and the Viet Cong were more concerned about black U.S. soldiers, because of what they'd heard about the suppression of blacks in America.

"Now, because of the anti-war activities of the young whites, the North Vietnamese believe that all soldiers — both blacks and whites — are merely puppets of the government."

Regarding the investigation of the My Lai massacre, Gregory said the NLF representatives think it's unfair that a few officers "are being used as scapegoats. They contend that since these massacres happen frequently, they must

be sanctioned by higher authorities than the officers in the field."

On President Nixon's Vietnam policy, Gregory commented "I feel he really had a program on Vietnam when he took office, but he's discovered how this country is really run."

Like the past presidents, he's become a slave to the military-industrial complex."

Gregory believes that minority groups were "better off under Johnson, but I'd rather have Nixon in office. Now more issues are coming out. There was no dialogue under LBJ... the blacks felt he was going to solve everything for them."

Gregory has mixed feelings about the American press. "Sometimes they make honest mistakes, sometimes they're just part of the establishment," he said. But he added that "the free press has done more to solve problems than to create them."

However, he noted that "when the press calls you a responsible black leader, that means you're no good for the black community."

Expressing his hope that the young people will work to solve the nation's problems, Gregory said "because of the activities of the white kids, the young

blacks are finding that black and white are not colors, but attitudes."

He also noted: "We blacks were campaigning for civil rights. Today, the young white kids are seeking human rights. We wanted the right to work in the napalm factory, along with the whites. The white kids want to close the napalm factory."

Gregory said a major role of young people is to alert the rest of the world about what's happening in this country. "If the young Germans had resisted Hitler, other countries would have been warned and could have prepared for him. If you do nothing more than get clubbed and tear-gassed in the streets, you'll alert the world that another monster is on the loose."

He added, "I hope you young people understand the job you have to do. Don't make the mistake we old fools made — when we were in college, we were too busy learning how to make a living and forgot to learn how to live."

Gregory's noted humor was evident throughout his speech. A couple of samples:

On riots: "When people ask me why there weren't more riots by black people last summer, I tell them all the black militants were in Ireland serving as technical advisers."

On Spiro Agnew: "He's got to be putting us on. If he's as dumb as he appears, he couldn't chew gum and walk at the same time."

Investigator [ ] Elmira, New York Police Department, was present at the speech given at Elmira College by GREGORY, and he noted that although the newspaper account of his speech indicated there were almost 1500 persons present, his estimate of the crowd was from 500 to 700 people.

b6  
b7C

Investigator [ ] advised that for the most part, he found the response to GREGORY's speech rather cold although he did receive an ovation on entering the building; another ovation when he made a remark that college administrators across the country were more interested in building funds than in educating students; and he received a few ovations whenever he made remarks about Vietnam. Investigator [ ] advised that the above newspaper accounts are very good summaries of GREGORY's speech.

# Comedian Aims Bitter Humor At America in Address at TCU

By LYNN GARLAND

America as seen through the eyes of Dick Gregory isn't beautiful.

In an emotion-charged speech laced with bitter humor, black comedian and social activist Gregory presented an indictment of America's social and economic ills to more than 1,000 students at TCU's Ed Landreth auditorium.

Criticizing President Nixon's speech on Vietnam, Gregory charged, "He aimed that speech at all Americans too old to go to Vietnam and get their brains blown out."

Patriots of the past, Gregory continued, were for the oppressed. Today, he contended, they support the oppressors.

He recommended that persons supporting the President's policies on Vietnam should enlist in the armed forces rather than show support by turning on car lights. (During Moratorium activities, some Nixon supporters expressed their views by turning on their headlights.)

"Turning on your car lights ain't going to do nothing but sell batteries," he said.

GREGORY PRAISED today's young people as the most "moral, ethical, com-

mitted group who have ever lived in this country."

He said today's youngsters would have to solve problems inherited from their parents.

"Times are changing and your mommy and daddy don't seem to see it," he said.

"You youngsters have the responsibility to give this country its sanity back," he added. "Thanks to you young people, this country is not dead yet."

Blacks in America do not hate whites, Gregory continued. But they do hate "white racist institutions."

"You are responsible to this white racist system and we hold you responsible," he said.

WHILE MAINTAINING he did not advocate overthrow of the capitalistic system, Gregory told the students to work "to get the capitalists into their rightful place, which is behind the Constitution instead of in front of it."

He urged the young people to seek an end to the Vietnam conflict by boycotting Christmas. Boycotted merchants, he contended, would then put pressure on the government to bring the war to a close.

Gregory's talk ranged over a wide range of topics. On

black studies programs in American schools, he said:

"A man without knowledge of himself is like a tree with no roots."

On the Democratic convention in Chicago:

"For years white folks have been going to Fort Lauderdale and tearing up the whole town. Nobody called up the Army."

ON AMERICAN history:

"You landed at Plymouth, Rock and discovered a country that was already occupied."

On looters:

"With pride you tell me you got on this stranger's ship and dumped all that tea in the water."

RICHARD CLAXTON GREGORY

RICHARD CLAXTON GREGORY

Richard Claxton Gregory, more commonly known as Dick Gregory, appeared at speaking engagements at San Jose State College, San Jose, California, on November 25-26, 1969 and December 10-11, 1969, and at Chabot College, Hayward, California, December 9, 1969.

The "Spartan Daily", a newspaper published daily by the students at San Jose State College (SJSC) in its issue of November 7, 1969 published an article entitled "Ex C Offers a Chance to Teach, Learn, Exchange Ideas." An editor's note set forth that it was exploring the Associated Students Experimental College and its program. The article was by staff writer Craig Turner.

The article set forth in part that the Scholar-In-Residence Program is worked through the Experimental College. The funds are provided by the College Union Program Board which also selects the scholar. According to the article this year's Scholar-In-Residence is Dick Gregory, "militant former comedian."

A source on December 22, 1969, advised that Dick Gregory as Scholar-In-Residence at SJSC appeared on the campus on November 25-26, 1969 and again on December 10-11, 1969 and receives a stipend of either \$7,000 or \$7,500 for the year.

Source advised that "Scholar-In-Residence" is a misnomer in that Gregory is not a resident and has no intention of changing his present residence.

ENCLOSURE

RICHARD CLAXTON GREGORY

Source further advised that Gregory plans to return to SJSC in the spring of 1970 with possibly two additional appearances.

The "Spartan Daily" issue of November 14, 1969 announced "Black Experience Week Begins 10-Day Course." The article went on to state that the San Jose Black Studies Department would open its doors to students, faculty, and the public in recognition of "Black Experience Week." The article went on to state that Scholar-In-Residence Dick Gregory would be on the campus November 24-25, 1969 to conclude the event.

The "Spartan Daily" for November 25, 1969 published an article entitled "Dick Gregory - Niggers No More" by Terry Pennel, daily staff writer. The article disclosed that on the previous day Gregory had visited various classrooms and had held question and answer session between the reels and showing of "Battle of Algiers" based on the revolutionary struggles of Algiers for independence from the French. The article stated that Gregory described the black revolution in America today as a similar phenomenon.

The article stated that earlier in the day Gregory attended classes and told students "There is only one way blacks can react after reading white history. All we've ever heard about is what hoodlums we are...We've got to let America know that we are not 'niggers' any more."

The "Daily Review," a newspaper published in Hayward, California, in its issue of December 10, 1969 published an article on Dick Gregory's appearance at Chabot College Student Center in Hayward, California, on December 9, 1969. His talk was sponsored by the College's Office of Community Services and an admission of \$1 was charged.

The paper reported that Gregory in his talk to nearly 1,000 laced together a stirring set of charges against what he termed "racist and degenerate establishment."

RICHARD CLAXTON GREGORY

Gregory told that America has always needed a nigger but he hasn't always been black and the time is coming when someone white will be the "nigger" or scapegoat. Part of his talk was devoted to the recent "police raid" on the Black Panther Party (BPP) headquarters in Chicago. He described the police tactics as "Hitler-like."

Gregory charged that colleges have been indoctrinating for so long that they have forgotten to educate. He claimed that the Vietnam Moratorium helped to tell the world that there is still morality and sanity in America. He was quoted as saying "You start feeding black people and you is just liable to feed 'em too much - enough to free them." This reference was to the BPP Breakfast Program.

The crowd attending the talk is described as twice being on their feet in response to what Gregory had to say.

A characterization of the BPP is contained in the appendix.

The "Spartan Daily" in December 9, 1969, announced that Gregory would visit the San Jose State Campus for the second time on December 10, 1969 and address the College Community in the College Union.

The "Spartan Daily" on December 11, 1969, reported that on the previous day Gregory is reported to have said that the students have become "new niggers in America."

Gregory made reference to the shooting in early December, 1969 of Black Panther Fred Hampton who was killed in Chicago, Illinois, during a police raid. Gregory said, "I don't believe in killing. I sent a \$1,500 check to Panthers Headquarters to buy food. I hope they don't go out and get guns and ammunition with it."

The "San Jose 'Mercury", a daily newspaper published in San Jose, California, in its issue of December 12, 1969 reported Gregory this date visited the campus at SJSC. According to the newspaper Gregory's theme was "You kids have got all the problems and none of the tricks." He also complained of the unequal treatment of the BPP as compared with the Minutemen and the Ku Klux Klan in contemplating recent events involving fight for rights of minority people. He attributed the difference to the fact that the Panthers are trying to change the system. He claimed it was not the guns that scare the power structure, it is "feeding the poor country folks that gets them angry."

BLACK PANTHER PARTY, aka  
Black Panther Party for  
Self Defense

According to its official newspaper, the Black Panther Party (BPP) was started during December, 1966, in Oakland, California, to organize black people so they can take control of the life, politics, and the destiny of the black community. It was organized by Bobby George Seale, BPP Chairman, and Huey P. Newton, BPP Minister of Defense. Newton is presently serving a sentence of 2 to 15 years on a conviction of manslaughter in connection with the killing of an Oakland police officer.

The official newspaper, "The Black Panther," which further describes itself as the "Black Community News Service," states that the BPP advocates the use of guns and guerrilla tactics in its revolutionary program to end oppression of the black people. Residents of the black community are urged to arm themselves against the police who are consistently referred to in the publication as "pigs" who should be killed.

"The Black Panther" issue of September 7, 1968, contains an editorial by BPP Minister of Education, George Mason Murray, which ends with the following:

"Black men. Black people, colored persons of America, revolt everywhere! Arm yourselves. The only culture worth keeping is a revolutionary culture. Change. Freedom everywhere. Dynamite! Black Power. Use the gun. Kill the pigs everywhere."

Included in the introduction to an article appearing in the October 5, 1968, edition of "The Black Panther" is the statement, "...we will not dissent from American Government. We will overthrow it."

Issues of "The Black Panther" regularly contain quotations from the writings of Chairman MAO Tse-tung of the People's Republic of China and feature MAO's statement that "political power grows out of the barrel of a gun."

The national headquarters of the BPP is located at 3106 Shattuck Avenue, Berkeley, California. Branches have been established at various locations throughout the United States.

Dick Gregory

On January 9, 1970, at 8:00 PM, GREGORY delivered a speech at the Adirondack Community College Gymnasium, Queensbury, New York, before approximately 1,300 people, namely college students and young adults.

Among the highlights of his presentation, which lasted for approximately two hours, before a question and answer session followed, were the following:

GREGORY had some observations on President Nixon's Vietnam speech before the Christmas holidays asserting that "he aimed at all the old folks in America, who are too old to go to Vietnam".

GREGORY admonished the "patriots in America" only concern themselves with Indian reservations. He warned of right-wing Government for too long a period saying that "when NIXON gets through with you, baby, he is going to make that silent majority the most vocal group in America".

He decried the slayings of the JOSEPH YABLONSKI family and remarked that in the trial of BOBBY SEALE in Chicago, Illinois, that the shackling and gagging of SEALE, if it had happened in Russia, would have caused people to shrug their shoulders and say "that is Communism for you".

He told of the danger in a conservative press. Declaring about the Chicago Democratic Convention, "they tried to tell you that you didn't see it on TV, they said the press created it."

RE: RICHARD CLAXTON GREGORY

He was in part agreement with Vice President AGNEW, of the way he scared the press. He praised the moratorium demonstration on the Vietnam war in November, and observed that network coverage was given to it.

He did not advocate destroying the capitalist system but said that those present should work to put capitalist where they belong; behind the United States Constitution; not in front of it.

Focusing on civil rights and speaking as a black, GREGORY said "we do not hate white folk, we hate the stinking white racism system . . . who are responsible for this vicious white racism system, and we gonna hold you to it."

He said that "non-violence is my hang-up. I would find more joy tonight in being killed by a man than killing that man myself".

Handling floor questions after his monologue, GREGORY maintained that the Central Intelligence Agency killed MARTIN LUTHER KING, JOHN and ROBERT KENNEDY and MALCOLM X, assisted by the Federal Bureau of Investigation. In citing reasons for arriving at this conclusion, he adverted that KING could not have been shot as the Federal Bureau of Investigation said. He said that JAMES EARL RAY had \$400,000.00 on him when he arrived in England. The Federal Bureau of Investigation for the first time in history sent out the wrong fingerprints on RAY's escape.

When asked about ELDRIDGE CLEAVERS claim that the only way to reach law makers was for the Black Panthers to shot their way into the Senate, GREGORY replied "I do not agree with violence in anyway, shape or fashion". He also said "America to me is worth dying for, but I've never seen anything worth killing for".

Richard Claxton Gregory

The January 22, 1970, issue of the "Minnesota Daily," the student newspaper of the University of Minnesota, Minneapolis, indicated that Gregory spoke during the evening of January 21, 1970, at Augsburg College, Minneapolis.

Gregory told the audience of nearly 1,000 that the Number One problem in this country today is moral pollution and America is the most morally polluted country on the face of the earth. He said America's young people are the most marvelous, honest, dedicated people in the history of this country and urged the youthful crowd to examine America, find out where the cancer is, and then cut it out.

He reflected that the Democratic Convention in Chicago was the best thing that ever happened to the young folks because it pointed out how sick and degenerate this racist society is. Gregory told the audience that America's biggest problem is not capitalism, but capitalists. Gregory commented he didn't advocate destroying the capitalist system but restoring it to its rightful place, which is not ahead of, but rather behind, the United States Constitution.

Gregory urged the crowd to address their grievances to the capitalist system. He advised college students to learn to live and not make the mistake his generation did, which was being so busy, when going to college, trying to learn to make a living that they forgot how to live.

The article indicated Gregory was to leave for Denmark, where he would rejoin John Lennon in a two-to-three-week fast to call attention to the problems of the world's hungry people.

A source, who has furnished reliable information in the past, advised that Gregory's speech at Augsburg College was sponsored by the Black Student Union of Augsburg College. The source estimated Gregory received \$1,000, including expenses, for his speech.

RICHARD CLAXTON GREGORY

A reliable confidential source advised that on Sunday, February 1, 1970, Dick Gregory spoke at Brown Memorial Chapel, Centenary College. He arrived about 30 minutes late and the program began at 8:30 PM. Some young student who is on the Forum Committee introduced him and he started off his talk with a number of jokes and then talked for two hours. He then declared a five minute rest period so "people could leave without being called racists." Several people did leave at this time. After the break there was a fairly good discussion with several students challenging remarks made by him.

During the talk Gregory made only two remarks of a possible threatening nature. One was that 10 years ago Henry Ford did not give a damn about him and does not today except that Ford pays attention to him because he knows that if he, Gregory, gets displeased that "Gregory will burn his plant down." The other statement was something to the effect that if he was in Vietnam and got killed and was buried by the Viet Cong that he would be buried in the same trench with a white person. But, if he got killed and his body shipped back to the United States he could not be buried alongside a white man and "this makes me wonder whether I am shooting at the right people."

He criticized President Nixon severely saying that L.B.J. was smarter when he was eight years old than Nixon would be if he lived ten thousand years. He said that Nixon was dumb and he wishes that we had 50 Nixons because more progress in desegregation had been made under Nixon than any other President.

RICHARD CLAXTON GREGORY

He was quite humorous in his presentation and in talking about Vice-President Agnew he said "Agnew was the kind of guy who would make a crank call on the hot line to Moscow."

He said that some objection is made to the Negro because of his "criminal tendencies" but he said that in Washington where they claim the crime rate is high because of Negroes that more stealing goes on on Capitol Hill than by the Negroes in Washington, D.C. He said that they claim the Negroes need education but that if education were the test the "Jews would own America."

His favorite line that he put in every five minutes was "no more tricks." He said that America was the worst nation on the face of the globe. He also said that white people seemed to be frightened of the Negro because of his possible involvement with white women but the Negro had been "programmed from youth" by seeing the ads by which the white woman was portrayed along with the new model cars, Pepsi-Cola, etcetera, and this made the Negro think the white woman was the ultimate attainment. He was rather coarse in several parts of his talk. He said he spent 90 per cent of his time on college campuses and that young people are having to straighten out problems that they did not create.

At the close of his talk he suggested that everybody buy his album which he said contained most of his talk.

Much of the talk was mere ramblings of a disjointed nature along with his jokes. He offered nothing of a constructive nature.

RICHARD CLAXTON GREGORY

Those in attendance were students, faculty, and school officials. Arrangements for the talk was by the Forums Committee of the Student Senate of Centenary College. There were approximately 500 in attendance.

Members of the press were not present during the talk, however, he was interviewed by the press prior to the talk.

Arrangements were also tentatively made by the Western Michigan University SA for Gregory to meet with local Kalamazoo Negro leaders after his speech.

Source number two, who has furnished reliable information in the past, advised on February 4, 1970, that Gregory appeared as scheduled at the Western Michigan University Auditorium at approximately 8:00 p.m., February 3, 1970, where he spoke before a capacity crowd of approximately 4,000 persons. The source characterized Gregory's speech as generally non-violent and noted that included among his topics were President Nixon, Vice President Agnew, the Negro problem, the poor white problem, and the Black Panther Party, (BPP).

A characterization of the BPP is contained in the appendix attached hereto.

The same source informed that in his remarks, Gregory referred to President Nixon as one of the "most stupid people in government" and defined Vice President Agnew as being "more stupid than the President". According to the source, no incidents occurred at Gregory's speech.

Source number one advised on February 4, 1970, that Gregory did not meet with the Martin Luther King students at Western Michigan University, nor did he attend the tentatively arranged meeting with the Kalamazoo Negro community leaders. Instead, Gregory spent much of his time in Kalamazoo at the University Field House where he engaged in athletic endeavors.

BLACK PANTHER PARTY (BPP)

According to its official newspaper, the Black Panther Party (BPP) was started during December, 1966, in Oakland, California, to organize black people so they can take control of the life, politics, and the destiny of the black community. It was organized by BOBBY GEORGE SEALE, BPP Chairman, and HUEY P. NEWTON, BPP Minister of Defense. NEWTON is presently serving a sentence of 2 to 15 years on a conviction of manslaughter in connection with the killing of an Oakland Police Officer.

The official newspaper, "The Black Panther", which further describes itself as the "Black Community News Service", states that the BPP advocates the use of guns and guerrilla tactics in its revolutionary program to end oppression of the black people. Residents of the black community are urged to arm themselves against the police who are consistently referred to in the publication as "pigs" who should be killed.

"The Black Panther" issue of September 7, 1968, contains an editorial by BPP Minister of Education GEORGE MASON MURRAY, which ends with the following:

"Black men. Black people, colored persons of America, revolt everywhere! Arm yourselves. The only culture worth keeping is a revolutionary culture. Change. Freedom everywhere. Dynamite! Black Power, Use the gun. Kill the pigs everywhere."

Included in the introduction to an article appearing in the October 5, 1968, edition of "The Black Panther" is the statement, "...we will not dissent from American Government. We will overthrow it."

Issues of "The Black Panther" regularly contain quotations from the writings of Chairman MAO Tse-Tung of the People's Republic of China and feature MAO's statement that "political power grows out of the barrel of a gun."

DICK CLAXTON GREGORY

On February 17, 1970; a source advised that Gregory spoke the night of February 16, 1970, to a standing-room only crowd of more than 2,000 persons in the Main Union Lounge, University of Iowa, Iowa City, Iowa. His topic was "Social Problems - Social or Anti-Social?", in a program sponsored by University Lecture Series.

Source said Gregory's speech touched off a week-long program at the University known as "Black Experience Week," with all events free and open to the public, although tickets for Gregory's talk were fifty cents.

In the course of his speech, Gregory said he sympathized with what he called the tasks the nation's youth have before them, and joked about what he called the ineptness of the current administration - and reminded his audience that he thought blacks hold whites responsible for society's ills.

Gregory said he felt sorry for today's youth. He likened their parents investments in them to a check that would bounce in 30 or 40 years. He pointed to the problems of southern school integration and whites protest against it, saying, "Who are the Southerners hurting by keeping their kids out of school?" He said he felt sorry for the kids and not their parents. From this remark, Gregory moved into an attack on President Nixon remarking, "Dick Nixon shows up the state of this nation better than anything." He said he would rather have Nixon in the White House than Hubert Humphrey, Lyndon Johnson, or any of the Kennedys. "Black folks have no trouble with a dumb white man - and Nixon is without doubt the dumbest."

Source advised that David Eisenhower, Nixon's son-in-law, likewise was the butt of some of Gregory's humor, referring to Eisenhower as "Not as simple as I thought, up there joining them Naval Reserves."

Source advised further that Gregory discussed the strength American youth would have if they tried to end the war by an economic boycott, remarking, "If nothin' else works, next Thanksgiving threaten to boycott Christmas - you'll be surprised what happens, and if they ask what to tell your kids about Santa, tell them he's over in Vietnam droppin' napalm on babies." He went on to say that Patriots used to be on the side of the oppressed and that now they are on the side of the oppressor. He called American flag stickers sported on car windows as "a mark of bigotry, racism and stupidity." With this remark he was greeted with cries of "Right on!" from the audience, which source said is a cry used by Black Panther members.

Gregory warned about what he said would be the situation at the end of Nixon's administration. He said the silent majority is going to be the most vocal group ever heard, remarking, "You voted that trick into office, now you live with it."

Gregory emphasized the importance of the "Chicago Seven" trial as an example of what he said was the state of America. He said Black Panther Bobby Seale was indicted on conspiracy charges with seven other persons, five of whom Gregory said Seale didn't know. He said the real issue of that trial was the right of a defendant to defend himself. He remarked that in Los Angeles they let "that Manson boy" (accused of murdering Sharon Tate and others) defend himself, but because Seale was black he had to take a lawyer assigned to him.

In closing his talk, Gregory remarked that the blacks do not hate whites, they hate the white system and hold all whites responsible for it. He remarked that, "What the black wants is what Aretha Franklin asks for in her song. Just a little respect and dignity."

Source noted further that in connection with the week-long program referred to as "Black Experience Week" at University of Iowa, a program of poetry, dancing, clothing fashions, music and discussion has been scheduled, which will include four plays performed by students from Central State University in Wilberforce, Ohio.

The theme "Black Racism - White Racism" will be discussed over an open microphone on one of the days known as "Soundoff Soapbox". Poetry readings will be given by Val Gray and Sonja Sanchez, two nationally known black poets.

On one of the nights during the week, Bill Cosby's television film called, "Black History: Lost, Strayed or Stolen", will be followed by discussion among the viewers. A session of "Black Expression" is scheduled. Gospel singers, a guitarist playing blues and soul music, and poetry readings by University students, are on the program. The University's Black Dance Troupe will perform, which includes a selection of modern and African dances and an intermission ceremony dedicating the event to the memory of Malcolm X. Seventeen black students will be the dancers. There is to be a black fashion show made up of fourteen black students and paintings and sculpture by black University students will be shown.

Source said the above week-long program other than Gregory's speech, is sponsored by the Black Culture Area of the University Union Board.

Source advised there was no disorder of any sort in connection with Gregory's appearance. He arrived in Cedar Rapids, Iowa, by air from Chicago, Illinois, and returned to Chicago by air.

~~XXXXXXXXXX~~

On January 29, 1969, the "Bridgeport Telegram", a daily newspaper published at Bridgeport, Connecticut, contained in part the following:

"On January 28 (1969) the Black Panther Party was formed in Bridgeport, JOSE RENE GONZALVEZ announced last night at a meeting at party headquarters, 510 East Main Street. Mr. GONZALVEZ, a Cuban-born Oakland-trained black defense captain, spoke to twenty Negro youths in his mission here to organize a chapter of the political party..."

On March 18, 1969, the following Black Panther literature, published locally was distributed in the Bridgeport, Connecticut, area. It read in part as follows:

"The BPP is a party that will produce for the people and its members will do anything and everything possible to meet the demands of the poor oppressed black people. We are not a hoodlum gang, nor did we come here to kill white people or the police. We came here to stop racist actions that the oppressors (black and white) have been taking upon our people. We are the vanguard party and we intend to provide leadership for the people and revolutionary groups across the country..."

BLACK PANTHER PARTY, aka  
Black Panther Party for Self-Defense - Connecticut

On May 19, 1969, BOBBY GEORGE SEALE, National Black Panther Party chairman, spoke at Battell Chapel, Elm and College Streets, Yale University, New Haven, Connecticut. SEALE spoke in part as follows:

"...The struggle we are involved in is not a racial struggle, but a class struggle. We have to define the revolution that's occurring in this country as a people struggle... We've got to teach these kids to use guns so that when the racist pig comes down into our community and brutalizes our people, we are gonna kill... If we catch a pig brutalizing our people in the black community, we are gonna kill him - we are gonna stop him."

On 4/20/69, a second source advised that the Communist Party of Connecticut, held a State Convention at the Peoples Center, 37 Howe Street, New Haven, Connecticut, on that date. During this convention, it was announced that there was going to be a memorial service in New Haven on that date for three Black Panthers who were slain a year ago; and all members of the Communist Party were invited to attend this memorial.

The Black Panther Party presently has chapters in Bridgeport, New Haven, Hartford, and Middletown, Connecticut. Their leadership is presently confused since eight members of the Black Panther Party were arrested by the New Haven Police Department for the murder of ALEX RACKLEY, alleged Black Panther Party member from New York City, whose body was found in Middlefield, Connecticut, on May 21, 1969.

THE NATIONAL ORGANIZATION OF THE BLACK PANTHER PARTY  
IS CHARACTERIZED SEPARATELY.

4

APPENDIXBLACK PANTHER PARTY, aka  
Black Panther Party for Self-Defense

According to its official newspaper, the Black Panther Party (BPP) was started during December, 1966, in Oakland, California, to organize black people so they can take control of the life, politics and the destiny of the black community. It was organized by BOBBY GEORGE SEALE, BPP Chairman, and HUEY P. NEWTON, BPP Minister of Defense. NEWTON is presently serving a sentence of two to fifteen years on a conviction of manslaughter in connection with the killing of an Oakland police officer.

The official newspaper, "The Black Panther," which further describes itself as the "Black Community News Service," stated that the BPP advocates the use of guns and guerrilla tactics in its revolutionary program to end oppression of the black people. Residents of the black community are urged to arm themselves against the police who are consistently referred to in the publication as "pigs" who should be killed.

"The Black Panther" issue of September 7, 1968, contains an editorial by BPP Minister of Education, GEORGE MASON MURRAY which ends with the following:

"Black Men. Black people, colored persons of America, revolt everywhere! Arm yourselves. The only culture worthkeeping is revolutionary culture. Change. Freedom everywhere. Dynamite! Black Power. Use the gun. Kill the pigs everywhere!"

Included in the introduction to an article appearing in the October 5, 1968, edition of "The Black Panther" is the statement, "...We will not dissent from American Government. We will overthrow it."

Issues of the "Black Panther" regularly contain quotations from the writings of Chairman MAO Tse-tung of the People's Republic of China and feature MAO's statement that "political power grows out of the barrel of a gun."

The national headquarters of the BPP is located at 3106 Shattuck Avenue, Berkeley, California. Branches have been established at various locations throughout the United States.

RACIAL MATTERS

Source utilized in this memorandum has furnished reliable information in the past.

Dick Gregory, identified as a noted civil rights worker and comedian, appeared at Southern Oregon College, Ashland, Oregon, gymnasium on February 23, 1970, at 8 p.m. Speaking to a crowd of approximately 1,600 people, he spoke primarily to today's youth. The address combined equal parts of comedy and comment and the result was a muddled gray confusion for many of the people present at the lecture. His material ranged from remarks about the difficulty he experienced getting to Ashland, Oregon, to comments on the stupidity of President Nixon and Vice-President Agnew. The majority of Gregory's humor was achieved by attacking the intelligence of others. The "gospel according to Gregory" describes Nixon, Agnew, the Supreme Court, police, American history, teachers, patriots and anybody left over as hopeless morons.

Comments made by Gregory included the statement that "Panthers aren't being killed because they're black, or because they're for self-defense. Panthers are killed because they're trying to feed the poor."

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

RICHARD CLAXTON GREGORY

He suggested that our system of government, founded on the Constitution and the Declaration of Independence, should be implemented, not destroyed, saying, "I do not advocate beating the capitalistic system, but I do advocate beating it into its rightful position - behind the Constitution, not in front of it."

Gregory commented "people are worrying about certain groups taking over this country, when they should be worrying about the FBI and CIA."

Gregory suggested that he does not hate the white people as individuals, but he does hate the "white racists system."

Gregory complained about right-wing controlled newspapers, indicating they report slanted news.

Gregory's speech lasted for approximately two hours.

A characterization of the Black Panther Party is attached to the appendix.

NORTH CAROLINA STATE UNIVERSITY  
RALEIGH, NORTH CAROLINA  
MARCH 2, 1970  
RACIAL MATTERS

Reference is made to memorandum submitted in this matter dated February 25, 1970, captioned as above.

On March 3, 1970, CE T-1 advised that from approximately 4:00 P. M. to 5:00 P. M. on March 2, 1970, RICHARD CLAXTON GREGORY spoke to approximately 150 to 175 persons at Erdahl-Cloyd Student Union on the campus of North Carolina State University at Raleigh, North Carolina. CE T-1 stated that GREGORY criticized the FBI, CIA, and United States Department of Health, Education and Welfare. He was critical of the capitalist "money men" of large northern industries mentioning the ROCKEFELLERS, DUPONTs, FORDs, etc. He cited examples that the Federal Government is withholding information concerning health hazards of food additives, drugs, and dangers of certain foods.

GREGORY discussed air pollution and praised the executive of a group of young people in Douglas, Arizona, threatening to blow up or burn a sulphur factory if they did not reduce the amount of air pollution.

RE: APPEARANCE OF RICHARD CLAXTON GREGORY, NORTH CAROLINA  
STATE UNIVERSITY, RALEIGH, NORTH CAROLINA, MARCH 2, 1970

GREGORY stated that the "Patriots" and "Black Panthers" in Chicago got together to combine efforts toward a common goal and said the southern whites and blacks should get together.

There were no incidents.

CE T-1 stated that on the night of March 2, 1970, between approximately 8:00 P. M. and 10:00 P. M., GREGORY spoke at the Erdahl-Cloyd Union before approximately 800 to 1,000 people. According to CE T-1, some of GREGORY's comments are as follows:

GREGORY criticized the nominations of Judges HAYNESWORTH and CARSWELL to the United States Supreme Court. He criticized President NIXON and Vice president AGNEW. GREGORY said, "NIXON is the dumbest man in the history - - except for AGNEW." He was critical of the draft and patriots and stated patriots are now the oppressors.

GREGORY criticized the court in the trial of the "Chicago Seven." He compared that trial with trials in Russia and Nazi Germany. He stated that policemen are going to be killed when the new "No Knock Search Warrants" are used.

GREGORY accused the CIA of killing the KENNEDYS and MARTIN LUTHER KING and stated the FBI and CIA are attempting to take over the Government.

GREGORY commented concerning the racist society in the United States. He noted that page four of our passports prohibit travel to North Korea, North Vietnam, Mainland China, and Cuba because they are populated by people of a different color.

RE: APPEARANCE OF RICHARD CLAXTON GREGORY, NORTH CAROLINA  
STATE UNIVERSITY, RALEIGH, NORTH CAROLINA, MARCH 2, 1970

GREGORY stated, "A freedom that is not worth dying for is not worth having." GREGORY in closing encouraged those present to boycott different products and services to gain support ending the Vietnam War.

On March 4, 1970, CE T-2 advised that the appearance of RICHARD CLAXTON GREGORY on March 2, 1970, was part of the "contemporary scene lecture series" at North Carolina State University, Raleigh, North Carolina. CE T-2 stated arrangements for GREGORY's appearance were made through the American Program Bureau, Boston, Massachusetts, and GREGORY received \$1,250 for his appearances at North Carolina State University on March 2, 1970.

A characterization of the Black Panther Party is attached as an appendix to this memorandum.

BLACK PANTHER PARTY

According to its official newspaper, the Black Panther Party (BPP) was started during December, 1966, in Oakland, California, to organize black people so they can take control of the life, politics, and the destiny of the black community. It was organized by BOBBY GEORGE SEALE, BPP Chairman, and HUEY P. NEWTON, BPP Minister of Defense. NEWTON is presently serving a sentence of 2 to 15 years on a conviction of manslaughter in connection with the killing of an Oakland police officer.

The official newspaper, "The Black Panther," which further describes itself as the "Black Community News Service," states that the BPP advocates the use of guns and guerilla tactics in its revolutionary program to end oppression of the black people. Residents of the black community are urged to arm themselves against the police who are consistently referred to in the publication as "pigs" who should be killed.

"The Black Panther" issue of September 7, 1968, contains an editorial by BPP Minister of Education, GEORGE MASON MURRAY, which ends with the following:

"Black men. Black people, colored persons of America, revolt everywhere! Arm yourselves. The only culture worth keeping is a revolutionary culture. Change. Freedom everywhere. Dynamite! Black Power. Use the gun. Kill the pigs everywhere."

Included in the introduction to an article appearing in the October 5, 1968, edition of "The Black Panther" is the statement, "...we will not dissent from American Government. We will overthrow it."

Issues of "The Black Panther" regularly contain quotations from the writings of Chairman MAO Tse-tung of the People's Republic of China and feature MAO's statement that "political power grows out of the barrel of a gun."

The national headquarters of the BPP is located at 3106 Shattuck Avenue, Berkeley, California. Branches have been established at various locations throughout the United States.

RICHARD CLAXTON GREGORY  
RACIAL MATTER

On March 19, 1970, a confidential source, who has furnished reliable information in the past, made available a copy of the following press release, regarding the appearance of RICHARD CLAXTON GREGORY at the New York State University Agricultural and Technical College, Alfred, New York, on the evening of March 13, 1970:

"DICK GREGORY believes moral pollution, not air or water pollution, is the biggest problem facing this nation.

"The comic and author, who spoke on civil rights Friday night before a crowd of about 1000 at the State University Agricultural and Technical College at Alfred, declared:

'You live in the most insane nation on the face of the earth. And you have the task of giving her back her sanity, because America is not quite dead yet.

'Those who call her "America the Beautiful" are sick, sand and out of their cotton pickin' mind, and will be so long as our Indian brother is locked up on a reservation.'

"GREGORY continued, 'As long as the Indian is locked up, the Communist movement is going to look pretty good to a lot of people.'

"He asked his audience of primarily young people to 'work like hell' to put capitalism behind the constitution, instead of in front of it, and to 'put human rights ahead of property rights.

RICHARD CLAXTON GREGORY  
RACIAL MATTER

'One question you have to ask,' said GREGORY, 'if democracy is as good as our generation tells you it is, why do we have to run around the world trying to ram it down the throats of other countries?'

'The people of my generation made a mistake when we were in college -- one I hope you will not make. We forgot to learn how to live because we were too busy learning how to make a living,' he observed.

"The 'comic with a cause' went on to touch on several current problems in this country.

"Concerning drugs, he said, 'Write to the Federal Bureau of Narcotics for literature. Then perhaps when your kids come to you, you will be able to do a better job than your parents did.'

'There are eight million alcoholics in America and yet nobody gives a damn about alcohol. As long as they (your parents) are doing it (drinking), it's okay.'

"He pointed out that drugs have been a problem in poor black communities for years, but that nobody became very upset until recently when in 'the best and richest families in America' were suddenly confronted with the fact that their youngsters were using drugs. He reported that statistics show that narcotic addiction in the black community today has decreased by 42%. 'You (whites) are living with the dope problem now,' he said.

"He talked of double standards in the case of Black Panther BOBBY SEALE, who was denied permission to act as his own defense counsel.

RICHARD CLAXTON GREGORY  
RACIAL MATTER

"while in another case involving a white, the white was given this permission. He also compared the \$100,000.00 bail set for each of a group of Black Panthers, awaiting trial in New York, with the \$20,000.00 bail set for some 'white kids' who face similar charges.

"GREGORY then commented further on the Chicago Seven Trial, by declaring that Judge JULIUS HOFFMAN 'sent everybody to jail while the jury was out deliberating their verdict. What he did makes HITLER look like a saint,' said GREGORY. GREGORY called America a 'sick, degenerate nation,' whose people care about nothing but money. He noted that 'Black folks do not hate white folks, but do hate the white racist system.' He warned, however, that Blacks are going to hold all whites responsible for this system, because they permit it to exist.

"GREGORY's talk was interspersed with a humor that had his audience laughing at times, and applauding at other times, as he delivered his message effectively.

'You young people have to face all the problems our generation has created,' he stated. 'The establishment lies to you and when you catch them, they call it a generation gap. I'm here to inform you. When I leave, you'll be able to say, "At lease brother GREGORY didn't lie to us."

The confidential source said GREGORY did not make any inflammatory statements urging the audience to fight or take up arms. He advised that the audience was mixed, both racially and age-wise and also well behaved and orderly.

RICHARD CLAXTON GREGORY

The Thursday, April 2, 1970, issue of the "Duluth News Tribune," published at Duluth, Minnesota, indicated that Gregory spoke at the Duluth Auditorium as a guest speaker for the Duluth Intra-City Student Council human relations workshop.

Gregory opened his remarks with statements against what he termed the "slimy, sick degeneracy" of America. Gregory charged that the older folks, or "old fools," have resorted to tricks with the young of America and left the young America with all the problems. Gregory stated that tricks have kept the white, conservative, money-and-power hungry segment of America in power. Gregory told the audience that "white folks have been tricking in this country for 400 years."

Gregory told the audience that he was left "cold" by right-wing Americans who espouse patriotism by pasting American flag decals on their cars, and charged these same people with tax evasion, hypocrisy, and beer drinking. He chastised America's youth for being the only young in the world "who don't give a damn about the worker."

In summation, Gregory called President Nixon "America's last trick" and "dumb boy." Gregory stated that he found fault with a system that lies to young people every day and termed the lie a "generation gap." He charged that "institutionalized racism" is "choking the black people to death." He claimed that men in power get special privileges,

especially with regard to the draft. Gregory advised that the only way America is going to get out of its insane state is to use its greatest weapon: the U.S. Constitution.

A source, who has furnished reliable information in the past, advised that Gregory's speech at the Duluth Auditorium was attended by about 1,200 students. Gregory was paid \$1,250.00 for his appearance.

RE: BLACK ARTS FESTIVAL  
BROWN UNIVERSITY  
PROVIDENCE, RHODE ISLAND  
MARCH, 1970

Reference is made to memorandum dated March 4, 1970, entitled as above.

On March 12, 1970, a source, who has furnished reliable information in the past, advised that Brown University did not want to donate any more money towards the Black Arts Festival until it received the \$27,000 which had already been spent toward the festival. According to this source, there was thus no additional money available for the festival and only \$15,000 had been realized from ticket sales for the festival. The source pointed out that more than \$10,000 was needed to break even.

This source further pointed out that the Religious Studies Department of Brown University was sponsoring JAMES FORMAN, who according to the source would speak on reparation. This source further advised that the Music Department of Brown University was paying for the lecture which was scheduled to be given by CANNONBALL ADDERLY and that the Rhode Island School of Design was paying for the exhibition. According to this source, any profit realized from the festival was supposed to go back into the Student Activities Account of the University.

This source further advised that the Black Panther Party (BPP) intended to be represented at the festival under any circumstances and that they wanted room at the festival for an information center. Source pointed out that the Black Panther Party would probably be represented at the festival during the busy period and that there would be at least five members of the BPP present from Connecticut in addition to some high school students.

A characterization of the  
BPP appears in the Appendix.

This source advised that it was expected that approximately two or three thousand people would be at the festival.

~~CONFIDENTIAL~~

APPENDIX~~CONFIDENTIAL~~BLACK PANTHER PARTY, aka  
Black Panther Party for Self-Defense

According to its official newspaper, the Black Panther Party (BPP) was started during December, 1966, in Oakland, California, to organize black people so they can take control of the life, politics and the destiny of the black community. It was organized by BOBBY GEORGE SEALE, BPP Chairman, and HUEY P. NEWTON, BPP Minister of Defense. NEWTON is presently serving a sentence of two to fifteen years on a conviction of manslaughter in connection with the killing of an Oakland police officer.

The official newspaper, "The Black Panther," which further describes itself as the "Black Community News Service," stated that the BPP advocates the use of guns and guerrilla tactics in its revolutionary program to end oppression of the black people. Residents of the black community are urged to arm themselves against the police who are consistently referred to in the publication as "pigs" who should be killed.

"The Black Panther" issue of September 7, 1968, contains an editorial by BPP Minister of Education, GEORGE MASON MURRAY which ends with the following:

"Black Men. Black people, colored persons of America, revolt everywhere! Arm yourselves. The only culture worthkeeping is revolutionary culture. Change. Freedom everywhere. Dynamite! Black Power. Use the gun. Kill the pigs everywhere!"

Included in the introduction to an article appearing in the October 5, 1968, edition of "The Black Panther" is the statement, "...We will not dissent from American Government. We will overthrow it."

Issues of the "Black Panther" regularly contain quotations from the writings of Chairman MAO Tse-tung of the People's Republic of China and feature MAO's statement that "political power grows out of the barrel of a gun."

The national headquarters of the BPP is located at 3106 Shattuck Avenue, Berkeley, California. Branches have been established at various locations throughout the United States.

Chief of Police Broadus L. Bequest, Augusta Police Department, Augusta, Georgia, advised on March 30, 1970, that comedian Dick Gregory delivered a speech at Paine College Memorial Chapel, Augusta, Georgia, on March 26, 1970, at 8:00 PM. Chief Bequest explained that Gregory was on a nation-wide speaking tour of college campuses and tickets were sold with the proceeds going to a scholarship fund for the college. He stated there were no incidents and that Gregory's remarks were delivered in a humorous vein, but intended to make a serious point.

On April 6, 1970, SV T-1, [redacted] advised he attended an open meeting at Memorial Chapel, Paine College, Augusta, Georgia, on the evening of March 26, 1970, when Dick Gregory, the comedian and commentator spoke. Source said this was a one-night stand for Gregory, and this was part of a nation-wide tour of college campuses by Gregory. He said tickets were sold for the event with the proceeds going to a scholarship fund for the college. Source said there were no incidents of violence or confrontations in connection with this appearance of Gregory at Paine College, where he spoke to about 900 individuals.

Source said Gregory's talk involved serious thoughts put across through the use of humor, and appeared to be more or less guidelines for self-improvement of black people. He frequently appealed to the self-respect and dignity of black people. Source said Gregory gave a recitation at one

point in his talk, where he stated in effect that if the people of this country do not think the Government in power is the best form of Government for the people, the people have a right and duty to overthrow that Government. Source said after Gregory had presented this recitation in a very emotional manner, he then explained he was reciting from the Declaration of Independence.

According to source, it was difficult at times to pinpoint just what Gregory was advocating, because he frequently referred to "crackers" and "niggers", but the intent of his remarks was not clear. He referred to police in general as "Pigs", and indicated police were first called "Pigs" in the Bible, referring to the incident where the evil spirits were caused to leave the sick man, going into a herd of swine, which thereafter ran off a cliff and were destroyed.

Source said Gregory also spoke of the Northern white man using the Southern white man. He said the Northern white man sold the black slaves to the Southern white man, while that was profitable for the Northern white man. Then when it was no longer profitable for the Northern white man, he said to the Southern white man that he could no longer have slaves. He said the Southern white man did not have enough intelligence to see that he was being used by the Northern white man, who is now using both the black citizens and the Southern white man.

Gregory spoke of the history of violence in this country from the time of Plymouth Rock to the present. He said the white man had run the Indian off his land, and now has the Indians confined to the small reservations. He said the Europeans look upon the white man in this country as savages because of the treatment of the Indians by the white man. He also mentioned the mistreatment of the Mexican laborers in this country, particularly those working on grape farms in California.

Source said Gregory praised the Negro woman for her stability and what she has meant to the Negro race in this country. He said the black man should give her respect which she has earned and deserves.

RICHARD CLAXTON GREGORY

Source said Gregory stated the white middle-class of this country put President Nixon in office and the white middle-class will vote him out of office. Gregory said Vice President Agnew must be pretending because Gregory did not believe the Vice President could be as dumb as he appears unless he is trying to appear that way.

Source said that during the approximately two hours that Gregory spoke, he made attacks on virtually every segment of American society - including the schools, the teachers, professional people, preachers, the "Uncle Toms". These attacks were mainly for lack of involvement and concern. He said Gregory stated that he does not preach or advocate violence, but neither does he back up from it.

111th Military Intelligence Group, Ft. McPherson, Georgia; Office of Special Investigations, Robins Air Force Base, Georgia; Naval Investigative Service Office, Charleston, South Carolina; and United States Secret Service, Atlanta, Georgia, have been advised of the above.

## Gregory states opinion on today's issues

By SYLVIA KRONSTADT

"I don't know how I can stand here with a straight face and say it's a pleasure to be in Salt Lake City."

With warmth, anger and eloquence, Black comedian Dick Gregory addressed an audience of an estimated 4000 Monday night in the Special Events Center as part of Challenge Week. Following an introduction by Black Student leader Bill Bey, Mr. Gregory launched into a 2 hour presentation that was often humorous, often poignant; cynical, personal and powerful. Equally harsh and equally affectionate with the Brothers as with the predominantly white audience, Mr. Gregory probed a vast range of issues including education, law and order, religion, national priorities and ghetto existence. "Committed and dedicated to nonviolence," Mr. Gregory preached human rights, common sense and morality. "You have a big job — the job of giving America back its sanity," he said.

**ON MORALITY:** "You kids seem to think that morality is a Brooks Brothers suit, a shave and a haircut once a week. . . . Stay morally pure, morally honest. Rally behind morality — that's the one bomb America can't cope with."

**ON RELIGION:** "If you admit that one of the sons of Adam and Eve was black, what does that say about Adam and Eve, and all of you? . . . You can have any kind of belief you want, but not at my expense. I am glad that the black's attack on the Mormon Church has remained at the institutional level; the day black folks start stooping to the petty level of attacking the individual Mormon, I'll side with the Mormon."

**ON THE BLACK POWER SALUTE:** "They all say, 'What does that mean?' Haven't you ever seen a box of baking soda?"

**ON THE CHICAGO 7 CONTEMPT RULINGS:** "In a free and democratic society, the law

can't sit by and watch violations add-up and then arrest you for the sum total, unless it has some intention other than upholding the law."

**GENERATION GAP:** "Twenty-four hours a day the System lies to you. Then when you catch it, they call it the generation gap."

**ON THE POLICE:** "You can't blame the police. They're controlled by the same people that pollute the air and the water and enforce poverty with low wages."

**ON TEACHERS:** "American teachers have closed down every school in the country, striking to increase their salaries — but when Nixon vetoed the education bill, you didn't hear a word from them. That wasn't their money; that would have gone to the kids."

**ON ADULTS:** "Most of them are so busy making money, they haven't had a moral thought run through their heads in 40 years."

**ON BUSSING:** "Don't ask me about bussing. You've been bussing black kids past white schools and white kids past black schools for years to enforce an immoral situation — and now you wonder if it's proper to do it to create a moral situation."

"The tragedy of the Mississippi thing is those white parents keeping their 7-year-old kids out of school. The white kids will pay the price. It's sad; it's not funny, at all."

**ON CONSERVATISM:** "That flag is not going to hide your insane degeneracy. . . . Since bigotry is no longer fashionable, people try to hide it under conservatism."

"The first patriots were always on the side of the oppressed. You so-called patriots today are on the side of the oppressor."

**ON RACISM:** "Individual racism is legal — it's constitutionally protected freedom of expression. But it is institutional racism that keeps black people down. Most black folks don't hate white folks — we hate your vicious, insane

(Continued on page 7)

RICHARD CLAXTON GREGORY

(Continued from page-1)

white racist institutions."

ON LANGUAGE: "Angel food cake is always white. Devils food cake is always black. A little lie is a white lie. A tornado is black till it comes inside to clean up the lady's kitchen. Then, it's a white tornado."

ON THE CITIES: "We damn near own the country now. You gave us all the major cities without a fight. Did you say Washington, D.C. is your capital?"

ON THE WHITE MAN: "The white man in this country is the sickest man in the world."

ON YOUNG PEOPLE: "Thank you for turning the civil rights movement into a human rights movement. . . . You are the most morally dedicated group of young folks in the history of this country. . . . You have to solve problems you had no part in creating — problems that were here before you were born. Not only did we not solve the problems, but for the first time in history, we've used up all the tricks."

ON NIXON: "Dick Nixon shows you the state of this nation better than anything I could do tonight. When he had to pick a model of equity, honesty and courage out

of 200 million people, he chose Haynesworth. The second time around, he reached even further down into the barrel of scum."

ON THE PROPERTY FETISH: "When those buildings blew up in New York, it was at night; nobody was there, nobody was hurt. Now they're talking about the death penalty for possession of dynamite. What about heroin pushers? That's just human life that's involved, but since it's not property they're not so concerned."

ON DRUGS: "Dope couldn't come into this country without the consent of the politicians and the police . . . all drugs and artificial stimulants are bad, including coffee, tea and alcohol."

ON JUSTICE: "The policemen in Harlem shake hands with the pimps and the pushers. But when beautiful black people, like Stokely or H. Rap come into the ghetto, not to sell heroin or a woman's ass, but to uplift my people, then the police get up-tight."

ON RELEVANT EDUCATION: "After watching whores turn tricks when I was 5 years old, learning to read about Dick and Jane up on the hill didn't interest me at all, when I was 6."

ON NONVIOLENCE: "You're the ones that pin a medal on him for killing a whole battalion of of Viet Cong. . . . If you think you can draft a black man, send him to Fort Collins to learn how to be a "gorilla," ship him to Vietnam to kill one foreigner to free another foreigner — and then think he's going to come back here and not kill you to free his mother — you're crazy."

## FEDERAL BUREAU OF INVESTIGATION

Date 4/3/70

At approximately 8:00 p.m., at the Sports and Special Events Arena, University of Utah, Salt Lake City, Utah, DICK GREGORY began his speech to a crowd of approximately 2,500 individuals. GREGORY was conservatively dressed in a charcoal grey suit and light tie. GREGORY began his speech by stating how unhappy he was in being in Salt Lake City and how he would have preferred to be somewhere else. He stated he did not want to be condemned for his speech as JERRY RUBIN had been for his and specifically brought out the fact that he, DICK GREGORY, was not responsible for RUBIN's ideas or actions. As a result of RUBIN's speech, GREGORY advised that he had been telephonically contacted and advised not to curse or use profanity of any kind in his speech.

GREGORY advised that he was "here to set the youngsters of today straight" as they could not expect to get the true story of the events occurring today from what was printed in the newspapers.

GREGORY stated that the biggest Black Power incident in recent years was the naming of a hurricane, BEULAH. He referred to the white overtones which appear on television today, especially in commercials. He said that instead of seeing "the white dove fly into a white woman's white kitchen," he would much rather see "a black crow fly into his Mamã's kitchen and land on some of her biscuits." He further stated the only time a black cowboy gets to kill a white cowboy is when "the white cowboy has just raped a blind paraplegic who is working for the Salvation Army."

He stated that the youth of today have problems to solve which they themselves did not create but for which the "old fools of today" are responsible.

In reference to the White, Southern educated children, GREGORY stated they are illiterate because of the bigotry of their white parents. These parents would rather see their children not go to school at all then go to school with Black children.

In regards to the bussing problem, GREGORY said that since "DICK NIXON" has lessened attempts to integrate schools, "we, the Blacks, have been responsible for more integration in the last two months than has occurred in the last fifteen years.

GREGORY then referred to "DICK NIXON's" recent selections for Justices of the Supreme Court. He said that NIXON had to dig down deep in the barrel to come up with HAINSWORTH and had to dig even deeper in the "scum" to come up with a man like CARSWELL.

He stated that NIXON's speeches on Vietnam have been addressed to old people when, in fact, they should be addressed to the young of America. GREGORY stated that anyone who follows NIXON's commitment in Vietnam had to be crazy, "only fools back NIXON's policy in Vietnam." In reference to NIXON's request to have people turn their headlights on in support of his Vietnam policy, GREGORY stated that the only thing it did was to sell car batteries.

In reference to patriots, GREGORY stated that in the past "patriots were on the side of the oppressed, whereas today, patriots are on the side of the oppressors."

Regarding air pollution, GREGORY stated that today, instead of seeing GEORGE WASHINGTON and others standing behind a flag, one would be more likely to see the flag flapping in the breeze on the top of a large corporation building behind which could be seen clouds of black smoke polluting the air.

GREGORY then made reference to the fact that only the poor are fighting and dying in Vietnam. He asked where were the FORDs, ROCKEFELLERS, and DUPONTs, in Vietnam. He stated that DEAN RUSK's son has been out of school for 6 years and has not been in the Army yet. GREGORY stated he only wished he was younger so that he could receive an induction notice. He would then immediately fly to Washington, D. C., where he would handcuff himself to RUSK's son and go on nationwide television stating, "whatever is wrong with him is also wrong with me."

He then made reference to the appearance of DICK NIXON's son-in-law, DAVID EISENHOWER, on the cover of a

nationally circularized magazine being sworn into the Naval Reserves. GREGORY stated that it was just as easy being in the Boy Scouts as it was to be in the Naval Reserves.

GREGORY then said that when the Governor of the State of Mississippi gives a racist speech, the same speech can be given by the Governor of the State of California or the State of Illinois and it would be considered conservative. GREGORY stated that when he, himself, goes to the State of Mississippi and gives a speech, they say he is Black Power inspired; however, when he gives the same speech in Chicago, Illinois, he is said to have stirred up the white backlash.

GREGORY then expounded on how the whites are the corrupters of words, not the Blacks. He said that whites call all evil Black and all good white. He stated that white people get upset about the term, "Black Power," but if the term "Brown Strength" would have been used, think of the greetings the Blacks would have received from the whites, "Brown Strength, Brother, Brown Strength."

GREGORY stated that if he had been working in the Ford Factory plant ten years ago and a white man called him "nigger" he would have socked him and would have been fired on the spot. However, the white man would think twice before firing him today because he would probably burn the plant down.

He then stated that there is a depression coming and that NIXON is the cause of it. He stated the Blacks will not be hurt like the white people because the blacks have not invested in Wall Street as have the whites to make money, their chief and only occupation. GREGORY then went on to say that NIXON will not last more than four years in the White House because peoples' pocketbooks will be empty and the silent majority who voted him in will become the vocal majority who will vote him out.

GREGORY then made reference to NIXON's recent stand on bombers and the tightening up of bombing laws. He asked why is the death penalty not given for heroin pushers as well. He again asked why has there been no public outcry against the recent robbery in the State of Connecticut when almost a whole town was blown up during

the day, just minutes before a rush hour crowd would have been killed as a result of the ruse used by the robbers to throw off suspicion from themselves enabling them to rob the bank. GREGORY, however, could not understand why there was such a public outcry when three buildings in New York City were blown up, when it was at night, with no danger to human life, and no value of property destroyed, so to speak.

GREGORY answered the above questions by stating that a large monetary profit, even if obtained criminally, is condoned by people today; however, when no money is involved, people shutter when force is used.

He stated the reason the death penalty is not given for heroin pushers is that there is too much money to be made in the selling of heroin. He asked why is it that he, DICK GREGORY, could come to Salt Lake City, Utah, at 9:15 p.m., and by 9:30 p.m. have made a contact to purchase heroin, and by 9:45 p.m., have it shooting through his veins, while the local police, who have been born in Salt Lake City and lived here all their lives, cannot find these same people. He then asked why did the whites not listen to the Blacks when they cried out against the white pushers selling heroin to their children in Harlem. He said these same whites who were deaf to the Black cries are now crying out because the Black pushers are selling heroin to the whites' children. He pointed out the fact that according to the Federal Bureau of Narcotics and Dangerous drugs, in the past five years, there has been a 42 percent drop in the use of drugs by Negroes, which accomplishment they did themselves with no help from the whites; however, the use of drugs by whites is continually rising.

GREGORY stated that "DICK NIXON" is dumb and stupid and is the most stupid president this country has ever had. He referred to NIXON as the last "trick," meaning in effect that the election of NIXON is the last act that old people could pull off on the younger generation.

GREGORY was pleased to state that the whites have given the Blacks almost all of the major cities, including their capital, without a fight. He compared this to HILTER giving Berlin to the Jews.

GREGORY questioned how DICK NIXON could be so dumb as to ask for billions of dollars for the ABM System and yet veto the Aid for Education bill. He stated that when NIXON had vetoed the bill, teachers throughout the country should have struck and closed all of the schools in the country. His main concern over this veto was that the money was "for the children, not for the teachers."

He then questioned why the college students were so apathetic. He cited the postal strike across the nation as an example. He could not understand why the students did not get behind the postal employees to fight for their rights, which workers, according to GREGORY, would have rallied behind the youth if such action had been taken. He went on to say that if the youth had gotten behind the postal employees, then may be the cops would have dropped their guns in order to strike for a decent wage instead of striking out against the working class. The cops, GREGORY stated, should strike out against the rich industrialists who are the ones preventing them from obtaining a decent wage, not against the poor, harding-working class who have no control over the salary the cops receive.

GREGORY then made reference to the Chicago "7" trial. He compared Judge HOFFMAN to ADOLF HILTER. He stated that all of the old fools of the nation advised that the Chicago "7" and all radicals should be thrown in jail; however, it is the old drunken fool who kills more people in automobiles, pads more expense accounts, and cheats more on his income tax and is the first to shout against law and order. GREGORY cited HOFFMAN's illegal means used to hand down contempt sentences. Instead of HOFFMAN handing down sentences as they occurred, he waited until the end of the trial. According to GREGORY, the contempt citations were handed down at the end of the trial to fulfill HOFFMAN's scheme to jail the defendants, denying them of their rights if need be.

GREGORY stated the reason BOBBY SEALE was bound and shackled was not because of the language which he used, as the language used by the other defendants was much worse than SEALE's, but because at the trial BOBBY SEALE had asked Judge HOFFMAN how much stock he owed in the Brunswick Corpora-

tion, which corporation is one of the largest manufacturers of armaments in the country. SEALE was denied the right to act as his own defense counsel; however, GREGORY pointed out that whites like JACK RUBY and CHARLES MANSON, the individual accused of killing SHARON TATE and others in the State of California, were not denied this right because they were white.

GREGORY laughed at how the white people today are now saying that Black people should not start the practice of genocide when the whites, in fact, have been practicing it for years regarding the American Indian. GREGORY stated that America cannot call herself a democracy until she takes steps to rectify herself with the American Indian.

GREGORY then talked about Operation Intercept, an attempt by the Government to tie up all of the marijuana in the country. He questioned why was there not an attempt to stop the sale of heroin instead of marijuana. He stated there is absolutely no heat put on the heroin pushers at all. If the program is successful, according to GREGORY, all that will be accomplished is that the kids will move on from marijuana to heroin.

In reference to Prime Minister POMPIDOU of France, GREGORY asked why NIXON had not criticized him for allowing heroin to be processed in France and its free passage from France to Canada where it eventually filters into the United States.

GREGORY stated that the CIA and the FBI are not about to let any outside force come in and overthrow the government because they are so "dirty" that they will take it over first.

GREGORY stated that the Black Panther Party members are being killed by the same individuals who will kill Law and Order by allowing the Stop and Frisk bill and the No Knock Narcotics bill to become law. Yet cops who bring down an SDS demonstration would not dare to arrest a drug pusher.

GREGORY stated that the Blacks do not hate white people themselves, but hate their racist institutions. He

said he was not against white individuals as such but against the racism which is created through large industrial and political institutions.

GREGORY could not understand why cops come in and drive out such beautiful Blacks as CARMICHAEL, RAP BROWN, and members of the Panthers when their only purpose is to uplift the Blacks in the ghetto.

GREGORY said he was tired of the Mormon Church. He said that individual Mormons are not responsible for its actions but the Church's hierarchy was. He stated that if the Supreme Court could make such a drastic change in the integration laws in 1954, then the Mormon Church could do the same. He stated that the white man had raped his mother, his grandmother, and his greatgrandmother and that that makes him white enough to become a bishop of the Church. He stated that they were just about through with their research on the Mormon Church and that they were going to deal with the Church this summer. He went on to name some of the business operations which the Church controlled, such as Harman's Kentucky Fried Chicken, the Coke-a-Cola Company and Safeway Stores, Incorporated.

GREGORY stated that when the riot season opened this season, the old fools should watch the events happening on television and listen while he read the Declaration of Independence simultaneously and perhaps they would be able to see why it is happening.

GREGORY stated that how could a violent country teach the Blacks violence and killing and not expect the Blacks to turn around and use this skill to free themselves. GREGORY stated he believes in nonviolence but will not preach it and is willing to die before he is willing to kill another individual.

GREGORY stated that the biggest hangup white people have today is they think all Black men want are white women. He said if this is truly the case, then it is the white man's fault because all a Black boy sees today is a body of a white woman smeared all over the magazines, ads, and television.

SU 157-110

8

GREGORY stated that white people say that the Black woman is strong. However, according to GREGORY, the black man is strong while the Black woman is responsible.

GREGORY stated that the Civil Rights movement in this country has been changed to the Human Rights movement, and that morality is needed to shove into this establishment.

GREGORY concluded his speech at approximately  
10:30 p.m.

DICK GREGORY  
RACIAL MATTERS

On April 14, 1970, a confidential source who has furnished reliable information in the past advised that Dick Gregory, a former comedian, lectured on civil rights on April 13, 1970, at the Student Union of the University of Nevada, Las Vegas (UNLV), Las Vegas, Nevada. Gregory was presented as a guest lecturer by the UNLV Faculty Lecture Series and spoke before approximately 400 people. Source advised Gregory said an economic depression is beginning in the country and that Las Vegas will soon feel its effects. Gregory put the blame on President Nixon and predicted he would not be re-elected in 1972. He stated the problem in America today is not one of black and white, but one of attitude. He advised "If you think the Black Panthers are being killed because they are black or carrying guns you are a fool. They're being annihilated because they are feeding the hungry." Gregory further stated that the Government survives by keeping 44 million Americans hungry, and that nothing promotes thinking as fast as a full stomach. He added his support for a nationwide boycott, which he stated may take place this fall. The boycott, as Gregory explained it, will involve almost every commodity except the most necessary things.

STUDENTS FOR A DEMOCRATIC SOCIETY

A source has advised that the Students for a Democratic Society (SDS), as presently regarded, came into being at a founding convention held June, 1962, at Port Huron, Michigan. From an initial posture of "participatory democracy" the line of the national leadership has revealed a growing Marxist-Leninist adherence which currently calls for the building of a revolutionary youth movement. Concurrently, the program of SDS has evolved from civil rights struggles to an anti-Vietnam stance to an advocacy of a militant anti-imperialist position. China, Vietnam and Cuba are regarded as the leaders of worldwide struggles against the United States imperialism whereas the Soviet Union is held to be revisionist and also imperialist.

At the June, 1969 SDS National Convention, Pro-Progressive Labor Party (PLP) forces in the organization were expelled. As a result, the National Office (NO) group maintained its National Headquarters at 1608 West Madison Street, Chicago, and the PLP faction set up headquarters in Cambridge, Massachusetts. This headquarters subsequently moved to Boston. Each group elected its own national officers, which included three national secretaries and a National Interim Committee of eight. Both the NO forces and the PLP forces claim to be the true SDS. Both groups also print their versions of "New Left Notes", which sets forth the line and the program of the particular faction. The NO version of "New Left Notes" was recently printed under the title "The Fire Next Time" to achieve a broader mass appeal.

Two major factions have developed internally within the NO group, namely, the Weatherman or Revolutionary Youth Movement (RYM) I faction, and the RYM II faction. Weatherman is action-oriented upholding Castro's position that the duty of revolutionaries is to make revolution. Weatherman is regarded by RYM II as an adventurist, elitist faction which denies the historical role of the working class as the base of revolution. RYM II maintains that revolution, although desired, is not possible under present conditions, hence, emphasizes organizing and raising the political consciousness of the working class

2.

upon whom they feel successful revolution depends. Although disclaiming control and domination by the Communist Party, USA, leaders in these two factions have in the past proclaimed themselves to be communists and to follow the precepts of a Marxist-Leninist philosophy, along pro-Chinese communist lines.

A second source has advised that the FLP faction which is more commonly known as the Worker Student Alliance is dominated and controlled by members of the PLP, who are required to identify themselves with the pro-Chinese-Marxist-Leninist philosophy of the FLP. They advocate that an alliance between workers and students is vital to the bringing about of a revolution in the United States.

SDS regions and university and college chapters, although operating under the outlines of the SDS National Constitution, are autonomous in nature and free to carry out independent policy reflective of local conditions. Because of this autonomy internal struggles reflecting the major factional interests of SDS have occurred at the chapter level since the beginning of the 1969-70 school year.

A characterization of the PLP is attached.

PROGRESSIVE LABOR PARTY (PLP)

"The New York Times" city edition, Tuesday, April 20, 1965, page 27, reported that a new party of "revolutionary socialism" was formally founded on April 18, 1965, under the name of the PLP which had been known as the Progressive Labor Movement.

According to the article, "The Progressive Labor Movement was founded in 1962, by Milton Rosen and Mortimer Scheer after they were expelled from the Communist Party of the United States for assertedly following the Chinese Communist line."

A source advised on June 3, 1968, that the PLP held its Second National Convention in New York City, March 31 to June 2, 1968, at which time the PLP reasserted its objective of the establishment of a militant working class movement based on Marxism-Leninism. This is to be accomplished through the Party's over-all revolutionary strategy of raising the consciousness of the people and helping to provide ideological leadership in the working class struggle for state power.

The source also advised that at the Second National Convention, Milton Rosen was unanimously reelected National Chairman of the PLP and Levi Laub, Fred Jerome, Jared Israel, William Epton, Jacob Rosen, Jeffrey Gordon, and Walter Linder were elected as the National Committee to lead the PLP until the next convention.

The PLP publishes "Progressive Labor" a bimonthly magazine; "World Revolution," a quarterly periodical; and "Challenge-Desafio," a monthly newspaper.

2.

The April, 1969, issue of "Challenge-Desafio" sets forth that "Challenge is dedicated to the peoples fight for a new way of life--where the working men and women control their own homes and factories; where they themselves make up the entire government on every level and control the schools, courts, police and all institutions which are now used to control them."

Source advised on May 8, 1969, that the PLP utilizes an address of General Post Office Box 808, Brooklyn, New York, and also utilizes an office in Room 617, 1 Union Square West, New York, New York..

Dick Gregory appeared at the Spaulding Institute Gymnasium, 405 Northeast Madison Street, Peoria, Illinois, on April 4, 1970, and spoke from approximately 8:25 p.m. to 10:20 p.m. Gregory spoke for approximately two hours before a mixed crowd consisting of approximately 250 persons, mostly adult couples. Gregory's appearance at Spaulding Institute Gymnasium was sponsored by Tazewell Citizens Committee on Human Relations, a committee dedicated to establishing better relations between whites and blacks as well as achieving equality among races. According to a meeting program, [redacted]

[redacted] Illinois, resident, is listed as the [redacted]

members of the committee are [redacted]  
Illinois resident, and [redacted]

[redacted] Illinois.

GREGORY, who spoke for approximately two hours, stated that he does not believe in violence and characterized the young American people as being the most moral, ethical and dedicated group in the country. He advised that it is the task of America's youth to fully implement the United States Constitution so that everyone in America can be treated equally. He advised that America's youth are not fools and who believe in human rights, and that the fate and destiny of America rests in the hands of the young.

GREGORY praised the Black Panthers' program of feeding the hungry in the nation. He advised that the Black Panthers who were killed in Chicago, Illinois, last year, FRED HAMPTON and MARK CLARK, as well as JOCK YABLONSKI, defeated candidate for the president of the union of Mine Workers, who was shot to death in his home in early 1970, were killed because they were talking about feeding hungry Americans. He advised that hunger is the most important problem in the United States and that approximately 44,000,000 persons in America go to bed at night time hungry.

GREGORY criticized President RICHARD M. NIXON's choice of Federal Judges CLEMENT HAYNSWORTH and HAROLD CARSWELL to the United States Supreme Court. He advised that out of the 200,000,000 people living in the United States, it is hard to believe that the best the President could find was HAYNSWORTH and CARSWELL. He advised that CARSWELL's nomination was not only an insult to the black people but it was also an insult to the decent white people in the United States.

He stated that President NIXON is the "dumbest white boy" the people ever sent to the White House. He advised that President NIXON doesn't even look like he believes he is President of the United States. He advised to show how "dumb, President NIXON is," President NIXON tried to slow down school integration in the South, but that more schools have been integrated in the South in the past two months than in the past four years. He stated, "NIXON is so dumb he called out the Army to move the mail when the postmen went on strike." He advised that it cost more in a month to pay the Army to move the mail than it would have cost to pay the mailmen the raises they desired. He also criticized America's youth for not supporting the mailman's strike.

GREGORY also advised that unemployment is on an upward trend and that America will hit an economic low in the next six months, the lowest in America's history. He advised because of lack of money, top companies in the country will not be recruiting college graduates this year on campus and that aircraft factories are being closed.

GREGORY also criticized Attorney General's JOHN MITCHELL Operation Intercept, an operation used in combatting the influx of marijuana into the United States. GREGORY stated that marijuana is not the real problem in the United States; the problem is heroin. He advised that Operation Intercept is not efficient enough to stop the influx of heroin into the United States. He advised that when narcotics was a problem in the black ghetto areas, nothing was done about it, but now since the narcotic problem is affecting the white community, everyone is concerned.

GREGORY advised that it is not the individual racist who hurts the black man, it is the institutionalized racism that is hurting the black people. He stated the role of the black man in America is quite different from what it was in the past and the black man is tired of playing games. He advised that the white man has been tricking the black man for approximately 400 years, and that the black man is tired of being tricked.

BLACK PANTHER PARTY  
Also Known As  
Black Panther Party for Self-Defense

According to its official newspaper, the Black Panther Party (BPP) was started during December, 1966, in Oakland, California, to organize black people so they can take control of the life, politics and the destiny of the black community. It was organized by Bobby Seale, BPP Chairman, and Huey P. Newton, BPP Minister of Defense. Newton was sentenced in 1968 to serve 2 to 15 years after being convicted of manslaughter in connection with the killing of an Oakland police officer.

The official newspaper, "The Black Panther," which further describes itself as the "Black Community News Service," states that the BPP advocates the use of guns and guerrilla tactics in its revolutionary program to end oppression of the black people. Residents of the black community are urged to arm themselves against the police who are consistently referred to in the publication as "pigs" who should be killed.

"The Black Panther" issue of September 7, 1968, contains an editorial by BPP Minister of Education, George Mason Murray, which ends with the following:

"Black men. Black people, colored persons of America, revolt everywhere! Arm yourselves. The only culture worth keeping is a revolutionary culture. Change. Freedom everywhere. Dynamite! Black Power. Use the gun. Kill the pigs everywhere."

Included in the introduction to an article appearing in the October 5, 1968, edition of "The Black Panther" is the statement "...we will not dissent from American Government. We will overthrow it."

Issues of "The Black Panther" regularly contain quotations from the writings of Chairman Mao Tse-tung of the People's Republic of China and feature Mao's statement that "political power grows out of the barrel of a gun."

The national headquarters of the BPP is located at 3106 Shattuck Avenue, Berkeley, California. Branches have been established at various locations throughout the United States.

On February 13, 1970, Charles Norman Millican, President, Florida Technological University (FTU), Orlando, Florida, advised that Dick Gregory was scheduled for a speaking engagement on April 6, 1970, at the Village Center, FTU.

On March 26, 1970, [redacted] FTU, furnished the following itinerary for Gregory's visit to the Orlando area on April 6, 1970:

Arrive Orlando Jetport aboard Delta Airlines flight 638, 1:42 P. M.; April 6, 1970; press conference, Delta Airlines Conference Room, 2:00 P. M. - 2:45 P. M.; drive to FTU, 2:45 P. M. - 3:15 P. M.; reception, Multi-Purpose Room, FTU, 3:15 P. M. - 4:45 P. M.; drive to Herndon Airport, Orlando, 4:45 P. M. - 5:15 P. M.; dinner - Skyline Restaurant, Herndon Airport, 6:00 P. M. - 7:15 P. M.; return to FTU, 7:15 P. M. - 7:45 P. M.; speech on "Civil Rights" at FTU, 8:00 P. M. - 9:00 P. M.; leave FTU for drive to Orlando Jetport, 9:30 P. M.; depart Orlando for Chicago aboard Delta Airlines flight 176, 10:15 P. M.

On April 9, 1970, [redacted] advised that Gregory followed the above itinerary while in the Orlando, Florida, area on April 6, 1970, except for the scheduled dinner at Herndon Airport, which he failed to show up for as he was "on a fast". Gregory spoke to a crowd of between 500 and 600 people, approximately one fifth of them Negroes, on the topic "Civil Rights"; however, subjects covered by Gregory

in his speech included the news media, education, riots, the Chicago Seven Trial, law enforcement, drugs, Supreme Court nominees, integration and President Nixon. [redacted] stated that Gregory made derogatory remarks concerning President Nixon and other leaders in this country; however, he did not regard Gregory's speech as inflammatory.

[redacted] further advised that [redacted] at FTU, was to have been Gregory's escort during the entire period of his visit to Orlando; however, Gregory between approximately 5:00 P. M. and 8:00 P. [redacted] on April 13, 1970, furnished a copy of the April 10, 1970, edition of "Future", the official newspaper of FTU. This edition, on pages 1 and 12, contained the following article concerning Gregory's speech entitled "On The Inside With Dick Gregory":

(Mount Clipping in Space Below)

# On The Inside With Dick Gregory

"The youth of America will have to solve problems they had nothing to do with creating, that were here before they got here," said Dick Gregory in a speech at FTU April 6. The theme of Gregory's speech was "Civil Rights" and his entire talk was based on the problems of "This degenerate society" and what the youth are up against.

Gregory talked about a number of subjects, those prominent being the news media, the Chicago Seven trial, drugs, democracy, tricks of the adults, the postal strike, law enforcement, the Supreme Court nominees, the "dollar", racism and Viet Nam, women, education, integration and busing, President Nixon, riots, and politics.

His speech was sparked by a great deal of spontaneous laughter and applause from the approximately 500 students and faculty members in the audience.

Gregory was introduced by Chris Schmidt, general station manager of WFTU, and approached the stage greeting the audience with the sign of peace. A banquet at the Herndon

Skyline had been scheduled in his honor but he was unable to attend due to a special juice diet he is on. Upon his arrival at the FTU campus, he jogged a five mile course that had been laid out by Security, as part of his daily routine.

Gregory was vocal and forceful on his subjects. A number of his thoughts were as follows:

On the news media: Kids are important to society. Newspapers aren't responsible in their portrayal of the youth...The same press that blew up over Agnew's speech on media coverage of news has decided guilt in the recent blowing up of buildings. It is very very sick when in a free society the press decides on the guilt of something before

the law enforcement officers do.

On the Chicago Seven Trial: When the jury went to deliberate Judge Hoffman sent everyone to jail. The process of law followed here is not the process that is followed in a free democratic society. It is very important that you understand the Chicago Trial. This is the country that made sure all Nazi war criminals got a fair trial.

On drugs: The Syndicate started pushing dope to black kids and the blacks begged the whites to stop them. It wasn't too long before they started pushing it to white kids. The users of drugs are criticized more than the pushers because the pushers make the money.

The Federal government knows every dope pusher in America. If they know every espionage agent, you know they know the dope pushers. They also know where the dope comes from. Without cops and politicians looking the other way, there would be no dope here.

On Democracy: If democracy is as good as they say it is, why are we running around the world ramming it down people's throats with a gun? If something is good, people steal it.

On tricks of the adults: We've used up all the tricks. Getting Nixon into the White House was the last trick this country has.

On the postal strike: It would have cost more money to get the army to deliver mail for three months than it would for the postal workers to get their raise for the rest of their lives.

This is the only country in the world where the college kids don't back the workers. College students should have rallied behind the postmen.

On law enforcement: If you toss dynamite in defense of getting some money, it's all right...The policeman is the number two man in the country...When a man is placed in a responsible position

If you put Nixons in all the governorships of all the states, the blacks would take over the country in a month.

Dick Gregory

On riots and the Declaration of Independence: 'Everyone should go to the library and copy down the Declaration of Independence. When people are burning down cities, they should be read the Declaration so they can see what they are destroying. When rights are destroyed, it is your duty to abolish the system. The Declaration should say 'for whites only'.

On politics: The South has produced some of the lowest politicians in the history of man...they play around with the kids. The North has produced some of the slickest, slimiest politicians...they steal money from the missile program...It takes no money to be a bigot but it takes a lot of money to be a conservative...In six months there will be a low economy unparalleled in the history of America.

In concluding his speech, Gregory addressed the audience and youth in general saying, "Thank you for changing our civil rights movement into a human rights movement."

According to Ken Lawson, Director of the Village Center, "most people think that Gregory was, by far, the best speaker we've ever had on campus. If he didn't do anything else, he made you think."

RICHARD CLAXTON GREGORY

The Thursday, April 16, 1970, issue of the "Yankton Daily Press and Dakotan," a newspaper of general circulation published at Yankton, South Dakota, indicated that Richard Claxton Gregory spoke at the Yankton College Forbes Hall, Yankton, South Dakota, on April 15, 1970, as a guest speaker for the Yankton College "Program on World Understanding."

During the two and a half hours that he was on the stage, he covered subjects ranging from education to the Vietnam war and Indian reservations. To the young people in the audience, he said, "You have to solve problems you had nothing to do with creating - thanks to us old fools."

He stated, "Nixon is not president, but after his election on a 'law and order' campaign he is a sheriff .... and not a very ethical sheriff at that."

"White folks is trying to hide bigotry behind conservatism. Gregory added, saying Nixon was elected by voters who never before voted Republican. But this will return to them," he said, "because white folks in America don't have enough money to last four years, under a Nixon administration that he said has already begun a hard recession."

"You young kids," he said, "you ain't seen no hell raised. Wait 'til your folks find out Nixon's taking their beer money."

Gregory said black people might tend to feel many deaths among the Black Panthers is genocide. But, he said, "They ain't nothing like you dirty stinking people in this state do to the Indians."

RICHARD CLAXTON GREGORY

He said, "Without police and politicians turning their backs, dope couldn't flourish in this country."

"If democracy is as good as we tell you it is," he said, "why do we have to go all over the world trying to ram it down everybody's throats?....If you have something good, they'll steal it. If you're so afraid of world-wide communism," said Gregory, "prove it.... and not with bombs.... Why don't you use the greatest weapon you have, why don't you implement and utilize the United States Constitution to its fullest?"

A source who has furnished reliable information in the past advised that Gregory's speech at Yankton College was attended by about five hundred students, and that Gregory was paid \$1,000 for his appearance by the Yankton College.

## / Gregory Speech Set /

Dick Gregory, comedian turned civil rights activist, has been scheduled to speak on the UT campus May 7, according to an announcement made Tuesday by Mark Grisar, chairman of the Man and His Environment speaker series.

Grisar said Gregory, whose appearance on the campus has been twice vetoed by UT administrators, has already signed a contract.

Gregory was the first scheduled speaker ever to be denied permission to speak on the campus by UT administrators.

Georgia legislator Julian Bond added to the impact of the veto when he broke his contract to speak at UT when he learned the University had refused Gregory the right to speak on campus.

Bond told the Daily Beacon then that if Gregory wasn't good enough to speak at UT, he wasn't either.

The incident sparked the controversy, which eventually led to a lawsuit challenging the validity of the University's speaker policy.

It was decided in U.S. District Court here that the policy limited freedom of speech and was unconstitutional.

# Crowd Fills Gym For Gregory

By Bruce Hight

America has run out of tricks, Dick Gregory said last night, and young Americans should "organize behind morality," this summer, to end the Vietnam war.

Gregory, speaking before a Man and His Environment crowd of 3,200 in Alumni Memorial Gym, said that President Nixon was the country's last trick.

"THEY ASK US to be non-violent," Gregory said, "But this is the only country in the world that ever dropped an atomic bomb on Japan."

He urged, "You young folks organize this summer, boycott the barbershops and I'll guarantee you that you'll have 300,000 barbers joining the peace movement."

The black comedian slammed the Federal Government for its methods of dealing with drug traffic by noting that had he never been in Knoxville before in his life, he could "get a fix" within 15 minutes after his arrival.

"IF A KID can find a heroin pusher," Gregory said, "you know the Federal government can."

Referring to the police and their attempts to halt the drug traffic, Gregory said, "They can't find the heroin, man?"

Gregory, who twice has been denied the right to appear at UT by the University Administration, walked up to the podium to begin his speech and said, "I'm happy to be in Knoxville." The crowd roared its approval.

GREGORY TOLD the audience that they, as the young generation, faced no problems that they had created.

"I feel particularly sorry for you young white kids," Gregory said, "because those bad checks your parents have been writing are gonna bounce."

Gregory endorsed the upcoming march in Nashville Sunday, telling the

crowd that their marching could set an example for others who might be oppressed and encourage them.

THE BLACK activist also took aim at the drug abuse, and attacked whites for caring about the problem only after it had moved out of the black ghetto and other poverty areas and into the white suburban areas.

Gregory heavily criticized college students for not backing American workers saying, "Who the hell do you think you are?"

He said students had missed an opportunity to help American workers by virtually ignoring the mailmen's strike recently.

GREGORY ALSO blasted the trial of

the Chicago 7 and pointed out that the one black being tried was Bobby Seale, who was sent to jail before the end of the controversial judicial proceedings for contempt charges.

Gregory said Seale was not sent to jail for any courtroom behavior, but for asking Judge Julius Hoffman in court how much stock he had in the Brunswick Corporation, a maker of war weapons.

"It's a cold day in America when anti-war demonstrators end up in court before a judge who manufactures war materials," he said.

Gregory also told "the damn fools" who warn about the dangers of world-wide Communism to make the U.S. Constitution really work, and then say to them, "Top that, baby."

## 4000 Hear Nixon Scored

# 'We Used All the Tricks' Dick Gregory Tells This Generation

By JIM STOVALL  
News-Sentinel Staff Writer

Dick Gregory, whose absence from UT last year stimulated the open speaker controversy, told 4000 wildly enthusiastic students there last night that his generation has "used up all the tricks."

Mr. Gregory, a black comedian who was barred from UT last year by Chancellor Charles Weaver, said today's young people—the group to which he was speaking—are the "most morally honest, ethical group of young people in the history of the world."

"It's an embarrassing thing for me to say to you, but you are going to have to solve a lot of problems, and every one of those problems you had nothing to do with," he said.

### Nixon Was 'Last Trick'

"Not only did we not solve the problems, we used up all the tricks," he said to the group, which was packed into Alumni Memorial Gymnasium.

The "last trick" was electing Richard Nixon president, he said. "Richard Nixon shows the state of the nation far better than anything else in this country."

"Out of 200 million people in this country, he had to pick one person moral enough to fill a vacancy on the Supreme Court—and the most ethical man he could come up with was a Haynsworth."

"On the second time around, he reached even further down the barrel of scum and got a Carrawell. His nomination was

an insult to every decent thinking person on the face of the earth!"

### Predicts Defeat

Mr. Gregory then, as he was many times during his speech, was interrupted by loud applause, cheers, stomping feet, and whistling.

The civil and human rights advocate predicted that Nixon, the "dumbest white boy ever to be in the White House," would be defeated in 1972 because he is "tampering with the money."

"Within the next six months, we will be reaching the economic low point of our history, and the same white folks that put him (Nixon) in the White House are going to take him out. The 'silent majority' is going to be the most vocal group you ever heard," he said.

Mr. Gregory said the older generation is so interested in making money that "a moral thought hasn't penetrated their heads in the last 20 years."

### 'Police Not Real Enemy'

"That's why it's so hard for you to communicate with your parents," he told the group.

Mr. Gregory, who termed himself "strongly committed to non-violence" said that young people should "rally, behind morality" and protest, not by dynamiting buildings or blowing up police stations.

"The police stations aren't your real enemies. Your real enemies are the Rockefellers, the Kennedys, the Henry Fords, and the Du Ponts. After you've blown up all the police stations,

they'll still be around polluting your air and water," he said.

The 1968 presidential candidate fixed sharp rebukes on conservatives and right-wingers, "who have substituted the word 'patriotic' for 'neurotic'."

Applause Long, Loud

"You fools are so interested in worldwide communism. You would implement your own Constitution to the fullest, and then say to the rest of the world, 'Match us for humanity.'"

This remark drew the loudest and longest applause from the crowd.

"The most important question you young people face is this: If democracy is as good as we say it is, why are we running around the world trying to ram it down people's throats at gunpoint?" he said.

#### Offers Solution

Mr. Gregory, among many other subjects, talked about the Chicago 7 trial in his two-and-a-half hour speech. He said he recognized the need for order in the court and offered a solution for disruptive defendants.

"If a defendant disrupts the courtroom, stop the trial and give him 10 days in jail for contempt. If he comes back and disrupts the trial again, stop the trial and give him 20 days in jail," he said.

Gregory said judges should do this immediately and not "sit back and add the contempt citations up," as Judge Hoffman did at the Chicago trial. The contempt sentences should be carried out immediately.

"Any time the authorities sit

back and add things up, they've got something on their minds besides law and order," he said.

Mr. Gregory's speech marks the symbolic end to a year-and-a-half struggle for an open speaker policy on the UT campus. When he was vetoed by Chancellor Weaver in September, 1968, and re-vetoed the next February, the campus began struggling with its first major student-administration controversy.

#### KC Students Attend

That controversy ended in Judge Robert L. Taylor's Second District Federal Court in April, where UT's closed speaker policy was ruled unconstitutional.

The speech last night was attended by many Knoxville College students as well as UT students.

One minor incident occurred just before the speech began. Two white students entered the balcony draped in Confederate flags. They were torn off, after a brief struggle, by four black students, and then the flags

were ripped apart by several other black students.

Mr. Gregory's speech was laced with the wit that made him one of America's top comedians before he undertook his Civil Right struggle several years ago.

#### Blame It on Others

He said he was frequently asked why there were no riots last summer. He doesn't really know, he said, but he always says that Negro leaders "were in Ireland serving as technical advisors."

"You know, it makes no difference who's rioting, the police always react in the same way. They always blame it on outside agitators. In Ireland, it's Billy Graham and the Pope.

"Did you ever stop to think about all the religious struggles going on in the world today? It kind of makes you wonder what great secret the atheists have that makes them act so godlike."

## Dick Gregory: We Seek 'Rights By Constitution'

Human rights activist Dick Gregory leveled verbal attacks at almost every American institution here Thursday but wound up by saying minority groups "want their rights on the same piece of paper that others have them . . . the U.S. Constitution."

Gregory told the more than 3300 persons at the University of Tennessee

Gregory

Alumni Gymnasium "young people need to organize behind morality," in an effort to change this country.

"On the issue of law and order the 38-year-old comedian said, 'the same racist system which guns down the blacks that mean something to me is the same system which allows politicians

and cops to turn their heads to black pimps and prostitutes.'"

"Authorities are not supposed to sit by and let violations build up for a grand total before acting; that's not law and order." His example of this was "Judge Hoffman in the Chicago 7 trial sending everyone to jail while the jury was out and allowing the contempt of court violations build up until the end of the trial."

He also struck out at the nation's abandonment of "moral thinking" in favor of making money.

"The old fools like the Rockefellers, the Duponts and others think morality is a clean shave, a haircut and a Brooks Brothers suit."

"When they talk about God bless America, they are really talking about the stock market. When they talk about America the beautiful, they are talking about their check books."

"About the administration's foreign policy he said 'If Democracy is as good as we say it is why are we going all over the world trying to ram it down people's throats with a gun?'"

"Young people must make Democracy something that others will want, not something to be forced on them."

Switching to busing students to achieve racial balance Gregory said, "you white folks have been busing black kids past white schools for 50 years to segregate students and now you act as though Negroes invented busing last week."

In closing he said young people must work to change the moral structure "without burning down police stations and killing cops."

RICHARD CLAXTON GREGORY

A source, who has furnished reliable information in the past, advised on April 14, 1970, that DICK GREGORY, from Chicago, Illinois, spoke at the UT Alumni Gym, Knoxville, Tennessee, on April 9, 1970, from approximately 8:10 p.m. until 10:25 p.m. There were approximately 3,500 people in attendance including black and white students and adults.

Prior to his appearance on the stage, AVON ROLLINS, employed Tennessee Valley Authority, Knoxville, Tennessee, appeared on the stage shortly and then departed.

DICK GREGORY stated that the white man had run out of tricks and that electing President NIXON was the last trick. He stated this country is based on money and when the ROCKEFELLERS, KENNEDYS, and DU PONTs stop polluting this country there will be no money left.

He said that white children love "pot" because they were taught that black children could obtain it and get more thrills than the white parents could with alcohol.

He urged every student to go to the library and copy the Declaration of Independence, indicating when we march in Washington, we can say "We hold these truths to be self evident." He stated it is the right of the people to overthrow the Government at which time he was cheered and applauded.

He said a march would be held all over the country, including Knoxville, on April 15, 1970, and indicated the Declaration of Independence should be read at that time.

He said the word "pig" originated from the Bible and this information can be found in the Gospel of Mark. He referred to the police as "pigs" and indicated they are after the Panthers and are protecting dope pushers. He said within 15 minutes after he arrived in Knoxville he could find a place to buy dope and criticized the police department for not being able to find these places and that even a 15 year-old child can buy dope. He said that "pigs"

are Fascists and that the police pick up prostitutes for their own "game."

He invited everyone to come to Washington, D. C., on July 4th for a march.

He jokingly indicated he wanted his money therefore he could not be a communist as he loves money too much, but did indicate the communists love money also.

### BLACK PANTHER PARTY (BPP)

According to its official newspaper, the Black Panther Party (BPP) was started during December, 1966, in Oakland, California, to organize black people so they can take control of the life, politics, and the destiny of the black community. It was organized by Bobby George Seale, BPP Chairman, and Huey P. Newton, BPP Minister of Defense. Newton is presently serving a sentence of 2 to 15 years on a conviction of manslaughter in connection with the killing of an Oakland police officer.

The official newspaper, "The Black Panther," which further describes itself as the "Black Community News Service," states that the BPP advocates the use of guns and guerrilla tactics in its revolutionary program to end oppression of the black people. Residents of the black community are urged to arm themselves against the police who are consistently referred to in the publication as "pigs" who should be killed.

"The Black Panther" issue of September 7, 1968, contains an editorial by BPP Minister of Education, George Mason Murray, which ends with the following:

"Black men. Black people, colored persons of America, revolt everywhere! Arm yourselves. The only culture worth keeping is a revolutionary culture. Change. Freedom everywhere. Dynamite! Black Power. Use the gun. Kill the pigs everywhere."

Included in the introduction to an article appearing in the October 5, 1968, edition of "The Black Panther" is the statement, "... we will not dissent from American Government. We will overthrow it."

Issues of "The Black Panther" regularly contain quotations from the writings of Chairman MAO Tse-tung of the People's Republic of China and feature MAO's statement that "political power grows out of the barrel of a gun."

At the appearance of GREGORY two tape recording  
devices were utilized, one the stereophonic Mini-Phone  
recorder, and the other a cassette type recorder. It  
should be noted DICK GREGORY spoke in a partially filled  
hall varying his voice from extremely low to high pitched  
shouting and screaming with resultant reverberation and echo  
effects. His pronunciation was of poor quality and some  
of his words were clipped and hard while others were slurred,  
making the net result of such poor quality that the  
majority of the recordings are completely unintelligible.  
These tapes have been carefully monitored in the Springfield  
Office under as close to ideal conditions as can be obtained  
and where this individual's address could be understood  
we have been unable to distinguish any reference to threats,  
direct or veiled, to individuals of prominence in the  
government or clear statements which might incite others  
to violence and therefore, be of possible future evidentiary  
value.

The LHM submitted in referenced communication, 4/21/70,  
contains the salient points of GREGORY's presentation as  
obtained through personal observation by an Agent trained  
in racial matters who was in the audience. UACB due to the  
poor quality of the tapes, no further attempt will be made  
to copy and/or transcribe them but they are being retained

RICHARD CLAXTON GREGORY,  
Also Known As Dick Gregory

On April 17, 1970, Special Agents of the Federal Bureau of Investigation observed the following:

At 12:30 p.m., April 17, 1970, DICK GREGORY, under the sponsorship of the Associated Students, University of Hawaii (UH), Honolulu, a legitimate student organization, delivered a speech at Andrews Amphitheater, UH.

GREGORY's speech was replete with humor and was well received by more than 5,000 individuals, mostly comprising of students.

GREGORY said he spends approximately 98% of his time on college campuses and his reason for doing this is that the young people today are probably the most highly dedicated college career group of young people that has ever lived in the history of this country. GREGORY said one problem he finds with young people is they still depend upon old Right Wing newspapers to tell them who they are and what they ought to

Re: RICHARD CLAXTON GREGORY

buy. GREGORY said the average established newspaper in America is not morally sound enough to discuss matters with young kids. GREGORY added it is embarrassing to him when he has to say to young people that all the problems confronting America today will have to be solved by the young people even though these problems were here before the young people arrived. GREGORY said "thanks to us old fools" these problems will not be here when you leave.

Much of GREGORY's speech was devoted to criticizing Vice President SPIRO AGNEW. In this respect GREGORY said, "You know a lot of people are kinda down on AGNEW but in all honesty, I must admit I kinda dig AGNEW myself. I figure that because I think AGNEW's puttin' everybody on. I don't think it's humanly possible for one man to be born that dumb. You know that if AGNEW was as dumb as he wants us to believe he is, he wouldn't be able to walk and chew gum at the same time. And what I like about AGNEW, you can say anything you want about him but at least you have to admit he is consistent. And I wouldn't be surprised if AGNEW got on television next week and called NIXON a honkie. And even just the thought that AGNEW went to public school is enough to make everyone want to go to private schools."

In speaking about discriminatory conditions in Hawaii, GREGORY said the young people in Hawaii have a special problem. They have a big job. He said, "The Lord give birth to Hawaii. How many Hawaiians can you find here? Which makes you just as guilty as that other freak." ... "You check out the representatives in Congress, three of em yellow, four of em yellow, right? Three of em Japanese, one Chinese, who's representing the folks? The brown people have really got a thing, but you yellow folks got a thing, too. You might be a little bit comfortable over here, but baby that cat don't give no more damn about you than he do about me. And if you don't believe that, you check

Re: RICHARD CLAXTON GREGORY

out, you check out what the yellow folks got. Four representatives in Congress and that white man got his arms around you telling you all that -- OBSCENE --, but if you check out the state mental hospital here, it's full of yellow folks. There's something wrong somewhere. Evidently you're not as comfortable as you want people to believe you are."

In speaking about President RICHARD NIXON, GREGORY said, "I guess when you stop and think about it, that NIXON got into the White House on the last trick this country had to offer. He ain't nothin' but an old tricky President. And if you get a good look at him the next time you see him on television, look at him. He don't even look like he believes he's President. And if you look at those last two Supreme Court nominations, he don't think like he believes he's a President."

GREGORY said, "I tell you what happened. White folks in America dirtied up the word black, not us. White folks in America corrupted power, not us. Then one day we come through with two legitimate words 'Black Power' and the white folks go crazy."

In speaking about economic conditions in America, GREGORY said that he was in Detroit, Michigan, during the month of March, 1970 and that he had been in Seattle, Washington, at the Boeing Aircraft Corporation and he had noted that unemployment in the United States had rose 46%. He mentioned that almost all Americans and particularly politicians are concerned only about money. He said when we talk about "God Bless America", what we really mean is "that's the stock market". When we say "America the Beautiful" ... "that's the bank". GREGORY said, "And NIXON fixin' to mess with the money. Where do you ever see In God We Trust? On the church, on the Bible, on the court

Re: RICHARD CLAXTON NIXON

or on the money? And you ain't seen no fools that crazy. Damn NIXON, he's messin' with the jolly green Jesus nowadays. That's all we think about in this country, that money. We said you were a sick insane nation, well, I'm sure you all have read about the buildings that got blown up in New York City. Every newspaper in America has written an editorial about those buildings that was blown up in New York City. Let me ask you something. Are you aware that ten days before the buildings were blown up in New York City, did you read the worldwide news that went out on a little town called Danbury, Connecticut, where a bunch of degenerate men stuck up a bank one day? Did you read that? And they set off ten dynamite blasts all over the town to get the police out. ... Not one newspaper in America has written an editorial about the bombings in Danbury, Connecticut. Only about the bombings in New York City because we are such a sick nation as long as we use some dynamite to try and get you some money, we will understand."

GREGORY said that on one occasion, NIXON appeared on nation-wide television and said that he was going to do everything he could to slow up integration of schools in the South. GREGORY said that before this time, 'Black folks' were so busy they weren't too concerned as to progress of integration of schools in the South. However, when they heard NIXON make this statement, they organized and as a result they promoted integration in more schools in the South within the last two months than what they did in the last 15 years.

GREGORY criticized school teachers in America stating that they were only interested in money. He told the students present that the schools belong to them. He criticized school teachers for not going on strike when President NIXON vetoed the educational bill.

Re: RICHARD CLAXTON GREGORY

GREGORY announced that the Chicago conspiracy defendants would appear in Hawaii the following week. He said those present should listen to what these men have to say. He said that young folks should not listen to their parents' conclusion of the Chicago conspiracy trial. He said, "JULIUS HOFFMAN's actions in Chicago made HITLER look like he had a whole lot of class. You listen to these old fools and all they talk about is, well, you've got to have order in the court." In referring to the treatment received by BOBBY SEALE, Chairman of the Black Panther Party (BPP), GREGORY said the other defendants said far more vicious things in the courtroom than what SEALE said but they did not have tape placed over their mouths. He said on one morning when the Judge came into the courtroom, BOBBY SEALE said to the Judge, how much stock do you own in the Brunswick Company. GREGORY said you should check into the Brunswick Company and you will find the Brunswick Company is one of the largest industries for manufacturing of machine guns and dynamite. He said, "It's a cold, dirty America when antiwar demonstrators end up on trial in a courtroom with a judge that manufactures the war materials."

In terminating his speech, GREGORY said, " ... and endowed by the creator with certain inalienable rights and when these rights are destroyed over long periods of time, it is your duty to destroy or abolish that government."

A characterization of the BPP is appended hereto.

On April 19, 1970, GREGORY appeared on KGMB-TV between the hours of 9:30 p.m. and 10:30 p.m. along with CECIL HEFTEL, President of KGMB. HEFTEL mentioned this session was intended to be a question and answer session. However, GREGORY did most of the talking and only four or five questions were presented to GREGORY by an audience in the television studio of approximately 20 individuals.

Re: RICHARD CLAXTON GREGORY

GREGORY at this time devoted most of his speech to the plight of the Black people and the difficulties the Black people are encountering in becoming first-class citizens. GREGORY criticized present conditions existing in the United States and for the most part discussed discriminatory practices against the Black man as he has personally experienced.

BLACK PANTHER PARTY,  
Also Known As  
Black Panther Party for Self-Defense

According to its official newspaper, the Black Panther Party (BPP) was started during December, 1966, in Oakland, California, to organize black people so they can take control of the life, politics and the destiny of the black community. It was organized by Bobby Seale, BPP Chairman, and Huey P. Newton, BPP Minister of Defense. Newton was sentenced in 1968 to serve 2 to 15 years after being convicted of manslaughter in connection with the killing of an Oakland police officer.

The official newspaper, "The Black Panther," which further describes itself as the "Black Community News Service," states that the BPP advocates the use of guns and guerrilla tactics in its revolutionary program to end oppression of the black people. Residents of the black community are urged to arm themselves against the police who are consistently referred to in the publication as "pigs" who should be killed.

"The Black Panther" issue of September 7, 1968, contains an editorial by BPP Minister of Education, George Mason Murray, which ends with the following:

"Black men. Black people, colored persons of America, revolt everywhere! Arm yourselves. The only culture worth keeping is a revolutionary culture. Change. Freedom everywhere. Dynamite! Black Power. Use the gun. Kill the pigs everywhere."

Included in the introduction to an article appearing in the October 5, 1968, edition of "The Black Panther" is the statement "...we will not dissent from American Government. We will overthrow it."

Issues of "The Black Panther" regularly contain quotations from the writings of Chairman MAO Tse-tung of the People's Republic of China and feature MAO's statement that "political power grows out of the barrel of a gun."

The national headquarters of the BPP is located at 3106 Shattuck Avenue, Berkeley, California. Branches have been established at various locations throughout the United States.

RACIAL MATTERS

On May 10, 1970, comedian Dick Gregory appeared as a guest speaker on the campus of Kentucky State College, Frankfort, Kentucky, a predominately Negro institution, after having been extended an invitation earlier to appear by the Performing Arts and Lecture Series Commission at Kentucky State College, F. C. Tillis, Chairman.

Detective [redacted]  
Kentucky State Police, Post Number 12, Frankfort, Kentucky, was assigned by the Intelligence Division, Kentucky State Police Headquarters, Frankfort, to attend the speech which lasted some two hours, was attended by approximately 300 members of the student body and faculty and various members of the Negro community, with only a scattering of white people present. Highlights of the speech which was made in Radford Hall on the campus beginning at 1:30 PM on May 10, 1970, were as follows, according to [redacted]

b6  
b7C

Using colorful often profane phrases, Gregory attacked a broad spectrum of American society ranging from President Richard M. Nixon and Vice-President Spiro T. Agnew to Wall Street and the Peace Program. His sarcastic address drew immediate laughter and was interrupted by frequent applause.

Gregory insisted that black people should not hate the white people, but "hate this white racist system."

APPEARANCE OF COMEDIAN,  
DICK GREGORY AS SPEAKER  
AT KENTUCKY STATE COLLEGE,  
FRANKFORT, KENTUCKY

Gregory described Nixon's election to the presidency as "the last trick the country had to offer." He alleged that Nixon's conservatism was just a way to make the racists respectable. He accused the President of being stupid and at one point referred to him as a tramp. He had sharp words for Vice-President Agnew and while criticizing Agnew as "dumb", he stated that the "only time Agnew frightens me is when Nixon is out of the country."

Gregory viewed the killing of white students at Kent State University in Ohio with mixed emotions. He pointed out that when three Negro students "got shot in the back" in a Southern college, "nobody got upset." He added that Nixon quickly cited that the throwing of dynamite be made a capital offense after several buildings were bombed in New York City. He contrasted this to the failure of the President to take any action when a Negro church was dynamited.

Gregory defended black power and drew loud applause when with a clenched fist he told the audience "that means morality." He described white reaction to the phrase as "them freaks went crazy."

With reference to the busing issue, Gregory exclaimed "you white folks have been busing Niggers past white schools for 50 years."

Gregory noted that Negro morality is continually subjected to a tax and lashed out at the morals of America's system which he described as "shimmy and degenerate." Gregory added that when the phrase God bless America is spoken, what is referred to is the stock market. He said some of the best dressed people who run Wall Street are "the slimiest degenerates."

Q D

APPEARANCE OF COMEDIAN,  
DICK GREGORY AS SPEAKER  
AT KENTUCKY STATE COLLEGE,

With reference to the recent peace rally in Washington, D.C. on the day before, Gregory stated that the reason there were so few blacks at this rally was that none wanted to participate in the movement when one of the foremost spokesman, Senator William Fulbright, "the racist pig from Arkansas," opposed every major civil rights legislation.

Gregory strongly opposed the war in Vietnam and stated that while he had heard pleas for non-violence at home, he could not understand how the leaders of Government could justify the bombing and napalming of children and women in Vietnam.

Gregory also criticized the fairness of the draft system and asked "how come these duPont kids don't get killed."

Gregory compared the Black Panthers to the American Indians and the genocide practices employed both against the American Indians and the Panthers.

Gregory added that Negroes viewed the trial of the Chicago 7 with mixed emotions and commented "we love to see all you white folks done in." With reference to Federal Judge Julius Hoffman, Gregory stated that Hoffman "would make Hitler look like he had a lot of class." He asked what kind of system it is which would allow defendants to violate order in the courtroom and then in the end slap them with long prison terms. Gregory contended that the first time anyone misbehaved in the courtroom, they should have been jailed for ten days and the punishment should be doubled if they repeat it.

Gregory also stated that nothing was done about the drug problem in this country until the use of drugs was expanded from the black ghettos to the suburbs.

APPEARANCE OF COMEDIAN,  
DICK GREGORY AS SPEAKER  
AT KENTUCKY STATE COLLEGE,  
FRANKFORT, KENTUCKY

Gregory denied ever calling any policeman a pig but stated that he saw nothing wrong with this connotation. He said the reference was first made in the Bible and urged his listeners to look it up.

Gregory discussed other matters including Supreme Court nominees, the white exodus to the suburbs, looting during riots, civil rights leaders and boycotts.

He stated that the two men which President Nixon unsuccessfully nominated to the Supreme Court (G. Harrold Carswell and Clement Haynsworth) were "the slimiest degenerates possible."

He committed that the racism has propelled the white people to move to the suburbs turning over the cities to the black people.

He compared Martin Luther King, Rap Brown and Stokely Carmichael to George Washington and Patrick Henry as being liberators for human rights.

On May 11, 1970, Chief of Police Douglas True of the Frankfort City Police Department and Detective [ ] of the Kentucky State Police, Frankfort, Kentucky, advised that there had been no disturbances as a result of the above speech delivered by Gregory at Kentucky State College and Gregory had left the college campus on Sunday afternoon, May 10, 1970, to deliver a speech to a Mormon gathering somewhere in the State of Utah.

RE: APPEARANCE OF NATIONALLY KNOWN COMEDIAN  
DICK GREGORY AT MORGAN STATE COLLEGE,  
BALTIMORE, MARYLAND,  
APRIL 9, 1970

On May 21, 1970 BA T-1, a confidential source of this Bureau, who has furnished reliable information in the past, advised The Book Of The Month Club of Morgan State College (MSC), a predominantly Negro college in Baltimore, Maryland sponsored the appearance of nationally known comedian DICK GREGORY on the MSC campus at 1:00 P.M. on April 9, 1970. Approximately 2,500 persons, primarily MSC students, attended. ~~(S)~~ (U)

BA T-1 stated that GREGORY spoke for approximately two hours, primarily about America being a sick society. ~~(S)~~ (U)

BA T-1 provided the following as a portion of the statements made by GREGORY: ~~(S)~~ (U)

GREGORY said, "For the past two years I have spent most of my time on college campuses talking with you because it's you kids who will have to straighten out this sick degenerate society. It's a sick society that has as a Vice-President a cat as dumb as AGNEW. He is so dumb that he cannot walk and chew gum at the same time. He is so dumb that he is the only cat that went on a panty raid in college and came back with a jockey strap. It's a sick society and you are the ones to straighten it out, but it's too bad that the old fools have used up all the tricks. It's a sick society where the news media prints an article about the bombing of three buildings in New York and names the culprits as the Left. They have named the culprits before the police and authorities have investigated. It was night time, no one was hurt, three buildings damaged and every paper carried the story. RE: APPEARANCE OF NATIONALLY KNOWN COMEDIAN

could have killed hundreds of people in a shopping center, but you heard very little about that. It's a sick society. If you break in a house, hit a little old lady beside the head with a brick and take a nickle and get caught, you are really in trouble, but if you break in the same house, hit the same old lady with the same brick and take a million dollars, they would probably say she had no business keeping that kind of money in the house. This is a sick society and the old fools have used up all the tricks. All you need in this country to get out of big trouble is the big buck, a lawyer and plead insanity. Now, don't you go writing a bad check for \$20.00; you are going to jail. You can plead insanity, run up and down the street naked a- chewing razor blades, but you are going to jail for that bad check. You have a big job straightening out this sick society. Now, when the riot season comes again, that's right, they have given us July and August, when the season comes again, I want you to copy, you can do that without reading, copy the Declaration of Independence and sit the old fools in front of the TV and let them watch those niggers looting and tearing up the town; then as loud as you can, read the Declaration of Independence to them, and may be, they, for the first time, will understand what's going on. It's a sick society and you have got a big job straightening it out." U

BA T-1 said there were no incidents either during or after GREGORY's appearance. X (U)

RICHARD CLAXTON GREGORY,

All sources utilized in this memorandum have  
furnished reliable information in the past. u

On June 23, 1970, CG T-1 advised that on the  
night of June 22, 1970, Richard Claxton Gregory appeared  
at a benefit for the Afro-American Patrolmen's League  
(AAPL), entitled "Dick Gregory in Concert". ~~u~~ u

Dick Gregory by profession is a nightclub enter-  
tainer (comedian), who in the past has concerned himself  
with civil rights and social issues, but prefers to be known  
as "a commentator on affairs - social and political". u

CG T-1 advised that George O'Hare, member Board  
of Directors, Catholic Interracial Council, Chicago, served  
as the moderator for the program, which consisted of two  
phases: ILL u

1. A panel discussion
2. Entertainment

ILL CG T-1 advised that the panel was made up of

President of the AAPL. u  
AERO-AMERICAN PATROLMEN'S LEAGUE

Robinson stated the philosophy of AAPL, which is set forth in the form of a resolution attached hereto, after which he and Father Clements answered questions, submitted by the audience, as read by Evans. u

In response to a question Father Clements explained that his interest in the AAPL stemmed from the fact that policemen in most communities serve the people and give the people a sense of security, but this was not the case in the black ghettos of Chicago and the AAPL was the only hope the people of these ghettos have. u

The Chicago Police Department had special, negative methods of dealing with ghetto dwellers and it was nonsensical to think that the power structure would consider applying uniform police service to all communities. The AAPL, in its brief existence, had demonstrated that the police could serve those who need the police most, the ghetto dwellers. u

Following the panel, Gregory entertained by telling jokes related to current events, especially statements attributed to Vice President Spiro T. Agnew and his humor was well received. u

Gregory entertained for approximately 50 minutes, after which he praised Robinson and the AAPL, the Black Panthers (BPP) and the overall youth movement. u

A characterization of the Black Panther Party (BPP) is attached. u

CG T-1 advised that admissions of \$5.00 and \$10.00 were charged, \$5.00 for balcony seats and \$10.00 for the main floor. Approximately 200 persons were seated in the balcony and 300 on the main floor. Approximately 60% of the audience was Caucasian and in the over 35 age group. u

In addition to the above economic activity, June 29, 1970, Newsweek, a weekly nationally distributed publication, reports Gregory has returned to night clubs "to pay the rent now that school is out".

On March 20, 1970, CG T-2 advised that Gregory's booking agency was American Program Bureau, 59 Temple Place, Boston, Massachusetts. ~~(U)~~ (U)

APPENDIX

BLACK PANTHER PARTY

According to its official newspaper, the Black Panther Party (BPP) was started during December, 1966, in Oakland, California, to organize black people so they can take control of the life, politics, and the destiny of the black community. It was organized by BOBBY GEORGE SEALE, BPP Chairman, and HUEY P. NEWTON, BPP Minister of Defense. NEWTON is presently serving a sentence of 2 to 15 years on a conviction of manslaughter in connection with the killing of an Oakland police officer.

The official newspaper, "The Black Panther," which further describes itself as the "Black Community News Service," states that the BPP advocates the use of guns and guerrilla tactics in its revolutionary program to end oppression of the black people. Residents of the black community are urged to arm themselves against the police who are consistently referred to in the publication as "pigs" who should be killed.

"The Black Panther" issue of September 7, 1968, contains an editorial by BPP Minister of Education, GEORGE MASON MURRAY, which ends with the following:

"Black men. Black people; colored persons of America, revolt everywhere! Arm yourselves. The only culture worth keeping is a revolutionary culture. Change. Freedom everywhere. Dynamite! Black Power. Use the gun. Kill the pigs everywhere."

Included in the introduction to an article appearing in the October 5, 1968, edition of "The Black Panther" is the statement, ".....we will not dissent from American Government. We will overthrow it."

Issues of "The Black Panther" regularly contain quotations from the writings of Chairman MAO Tse-tung of the People's Republic of China and feature MAO's statement that "political power grows out of the barrel of a gun."

The national headquarters of the BPP is located at 3106 Shattuck Avenue, Berkeley, California. Branches have been established at various locations throughout the United States.

My dear Mr. Waldie:

A question has plagued me since seeing Mr. Dick Gregory on the David Frost Show, i.e., how can nine year olds find drug peddlers, dope pushers, etc., when the FBI or police can't? Either we have underestimated our youth or overestimated the FBI.

I am sure the above is simplification of the problems involved; nevertheless, it is still very puzzling. Another fact bothers me, i.e., why have I only been able to get information on left wing militant organizations being raided when I have read reports on right wing militant organizations and have never heard of any raids?

Any light you can shed on the above subject would be appreciated.

# Drug Foes Stage Protests

By Aaron Latham  
 and B. D. Colen

Washington Post Staff Writers

Marion Barry violated District laws three times yesterday by leading about 80 demonstrators to the doorsteps of three foreign embassies, then capped the day with a meeting with State Department officials.

The demonstrations and the meeting had a common goal: Bringing to an end the flow of illegal narcotics into the United States.

Barry and the demonstrators, some of whom are employees of Pride, Inc., the community-self-help organization that he heads, broke a District of Columbia law that bans demonstrations within 500 feet of an embassy.

The demonstrators were threatened with arrest when they massed in front of the embassies of France, Turkey and Italy. They disbanded each time police told them to do so, but not before Barry told the police that "everybody has a right to picket where he wants, so long as he is orderly."

The demonstrators blame Turkey for allowing opium-producing poppies to be grown; France for allowing opium to be processed into heroin within its borders, and Italy for allowing the Mafia to direct international drug traffic.

The State Department was picked as a target because the demonstrators feel that the government is not doing enough to stop the flow of illegal drugs, and is maintaining

friendly relations with the countries producing the narcotics that come to this country.

Julius Hobson, the Rev. David Eaton, the Rev. Walter Fauntroy, Reginald Booker, chairman of the Emergency Committee on the Transportation Crisis and Barry spoke at the evening State Department rally.

Hobson, a former school board member, complained that "the FBI can come into my office and find my typewriter ribbon that I've hidden, but they can't find shiploads of drugs."

The group met with Deputy Assistant Secretary of State for Public Affairs William Blair, special assistant to the Assistant Secretary, Edward Blakely, and Harvey Weinman, special assistant to the Secretary of State for narcotics.

After emerging from the State Department after the meeting, Barry said the session accomplished nothing.

Earlier in the day, in front of the Turkish Embassy, the demonstration was forced to take a comic detour.

When the demonstrators were told by police to move on, they asked if they could demonstrate against Turkey in front of the nearby South Vietnamese Embassy. They were told that they could.

So the line of demonstrators filed over to the surprised Vietnamese diplomatic headquarters at 2251 R St. NW, across Sheridan Circle from the Turks, and took up their chant of, "One, two, three, four, Turkish drugs must go."

Last Nov. 14 police and peace demonstrators clashed when marchers wanted to protest in front of the South Vietnamese Embassy. But yesterday's demonstration in front of that embassy saw police blessing

One protester said it was like "Catch-22": "You can only demonstrate in front of the South Vietnamese Embassy if you are protesting against Turkey."

The protesters began their demonstrations in front of the French Embassy, at 2535 Belmont Rd. NW, at about 12:30 p.m.

Only a handful of police were originally on the scene. But when Barry and the others defied the 500-foot limit, the police massed in force.

A large contingent of civil disturbance unit members under the direction of Deputy Chief Owen Davis arrived, along with a long column of police cars and a stream of motor scooter officers.

Police brought along a bus for transporting prisoners and said they planned to begin making arrests. But as they moved in the demonstrators filed onto their own six buses. The protesters, who had been at the French Embassy for more than an hour, headed for the Turkish Embassy.

In front of the embassy, a policeman tore up a demonstrator's sign that read, "Bust pushers and distributors by

any means necessary." After consulting with police, the demonstrators moved to the South Vietnamese Embassy.

An hour later, the antidrug protesters transferred their demonstration to the Italian Embassy, at 1601 Fuller St. NW, where they were again threatened with arrest and again dispersed.

The antidrug demonstration was planned as a part of a week of activities marking Pride's third anniversary.

# Dr. Benjamin Spock, Dick Gregory, and William Kunstler featured in fall speaking series at Regina Campus

The Students' Union of the University of Saskatchewan's speaking series this fall will feature three speakers who will appear on alternate dates: Dr. Benjamin Spock, Dick Gregory and William Kunstler.

Dr. Spock will speak in Regina October 27, Dick Gregory on February 23 and William Kunstler on March 22.

All speakers will appear in the evening and will spend a day on campus meeting with small groups of students.

At press time topics had been finalized for two speakers. Dr. Spock will speak on "Dissent in Our Society" and Dick Gregory will speak on "Civil Rights."

Dr. Spock, the famous baby doctor, who wrote "Baby and Child Care" has a long history of work in the fields of pediatrics and child psychology and

has written several books and articles that deal with his profession.

The book Baby and Child Care has sold 22,000,000 copies and is an indication of the number of children raised according to Dr. Spock's method.

It would appear at first glance that Mr. Spock should be well qualified to speak about dissent in our society when presumably a large number of Spock-reared children are dissenters themselves.

In 1962 Dr. Spock joined the National Committee for a Sane Nuclear Policy and was co-chairman until 1967 when he became co-chairman of the National Conference for New Politics.

In January of 1968, Dr. Spock along with four other men was convicted of conspiring to counsel young men to avoid the draft. In a subsequent trial Dr. Spock and the others were found guilty. The case was reversed on appeal. And Dr. Spock is currently speaking nationwide on behalf of the Civil Liberties Legal Defence Fund, Inc., an organization which raises funds to provide for the legal defence of conscientious resisters throughout the country.

Dr. Spock has voiced his opposition to the Vietnam war and made public appearances where he has criticized the Nixon administration and appealed to youth to use legal polite means to put their case and stated that in the event that no action is forthcoming "then an increase in dissent and militant action is certainly justified."

He said that "every aspect social in the United States — ranging from the rights of blacks to improved education and medical care — justifies such an increase."

Finally Dr. Spock says he disbelieves in violence because "in the great majority of cases it works to the advantage of those against whom it is being used."

Long-time civil rights activist and leading entertainer Dick Gregory is well equipped to speak on the question of civil rights.

Gregory was one of the first big name black entertainers to get active in the civil rights movement in the sixties, risking his career as he did so.

Since that time, many early civil rights headlines have backed away from the struggle of black people as it has intensified, becoming necessarily more militant, and as the repressive acts of the authorities have become more violent. Gregory has hung tough.

A very witty man, Gregory uses humor as a weapon in the fight for human dignity. His sardonic humor often cuts through the confusion surrounding a question and lays bare the real situation.

Kunstler, chief defence lawyer for the Chicago 7 conspiracy trial, makes the claim that he has been radicalized through the process of the trial. He has spoken to many audiences in the U.S. and usually he enters giving the symbolic 'clenched fist salute'.

He addresses the audience with a description of the Chicago trial and events surrounding it. He says that the government will not yield to conventional protest. Maybe, he says, "It's time to turn to another type of protest."

He says that we must build up a resistance to the shocking events of the repressive acts of the U.S. state apparatus.

In his address to the public Kunstler describes the U.S. as having a prevailing attitude that compares to the attitude of German people prior to WWII.

He said that we have given our tacit approval to the repressive acts which the government allows.

He said the only difference between America today and pre-war Germany is that "We still have the will to resist. We still have the power to resist."

Kunstler says that we are at a unique period in history, "young people have had a taste of power which has been real and significant and it must not be allowed to dissipate. He voiced his concern that stu-

dents remain together in their thoughts and actions so that this power is not lost."

When William Kunstler addressed a meeting in Toronto the far-right Edmund Burke society showed up to harass him, at this time Kunstler broke off from his prepared speech and decided to speak to the events in the hall.

It should make for an interesting evening in Regina especially with the recent actions of the responsible citizens committee and the uneasy atmosphere of the Chamber of Commerce and business community with their paranoia about youth revolt in Regina.

An article appearing in the September 8, 1970, edition of the "South China Morning Post", English-language daily newspaper published in Hong Kong, reported that American entertainer Dick Gregory had been denied entry into Australia because his application was not bonafide and was "spurious in intent", in the view of Australian Immigration Minister, Mr. Philip Lynch. ~~(S)~~ (U)

According to the article, Gregory had indicated the purpose of his visit to Australia was for "sightseeing". Immigration Minister Lynch, in denying an entry visa to Gregory, expressed the opinion that it was not in the Australian national interest to grant entry to persons seeking to participate in a "one-sided and distorted anti-war campaign inimical to Australian troops in Vietnam". ~~(S)~~ (U)

Controversy mounts over Gregory case

# VISA BAN ON US CLERIC

## Labor moves urgency motion in Senate

The Australian Government has refused an entry visa to an American Baptist minister who was to have accompanied Mr Dick Gregory to Australia.

He is Mr James

Robert McGraw, president of the Columbia Baptist Church in New York.

### PROTEST

A spokesman for the Department of Immigration said Mr McGraw had been refused a visa "for the same reason as applied to Mr Gregory."

The Minister for Immigration, Mr Lynch, said on Wednesday that Mr Gregory had intended to come to Australia to take part in the "one-sided, distorted" Vietnam Moratorium, which was inimical to the objects for which Australian troops were fighting.

The disclosure that Mr McGraw had been refused a visa came in a day of increasing controversy over the Gregory case during which:

Labor moved an urgency motion in the Senate and accused the Government of abusing its powers to deny freedom of speech in Australia.

Mr Lynch told the House of Representatives the Vietnam Moratorium Campaign was a distorted and one-eyed campaign with little relation to the truth.

The Minister for External Affairs, Mr McMahon, said supporters of the Moratorium in the House were favouring a regime which had committed ruthless murders.

The Premier, Mr Askin, said he would protest to the Prime Minister, Mr Gorton, against Labor MP Dr J. F. Cairns' invitation of North Vietnamese representatives to Australia for Moratorium demonstrations.

During the Senate debate, the Leader of the Opposition, Senator L. K. Murphy, accused Government senators of racism.

Senator Dame Annabelle Rankin replied: "The Leader of the Opposition tried to tell the people of Australia that the reason we had refused this man (Mr Gregory) was because he was coloured."

"But Mr McGraw is a white man." The motion was defeated. The NSW Moratorium

Five Senators and a barrister have published a letter to the Editor of the "Herald" against the Government's refusal of a visa to Dick Gregory. They say they support Government policy in Vietnam, but can see no reason to exclude Mr Gregory.

The writers, who have not signed in their official capacity, are Professor David Armstrong, Mr Harry Eddy, Mr Elwyn Lynn and Mr David Stove (Sydney University). Professor Owen Harries (University of NSW), Mr Kenneth Gee (barrister) and Mr Richard Argyier (publisher of the magazine Quadrant and secretary of the Australian Association for Cultural Freedom). Letters: Page 2.

convenor, Mr K. McLeod, said in Sydney, Mr Lynch's phrase "one-eyed" was more applicable to the Government.

LONDON, Thursday. — Mr Gregory today accused the US Government of bringing pressure to bear on the Australian Government to refuse him a visa.

Speaking at his London hotel, he said he had formed this opinion after visiting Australia House yesterday.

"I went there to find out why I had been refused a visa and they showed me a cable from Australia which said the refusal had been because of my anti-Vietnam views," he said.

"And if Australia will be dictated to from a country that is supposed to be the home of freedom then I'd like to know who is the comedian — the Australian Government or me."

Mr Gregory said a visa agency in the US had arranged visas for himself and Mr McGraw, a close friend.

"There was no fallacy on the visas; the agency had marked the purpose of our visit 'for sightseeing purposes' and all the visas as a formality," Mr Gregory said.

Mr Gregory leaves Australia House in London on Wednesday after discussing the visa refusal.

ISOBEL WOOD ON THE DICK GREGORY CASE

IT HAS been some time since the Commonwealth Government showed up in its people-banning mood.

Books, yes; films, yes — but the last intending visitor to have the boom lowered against him was Dr Ernest Mandel, way back in May. Dr Mandel, a Belgian scholar and Marxist, was to have attended a socialist scholars' conference in Sydney. The Australian embassy in Brussels refused him a visa.

A long history of bans and obstructions to would-be visitors holding liberal views preceded the snub to Dr Mandel. (For quite other reasons there was some doubt as to whether Mick Jagger would get in under the wire to make the film Ned Kelly.)

The inexplicable admission to Australia of Andrew Pulley, the young anti-Vietnam war Negro soldier brought here on a speaking tour by Resistance, a youth organisation, may have been simply a case of ministerial absent mindedness.

The trouble with Dick Gregory, from the Government's point of view, is that he is a big attraction, a tremendous crowd-pleaser in his days as an entertainer and equally so since he gave up his career and went over entirely to Negro civil rights.

In other words, he sways crowds. A black crowd-swayer at the Vietnam Moratorium would be low on the Government's list of desirable visitors.

Gregory was originally invited to Australia by the Reverend Ted Noffs of Sydney's Wayside Chapel. Having been told so often on his last visit to the U.S. that Australia was racist, Mr Noffs hoped that when Gregory got here and received a warm, friendly reception he would spread the word that although the country was white, it was also great. So much for that intention.

Richard Claxton Gregory is 38. He was born in St Louis and grew up in a home so poor he went to it "only when all other places were closed." He climbed up out of slum poverty via athletics, though his original idea in getting on the high school track team was a desire to use the shower, which was missing at home. His best distance was the mile.

His first engagement as an entertainer was at the Esquire Show Lounge in Chicago for \$30 a three 12-hour nights work. On the strength of a few weeks there he borrowed some money and re-opened what had once been a working-class night club. The only performers he paid the first week were the boys in the band.

"It's impossible to be in the nightclub business six months and not make a penny," he wrote in his autobiography, Nigger. "Absolutely impossible. I'll never believe it happened to me."

His success as a night club entertainer began in 1961 when he stood in for a sick comic at the Playboy Club in Chicago and opened up with "Good evening, ladies and gentlemen. I understand there are a good many southerners in the room tonight. I know the South very well. I spent 20 years there one night..."

With money and fame assured Gregory began doing benefit shows for Negro civil rights, which led him into speaking for the cause.

Doing as well as talking, he went to Greenwood, Mississippi, for a Negro voter registration drive: "I was scared

to death. Making speeches, giving money, even going down South for a night or two with food — that was one thing. But getting out on those streets and marching against those bullets and dogs and hoses and cattle prods..."

In 1968 he led a march of 5000 demonstrators at the Democratic convention in Chicago. They were intercepted by troops of the Illinois National Guard and forced away by a barrage of tear-gas. Gregory was arrested with several of the 25 Democratic Party delegates who had joined the march.

The deprivations of American Indians, inept and hypocritical handling of the narcotics problem, the integration of schools, the high ratio of Negroes in the armed forces — all were subjects for his protest.

While the inheritors of Martin Luther King's programme are unable to break completely out of their formula of respectability, and the exponents of black power veer wildly towards civil war, Gregory manages to remain a stubbornly middle-of-the-road man. So all areas of the movement need him. He is the dynamic presence who comes on with comic bitterness and sarcasm between the gospel-singers and the Panthers.

Gregory went to gaol for the first time in Birmingham, Alabama, when he joined a Martin Luther King demonstration and was picked up with 800 other King supporters. And received his first bad beating: "End to end, up and down, they didn't miss a spot," he wrote.

Civil rights was, by 1963, taking up almost as much of his time as nightclub performances and comedy routine recording. But his comic stock was high enough so that he could always get an engagement.

Because of his visceral style, tough, cynical and bold, a critic called him the black Mort Sahl. "In the Congo," Gregory commented, "they call Sahl the white Dick Gregory."

In 1964 he walked off the job at Basin Street East, New York, when the manager asked him to soften his racial and political patter. "Bad as I need that \$5000 a week," he said, "I'm going fishing instead."

Gregory was to have arrived in Australia on Sunday week, September 13, to stay until September 23. He was to have been principal speaker, with John Kaputin from New Guinea, at the Vietnam Moratorium rally in Sydney on September 18, and to spend a day each in Victoria, WA, and SA.

His next stop after Australia was to be Zambia, where a 67-nation conference is being held early in October to discuss white attitudes to the Negro.

Dr Jim Cairns reported recently that he had hoped the celebrated author and civil liberties proponent Norman Mailer would come to Australia for the Moratorium rally in Melbourne. Mailer's agents could not help Dr Cairns, and the author himself was unavailable either to accept or reject the invitation.

Perhaps it was just as well. He too might have found himself on the undesirable aliens list.

DICK GREGORY: Visa refused, Moratorium defused

VISIT WOULD BE 'BETRAYAL OF AUSTRALIAN SERVICEMEN'

# LYNCH DEFENDS VISA BAN

Gregory is  
threat to  
the nation,  
he claims

By KENNETH RANDALL

The American Negro comedian and anti-Vietnam campaigner Dick Gregory had been refused entry to Australia because his visit would have been a threat to the maintenance of law and order, the Minister for Immigration, Mr Lynch, told Parliament yesterday.

To allow such a visit, he said, would be a betrayal of Australian servicemen in Vietnam and damaging to their morale.

Mr Lynch's statement made the Gregory case the Government's first positive blow in the "law and order" campaign being pressed strongly by Liberal and Country Party members.

But a serious embarrassment arose in the campaign yesterday with the announcement that Mr John Kaputin, the most prominent leader of the militant Mataungan Association in New Guinea, would make an Australia-wide tour in support of the Vietnam moratorium on September 18.

Mr Lynch was questioned in Parliament yesterday by the Leader of the Opposition, Mr Whitlam. Mr Lynch said the Government's policy was to allow the maximum freedom of travel to Australia.

People were not prevented from entering just because their political views differed from those of the Government.

MR KAPUTIN

BAN  
REASON 'SPURIOUS'

Gregory's application for a visa covering the period of the Vietnam moratorium campaign had been for the "stated purpose of sightseeing."

In view of recent Press publicity it must be obvious that the stated reason was spurious, Mr Lynch said.

"This Government is not prepared to allow the entry to Australia of persons whose activities are stated to be contrary to the national interest and where their stated purpose in visiting Australia is not judged to be bona fide.

"In the Government's view this applies where the intentions are related to a one-sided, distorted anti-war moratorium campaign inimical to the objects for which Australian troops are fighting in Vietnam.

THE AUSTRALIAN

3 SEPTEMBER 1970

"If authority were given by this Government to persons seeking to enter Australia for this purpose that would, in the view of this Government, have the following effects:

"It would represent a betrayal of Australian servicemen in Vietnam. It would damage the morale of Australian servicemen in Vietnam.

"And thirdly, it would give encouragement to those who seek not peace but peaceful submission, to those who seek to promote the rule of the streets and the power of the mob with the subsequent threat that that involves to the maintenance of law and order in this country."

For these reasons the Government had refused Gregory a visa.

Mr Whitlam said the Government's action would react against Australia through damaging, world-wide publicity.

The moratorium-convenor, Mr K. McLeod, said Gregory had assured him he still intended to try to enter Australia after a conference next week of 67 non-aligned African nations in Zambia.

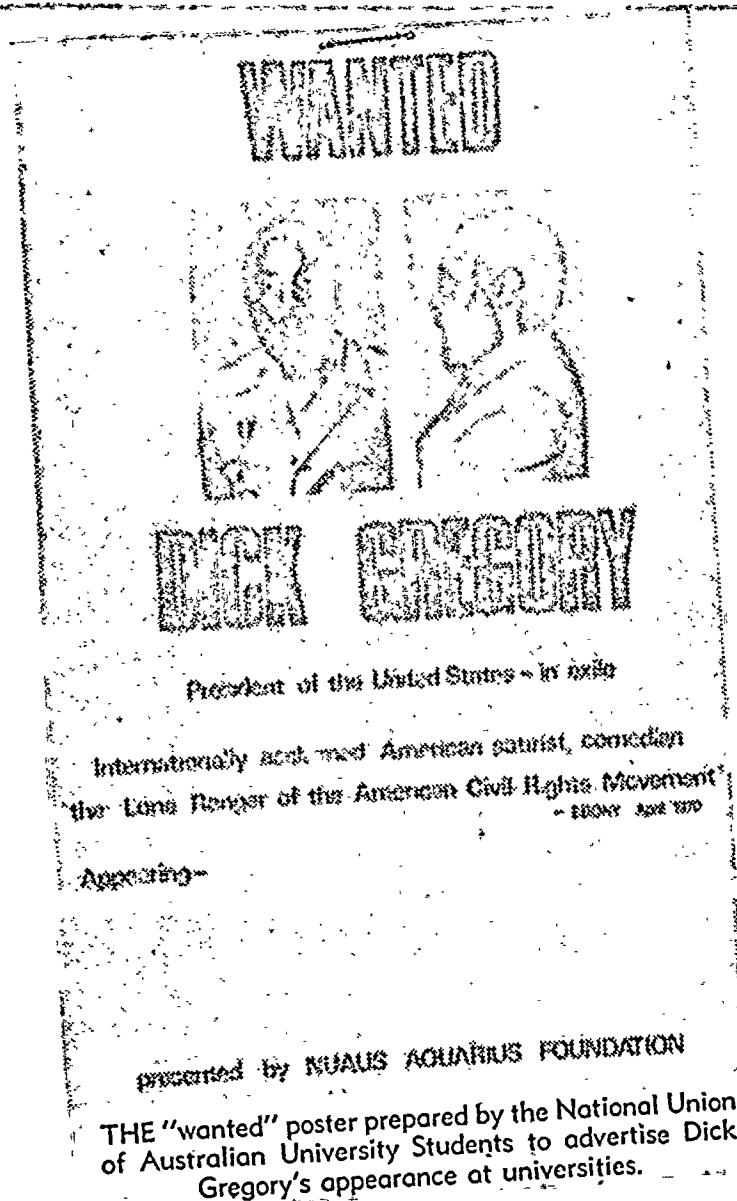

He would renew his visa application meanwhile but would make the attempt irrespective of the results.

Aquarius, the national student group which arranged for Gregory to tour Australia, accused the Federal Government of confusion over the group's motives.

The group said it intended that Gregory should tour university campuses to stage performances of comedy and social satire — not to take part in political or anti-war rallies.

Mr Kaputin will arrive in Sydney on September 12 or 13 for three weeks to speak at meetings in all States, including the main moratorium rallies in Sydney and Melbourne.

The Mataungan Association's record of civil disobedience raises the law and order issue more obviously than the Gregory case. But the Government is unlikely to stop Mr Kaputin's visit.

THE "wanted" poster prepared by the National Union of Australian University Students to advertise Dick Gregory's appearance at universities.

*The Australian - Sept 27, 1970*

## Gregorian moratorium

BANNING BOOKS is bad enough, banning people is preposterous. To ban a man from visiting Australia the Federal Government ought to have the strongest evidence that he is likely to cause great harm. That is certainly not the case in the banning of entertainer Dick Gregory.

Mr Gregory was invited to come to Australia to make speeches at universities and moratorium rallies. On his visa application he gave "sightseeing" as the reason for his visit.

To refuse a visa on the technical ground that this is not an accurate description of the proposed visit is ridiculous; it also shows a distinct lack of a sense of humor. At most all that was called for was the filing of a new visa application.

But the Government's real reason is that Mr Gregory is opposed to the Vietnam war, and might influence others to accept his view. It believes that it would be contrary to Australia's national interest for Mr Gregory to take part in the moratorium.

How extraordinarily vulnerable the Government must feel to over-react so badly. It is surprising it didn't consider refusing re-entry to Dr Cairns when he went overseas. Or Mr Whitlam.

Surely Australia's national interest is not threatened by a comedian who advocates full civil rights for black people and a cessation of the Vietnam war. The country doesn't need to be protected from men like that, but from the whims of people who try to keep our minds closed.

Sydney Morning Herald - Sept 4, 1970

# Govt abusing its powers—Murphy

The Senate Leader of the Opposition, Senator Murphy, accused the Government of abusing its powers to deny freedom of speech in Australia.

He said the Government had refused American Negro Dick Gregory a visa to visit Australia because he had committed "the twin crimes" of holding different views from the Government on the Vietnam war and of being black.

On Wednesday, the Minister for Immigration, Mr Lynch, told the House the Government had refused a visa for Gregory to attend the Moratorium campaign because Gregory's entry would pose a "threat to law and order."

Senator Murphy was speaking on an urgency motion he moved on "the attack on freedom in Australia involved in the Government's refusal to allow Mr Dick Gregory to enter this country."

He said Australia was getting a reputation all around the world for being racist.

The Government had signed the universal declaration of civil rights which gave everyone the right to express his opinions but the Gregory case was another example that the Government "is breaking this down."

Senator Murphy said the Opposition was entitled to and would continue to speak out against involvement in the war.

One by one the Government was breaking down the liberties of the Australian people.

During a reply by the Minister for Housing, Senator Dame Annabelle Rankin, Senator A. Hendrickson (Lab, Vic) interjected: "You're a murderer."

Senator Hendrickson said he was provoked into making his interjection and withdrew it.

Senator Rankin said that at the same time as Mr Gregory applied for visa, the Australian Consul-General's office in New York had also received an application from a James Robert McGraw, president of the Columbia Baptist Church, New York.

He had also stated his purpose for the visa as "sight-seeing." "His visa was also refused," Senator Rankin said.

"The Leader of the Opposition tried to tell the people of Australia that the reason we had refused this man (Mr Gregory) was because he was coloured."

"But Mr McGraw is a white man."

The Deputy Leader of the DLP, Senator McManus, said protests against the Government's refusal to grant entry to Mr Gregory were based on phony emotionalism.

"The whole thing is a lot

SENATOR MURPHY

of hypocrisy by people who have no time for human rights and liberties but who are attempting to serve the interests of people in North Vietnam."

Senator McManus said the people who became worked up about Mr Gregory and South Vietnamese atrocities were cool and calm when they read about Vietcong firing shells into bunkers.

He said the Moratorium organisers wanted to import Mr Gregory as a "stirrer" to assist them in their program of depriving other people of their civil rights.

Senator McManus said he had heard Mr Gregory had been asked to come to Australia on a business basis and would have been paid \$1,000 for his Moratorium activities.

"Mr Gregory's principles seem to depend a good deal on his pocket," he said.

Senator J. M. Wheeldon (Lab, WA) accused the Government of having a double standard over Mr Gregory.

"They are the ones who

posture as defenders of democracy and yet at the same time they prevent free transit of a person into this country without producing one shred, one tittle of evidence as to why they did it," he said.

Senator Sir Magnus Cormack said that Mr McGraw had edited a book of Mr Gregory's writings which had been published in the United States.

He said Mr Gregory had "clearly and unequivocally" advocated the use of force to gain civil rights for Negroes in the United States.

Closing the debate, Senator Murphy accused Government Senators of racism.

"I have heard members of your party speak about niggers and, 'those niggers are not fit to govern themselves,'" he said.

"This is rampant throughout your party."

Government voice:

"That's not true."

The motion was later lost 24-23. The DLP voted with the Government.

In the House, the Minister for External Affairs, Mr McMahon, said leaders of the Moratorium committee were favouring a regime which had committed ruthless murders.

"They must ask themselves what would happen if the free allied cause was defeated, not only in South Vietnam but also in Laos and Cambodia," he said.

"Surely we must assume that exactly the same ruthless measures would be followed."

GREGORY went on to say that things have not changed much in four hundred years although the young folks have come up with a moral thrust that scares the old folks. GREGORY said that the noises made by kids running around the streets today were only a warning but said it is the last warning this country is going to get and added, "The country better make some quick adjustments or she is going to blow it."

OCTOBER 8, 1970  
RACIAL MATTERS

The Greensboro Daily News, in its issue of October 9, 1970, reported that GREGORY had appeared before an overflow audience at Guilford College's Dana Auditorium the previous night, October 8, 1970. GREGORY had pled for the youth to support the women's liberation movement and had denounced the nation's war policies, according to the article. He had also defended college youth against their detractors and warned of the dangers of suppression.

The article stated that the audience was made up in a large part by college students, who applauded vigorously when told by GREGORY that a big job faced them in saving America, "even if you have to alienate your mama and papa".

The article concluded by saying that GREGORY had cautioned against violence, saying "You can't cure America with dynamite and double barreled shotguns. If you think the way to save crazy folk is to dynamite them, then you're crazier than they are". GREGORY was also quoted as saying "If democracy is as good as they tell you, why are we going all over trying to ram it down people's throats with guns?" He compared repression to plugging the spout of a boiling tea pot, causing it to blow up.

## Gregory Jokes Yield To Political Lesson

By CHARLES STAPLES  
Globe-Democrat Staff Writer

With a sure touch, Dick Gregory humorously enthralled his audience at St. Louis University Thursday night, and then sobered it with the theme that repression against activists should be viewed as the natural response to the nation's fear of a moral force.

Between the Agnew and Nixon jokes, the message was for young American activists to expect repression as a natural reaction to fear, caused by them taking a moral issue to the streets.

"Repression is more detrimental to the oppressor than to the oppressed," he told the sell-out crowd of about 600.

In a speech filled with symbolism, he likened repression to trying to plug a teakettle to stop its whistling.

"WHEN A teakettle blows in one-room kitchenette, everybody gets burned. 'When a whole country reacts with fear to a moral force, there is only one way for it to go down.'"

Gregory's speech, the first of a series sponsored by the University's Student Activities Board, also dealt with his being named by U.S. Rep. Richard

Ichord as a college speaker tied in with left-wing groups.

The comedian-turned political activist looked gaunt as a result of his numerous fasts. He wore the movement-type denim jacket.

While he did not speak on the merits of street demonstrations directly, he told the gathering, "If the German youth had forced Hitler to come on campus and gas them, the whole world would have been alerted to him."

GREGORY SAID the solution to the whistling teakettle was not to try to repress the noise, but to fix conditions that made it boil.

"Law and order will be a problem until the freaks in Washington stop talking law and order and start talking bread and butter," he said.

Gregory told the predominantly youthful audience:

"You young people are the most morally upright people in the world today."

An article appeared on page 2A of the October 16, 1970 issue of the Metro-East Journal, a daily newspaper published in East St. Louis, Illinois, relating to this speech. This article is reproduced below.

# Gregory: 'When country is afraid of moral force, it's on way down'

By John Shaffer  
Metro-East Journal Staff

"When a country is afraid of a moral force, that country is on its way down," comedian Dick Gregory told an overflow crowd at St. Louis University Thursday night.

Gregory, who attended Southern Illinois University—Carbonale and now is a militant spokesman for black rights, mixed humor with philosophy as he said the future of this nation rests with today's students.

"I hope you understand your importance," he told the students. "I hope you understand who you are. I hope you understand the destiny of America depends on you."

Between his serious and reflective moments, his humor touched many bases.

On President Nixon—"I feel much better this week than last week because Nixon came back home. Whenever the President leaves the country I get scared because I figure he knows something I don't."

On Vice President Agnew—"Agnew reminds me of the kind of cat who would make a crank call to Russia on the hotline. He seems so dumb, I wouldn't be surprised if he hijacks a train one day."

On dumping poisonous gases in the Atlantic Ocean—"I hate to see it dumped out there, but it sure is better than in the ghetto."

On the senators who recently

questioned him about his civil rights activities before a Senate subcommittee—"Here are cats who spend \$2 million getting elected to a job that pays \$55,000 a year."

On his kids—"My son thinks I'm a square. I haven't made the FBI's 10-most-wanted list, yet."

On Nixon's election in 1968—"Americans have been going to the polls for so long hoping to elect the lesser of two evils, it was due time you were going to get the eviler of the evils."

Gregory said he spends about 98 per cent of his time on campus in recent months, and today's generation of students is the most moral of any generation.

Lashing out at what he called the "right-wing, cracker-controlled newspapers" of the St. Louis area, he said law and order is going to continue to be a problem in this country until those in Washington "stop talking about law and order and start talking about a brand new government."

He said the government could "fall from within" in four to six years.

Gregory said today's repression of youths is caused by the

youths "bringing this great moral force to the streets."

"Man has a right to be afraid. It is also man's right to react to that fear," Gregory said. "You young folks have scared us to death with this moral force," he said, citing recent acts by "hardhats."

Saying that a country afraid of a moral force shows the country is "on its way down," Gregory said both Nixon and Agnew are always talking derogatory of students but not dope pushers.

"If Nixon and Agnew would only spend half their time badmouthing kids, and the other half of their time badmouthing dope pushers, maybe some of those hardhats would get mad sometime during their lunch hour and attack a dope pusher."

Comparing a revolution to a boiling teakettle, he said you can plug up a teakettle to stop its whistle but unless the pressure is relieved, "it's going to blow."

He said youths taking to the streets should be a warning signal, like the teakettle's whistle.

"When this thing blows, if it comes to that, America's going to blow and everybody's going to go," he warned.

RE: RICHARD CLAXTON GREGORY  
RACIAL MATTERS - BLACK NATIONALIST

It was reported by memorandum dated October 6, 1970, that RICHARD CLAXTON GREGORY, who is also known as Dick Gregory, a nationally known night club entertainer, and civil rights activist, was scheduled to speak at Florida Memorial College, Opa-Locka, Florida, October 20, 1970.

The October 20, 1970 edition of the "Miami Herald", a Miami, Florida daily newspaper, contained an article by Herald Staff Writer MIKE BAXTER captioned, "GREGORY Chokes Off Laughter". This article reported that DICK GREGORY spoke to 100 black students at Florida Memorial College Tuesday evening, October 20, 1970. During this speech he talked of the recent arrest of ANGELA DAVIS who he described as a "black Communist accused of buying the guns used in the San Rafael, California Court House parking lot shoot-out." He said that there was no way for her to have purchased those guns without the authorities knowing as she was watched "doubly", being both a black militant and a Communist. He stated "The good thing about the trial that will come out now is that the police killed the judge." He also indicated that DAVID R. POINDEXTER, JR., her companion when arrested, was a Government "agent". He cited a 1968 issue of the Black Panther newspaper which he indicated described POINDEXTER as an "agent". *Fla*

A characterization of the Black Panther Party (BPP) is contained in the Appendix section of this memorandum.

It was also reported that GREGORY said the Central Intelligence Agency (CIA) killed MARTIN LUTHER KING, MALCOLM X, the KENNEDYS and others. He predicted the United States would experience a CIA coup d'etat within

about sixteen months. He said that he planned to move to Canada to avoid this CIA coup d'etat. He said the CIA has a "space sensor" that can over-fly a building and report on who is inside and who has ever been inside.

The article stated that GREGORY's appearance at Florida Memorial College was one of 300 appearances scheduled during a ten month period. From Miami he was flying to Wisconsin for another speech.

Officer [redacted]

BLACK PANTHER PARTY (BPP),  
also known as  
Black Panther Party for Self-Defense

According to the official newspaper of the BPP, the BPP was started during December 1966 in Oakland, California, to organize black people so they can take control of the life, politics, and the destiny of the black community. It was organized by BOBBY G. SEALE, BPP Chairman, and HUEY P. NEWTON, Minister of Defense, BPP.

The official newspaper, called "The Black Panther," regularly states that the BPP advocates the use of guns and guerrilla tactics in its revolutionary program to end oppression of the black people. Residents of the black community are urged to arm themselves against the police who are consistently referred to as "pigs" who should be killed.

The newspaper, in its issue of September 7, 1968, had an article by the then Minister of Education, GEORGE MURRAY. This article ended with the following:

"Black men. Black people, colored persons of America, revolt everywhere! Arm yourselves. The only culture worth keeping is revolutionary culture. Change. Freedom everywhere. Dynamite! Black power. Use the gun. Kill the pigs everywhere."

The BPP newspaper, issue of October 5, 1968, had an article introduced with the following statement: "We will not dissent from American government. We will overthrow it."

DAVID HILLIARD, Chief of Staff, BPP, in a speech at the San Francisco Polo Field on November 15, 1969, said "We will kill Richard Nixon."

DAVID HILLIARD, in the "New York Times," issue of December 13, 1969, was quoted as follows: "We advocate the very direct overthrow of the government by way of force and violence."

In the issue of April 25, 1970, the BPP newspaper had an article by Minister of Culture EMORY DOUGLAS as follows:

"The only way to make this racist U.S. Government administer justice to the people it is oppressing, is...by taking up arms against this government, killing the officials, until the reactionary forces...are dead, and those that are left turn their weapons on their superiors, thereby passing revolutionary judgment against the number one enemy of all mankind, the racist U.S. Government."

The BPP headquarters is located at 1046 Peralta Street, Oakland, California. Branches of the BPP, and Committees to Combat Fascism, under control of the BPP, have been established in various locations in the USA.

# 'White Kids Are New Niggers' — Dick Gregory

By LARRY FIELDS

Back a few years when Dick Gregory was professionally funny rather than professionally furious he wrote his autobiography and titled it "Nigger."

Friday night he appeared at Akron University, courtesy of the Black United Students, and devoted a considerable portion of his talk to plugging the name of his book.

He flung the word "nigger" around so frequently there was the odor of Mississippi—and a Ku Klux Klan convention—at Memorial Hall.

ACCORDING to Gregory, just about everybody except the founding fathers and the white Anglo Saxon Protestants have been "niggers" at one time or another since the Pilgrims first set foot on Plymouth Rock.

About 2,000 persons, equally divided by color and mostly young, crowded the auditorium.

The first "niggers" were, he said, the Indians, who were raped, robbed and murdered by the white man as he bloodily pushed his way from Plymouth to California.

The Indians, Gregory declared in his two-hour list of complaints, were followed by the Irish who he said were so dumb they were made cops.

cause nobody can be that dumb."

PARENTS didn't get off either.

"Remember," Gregory told his youthful audience, "that they voted for Nixon and Agnew."

Even America's founding fathers got verbally slapped.

"They were no heroes," he said. "They were just a bunch of thugs whom the king and queen of England didn't feel like killing so they put them on a boat and sent them away."

"And the damn boat arrived."

IT WAS the beginning of Homecoming Weekend at AU, and as Gregory spoke fire-

DICK GREGORY

crackers could be heard exploding outside.

Gregory said he now spends about 98 pct. of his time speaking on college campuses. Certainly he must have been paid for Friday's appearance—he is paid for college talks—but how much and from whom is not known. Admission was free.

It is known, however, that the Black United Students at AU are not financially flush.

THE JEWS were next, he claimed, only they were so slick they were permitted to become merchants.

Then there were the Italians. Gregory declared they were given the job of pushing dope.

He said they have what amounts to a governmental carte blanche in the narcotics business.

"Why is it," he asked, "that any 9-year-old ghetto kid can find the heroin man and the FBI can't?"

The blacks, he said, were always "niggers" until about 10 years ago when Stokely Carmichael and Rap Brown changed things.

GREGORY insisted that America has always needed "niggers," and when they lost their grasp on the old reliables they had to find substitutes.

And the replacements were, he said, "middle-class white kids" who discovered their new role in the American scene when four were "murdered" at Kent State University May 4.

THE FORMER funny man attacked the special state grand jury for acquitting the Ohio National Guard for the tragedy at Kent State and indicting 25 students.

"It's not surprising," he said, "because the students are kids and kids are the new 'niggers' and they obviously were guilty because they got in the way of the soldiers' bullets."

Vice President Agnew also came in for some honorable mention.

RE: RICHARD CLAXTON GREGORY

On October 19, 1970, Lieutenant [redacted]  
[redacted] Akron Police Department, Akron, Ohio,  
advised that GREGORY's appearance took place as scheduled.  
GREGORY addressed a group of students, estimated at 2,000  
persons. Lieutenant [redacted] stated that there was no incidents,  
violence or any demonstrative action as a result of GREGORY's  
appearance on the campus of Akron University.

On November 16, 1970 at 11:00 PM, 25 persons including Richard Gregory entered the United Nations Building at New York City, New York, protesting the "genocide practices of the United States Government".

The group left the United Nations Building at 11:45 PM and held a Press Conference across the Street from the United Nations between 42nd and 43rd Streets.

Gregory was one of three persons who spoke at the Press Conference. He remarked that the group on Saturday (November 21, 1970) will be larger and the demonstration at the United Nations from 2:00 - 4:00 PM that date will be for the purpose of letting the public know of the genocide policy of the United States Government against the Blacks, Puerto Ricans and other minority groups.

RE: SPEECH BY DICK GREGORY,  
BELMONT COUNTY CAMPUS,  
OHIO UNIVERSITY,  
ST. CLAIRSVILLE, OHIO,  
NOVEMBER 10, 1970

A first confidential source, who has furnished reliable information in the past, advised that Dick Gregory spoke at the Belmont County Campus, Ohio University, St. Clairsville, Ohio, on November 10, 1970. Gregory's speech started at approximately 8:30 PM and lasted until 11:15 PM. The speech was attended by approximately 400 people. Gregory's talk centered on politics, the police, the ghetto areas, hunger in America, Black Nationalists, and persecution of minority groups. Throughout his speech Gregory kept stating, "You youngsters have a big job ahead of you; we adults have left you a terrible mess."

The following in essence are quotes and other statements made by Gregory during his speech:

Gregory stated his speech by telling stories about President Nixon and Vice President Agnew in which he stated that Nixon goes abroad "hugging the fascists" and "Agnew is the type of cat who would make a crank call to the Russians on the hot line."

He stated that man has created the problems that our nation is facing and it is up to the young people to solve them. The problems can be solved by ethical, not "strong arm" means, as the "great men" in Washington think. "Politicians should not campaign on a law and order issue." "Let's not talk about law and order; let's talk about bread and butter." "Fortyfour million people in America go to bed hungry every night." There is more dog food sold

in the supermarkets near low income housing than anywhere else, and no dogs are allowed in low income housing. More people than dogs are eating dog food. "Freaks talk about law and order while people go hungry. Check out your own home; your parents put Nixon in office. You should not be able to walk down the street safely while people are starving. When I become afraid and hungry it is my basic right to react."

"When I was a boy you made me want to get to your white girls by your movies and advertisements. We never saw a shapely colored girl used in advertisement. The only thing we ever saw were slurred "ads" such as Aunt Jemima and Uncle Ben."

"At age nine I knew every pimp, whore, and dope peddler in the area, but the police and the FBI can't even locate them." Most police are too busy making "shake downs" to see what's going on. My children see the prostitutes soliciting right on the street with a cop standing right there. You send me the cop from your neighborhood and I'll send you my ghetto cop and we'll see how fast you send him back. Give us black cops in black areas so we can see how he lives and what he is doing off duty. That way we can control him."

"You never read where a white pimp or dope peddler was shot in bed like the Black Panthers. Double barrel shotguns are outlawed in war as being inhumane, but our police are allowed to use them on Black Panthers and you college kids. You never hear the President or the big politicians say something should be done about the dope peddlers, but they sure do talk about the Black Panthers and college kids. Police and National Guardsmen shoot Panthers and college kids. People's property rights cannot be placed ahead of human rights. If the government thinks it can stop a revolution with the National Guard, it has another thought coming. What's going on is nature's way

of warning you that you had better do something or something is going to happen."

"There is no generation gap. The older people know what you are talking about and they don't want to listen. They paid the price to make alcohol a symbol of manhood, and now they don't want you to have 'reefers.' Morality scares older people and repression is a reaction of this fear. Parents put down kids, not build them up."

"You must understand where and how this country was started and where she is going. It was started by a bunch of 'cut throats' that escaped from England. Our country was stolen from England by the 'cut throats' and is still being run by 'cut throats.' It is your duty to correct the government when it steps out of bounds. The Constitution of the United States gives you that right."

"The United States is the only country in the world's history to start cowboys and Indians. The 'great white father' first started with the Indians. When the Indians did not want to play Indian any more, they put him on reservations. Next the 'great white father' told the Jew to be the Indian. When the Jew did not want to be the Indian any longer, the 'great white father' said, 'Jew what do you want to be?' The Jew said, 'I'll think it over,' and he is still thinking. Then the Irishman became the Indian. When the Irishman no longer wanted to play the Indian, the 'great white father' said, 'What do you want to be?' The Irishman said, 'I want to be a cop,' and the 'great white father' made him a cop because the Irishman is so dumb. Then the Italians became the Indians and when they no longer wanted to be the Indians, the 'great white father' made them the pimp, and dope peddler, and formed the Mafia which their 'great white father' controls. Then the Negro became the Indian and, when the Negro wanted to stop playing Indian, the 'great white father' reacted and this caused all of the disturbances in the 1960's. The 'great white father' is actually the father of all and he shoots his own sons instead of helping them. The 'great white father' owns the police and they have the master plot. They don't want the Indians to have guns."

"This thing called education is making people dumb. Schools and colleges only teach you what they want you to know."

"May 4, 1970, at Kent State is when the 'great white father' picked other 'Indians and niggers,' you college kids. He shot four of them. Two hundred years ago in 1770 the British shot four in Boston and they were throwing snowballs. Look at what happened between 1770 and 1776. Ask the Indians, they know. Watch out from 1970 to 1976, because history repeats itself."

"If democracy is so 'damn' good, why do we go all over the world trying to sell it to others?"

"We can do something about the National Guard. If everyone boycotted Christmas, the Sears and Roebuck Company would put enough pressure on the 'great white father' to do away with the National Guard. You must act right now and do something before Thanksgiving."

"You've got a big job, America is worth saving. The answer is not guns or dynamite, your strength is in your great moral force."

A second confidential source, who has furnished reliable information in the past, attended the speech by Dick Gregory on November 10, 1970, and furnished essentially the same information as the first confidential source. The second confidential source said that Gregory also made the following statements during the course of his speech:

Gregory stated the Black Panthers were shot and killed because they bring food to the hungry children in the ghetto areas. He said there was much publicity and continues to be much publicity about the shooting of four Kent State students, but little has been said about the killing of two black students at Jackson State in Jackson, Mississippi.

SPEECH BY DICK GREGORY,  
BELMONT COUNTY CAMPUS,  
OHIO UNIVERSITY,  
ST. CLAIRSVILLE, OHIO,  
NOVEMBER 10, 1970

Gregory said that Stokely Carmichael and Rap Brown have taught the Negro one good lesson and that is be natural and stop imitating the whites.

He said that one day the young people are going to have to write history. Most of the "old fools" do not understand what we keep telling mama (America). We keep telling mama that she is sick and we want to help her, but she does not listen.

He said there are a lot of questions for the young people to ask. If democracy is so good, why do we go all over the world trying to ram it down the throats of other people? Why don't the other people come begging for it? The fate and destiny of America is in the hands of the young people. He said the answer is not in dynamite and guns, but in the great moral force of the young people which is the only thing that scares America.

Both sources commented that throughout the speech Gregory used very profane and at times what they considered to be obscene language.

Further information concerning Carmichael and Brown of the Student National Coordinating Committee and the Black Panther Party is attached hereto.

STUDENT NATIONAL COORDINATING COMMITTEE

A source advised the Student National Coordinating Committee (SNCC), formerly known as the Student Nonviolent Coordinating Committee, is a nonmembership organization founded in 1960, during the civil rights movement in the South.

Under the leadership of Stokely Carmichael, who served as National Chairman during the period 1966-67, SNCC evolved from a civil rights oriented group into a full-blown black revolutionary organization.

A publication entitled, "1967, High Tide of Black Resistance" indicates the year 1967 was considered by SNCC as a historic milestone for the liberation of black people in the United States and the year that revolutionaries throughout the world began to understand more fully the impact of the black movement. The publication declared that "liberation will come only when there is final destruction of this mad octopus--the capitalistic system of the United States with all its life-sucking tentacles of exploitation and racism that choke the people of Africa, Asia, and Latin America. The realities of black life, together with the recognition instilled in SNCC workers, forced its members to further popularize the legitimacy of self-defense and rebellions when oppression became too great."

A second source advised that H. Rap Brown succeeded Carmichael as National Chairman of SNCC in May, 1968, and served in that capacity until June, 1968, at which time SNCC reorganized, creating ten deputy chairmen in an effort to relieve pressure by law enforcement.

In April, 1969, SNCC moved its national headquarters from Atlanta, Georgia, to New York City, where it is presently located.

H. Rap Brown announced at a press conference in New York City on July 22, 1969, that he had been elected Chairman of the Student Nonviolent Coordinating Committee. He announced the organization was dropping the word "Nonviolent" from its title, and will be known as the Student National Coordinating Committee, with a Revolutionary Political Council functioning as its governing body. Brown, at that time, stated the use of force is necessary in obtaining revolutionary goals.

BLACK PANTHER PARTY (BPP),  
ALSO KNOWN AS  
BLACK PANTHER PARTY FOR SELF DEFENSE

According to the official newspaper of the BPP, the BPP was started during December, 1966, in Oakland, California, to organize black people so they can take control of the life, politics, and the destiny of the black community. It was organized by BOBBY G. SEALE, BPP Chairman, and HUEY P. NEWTON, Minister of Defense, BPP.

The official newspaper, called "The Black Panther," regularly states that the BPP advocates the use of guns and guerrilla tactics in its revolutionary program to end oppression of the black people. Residents of the black community are urged to arm themselves against the police who are consistently referred to as "pigs" who should be killed.

The newspaper, in its issue of September 7, 1968, had an article by the then Minister of Education, GEORGE MURRAY. This article ended with the following:

"Black men. Black people, colored persons of America, revolt everywhere! Arm yourselves. The only culture worth keeping is revolutionary culture. Change. Freedom everywhere. Dynamite! Black power. Use the gun. Kill the pigs everywhere."

The BPP newspaper, issue of October 5, 1968, had an article introduced with the following statement: "We will not dissent from American government. We will overthrow it."

DAVID HILLIARD, Chief of Staff, BPP, in a speech at the San Francisco Polo Field on November 15, 1969, said "We will kill RICHARD NIXON."

DAVID HILLIARD, in the "New York Times," issue of December 13, 1969, was quoted as follows: "We advocate the very direct overthrow of the government by way of force and violence."

In the issue of April 25, 1970, the BPP newspaper had an article by Minister of Culture EMORY DOUGLAS as follows:

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

APPENDIX  
RE: BPP.

2

"The only way to make this racist US government administer justice to the people it is oppressing, is...by taking up arms against this government, killing the officials, until the reactionary forces...are dead, and those that are left turn their weapons on their superiors, thereby passing revolutionary judgement against the number one enemy of all mankind, the racist U.S. government."

The BPP Headquarters is located at 1046 Peralta Street, Oakland, California. Branches of the BPP and Committees to Combat Fascism, under control of the BPP, have been established in various locations in the USA.

On November 25, 1970, a source, who has furnished reliable information in the past, advised that on November 22, 1970, Richard Gregory spoke at Waynesburg College, Waynesburg, Pennsylvania, under the auspices of the college. This source related that Gregory received a fee of \$1,000 for his appearance and speech at this college.

The source further related that the appearance of Gregory was attended by approximately 400 people, which was estimated to be 300 students and members of the faculty and approximately 100 persons who were residents from the Waynesburg area. Gregory spoke for approximately two hours and appeared to have a well-prepared speech, and the source advised that he was sure it had been repeated many times.

The source related that there were no outside incidents and no reactions, one way or another, to his appearance by the community and that they had accepted him as a critic and a comic.

The source advised that Gregory made excuses for the activities of the Negro people and at times appeared to be vindictive, stating that the Negro had been so oppressed and had been put down for such a long period of time, that his activities were excusable. The source advised that this talk was sprinkled with humor, no rabble rousing, and was fairly well received by those in attendance.

The source advised that after the speech there was a question-and-answer period which lasted for about an hour, and the results were exceptional with good response by Gregory to all questions put to him. Gregory related that his role is that of a social critic, and he could not furnish any answers to the social problems existing in the United States today.

RICHARD CLAXTON GREGORY

On December 1, 1970, a source who has furnished reliable information in the past advised that on November 30, 1970, Richard Gregory spoke at Bethany College, Bethany, W. Va., under the auspices of the College, namely, the Student Board of Governors.

The source advised that Gregory spoke at the College fieldhouse before an estimated audience of 1,000, comprised mainly of students from Bethany and surrounding colleges and faculty of same. Gregory spoke from 8:30 p.m., until 10:30 p.m., and appeared to have a well-prepared speech. The source related that there were no outside incidents and little reaction, one way or another, to his appearance, and that his remarks, for the most part, seemed to be accepted in the vein of a vaudeville performance.

Source noted that Gregory's speech centered on persecution of minority groups, politics, law enforcement, the ghetto areas in America, social ills and black nationalists.

Gregory began his speech by pointing ridicule at the current Administration, relating that if President Nixon claimed a victory of the recent elections, all he would need would be two similar victories and he wouldn't have any party left.

Gregory then talked of right wing newspapers and how they were labeling college students as rabble rousers.

Gregory then turned to attack on law enforcement, citing the stupidity of the practice of using white policemen in the ghetto area. He advised that the white police were getting paid off in the ghetto area and recalled that when he was five years old, he knew the identities of the pimp and dope peddler when the white policemen were unaware of these identities.

Gregory recalled World War II and advised that the United States Government was racist because the bomb was dropped on Japan instead of Germany simply because the Germans were white. He compared this to the present times, saying that the United States would rather fight with the Vietnamese than with the Russians because the Russians are white. He related that if an African nation were supplying arms to the Viet Cong, the United States would wage war on the African nation.

Gregory stated that revolution was controlled by evolution; that it can't be stopped and has to happen. He recalled colonial days, describing the Pilgrims as a group of cutthroats who were placed on a ship because the queen thought it was going to sink. He said the Boston Tea Party was no more than the riots in the ghettos and should not be publicized by racists who write textbooks. Gregory explained that since colonial days, the United States Government has had to have an "Indian." He noted that after the American Indian, the Irishman became the Indian, and he eventually became a policeman because he was so dumb. Then came the Italian, who later formed the Mafia. Then came the Jews, who became the merchant society, and then the Negroes. Gregory at this point pointed his finger at the audience and stated that now the college students are the "niggers."

He stated that the Kent State incident was like a mother giving birth to a child and that no matter how many troops from the National Guard were to be called in, the mother would still give birth. He talked of the drug problem and compared it with the alcohol used by the parents of dope users.

RICHARD CLAXTON GREGORY

Regarding the black nationalists, he spoke of how white people are appalled by the fact that the minority group uses weapons. He stated that if the whites had to grow up in the ghetto area, they wouldn't think twice about using guns. He spoke of the free food program being sponsored by the black nationalist groups and pointed to how dog food was being consumed by a large populace in certain ghetto areas. Gregory commented on the absurdity of politicians campaigning on a law and order issue when, in fact, people were starving in the ghetto areas.

The source concluded that Gregory's speech, sprinkled with humor and, on many occasions, profanity, appeared to be well received by those in attendance. Source stated that Gregory had expressed his views on what he considered to be deficiencies in our country, but had not formulated any opinion as to how these ills could be corrected.

RICHARD CLAXTON GREGORY

On November 13, 1970, a source, with whom contact has been insufficient to determine reliability, advised that on November 12, 1970, Dick Gregory spoke at McAllister Auditorium on the campus of Tulane University, New Orleans, Louisiana. Source reported that the auditorium was almost filled to capacity for the speech; and the following are salient parts and quotations from the speech:

Gregory first spoke about how the United States Government first developed. He stated that the people who arrived at Plymouth Rock were outcasts from Europe, but they did not discover a country that was not already occupied. These people started killing the red men (or Indians) and, when the people (or cowboys) could not rule the Indians, they got the dumb Irishmen to become the cops, and the Italians to be the Mafia. The cowboys (or Government) used the Irishmen as the police and the Mafia as a Syndicate, and with the protection of the Government, the police and the Mafia became drug dealers.

As time went on, the Government, police, and the Mafia became one. As the red men disappeared, they still needed Indians, so they later turned on the Negro or black man. As time passed, the Negro got tired of being killed and misused and not being able to live like other people of this country. Gregory stated that, as a result, the Central Intelligence Agency (CIA) and Government has gotten rid of all of the Negro leaders, such as Martin Luther King, Stokely Carmichael, and Rap Brown. He also claimed that Jim Garrison,

the New Orleans District Attorney, is being killed in some way because he was trying to open the people's eyes about the Kennedy assassination.

Gregory stated that it will not be long before there will be a change in this Government but that it should not be by bombings since this would be worse than doing what the outcasts who first came to this country did.

Gregory then stated that it is a shame that 44 million people have to go to bed hungry each night while this Government sends money all over the world. Gregory said that, when he was fasting for some thirty odd days while in jail, he was watching TV, and a commercial came on about dog food. He stated that all at once the dog food looked so good to him. He said the dog was wagging his tail, and he (Gregory) began to wag his own tail. He thought suddenly about how much dog food is being sold in the major metropolitan cities and about the 44 million people who were going to bed hungry each night. Gregory stated he called in fifteen researchers and determined that most of the dog food was being sold in the low income areas and around the Government housing project areas in large cities. "At the price of \$.10 a can, brother, you had better look out if you are asked out for a hash dinner because you could be eating dog food."

Gregory also mentioned how much money a United States Senator has to spend to try and get elected. "Why in the hell would any man spend two million dollars to receive what he does? You've got to be kidding!" He went on to say "You young people have a lot of work ahead of you, and it is going to be tough sliding, not because of the generation gap but because you young people are defying the old ways."

Gregory mentioned the Kent State killings and how an innocent girl was killed along with an honors student who was in the Reserve Officers' Training Corps (ROTC). Then some people in the auditorium shouted "Right on, right on," and then arm signals were given of the power sign. He also

said that, when people try to do some good, they are shot down. It was the same way in 1770 when the British had control, and the people stood up against them. He kept on saying "You have a big job ahead of you."

Gregory said, "If you don't wake up soon, you will find yourselves in a bigger mess than the Negro was in, but the Negro is going to do something about it, and it isn't long off. The Negro has come a long way since 1960 and, baby, we are tired of this shit. You take care of the whites, and let us take care of the blacks. You whites are afraid of the Black Panthers. We're not. We love them. When a white cop comes in our neighborhood, he's only there for an eight hour duty and then goes home. If he should kill some little boy in our neighborhood, it's okay. But if this should be a Negro cop and he lives in our locked Negro neighborhood, we could take care of the situation. This cop may be in one of our black barber shops getting a haircut and a shave. While the barber was putting the shaving cream over the face and putting the razor next to him to shave him, I walk in and ask him why he killed our sons. It's a damn shame we can't have it this way."

Gregory went on to say "You had better do something about it, you cats. It has to be soon and before 1976. If you wish to make a go of it, we have to change it all. If we had black people in power, such as the President and such, it would be different. We're tired of this shit."

He said "You white people have indoctrinated us to believe that the whites were gods, that they never did anything wrong. You put your TV trash in our living rooms. You put your Miss America in our living room as a beautiful thing, but when a Negro man puts his hands on these beautiful white things, they are hit in the head or killed. It was all right for the white cops or pimps to use the Negro woman. Nothing was done about that."

Gregory said that, when he was five years old, he saw how the prostitutes were paying off the cops and how he or any young fellow could buy dope, but the FBI could not

find these pushers or dealers because of the city Government. He said his father was killed in 1942 by a German, and after the war a German could come to this country and move right next door to the "U.S. cat," but when a Negro wanted to, he was told to "get the hell out." So why should not the Negro get mad since he was born in this country.

At the end of the speech, Gregory sent his regards to Jim Garrison and wished him all luck in surviving whatever was wrong with him.

# Here he is, Folks, Dick Gregory: Fizz, crackle, zap, ba-room

By PETER COUTROS

WORDS, WORDS, WORDS tumble from his lips, incessantly moving lips, as though a dictionary had imploded within him and he was now spewing forth nouns and verbs and double that in adjectives and adverbs. The words became sentences, the sentences paragraphs and the paragraphs parthenogenetically evolve into exhortations, harangues, stretches of wit and lengthier tracts of rage.

More simply, it is Dick Gregory, middle name Claxton, doing his thing; his very own, peculiar-to-him thing.

Usually, he plies his tirade before crowds of young people, on one-nighters before collegians two decades younger than his 38 years, or in such subterranean sauce-mills as the Village Gate, where he was seen last week.

Records are another of his media, with a four-sided album, "The Light Side, the Dark Side," emerging as one of the big hits on the charts. His autobiographical "Nigger!" was well-received by book reviewers.

But the essential Dick Gregory is sharpest in person. Either in a roomful of anti-establishmentarians or in an interview, Gregory is effusive, super-charged, molite.

Vocally, he roams the upper registers. To emphasize his point further, he saws at the air, chops away at invisible foliage, fetching an image of Leonard Bernstein breaking Bach down for the masses.

His commanding stage presence enhances his five-foot-nine height. His weight varies according to which stage of his fast you catch him in.

He has lost as much as 40 pounds during these fasts, which he utilizes as hunger strikes against the system. Of late, he has taken to dieting even between fasts.

**DON'T EAT** any meat at all now, I limit myself to vegetables, uncooked vegetables," he says, adding by way of explanation, "You cook vegetables and you burn up all the nutrients in them."

Gregory and his wife, Lillian, have eight children "and none of them eat meat, either."

Home to Dick is an apartment in Chicago for, though he has earned well over a million dollars, he has managed to spend most of it without acquiring the requisites held dear in an acquisitive society.

What happened to the million-plus?

"Why, I don't even have any life insurance," he starts. "You start owning things and your attitude changes. My wife and kids will survive."

There is some indication that much of his earnings has gone to help his "brothers," but he never gets around to the specifics. Still, the inclination is strong to take him at face value about his family never going hungry.

Taking Gregory at his word is what one must

settle for. Keeping up with him is well-nigh impossible, ruling out any chance to catch him in an untruth. In the period between September 27, 1969, and June 4, 1970, he spent \$35,000 on plane fares, fulfilling engagements on scores of campuses.

Catching up with him on the ground is no mean task, either. As part of his health regimen (he has abandoned cigarettes and whiskey along with the meat and cooked vegetables), he runs up to six miles a day. Or so he says. The skeptics are asked to feel his face, feel how smooth and young the skin is. What can be felt in that sparse patch of skin not adorned with beard does seem smooth, but not having felt it before the "new Gregory" materialized, where can one discern the difference?

**STILL**, IT MUST be conceded that Gregory is as ready for battle as any 38-year-old can be.

What battle? For Gregory and, presumably, for those who accept his preachments and/or humor as gospel, the struggle is with White America. Make White America synonymous with racist America and you are right on with Dick Gregory.

The Gregory who relishes confrontations in 1970 is more caustic than the Gregory of 1960, whose bag of tricks held more wit than anger. A hardening of the laugh glands, perhaps? Or a reflection of the political murders which have reddened so many pages of our history?

"America always had its nigger. Sometimes he was the Indian, other times the Jew or the Irishman. It started with the Pilgrims. They started at Plymouth Rock and shot and murdered their way clear to California," Gregory says, launching into an in-

dictment which pauses only when breath seems to be running short.

Just at that point when the listener is about to concede that all is lost, it is idle dreaming to think there can be any salvation, Gregory shifts gears just long enough to suggest ways and means of restoring hope.

"The Constitution is America's health chart," he explains patiently. "Americans should get to know it better, because a man without knowledge of himself and what he stands for is like a tree without roots."

"What do I stand for? My bible is 'The Battle Hymn of the Republic', especially where the words say, 'As He died to make men holy, so let us die to make men free . . .'"

The closest he's come to dying is when he was shot while helping to quiet the Watts riots of 1965. Before and after that turbulent time, Gregory spent much time in jail.

It is fatuous, of course, to suggest that Gregory speaks for the blacks of America, either the larger number of moderates or the more militant minority. And Gregory doesn't make that claim.

**BUT** ON THE other hand, "in every neighborhood, there's some black man who's always ready to say what the white folks want to hear instead of the things they ought to hear."

"So, all I ask is, if you don't go to that black man for a comment on the President's speech in Cambodia or what happened at Kent State, don't let them give you a comment on me and my brothers."

Stoutly defending his right to speak out for the blacks without presuming to be their spokesman, Gregory cites "Martin and Malcolm, Stokely and Rap" as blacks who complemented each other in the cause of civil rights in "a country which puts property rights ahead of human rights."

"And Sammy Davis has been beautiful, the way he helped me take 20,000 turkeys to Mississippi in 1963. Sammy doesn't know how to say 'no.' One little old lady down in Jackson told us she was over 93 and never had turkey in her life and maybe now that she was without any teeth, it was too late, but she thanked us anyway."

"Bill Cosby may be the most significant thing that ever happened for black folks and he doesn't even know it. Now, my kids can see him every week and identify with him. White folks can see him, too, and see a black man who isn't in a jail scene or some Commie rally."

Misgivings have been voiced about Gregory's dedication to civil rights. Gauging the depth of any man's sincerity to any cause is to probe his soul. How much of Gregory's intentions can be gleaned by such surface things as the naming of his twin daughters? He called one Pamela Paula Inte, the other Paula Gratton. Get it? Inte-Gratton. The girls' mother was pregnant with them when she was locked up during a civil rights protest.

### Gregorian chants

There are few things on which Dick Gregory DOESN'T have an opinion. He DOES have an opinion on:

**THE PRESIDENCY:** When I ran for the office two years ago, I was the only real candidate for President. The others were running for sheriff.

**THE FBI:** If a nine-year-old can find a dope pusher, why can't the FBI?

**NONVIOLENCE:** It's a favor and not an obligation, and while I hate to admit it, it has helped the black's cause.

**LOOTERS:** If you're going to shoot all looters, make it retroactive and give the Indian a gun.

**SPIRO AGNEW:** He's the kind of cat who'd use the hot line to make a crank call to Moscow.

**SPACE FLIGHTS:** I heard we've got lots of black astronauts; saving them for the first space flight to the sun.

**WIRETAPS:** They've got so many bugs on my phone, I'm putting roach powder on it.

**WASHINGTON, D.C.:** It's the only place where a guy can hold up a bank and get mugged on his way to the getaway car.

Dick Gregory made an appearance at the residence of [redacted] where a group had met for a Black Students Union meeting. Gregory stated that he had flown to Portland that day from Atlanta, Ga., where he had attended the funeral of Dr. Martin Luther King. Gregory stated that he was going to stay in this country until it falls, then he was going to leave. He said "I hate this country". His purpose for appearing at various colleges, Gregory said, was to encourage militancy and revolution among the students. He indicated that he was a candidate for President of the US and that following the election he could travel to foreign countries to see if he would be recognized as the President in exile. Gregory in answer to questions as to what students could do to help the cause of destruction in this country, stated that he would say nothing that would cause him to be guilty of conspiracy. However, he did state "keep on doing what you are doing" and noted that in Chicago there was a gasoline station near the freeway where a pipe from a gasoline storage tank could be broken, thereby permitting gasoline to flow on the freeway. Gregory indicated that he was opposed to racial violence, but that violence was the only way for Negroes to gain their manhood.

[redacted] advised that on either 8/26 or 27/68, during the DNC he had spent the day in Lincoln Park, Chicago, selling literature, posters and buttons, in support of Citizens for Independent Political Action (CIPA), 1903 Hayward St., Chicago. This activity was carried on in conjunction with representatives of the Peace and Freedom Party which organization was rather loosely organized and desired to support Dick Gregory as a local Chicago candidate and Eldridge Cleaver as a national level candidate. Seibel indicated that it was the view of most CIPA representatives that it would be better to support the national candidacy of Cleaver rather than to support the local candidacy of Gregory because the latter was regarded as a comedian which did nothing for him as a candidate for public office.

to go to Chicago during the DNC for the purpose of participating in demonstrations. A number of times Gregory announced plans to disrupt the DNC. He said the convention would be held only over his dead body unless his terms were met. However, in April of 1968, Gregory announced cancellation of his plans to protest the DNC. Nevertheless, Gregory did appear in Chicago during the DNC and spoke at the "LBJ un-Birthday Party" and to the demonstrators, participated in rallies and led a march of demonstrators in the direction of the Amphitheatre where the DNC was being held. The march was halted by the authorities and the marchers returned to Grant Park where the march had originated. Gregory again led a large group out of the park, supposedly toward his home. Once again they were stopped by the police and upon Gregory's urging, the marchers continued to move forward thereupon forcing the police to arrest a large number including Gregory. Background data set forth.

This article continued that Gregory was scheduled to speak at Rollins College on October 7, 1970, for approximately one hour on the topic "Social Problems: Social or Anti-Social?".

Dick Gregory spoke for approximately one hour and fifteen minutes at the Rollins College Field House, Winter Park, on the evening of October 7, 1970. Gregory, in his speech, criticized the intellect of United States Government officials and used numerous illustrations to make the point that a modern revolution in this country is inevitable. This source said that Gregory in his speech did not advocate violence in this country.

The October 11, 1970, edition of the "Orlando Sentinel", an Orlando, Florida, daily newspaper, in an article entitled "Gregory At Rollins", stated that Dick Gregory, on the night of October 7, 1970, spoke to a crowd of 700 people at Rollins College, Winter Park. According to this article, Gregory directed his speech at the students present stating "the fate and destiny of America depends on young folks". He commented that America was going through a period of "repression", adding that views of minority groups were being repressed or ignored. The article quoted Gregory as saying "what you see going on in the streets today is nature's way of warning this sick, tired, old degenerate nation that if it doesn't stop and make some quick adjustments, she's going to blow". He further stated "the answers to solving the problems of America are not with dynamite, not with guns. So I say you youngsters have a big job. America is worth saving".

This article is set out in its entirety as follows:

" 'Youngsters, you got a big job before you.'

"With this message, popular black comedian-lecturer Dick Gregory spoke for two hours at Bemidji State College Memorial Hall entertaining and informing some 1200 persons with a multitude of topics ranging from birth control and sex, to women's liberation, black oppression and the Vietnam War.

"Addressing himself primarily to the college age youth in the audience, whom he called 'youngsters,' the popular Civil Rights leader who recently published a third book called 'No More Lies,' concentrated his talk on what he called the 'inconsistencies and myths' of American thought and life.

"The black comedian speaker who was applauded with a standing ovation at the end of his talk began with humorous jibes at Nixon whom he called a 'funny cat.'

RICHARD CLAXTON GREGORY

"He said he spent 98 per cent of his time on college campuses because today's youth is 'probably the most morally ethical...group of young people that ever lived,' repeated several times that the solutions to America's problems lies with the younger generation.

"Gregory pointed out inconsistencies in thought of Americans who honor the founding fathers of the country who rebelled against British authority while criticizing young radicals; those who allow Germans who were enemies during World War II to move into their neighborhoods where they would not allow Negroes to live, and those who were angry at the Viet Cong though not at the Russians who 'supply 98 percent of the weapons' used in North Vietnam.

" 'There are inconsistencies,' he repeated several times.

"Some of the topics Gregory commented on:

"George Washington -- 'Washington left in his will to free his slaves after his wife's death...I don't favor celebrating the birthday of a slave master myself.'

"Women's liberation -- 'We men wouldn't let you women take our babies away.' He advised women to teach their sons that peace at even at the cost of imprisonment is worthwhile.

"Life -- 'At five years old I knew what a whore looked like, what a pimp looked like, what a hustler looked like. If I knew at five how is it the government does not know?'

"Radicals -- 'Rather than a list of the radicals in the U. S. why doesn't the government come out with the list of companies that violate the anti-trust laws, the lists of syndicates within our cities...the clauses in the Food and Drug Act that allow them to put drugs in our food that kill us....!'

RICHARD CLAXTON GREGORY

"Nixon -- 'I get up tight when Nixon leaves the country...I always get a sneaky suspicion he might know something. Everytime Nixon leaves the county Agnew becomes number one boy in charge...and he reminds me of the kind of cat that would make a crank call on the hot line to Russia.'"

A source, who has furnished reliable information in the past, advised that Gregory was paid \$1,500.00 for his appearance by the Bemidji State College.

# A Thinking Man's GI Tour?

## Jane Fonda Plans Antidote to Hope

By JOSEPH MODZELEWSKI

Jane Fonda had a hurt look. Her Bambi eyes got moist like poached eggs when somebody mentioned sex.

"Are you serious?" she scoffed at a reporter who wanted to know if maybe she'd wear a bikini for the troops on her planned tour of United States Army bases to test the Army's liberalization policies on free speech in the military.

"That's what Bob Hope does. We're trying to get away from that sort of thing," Jane said, dismissing the Hope shows as mindless male chauvinism.

The pretty, petulant daughter of Henry Fonda did not say how she planned to entertain the boys, except that there would be no bump-and-grind Barbarella stuff. She is through with all that cheap exhibitionism, she said, dismissing her earlier nude films as "just a stage."

### Discusses Her Antidote (over)

Jane, together with court-martialed ex-Army doctor Howard Levy, was at the Hotel New Yorker, where she discussed her antiwar antidote to the Bob Hope tour.

The tour—which will star Jane, Elliot Gould, Dick Gregory, Donald Sutherland and Peter Boyle (of "Joe")—was called "a different view on the war."

Calling Hope a "superhawk," Jane complained that the ski-nosed comic has "a corner on the market on entertainers speaking to soldiers." Hope is a golfing crony of President Nixon and Vice President Agnew.

According to Dr. Levy, the antiwar troupe will visit Fort Bragg, N. C., first on March 13.

### The Same Old Army? (over)

Dr. Levy says, he has not received permission from Gen. John J. Tolson 3d, Fort Bragg commanding officer, to entertain the antiwar troupe prowling Green Beret military

Tolson is really serious about the old blood-and-thrust policy. He wants to show on the base," Levy reasoned. "All can it, and let the public know the same old Army."

He also wants the Army to underwrite the

costs of the production, "including lodging and transportation." The USO pays for the Hope show.

In the not-too-unlikely event that the Fonda show bombs in the Pentagon, the cast will still perform their skits in the Haymarket Square coffeehouse, an enlisted men's hangout in Fayetteville, near Fort Bragg.

Film director Mike Nichols is slated to direct the players, who will give a benefit performance under the sponsorship of the United States Servicemen's Fund, which is a sort of pacifist USO.

Illinois, the result of a conviction for demonstrating in protest of de facto segregation in the public school system thereat.

On January 20, 1971, CG T-1, who has furnished reliable information in the past, verified Gregory's residence and advised Dick Gregory Products deals in cosmetics for blacks and has been in existence for several years, and recently opened a Chicago outlet, "Dick Gregory Cosmetics, Incorporated, 9528 South Halsted Street, Chicago". This source advised that five percent of Gregory's income from his cosmetic business is donated to the United Negro College Fund.

Summary of Gregory's activities as an author and lecturer during the academic year 1970-71:

Publications

On January 20, 1971, CG T-1 advised that Dick Gregory has a new book on the market entitled "No More Lies", edited by James R. McGraw and published by Harper and Row.

The introductory notes on the jacket of "No More Lies" reads:

"Gregory came by his data in an unusual way - he lived it. He has burrowed in the archives of the minds and hearts of black and white America, hunting not simply for facts but for truth. This book is the result."

This same source quotes Gregory as follows, regarding the book:

~~CONFIDENTIAL~~

RICHARD CLAXTON GREGORY,  
ALSO KNOWN AS DICK GREGORY

"I was born in the ghetto of St. Louis, my childhood was one of firsthand experience with all the joys, sorrows, humor and tragedy of poverty."

"I broke onto stage anyway, and, after some hectic moments, received a rollicking response. I went from the depths of poverty to the pinnacle of financial success. Having experienced both, I had to find what really was the meaning to a man's life. People use to ask, 'Have demonstrations hurt your career?', but the only relevant question for me is 'Is my career getting in the way of demonstration?' Active involvement in the struggle for human dignity is the real value in life. A career is secondary."

"I've become increasingly impressed with the fact that the original patriots in this country always ended up on the side of the oppressed, but those who claim to be patriots today always end up on the side of the oppressor. Something is wrong. What is wrong is that America believes her myths rather than essential moral values - the sort of values articulated in America's most basic documents."

"The idea for 'No More Lies' originated and was, in large part, developed in the course of my many college lectures. In these lectures I am continually talking about a country which has lied to the current generation of youth and then when they catch us in the lie, we call it a generation gap. It isn't a generation gap. It's a moral gap."

// James R. McGraw is an ordained elder in the United Methodist Church, and has served as a Brooklyn, New York, pastor and now edits Renewal magazine. //

#### Lectures

Reliable confidential sources throughout the United States have reported that Gregory receives approximately \$1,500 for his campus appearances, speaks for approximately two (2) hours on politics, the police, the ghetto areas, hunger in America, Black Nationalists, and persecution of minority groups.

Gregory's lectures are well attended, particularly by the white student population, and are terminated without incidents.

RICHARD CLAXTON GREGORY

On April 14, 1971, TP T-1 and TP T-2 advised that on Tuesday night, April 13, 1971, at 8:30 p.m., Dick Gregory spoke at the Howell Gym, University of South Florida (USF), Tampa, Florida. There were approximately 2,000 persons of college age in attendance, approximately 75 percent of whom were white. Gregory spoke for one hour and forty-five minutes and then held a question and answer session for an additional forty-five minutes. ~~(S)~~ (U)

Sources advised that the main theme of Gregory's speech was white racism, and then Gregory briefly discussed opposition to the Vietnam War. Gregory related his story of the white European American exploitation of minority groups. He stated the white man first exploited the Indians then the Jews, the Italians, the Irish, and finally the "niggers." The white man had exploited the "niggers" for over 100 years until 1968 when a "nigger" like Stokely Carmichael and H. Rap Brown began leading the opposition to white racism. Gregory also said the white man killed his last "nigger" in 1968, referring to Martin Luther King, Jr.

TP T-1 advised that Gregory then told the predominantly white audience that "there is a new breed of 'niggers!' You white barefooted, long haired, bearded, stinking, hippies - yippies, whatever they are - you are the

new "niggers!" He stated that if 50 of "the new niggers" got explosives and went to a bank and gave the explosives to 50 older people, and the older people blew up the bank, "the new niggers" will be charged. Gregory said the establishment cannot believe that older people would or could be responsible. ~~(S)~~ (U)

According to sources Gregory described the whites in this country as "wild, uncivilized, untamed cowboys." He said, however, violence is not the answer because that is what the white man wants. Blacks have to gain control of black communities by organizing and uniting. For example, blacks could boycott Chevrolet and buy Fords. The people who make Chevrolets would then have to make the necessary changes to accommodate black customers.

Sources advised that Gregory also briefly pointed out the Vietnam War as a great social injustice and praised the opposition of youth to the war.

TP-T-1 advised that after Gregory's appearance at the USF, [REDACTED]

[REDACTED] held a reception for Gregory [REDACTED]

The reception was attended by several members of the Afro - American Society, a USF approved campus organization of black students, and several members of the Center for a United Black Community (CUBC), a Tampa, Florida, organization of young blacks for black control of black communities. ~~(S)~~ (U)

To recommend the attached letters with enclosed memorandum be sent to Honorable H. R. Haldeman, at the White House; the Vice President; and the Attorney General.

The memorandum enclosed with above letters summarizes a speech given by Gregory, black comedian and racist, to students at Western Carolina College, Cullowhee, North Carolina, on 4/7/71. Gregory's speech was recorded by a source and a transcription of the speech reveals he utilized extreme vulgarity against the Director, President, and Vice President. He made his usual caustic scathing comments concerning racism, sex, and law and order.

He attacked U. S. participation in the war in Vietnam and accused the Central Intelligence Agency (CIA) of involvement in the assassination of former President John F. Kennedy.

He also predicted a dictatorship would be established in the country within 18-24 months following overthrow of Government by CIA.

He referred to the Director as "one of the slickest, slimiest degenerate freaks." He stated further concerning the Director "one day you're going to find out about that sick perverted pimp" and "you can't keep a slimy freak like that hid for too long a time."

This is another case where a black racist agitator has been allowed the opportunity to degenerate the morals and values of a college student body.

RICHARD CLAXTON GREGORY

Richard Claxton Gregory, the well-known comedian and civil rights advocate, addressed approximately 350 students at Western Carolina College, Cullowhee, North Carolina, on April 7, 1971. A source provided a recording of Gregory's speech. A transcription of this speech revealed it is replete with vulgarities, caustic comments regarding sex and law and order, and accusations of racism in this country. He attacked the participation of this Government in the war in Vietnam. He ridiculed President Richard M. Nixon's physical appearance and the President's motives in releasing Army Lieutenant William L. Calley, Jr., from imprisonment following his conviction for the murder of noncombatants in South Vietnam.

Gregory stated he did not believe it was humanly possible for one man to be as dumb as Vice President Spiro T. Agnew. He claimed Vice President Agnew was consistently dumb and he would not be surprised if Vice President Agnew, during his next television appearance, would refer to President Nixon as "a honkey."

Gregory predicted that a dictatorship would be established in this country within 18 to 24 months following overthrow of the Government by the Central Intelligence Agency. He stated this overthrow of the Government would be predicated upon the failure of the degenerate political forces, the Democratic and Republican Parties, to solve problems which they created.

Richard Claxton Gregory

Gregory alleged that the Central Intelligence Agency was involved in the assassination of former President John F. Kennedy and he condemned President Nixon for not releasing information which would disclose such involvement. He also suggested the United States Government was involved in the murder of former Attorney General Robert F. Kennedy since no prosecutive action has been initiated concerning three unidentified individuals who allegedly were "involved with the gun that Sirhan Sirhan used to murder Bobby Kennedy."

He contrasted the handling by Governmental authorities of those involved with Sirhan Sirhan with the action taken against a black, Angela Davis, for involvement in similar activity. Davis, a self-admitted communist, has been arrested for involvement in the attempted escape of three convicts on August 7, 1970, from a San Rafael, California, courtroom which resulted in the murder of a judge and the killing of two involved convicts and an accomplice.

RE: APPEARANCE OF RICHARD CLAXTON GREGORY  
AT WESTERN CAROLINA COLLEGE (WCC)  
CULLOWHEE, NORTH CAROLINA

---

The following is a transcript of a tape recording of the speech made by GREGORY at Western Carolina College:

"I would like to say thank you very much. Can you people way back in the cheap seats hear okay? I . . . NIXON is on television tonight, huh? That's a funny cat, man. You know, every time I get really uptight with NIXON myself and every time NIXON leaves the country I usually get a little uptight and I guess it really hasn't got anything to do with DICK NIXON. You see, any time the President of the United States, regardless of who it is, leaves the country I always get a little nervous and upset because I always get a sneaking suspicion he might know something. So I stay a little nervous and upset until he gets back. Not to mention the fact today, with NIXON being the President of the United States, every time NIXON leaves the country, AGNEW becomes the number one boy in charge. That kind of bothers me.

"See, AGNEW just reminds me of the type of cat that will make a crank call to the Russians on the hot line. Other than that, I kind of dig AGNEW myself. But what I mean by that is I don't have the normal hang-ups that most folks have about AGNEW. See, I kind of dig AGNEW because I kind of believe AGNEW is putting everybody on.

"Yeah, I don't believe it is humanly possible for one man to be born that dumb. He, you know if AGNEW was as dumb as he wants us to believe he is, he wouldn't be able to walk and chew gum at the same time. I wouldn't be surprised to pick up the paper one day and read where AGNEW hijacked a train. Tell the conductor, take me to Cuba.

"Of course, you can say anything you want to say about AGNEW but you have got to admit one thing, he's consistent. And I wouldn't be surprised if AGNEW got on television next week and called NIXON a honkey.

RE: APPEARANCE OF RICHARD CLAXTON GREGORY  
AT WESTERN CAROLINA COLLEGE (WCC)  
CULLOWHEE, NORTH CAROLINA

---

"Now, I don't mean to scare you young folks or nothing like that. I don't mean to upset you or nothing like that, but you are aware of the fact that AGNEW finished college aren't you? Now, he stated off normal. Yeah, I was talking to one of his roommates not too long ago. He tells me AGNEW is really a dumb cat. Yeah, he told me AGNEW was so dumb that one night all the guys in his dormitory decided to hold a panty raid and said AGNEW was the only cat to come back with a jockey strap. You can't get much dumber than that, right?"

"Let me say it's a pleasure to be with you young folks this evening. I guess I can truthfully say I spend 95 per cent of my time today on college campuses and for a reason. And the simple reason is that you young folks in America today are probably the most morally honest, ethical, committed group of young people that's ever lived in the history of this country, barring none. And I just hope you youngsters don't have to continue to read these old right-wing cracker-controlled newspapers to find out who you are or what you're all about. Because you see, the average established newspaper in America today is not even morally sound enough even to discuss you young kids with yourselves. They call you hippie, yippie, irresponsible, bearded, smelly kids, whatever the hell that means. And my reaction to that has always been, why because you have a beard, why does that mean you have to stink? They don't say nothing about Abraham Lincoln. He didn't only have a beard, he was ugly too.

"I guess what I'm really trying to say to you youngsters in America today is I hope you understand who you are, what you're all about. I hope you don't have to depend on us older Americans to defining you and you actions.

"That's what my new book is really all about. I've been on the college campuses now for five years. It's called 'No More Lies, the Myth and Reality of American History.' And that's what the problem is in America today.

RE: APPEARANCE OF RICHARD CLAXTON GREGORY  
AT WESTERN CAROLINA COLLEGE (WCC)  
CULLOWHEE, NORTH CAROLINA

---

For 400 years we lived in a myth in this country and now for the first time you young folks has forced this into reality. We can't deal with it.

"We got a lot of people can't deal with the reality that long hair and a beard is, because see, the myth we've lived in in this country for so long, that we're sick enough and slimy enough and degenerate enough to believe that morality is a Brooks Brothers suit and a clean-shaven face and a haircut once a week. You can commit all the adultery you want to in America as long as you get your hair cut short and shave and press your suits, you're a high, moral, upstanding gentleman. That myth, you got a lot of people that's against long hair and beards not because they're really guilty because they know damn good and well it's a hell of a thing to be born and raised in a so-called free society and know you better not walk in your house with a beard. That's a hell of a thing, baby. Understand that myth now.

"We got a lot of white folks griping today about them beards and long hair act like niggers used to act once upon a time. I don't want to go to them white schools, that nigger was scared. He knew he'd get his ass whooped if he went there. And rather than deal with reality, say I don't want to live in no white neighborhood. We got to deal with reality thanks to you youngsters. Really putting us uptight too.

"There was a time in this country we could always blame everything we didn't want to deal with on the Communists. Because a lot of you Southern white folks is still hung up on that trick more so than your Northern white brother is. It's that nigger bag y'all are in. That's what we used to do. We blamed all kinds of things on the ghosts we didn't understand. The ghost is going to get you. And it's so amusing to look at you white folks in America today reacting to the Communists the same way niggers used to react to the ghosts. Kind of makes you wonder who the nigger is today.

"Yeah, just like most of you white folks think there's a communist behind every rock and the nigger used to think there was a nigger behind every tree, a ghost. There's a ghost, there's a ghost, there's a ghost.

"The sad thing, most of these white mentality thinking in America today, I don't mind you blaming stuff on the communists. Why don't you blame something bad on them? Do you realize white folks in America don't blame nothing but good things on the communists? And you march down the street in the morning and say liberate our Indian brother off the reservation. That's communist inspired. What the hell makes you think the Indians, the Russians is interested in getting the Indians off the reservation? March down the street and say feed hungry folks in America and them freaks say that's communist. Why do you blame all the good things on the Russians?

"You know, I wish I could take all these white folks that blame everything, I wish I could take you to Russia with me. I go every two years. Maybe if I could carry you there with me you wouldn't be blaming good things on the Russians because once you go there you find out them cats that run Russia ain't nothing but a bunch of slick, slimy degenerate white folks just like these slick, slimy degenerate white folks that run America.

"You see, there's a lot of people around the world that really don't know what's going down. And they get the news and they believe what they read. Can you imagine if we was living up on some primitive obscure mountain now and we heard about the communists, and every time somebody marched for liberation in America everybody blamed it on the communists, what the hell you think they think about the communists? They say oh man, the communists are behind a lot of good things.

"You know, I wonder why the white folks in America don't start blaming some bad things on the communists. You know, any time it snows, blame it on the communists. Every time there's a flood, the communists, the damn communists did that. Every time somebody sticks up a bank we ought to blame that on the communists. Prostitute houses, no that's communist houses.

"I'm so damn sick and tired of you white Americans in this country blaming all good things on the communists. You can't even write a damn book in Russia without going to jail and every time somebody marches in this country for liberation, you white folks want to say the communists  
\_\_\_\_\_ (next couple of words unintelligible).

"I'd much rather live in America myself than in Russia. At least I know what these political degenerates are talking about. I don't understand no Russian, no. I don't know what niggers sound like in Russian. A cat might be calling me a nigger and I think he's saying good morning. Morning to you brother. (Next word unintelligible.) Morning, same to you and your mama. Whatever it was you called me, I hope it was something nice because I mean it for your mama too.

"You young kids really got us squirming in this country today. You got us dealing with reality. That's a hell of a thing. All your life your mama and daddy got that picture of that Christ boy around the house with that big beard on and that hippie hair, and the first time you come home looking like Christ, they run you out of the house. Yeah. You got to deal with reality.

"You know, there's people in this country wouldn't be caught letting a Jew in their church. How sick that is. Run down to your church every Sunday and that Jew boy mailed

to the cross but you don't want a Jew in the church. Are you out of your mind?

"And I'm so glad you young white folks is pushing these folks in this country to deal with reality. Listen, down here in the South, the Southern white brother of yours has really put you in a trick. And you ain't got hip to it yet. He robbed you blind and gave you a nigger to play with, but you ain't going to never get a Boeing 747 in the South. Although your tax money builds airports for that Northern freak to have all them luxuries, but you sure don't get it. And the ones that you are going to get in the South is what that Northern white brother of yours comes to have his holiday in Atlanta, Miami and New Orleans. Mississippi won't get a 747 for 100 years. That's right. Sounds funny, but they got niggers to play with. You got niggers to play with. That's why all your schools are so much worse than them schools up North. You got to be out of your mind.

"Every slave brought to America, when the Northern white ship owners brought the slaves to America and sold them to Southern white folks for top dollar and then one day your Northern white brother said after he got all your money, get rid of the slaves. And you Southerners ain't had enough damn sense to ask for a refund.

"We are really trying to \_\_\_\_\_ (unintelligible) with the Southern white brothers \_\_\_\_\_ (unintelligible) because once we get you in line we can go get that vicious freak, baby. Yeah, that damn Southern white boy sold me to you than missed over you and then you're going to jump on me.

"There are people living in the North that are scared to drive through the South because the Illinois license plates have got Land of Lincoln on them. You got white folks that will throw a brick through your car if you got . . . This ain't bad, you know, this cat gets mad, throw a

brick through anything he wants to throw it if that's what he wants to do. My hang-up is the same cat that throw a brick through my car because it's got Lincoln's name on the license, that same freak ain't got enough mentality to get rid of the \$5 bills that's got Lincoln's name and his damn picture on it.

"Well, he's missed over. We got to deal with reality now. You youngsters got a big job. Deal with reality, baby, understand what a mess we left you to clean up now. And if you haven't understood, you should understand by what happened last week. I don't care where your loyalty is, you swing with the left or swing with the right, don't be no damn fool. And damn good and well when the United States of America decides to take a confessed murderer of women and kids and old men and make a national hero out of that freak, boy we might be gone beyond the point of no return.

"I just got back in the country and I just couldn't believe that America was reacting behind CALLEY like they reacted behind that murderer. I can sympathize with him. I don't believe it's Calley's fault. If I walk up here tonight and somebody gives me a gun and says when you go up there shoot five people, now it might be their fault, but I did the shooting. I'm the murderer. He admitted he did it.

"Now we ain't talking about nothing somebody's blaming him for. He's the national hero now. That's why the whole world is raging at you. Then the President of the United States took him out of jail and put him in his quarters and the wild thing about that is NIXON is one of them law and order freaks. He ran so hard on law and order in 68, I thought he was running for sheriff instead of for President.

"At least them Nazis faked us out with the Nuremberg Trial and made us believe they were sorry about what happened. And we're the ones that handled the Nuremberg Trial. No, I think what NIXON should have done was sympathize with Calley and his family and say he's going to see to it that everybody else go to jail who was involved like General WESTMORELAND and even LBJ. He was head of the Army then. Poor NIXON, this cat, he wasn't even involved. He wasn't even in office. He wasn't even working during the MeLai incident. He didn't have no job. He was unemployed. And now he even got in the White House now and is going to damn near take the rap.

"I really feel sorry for NIXON. It's something, you look at him on television, something about his jaws the way they hang. That's the saddest cat, his jaws hang over. It just makes him look like he's guilty of everything. If there's ever been a man in the history of man that needs a beard, NIXON is that cat.

"NIXON took him out of the stockade. He's back in his barracks now. Before NIXON took him out of the stockade when he was in the stockade he shared a room with another prisoner. Did y'all read about it, any of y'all read about the other prisoner he was with? The other man that was with Calley was in the stockade for forging checks. The check forger is still in jail tonight and the murderer is back in his quarters because this sick, degenerate nation created so much pressure that the number one man in the land instead of acting like a statesman, he acted like a slimy degenerate politician he is.

"The sad thing is, wouldn't this be a wonderful country if we Americans could raise so much hell tonight and put so much pressure on the President he would let the Indians off the reservation in the morning and relieve them from the reservation? Wouldn't that be nice? Wouldn't it be nice if we'd raise so much hell in America and put so much pressure on the President tonight that he'd be forced

to deal with feeding 44 million people that go to bed every night hungry? Wouldn't it be wonderful if you Americans was morally committed to the extend you could put so much pressure on the President he'd stop paying billions of dollars to these rich farmers not to plant crops every year in a nation where people are dying from malnutrition?

"And the whold world is hip to you. It scared England so bad, she sent a formal protest over Sunday. Because England is probably the slimiest of the slimiest of the degenerates, but they do theirs discreetly and America has done pulled the cover off of them. Yeah, oh yeah, them Englishmen went over here and said we deplore your action on letting that murderer go. And England is the boss of murderers.

"I've never understood you American white folks. You don't even know how to be no bigot. But you \_\_\_\_\_ (next few words unintelligible), get blamed for it. You don't know how to be no bigot. And everybody in the history of the world who had some slaves was able to keep their slaves for 5,000 years. You couldn't keep us in slavery 100 years. You're a lightweight chump.

"And the Englishman is the world's number one bigot but he's learned the one mark of intellectuality, he's learned how to disagree agreeably. The number one killer on the face of this earth is that Englishman. But these heathens over here, they upset London so bad then they just had to say, Hey, wait a minute. Let the whole world know we ain't with them.

"Yeah, I know England was upset, yeah. Even over there in Algiers last week, trying to trick them niggers out of some oil, and America messed up with that Calley trial and

took the cover off of them. You youngsters got a big job. My generation is responsible for the Calleys. And your generation with a moral commitment and integrity got to see to it that there'll be no more Calleys in your generation.

"If you think the way of solving the problem of wrong is by rewarding it like it was right, then you let somebody stick up a bank one day and get caught. Say you're all right and let him go. The next day he sticks up another one and kills somebody and gets in the electric chair, which if you had got him and punished him the first time he might be alive today.

"You youngsters got a big job. I say to you you have a big job in America and because the very faith and destiny of America depends on you young folks. Not just in America, all over the world we've left you youngsters a mess to clean up. You can always tell what man has messed up because he always passes laws against it. Anything man dirties up, he passed laws so he don't have to see it. That's why black folks got so many laws passed against us. Man messed us up so bad he don't want to see us. Why do you think the Indians got so many laws passed against them? We dirtied up the Indians so bad we don't want to see them. Why do you think you women got so many laws passed against you? We dirtied you up so bad. Why do you think sex got so many laws passed against it? Because we dirtied up sex and sex organs so bad we don't even want to see it. Anything man dirties up he don't want to see it.

"I'll pull my shoes and socks off and walk out of here tonight at 50 below zero and everybody will say Dick Gregory is crazy. I'll come around the building, come in, take off my tie, my shirt and my coat, my T-shirt, walk out there 50 below zero, nothing on my back, nothing on my chest, barefooted, and say oh, this nigger has really

gone crazy. I'll come back in, take off my pants, walk out there with a pair of shorts on, 50 below zero. And everybody says huh huh, civil rights done ran him crazy. I'll come back in and take my shorts off and walk out their naked. I ain't crazy no more. Now I go to jail.

"Why do you think they put me in jail now, because they don't want me to catch a cold? Because I dared show a sex organ that man has dirtied up. Anything man dirties up he don't want to see.

"See, I can walk out there with my chest out and nothing happens. You women better not walk out there with your titties showing the way we dirtied them up. I'm right. And the day we men learn how to dirty up our breasts like we dirtied up yours, that's when we have to put little band-aids on when we go out too.

"Why do we make you women wear all them clothes? We dirtied you up so bad. That's why y'all scared us with them miniskirts. We didn't know what y'all were going to show us. Yeah, that thing kept getting up and up, whew! Well I must say you ladies, we haven't dirtied up your sex organ as much as we've dirtied up ours. Of course, you women are not aware of how much we dirtied up our sex organ because you never get to see us that much.

"If you women could just see men when they go to the men's room. Yeah, it's an awful sight. They you would really understand what we mean when a cat dirties up something he don't want to see it. A cat walks into the men's room, the first thing he does is look around and make sure ain't nobody looking. Then he walks all the way up into the stall and after he gets all way in the stall, he zips his pants down. You can tell when something happens because he starts looking up at the ceiling.

"Oh, if the women's lib one night while the men were sleeping could slip into all the men's rooms and put mirrors up on the wall, the cat run there the next morning and say whew, whew! What happened Charlie? I saw it, I saw it, I saw it!

"Anything man dirties up he passes laws against it. That's right. I wook out here at night and walk across the street and walk up to a tree and zip my pants down and start peeing on the tree. And I really tried to find a way of saying peeing on the tree than peeing on the tree, but there's no other way of saying peeing on a tree than peeing on a tree. I had one old woman one night say you could say passing your water. I said hell, lady, I can spit and do that.

"But I walk up to the tree and zip my pants down and start peeing on the tree. What do you think happens? Here come the cops. All right, put both your hands up. Damn you boy, I said both of them. What you got in your other hand? If I told you you wouldn't believe it. All right, okay officer, okay. Now I go to jail, right? Worldwide news. Dick Gregory arrested, for what? Not peeing on the tree, you know, there's no law against peeing in public. I went to jail for indecent exposure. I dared show a sex organ that man had dirtied up.

"There is no law against peeing. I can stand here tonight and pee in my pants and they can't put me in jail. That's right. As a matter of fact all of y'all could pee in your clothes right there. The state legislature would be upset. That nigger came in and ran them crazy. They peed all over the room. Yeah, we could all go to the airport in New York and get on one of them Boeing 747's and fly to Paris, France and pee all the way across the Atlantic. Dig it now, it's very important what we're talking about.

"Man has dirtied up sex so bad that nobody wants to talk about it. Nobody admits they do it. Nobody could get here on the face of this earth without sex. Nobody admits it. How'd you get here Charlie? I was published. Everybody do it and nobody admit it. What did you do last night? Mmmmmmm. We lie to our kids. Kids come and ask us an honest, legitimate question. Mommy, how'd I get here? Oh, ask your daddy. Daddy, how'd I get here? The stork brought you, get the hell out of here.

"We've dirtied up sex that bad. Nobody wants to talk about it. They lie about it. Nobody wants to see the sex organs. Dig it. We're born with sex organs that give us the magnificent ability to recreate human life. Can you believe that man has dirtied up this so bad that nobody wants to talk about it? Do you believe that the only people that would have the ability to have babies, you have to be worth 50 million dollars and pay 10 million dollars to go way up on a mountain and let a certain sun shine on you and then you could give new life. Oh, everybody would say oh, how wonderful that is. But you know, the poorest and the richest man can create new life, and we dirtied up sex organs so bad.

"Have you ever asked yourself how can the creation be dirty? How can a sex organ that gives you the ability to create new life be so dirty that you passed a law that if somebody shows it they go to jail? I'll tell you how. Man did not use his sex organs for creation. He uses it for recreation. Yeah, that's why we got all the hang-ups now.

"I say to you youngsters tonight in America, you have a big job. Yep, the very faith and destiny of America depends on you. Oh, you heard them talking about the many problems confronting America today. Many people seem to think some of the problems can't be solved. I say to you young folks in America today that every major problem

in America tonight was created by man, which means these problems can be solved overnight if you young folks decide to solve these problems with honest, ethical statesmanship ability and not this sick, tired degenerate political muscle.

"That's what the problem is in America today. The same slimy, degenerate political forces that's created all the problems is now telling us they can't solve them. You're damn right. Hell, the Democrats and the Republican party is too degenerate and unfit to govern this country any more. That's why America is about 18 months to 2 years away from a dictatorship. I know that sounds strange to you now. You ain't going to believe it now because you're so busy in little petty things you can't see the handwriting on the wall. Every newspaper in America ran the story that every governor in America had a tap on his phone. Who in the hell do you think is tapping the governor's phones in America? The Black Panthers? Congressmen are complaining now J. Edgar Hoover is tapping their phones. What do you think all that's about?

"And that's another sad mark on the American mentality. People all over the world know J. Edgar Hoover is one of the slickest, slimiest degenerate freaks that's walked the face of this earth, and you damn Americans got that freak all built up like he is the ideal American image. You've got to be out of your mind. One day you're going to find out about Hoover. One day you're going to find out about that sick perverted pimp.

"Yeah, it sounds funny because you don't know about him and it don't do any good for me to tell you about him because where your mind is, you wouldn't even believe it. But it's going to break because you can't keep a slimy creep like that hid for too long a time. He's been in

his halo for 40 some years perpetrating his slimy tricks on the American public. You're going to find out about him now. It's going to blow a lot of your minds.

"And when the CIA overthrows this government we can't blame nobody but ourselves, other than young kids, but us old folks. The last 100 years every time we go to the polls to vote, for 100 years every time we go to vote, we end up voting for the lesser of the two evils. Try that for 100 years. You've got to end up with the evil or the evil.

"You just watch that political arena. In order to become a U. S. Senator today you must spend 2 million dollars campaigning to get a 55 thousand dollar a year job. Hell, I know people can't even count got enough sense to figure that out. And Rockefeller in New York City spent 8 million dollars campaigning to become the Governor of New York again. Hell, for 8 million dollars I could have ran for God, and won.

"Oh, that's another trick we have made out of this country. We have really made a trick out of God. We start off tricking with God with little kids five years old. I pledge allegiance to the flag of the United States of America, one nation, under God. You got to be out of your mind. Do you really believe this is a nation under God? Why, at this very moment we got Indians across this country locked up on reservations going through some inhumane conditions unparalleled any place else in the world and you are really slimy enough and sick enough and degenerate enough to believe that this honkey country is a nation under God. There isn't another country in the world where the people that harvest the crops is dying from malnutrition, like here in America. I tell you one thing, if this really, truly is a nation under God, I sure as hell would hate to see one under the devil.

"And since NIXON wants to be such a good American, there's a whole lot of things he could be doing for this country other than letting some murderer out of jail. He could have got you out of Vietnam. Sitting and reading the paper today, Senator said he believed NIXON's speech is going to announce that by 1972 they're going to withdraw all the troops. Do you believe, I mean these young kids, do you know what that means? That means they're going to keep you youngsters in Vietnam getting you killed until it gets time to election and then they're going to bring everybody home. If that ain't a damn shame. He can bring you out to help win an election, but he can't bring you out to help keep you alive. If the federal Presidential election wasn't to be held again until 1980, we wouldn't even consider coming out of Vietnam until 1979.

"If NIXON really wants to do something for Americans, what he should do is get on television one night and release a list of all the dope pushers in America. Yeah, that would be \_\_\_\_\_ (unintelligible). And don't think NIXON couldn't find out who the dope pushers are if he wants to. I don't think I've ever been in this town before. I haven't been here two hours yet, and I could leave here now and go out and find some connections to make me some stuff. I know if I can coming to this old hick town and make connections in fifteen minutes to get some stuff, as dumb as I am, I'm sure NIXON with all his intelligent boys can find all the pushers across the country. Damn Army would not admit they're running dossiers and files on 25 million Americans. I can't believe that they ain't got no dope pushers in the files. I can't believe they got everybody but the dope pushers. So, if he wanted to know who's pushing the dope all he's got to do is go and ask the Army. Say, give me your dossiers on the dope pushers. Say, well we haven't got them. Say, well who're you watching, Priests?

"If NIXON really wants to do something to help this country to show his patriotism to American Americans, what he ought to do one day is walk down to the Pure Food and Drug Administration and get that list of additives and chemicals and poisons that the federal government permits the food chains to put into your food that's wiping you out every day. To release that list to you. Yeah, that would do you a lot of good.

"I'm sure us Americans would be much better off knowing that there are documented evidence in the Surgeon General's Office, been there for twenty years, that proves beyond the shadow of a doubt that there is more stomach cancer caused in America every day from drinking coffee than lung cancer from smoking cigarettes. And I'm sure you coffee drinkers would be happy to know that wouldn't you?

"As a matter of fact, if NIXON really wanted to do something, what he should do is release that real cigarette report. Because y'all are down here in North Carolina where they perpetrated that trick. I bet y'all don't even know about it. Some of you probably do. I'll bet if they gave you that real cigarette report, baby, I'll bet you would have quite smoking overnight. Yeah, that report that scared a couple of people, that was the compromise report. So you can imagine what the real one was all about, couldn't you? Cigarette smoking causes cancer--that's the second most detrimental effect. If they had told you the number one effect tobacco has on the human body, I'll bet you would have give them up. If they had told you the number one detrimental effect tobacco and nicotine have on your body, it destroys your sex organs, I'll bet you would have quit smoking overnight if you could have got that true report, don't you?

"That's why the Russians, every now and then you read in the paper where the Russians, 80 per cent of the Russians, quite smoking overnight. They sure are strong. They ain't strong. The Russians just released the real report. Hell, you'd quit too. That's right. I don't have to tell you right here in North Carolina.

"You hear the cigarette company keep saying cigarettes, don't you hear them saying tobacco don't cause cancer? You've heard them make that statement? They ain't lying. Tobacco do not cause cancer. No, cigarette smoking causes cancer.

"Let me explain it to you. You in this state, you really should know it. You ever been around anybody smoking Bull \_\_\_\_\_ (unintelligible)? You notice when you put the Bull \_\_\_\_\_ (unintelligible) down on the ashtray and quit puffing on it it goes out? You ever notice that? Have you been around anybody smoking a pipe? And when you quit puffing on the pipe the tobacco goes out. It is normal for tobacco to go out when you ain't puffing on it. I tell you what's causing cancer in your chest, these stinking, filthy, degenerate cigarette industry folks decided they're going to come up with a way to make your cigarette burn when you wasn't puffing on it, being that it's normal for tobacco to go out when you ain't puffing on it and it's the damn chemicals that they add to the paper and the chemicals they add to the tobacco to make your damn cigarette burn when you ain't puffing on it is what's causing cancer of your chest and the federal government knows about it because they okayed them slimy, degenerate freaks.

"That's what we're talking about. How come you Americans can't find that out, since we got a President that's so patriotic and so . . . ?

"As a matter of fact, if NIXON really wants to do something to help America one night while everybody in Washington, D. I'm sure America would be much better off tonight knowing that the CIA was involved with the assassination of your President than having some murderer send out of the stockade back to his quarters.

"You youngsters got a big job. And you haven't got much time. Just keep your eye on them politicians. I'll be honest with you. I could never vote for DICK NIXON but I sure am glad he is President. I don't know no man alive today I'd rather see get President other than DICK NIXON. That's right, I mean it. I couldn't have voted for him, but see I looked at DICK NIXON when he was campaigning. He just had, I could just tell the way he looked if he ever became President of the United States he sure was going to put a hurting on white folks. You know, I don't have to tell you. You know white folks is hurting more today in this country than ever before in the history of America. I go across the country every day. I see more white folks crying today than ever before. I see white folks doing things I used to see nobody doing but niggers, shaking their head.

"I didn't realize how bad things was until this morning. I jumped on the plane and was walking to my seat and an old white cat sitting there looked at me and said can I speak with you my brother. I said your what? Things got so bad I'm your brother now. And when everything was all right I was the nigger and the coon. Things got so messed up I'm the brother now.

"So I looked at him and said yeah, what's happening my man? He said they're really messing up all of us. I said who, the Black Panthers? He said no, NIXON and them. I said I don't even want to discuss that. That's white folks' business. He said well he's messed up the money, it's black folks' business too. I said what do you mean by that? He said black folks ain't got no money. I said don't bother, whatever money we ain't got y'all can't get. He said but I was reading in the Wall Street Journal this morning that at the rate we're going we're headed into another depression. I said y'all might be. We never came out of the last one. Oh, NIXON has messed with the money and you ain't seen nothing yet before he gets through with us, before 72 gets here that silent majority is going to be one of the most vocal groups you ever heard in the history of America. And not another man on the face of this earth would have become your President and got to messing with your jolly green Jesus.

"Oh, we know what your God is in this country and you fake out and got all them churches on every corner and wearing all them old crosses and that old cross on the hill comes in it now. The whole world is hip to you, knows what your God is. I've always wondered what is inside of these churches other than God that makes them lock them up at night so I can't steal it. I tell you what, I tell you what your jolly green Jesus is, that damn Calley, that damn Calley not would have gone to Vietnam had he taken him a flame thrower and walked into the New York City and walked into the Chase Manhattan bank and burned up all the money, they'd have had his ass so far under that jail tonight you'd have to pump air down to him. I know what you God is in America.

"What do you think would have happened to Calley had he not killed them people in the ditch, if he carried them bazookas to the Space Center and \_\_\_\_\_ (unintelligible) and blew up that moon rock?

"If you want to know what your God is in America Sunday morning when you go to church, this is your good freak-out day for church, oh everybody people that don't even mean it will be going Sunday. On your way into your church Sunday, on your way in, pull out a good old piece of American folding money and hold it right next to your church and see which one of these institutions you're going to find in God we Trust inscribed on it, your money or your church. This is your God. If you don't believe that, you let the churches in America decide next week we ain't going to church on Sunday no more, we're going on Monday. See who will have the most people in them next Monday, the factory or the church.

"Oh, we love the money. This is one of the few countries in the world you can kill your mama, get you some money, get you a good lawyer, walk into an American courtroom and plead temporary insanity and you damn near beat the case every time. I tell you what you better not do in America. You better not forge no check and get caught and get you a lawyer and walk into an American courtroom and try to plead temporary insanity. You kill your mama, you might be crazy, boy. You mess with the money, you got good sense and we're going to put you in jail. Oh yeah, we love the money.

"You know, you do in this country, now you can slip in some old woman's house tonight and take a poker and hit her in the head and beat her to death and rob her and get a nickel. Tomorrow morning when America finds out you killed that old woman over a nickel this country would be outraged. Killed that old beautiful woman over a nickel. You ought to give him the electric chair without a trial. Slip in that same old woman's house tonight and rob her and hit her in the head with a poker and kill her and get 10 million dollars. Tomorrow morning when America finds out about that money, everybody in this country would be saying she had no business with that kind of money around the house.

"I say to you youngsters tonight in America, you got a big job. That's really what black folks is talking about in America today. Really talking about white folks reaction to us. I swear to you, we don't understand white folks' reactions to us today. All at once you got a lot of white folks saying niggers have gone crazy. What's wrong with them? I tell you one thing, niggers got more sense today in America than ever in the history of this country. When niggers were truly crazy, that's when most white folks thought we had some sense. Come here \_\_\_\_\_ (unintelligible), come here nigger. That's when niggers were crazy, but most white folks loved us then.

"Now, everybody wonders what's wrong with us. Damn good and well what's wrong. Any old blatant idiot knows America is a racist country that oppresses folks. And what's wrong with us? We're reacting to the racism and the oppression, that's all. I could understand white folks getting uptight in America if we were saying to white America, you can't be a racist no more. Hell, I'd be upset too if I had been \_\_\_\_\_ (unintelligible) that long and somebody told me I had to quite. I can understand America being upset tonight if we tell America you can't oppress folks any more. We have not told America to stop oppressing people and we've not said to white folks you can't be a racist any more. All we've said is we're going to react to racism and oppression, that's all.

"And you run up here tonight and cut my wrists, I might not do nothing back to you, but my God don't get all uptight because I'm bleeding on your rug. Just look at them niggers. Every time you cut them they just bleed on your rugs.

"And one big problem in America, a lot of white folks been playing that nigger's game a little too long. Henry Cabot running around calling me the nigger and the coon as long as I

RE: APPEARANCE OF RICHARD CLAXTON GREGORY

was bleeding and that was all right. You got a lot of white folks in America that believe that I'm a nigger and a coon. Because you believe something about me, don't make it true. What do you think, would happen in America in the morning if all white folks woke up believing every black person in the black ghetto got 10 million dollars. Do you think that would make us rich, just cause you believed it? See, a lot of people don't understand that the same universal intelligence bank that put white folks head together also put black folks head together.

"And that's what my problem is in America today. It's the universal intelligence we have in our head that makes us react to these insults. You know how insulting it is to me some nights when I'm laying in my bed trying to go to sleep and I get to thinking about how a German killed my daddy during World War II. A german killed my father in 1942. I was 10 years old then. I'm 38 years old now. That means I would have gone 28 years without a daddy which really ain't no insult, because when daddies go to war they got to kill or be killed. The insult is that the same German that could have killed my father in 1942 and made me go 28 years without a daddy, that same German tonight you would permit to come to my daddy's country and live in a neighborhood you would not permit my daddy's boy in. We say you got to be sick, insane and out of your damn mind.

"And that's what we're reacting to. And that's your racism baby, your insanity. We're tired of these insults. We're not saying don't insult us. All we're saying is please have enough integrity to understand what we're going when you see us running out here. We're reacting to these insults.

"Angela Davis in jail tonight. I don't believe Angela Davis is in jail because she's black, no. Just check the records. You'll find out any time honest, decent folk

RE: APPEARANCE OF RICHARD CLAXTON GREGORY

book sick degenerate systems, they not only put you in jail, they'll kill you too. If you don't believe that, ask John Brown. Can't get no whiter than him. And the insult about Angela Davis is the fact that America has invited eleven white Russians to America to sit in on the Angela Davis trial but haven't invited no black folks. They invited eleven white fonkey Russians that don't give a damn about you or your white system, baby. Kruschev already told you, of course a lot of you might have been a little young when he said this, he said he could have buried you when he was Premier, he'd have been happy. That don't mean nothing. You can relate with white, yeah, regardless of what they're going to do to you.

"I wonder what America's reaction would have been had Lieutenant Calley been a Vietnamese and them folks in the ditch been American white folks. It would have been a different ball game then wouldn't it? You know, if them eleven white Russians decide to take America up and come to America for the Angela Davis trial, do you know they wouldn't search one of them Russians walking in that courtroom every morning like they'd search me? And dig it, baby, I would never say my ethics is any higher than the highest ethical man waoking the face of the earth but I'll say this, my ethics is as high as the highest, most ethical man walking the face of this earth and if anybody don't need searching going into a courtroom, I'm one of them.

"I say we're tired of these insults. Angela Davis was arrested under California law that says if you're involved with a crime in any shape, form or fashion, you don't even have to be on the scene when it is committed, they can indict you and prosecute you for the same crime just like you was there. Now, I don't know enough about law to know if that state law would hold up in the U. S. Supreme Court but I got enough universal intelligence in my head to know one thing, that Sirhan Sirhan was apprehended, indicted, tried and convicted.

RE: APPEARANCE OF RICHARD CLAXTON GREGORY

in the state of California for the assassination murder of BOBBY KENNEDY, and in the course of the Sirhan Sirhan trial it came out in open court that there was three other people involved with the gun that Sirhan Sirhan used to murder BOBBY KENNEDY with, but to this very day in the state of California no one but Sirhan Sirhan has been indicted and apprehended and convicted for the murder of BOBBY KENNEDY but Sirhan Sirhan. This is what we're talking about.

"We're talking about these insults. Every major black community in America today the police patrol our communities with double barrel shotguns. Listen to me good now. Double barrel shotguns was outlawed in the Geneva Convention as a weapon of war because they were deemed too inhumane. Police forces in this country will come in my black community with a double barrel shotgun, a weapon that this country would never be permitted to use on your front line of battle towards your most vicious enemy. Now we're not saying to white America to tell your cops to get your double barrel shotguns out. We ain't saying that. The insult is when Americans ask black folks to have respect for your local police, how in the hell do you thing I'm going to respect the man that carries a weapon through my community that you wouldn't be permitted to carry on the front line of battle and shoot a Viet Cong? You've got to be out of your mind.

"We're saying we're tired of these insults. We're tired of the insults of civil rights legislation. Do you know how insulting that is? You white folks in America are going to get your rights from the U. S. Constitution. We black folks are going to get ours on the civil rights bill. Hell, that's racial segregation. We are making progress. If it's so good, why don't you take it home and give it to your mama? All that civil rights legislation means today

RE: APPEARANCE OF RICHARD CLAXTON GREGORY  
AT WESTERN CAROLINA COLLEGE (WCC)  
CULLOWHEE, NORTH CAROLINA

---

is for 100 years the man has changed my dollar for 32 cents and now today he's giving me 64 cents, but the difference is I can count today. I don't want no 64 cents change for a dollar. I'm going to stop the cheat. I'm going to get me a full dollar's change for a dollar or I'm going to try to fix it so this cash register would never ring again.

"As you read that civil rights legislation it gets even more insulting. Take that 1964 Public Accommodations bill that the Senate and the Congress passed. The black folks have a right to sleep in any motel, black folks have a right to sleep in any hotel, black folks have a right to eat in any restaurant, but when it came to bars and taverns we weren't covered. Now why do you think they didn't cover us under bars and taverns in the 64 Public Accommodations bill? Do you think the Senators and Congressmen know how bad alcohol is on the body and love black folks so much they didn't want us getting involved? I tell you why we weren't covered under that 64 civil rights bill with bars and taverns because that white woman goes in them bars and taverns and you know it's enough sixk white mentality in this country to believe that when the white woman gets two shots of alcohol in her belly she wants to give me her body. And what we're trying to say to white America since that white sister of yours seems to be your damn hang-up, why in the hell didn't you pass a law to keep her out of them taverns and leave me alone?

"That's what we're talking about. We're talking about we're tired of these insults. And now we're getting a lot of white folks coming to us saying what y'all want us to call y'all? Negro or colored or black? You can call us anything you want to call us. We're just saying it's safe to use the word black. And we don't mean to put no white Americans in no imposition or nothing like that, but we've looked around at you and we notice you white folks have little tag names y'all call one another for identification and if you take that little tag name and stretch it all the

way back it will always end up going to a piece of land. German--Germany, isn't that clever? Italian--Italy, ain't that it? Let's try one. Irishman--Ireland. Negro--who? Negro takes me back to a sharecropper's shack. And so all we say is just call me black. And if nothing else, I can identify with night time.

"Understand we're tired of these insults. We're tired of the inconsistencies. Do you realize the inconsistencies white folks use in this country? George Wallace came up North in the last Presidential election and got so many white folks to vote for him they blamed him on us. How come you think George Wallace got so many votes from white folks up North? Bunch of bigots, hell no. Black folks created a white backlash. That's what did it. Oh you ain't seen nothing yet till NIXON gets through with you in 72. You're going to blame him on us. I can just see it now, if you niggers hadn't scared us, we wouldn't have voted for him.

"I'm talking about the inconsistencies, about the inconsistencies of the ways we fight wars today. I really learned a lesson last month. For the first time in my life I realized last month that you can take your mighty Air Force to another man's country and bomb the hell out of him but as long as you don't use no ground troops, it's not considered an invasion. That's an incursion (phonetic). And what upset me, is I got to realize how smart the Japanese was back in 1941. They didn't use no ground troops. Their air force bombed Pearl Harbor and we were so dumb and stupid we thought it was an invasion and declared war on them folks.

"I didn't know what incursion meant until about ten days ago. It means you going to get whooped. And NIXON sure got caught in the tree. He's sitting on the television said yes, the Laotian incursion is coming along just as we expected it. The same time he's saying that the South Vietnamese

is getting whooped so bad they're jumping on the outside of the plane trying to get out. Now you know it's bad enough to jump on the outside of a plane to just land, but hell, they jump on the outside of a plane that's fixing to take off.

"I'm talking about these inconsistencies, about the inconsistency of World War II. World War II we fought the Japanese and the Germans. There were German citizens living in America and there were Japanese citizens living in America. We arrested all the Japanese citizens in America but not all the German citizens in America. We're talking about these inconsistencies. Put all the Japanese in jail but no Germans. I believe we did that because America is a racist country. Now I might be wrong.

"I'm talking about the inconsistencies, talking about the inconsistency of the Vietnamese war. And the way we Americans feel towards the North Vietnamese and the Viet Cong that every time one of your red-blooded American boys gets shot down over the skies of Hanoi with a Sam (phonetic) missile, he got shot down with a missile that was made, manufactured, and hand carried free of charge from your white friends in Russia to them folks in North Vietnam. How come you ain't mad at the Russians? 98 per cent of all the ammunition and all the equipment the North Vietnamese and the Viet Cong get to kill you with comes from the Russians, but you ain't mad at the Russians. Are you really that insane? That you know I'm paying somebody to attack your loved ones, your wife and your family, but you ain't mad at me, just mad at them and every day we go to dinner. See, we still bring the Russian Ballet to America. We still bring the Russian track team to America. What we're trying to say is we believe if 98 per cent of all the weapons and equipment the North Vietnamese and the Viet Cong was getting in the last five years

was coming from Ghana we believe this country would have declared war on Africa four years ago.

"We're talking about these inconsistencies. We're talking about the inconsistency of Muhammad Ali, I mean Cassius Clay. I forgot we can't remember Muhammad Ali. But if he had chose a good nigger name like Jabo Jones I bet you would have remembered that.

"Now we are talking about these inconsistencies. Muhammad Ali becomes heavyweight champ of the world. He lived in Louisville, Kentucky at the time. His boxing contract was owned by eleven white multi-millionaire businessmen in Louisville. One day Muhammad Ali received his induction notice from the Louisville draft board. Happily Muhammad Ali rushed down to the Louisville draft board. Happily they examined him and happily they found him to be 4-F. Nobody in America accused him of being unpatriotic. Nobody in America accused him of being disloyal. Nobody in America even questioned how the heavyweight champ of the world could be unfit to fight. One day Muhammad Ali's contract ended with the eleven white businessmen in Louisville. Instead of him renewing his contract with the white businessmen in Louisville, he signed a new contract with some black businessmen in Chicago. The Louisville draft board called him to come on back, they wanted to re-examine him. He went back. They re-examined him and this time they found him to be 1-A. I'm talking about your inconsistencies. As long as the white folks owned Muhammad Ali's contract he didn't have to get involved with the military, but the minute the black folks own it, it's a different ball game.

"We're tired of these inconsistencies. You know the biggest surprise I ever had in my life happened to me last summer. I went to Africa for the first time. I mean I went to Africa super-black. Had my natural \_\_\_\_\_ (unintelligible) and my dashiki was laying there, and I got with some young black dudes in Chicago and they taught me

the latest handshakes through the leg, around the back, the whole scene, you know. The biggest surprise I ever had, I eg all the way to Africa around black folks for the first time in my life, only to find out I ain't nothing but a white boy. And that ain't funny. That's a hell of a surprise. I don't have no black hang-ups. All my hang-ups are white. Get all the way to Africa to find out I ain't nothing but a chocolate-covered white boy. That's right. I ain't got no black hang-ups. All my hang-ups are white.

"You see in Africa they have no homosexuality. So consequently the men walk down the street holding one another's hands and I don't have to tell you what happened to me every time one of them men grabbed my hand. I sure hope the boys back home don't see this. No see, I had no black hang-ups. All my hang-ups are white. And I tell you something else you better not ever go to Africa and put your hand or your mouth on a woman's titty. No honest, ethical civilized human being would ever stoop to the level of using a woman's breast for anything else other than to feed nature's new life. Only sick, slimy, insane, degenerate creeps would ever stoop to the level of using a woman's breast as a sex hang-up. So I said this, I better get back home where all my hang-ups are legal.

"No, I say to you youngsters you got a big job. This is what black folks is talking about in America today. We're talking about controlling the black community. We ain't talking about controlling the white community, no, we're talking about controlling the black community. My God, what are we talking about that for? White folks start accusing us of being separatists. Well, we been separated in America for 400 years and all at once we're going to get blamed for separatism. Yeah, you got a lot of white folks in America just act like two years ago black folks and white folks were just living next door to one

RE: APPEARANCE OF RICHARD CLAXTON GREGORY

CULLOWHEE, NORTH CAROLINA

another and going to school with one another. Two years ago we got mad at you, sad damn you whitey, and we all moved to a black ghetto by ourselves, right? We say to you folks that's concerned about separatism in America, since you're so concerned about separatism, how come you're not concerned about the Indian that's up there on that reservation? You can't get no more separate than that. Oh, that don't bother you. That's America doing it. If you want to get the Indian off the reservation in the morning, you'll get him off. Get that Indian off that reservation in the morning, you let that Indian hold a press conference tonight and get on television and say me like reservation. Don't want no more white folks on reservaion. You'd have an army up there about midnight and run him off.

"As long as you're doing it it's okay. Did you ever see a television show called the Dating Game? See that show? Every time a black contestant is on that show, the three guests just always happen to be black. That ain't racism. That don't bother nobody. That's the system. I tell you what would bother Americans. You let me go on that show next week and you find out that I refused to work that show because they had a white woman on and I want three black soul sisters. Oh, you never would hear the end of it.

"You know a black man can't drive a railroad train in America? That don't bother nobody. And as dumb as some white folks think niggers is, you don't need too much sense to drive a damn railroad train. All you got to do is follow the damn track. And as dumb as the railroad industry is, did you see last month where they lost 270 boxcars? How in the hell are you going to lose 270 boxcars? And then J. EDGAR HOOVER gets on television and announces we found them. Well that ain't no big thing. My little five-year-old daughter could have found them. All you got to do is show them the track they started on. Where in the hell are you going to take 270 boxcars, in your basement?

RE: APPEARANCE OF RICHARD CLAXTON GREGORY

"We're talking about controlling the black community. That's right. We say give us black cops in the black community. Everybody says that's separatism. Call it what you want to call it. We call it being smart. Now you're going to say we know why you want black police in the black community, police brutality. Most of you white folks don't know what police brutality is as far as we are concerned. A lot of white folks think police brutality is the whooping. It can't be the whooping as far as we're concerned because up until recently the average black cops in the black ghetto was equally as brutal if not more brutal than the white cop was. And not only would the black cop whoop me, he knew where to hit. Yeah.

"You're running through the ghetto, a white cop jump out of his squad car and chase me and catch up with me and take his night stick and hit me across my head, would damn near break his stick every time. A black cop chases me and catch me and catch up with me, he'd beat down on my bare feet on my corns. That's right, that's the worst thing a nigger got his his feet. That's right. You white folks has had us walking on them for 400 years working. Niggers' feet so bad it's all back on his heels, all over on his ankles. You white folks, oh, ain't he cool, ain't he got rhythm.

"We say give us black cops in the black communities. At least when that black cop is knocking me down he ain't calling me no nigger while he's whooping me. Give me a black cop in my community and at least when he pulls my car over for a moving violation he do not refer to my wife as gal. I say give me a black cop in my community so when I'm driving down the street with my light-complected black sister, he don't take me through some changes like that white cop do thinking it's a white woman.

RE: APPEARANCE OF RICHARD CLAXTON GREGORY

"Do you know how insulting that is? Especially to me. You have a black woman in the car and is light complected and that old white racist cop thinks it's a white woman, he got to take me through some changes. Pull over boy. For what? And this really insults me because this thoroughly convinces me when I was growing up in my little hometown you don't want no niggers fooling with no white woman. I ain't never had no white woman, don't never want one. If she's your hang-up, you can take her to the moon if you want to and get her the hell on out of my face.

"I'm so damn sick and tired of these insults. I'm really behaving nice, man. Sitting there with this black woman in my car and the white cop thinks it's a white woman. He's got to take me through all those insults just because his great great grandfather didn't have enough decency to keep his ass out of the slave tent. Yeah, just understand one thing. That's how we got this light, you know. There's a lot of white folks with the illusion that niggers got this light because we just rape you. But you know, that's how we got this light, right? Slave jumping on the master's wife, right? Yeah, come here Mrs. Ann. What y'all want Mr. Slave? You know. Again? Yeah.

"There's a whole lots of white folks in America with the madness and the illusion that every niggers wants to rape you. I had it happen to me last month coming out of my office in New York City. I come out of the J. C. Penney Building. I get on the elevator on the 40th floor by myself. Elevator stops at the 39th floor and an old white woman gets on, 90 years old, on crutches and a foot missing. She get on and see me and say Ahh. She tried to get off and I just held the door. I said lady, you've really got to be putting me on. I mean I heard of wishful thinking.

"We're talking about controlling the black community. It's very important to us. See, they been giving tests in the black ghetto across this country where they've been asking five-year-old black kids to draw pictures of themselves, and nine times out of ten them little kids draw an animal. It's a hell of a thing. A system so vicious that it warps a little child's mind to the extent that when you ask him to draw a picture of himself he draws an animal. We're talking about controlling that black community so one day you'll ask a little black kid to draw a picture of himself and the only reason that picture won't look like him will be because he can't draw. It's very important to us.

"Have you ever, I guess you have, you've seen a picture of Beulah haven't you? The picture of Aunt Jemima? Seen the picture of Uncle Ben? Listen to me good now, because then you'll understand why we talk about controlling the black community. If you don't know what I'm talking about, go to the supermarket and get you them three products with Beulah, Aunt Jemima, and Uncle Ben on it. You know, Uncle Ben got on a tuxedo and Uncle Ben got on a bow tie. You know Uncle Ben ain't fat. Do you think it's an accident you made my man look better than my two women? We watch you very closely in America, and we notice you ain't never used no fat, out-of-shape hillbilly white woman to advertise nothing for you. Why do you want to take them liberties with me? That's what we're talking about, baby.

"We're talking about controlling the black community. That might not be no hang-up to you white folks to go to your supermarket and buy some baby food, but it's a hell of a hang-up for us. Have you ever bought some baby food in a black ghetto? What picture is on our baby food? A white baby. What the hell are you selling, white babies or turnips?

"And so we say \_\_\_\_\_ (unintelligible), we haven't got time to explain our actions to white folks that misunderstand what we're doing. Stokely Carmichael and Rap Brown came through one day and said black is beautiful, and we all said black is beautiful. And white folks all across the country got all uptight. And you didn't even know what he was saying. You live way over in some old white racist, segregated neighborhood. You don't know nothing about us. Many white folks thought that we were talking about black was beautiful at the expense that white was ugly. We ain't got no hang-ups with your color. You're the one that's got the hang-up. You're the only man in the history of the world that fell in love with your skin. Only man walking around talking about I'm a white man. Everybody else says, Russian, I'm a Russian . . . (next few words unintelligible). I'm a white man. Fell in love with your skin and then denied me the pleasure to fall in love with mind.

"Everything black something's wrong with it. Black market, blackball you, angel food cake is always light, devils food cake is always dark.

"I say to you, we were not saying black was beautiful at the expense of saying white was ugly. It's unfortunate you white folks live so far away from us and don't know nothing about us. We were saying black was beautiful because up until five years ago even we was convinced that black was ugly. And we was running around with our lips all tucked in because you white folks said big lips was bad. Niggers running around hiding their nose. (Next few words unintelligible). Well, we mean black is beautiful, not at the expense of your whiteness. We mean black is beautiful. That's what nature gave us. And we ain't tucking in our lips no more. We're letting them all hang out.

"Niggers used to run around being ashamed of the way they talk. Yeah, most white folks don't know that because you don't know nothing about us. But we was ashamed of the way we talked. If you check my history of what happened to me when I got here, when the slaves came over here the first thing they did was clipped our tongues. Can you imagine if I clipped your tongue and clipped your husband's tongue and y'all have a baby, y'all can't talk around the baby, and who does the baby hear talking, me, right? That's right. So we learned how to talk listening to white folks.

"If you don't believe it, record a record of me and listen to me and I sound just like you. And go to Africa and see who I sound more like, Africans or you. I can hear them now, I don't know why you colored folks don't apply y'allself and learn how to speak the English language, like us white folks in America. Hell, I wish all you white folks in America could get on a jet plane and fly to London, England in the morning and then you'd realize you can't speak English neither. And the only difference between you and me is we know we can't talk and we know you can't talk. What the hell do we want to run around sounding like you for? You see some nigger running through the black ghetto talking about gosh, come on you's guys. You know, you listen to them colored talk and you just can't understand what they're saying. That's right. That ain't no lie. And we listen to you whites talk and we can't understand what you're saying. We don't make no big issue out of it because we feel you're doing the best you can.

"You know you white folks should just listen to yourselves talk. You see, we listen to you talk all the time. Get you a tape recorder and record your conversation and play it back and write it down and get your English dictionary and see how many words you used you can't find in the English dictionary. Listen to yourself talk. We

listen to you all the time. Jesus Christ, chucky, let's go get some nooky (phonetic). Some what? Now just what in the hell is nooky? My English speaking friend. I checked every English dictionary and I can't find no nooky but I know it exists cause the way you say it. Thirty-eight years old, been all around the world, I still don't know what nooky is. Just sounds like something I ain't never had, and don't never want. I'll just be happy with my wife and eight kids. Damn nooky, whatever it might be y'all.

"As I leave you youngsters tonight, I say to you you have a big job. I say you have a big job in America because America is worth saving at the expense of alienating your mother, your father, the President and even the Vice President. See, there's nothing really wrong with the U. S. Constitution that a little enforcement for everybody wouldn't straighten out. You youngsters got a lot of questions you have to ask and one important question is a simple question but an important question. And that question is, if democracy is as good as we tell you it is, then why in the hell are we running all over the world trying to ram it down people's throats with a gun? And from the day you young folks work to make this democracy work right, that's the day you can bring the guns home. Because you see anything good, you don't have to force on people. They will steal it.

"So as I leave you tonight I say to you you got a big job. And you young Americans got the all important job of giving sanity back to an insane nation and I beg you young folks in America to understand the answer to America's problems is not dynamite, not guns. If you think the way you deal with the mentally deranged is slipping to the mental hospital at pitch black midnight and blow it up and kill everybody in it and your sicker than them folks lying inside there in the bed. If you think the way you deal with cancer is kill the patient instead of work with the

germ, then we're all in trouble. And you youngsters' violence don't scare America. For every piece of dynamite you got, America has got a missile. For every gun you got she has got a tank. You know the one thing you have that scares the hell out of America and us old fools? It ain't your guns, your violence, it's your moral force. That's the one thing we can't match with you. That's what you won the great boycott with remember? Not dynamite. You stood in front of your supermarkets across this country for five years armed with nothing more than an honest ethical dignity and said please don't buy California grapes and you stood there so long and you looked so beautiful, we listened to you. And we stopped buying California grapes.

"You youngsters in America think you got enough force and violence after what happened at Kent University and Jackson, Mississippi and you was upset. Did you think you were strong enough to wipe out the National Guard with violence? No, but you young folks in America were strong enough to do away with the National Guard last year. If you young folks organized young people across this country and then said because of Kent University, because of Jackson, Mississippi, we're calling for a nationwide boycott of celebrating Christmas for two years, what do you think would have happened? Sears and Roebuck would have wiped out that National Guard for you.

"I say to you youngsters tonight in America if violence was the answer to problems, America would have solved the problems on the face of this earth thirty years ago. So as I leave you I say to you you got a big job.

"And I briefly say to you young white kids in America thank you for changing our civil rights movement into a human rights movement. Because of you young white kids in America, today for the first time we're talking about our Indian brother, and our Puerto Rican brother and our Mexican brother, and our Asian American brother.

"But to you fellows in the house, when you go to bed one night, but before you go to sleep, think about all the women out here in the peace movement with you. Understand this, ladies are not out here in the peace movement because they're worried about going to Vietnam. You know something, you know if all the women left the peace movement in the morning, we don't have a peace movement tomorrow night.

"And some way you fellows in America are going to have to say thanks to these ladies and there's no grander way for you young men to say thanks to these ladies than getting behind the women's liberation movement and seeing to it it becomes a reality.

"You got a big job. You ladies got a big job too. You got to really reorientate your whole thinking. You women got to understand that nature put you on the face of this earth as a human being first and a woman second. And damn it, you deserve all the rights and courtesies that we give our fellow human beings as human beings. You got a big job.

"And so as I leave you tonight, I say to you that I hope you youngsters stay as honest and as ethical and as morally sound as you are and there'll be no guarantee and not only will America be a fit place for all human beings, but the world will be a better place because you was here.

"Thank you. God bless you. May you have fun."

# How to end Viet war

Dick Gregory offers tips  
to young people here

BY MICHAEL BLACKMAN  
Activist Dick Gregory—who's pledged not to eat another bite of food until the Vietnam war is history—called on young people here last night to use their power, ethics and concern to bring back sanity to an insane nation.

"You have a big job to do and there's not much time left," the former comedian repeatedly emphasized to about 800 persons at the Xavier University Fieldhouse.

Gregory, who earlier in the day spoke at Kent State in an anniversary program honoring the four students killed there a year ago, was

brought to Cincinnati by the XU Afro-American Student Assn. and the Student Government.

THE SMALL, slim, 38-year-old black activist, employing mostly humor to reach his predominantly young audience, said in his two-hour and 20-minute talk that young people had the potential to effect drastic changes in America.

For instance, the war. "If you young people organized and decided you were not going to celebrate Christmas until it's over, you'd be surprised how quick that war would get over."

If President Nixon didn't end it under such a boycott, he said, then Sears Roebuck would. He also suggested young people might decide not to buy any more General Motors products until America is out of Vietnam—"hit the country where it hurts."

"THE WAR in Vietnam is in your hands," said Gregory, who April 24 at a peace rally in San Francisco vowed to subsist on a liquid diet until the war is over.

He said the "young folks" today were the most morally honest ever, and he hoped "you understand who you are and what you're all about."

"I hope you don't have to depend on the old folks to understand your actions." (Young people today, he said, are looked down upon by the older generation as were blacks in the early 1960s.)

GREGORY, gesturing generously throughout his impassioned talk, was met often with applause to his comments, which included:

- (About the Vice President) "I believe Agnew's putting everybody on—I don't believe it's humanly possible to be that dumb. You have to say one thing, he's consistent."

- (About the Army intelligence spying on civilians) "If you know anything about the Army, there is no intelligence. Who else would wear spit-shined sandals?"

- (About his bugged telephone) "First thing I did when I got to the airport was go to the phone and call my wife and read the alphabet to her backwards. Anytime I get ready to call my brother, he's already on the line—and he ain't even got a phone."

- (On the proper term—colored, black or Negro) "You can call me anything you want—it's just safer to call me black."

- (About making Lt. Galley a "national hero") "We just might be gone beyond the point of no return."

- (On the American system) "If democracy's as good as we say it is, then why do we go all over the world trying to ram it down people's throats with guns?"

RICHARD CLAXTON GREGORY  
RACIAL MATTERS  
-----

On May 6, 1971, Chief of Police Raymond Edighoffer, Union, New Jersey, Police Department, advised that the above subject had on May 5, 1971, addressed a group of about one thousand students in the auditorium of the Newark State College, Union, New Jersey. Gregory had been invited by the College Center Board at the school.

Chief Edighoffer advised that Gregory, during his talk, stated that he knew that his telephone was being tapped by the Federal Government, but that it did not bother him, and that in fact he at times would call his number and put his baby on the line or recite the alphabet backwards. Gregory said that the Government knew that he knew that the line was tapped but that they continued to maintain the tap.

The "Evening News", a Newark, New Jersey, daily newspaper, in their May 6, 1971, edition carried a brief article concerning Gregory's appearance at Newark State College. The article mentioned the statements related above by Chief Edighoffer and further reported that the subject discussed the national economy, the legal system and the news media. Gregory was reported to have stated that he had never thought that he would see a time when Rolls Royce stock would sell for three cents and toilet paper would sell for sixteen cents a roll. He said that it was too bad that a man could plead temporary insanity for a murder but not for passing a bad check. He also commented that he hoped that young people would not have to read right wing newspapers forever.

A review of this file has determined subject has participated in demonstrations at the United Nations, at the 1968 Democratic National Convention, and an antidraft march following a speech. He consistently includes in his highly inflammatory rhetoric comments attacking police, the Government, establishment, and public officials. He has called for financial support of the Black Panther Party (BPP) and openly sympathetic to the North Vietnamese. Such acts and statements appear to qualify him for Priority III on the Security Index (SI).

You are to submit summary report setting forth his activities since last report was submitted 1/26/68. Submit with the report your recommendations for his inclusion on the SI.

*for*  
*one*  
Coverage of his speeches are to be left to the discretion of the field division where speech is made. His speeches are to be covered and reported under his caption only if sponsored by an extremist group, or if other extremists involved. If an auxiliary office is notified by you of a planned speech, the office should be advised at that time of the above. It is desired that in any speech he makes which involves statements inimical to the best interests of the United States, that such information as obtained from the news media or volunteered by sources should be submitted to the Bureau in form suitable for dissemination.

You are reminded that no recordings are to be made of any speeches on college campuses without prior Bureau approval.

Bureau does not agree with recommendation set forth in referenced letter that there is no continued need to cover subject's speaking engagements. Such coverage is a necessary intelligence gathering function and, as a result, you are not authorized to instruct all field offices there is no need to cover subject's speaking engagements throughout U.S.

NOTE:

Subject placed on Agitator Index 9/2/67. The Agitator Index has been deleted by the Bureau. Chicago recommends against inclusion of subject on SI, but states they will follow his activities, and plan to advise all field offices by 6/15/71 that auxiliary offices need not cover his speaking engagements on college campuses unless they are of some specific interest to that division.

Gregory, a Negro comedian, achieved his national recognition at Chicago's Playboy Club in 1960 as a political satirist. By 1964 he had injected himself in, or associated with, all major civil rights movements and activities. He has been arrested on numerous occasions for his civil rights activities. His rhetoric is highly inflammatory against the U.S. Government, police, FBI, and Government officials. He has associated with and been sympathetic towards known communists, communist sympathizers, the North Vietnamese, members of the New Left, and has encouraged support of the BPP. He is a black racist with a very sick mind, and although not a member of any extremist group, his statements and activities could warrant his inclusion on the SI as he is a definite threat to the Government and defense effort in time of a national emergency. Chicago being advised to submit summary report in order proper evaluations can be made for his inclusion on the SI.

# Memorandum

TO : DIRECTOR, FBI (100-440423)

DATE: 5/14/71

FROM : *CWB/A* SAC, CHICAGO (157-347) (P)

SUBJECT: RICHARD CLAXTON GREGORY, aka  
RM - BN  
OO: CHICAGO

As the Bureau is aware subject was formerly on the Agitator Index. This file has been reviewed and GREGORY does not meet the criteria for the Security Index, in that GREGORY has not in the past 1) exhibited personal characteristics of aggressiveness or a disposition toward violence, 2) advanced principles and aims of a subversive movement, 3) expressed or otherwise indicated a loyalty to any subversive organizations or their principles, 4) held membership in a subversive organization, 5) engaged in the recruitment of members for a subversive group, 6) supported the Soviet Union in acts and utterances, or 7) renounced his U.S. citizenship.

While the above factors are not all-inclusive, an examination of GREGORY's activities and utterances over the past several years reflects that he is a loyal citizen, although vocal in his criticism of his government (U.S.) and its institutions. GREGORY's utterances are usually made on college campuses, are well covered by the news media (have in no known instances caused any antisocial behavior), deal primarily with humorous criticism of governmental policies and/or officials, and calls upon the students to change the priorities of their lives.

Chicago plans to continue to follow subject's activities to insure that his activities continue non-subversive. However, Chicago sees no need for auxiliary offices to cover subject's speaking engagements on campuses, unless the occasion is of some particular interest to the auxiliary division.

UACB, on June 15, 1971, Chicago will advise all field offices regarding the new guidelines (as set forth above) for covering GREGORY's activities.

This report does not portray a summary of subject's activities since report was last submitted 1/26/68. Subject's participation in demonstrations at the United Nations and the Democratic National Convention during 1968 and involvement in an antidraft march following a speech in Chicago are not summarized. In 1971 subject made a speech at Kent State University, Kent, Ohio, at which time he urged the 5,500 students in attendance to organize economic boycotts as a means to persuade President Nixon to end the Indochina War. The report does not contain any samples of the inflammatory rhetoric which generally is presented in his appearances before college student bodies, and criticizes the activities of the United States Government. u

Specifically, such statements as he made 1/25/68 at Whittenberg University, Springfield, Ohio, that the American System must change "or we will burn the country house by house" are to be reported. u

You are to promptly submit a supplemental summary report which will report therein samples of his inflammatory rhetoric which could incite individuals to take action against established authority, his participation in demonstrations, and his support of black extremist groups such as the Black Panther Party. u

You are to reanalyze investigation incorporated in your summary report to be submitted consistent with instructions previously forwarded to you by Bureau airtel 5/25/71 relative to inclusion of subject on Security Index. u

BERTRAND RUSSELL is the internationally known British philosopher-pacifist who recently conducted mock war trials in Copenhagen employing the United States as a defendant for its involvement in the Viet Nam war. U

On December 1, 1966, DICK GREGORY held a press conference relative to his proposed Vietnamese trip. At such time GREGORY stated he would seek no information about the condition of the American prisoners, and numbers, or their location while in North Viet Nam. RICHARD CLAXTON GREGORY  
EXTREMIST MATTERS - EN

ReSite 9/20/71 captioned, "Speech by Richard Claxton Gregory, aka Dick Gregory, Horton Field House, Illinois State University, Normal, Illinois, October 18, 1971. Extremist Matter - Black Nationalist."

Springfield Division is not to record speech by Gregory at Illinois State University through use of Bureau personnel or sources. Through established sources, Springfield should determine if Gregory makes any statements inimical to the best interests of the United States or promotes extremist causes. Such statements generally can be obtained through review of news coverage and/or is volunteered by established sources. In the event such statements are made, they should be set forth in form suitable for dissemination and submitted to the Bureau and to Chicago.

For information of the Springfield Division, subject in his speeches generally uses inflammatory rhetoric against the U. S. Government, Government officials, and law-enforcement agencies. He has spoken in the past before numerous student bodies on college campuses without demonstrations or incidents developing during the time of his speeches. It is to be noted, however, that since 1964, he has actively participated with all major civil rights movements and activities and has participated in demonstrations, several of which led to his arrest by local authorities.

Re: Richard Claxton Gregory

In any event, Springfield should furnish news media coverage of subject's speech to the Bureau and Chicago Division, even though his speech may not be extremist or promote extremist philosophies. u

NOTE:

Subject is a Negro comedian who is a black racist with a very sick mind. Although not a member of any extremist group, his rhetoric could incite reaction among a college student body. Springfield requested Bureau and Chicago to advise them of coverage desired pointing out his speech could be recorded with full security assured. His speech will allegedly consist of issues and choices for 1971 - 1972 and would be attended by the staff and students at Illinois State University. Bureau-controlled recording of his speech is not desired as his inflammatory rhetoric has been well established and the potential for embarrassment to the Bureau far outweighs any advantages to be obtained through such action. Information copy furnished Chicago as they are office of origin on subject. u

# Gregory Claims Youth Holds Moral Power to Alter World

By FRANKIE McCARTY

If they really want to, young people can change this country — not through violence but through their moral force — Dick Gregory, rights activist and war critic, said here Tuesday night.

Speaking to an audience of about 2500 — with few exceptions, young — which crowded into the Quadrangle at the University of Albuquerque, Gregory said, "America can deal with violence, your bombs and your dynamite... but it can't deal with your moral force. It's the only thing you've got going for you... keep it, and I guarantee you that America will become the America so many people want her to be."

Asserting that "you've got a big job to do, and time is running out," Gregory exhorted young people to organize to bring about change. "You have enough power to end the war in Vietnam in 30 days if you organize."

HE SPECULATED: "Organize, and call a nationwide boycott of eating turkey on Thanksgiving and Christmas... the turkey growers would have to join you. Call for a nationwide boycott of celebrating Christmas... and Sears Roebuck would have to join you. Boycott all General Motors products until the war is over... and the president of GM will get Nixon out of bed. You want jail reform? Seventy six per cent of the people who go to movies are under 26... call for a nationwide boycott of movies... and the movie makers will help you get jail reform."

"The answer to the problems isn't violence. Violence is only a short time cure. I don't want to see the Indians off the reservations for a few minutes. You must make some basic change."

Gregory also said that hope for change lies with neither "slimy degenerate political party," but called on the youth to organize outside those par-

ties — "there are plenty within who will help you if you will — to effect political change. If the new under-21 voters are going to follow the established patterns, they are wasting their votes."

"Having the right to elect, without the right to select, don't do you no damn good," he said. "For the last 100 years, we've had to vote under the party nomination system," he noted, "for the last 100 years, we've had to vote for the lesser of two evils."

OTHER CHANGES youth must make:

"Institutions of higher learning have got to teach people how to live, not just how to make a living. There's a difference. Educational institutions must provide education, not indoctrination. If the cavalry won, it was a victory; if the Indians won, it was a massacre... that's not education."

Down to 101 pounds from his normal 168 as a result of fasting since April 24, when he vowed he would eat no solid food until the Vietnam war is ended, Gregory told an earlier press conference he had "never felt greater."

In his evening appearance, he urged his youthful audience to lay off drugs and alcohol "because anything you put in your body that stimulates your

system... you'll have to pay the price some day." He decried "revolutionary pimps who believe that the system has got to be changed but believe the more pot they smoke and alcohol they drink, they're putting it on the system. If you believe that smoking pot is an anti-system act, don't kid yourself. It's the

system that supplies it to you.

A lot of youngsters believe that you've got to smoke pot cool. Nobody in America thinks the system needs to be changed more than me, but if you got to smoke pot to change it, leave it like it is. You need a clear head and pure body to change it."

"If conditions that exist in America today don't get you high — then nothing will ever get you high."

HE ADDED WHEN a country takes a killer like Lt. Calley and makes him a national hero — then maybe we've passed the point of no return."

He said America is probably the "No. 1 racist, oppressor country on earth, bar none."

If the Viet Cong killed a black and a white American soldier, "he'd probably lump them both in the same grave. But if their bodies were sent back to some parts of this country, they probably couldn't be buried in the same graveyard. So our enemy would treat us better than our friends."

"If my father had been killed by the Germans in 1942, I'd have gone 29 years without a father. But today that German could come to this country and move into a neighborhood where my daddy's boy couldn't

He said he saw hope in the efforts of the young in the May Day demonstration in Washington. Seven thousand young people were arrested in one day in an effort to create a situation to shock the American conscience and make people realize that we are in a very bad war."

He noted that 99.9 per cent of the 13,000 arrested during the duration of the sit-down were of draft age. "If you got a law passed raising the draft age to 75, then you'd suddenly find a lot of old freaks sitting on a bridge."

He said he finds it curious that the Washington police arrested 7000 people in one day, "and didn't catch one criminal. You'd have thought they'd have accidentally picked up one whore. They can catch 7000 kids but they can't find the guy who blew up the capitol. That's because he wore short hair, was clean shaven, and wore a Brooks Brothers suit, and carried that bomb in a red, white and blue lunchbox."

RICHARD CLAXTON GREGORY,  
also known as Dick Gregory  
EXTREMIST MATTERS - BOMBING MATTERS

According to an article which appeared in the October 6, 1971, issue of the "Albuquerque Journal," Dick Gregory, described as "rights activist and war critic," spoke before an audience of approximately 2500 persons, mostly young people at the University of Albuquerque, Albuquerque, New Mexico, on the evening of October 5, 1971. u

According to this article, Gregory pointed out to his audience that they had a big job to do to organize themselves to achieve a change in the United States, particularly with regard to ending the war in Vietnam. The article quoted Gregory as stating, "You have enough power to end the war in Vietnam in 30 days if you organize." u

Gregory is also quoted as stating, "The answer to the problems isn't violence. Violence is only a short time cure. America can deal with violence, your bombs and your dynamite . . . but it can't deal with your moral force." u

Gregory also called on young persons to organize outside the major political parties to bring about political change and warned strongly against the use of narcotics. He also stated that institutions of higher learning should begin teaching students how to live, not just how to make a living, and that they must provide education, rather than indoctrination. u

SPEECH BY RICHARD CLAXTON GREGORY,

HORTON FIELD HOUSE

OCTOBER 18, 1971

The "astrologer" predicted that there would be a great world shaking event on November 6, 1971, that many will meet martyrdom and that many will make themselves known. The "rap session" ended at 11:30 PM. u

[redacted] further advised that the true purpose of Gregory's presentation at the Horton Field House appeared to be to recruit students to take part in November 6, 1971, demonstrations. He referred several times to the "7,000 who were arrested in Washington on April 24 as willing to put their bodies on the line for what they believe in". His audience, which was overwhelmingly white, was receptive to his speech. Source advised there were no questions or answers after his speech. (U)

b7D

"The Pantagraph", a Bloomington, Illinois, daily newspaper in its October 19, 1971, issue reported Gregory's appearance in an article captioned "Criticism seasoned with humor as Gregory lists nation's ills". The article reported on Gregory's appearance and stated topics covered by Gregory included politics, racism, the war, drugs, poverty, hunger, police, alcoholism, women's liberation, sex, the youth vote, over-population, the Nixon administration, spying, religion, the economy, prisons, civil rights, black power, Lieutenant Calley, Rap Brown, George Jackson, Angela Davis, and even the riot which took place in Pittsburgh, Pennsylvania, following the Pittsburgh Pirates winning of the World Series. u

According to the newspaper's account of Gregory's appearance, he alternated between comedy and hard-edged criticism in his presentation. Gregory reportedly commented on a wrist cutting ceremony which Vice President Spiro Agnew went through to become a "brother" in a recent visit to Africa. Gregory found it hard to believe Mr. Agnew was "dumb enough to believe he had to go all the way to Africa to get cut". u

OCTOBER 18, 1971

~~CONFIDENTIAL~~

He reportedly stated that President Richard M. Nixon has "messed up the money so bad" he could "compete with God in the next election and never win". u

In regard to May Day demonstrations in Washington, D. C., Gregory noted 7,000 people had been put in jail in one day and in a period of four days demonstrating, 13,000 individuals had been arrested having chosen to "sit down in front of a bridge so they wouldn't have to sit down in front of a bullet". He noted that President Nixon and Attorney General John Mitchell were on television several days before the demonstration threatening the demonstrators and saying they would not tolerate lawlessness. Gregory felt it would be "nice" if we had a President and an Attorney General who would get on television and threaten dope pushers and alleged the President had never had a derogatory word about the "Mafia". u

Gregory commented concerning the use of marijuana and opined drugs may be permitted by the establishment. He thought it was funny that a nine year old child in Harlem can buy heroin on the street, but the Federal Bureau of Investigation can not find it. u

Gregory suggested students start a Christmas buying boycott concluding that it would end the war and would wipe out phase two, three, four, and also wipe out Dick Nixon. u

The newspaper reported it took Gregory almost two hours to touch every subject he discussed during his appearance. u

Subject indicated to the audience that blacks have significant boycott power and that as an example, blacks if they chose to boycott the purchase of Thanksgiving turkeys and General Motor products they could have a tremendous influence in bringing the Vietnam war to an end. Source advised that subject's speech was comical and low key and subject commented that he was presently down to 99 pounds as a result of his fast and protest of the war in Vietnam. Subject, according to source, also feels that the police of the United States do not apply the laws equally. As for example, massive arrests during the May Day demonstrations in Washington, D. C., and very few arrests in Pittsburgh, Pennsylvania during the night the Pittsburgh Pirates won the World Series. X (U)

RICHARD CLAXTON GREGORY  
also known as Dick Gregory

On November 17, 1971, at 11:00 a.m., Richard Claxton Gregory spoke at Willamette University's Todd Hall under the sponsorship of the University Forum Series. Willamette University is a private Methodist college at Salem, Oregon, with an enrollment of approximately 1,500 students. u

According to a source, there were roughly 1,200 persons in the audience, including students and residents primarily from the Salem area. The approximately 50 Blacks in the audience all stood and cheered when Gregory entered the Hall. u

Gregory claimed his weight is down to 101 pounds as a result of his fast of only juices, water, tea and vitamins for the past six months in protest of the war in Vietnam. He suggested young people could end the war in 30 days by refusing to celebrate Christmas, which means not buying turkeys, boycotting Sears, Roebuck & Company and other large businesses in order to "mess up Nixon's Phase 1, 2 and 3 economic plans." u

Gregory lauded the American press as among the best civil rights fighters of all. He stressed that social change won't come from violence and smoking pot, but rather from massive boycotts of major business institutions. u

Concerning the Supreme Court, Gregory deplored the fact that President Nixon cannot find a qualified southern nominee and said it is an insult to the Republican Party that one of the nominees is a Democrat. u

During Gregory's one and one-half hour talk, he made statements to the effect that, "...we niggers are going to ram freedom down the whites' throats as it tastes so good..." "...the whites are going to have airplanes and tanks after them..." "...7,000 demonstrators were arrested in Washington, D.C., and the FBI couldn't find one criminal among them, not even one whore or a pimp..." u

DICK CLAXTON GREGORY

On November 22, 1971, a Special Agent of the FBI attended a public speech by the subject at the University of Nebraska at Omaha (UNO) Theater Auditorium. U

Gregory arrived in Omaha at 12:19 PM. He spoke at UNO from 1:30 PM to 3:15 PM. He held a press conference at 4:00 PM at Wesley House, a Methodist social welfare organization on the north side of Omaha. He left Omaha at approximately 5:45 PM, November 22, 1971. U

Gregory spoke before a capacity crowd of approximately 500 students and faculty at UNO who received his appearance and speech enthusiastically. At the beginning he did not allow local television stations or movies to be made during his speech and stated that he came to talk to the students and wanted no interference during his speech. He devoted the first ten or fifteen minutes of his speech to the fact that he had been fasting for the past few months in protest of the American involvement in the Vietnam war and that he formerly weighed approximately 266 pounds and he now weighs 99 pounds. He stated he would continue to fast until the United States involvement in Vietnam ceased. U

His speech was aimed directly at the young students and he commented several times "you young folks have a lot to do and not much time left to do it." U

Gregory spent several minutes during his speech making satirical humor concerning Vice President Agnew's recent visit to Africa and President Nixon's forthcoming visit to China. U

DICK CLAXTON GREGORY

Gregory spent considerable time degrading the police structure in the United States and mentioned specifically several times that the first day of the May demonstrations in Washington was a great day since it resulted in the arrest of 7,000 young people and "there was not one criminal among them." He stated the reason they were arrested was listed as blocking traffic and then stated at the conclusion of the World Series the victory in Pittsburgh resulted in a mob taking over the streets, blocking traffic and looting; however, there were no arrests made during this riot. Gregory commented on the working of the police in ghetto areas of America and mentioned that all police are corrupt, citing the Knapp Commission's investigation into alleged misconduct of the New York Police Department. He stated this came as a shock to white America and that this investigation would cost the American public five million dollars when, in fact, "the niggers of this country have been telling you for 75 years that the cops are crooked." u

Gregory devoted considerable time to urging black communities to turn in drug pushers, bookmakers, and other types of criminals who prey on the black community and cautioned young people against the use of alcohol and all types of drugs. u

He made mention that the United States was sending thousands of soldiers to Vietnam to free the South Vietnamese when our brother American Indian is still confined to a reservation, living under very poor conditions. Gregory made very derogatory remarks about Presidents Kennedy, Johnson, Eisenhower, and Nixon, blaming all of them for the Vietnam war. He called the United States a racist, rotten country and reminded the students of the slogan "if you don't love it, leave it" and then stated he was not about to leave it, but was going to remain in this country and fight for better conditions. u

The "Omaha World-Herald," an Omaha daily newspaper, for November 23, 1971, in an article entitled "Gregory Backs Black Caucus, Attacks 'Pot'," set out that Gregory held a press conference at Wesley House, 2001 North 35th Street, Omaha, after his speech at UNO in which he voiced support

DICK CLAXTON GREGORY

for a proposed black national political convention. At his press conference, he again mentioned that the people in communities should turn in criminals because he stated "the man (the police) has already proved that he's not going to deal with certain problems in the black community, so we've got to deal with them ourselves." u

The article also said that "Gregory's talk contained a lot of examples of humor, but it was more a political harangue than a comedy routine." The article also stated that Gregory said "I met so many youngsters who believe to stay hip and cool they have to drink alcohol and smoke marijuana. If that's what it takes to be hip and cool, I say it's better to be hot and square." u

Dear Mr. Hoover,

*Richard Claxton Gregory*

I am enclosing a photocopy of an article from the November 17th issue of the Rocky Mountain News concerning a speech by comedian Dick Gregory, a self-admitted communist, before a crowd in Fort Carson, Colorado Springs, Colorado.

According to this news item, past speakers at this army post have included the radical U.S. Representative Julian Bond; LeRoi Jones, author of a vulgar play called "The Toilet", an anti-white play which depicts all whites as being homosexual, and if my memory serves me right, participated in the Newark riots of 1967;; and [redacted] in Denver and who has extensive communist connections including [redacted] near Taos, New Mexico.

This is why I believe that Major General John C. Bennett, Fort Carson Commander, should be investigated for possible communist connections and retired from the service if this is found to be true.

# Dick Gregory first warms, then scorches audience

By LOY HOLMAN  
Rocky Mountain News Writer

FT. CARSON—First warming his audience with his patented comedy patter and then scorching some with some hot remarks on racism, police and morals, Dick Gregory performed to a capacity crowd in the Ft. Carson Fieldhouse Tuesday.

The caustic black comedian appealed to the "young folks of America" to bring about change so they won't have to "depend on a sick, degenerate society as I have."

He called the May Day demonstration in Washington D.C. in which 7,000 persons were arrested "but none of them were criminals" a great day in U.S. history.

"They dared to go to Washington to try and stop the Vietnam War. But we learned from it that if you block traffic for a moral reason you'll get your head beat in."

## A MORAL GAP

"We don't have a generation gap... we have a moral gap," Gregory said, cheered on by the standing room only crowd at the Army post.

He was introduced by Maj. Gen. John C. Bennett, Ft. Carson commander, who said Gregory has been in more demand as a speaker for the Racial Harmony Council's speakers program than any other person in the country.

He was the first to completely fill the fieldhouse's 2,500 seats, although previous speakers in the series have included Georgia legislator Julian Bond, outspoken poet Le-Roi Jones and Denver Chicano Activist Corky Gonzales.

In addition to Ft. Carson, Gregory spoke earlier at Colorado State University in Fort Collins and was to appear at Northern Colorado State University in Greeley Tuesday evening.

Cracking a few one-liners, especially appreciated by the military audience here, Gregory had everyone alternately laughing and applauding.

"When I was in the Army I told them I'd either like to be a comedian or a clown ... and

they tried like Hell to send me to OCS (officers candidate school)," he joked, and the crowd roared.

## GROWS SERIOUS

A few more like that and suddenly he grew quite serious as his appeal began to the young to change the present system.

Returning to the May Day demonstration, he noted that most demonstrators "were" of draft age. "Lift the draft age to 75 and we'll see a lot of old cats marching in the streets, too," he quipped.

"They didn't go to jail for blocking traffic—it was the reason they blocked traffic that sent 7,000 to jail," Gregory said, noting that crowds blocked traffic in Pittsburgh after the World Series but weren't arrested.

Pointing his lethal tongue at the "white racist police structure" in this country, Gregory claimed that if all New York police would "get mad and quit, crime in our largest city would be reduced by 45 per cent. New York police are the best money can buy, and they're sold every day."

Again speaking to the young, Gregory acknowledged that "violence is not the answer to solving our problems. If it was, we could solve every problem on the face of the earth by nightfall with all the violence I see around this place," he cracked as he looked out toward the weapons area of Ft. Carson.

"Remember, for every gun you come up with, the government has got a tank. For every stick of dynamite you find, they've got a missile."

Philosophizing further, Gregory observed that, "The greatest weapon against communism is not your army ... it's making that Constitution of ours work, baby; making man's humanity to man work like it's supposed to."

On a few other topics, he opined quickly:

If you young folks want to make pot legal, make the old folks like it like they do their alcohol.

You might think smoking pot is antiestablishment, but who in Hell do you think supplies it?

The 18-year-old vote is fine except they give you the opportunity to elect but not to select.

If we had done something about all those bodies they dug up down in Arkansas, we proba-

bly wouldn't have had Attica.

Everything's increased in this country since 1942 except the price of a dead soldier's body

... they ought to pass legislation to pay \$50,000 to every family of a dead soldier and make it retroactive to the Korean War!

II. STATEMENTS MADE CRITICAL  
OF GOVERNMENTAL OFFICIALS  
AND POLICIES

On January 15, 1968, at a lecture at Southern Illinois University, Carbondale, Illinois, GREGORY commented that RAP BROWN and STOKLEY CARMICHAEL, in his opinion are being honest in what they say and that the "whities" do not like them because they go to a foreign country and spread the truth. GREGORY commented that "RAP" and STOKLEY were once nonviolent demonstrators but got fed up with white violence. u

GREGORY alluded to the recently discussed law with regard to destruction of the American flag of cloth and that if he wanted to burn it no one was going to stop him. He further stated that the "blacks are coming on strong and their day is coming". GREGORY stated further he was against the Government's confiscation of guns and ammunition from the blacks and not the same action against such groups as the Minutemen. u

[ (CG T-3, 1/15/68) ] ~~X~~ (U)

On March 30, 1968, GREGORY spoke to 1000 persons at the University of Pacific, Stockton, California, where he challenged the statement that there are communists in the Civil Rights Movement and inquired as to why the FBI and the Central Intelligence Agency had not identified them. u

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

He criticized the double standard in the United States and said that Congress did not get upset over crime in the streets until it became crime by Negroes. He pointed out that the syndicate was ten times worse than anything else and if the Mafia was taken over by Negroes it would be stomped out immediately. He stated that BOBBY BAKER stole eight million dollars while working for "LBJ" yet the boss knew nothing about it. He spoke of "LBJ's" attempts to spread democracy in Southeast Asia, yet some of the biggest crooks are in control of Vietnam and why should the U. S. go all the way to Vietnam to stamp out corruption when we have not set our own house in order. U

GREGORY stated that the attitude of Congress is what can be done with the Negroes, not what can be done for the Negroes. He suggested that next summer when the television stations are showing cities being burned by Negro rioters, turn off the sound and read the first part of the Declaration of Independence which states that it is the duty of the citizens to revolt when they have been misused for long periods of time. U

GREGORY ridiculed Congress for passing a bill against burning draft cards within a period of a few days after one had been burned but had not been able to pass anti-lynching law after hundreds of lynchings. GREGORY claimed to be opposed to violence and opposed to all war and was especially resentful of the U. S. sending troops to Vietnam to inflict freedom for a bunch of foreigners when there is no enforcement of freedom at home. He repeated that he does not agree with violence but had to admit that progress comes only after riots and as an example cited the recent hiring of thousands of Negroes by the Ford Motor Company in Detroit. He claimed they were hired only because the fires got too close to the Ford Plant. U

On May 7, 1968, RICHARD CLAXTON GREGORY spoke at Monmouth College, Monmouth, Illinois, in conjunction with the Student Convocation Lecture Series - 1968. *u*

There was no disorder of any type and the speech was humorous, but lacking in depth. The general text was based on the effect college students can have on the economy in their prospective influence as leaders. GREGORY stated students could best demonstrate against the war in Vietnam, not by carrying signs, but by economic efforts such as (1) stop smoking so taxes will not go to the Government; (2) stop buying clothes; (3) stop buying new cars; (4) don't buy products of the Dow Chemical Company; and (5) stop shaving. *u*

[CG T-5, 5/8/68] ~~u~~ (U)

On May 8, 1968, GREGORY spoke at the State University College At Cortland, Cortland, New York. *u*

GREGORY quoted passages from history books and the Bible to justify the actions of his black brothers today. He was not recruiting and his remarks, though shaded with bitterness, were not inflammatory. GREGORY severely criticized President JOHNSON and indicated that the United States was without a leader at this time. GREGORY attempted to get the message across to the students that there is a problem and although they did not create the problem, they will have to be the ones to solve it. GREGORY also commented that we never draft murderers to go over and kill the Viet Cong, but rather we take good Christians and train them to become the best murderers in the world, killing people they have never met. *u*

On May 20, 1968, GREGORY made a speech at Knox College, Galesburg, Illinois, concerned with ending discrimination in this country and also in ending the war in Vietnam. He also commented on racial discrimination on the Indian reservations and GREGORY stated that he had demonstrated for the rights of young Indians. u

GREGORY told the students that they had more power and influence than they are aware of. He advocated more student participation in anti-war demonstrations around the country. u

[ (CG T-7, 5/22/68) ] & (U)

On October 16, 1968, GREGORY as a candidate for President of the United States, on the Peace and Freedom Ticket, made a political talk at the University of Pittsburgh, Pittsburgh, Pennsylvania, in which he characterized RICHARD NIXON and Vice President HUBERT HUMPHREY as "dirty, cheap politicians." He said that he thought GEORGE WALLACE would be more honest than the other Presidential candidates, however, he accused WALLACE of not being for the little man. u

GREGORY condemned United States involvement in Vietnam, attacked racism in the United States, urged support of the California grape boycott, and said that the fact that supporters of the late Senator ROBERT F. KENNEDY would cheer the assassination of GEORGE WALLACE is indicative of a sick society. u

GREGORY said a few people that are in control of the wealth of this nation also control the political organizations and he stated that America is facing a serious problem of moral pollution. He cited the injustices imposed by "The System" on other minorities, particularly the American Indian. u

GREGORY's speech at the University of Pittsburgh Field House was directed primarily to the students in the audience. He termed the young people of today as "the most morally committed, dedicated group ever to exist in this country," and he said that the young people are the ones that will have to solve the problems, the problems that they had nothing to do with creating. u

GREGORY cited moral pollution as the number one problem in the United States and characterized the nation as insane. He said that it is up to the young people to restore the nation's sanity. u

GREGORY stated that he does not advocate the destruction of capitalism in the United States; however, capitalism should be put in its right place behind the constitution and not in front of it. He said that the trouble with today's leaders is that they put the emphasis on property rights rather than human rights. u

GREGORY said the only way the black problem in America is going to be resolved is for the Government to create an atmosphere where black people will trust white people. He said that this atmosphere will only be created when the United States helps the Indians, Puerto Ricans, Mexicans and Jews. u

GREGORY said that if he were elected president, he would bring all the troops home from Vietnam and send LBJ. u

~~CONFIDENTIAL~~

Regarding the subject of violence, GREGORY stated that the whole history of the United States was based on violence and there is nothing wrong with being a black militant and bearing arms, because this right is written in the Constitution. He equated H. RAP BROWN and STOKELY CARMICHAEL with the Minutemen during the Revolutionary War. U

GREGORY remarked that violence in certain instances is good and that if the Chicago Police want a raise, they should resort to violence by going to the City Council every Monday and beating the heads of the council members. He said that after a couple of weeks of this, the Council would be more than happy to negotiate. U

GREGORY pointed to the decadence of American society by citing a recent incident in which Wall Street businessmen unabashedly gawked at the bust of a young secretary. U

[CG T-8, 10/17/68] ~~U~~ (U)

On November 3, 1968, GREGORY spoke at the University of Maine, Portland, Maine, where he stated his organization would sponsor a "nude march" of 500 people in Washington, D.C. in the Spring of 1969 for the purpose of getting the United States Supreme Court to rule that people must wear clothes. He said that the government would then have to supply clothing for people. U

"His organization" referred to was the Peace and Freedom Party. U

On November 6, 1971, GREGORY made the following comments at Mount Mercy College, Pittsburgh, Pennsylvania: U

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

"Let me say that as important as it is being here today, that as important as this is for Afro students, I think the most important thing that happened here today was the reading of the Declaration of Independence, and I just wish we had enough copies to pass out and scratch, 'After long periods of injustices it is your duty to destroy or abolish that government,' and maybe Americans would understand the riots. I didn't say white folks. I said Americans. A lot of people think I'm talking about white folks when I say Americans because a lot of people think when you say Americans, you're talking about white folks and when you say Negroes, you're talking a bout black folks. U

"You know when the riot season opens up again, which the white folks told us is July through August. We didn't show this past July through August, and the whole system is upset. Police departments are trying to figure out what happened to them. George Wallace just said, 'Why you know Niggers are lazy and shiftless; you know they wasn't going to show.' U

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

"I tell you what happened during this last riot season. We got tired of stealing all those cheap no good products so we decided to go underground and study the Consumer Reports. U

"Next riot season we won't be stealing Motorolas. When the riot season opens up again, I'm sorry everyone in this room and in this country will not have the Declaration of Independence because if you could look at Niggers tearing up and looting and burning towns down, it would save having to read and write about it. The newsmen would not have to explain it to you because it says in that piece of paper that after long periods of injustices, it is your duty to destroy or abolish that Government. You know black folks didn't write that. That isn't a message that MALCOLM X left to RAP BROWN. That is a message white folks left to white folks, but forgot to put 'For white only' on it. And so just assume that the Declaration of Independence means all Americans. U

"I would really suggest to America to try to change that. Put 'White only' on it so we'll know that white folks are supposed to tear down the country and bomb and people to liberate them and not black folks. U

"Then we know that America has the right to send black boys all over the world to kill to free a foreigner, but praise be your mammy! That's a very important piece of paper there. If this country will ever get together to straighten it out so we'll know it means white folks. Because you know what we push this thing in our grade schools, all black grade school in an all black community and you put that white piece of paper in there and tell them little black kids, the system says he's dumb and ignorant, it will make a difference to America and you're doing it now. On February 5, 1969, GREGORY addressed approximately 700 students at Southwest Missouri State College, Springfield, Missouri, and made the following remarks: u

The United States is a country of dual standards, black and white, but is too cowardly to admit it. u

[ (CG T-11, 2/12/69) ] ~~CONFIDENTIAL~~ (U)

On February 10, 1969, GREGORY addressed approximately 3,500 to 4,000 persons in the Duke indoor stadium. GREGORY said the country suffered from "A moral gap" rather than "A generation gap." He described the country as the most morally polluted in the world, and he said it would be up to the younger generation, which he described as the most moral, to cure "The old broad of her cancer." He likened LYNDON B. JOHNSON to the number one tyrant since JULIUS CAESAR and suggested it made no difference which of the two major candidates had won the election saying "one stinking, slimy politician is just like another." u

GREGORY said that the sad thing about America was that of all the countries she was the only one that lied about what she was and that preached one thing and practiced another. u

He advised the audience to beat the capitalists back, because they put property rights over human rights. "When we march we got nothing but when the Niggers started burning down capitalists' property, we started getting someplace." He told the audience the number one point of order was to change all colleges and universities to educate rather than to indoctrinate. He closed with a plea for "trust" between all groups that make up America. u

On October 30, 1969, GREGORY made the following statements at the University of South Carolina, Columbia, South Carolina: U

"The racists and rednecks have been hollering about law and order so the Supreme Court gave it to them." This referred to the recent Supreme Court decision, ordering an immediate end to segregated schools in Mississippi. He also stated that, "You may free all minority groups, blacks, Puerto Ricans, Indians," but a horrible mistake will be made "if you don't include your poor white brother." GREGORY emphasized the importance of human rights over other rights saying, "Ninety percent of those upset about the assassination of Martin Luther King would not be if George Wallace was assassinated...all assassinations are bad." GREGORY stated, "I'm not against the capitalist system...you have to put capitalism behind the constitution instead of in front of it...We are not governed by the constitution but by the capitalists. The greatest defense against communism is not the bomb but making democracy work." U

On November 4, 1969, GREGORY addressed his racially mixed audience on numerous subjects and attacked the United States as a "sick, degenerate country run by a bunch of insane, fool maniacs." According to a confidential and reliable source who attended this speech, GREGORY devoted the majority of his speech to attacking the "white racist establishment." He stated that while Negroes do not necessarily hate whites, they do hate the system and Negroes are going to hold the "honkies" responsible for what's happened in this country. GREGORY also attacked the United States' military system and American involvement in the Vietnam War. His remarks appeared to be fairly well received by the college age audience. U

On December 9, 1969, at San Jose State College, San Jose, California, GREGORY stated that America has always needed a Nigger, but he hasn't always been black and the time is coming when someone white will be the "nigger" or scapegoat. Part of his talk was devoted to the recent "police raid" on the Black Panther Party (BPP) headquarters in Chicago. He described the police tactics as "Hitler-like." u

On January 9, 1970, GREGORY delivered a speech at the Adirondack Community College, Queensburg, New York. Highlights of this presentation were as follows: u

GREGORY had some observations on President NIXON's Vietnam speech before the Christmas holidays asserting that "he aimed at all the old folks in America, who are too old to go to Vietnam." u

GREGORY admonished the "patriots in America" only concern themselves with Indian reservations. He warned of right-wing Government for too long a period saying that "when NIXON gets through with you, baby, he is going to make that silent majority the most vocal group in America." u

He decried the slayings of the JOSEPH YABLONSKI family and remarked that in the trial of BOBBY SEALE in Chicago, Illinois, that the shackling and gagging of SEALE, if it had happened in Russia, would have caused people to shrug their shoulders and say "that is Communism for you." u

He told of the danger in a conservative press. Declaring about the Chicago Democratic Convention, "they tried to tell you that you didn't see it on TV, they said the press created it." u

Re: RICHARD CLAXTON GREGORY

He was in part agreement with Vice President AGNEW, of the way he scared the press. He praised the moratorium demonstration on the Vietnam War in November, and observed that network coverage was given to it. u

He did not advocate destroying the capitalist system, but said that those present should work to put capitalist where they belong; behind the United States Constitution; not in front of it. u

Focusing on civil rights and speaking as a black, GREGORY said "we do not hate white folk, we hate the stinking white racism system...who are responsible for this vicious white racism system, and we gonna hold you to it." u

He said that "non-violence is my hang-up. I would find more joy tonight in being killed by a man than killing that man myself." u

Handling floor questions after his monologue, GREGORY maintained that the Central Intelligence Agency killed MARTIN LUTHER KING, JOHN and ROBERT KENNEDY and MALCOLM X, assisted by the Federal Bureau of Investigation. In citing reasons for arriving at this conclusion, he adverted that KING could not have been shot as the Federal Bureau of Investigation said. He said that JAMES EARL RAY had \$400,000 on him when he arrived in England. The Federal Bureau of Investigation for the first time in history sent out the wrong fingerprints on RAY's escape. u

When asked about ELDRIDGE CLEAVER's claim that the only way to reach law makers was for the Black Panthers to shoot their way into the Senate, GREGORY replied "I do not agree with violence in anyway, shape or fashion." He also said "America to me is worth dying for, but I've never seen anything worth killing for." u

On January 21, 1970, GREGORY made the following remarks to a student audience at Augsburg College, Minneapolis, Minnesota: U

The Number One problem in this country today is moral pollution and America is the most morally polluted country on the face of the earth. He said America's young people are the most marvelous, honest, dedicated people in the history of this country and urged the youthful crowd to examine America, find out where the cancer is, and then cut it out. U

He reflected that the Democratic Convention in Chicago was the best thing that ever happened to the young folks because it pointed out how sick and degenerate this racist society is. GREGORY told the audience that American's biggest problem is not capitalism, but capitalists. GREGORY commented he did not advocate destroying the capitalist system, but restoring it to its rightful place, which is not ahead of, but rather behind, the United States Constitution. U

GREGORY urged the crowd to address their grievances to the capitalist system. He advised college students to learn to live and not make the mistake his generation did, which was being so busy, when going to college, trying to learn to make a living that they forgot how to live. U

On February 1, 1970, GREGORY appeared at Centenary College, New Orleans, Louisiana, where he criticized President NIXON severely saying that L.B.J. was smarter when he was eight years old than NIXON would be if he lived ten thousand years. He said that NIXON was dumb and he wishes that we had 50 NIXONs because more progress in desegregation had been made under NIXON than any other President. u

He was quite humorous in his presentation and in talking about Vice-President AGNEW he said "AGNEW was the kind of guy who would make a crank call on the hot line to Moscow." u

[CG T-18, 2/11/70] x (U)

On February 17, 1970, at the University of Iowa, Iowa City, Iowa, GREGORY said he felt sorry for today's youth. He likened their parents investments in them to a check that would bounce in 30 or 40 years. He pointed to the problems of southern school integration and whites protest against it, saying, "Who are the Southerners hurting by keeping their kids out of school?" He said he felt sorry for the kids and not their parents. From this remark, GREGORY moved into an attack on President NIXON remarking, "DICK NIXON shows up the state of this nation better than anything." He said he would rather have NIXON in the White House than HUBERT HUMPHREY, LYNDON JOHNSON, or any of the KENNEDYS. "Black folks have no trouble with a dumb white man - and NIXON is without doubt the dumbest." u

DAVID EISENHOWER, NIXON's son-in-law, likewise was the butt of some of GREGORY's humor, referring to EISENHOWER as "Not as simple as I thought, up there joining them Naval Reserves." u

GREGORY discussed the strength American youth would have if they tried to end the war by an economic boycott, remarking, "If nothin' else works, next Thanks-giving threaten to boycott Christmas - you'll be surprised what happens, and if they ask what to tell your kids about Santa, tell them he's over in Vietnam droppin' napalm on babies." He went on to say that Patriots used to be on the side of the oppressed and that now they are on the side of the oppressor. He called American flag stickers sported on car windows as "a mark of bigotry, racism and stupidity." u

GREGORY warned about what he said would be the situation at the end of NIXON's administration. He said the silent majority is going to be the most vocal group ever heard, remarking, "You voted that trick into office, now you live with it." u

[CG T-19, 2/18/70] (U)

On April 2, 1970, in the Duluth, Minnesota Auditorium GREGORY told the audience that he was left "cold" by right-wing Americans who espouse patriotism by pasting American flag decals on their cars, and charged these same people with tax evasion, hypocrisy, and beer drinking. He chastised America's youth for being the only young in the world "who don't give a damn about the worker." u

In summation, GREGORY called President NIXON "America's last trick" and "dumb boy." GREGORY stated that he found fault with a system that lies to young people every day and termed the lie a "generation gap." He charged that "institutionalized racism" is "choking the black people to death." He claimed that men in power get special privileges, u

especially with regard to the draft. GREGORY advised that the only way America is going to get out of its insane state is to use its greatest weapon: the U.S. Constitution. u

[CG T-20, 4/3/70] x (U)

On April 17, 1970, at the University of Hawaii, Honolulu, GREGORY made the following remarks: u

He spends approximately 98% of his time on college campuses and his reason for doing this is that the young people today are probably the most highly dedicated college career group of young people that has ever lived in the history of this country. GREGORY said one problem he finds with young people is they still depend upon old Right Wing newspapers to tell them who they are and what they ought to u

~~CONFIDENTIAL~~

buy. GREGORY said the average established newspaper in America is not morally sound enough to discuss matters with young kids. GREGORY added it is embarrassing to him when he has to say to young people that all the problems confronting America today will have to be solved by the young people even though these problems were here before the young people arrived. GREGORY said "thanks to us old fools" these problems will not be here when you leave. U

Much of GREGORY's speech was devoted to criticizing Vice President SPIRO AGNEW. In this respect GREGORY said, "You know a lot of people are kinda down on AGNEW but in all honesty, I must admit I kinda dig AGNEW myself. I figure that because I think AGNEW's puttin' everybody on. I don't think it's humanly possible for one man to be born that dumb. You know that if AGNEW was as dumb as he wants us to believe he is, he wouldn't be able to walk and chew gum at the same time. And what I like about AGNEW, you can say anything you want about him but at least you have to admit he is consistent. And I wouldn't be surprised if AGNEW got on television next week and called NIXON a honkie. And even just the thought that AGNEW went to public school is enough to make everyone want to go to private schools." U

In speaking about discriminatory conditions in Hawaii, GREGORY said the young people in Hawaii have a special problem. They have a big job. He said, "The Lord give birth to Hawaii. How many Hawaiians can you find here? Which makes you just as guilty as that other freak." ... "You check out the representatives in Congress, three of em yellow, four of em yellow, right? Three of em Japanese, one Chinese, who's representing the folks? The brown people have really got a thing, but you yellow folks got a thing, too. You might be a little bit comfortable over here, but baby that cat don't give no more damn about you than he do about me. And if you don't believe that, you check U

out, you check out what the yellow folks got. Four representatives in Congress and that white man got his arms around you telling you all that -- OBSCENE --, but if you check out the state mental hospital here, it's full of yellow folks. There's something wrong somewhere. Evidently you're not as comfortable as you want people to believe you are." U

In speaking about President RICHARD NIXON, GREGORY said, "I guess when you stop and think about it, that NIXON got into the White House on the last trick this country had to offer. He ain't nothin' but an old tricky President. And if you get a good look at him the next time you see him on television, look at him. He don't even look like he believes he's President. And if you look at those last two Supreme Court nominations, he don't think like he believes he's a President." U

GREGORY said, "I tell you what happened. White folks in America dirtied up the word black, not us. White folks in America corrupted power, not us. Then one day we come through with two legitimate words 'Black Power' and the white folks go crazy." U

In speaking about economic conditions in America, GREGORY said that he was in Detroit, Michigan, during the month of March, 1970 and that he had been in Seattle, Washington, at the Boeing Aircraft Corporation and he had noted that unemployment in the United States had rose 46%. He mentioned that almost all Americans and particularly politicians are concerned only about money. He said when we talk about "God Bless America", what we really mean is "that's the stock market". When we say "America the Beautiful" ... "that's the bank". GREGORY said, "And NIXON fixin' to mess with the money. Where do you ever see In God We Trust? On the church, on the Bible, on the court" U

or on the money? And you ain't seen no fools that crazy. Damn NIXON, he's messin' with the jolly green Jesus nowadays. That's all we think about in this country, that money. We said you were a sick insane nation, well, I'm sure you all have read about the buildings that got blown up in New York City. Every newspaper in America has written an editorial about those buildings that was blown up in New York City. Let me ask you something. Are you aware that ten days before the buildings were blown up in New York City, did you read the worldwide news that went out on a little town called Danbury, Connecticut, where a bunch of degenerate men stuck up a bank one day? Did you read that? And they set off ten dynamite blasts all over the town to get the police out. ... Not one newspaper in America has written an editorial about the bombings in Danbury, Connecticut. Only about the bombings in New York City because we are such a sick nation as long as we use some dynamite to try and get you some money, we will understand." U

GREGORY said that on one occasion, NIXON appeared on nation-wide television and said that he was going to do everything he could to slow up integration of schools in the South. GREGORY said that before this time, "Black folks" were so busy they weren't too concerned as to progress of integration of schools in the South. However, when they heard NIXON make this statement, they organized and as a result they promoted integration in more schools in the South within the last two months than what they did in the last 15 years. U

GREGORY criticized school teachers in America stating that they were only interested in money. He told the students present that the schools belong to them. He criticized school teachers for not going on strike when President NIXON vetoed the educational bill. U

On October 5, 1970, at Shaw University, Raleigh, North Carolina, GREGORY spoke about the black movement, the need for it and the need for blacks to participate in it. GREGORY stated that the present NIXON administration, including Vice President AGNEW, is not black orientated and does not appear to be on the side of the blacks. u

GREGORY stated the future of this country rests with college students. GREGORY went on to say that things have not changed much in four hundred years although the young folks have come up with a moral thrust that scares the old folks. GREGORY said that the noises made by kids running around the streets today were only a warning but said it is the last warning this country is going to get and added, "The country better make some quick adjustments or she is going to blow it". u

On October 5, 1971, at the Holiday Inn, 1015 Elm Street, Dallas, Texas, GREGORY made the following remarks to an assemblage of 600 persons, the majority of whom were students from El Centro College: u

On GEORGE WALLACE-

"GEORGE WALLACE should handle the bussing issue as he did the school integration situation-stand in front of the bus". u

On the Vice President of the United States

"On his recent trip to Africa, SPIRO AGNEW was made a blood brother, which requires that he be cut. What makes him think he has to go all the way to Africa to get cut by some black folks?" u

On the May Day demonstrations in Washington - U

"If we'd raise the draft age to 75, we'd see a lot more old freaks sitting down in the streets protesting the war." U

"They say the kids were arrested for blocking traffic in Washington. That ain't true. You can block traffic in America if you want to - it just depends on your reason for doing it. In New York City this summer, some cats left all the draw bridges up because they wanted more money - paralyzed the whole town - ain't nobody went to jail yet. A few years back in New York City, 20,000 slimey degenerates from Wall Street came out and blocked traffic for five hours trying to look at a woman's breasts." U

On Political parties - U

"I see where 67 percent of you new voters are registered in a Democratic party. Don't you know the Democratic and Republican parties are too degenerate and unfit to govern this country any more?" U

On GEORGE JACKSON - U

"They say GEORGE JACKSON hid a gun in his Afro. I saw a picture of him in the paper and his hair was shorter than mine. But at least that lie will help us. White folks all over America now believe Niggers got guns in their hair." U

It's a sad day when I have to stand before you and admit that I am treated better dead by my enemies than I am alive by my so-called friends." U

On Political Power - U

"Use your political power. Call for a boycott against eating turkey during Thanksgiving and Christmas as long as the Vietnam War is on. Call for a nationwide boycott against celebrating Christmas. On September 26, 1971, at Malcolm X College, Chicago, Illinois, GREGORY spoke on Attica, New York, claiming there would be more Atticas. "The answer to the problems isn't violence. Violence is only only a short time cure. America can deal with violence, your bombs and your dynamite...but it can't deal with your moral force." u

GREGORY also called on young persons to organize outside the major political change and warned strongly against the use of narcotics. He also stated that institutions of higher learning should begin teaching students how to live, not just how to make a living, and that they must provide education, rather than indoctrination. u

On November 17, 1971, at Willamette University, Salem, Oregon, GREGORY stated young people could end the war in 30 days by refusing to celebrate Christmas, which means not buying turkeys, boycotting Sears, Roebuck and Company and other large businesses in order to "mess up NIXON's Phase 1, 2 and 3 economic plans". u

On November 22, 1971, at the University of Nebraska, Omaha, Nebraska, GREGORY spend considerable time degrading the police structure in the United States and mentioned specifically several times that the first day of the May demonstrations in Washington was a great day since it resulted in the arrest of 7,000 young people and "there was not one criminal among them." He stated the reason they were arrested was listed as blocking traffic and then stated at the conclusion of the World Series the victory in Pittsburgh resulted in a mob taking over the streets, blocking traffic and looting; however, there were no arrests made during this riot. GREGORY commented on the working of the police in ghetto areas of America and mentioned that all police are corrupt, citing the Knapp Commission's investigation into alleged misconduct of the New York Police Department. He stated this came as a shock to white America and that this investigation would cost the American public five million dollars when, in fact, "the niggers of this country have been telling you for 75 years that the cops are crooked." *u*

GREGORY devoted considerable time to urging black communities to turn in drug pushers, bookmakers, and other types of criminals who prey on the black community and cautioned young people against the use of alcohol and all types of drugs. *u*

He made mention that the United States was sending thousands of soldiers to Vietnam to free the South Vietnamese when our brother American Indian is still confined to a reservation, living under very poor conditions. GREGORY made very derogatory remarks about Presidents KENNEDY, JOHNSON, EISENHOWER, and NIXON, blaming all of them for the Vietnam War. He called the United States a racist, rotten country, and reminded the students of the slogan "if you don't love it, leave it" and then stated he was not about to leave it, but was going to remain in this country and fight for better conditions. *u*

III. STATEMENTS MADE IN SUPPORT  
OF THE BLACK PANTHER PARTY (BPP)

The BPP is a black extremist organization started in Oakland, California, in December, 1966. It advocates the use of guns and guerrilla tactics to bring about the overthrow of the United States Government. u

On February 23, 1970, at Southern Oregon College, Ashland, Oregon, GREGORY stated that "Panthers aren't being killed because they're for self-defense. Panthers are killed because they're trying to feed the poor". u

[ (CG T-28, 2/24/70) ] ~~u~~ (U)

On March 13, 1970, at New York State University Agricultural and Technical College, Alfred, New York, GREGORY talked of double standards in the case of Black Panther BOBBY SEALE, who was denied permission to act as his own defense counsel in Federal Court in Chicago while in another case involving CHARLES MANSON, a white was given this permission. He also compared the \$100,000.00 bail set for each of a group of Black Panthers, awaiting trial in New York, with the \$20,000.00 bail set for some "white kids" who face similar charges. u

GREGORY then commented further on the Chicago Seven Trial, he declaring that Judge JULIUS HOFFMAN "sent everybody to jail while the jury was out deliberating their verdict. What he did makes HITLER look like a saint", said GREGORY. GREGORY called America a "sick, degenerate nation" whose people care about nothing but money. He noted that "Black folks do not hate white folks, but do hate the white racist system". He warned, however, that Blacks are going to hold all whites responsible for this system because they permit it to exist. u

The radical speakers are off now. They had their run," said Robert Walker, whose American Program Bureau in Boston books more than 100 of the people who speak on American college campuses. "The Hoffman and Jerry Rubin are still getting dates, but they are not in demand like last year."

Politics—radical or straight—usually won't fill an auditorium. Black Panther Bobby Seale and former Tennessee Sen. Albert Gore recently spoke at Stanford University in California. Seale drew 200 people in an auditorium that seats 500; Gore drew 200 in a 400-seat hall.

#### Issues Alone Don't Draw

An issue alone won't draw too well. Georgia Tech has had programs on birth control and abortion without name speakers. "They are just 50 people," said Program Director David K. Neff. "The speaker will draw 100 people any time."

With the issue of the house. Crisis, Dick and Dr. Ben war have riums from

#### Longer Stays Popular

"I think there is a trend away from having a guy come in and do his one-hour bit and leave," said Dennis Concilia, Pittsburgh's program commissioner. "It is rather unproductive. We are looking for something more from our speakers."

Black poetess Nikki Giovanni is one of the hotter properties on the college circuit. Her fee went from \$750 last year to \$2,000 this fall, said Richard Fulton, head of the New York agency that handles her. Charles G. Hurst Jr., president of Malcolm X College in Chicago, is "striving on

campuses throughout the country, especially with black student groups.

"A couple of years ago, the South would have been reluctant to book a black personality," said Fulton. "Now the barriers are down. Across the board, on all speakers, things have loosened up."

#### \$4,000 for Appearance

The fees garnered by campus speakers range from a few hundred to a few thousand dol-

lars. Nader, Gregory and Georgia State Rep. Julian Bond, the top attractions on campus, get up to \$4,000 an appearance, said Walker, whose agency handles all of them, but they will often scale down fees or appear for free.

The nostalgia kick has hit the colleges. Pinky Lee, zany children's television star of the 1950s, draws well with a lecture on the art of slapstick. Busier Crabbe is doing well with a package that includes his early

Tarzan and Flash Gordon movies.

"We could not get Howdy Doody, so we had Buffalo Bob Smith. He was tremendous," said John Fahey, director of student union activities at the University of Hartford in Connecticut. "The students really get into it. They enjoy seeing someone who was important to them when they were children." Smith was the puppet's sidekick on the popular children's television show in the 1950s.

# Thoughtful Public Fascinated By His Fast, Gregory Says

By DON McLEOD  
 Associated Press

Dick Gregory, in the ninth month of an anti-war fast, says the public is endlessly fascinated with a man who doesn't eat.

"We have such a hangup with food," Gregory mused in an interview that when a man stops eating, it really puts folks up tight.

Since he started a diet of fruit, juice and water on April 24, Gregory has lost 70 pounds. He weighs 98.

The 38-year-old black comedian has spent the last few months on a speaking tour of college campuses, two a day, cracking food jokes and offering messages ranging from antiwar to antidrug themes.

On the economy: "Food is so high, it's damn near cheaper to eat money."

On the administration: "I wouldn't start fasting for two days for Dick Nixon. You don't fast to change the hearts of tyrants. It's not to make bad people good. A fast is to rally all the honest, ethical people together."

He cites the example of Mohandas Gandhi, who led India to independence with a 150-day fast.

"But when you're on a fast," he confides to his young listeners, "people start acting all different. Like, they won't lend

DICK GREGORY

you no money no more.

"But the worst thing is all those stupid questions the eaters ask," he warmed up a crowd at Georgetown University here recently. "Like, 'are you hungry?'"

"He is hungry."

"You know, I have vowed to eat no solid food as long as the United States continues to wage war in Indochina," he says. After a pause, he goes on:

"If the war should end in the middle of my speech."

Gregory's typical meal: the juice of two pears, two apples,

nine oranges, two grapefruit and a pound of grapes.

"My energy level is very high," he says despite the heavy weight loss. "The hunger is a mental thing."

Gregory runs 10 miles a day. He finished third in a two-mile race Thanksgiving Day, and if the war and the fast still are on next spring, he plans to run in the Boston Marathon.

This is the seventh fast for Gregory, who once went 181 days on just water. He also has experimented with unusual dieting before.

For eight years, he was a vegetarian. He weighed 288 pounds at one time. About 18 months ago, he switched to mostly fruit.

He can feel a difference in his own attitude about Vietnam and can see changes in other people.

Today, at the airport, a fellow came up to me and said he sure wished the war would get over with so I could start eating again," he recalled. "It is sad that a man can only have feeling about the war because of me, but at least he is thinking about it."

"My friends have a different attitude about the war. It's with us constantly. I never thought about the Vietnam war while I was on a picnic, having a good time. I do now."

Subject has participated in demonstrations at the United Nations, at the 1968 Democratic National Convention, and an antidraft march following a speech. He consistently includes in his highly inflammatory rhetoric comments attacking police, the Government, establishment, and public officials. He has called for financial support of the Black Panther Party (BPP) and openly sympathetic to the North Vietnamese. u

Gregory, a Negro comedian, achieved his national recognition at Chicago's Playboy Club in 1960 as a political satirist. By 1964, he had injected himself in, or associated with, all major civil rights movements and activities. He has been arrested on numerous occasions for his civil rights activities. His rhetoric is highly inflammatory against the U.S. Government, police, FBI, and Government officials. He has associated with and been sympathetic towards known communists, communist sympathizers, the North Vietnamese, members of the New Left, and has encouraged support of the BPP. He is a black racist with a very sick mind, and although not a member of any extremist group, his statements and activities pose a definite threat to the Government and defense effort in time of a national emergency. u

Re: RICHARD CLAXTON GREGORY;  
JANE FONDA

Jane Fonda, well known Hollywood actress and proponent of radical causes, arrived at Tokyo, Japan, December 7, 1971, to tour Japan and Okinawa to promote support for the anti-military and anti-Vietnam War Movement. Originally, Richard Claxton Gregory, well known Negro comedian, was reportedly to be a part of the troupe. However, T-1, [REDACTED] advised that Gregory did not accompany Fonda to Japan. (U) b7D

On December 23, 1971, U.S. Naval Investigative Service Office, Japan, advised that while the Fonda group was at Iwakuni, Japan, it was announced that Dick Gregory would be available to talk to black servicemen at Iwakuni, afternoon of December 19, 1971. No confirmation was received that Gregory actually made an appearance at Iwakuni on December 19, 1971. Likewise, it was not reported that Gregory appeared with the Fonda group in Japan or Okinawa during the December 7-23, 1971, tour. It has not as yet been verified that Gregory was actually in Japan or Okinawa during this period. (U) (C)

T-1 further reported that Jane Fonda and her troupe were scheduled to fly from Tokyo to Los Angeles, California, December 23, 1971. However, at the last minute, Fonda changed to BOAC Flight 85 bound for London. The remainder of her troupe flew to Los Angeles as scheduled. T-1 said Fonda apparently was unaccompanied on the flight to London. (U) (C)

BLACK PEOPLES UNION

Reference is made to a memorandum, dated November 22, 1971, captioned "BLACK PEOPLES UNION (BPU) - 'Peaceful Sit-In' at Administration Building, University of Hartford, West Hartford, Connecticut, November 9-12, 1971."

A first source who has furnished reliable information in the past, advised on January 19 and February 22, 1972, that the Black Peoples Union (BPU) at the University of Connecticut in West Hartford, Connecticut, has not been involved in any militant activities since the peaceful sit-in sponsored by the BPU from November 9-12, 1971.

A second source who has furnished reliable information in the past, on January 19 and February 22, 1972, also advised that the BPU has been peaceful in its activities at the University of Hartford.

The March 3, 1972, edition of "The Hartford Times", an afternoon newspaper published daily and Sunday at Hartford, Connecticut, carried an article regarding a University of Hartford Black Week scheduled to be held from March 9-19, 1972. The article stated that comedian DICK GREGORY and Georgia legislator JULIAN BOND would be the major speakers during this week with GREGORY scheduled to speak on the night of March 10 and BOND on the night of March 19, both in the Physical Education Center of the University of Hartford.

The article stated further that the Black Week was sponsored by the BPU with the cooperation of the Student Association at the university, and the overall program would include "a soul buffet dinner", jazz, soul and spiritual concerts, poetry readings, drama and an all day conference of black unity on March 18, 1972.

The article indicated that on Saturday, March 18, LOUIS FARRAKHAN, Minister of Muhammad's Mosque #7, New York City, //

BLACK PEOPLES UNION

WMM did speak in connection with the conference at the Faith Congregational Church, 2030 Main Street, Hartford, Connecticut.

The first source advised on March 28, 1972, that it had been publicized that the Black Week theme was seen as a "journey through a black kaleidoscope." He added that the goal was to be centered on "modern concepts of black culture with unity and purpose as attainable aims."

The first source advised on March 28, 1972, that DICK GREGORY's topic on March 10, 1972, was "social problems: social or anti-social?" Source advised that GREGORY talked jokingly about the establishment, but he urged the audience to "seize the time and to halt the repressive tide which has swelled since the inauguration of Nixon in 1969." According to the source, GREGORY stated that never before in the history of man has the "younger people, the children of the world ever demonstrated such contempt at the traditions of war, opposition and selfish materialism." The source advised that GREGORY, who was critical of the United States' part in the war in Southeast Asia, called the Federal Government corrupt and incompetent and stated that no matter which party wins the election in November "the Government will continue to be so." He urged his listeners to support independent political action to "cure the ills of the nation." He stated to the audience that "we have time to change the direction in which this country is heading, but he stated we have very little time to do this in."

A third source who has furnished reliable information in the past, advised on March 20, 1972, that approximately 500 persons, mostly black, listened to LOUIS FARRAKHAN, Minister of Muhammad's Mosque #7, New York City at the Faith Congregational Church, 3020 Main Street, Hartford, Connecticut, on the night of March 18, 1972. The source stated that in general the text of FARRAKHAN's speech related to a survey of black American history and during his talk he did not advocate any acts of violence or militancy.

"The Hartford Courrant" of March 20, 1972, a morning newspaper published daily and Sunday at Hartford, Connecticut, carried an article which summarized the remarks of JULIAN BOND made by him on the night of March 19, 1972, at the Physical Education Center at the University of Hartford.

## BLACK PEOPLES UNION

According to the article, BOND urged his listeners to become involved in politics and he suggested that they look for a person to support. He added "if that person isn't doing a good job, then you look around for somebody you think could do a better job and you work for him. If you look around and you can't find anybody who'll do a better job, then you do it yourself."

BOND stated that he wanted to see the American people "overthrow" Nixon in November and put an end to "socialism for Lockheed and welfare capitalism for the poor." He stated "I don't want to see Nixon president another four years."

Also, according to the article, BOND stated that he desired to see the end of "J. Edgar Hoover's Federal Bureau of Intimidation", the end of former Attorney General John Mitchell who wouldn't prosecute in the case of the Kent State killings and the last of Supreme Court nominations like G. Harold Carswell and Clement Haynesworth." He also stated that the war must end and the U.S. pullout of Southeast Asia "down to the last tank, the last bullet." He added that he wanted to see the beginning of the fight to destroy "America's urban Atticas."

BOND further stated that with regard to the busing issue he would like to see the issue resolved and stated "they're not complaining about the little yellow school bus, but the little black body on that little yellow school bus."

BOND was also critical of the Democratic Party and stated that he desired to see the last of the "slavish" tie to the Democratic Party, in which the blacks have played the role of "the illegitimate child at the family reunion." He stated that the Democratic Party has pulled 98 percent of the black vote in the last two presidential elections, but the blacks have yet to reap any of the benefits of this support in the way of jobs or political support. BOND stated that in order to demand these spoils the blacks will have to verse themselves in politics. He added that they should get involved this year making demands, finding candidates who will meet those demands and then working in the political process to assure those changes.

BOOK REVIEW  
"DICK GREGORY'S POLITICAL  
PRIMER" BY RICHARD CLAXTON GREGORY  
EDITED BY JAMES R. MC GRAW  
EXTREMIST MATTERS

This is a review of captioned book, published in 1972 by Harper and Row. The book is being placed in the Bureau Library.

*201*  
SYNOPSIS: Book's author, Dick Gregory, aged 39, is antiestablishment black racist comedian and protester from Chicago, Illinois. Editor James R. McGraw, aged 36, is white Methodist clergyman and civil rights activist from New York.

This "primer" is a biased, consistently antiestablishment, analysis and critique of the current political apparatus in the U. S. with some recommendations for alternatives. Using historical prospectives, humorous rhetoric, and frequently overstated observations, author Gregory criticizes Government leaders, Federal intelligence-gathering agencies, Congress, the Vice President, the two-party system and other facets of politics.

Once he feels he has proved the inadequacy and corruption of the current and traditional political mechanism, he implies a new third party is necessary and sets forth his extreme view of desired qualifications in a political candidate. He then lists numerous persons in extremist, antiwar, protest and civil rights fields who meet his qualifications.

His criticism of FBI includes unfounded allegations of extensive uncontrolled wiretapping and surveillance, ridiculous implications of FBI usage of informants to set up "political killings," and unjust accusations of overconcern for internal security matters and property destruction rather than narcotics matters and loss of young lives through narcotics use.

The author's inconsistencies, generalizations, and extremes prevalent in book, tend to overshadow any valid and constructive recommendations, observations and conclusions he promotes, thereby negating his entire effort.

DETAILS:

Review of Bureau Files

Richard Claxton Gregory: Bureau files reveal Gregory is Negro male, born 10/12/32, graduate of Southern Illinois University, who currently resides in Chicago, Illinois, with wife and several children.

He first achieved national recognition at Chicago's Playboy Club in 1960 as political satirist. By 1964 he had injected himself in, or associated with, all major civil rights movements and activities. He toured Moscow, Russia, 6/64 in connection with attending "World Peace Mission," failed in bid to visit North Vietnam in 1966, and in 12/71 visited Chinese Communist Embassy in Paris, France, and attempted contact with North Vietnamese Peace Talk delegation.

He was unsuccessful candidate for offices of Mayor of Chicago and President of U. S. in 1967 and 1968 respectively. An avowed supporter of Black Panther Party, he has also associated with, and been sympathetic towards, known communists, the North Vietnamese and revolutionary New Left activists. Gregory is frequent participant and spokesman at antidraft and anti-Vietnam demonstrations and periodically initiates well-publicized "fasts" in connection therewith.

His protest activities have frequently resulted in his arrest throughout the country, primarily on disorderly conduct-type charges.

Although employed primarily as nightclub entertainer, he regularly appears on university campuses as guest lecturer. His rhetoric is inflammatory against U. S. Government, Government officials, FBI and police.

Re: Book Review  
"Dick Gregory's Political  
Primer" by Richard Claxton Gregory  
Edited by James R. McGraw  
G2-46355

Although holding no membership in extremist organizations, he is highly controversial black racist, always critical of treatment of blacks in this country. Recently he predicted imminent overthrow of U. S. Government by CIA and establishment of dictatorship.

James R. McGraw: Bureau files indicate James R. McGraw apparently identical to Reverend James Robert McGraw, white male, born 12/3/35, an ordained United Methodist clergyman. McGraw reportedly received Bachelor of Arts degree from Northwestern University (1958) and is graduate of Yale University Divinity School. His last known residence was in New York, New York, where he edited the "Renewal" magazine, a Methodist Church publication.

Since early 1960's McGraw has been active in civil rights activities and demonstrations throughout U. S., being arrested on several occasions in connection therewith. He has been known to associate with New York Communist Party members.

McGraw is advocate of nonviolence and urges establishment of strong third party in U. S. politics.

He has edited previous books by Gregory.

#### Book Review

"Dick Gregory's Political Primer" is a sometimes humorous, sometimes preposterous, sometimes accurate but most often sardonic, prejudicial and antiestablishment analysis of the entire U. S. political scene.

His sweeping criticisms span a wide political range and include historical perspectives and his current views regarding the two-party system, primaries, party platforms, patronage and "spoils," political financing and "machine" politics.

Re: Book Review  
"Dick Gregory's Political  
Primer" by Richard Claxton Gregory

The Supreme Court, the Vice-Presidency, and Congressional lawmaking and committee assignment procedures also receive his scrutiny. He devotes some of his most severe remarks to broad unsubstantiated criticisms of Federal intelligence-gathering organizations, especially the FBI and CIA.

Throughout the book the reader readily recognizes two distinct writing styles. One is written in a serious and orderly vein utilized to provide a somewhat scholarly background buildup for the second style, which consists of Gregory's caustic and humorous comments and observations. The former style may be attributable to Editor McGraw's influence.

At the conclusion of each chapter, Gregory sets forth cleverly manipulated and frequently witty questions, the answers to which are obvious and, of course, in line with the "lesson" he has attempted to "teach" in preceding pages.

Many of the author's inferences and statements are exaggerated, unfounded or overemphasized. In one of his anti-Vietnam arguments, for example, he details how protection of our rice-growing interests in the Southern U. S. is a main basis for our continued defoliation program and war in Vietnam. In another section discussing possible future food shortages, he states the Russians have diverted space program funds toward increasing their naval fleet as this fleet would primarily "be necessary for Russia to feed the world in the event of a serious famine crisis." (Favorable comments towards Russia and communism are interspersed throughout the book.)

Gregory, a self-admitted vegetarian, spends considerable verbiage criticizing Government production, quality control, and inspection programs regarding food.

Re: Book Review  
"Dick Gregory's Political  
Primer" by Richard Claxton Gregory  
Edited by James R. McGraw  
62-46855

He opines that when the American people "learn to eat properly," profound changes will then accordingly be effected in the Nation's political and social system.

He speaks very favorably of the Congressional Black Caucus, implies a third party is necessary, and notes his vision of a political candidate would be the antithesis of present standards and qualifications (i.e., good military combat record, extensive educational background, successful in business and/or prominent employment or profession.) He would seek and support candidates with "scars" and "convictions" in the "human rights" struggle who have been "writers" of laws and history and represent the consumer and unemployed.

Among suitable candidates he suggests are protester and movie actress Jane Fonda, Black Panther leader Huey P. Newton, Southern Christian Leadership Conference President Dr. Ralph Abernathy, and antiwar leader Father Daniel Berrigan.

Further discussing candidates, he constructs a weak analogy between the political record and accomplishments of Huey Long of Louisiana and Huey P. Newton, who was born in Louisiana. He praises the late Congressman Adam Clayton Powell, Jr., as being an exemplary black politician, appearing thereby to completely contradict his stand in previously condemning numerous Congressional and Government figures for their lack of morals.

A review of this work would not be complete without citing examples of some of Gregory's biting wit, for example:

"So the President's role is both traditional and greatly expanded. He lights the White House tree every Christmas and ignites rice crops in Vietnam."

"Any time a black man in America can owe the telephone company twelve thousand dollars and they don't shut the phone off, you know that phone is tapped."

"Who knows what evil lurks in the hearts of men? The Shadow Congress knows." (referring to blacks in Congress)

The frequent inconsistencies, exaggerations, extremes and generalizations Gregory displays in this volume impress the reader as overriding and smothering any valid and constructive recommendations, observations and conclusions he attempts to convey, thereby negating his entire effort.

#### Mention of the FBI

Page 20. On this and previous pages, Gregory prints excerpts from George Washington's Farewell Address, highlighting Washington's comments about perils of "despotism" and "ruins of public liberty." Gregory then makes comment "The CIA, the FBI and the Pentagon were all yet to appear..." when Washington made his remarks, implying that activities of these establishments exemplify these perils.

Page 264. Gregory has been discussing alleged monopoly on national food production in the State of California. He comments, "The FBI, the CIA, and the military are all engaged in wiretapping and other forms of snooping, when they should be looking at where food is produced in the United States."

Gregory  
Edited by

of Clarence Gregory

Pages 277-293. Gregory devotes "Lesson Fifteen," an entire chapter, to "Citizen Surveillance" wherein he is severely critical of FBI, CIA, and the military for alleged excessive wiretapping, "bugging" and surveillance.

He mentions attack on FBI by U. S. Representative Hale Boggs (Democrat - Louisiana) 4/6/72 alleging Congressional members are surveilled regularly; allegations by U. S. Senator Edmund S. Muskie (Democrat - Maine) condemning FBI surveillance of Earth Day rally 4/22/70 at Washington, D. C.; and comments on "Life" magazine article, 4/9/71 issue, which portrayed former Director Hoover as "emperor of the FBI." (Congressman Boggs' allegations are absurd and without foundation. FBI surveillance of Earth Day rally was due to association therewith of several revolutionary activists of interest to Bureau and therefore related potential for civil unrest.)

Gregory insists that government-controlled terror and assassinations portrayed in recent foreign movie entitled "Z" are analogous to recent U. S. History, noting suspicious circumstances surrounding deaths of President John F. Kennedy, Senator Robert Kennedy, assassinated black nationalist Malcolm X, and Martin Luther King, Jr. He insinuates these deaths were probably result of CIA actions; however, tone of comments indicates FBI and military intelligence have the capability also.

He goes further to imply that recent U. S. Capitol bombing was probably staged by Government intelligence agency, and that FBI has used informants to "tape" comments of U. S. Representative John Dowdy

(The Attorney General authorized monitoring and recording of conversations between Nathan Cohen, Baltimore, Maryland, attorney and businessman, and Congressman Dowdy. Based on this authority, Bureau equipped Cohen with body recorder, with Cohen's prior written permission. Congressman Dowdy was convicted 12/30/71 on bribery, perjury and conspiracy charges and recordings obtained by Cohen were used during trial. Allegations regarding FBI "political" killings are ridiculous.)

He comments, "The FBI has grown so powerful and independent under the direction of J. Edgar Hoover that it can tap the phones, bug the hotel rooms, and otherwise watch the private actions of priests, nuns, ministers, lawyers, college professors, civil rights workers, doctors, Government officials, etc., without any curb on its activities." As a result he concludes, "So citizens must begin to conduct their own surveillance of the FBI." (It is noted all Bureau technical surveillances are authorized by court order or by the Attorney General, in writing.)

He points out that FBI "has become totally hung up" on "internal security" noting that half of current Top Ten Fugitive List members are wanted for "so-called left-wing radical political activity." He emphasizes that "not one dope pusher, not one dope smuggler, not one person involved in illicit traffic of narcotics" is on list.

In his closing comments in this regard, he states FBI is more concerned with property destruction than loss of young lives through narcotics usage. He fails to make any mention of Bureau having no specific jurisdiction in narcotics matters.

On November 29, 1972, a source who has furnished reliable information in the past, advised that Dick Gregory appeared at Creighton University, Omaha, Nebraska, on the evening of November 28, 1972, and gave a speech before the student body of that school. The source advised that Gregory received approximately \$1,000 for his speech which was sponsored by the Student Board of Governors, a part of the Student Government at Creighton University. Gregory was not paid with University funds. *u*

The source advised that Gregory's theme appeared to be "Wake Up America" and he urged his audience to listen to Black people. The source advised that Gregory did not appear to follow a prepared speech but merely rambled for approximately two hours. The source recalled that Gregory made a rather vague statement to the affect that the CIA was responsible for the assassination of Robert Kennedy. The source also stated that Gregory referred in very comical terms to his continued fast in protest to the war in Vietnam. *u*

The Omaha World Herald, a daily Omaha, Nebraska, newspaper, issue of November 29, 1972, set out in an article entitled "Comedian Gregory: Whites Are Indifferent" in which Gregory stated, "I wish white folks would learn to start listening to black folks". Gregory spoke to an audience of approximately 500 students at Creighton University. *u*

Gregory also made the statement, "We know about the sick, slimy, degenerate nation that is the real America". The article also set out that Gregory was in

the 21st month of his fast for Vietnam peace. Gregory mentioned that if he were in Vietnam and he got killed next to some redneck white boy that the Viet Cong would probably bury both of them in the same grave but if they were to ship these same two bodies back to America the chances are that they would not be buried in the same cemetery. u

Attached to this memorandum is a copy of a newspaper clipping from the February 23, 1973, edition of the "Dubuque Telegraph-Herald" entitled "Gregory nicks, slashes during UD talk", concerning the speech delivered by Dick Gregory before approximately 900 students at the University of Dubuque, Dubuque, Iowa. Gregory was the featured speaker of the University's "Black Weekend". The speech concerned Gregory's fasting, the Vietnam War, youth, racial discrimination, and the recent fuel shortage.

In the speech, Gregory gave the youth credit for helping end the Vietnam War. He stated, "The prisoners are coming home and the war is over because you young people dared to get into the streets and disrupt 'business as usual'". He said, "If America wants to get up an army for World War III, they're not gonna get it, because of you".

"They said we're getting out of this war with honor. I hope we never have to get out of anything with this honor."

On the question of amnesty for draft evaders he said, "Anyone humane enough to decide that killing is wrong and leave the country will get amnesty in the end. And the Nixons and Agnews and other war mongrel freaks won't get any amnesty at all."

Gregory's speech lasted from 10:00 to 11:30 AM. Immediately after the speech, Gregory left Dubuque, Iowa, by Ozark Airlines for Chicago, and then continued on to Los Angeles.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

# GREGORY NICKS, SLASHES "Running" UD talk

By JOHN MCCORMICK  
T-N Staff Writer

There stood Dick Gregory, running hard. It wasn't the same form that made him a collegiate track star. It was the form of a man on the 672nd day of a self-imposed fast. Running lean, he alternately applied the stiletto of wit and the bludgeon of commentary to a Black Weekend audience at the University of Dubuque today. A sampling from his 90-minute talk:

—"The whole world's crazy. Arthur Bremer, accused of shooting George Wallace, spent two weeks trying to convince a jury he was crazy. They decided he was sane and sentenced him to 63 years. Tom Eagleton was trying to convince the country he was sane, and they decided he was crazy. Which means Tom Eagleton would have had a better chance of staying on the Democratic ticket if he'd been accused of shooting somebody."

—"When we got a Vietnam ceasefire, I thought I'd be doing some serious eating. But it'll be 40 days until the prisoners are all back. I'm gonna call my wife and say: 'Guess who's coming to dinner.' I wouldn't fast again if they were fightin' in my house. Next time, I'm going to protest by sitting in a Howard Johnson's and eating until they quit. 'Look at Brother Gregory,' people will say. 'What dedication; he's up to 712 pounds.'"

—"I have nine kids, with the tenth on the way. I'm not quitting; not as long as I can buy all the cars and trucks I want. Anything America can sell you to pollute, they'll tell you to buy it. If you want something you can produce yourself—that's bad."

Then he turned serious, praising the nation's youth. "The prisoners are coming home and the war is over because you young people dared to get into the streets and disrupt 'business as usual,'" he said. "I hope you understand that. If America wants to get up an army for World War III, they're not gonna get it, because of you."

"We'd have a different Germany today if that nation's youth had laid down in the streets to block traffic in the late 1930s. But revolution comes from nature, from evolution. The same thing that destroyed Napoleon destroyed Hitler: Snowflakes. They

told both them freaks not to go to Russia in the winter."

Then, once again, the stiletto: "Us older folks are scared by you. We've got a lot of little secret deals going. Fair all down in your

face. Not shaving. Wearing those dresses without brassieres. You're ruining our notion that your world is based not on nations, but on your ability to look a certain way.

"You know," he continued, "we've got a stinking, slimy, degenerate country, so we

not have a president who reflects that? Nixon is the first president that the dumbest person in the country can get hip to. I've got a cousin so dumb that he can't find the prize in a Cracker Jacks box—and even he likes Nixon.

"But there's something wrong with a mentality that's told us for 10 years about an Asian people he calls the enemy, bandits, gangsters and criminals, and then offers to give these same 'enemies' \$2.5 billion for reconstruction, at the same time refusing to give one quarter to upgrade those big, old hospitals for men who got shot up over there.

"If they ever bring an induction notice to draft my two sons, I'm going to write on it: 'Whatever is wrong with Mr. DuPont's boys is also wrong with mine.' Don't you realize that there isn't one black man in the country who can get you white folks into World War III so other people can drop big bombs on your house?"

Then he talked of a recent Harris Poll that found white Americans scared of recent black movies because of overtones of violence.

"So I ran my own private Ghetto Poll," said Gregory. "In all the black movies, 380 people got killed. John Wayne alone has killed five million Indians, 100,000 bad guys, and he's wiped out the whole Japanese Army."

Gregory talked of differences in dialect between black and white communities, illustrating with comparisons of the English pronunciation of "sandwich" with the black man's word, "sammich."

"A sandwich is a little, light snack you eat between lunch and dinner," he said. "A sammich is dinner."

Gregory reserved a special bludgeoning for America's newspapers, charging that they have suppressed vital information about a wide range of subjects: The assassinations of Martin Luther King and the Kennedy brothers, dangers of fluoridation, and a host of consumer issues.

"We're so busy worrying about our money and our little home and our two cars that we don't worry about democracy and the democratic process. That's okay; we'll lose both of them.

"More Americans are worried about the blacked oil game Russia stole from us in the

Olympics than they are about the Israeli team that got shot up in Munich."

He switched directions briefly, telling of an encounter with a disgruntled adult in the Tampa, Fla., airport. "He was complaining that the way you kids look, he can't tell the girls from the boys," said Gregory. "I told him you were having the same problem with a lot of his generation: You can't tell the living from the dead.

"Just look at our priorities," he continued. "I know lots of smokers who're driving themselves into a grave, but if someone could prove that smoking would make their car engine corrode, they'd quit, and they'd make you quit, too."

"You've got to clean your body out," he said, launching into an attack against drug pushers who debilitate ghetto residents. And he alluded to his often-quoted statement: "I will never be able to understand how a 9-year-old kid always seems to find the heroin man in the ghetto, but the FBI can't."

The 41-year-old St. Louis native, twice imprisoned for activities involving Chicago blacks and Washington State Indians, stressed that "violence is not the answer—and that may not go over too well with some of you blacks in the audience. If violence were the answer, guns would be as hard to find in the ghetto as a good job."

He talked of America's energy crisis, saying that the petroleum shortage will do "more for integration than anything else in the history of man."

"There is only one place on earth that can supply America with oil," he said. "And that's Africa. But other countries want that oil, and we're the only nation going for it that has a race problem. So you can bet the six or seven families that control things are going to clean that up."

Gregory's speech was scheduled to begin at 9:30 a.m., but was delayed more than a half hour, partially because he refused to appear until two television cameras were dismantled. He closed his talk after 11:30 and—unlike most speakers—walked through the middle of the crowd to exit as he received a standing ovation.

## Gregory speaks 3 hours at SSU

By Chris Dettro

Dick Gregory didn't really say too much during his three-hour speech Wednesday night at Sangamon State University. That is, unless you just sat back and listened instead of trying to figure it all out.

What he was saying, between scathing and irreverent humor and dire predictions of world catastrophes, was that all of us should love and respect one another, and be quick about it. Which is saying quite a bit.

The black comedian and non-violent "human rights" advocate is a believer in the Law of Karma, which he explained consists of negative and positive electronic forces that control the universe. The law is, "for every negative you pile up, you'll get one back," he said. And the same thing goes for positives. Which all boils down to a variation of the Golden Rule, "Do unto others . . . etc." and its enforcement arm saying, "What goes down, comes bound."

He was rough on America, other countries as well, in the "world gone crazy."

Arthur Bremer (the man convicted of shooting George Wallace) tried to tell us he was crazy, but we decided he was sane," Gregory said, and at that same time, Tompkins was tryin' to tell us he was sane, but we decided he was crazy. E.g. Tompkins had a better chance stayin on the Democratic ticket if he'd shot somebody," Gregory said.

Washington ain't never gonna lie to everybody but everybody's hip to the former Southern Illinois University track star and talked of President

"I've got a cousin so stupid he can't find the prize in a Cracker Jack box, but he's hip to Nixon," Gregory said. Gregory, who has not eaten any solid food for two-and-a-half years, and will not until the last prisoners are returned from Vietnam, explained Nixon's "peace with honor."

"That's like if you came home and found me ransacked in your house and ask me what I was doin'. I put a pistol to your head and say 'I was robbin' you, but now I'm lookin' for a way out.'"

After two-and-a-half years of no solid food to protest the war, Gregory said he would not give up eating again "even if they were fightin' in my house. If Rhodesia attacked Harlem, I wouldn't stop. What I'm gonna do for the next war is go down to the nearest Howard Johnson's, sit down and eat until the war's over," he said.

Nixon, he said, "ain't wrapped too tight. He's clever, but not slick. LBJ was slick. Look at how he put the Gulf of Tonkin over on us for five years. And all the Gulf of Tonkin was was two Vietnamese in a fishin' boat who threw a tuna at the Seventh Fleet."

Gregory said he spends "about 98 per cent" of his time speaking on college campuses and called today's youth "the most ethical, moral, committed group of young people that has ever been in America, bar none."

His predictions for the future were frightening, but not pessimistic, because he feels "the whole thing can be turned around tomorrow if you'll just get hip to the trick."

Gregory said that we are moving into the second year of a world-wide food famine, and that by June and especially in the next 18 months the effects will be devastating. "We are heading into one of the worst depressions the world has ever seen," he said.

He also feels that the Central Intelligence Agency is close to taking over the country by being the force behind gas rationing and restricting travel, among other things.

"Eight or nine rich white families in New York are controlling the whole thing, and they keep you thinkin' I'm your nigger while you're theirs," he said.

He said Jim Garrison, the New Orleans attorney who claims that John Kennedy was assassinated by the CIA, "will be a hero soon," and that missing Chicago legal researcher Sherman Skolnick had evidence that a plane crash at Chicago's O'Hare Airport was engineered because the occupants knew too much about CIA involvement in the Watergate affair. Sen. John Stennis and Congressman Hale Boggs, he said, also "knew about the CIA." A health food advocate and

vegetarian, he warned about "protecting your body," and cautioned blacks about sickle cell anemia. "It's only the 21st killer in the black community," he said, "and all this stuff about checking every little black kid for sickle cell . . . You watch, pretty soon they're gonna come up with a vaccine for sickle cell, and all that's gonna do is sterilize every little black kid in America."

"America will be one of the most integrated countries on the face of this earth in the next 18 months," he said, "and those eight or nine people in New York will do it." He said the true energy crisis won't hit until 1985, when the U.S. "will be runnin' 15 million barrels of oil short per day. And the only place we can get that oil is from black Africa."

Gregory talked of "revolutionary pimps who think the more reefer's they smoke and the more alcohol they drink, the sooner the system's gonna change. The only thing they're gonna liberate is a healthy body into a sick, slimy degenerate body."

"True revolution has never been controlled by man, but always by nature. It's just an extension of evolution. Snowflakes, for instance, taught both them freaks Napoleon and Hitler what revolution was all about. Don't go to Russia in the wintertime," he said.

**Dick Gregory charges:****CIA has plotted to over**

Dick Gregory came to San Diego again this past Sunday, and as always, had some startling words:

"There's a guy by the name of Tackwood. He was a CIA agent that was sent out here to California to recruit Black Panthers to kill the President and damn near blow this town to bits during the Republican Convention ... and blame it on the Democrats.

"There was not supposed to be an election; the Constitution was to be suspended and the CIA was supposed to overthrow this government from right here in San Diego."

Brought here by the San Diego Model Ex-offenders, Gregory said that when Tackwood finally

decided to talk, only two "hippie" newspapers and only one national paper (Muhammad Speaks) decided to print the story.

"... Somebody better start answering some questions," the ex-presidential candidate demanded.

"How in the hell did San Diego land the Republican Convention and all at once pretend to the world it couldn't come up with \$400,000.?" he asked.

"They knew what the plan was. They didn't want any part of it."

Gregory then warned, "If somebody doesn't do some hard core digging out here and expose the Watergate for what it is, this might be the last year you're

gonna be able to sit out under the good sun and relax...."

**WATERGATE**

"What's going on with Dick Nixon's administration is not his fault," Gregory explained. "It's America's fault." "Watergate

existed before Nixon got in the White House. And if the American people are not very careful, it's going to exist after he gets out, and it's going to bring this country down to its knees."

Referring to the testimony of John Dean in which the "enemy list" was disclosed, Gregory said, "... But they ain't told you about the master list, baby ... at the bot-

"It's damn time we start getting concerned," he exclaimed.

## 'GET INTO YOUR BODY'

"At the rate things are going today, about four years from now ... 80 per cent of everybody in this country will probably be dead and it ain't got nothing to do with no atom bomb; it's got something to do with nature," Gregory told the audience.

"So I say to you youngsters, you better get into your body ... Anytime you foul up your body, it's like borrowing money from the

bank. One day you got to pay it back.

"When Nature comes to collect her debt, you ain't slippin' through no back door and tell her Momma ain't home.

"So you can sit around and smoke your little cigarettes, smoke your pot, drink all the booze you want," but if you do it, Gregory chided, there's no difference between you and "those guys in Washington, D.C."

"Only it's worse that you do it, 'cause we need you to build a nation that's never been completed."

Enclosed for your information are single copies of the letter from Senator Domenici dated 8/16/73 and the enclosure thereto.

NOTE:

The constituent of Senator Domenici reported he was upset by a joke on television concerning Government "bugging" of comedian Dick Gregory. He requested the Senator to secure an official statement from FBI and other agencies as to whether such agencies have sanctioned, authorized or know of any telephone tapping, other harassment or personal surveillance of Dick Gregory. Subject has regularly appeared as a guest lecturer on college campuses and has criticized U. S. involvement in Vietnam War and treatment of black citizens in U. S. He has urged student participation in antiwar demonstrations, has urged blacks to arm themselves and praised black extremists. He has contacted representatives of Red China and North Vietnam in France. He has been the complainant in various civil rights investigations. While involved in racial demonstrations and other protests, he has been arrested frequently, usually on disorderly conduct-type charges. We instituted investigation in 1968 of Gregory through established sources only as he advocated paralyzing economy of U. S. in order to stop war in Vietnam. Active investigation initiated on 1/21/72 to determine purpose of contacts with Chinese Communists or North Vietnamese and if he was acting as an agent for a foreign principal. Investigation discontinued December, 1972.

Dear Senator Domenici,

We watched a T-V comedy this evening and as a strong supporter of you and the Republican party, I was upset by a "joke" made on the program concerning government bugging, particularly relating to the comedian Dick Gregory.

I would sincerely appreciate it if you would request an official statement from the FBI, the CIA, the IRS, and the White House specifically, and in plain English all of us can understand, whether at any time and under any condition they have sanctioned, authorized or known of any telephone tapping or other harrassment or personal surveillance of Dick Gregory.

If the answer is negative, please request a written signed statement to that effect from each agency. If the answer is affirmative, please request a complete report of same and specify a reasonable time within which a reply is requested, (say 10 days or so).

I have complete confidence in you and our administration. To defend our position and protect us from attack from vindictive, biased, vicious people, we have to get to the truth and lay it on the line, "tell it like it is".

This is a personal request. I have no intention of discussing this with others or publicizing this request.

If there are any government agencies other than those I have listed above that by any stretch of the imagination could be suspected of causing any of the above happening to Gregory, please request the same of them.

After you have checked this matter out thoroughly and documented the position of all possible government agencies in question, please send me full details.

Dear Senator Domenici,

Your letter of Sept. 7th with enclosed letter from Mr. Kelley was received today.

Do you feel, under present conditions, that Mr. Kelley's reply is an acceptable, responsive answer to my inquiry?

Are there other steps that you can take to get an answer to my questions?

I would appreciate a frank and candid indication of your feelings concerning my request.

You may be interested in knowing that this is the first time since I first registered to vote in 1946 that I have ever written a letter to or made a request of a member of congress.

Although it would be easy to file your letter and Mr. Kelley's and forget the matter, and forever afterwards have in the back of my mind a lack of confidence in our government and our officials-never being sure in my own mind whether an individual can question any action of his government and get a direct, simple, truthful and completely responsive answer to his questions-never being sure that things are above board and right with our government. I prefer to follow through in some manner to get the responsive answers I desire.

Will you help?

Yours very truly

[redacted] to [redacted]  
Congressman Barber Conable (R-N.Y.), contacted Inspector [redacted] on 1-2-74 and advised the Congressman had received a communication from a young constituent who is a student at Ohio University. The student indicated that Dick Gregory spoke at the Ohio University campus in late November or early December and alleged that CBS network had prepared a documentary film in which FBI men had stated on camera that they had encouraged bombings and riots. The student said Gregory claimed the Federal Government had prevented CBS from telecasting this film.

[redacted] said he is well aware the Government cannot prevent CBS from televising anything it wishes. He said he was calling to advise us of the alleged comments by Gregory and to see if we might have any information concerning this matter. [redacted] was told we knew of no program which CBS had involving the FBI of recent vintage. He was assured that the FBI has not been involved in inciting bombings and riots and that certainly no FBI personnel had made any such statements. He also was thanked for furnishing this information.

INFORMATIVE NOTE

4/21/75

Date

Attached pertains to Richard C. Gregory, aka Dick Gregory, night club entertainer and civil rights activist. He spoke on campus of University of Miami, Coral Gables, Florida, 4/21/75. His speech, attended by 200-800 students over a three-hour period, reportedly for students only, was attended by some news media representatives.

Speech was designed apparently to recruit students to assist him in his attacks against the Warren Commission, the CIA and the FBI. He called for students to do anything to help do away with CIA, his main target, which he predicted would be dissolved within three months.

Gregory also attacked the FBI and stated he would concentrate his efforts to dissolve the FBI after CIA was dissolved. According to source, he made several personal remarks attacking Director Kelley with innuendoes concerning Director Kelley's activities and associates in Kansas City.

Our files reveal Gregory, who maintains a residence in Chicago, has criticized U. S. involvement in Vietnam, promoted anti-war demonstrations and urged the arming of blacks. He has contacted representatives of Red China and North Vietnam in France. He has been involved in racial demonstrations and other protests and has been arrested frequently in connection therewith.

FAT:dsh

CONTINUED - OVER

We instituted investigation of Gregory in 1968, through established sources only, as he advocated paralyzing the U. S. economy in order to stop the Vietnam War. Active investigation was initiated 1/21/72 to determine nature and purpose of his contacts with Chinese communists and North Vietnamese. Investigation was discontinued 12/72.

During late 1973, he allegedly made unfounded allegations that Columbia Broadcasting System (CBS) network had prepared a documentary film in which FBI men had stated on camera that they had encouraged bombings and riots.

Gregory, over the years, has regularly appeared on university campuses as guest lecturer. His rhetoric has been inflammatory against the U. S. Government, Government officials, FBI and police.

Miami Office had a source in attendance at Gregory's speech which lasted almost three hours and was rambling in nature. At one point Gregory in his remarks alleged the Director had associated with unsavory people in Kansas City and said, "Ask Clarence Kelley if he knows a whore named Thelma," indicating he (Mr. Kelley) was very friendly with this individual in Kansas City. Informant was unable to furnish any more specific details concerning this phase of Gregory's speech. There was no advance publicity to the speech and no publicity appeared in the Miami newspapers following the speech.

**ADDRESSES FRESHMEN****Gregory: Learn  
How to Live**

By KATHLEEN KRUMM, Daily News Staff Writer

Dick Gregory has friends and family in Dayton, but the sober comedian came to town Wednesday to talk to strangers.

About 500 University of Dayton students heard Gregory. Many were freshmen who came because he was the main speaker of the orientation program, and many were black.

GREGORY, 43, advised the freshmen, who start class today, to "tell them to teach you how to live, not how to make a living.

"We're so busy talking about Shakespeare we don't have time to talk about ethics, we don't have time to talk about morality. You got to tell those folks in no uncertain terms they exist to serve your needs. You don't exist to serve their needs."

Fresh from a week-long fast, austere in jeans and a beard, the social critic-comic quoted St. Paul without identifying him.

"THEY TELL me this is a so-called Christian school," he said. "Funny, it looks just like any other school to me."

He jarred the youths with a challenge to mistrust: The CIA, the FBI, the Rockefeller commission, the Warren commission.

He introduced a paranoia of possibilities: The government may want California to fall off and leave the citizens starving; he rekindled the suspicion of conspiracy in the assassinations of Martin Luther King and John and Robert Kennedy. He suggested telephones listen and televisions see what goes

on in homes — and report it to "them."

A DAILY NEWS amusement column in the early sixties called him "the hottest item in show business, with a gentle approach to humor."

Gregory has turned into a popular and acid college speaker who recruits for fasting on Fridays and advises vegetarian eating and return to service.

A librarian at Dayton and Montgomery county public library said, "We can't keep his books on the shelves."

RICHARD CLAXTON GREGORY;  
JANE FONDA

Jane Fonda, well known Hollywood actress and proponent of radical causes, arrived at Tokyo, Japan, December 7, 1971, to tour Japan and Okinawa to promote support for the anti-military and anti-Vietnam War Movement. Originally, Richard Claxton Gregory, well known Negro comedian, was reportedly to be a part of the troupe. However, T-1, [redacted] b7D [redacted] advised that Gregory did not accompany Fonda to Japan. C

On February 29, 1972, United States Naval Investigative Service Office (NISO), Japan, advised that files of that office reflect that a member of the Fonda troupe announced at Iwakuni, Japan, that Gregory was sick and had remained in the United States. However, he (Gregory) hoped to bring his own troupe to Japan at a later date. u

NISO also advised that Gregory definitely did not appear with the Fonda troupe at Iwakuni as was previously predicted. u

T-1 further reported that there is no record of Richard Claxton Gregory entering Japan in December, 1971. Also, T-1 stated that the activity of the Fonda troupe was followed closely during the entire tour in Japan, and the American Negro comedian Dick Gregory did not appear with the group. C (U)
